Data for Newcastle-upon-Tyne, taken from the table for the period October to December 2007, are provided below, and give (1) the number of eligible households on which a decision was taken under the homelessness legislation (referred to as "decisions") during the quarter, of which (2) the number that were accepted as owed a main duty ("acceptances"), and also (3) the number of households in temporary accommodation at the end of the quarter:

Decisions, acceptances and temporary accommodation—Newcastle-upon-Tyne, fourth quarter 2007

	Number
(1) Number of eligible households on which a decision was taken under homelessness legislation ("decisions"), Q4 2007	205
(2) Number of households accepted as owed a main homelessness duty ("acceptances"), Q4 2007	126
(3) Number of households in temporary accommodation as at the end of the quarter (31 December 2007)	49

Housing: Disabled

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many homes were used by Tamworth Borough Council to house disabled people in each of the last five years. [195423]

Mr. Iain Wright: Over the last five years, Tamworth borough council used 146 homes to house disabled people.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 February 2008, *Official Report*, column 1996W, on housing: disabled, what the cost to the public purse has been following the settlement; and if she will make a statement. [196237]

Mr. Iain Wright: The details of the settlement are subject to a binding confidentiality agreement but as my previous answer stated, the Government are satisfied that it represented good value for money.

As also stated in my previous answer the settlement negotiated by the Treasury Solicitor's Department and the Legal Directorate at Communities and Local Government was approved by HM Treasury and counsel as an appropriate settlement representing value for money to the public purse having regard to: the chances of success; professional costs and other fees and expenses

likely to be incurred; irrecoverable costs; the duration of proceedings and further delays to the delivery of public services.

Housing: Finance

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what proportion of Government receipts from right to buy sales have been spent on housing in the last 10 years, broken down by type of housing. [192038]

Mr. Iain Wright: As I stated to my hon. Friend in my answer to him on 21 February 2008, *Official Report*, columns 905-07W, receipts arising from Right to Buy (RTB) sales are interchangeable with all other capital receipts. Therefore, they are not hypothecated to any particular spending at any particular time. However, the Government have consistently invested more in housing than they have received in receipts.

The following table shows total receipts arising from RTB sales as shown in my answer referred above. The Department does not collect how much of those receipts were set aside for debt repayment or paid to the Secretary of State, although it is known that 75 per cent. of these receipts are so treated after administrative, improvement and other costs are taken into account.

The table also shows the overall capital sums invested in housing broken down into investment in council owned housing stock and investment through registered social landlords. The total is greater than the component parts set out as it includes, for the most part, local authority investment in private sector housing. The balance between the total investment figures provided and the sum of the council and registered social landlords figures relate to grants provided to the private sector such as housing market renewal and disabled facilities grant. The figures and this explanation on investment were provided in my answer to my hon. Friend on 17 December 2007, *Official Report*, columns 1140-41W.

	Right to Buy (RTB) Receipts	*Total CLG capital investment in housing*	*(a) council owned stock*	*(b) registered social landlords*
1997-98	890	1,894	909	727
1998-99	911	2,098	1,135	732
1999-2000	1,374	2,173	1,126	815
2000-01	1,426	2,866	1,959	830
2001-02	1,566	3,312	2,378	823
2002-03	2,210	3,598	2,459	1,030
2003-04	2,936	4,685	2,683	1,805
2004-05	2,575	4,767	2,772	1,626
2005-06	1,544	5,106	3,055	1,609
2006-07	1,145	5,194	2,442	1,953

Housing: Low Incomes

Joan Ryan: To ask the Secretary of State for Communities and Local Government (1) what plans her Department has for provision of affordable housing in *(a)* Enfield and *(b)* Greater London; [196795]

(2) what steps her Department is taking to help first-time buyers access affordable housing in the London Borough of Enfield. [196802]

Mr. Iain Wright: The London Plan, the Spatial Development Strategy for London, sets a target of 30,500 net additional homes per year up to 2016-17, which includes 395 for the London borough of Enfield. Of these additional homes, 50 per cent. London-wide should be affordable. As the London borough of Enfield's Unitary Development Plan affordable housing policy was not saved under the new planning system introduced by the Planning and Compulsory Purchase Act 2004, the London Plan 50 per cent. affordable housing target is the default target in the borough.

Of the Housing Corporation's Affordable Housing Programme 2008-11 budget of £8.4 billion, £3.3 billion will be spent in London. Initial national allocations for new schemes of £3.3 billion were announced in February, of these London received total allocations of £603 million of which around £86 million is for low cost home ownership. Of this Enfield will benefit from over 6m of investment in affordable housing. Rather than allocating all their resources at the start of the programme, the Corporation will be returning to the market at regular intervals to seek further bids for funding affordable housing.

We are improving affordability for purchasers accessing the Government's HomeBuy schemes. From April this year two new equity loan products will be available through the Government's Open Market HomeBuy option. The loans provide first time buyers with more flexibility around the percentage of the value of their home which can be borrowed—up to a maximum of 50 per cent.—and more choice in the mortgage they can take out.

In addition, in the Housing Corporation's 2008-11 Affordable Housing Programme we are improving affordability for purchasers of our New Build HomeBuy/shared ownership scheme through smaller shares and lower rents in the Housing Corporation's 2008-11 Affordable Housing programme.

Infrastructure Planning Commission

Dan Rogerson: To ask the Secretary of State for Communities and Local Government how many applications for development consent she estimates the proposed Infrastructure Planning Commission will deal with annually under *(a)* the single commissioner and *(b)* the panel Procedure. [197749]

John Healey: The Planning Bill Impact Assessment, published in November 2007, estimated that the Infrastructure Planning Commission would consider around 45 major infrastructure projects a year. In addition, the May 2007 Planning White Paper made clear that there would also be a larger number of less complex cases, such as works necessary to ensure the operational effectiveness and resilience of the electricity transmission and distribution network. We anticipate that only 30 applications would require the panel procedure; the remainder could be considered under the Single Commissioner procedure.

Infrastructure Planning Commission: Finance

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what estimate she has made of the likely costs for her Department of setting up the Infrastructure Planning Commission proposed in the Planning Bill. [197747]

John Healey: The Planning Bill Impact Assessment, published in November 2007, estimated that the one-off cost of setting up the Infrastructure Planning Commission would be £5 million.

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what estimate she has made of the likely annual running costs of the Infrastructure Planning Commission proposed in the Planning Bill. [197748]

John Healey: As I stated when giving evidence to the Planning Bill Public Bill Committee, we estimate that the average annual cost of the Infrastructure Planning Commission will be £9.3 million per annum. This was set out in the Planning Bill Impact Assessment, published alongside the Planning Bill in November 2007.

Local Authorities: Foreign Workers

Mr. Liddell-Grainger: To ask the Secretary of State for Communities and Local Government what guidance her Department issues to local authorities on safeguarding public money when outsourcing services overseas; what *(a)* financial and *(b)* other restrictions there are on local authorities in undertaking such outsourcing; and if she will make a statement. [196236]

John Healey: Subject to their legal duties, including the duty of best value and public procurement law, local authorities are responsible for taking their own procurement decisions. Public authorities are not able to exclude a company based in a European Union or World Trade Organisation Government Procurement Agreement signatory country on the basis that some of the work may be sourced overseas. The Department has not published guidance specific to the situation where councils choose to outsource services overseas.

Local Government Ombudsman

Mr. Amess: To ask the Secretary of State for Communities and Local Government what legislation governs the powers of the Local Government Ombudsman; what changes have been made to that legislation since enactment; and if she will make a statement. [194200]

John Healey: The legislative framework for the Local Government Ombudsman is provided by Part III of the Local Government Act 1974. This has since been amended by a range of primary legislation to reflect changes in the organisations and local services which fall within the Ombudsman's jurisdiction. Most recently, Part 9 of the Local Government and Public Involvement in Health Act 2007 provided for the modernisation and clarification of the role and working practices of the Ombudsman.

Local Government: Reorganisation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of local government restructuring on the level of council reserves in councils facing restructuring or abolition prior to their restructuring or abolition. [182083]

John Healey: The proposals received by the Government included assessments by each of the proposing councils of the likely call on reserves. On the basis of our independent financial advisers' consideration of the proposals, we judge that creating the nine unitary councils we have decided to implement is likely to require an aggregate one-off call on reserves of less than £80 million which will allow savings of over £100 million annually to be realised.

Manton Community Alliance Neighbourhood Management Pathfinder: Finance

John Mann: To ask the Secretary of State for Communities and Local Government how much funding from the public purse Manton Community Alliance neighbourhood management pathfinder received in each year since 2003; what percentage of such funding supported *(a)* salaries and *(b)* overheads in each year; and what proportion of the pathfinder's revenue such funding represented in each such year. [195641]

John Healey *[holding answer 20 March 2008]:* As a round two pathfinder, Manton NMP was allocated a maximum of £200,000 during stage two (2003-04) to support the development of their strategy. Manton NMP formally launched its strategy on 27 January 2005, moving to stage three, the implementation stage of the national pathfinder programme. They will receive a further £350,000 on average each year, for a maximum of seven years, subject to satisfactory performance.

Since 2005 it has managed to attract over £400,000 of private funding to support regeneration activities in the locality. No private funding has been used to support either salaries or overheads for the scheme.

Between January 2005 and March 2008 Manton Community Alliance have spent 59 per cent. of their total budget on staffing costs including salaries, on costs, insurances and other expenses in line with local government employment conditions. The breakdown for each financial year is as follows:

January 2005 to March 2006: 56 per cent.
April 2006 to March 2007: 59 per cent.
April 2007 to March 2008: 62 per cent.

Between January 2005 and March 2008 Manton Community Alliance have spent 17.1 per cent. of their total budget on overheads. The breakdown for each financial year translates is as follows:

January 2005 to March 2006 19.4 per cent.
April 2006 to March 2007: 16.2 per cent.
April 2007 to March 2008: 15.6 per cent.

Members: Correspondence

Mr. Malins: To ask the Secretary of State for Communities and Local Government when she will reply to the letters from the hon. Member for Woking dated 6 February, 27 February and 5 March 2008 on Mr. Graham Jones. [197586]

Mr. Dhanda: I replied to the hon. Member for Woking (Mr. Malins) on 20 March.

Minister for the East of England: Essex

Mr. Burns: To ask the Secretary of State for Communities and Local Government what issues the Minister for the East of England has worked on that apply directly to Essex since her appointment. [197339]

Mr. Dhanda: The Minister for the East of England has worked on a number of region-wide issues that apply to directly to Essex since her appointment. She has been engaged with local area agreements; the Sub-National Review of Regeneration and Economic Development; the region's growth agenda; water supply; issues relating to coastal flooding and defences and she is also due to meet officials to discuss preparations for the Olympics in the east of England.

She met with the previous chief executive of Thames Gateway, Judith Armitt, and attended the launch of the Thames Gateway Delivery Plan (held at the Docklands, London) in November and December last year.

The Minister for the East of England also visited Thurrock in Essex on 25 February as both Minister for Equalities and Minister for the East of England. She visited the South Essex Rape and Incest Crisis Centre and met with representatives from the local authority and the strategic health authority.

She has also met with senior members and officers from Essex county council and Uttlesford council at a number of region-wide events and has been engaged with Essex media such as the *East Anglian Daily Times* and the *Colchester Evening Gazette*.

Mr. Burns: To ask the Secretary of State for Communities and Local Government how many times the Minister for the East of England has visited Essex since her appointment; and for what reasons. [197359]

Mr. Dhanda: The Minister for the East of England visited Thurrock in Essex on 25 February as both Minister for Equalities and Minister for the East of England. She visited the South Essex Rape and Incest Crisis Centre and met with representatives from the local authority and the strategic health authority.

The Minister is also due to visit Thurrock in June to host a region-wide skills meeting and again in July to meet with the county council and other county partners to discuss their priorities.

Planning Permission: Flood Control

Mr. Grogan: To ask the Secretary of State for Communities and Local Government how many planning applications opposed by the Environment Agency on the basis of flood risk were subject to scrutiny by the Secretary of State in accordance with Planning Policy Statement 25 in *(a)* 2006 and *(b)* 2007; and what the (i) location and (ii) outcome of each application was. [194102]

Caroline Flint: Eleven planning applications were referred to the Secretary of State in 2007 under the Town and Country Planning (Flooding) (England) Direction. These were applications for major development in flood risk areas to which the Environment Agency had objected. Details are tabled as follows. Most of them have been referred back to the local planning authority for decision. This shows that the Direction is working as intended, because it requires the local planning authority, the applicant and the Environment Agency to explore ways in which to address the Environment Agency's concerns.

The Secretary of State called-in and decided a further five planning applications during 2006 and 2007, not under the Direction, where flooding was a main issue. Details of these are included in the following table.

	Application type/Location	*Outcome*
Flooding Direction application		
2007	Ipswich, Suffolk	Referred back to LPA for decision
	Greenwich, London	Referred back to LPA for decision
	Burton on Trent, East Staffordshire	Referred back to LPA for decision
	Worcester, Worcestershire	Referred back to LPA for decision
	Maidenhead, Berkshire	Called-in for decision by Secretary of State
	Weymouth, Dorset	Referred back to LPA for decision
	Heybridge, Essex	Referred back to LPA for decision
	Maidenhead, Berkshire	Called-in for decision by Secretary of State
	Truro, Cornwall	Referred back to LPA for decision
	Ipswich, Suffolk	Called-in for decision by Secretary of State
	Southampton, Hampshire	Called-in for decision by Secretary of State
Called-in planning application		
2006	Egham, Surrey	Planning permission granted
2007	Crowle, North Lincolnshire	Planning permission refused
	Germany Beck, York	Planning permission granted
	Germany Beck, York	Planning permission granted
	St. Austell, Cornwall	Planning permission refused

Planning: Children in Care

Paul Rowen: To ask the Secretary of State for Communities and Local Government (1) whether she has considered amending planning guidance to ensure that private children's homes require planning permission before operating in former private residential properties; [196860]

(2) what discussions she has had with the Secretary of State for Children, Schools and Families on the regulation of private children's homes operating in residential properties; [196861]

(3) what representations she has received on private children's care homes which operate from residential properties; [196862]

(4) what representations she has received on the operation of private residential children's homes by the company Green Corns; [196863]

(5) whether she has had discussions with the Local Government Association on the regulation of private children's homes operating in residential properties. [196864]

Mr. Iain Wright: Amendments to the Town and Country Planning (Use Classes) Order 1987 were made in 2005 following extensive consultation. The consultation process did not draw significant concerns regarding the status of children's homes in the Use Classes Order.

Under existing planning regulations, the conversion of a residential dwelling to a children's home may require planning permission, depending on the characteristics of the proposed domestic arrangements and whether these are deemed to result in a material change of use. It is for each local planning authority to determine in the first instance, on a case-by-case basis, whether a material change of use is proposed and therefore whether planning permission is required.

Under the Use Classes Order, a children's home may fall within the C2 Residential Institutions or C3 Dwelling Houses use class. Generally speaking, the conversion of a residential dwelling into a children's home which is considered to fall within the C2 use class would require planning permission, while a conversion to a children's home falling within C3 use class would not.

The key test for whether a dwelling house used for non-family purposes should fall within the C3 Dwelling Houses use class is the concept of a single household. It would be difficult, in planning land-use terms, to differentiate between a dwelling house occupied by a group of young adults living together as a single household, from say a dwelling house used as a small children's home where the occupants live together as a single household.

The single household concept provides more certainty over the planning position of small group homes (such as children's homes) which play a major role in the Government's community care policy. This policy is aimed at enabling people who need an element of care to live as normal lives as possible in touch with the community.

The Department has received a small number of representations on this issue over the last year. One of these representations was from the hon. Member for Rochdale (Paul Rowen), and contained correspondence from a constituent and a local planning authority. This representation referred to operation of private children's homes by the company Green Corns Ltd.

The Department has not held any recent discussions with the Secretary of State for Children, Schools and Families nor the Local Government Association on this matter.

Press

Mr. Laws: To ask the Secretary of State for Communities and Local Government what the cost of the press offices of *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies were in each year since 1996-97; what the cost was in each quarter since 1st April 2007; and if she will make a statement. [189669]

Mr. Dhanda: The Department was established in 2006. The pay costs for the Department's press office in 2006-07 were £1,108,068.75.

For costs of the press office in our predecessor department, I refer the hon. Member to the answer given on 20 July 2005, *Official Report*, column 1772W, to the hon. Member for Sutton and Cheam (Mr. Burstow).

Information on agencies and non-departmental bodies is not held centrally and could be provided only at disproportionate cost.

Southwest One

Mr. Liddell-Grainger: To ask the Secretary of State for Communities and Local Government (1) if she will place in the Library a copy of the business case related to the provision of public services by single joint venture partnerships; and if she will make a statement; [194931]

(2) what estimate she has made of forecast effects on costs of the procurement of local services by Southwest One, broken down by area of service provision; [194935]

(3) what assessment she has made of the effects on existing local services in Somerset County Council and Taunton Deane Borough Council of the recent contract with Southwest One; and if she will make a statement; [194938]

(4) how much was paid from the public purse to IBM *(a)* prior to and *(b)* in connection with the establishment of (i) the joint venture partnership in the South West and (ii) Southwest One. [194940]

Mr. Dhanda: The Department has not been involved in the process of developing the Southwest One partnership. The questions that you raise in relation to Southwest One are for Somerset county council and Taunton Deane borough council to answer. With respect to policy, we believe that councils can gain greater value for money through joint venture partnerships in some cases. Councils should, therefore, consider this as a potential option where appropriate.

Mr. Liddell-Grainger: To ask the Secretary of State for Communities and Local Government (1) what contractual provisions on *(a)* accountability, *(b)* audit and *(c)* assurance of value for money there are in the agreement between Taunton Deane Borough Council and South West One over the provision of public services; what contractual provisions there are in the agreement relating to the role of the Audit Commission; and if she will make a statement; [194137]

(2) who is on the permanent board of Southwest One; [194138]

(3) what estimate she has made of the effect on costs to the public purse of the contract with Southwest One in each of the next five years, broken down by public sector client; [194146]

(4) what her policy is on the provision of *(a)* further public services and *(b)* public services to further public sector clients by Southwest One beyond the borders of the South West Regional Development Agency; and if she will make a statement; [194147]

(5) what the cost of the contract for the provision of services by Southwest One has been to date; how much has been allocated for such provision in each of the next three years; and if she will make a statement; [194150]

(6) what estimate she has made of the effect on costs to the public purse of the contract with Southwest One in *(a)* 2007-08 and *(b)* 2008-09; and if she will make a statement; [194160]

(7) what process was followed in appointing IBM as preferred bidder to join Somerset County Council and Taunton Deane Borough Council in establishing the joint venture partnership Southwest One; what her role was in this process; and if she will make a statement; [194156]

(8) if she will make a statement on the future of public service provision by Southwest One; and what her policy is on the outsourcing of local services to joint venture partnerships. [194159]

Mr. Dhanda: The Department has not been involved in the process of developing the Southwest One partnership. The questions that you raise in relation to Southwest One are for Somerset county council and Taunton Deane borough council to answer.

With respect to policy, we believe that councils can gain greater value for money through joint venture partnerships in some cases. Councils should, therefore, consider this as a potential option where appropriate.

Mr. Liddell-Grainger: To ask the Secretary of State for Communities and Local Government what discussions took place with *(a)* the South West Regional Development Agency and *(b)* the Government Office of the South West prior to the contract with Southwest One for the provision of public services being finalised. [194148]

Mr. Dhanda: As part of their normal interaction with Somerset county council and Taunton Deane borough council, the South West of England Regional Development Agency and the Government office for the south-west were both aware of the developing proposals for Southwest One, but they had no formal discussions with either the local authorities concerned or the Department about it.

Written Answers to Questions

Tuesday 1 April 2008

ELECTORAL COMMISSION COMMITTEE

Electoral Register

Mr. Spellar: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission plans to produce standard forms for *(a)* electoral registration and *(b)* applications for postal votes. [197578]

Peter Viggers: The Commission informs me that it provides standard forms for electoral registration and for postal vote applications both in print and downloadable format.

These forms are not prescribed in legislation. While electors and Electoral Registration Officers may use the Commission-supplied forms, they are under no obligation to do so. The sole registration form to be prescribed in regulations is the canvass form. The Commission does not provide this form as it is already set out in legislation.

Rackspace

Mr. Hands: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the value was of each contract awarded to Rackspace by the Electoral Commission in each of the last nine years. [197520]

Peter Viggers: The Electoral Commission informs me that the relevant financial records are readily available only from 2003 onwards and since that time no contracts have been awarded to Rackspace.

SCOTLAND

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Scotland at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196945]

David Cairns: We serve wine at all receptions held by the Scotland Office. We have served Fairtrade wine at one reception in the past three years. The Scotland Office has a policy of using local produce wherever possible so as to reduce 'food miles' and our carbon footprint in line with Government targets for sustainable development. The wine served is organically grown and uses recycled packaging materials. We are currently drafting a policy for hospitality procurement. The policy will be designed to promote Fairtrade and sustainable development wherever possible.

Departmental Consultants

Mr. Hoban: To ask the Secretary of State for Scotland what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196814]

David Cairns: No payments were made to these companies and other firms for consultancy work during 2006-07.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Scotland when his Department plans to publish its sustainable operations policy statement. [195896]

David Cairns: The Scotland Office is part of the Ministry of Justice for these purposes. The Ministry of Justice published its Sustainable Development Action Plan on 14 March 2008. It sets out the vision for sustainable development in the Ministry of Justice, how sustainable development will be incorporated into the operations and policy making of the Department, the key commitments and how the plan will be delivered.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Scotland how many staff in his Department attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197069]

David Cairns: None.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Scotland if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195897]

David Cairns: The Scotland Office encourages staff to consider video conferencing facilities first before travelling to meetings. However, this does not always prove possible and a target is not considered appropriate.

Rackspace

Mr. Hands: To ask the Secretary of State for Scotland what the value was of each contract awarded to Rackspace by his Department in each of the last nine years. [197518]

David Cairns: Nothing.

HOUSE OF COMMONS COMMISSION

Visitor Reception Building

Mr. Greg Knight: To ask the hon. Member for North Devon, representing the House of Commons Commission when the Cromwell Green Visitor Entrance will be opened; and what the reasons for the time taken are. [197903]

Nick Harvey: I refer the right hon. Member to the reply I gave on 10 March 2008, *Official Report*, column 3W. A large scale internal trial was successfully carried out on 28 March, and limited use by the public has now begun to complete the trial programme.

TREASURY

Freedom of Information

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1489W, on Northern Rock: freedom of information, (1) how many of the 31 freedom of information requests have been refused; and what were the grounds in each case; [195905]

(2) in how many cases information was *(a)* wholly and *(b)* partly exempted; and how many requests were answered in full. [193518]

Angela Eagle: HMT assesses FOI requests on their individual merits and summary data on the Department's cases are collated and published by MoJ on a quarterly basis. Since your previous request further FOI requests have been received.

Many of these requests seek extensive amounts of information and exceed the costs regime for processing FOI requests. In these cases, requestors have been invited to narrow their requests to bring them within the cost limit. Other requests seek information that has already been published or information that the Government intend to publish in the future; in six cases HMT has refused in full as the information sought comprised information provided to the Government in confidence, commercially sensitive information, and policy advice where the policy process is yet to conclude.

Departmental Data Protection

Mr. Weir: To ask the Chancellor of the Exchequer whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193451]

Angela Eagle: Other than in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Plants

Mr. Hoban: To ask the Chancellor of the Exchequer how much his Department spent on pot plants in each of the last five years. [192050]

Angela Eagle: For information on 2006-07 I refer the hon. Member to the answer given to him by the former Financial Secretary to the Treasury, my hon. Friend the Member for Wentworth (John Healey), on 7 November 2006, *Official Report*, column 1022W. For information on 2005-06 I refer the hon. Member to the answer given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 2 May 2007, *Official Report*, column 1743W. Information on earlier years could be provided only at disproportionate cost.

Economic Situation

Mr. Meacher: To ask the Chancellor of the Exchequer what steps he is taking to contribute to *(a)* tackling the turbulence in the international financial markets and *(b)* preventing such crises in future. [195187]

Angela Eagle *[holding answer 18 March 2008]:* On 30 January 2008 the Treasury, Bank of England and the FSA published the consultation paper Financial stability and depositor protection: strengthening the framework. It includes proposals related to strengthening the stability and resilience of international financial markets and preventing crises in the future. The Government have also taken actions to address problems in the markets for mortgage backed securities (MBS). On 6 March the Government introduced new regulations for covered bonds, which will increase the pool of potential investors and strengthen market confidence in the longer term. The Government announced at Budget a Working Group that will take forward market initiatives to improve liquidity in the MBS market. Financial market turbulence has been global and also demands a global response. That is why the Government support, and is heavily involved in, the EC and G7 work programmes aimed at improving the stability and resilience of the financial system for the future.

Northern Rock: Consultants

Mr. Hoban: To ask the Chancellor of the Exchequer for how long Goldman Sachs will be retained in its role as financial adviser to HM Treasury on Northern Rock. [188857]

Angela Eagle: The financial adviser in question will be retained for as long as necessary for the purpose of restructuring of Northern Rock, as is normal and proper in company restructuring of a similar scale to this.

Northern Rock: Nationalisation

Mr. Hands: To ask the Chancellor of the Exchequer who among his ministerial team has lead responsibility for Northern Rock while in temporary public ownership; if he will take steps to provide for the answering of oral questions by that Minister on Northern Rock under arrangements equivalent to those established for the Minister for the Olympics; and if he will make a statement. [190569]

Angela Eagle: Responsibility rests with the Chancellor of the Exchequer, assisted by other Treasury Ministers as appropriate. The Chancellor has undertaken to keep the House informed of developments relating to Northern Rock. He has no plans to change the arrangements for answering parliamentary questions on the matter.

Norwich Union

Derek Wyatt: To ask the Chancellor of the Exchequer whether he has had discussions with Norwich Union and the Prudential on their inherited estate proposals; and if he will make a statement. [198256]

Angela Eagle: The management of the insurance inherited estate is a matter for the Regulator, the Financial Services Authority (FSA), which sets the rules covering the management of with-profits funds.

Private Finance Initiative: Liability

Stewart Hosie: To ask the Chancellor of the Exchequer what the timescale is for ensuring that private finance initiative and private public partnership liabilities will henceforth be recorded as Government liabilities. [190037]

Angela Eagle: Budget 2008 announced that from 2009-10 the annual accounts of Government Departments would be prepared using International Financial Reporting Standards (IFRS) adapted as necessary for the public sector.

The accounting guidance in relation to private finance initiative and public private partnership (PPP) under IFRS is being finalised. The Treasury is working with the Financial Reporting Advisory Board to include the guidance in the IFRS based Government Financial Reporting Manual. It will form the basis for determining the appropriate balance sheet treatment of all PFI and PPP liabilities.

Tobacco: Belgium

Mike Penning: To ask the Chancellor of the Exchequer if he will make representations to the relevant EU Commissioner on the effects on independent tobacco retailers in the United Kingdom of illegal sales of tobacco imported from Belgium. [196872]

Angela Eagle *[holding answer 26 March 2008]:* HM Revenue and Customs has a strategy in place to tackle tobacco smuggling which was refreshed at Budget 2006 when the Government published a paper 'New Responses to New Challenges: Reinforcing the Tackling Tobacco Smuggling Strategy'. New measures have recently been introduced to address the smuggling of tobacco from other countries, including legislation which places an obligation on tobacco manufacturers not to facilitate smuggling, and the incorporation of a covert anti-counterfeit security mark on packs of cigarettes and hand-rolling tobacco. The introduction of the security mark supports legitimate retailers by creating a deterrent to counterfeit products infiltrating the retail supply chain.

In addition, HM Revenue and Customs is committed to supporting legitimate businesses and in this context works closely with the Tobacco Alliance: Retailers Against Smuggling'.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what plans his Department has for provision of financial support to farms after 2013. [196198]

Jonathan Shaw: Decisions on financial support to farms under the Common Agricultural Policy (CAP) post-2013 will be reached during the EU future financing negotiations for 2014-20, which should commence in 2010-11.

The joint DEFRA/Treasury Vision for the CAP, published in 2005, envisages the abolition of Pillar 1, including direct support payments to farmers, by 2015-20. A central tenet of this Vision is that farmers should be rewarded by the market for their outputs, and by the taxpayer only for producing societal benefits that the market cannot deliver. Our Vision foresees that with Pillar 1 abolished, residual EU spending on agriculture would be based on Pillar 2.

Atlantis Initiative

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on his Department's initiative of the Atlantis Initiative; which other Government Departments and other bodies participate in it; what funding has been allocated to it; and who co-ordinates this Initiative. [197398]

Mr. Woolas: Atlantis is a combined initiative by organisations within Government to make data more readily accessible to support flooding and water management.

Organisations in the Atlantis Initiative are Ordnance Survey, the Met Office, the British Geological Survey, the Hydrographic Office, the Centre for Ecology and Hydrology and the Environment Agency.

There is no funding available to the Atlantis Initiative. Co-ordination is through a Programme Executive Board made up of chief executives of each organisation or their representatives.

Birds: Trade

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of the EU ban on wild bird imports on the illegal wildlife trade in birds in the UK; what research his Department has conducted on the matter; and if he will make a statement. [197007]

Joan Ruddock *[holding answer 31 March 2008]:* In December 2006, DEFRA let a contract to assess the impact of the restrictions brought in by Commission Regulation 318/2007 in March 2007. The contractors were asked to assess the impact of the current import ban on wild birds on illegal trade levels, as well as the related risk of the introduction of exotic diseases to native and domestic bird populations. Completion of the report was delayed to enable the contractors more time to obtain and assess data. The contractors draft report has however now been submitted to DEFRA.

and it is being considered to ensure its accuracy and that the contract terms have been met. It is anticipated that the report will be finalised and published either in April or May. In addition, Government continue to support the national wildlife crime unit which acts as a monitor on the illegal trade in such species in the UK.

Bluetongue Disease: Disease Control

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what contingency arrangements are in place for higher than expected demand for bluetongue vaccinations. [196211]

Jonathan Shaw *[holding answer 25 March 2008]:* At this stage it is difficult to forecast the extent to which Bluetongue will have spread geographically by the time vaccine is delivered, or what demand for vaccine will be. However, following some estimates of likely take-up of vaccine from industry and expert recommendations on where we could expect the disease to be present this year, we have ordered 20 million doses for use in England (and a further 2.5 million doses are reserved for use in Wales). The UK was the first member state affected by the current outbreak to place an order for vaccine. We are considering with industry how best to secure future supplies.

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs for how many serotypes of bluetongue a vaccine is available; and for how many serotypes vaccine research is being conducted. [196216]

Jonathan Shaw *[holding answer 25 March 2008]:* Live attenuated vaccines have been developed for most Bluetongue serotypes. However, we would not normally consider using live vaccines as a disease control measure as there are significant potential risks associated with them.

We are aware of inactivated vaccines which have been developed for Bluetongue serotypes 1 and 4. An inactivated vaccine is currently being developed and produced for serotype 8, the serotype currently in circulation in parts of England, and the UK has placed an order with Intervet for 22.5 million doses.

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the *(a)* wholesale and *(b)* final on-farm price of bluetongue vaccine in (i) 50 ml and (ii) 20 ml bottles. [196435]

Jonathan Shaw *[holding answer 25 March 2008]:* The vaccine we have ordered from Intervet will be available in 50 ml and 20 ml bottles, and livestock keepers will be able to purchase vaccine through their private vets via veterinary wholesalers. The wholesale "list" price is likely to be £22.02 for the 50 ml bottles and £13.10 for the 20 ml bottles. However, it is expected that the final on-farm price is likely to be between £27.50 and £33.00 for the 50 ml bottles (i.e. around 55 to 66 pence per ml) and between £16.35 and £19.65 for the 20 ml bottles (i.e. around 82 to 98 pence per ml) plus VAT. This will allow the wholesalers and veterinary organisations to cover the overhead, handling and administration charges throughout the distribution process. The on-farm price will be dependent on arrangements between keepers, their private vets and veterinary wholesalers.

Bluetongue Disease: Vaccinations

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the merits of a compulsory national vaccination programme against bluetongue disease. [196203]

Jonathan Shaw: In collaboration with a core group of industry stakeholders, the Government fully considered the option of a compulsory vaccination programme. However, this would cost the farming industry at least 50 per cent. more than voluntary vaccination and, because of the associated increase in regulatory burdens, would slow down the distribution of vaccine in a situation where speed will be of the essence. Moreover, the lack of scientific evidence to support an immediate prospect of eradication through vaccination suggests that the case for compulsion is weak.

Together with the core group, the Government have therefore developed a vaccination plan that avoids the negative consequences of compulsion, but promotes mass take-up of the vaccine through an industry-led campaign.

Bovine Tuberculosis

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of agricultural land comprises farms affected by bovine tuberculosis in the last 12 months. [196204]

Jonathan Shaw: This information is not held by DEFRA or Animal Health.

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in *(a)* England, *(b)* Cumbria and *(c)* Copeland have recorded cases of bovine tuberculosis over the last five years. [196205]

Jonathan Shaw: The number of individual new bovine TB herd breakdowns in England and Cumbria in each of the last five years is given in the following table. It is not possible to break the data down to a constituency level.

Number of new bovine TB herd breakdowns

	England	*Cumbria*
2003	2,516	70
2004	2,612	65
2005[1]	2,904	41
2006[1]	2,721	28
2007[1]	3,183	15

[1] 2005-07 figures are provisional and subject to change as more data becomes available.

Source:
Animal Health database (Vetnet)

Bovine Tuberculosis: Disease Control

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs how his Department plans to reduce the spread of bovine tuberculosis involving badgers. [196202]

Jonathan Shaw: Bovine tuberculosis (bTB) is a complex issue which must be considered in the round, not in terms of badger culling versus cattle controls. We know that the disease can be spread by both cattle and badgers.

Our improved cattle control measures, including pre-movement testing and the increased use of the gamma interferon blood test, are having a positive effect by helping detect infected animals that would otherwise have been missed. We have also been working with stakeholders to raise awareness of simple biosecurity measures to keep cattle and badgers apart. We intend to continue to work with farmers and vets to encourage a high level of compliance with these vital measures.

We are also investing in an extensive programme of research, including improved diagnosis of the disease and developing a vaccine for cattle and/or badgers.

No decision has yet been made on badger culling to control TB in cattle. However, we are carefully considering all the evidence, including the Final Report of the Independent Scientific Group on Cattle TB, the assessment of the evidence on badger culling produced by the former Chief Scientific Adviser, and the recently published report of the Environment, Food and Rural Affairs Committee.

Any decision will need to take account of the impact of any proposed measure on the disease, the science, public acceptability and the practicalities of implementation. Whatever the decision, cattle controls will continue to be vital in our fight against bTB.

Carbon Emissions: Companies

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of *(a)* the performance of and *(b)* the methods used by energy companies in achieving their energy efficiency commitments. [196886]

Mr. Woolas: Ofgem administers the Energy Efficiency Commitment. For EEC2, which is due to finish on 31 March 2008, Ofgem has published regular quarterly updates on the progress made by suppliers to meet their targets. The latest report was published in February 2008 and indicates that all suppliers have met their non-priority group targets, but that, with one quarter remaining, there was still some activity remaining in the priority group. Ofgem will publish the final report on EEC2, with details of insulation and other measures employed, in July 2008.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192226]

Jonathan Shaw: The core departmental expenditure on advertising initiatives for the past four available financial years are listed in the following table:

Campaign	*Financial year*	*Spend (£)*
Are you Doing Your Bit	2002-03	141
Illegal Imports	2002-03	293,143
Illegal Meat Imports	2003-04	119,146
FMD Exercise	2004-05	4,145
Passports for Horses	2004-05	46,719
Climate Change	2005-06	661,120
Environment Direct	2005-06	221,337
Illegal Food Imports	2005-06	75,030
Climate Change	2006-07	627,216
One Planet Living	2006-07	459,659
Environment Direct	2006-07	89,773
Illegal Meats	2006-07	38,582

This includes communications on a wide range of matters, much of it necessary or beneficial to the public and the wide range of industries in which DEFRA has an interest, together with local government, voluntary organisations and other bodies.

Individual records of spend for DEFRA's non-departmental public bodies, agencies and financially sponsored organisations are not held centrally and could be obtained only at disproportionate cost.

Flood Control: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what access to the Environment Agency's national flood and coastal defence database is provided to insurance companies. [197754]

Mr. Woolas: Insurance companies do not have direct access to data from the national flood and coastal defence database.

Some specific datasets and associated attributes (for example, historic flood events and spatial flood defences) have been approved for access and are, therefore, available under licence from the Environment Agency. The Association of British Insurers have been made aware of these.

Any other requests for information from the national flood and coastal defence database are assessed on a case-by-case basis.

Floods: Housing

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with insurance industry representatives on proposals within the Thames Gateway Interim Plan area to build homes in areas vulnerable to flooding; and if he will make a statement. [197241]

Mr. Woolas: DEFRA is involved in discussions with the Association of British Insurers (ABI) at official and ministerial level. The Government works with the ABI to maximise the availability of flood insurance cover which remains available to the great majority of households in areas of flood risk.

The Environment Agency has had continued dialogue with the ABI regarding the Thames Estuary 2100 Project. Both the ABI and individual insurers have been invited to participate in Environment Agency consultations which have been designed to develop the draft Final Plan (which will, in turn, go out to consultation in spring 2009).

The Environment Agency has not had specific engagement with the ABI regarding current development

and flood risk in the Thames Gateway, but the Agency does apply the guidance set out in PPS25 (Development and Flood Risk).

Foot and Mouth Disease: Finance

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent estimate is of the financial cost to the farming industry of the foot and mouth outbreaks in 2007. [196197]

Jonathan Shaw: DEFRA's current estimate of the economic cost to the UK livestock sector of the movement restrictions and the ban on exports, imposed as a result of foot and mouth disease and bluetongue, is over £100 million.

Home Energy Efficiency Scheme

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been paid to firms involved in the Warm Front scheme. [197041]

Mr. Woolas: Warm Front spend since the scheme's inception in 2000 is outlined as following:

Scheme year	*Approximate total spend/budget (£ million)*
2000-01	72
2001-02	197
2002-03	163
2003-04	164
2004-05	166
2005-06	192
2006-07	320
2007-08	350

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place to ensure that work carried out by contractors for the Warm Front scheme is done by qualified staff. [197042]

Mr. Woolas: Installers working on Warm Front must hold current qualifications to professionally recognised standards, such as Corgi, NICEIC and BBA, and as a minimum must carry £10 million Employers and £3 million Public/Products Insurance liability cover.

Installers are audited twice yearly on operational, financial and health and safety practises, which include random checks of works carried out and the qualifications of persons who undertake them.

Meteorological Office: Floods

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs who co-ordinates work on flooding carried out by *(a)* the Meteorological Office and *(b)* Ordnance Survey. [197401]

Mr. Woolas: The Environment Agency is responsible for providing the lead on fluvial and coastal flooding.

The Environment Agency works closely both with the Met Office and Ordnance Survey who provide weather information and mapping information respectively. This is then used to aid the Environment Agency in their decision making on flood-related work.

Nanotechnology

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward the timing of the decision on moving to a compulsory reporting scheme on nanotechnologies. [196965]

Mr. Woolas: The Department intends to review the voluntary reporting scheme on nanotechnologies in October 2008, as planned. However, in liaison with industry and academia, we are currently seeking to remove disincentives to reporting by simplifying the guidance and providing assistance with completing the documentation.

Ozone Layer: EC Law

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to implement EC Regulation 2037/2000 on the disposal of ozone depleting substances. [197117]

Mr. Woolas: EC Regulation 2037/2000 on ozone-depleting substances is directly applicable in the UK. This includes Article 16, which deals with the recovery for destruction or for recycling or reclamation of ozone-depleting substances. Under separate national regulations applicable to Great Britain and Northern Ireland, any person having control of such substances has a duty to comply with Article 16. Any person who fails to do so is committing an offence.

Thermal Insulation: Housing

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* Ofgem, *(b)* energy companies and *(c)* the devolved administrations on the insulation of hard-to-treat homes; and if he will make a statement. [196883]

Mr. Woolas: My ministerial colleagues and I have had regular discussions with Ofgem, energy companies and the devolved administrations as part of developing the Carbon Emissions Reduction Target (CERT), launched on 1 April. CERT has been specifically designed to encourage suppliers to promote innovative measures appropriate to hard to treat homes, such as solid wall insulation and heat pumps, by way of an uplift in scores. Suppliers can also use an option in the Priority Group, under which they receive a further uplift for solid wall insulation installed in the homes of those on benefits or for ground source heat pumps installed in the homes of those on benefits and off the gas grid.

Equally, the Government's review of the Fuel Poverty Strategy is exploring the role of alternative technologies in alleviating fuel poverty, including those who could not be assisted by established insulation or heating measures.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of feasible methods of insulating hard-to-treat homes; and if he will make a statement. [196884]

Mr. Woolas: Finding innovative, cost-effective and attractive ways of insulating hard to treat homes will be core to both our carbon saving and fuel poverty alleviation ambitions. To inform policy development and stimulate market transformation:

we commissioned a study from the Building Research Establishment to look at the extent of hard to treat homes in England and to consider different technical options for treating them. Part one of the study (on the extent) has already been published with the second part to be published in the summer;

we included an innovation ring-fence and flexibility option under the Carbon Emissions Reduction Target to allow suppliers to trial more expensive measures—we expect 150,000 households to benefit from Solid Wall Insulation under CERT;

we are providing the Energy Saving Trust with £1 million under the Environmental Transformation Fund to support market research into several innovative efficiency products, including the development and field trials of alternative forms of solid wall insulation, and;

Warm Front, the Government's main programme for eradicating fuel poverty in vulnerable households, has mechanisms in place to locate and assess the suitability of alternative technologies for use in the scheme, with a particular emphasis on those that could potentially provide solutions for hard-to-treat properties. As part of this process, we are currently piloting solar thermal units in off-gas property.

NORTHERN IRELAND

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Northern Ireland which of his Department's initiatives have been advertised to the public; and what the cost of each such campaign was in each of the last 10 years. [192222]

Mr. Woodward: The information requested is not available for the last 10 years. The following table provides information on the initiatives which have been advertised to the public by the Northern Ireland Office and its agencies for the period 2004-05 to 2006-07.

	Initiatives Advertised to the Public	*Cost (£)*
2004-05	Stay Safe Stay Secure	56,777.80
	Theft from Vehicles	88,918.96
	Total	145,696.76
2005-06	Unknown Caller TV Ad	104,935.29
	Theft from Vehicles	86,365.57
	Community Safety Week	26,196.00
	Neighbourhood Watch Signs	12,996.00
	Project RIOH	8,415.35
	Tackling antisocial behaviour leaflet	3,200.00
	Newry Plasma Screen	60,000.00
	Youth Conference TV advert	47,100.00
	Total	349,208.21
2006-07	Domestic Violence[1]	50,000.00
	Knife Carrying[1]	58,000.00
	Project RIOH	57,081.79
	Domestic Burglary	51,298.89
	Theft from Vehicles	30,000.00
	HIPA Scheme	6,186.09
	Business Crime Postcards	6,894.53
	Message in a Bottle	25,843.00
	Crime Prevention and Home Safety Tips for Older People	1,298.00
	SOS Bus	42,553.19
	Community Safety Magazine	4,784.00
	Total	333,939.49

[1] The NIO jointly funded these campaigns with the DHSSPS and PSNI—amounts shown are the NIO's contribution to the campaigns.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Northern Ireland what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197152]

Mr. Woodward: My predecessor attended a summit of the British Irish Council at the Excel Conference Centre, London, on 2 June 2006.

Neither myself, nor my predecessors have visited any of the other listed venues in a ministerial capacity between 1 January 2005 and 31 December 2007.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Northern Ireland what the hourly rates of pay of all non-permanent staff working for his Department were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196444]

Mr. Woodward: The hourly rates paid to employment agencies for agency staff used by the Department varies from agency to agency and is not readily available, and could be provided only at disproportionate cost.

The hourly rates paid to staff on fixed term contracts and on temporary contracts for less than 51 weeks in each of the last 12 months could be provided only at disproportionate cost. The following table provides a snapshot of the position in two particular months over the last 12 months.

	Hourly rate of pay	*Number of staff*
March 2007	£17.26	3
	£15.82	1
	£13.72	1
	£11.48	1

	Hourly rate of pay	Number of staff
	£11.32	1
	£9.38	1
	£7.88	1
	£5.51	21
Total		30
February 2008	£18.25	2
	£17.79	1
	£16.25	1
	£14.02	1
	£11.87	1
	£11.75	1
	£11.60	3
	£8.23	1
	£5.78	15
Total		26

Departmental Pensions

David Simpson: To ask the Secretary of State for Northern Ireland how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193559]

Mr. Woodward: There were 65 members of staff in the Northern Ireland Office (3 per cent. of the total number of staff employed by the Department) making additional voluntary pension contributions through deductions from their pay in February 2007.

This has decreased to 63 members of staff (but remains at 3 per cent. of the total number of staff employed by the Department) who were making additional voluntary pension contributions through deductions from their pay in February 2008.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Northern Ireland when his Department plans to publish its sustainable operations policy statement. [195876]

Mr. Woodward: My Department has aligned itself with the NI Sustainable Development Strategy and Implementation Plan, launched by the then Secretary of State for Northern Ireland, my right hon. Friend the Member for Neath (Mr. Hain) in 2006, and now being taken forward by the NI Executive.

The NI Executive is currently carrying out a review of its approach to Sustainable Development and as part of that process has asked Departments to revise their policy statements. The NIO is revising its policy statement and when this exercise is completed we will place a copy of the new statement on the NIO website and in the House of Commons Library.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland how many staff in his Department have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197068]

Mr. Woodward: One person attended the Managing your Confidence training course in the past 12 months at a cost of £1,149.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Northern Ireland if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195877]

Mr. Woodward: My Department makes regular use of the video conference facilities it has in its offices in Belfast and London. These facilities are capable of handling multi person meetings and therefore significantly reduce the level of travelling required between both locations. Staff are actively encouraged to use these facilities to reduce travel cost and save time. The possibility of a VCR meeting is always considered before travel is approved.

The amount of travel undertaken fluctuates depending on business pressures at the time, and some meetings can only be effectively undertaken face to face, therefore I do not believe it is possible to set targets in this area.

The NIO participates in the DEFRA-managed Government Carbon Offsetting Scheme which offsets the carbon emissions from ministerial and official air travel.

INTERNATIONAL DEVELOPMENT

Departmental Publications

Mr. David Jones: To ask the Secretary of State for International Development what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196743]

Mr. Douglas Alexander: All authorship and publication by Department for International Development (DFID) staff of material which draws on official information or experiences is governed by the Civil Service Code, which states:

"You must not:...disclose official information without authority. This duty continues to apply after you leave the Civil Service".

Guidance to DFID staff states that if they wish to publish books or other works (articles, electronic media including blogs, broadcasts etc.) which draw on official information or experiences, they must, at the outset, apply for permission to do so from the Director of Finance and Corporate Performance (FCPD). If initial permission is granted, they must then submit the final text for scrutiny and clearance to the Director FCPD before proceeding with the publication.

Mr. Andrew Mitchell: To ask the Secretary of State for International Development pursuant to his answer of 20 March 2008, *Official Report*, column 1273W, on departmental publications, if he will place in the Library a copy in electronic format of his Department's web-based staff handbook. [197409]

Mr. Douglas Alexander: I refer the hon. Member to the answer I gave on 20 March 2008, *Official Report*, column 1273W. The Department for International Development's staff handbook has been replaced by a new web-based system, PeopleSight, that provides a wide variety of information for DFID staff. This information could be downloaded only at disproportionate cost.

However, I have arranged to place in the Library a document setting out the contents of PeopleSight.

Middle East: Armed Conflict

Mr. Moore: To ask the Secretary of State for International Development what contribution his Department plans to make to the United Nations Development Programme Trust Fund to support the work of the Quartet Special Envoy in financial year 2008-09; and if he will make a statement. [197187]

Mr. Douglas Alexander: There are currently no plans to allocate more support to the United Nations Development Programme Trust Fund in addition to the £400,000 provided in 2007. The UK, however, continues to give vital assistance to the office of the Quartet Special Envoy, including the key secondment positions of chief of staff and governance adviser.

The joint Department for International Development (DFID) and World Bank New Market Development project is one of the 'confidence building measures' promoted by the Quartet Special Envoy. Through this project, DFID will provide £3 million in matching grants for Palestinian firms and business associations over three years.

Overseas Aid

Ann McKechin: To ask the Secretary of State for International Development with reference to the answer of 19 February 2008, *Official Report*, column 609W, on overseas aid; when he expects to announce the funding allocated to civil society through the Partnership Programme Agreement for 2008-09 to 2010-11; and whether he expects this allocation to increase in proportion to the overall change in his Department's expenditure. [196766]

Mr. Malik: We informed Partnership Programme Agreement (PPA) partners on 28 February about their PPA funding allocation for 2008-09 to 2010-11. Each PPA partner will receive an increase of 3 per cent. per year over this period.

I anticipate that overall support to civil society through central schemes over the next three years will grow by around 50 per cent. in line with overall growth in the Department's expenditure.

United Nations Development Programme Trust Fund

Mr. Moore: To ask the Secretary of State for International Development pursuant to the answer of 20 March 2008, to question 195258, on the United Nations Development Programme Trust Fund, what the *(a)* grade and *(b)* pay band was of the civil servant seconded from his Department; and if he will make a statement. [197186]

Mr. Douglas Alexander: The civil servant seconded was employed at grade A1. The pay scale for this grade for 2005-06 was £49,189 to £62,728.

TRANSPORT

Aircraft: Air Conditioning

Mr. Brazier: To ask the Secretary of State for Transport who has advised her Department on air cabin quality and possible contamination in the last five years; to which institutions they are affiliated; which other organisations they have advised over that period; and which of those organisations operate on a commercial basis. [196733]

Jim Fitzpatrick *[holding answer 31 March 2008]*: The advice the Department is acting upon comes from two sources; the Committee on Toxicity, an independent scientific committee that provides advice to the Food Standards Agency and Government Departments, and whose evidence review into cabin air was published in September 2007; and the House of Lords Science and Technology Committee whose report into Air Travel and Health was published in December 2007. Following this advice the Department is developing cabin air sampling research with a number of participating airlines to assemble real time data on substances which may be in cabin air during fume events. We are taking technical advice from a research team and steering group on how to collect and analyse the air samples.

Airports: Security

John Thurso: To ask the Secretary of State for Transport how many passengers went through airport security in Great Britain in the last 12 months; how many of them had their hold luggage searched by hand; and how many *(a)* arrests, *(b)* charges and *(c)* convictions arose from these searches. [196794]

Jim Fitzpatrick: The National Aviation Security Programme requires that all passengers departing from a UK airport must pass through security and their cabin and hold baggage must be screened prior to being allowed on to an aircraft. The Government do not maintain any records of the number of passengers passing through security or how many had their hold baggage hand searched or any consequences arising from this.

Bus Services

Norman Baker: To ask the Secretary of State for Transport on what dates since 1 January 2007 *(a)* Ministers and *(b)* officials met representatives from (i) Stagecoach, (ii) First Group, (iii) Go-Ahead and (iv) Arriva to discuss bus-related matters. [195973]

Ms Rosie Winterton *[holding answer 20 March 2008]*: Ministers and officials have met representatives from these companies on many occasions since 1 January 2007 to discuss bus-related matters.

Car Sharing

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government have taken to encourage car sharing. [197625]

Ms Rosie Winterton: Car sharing is one of the sustainable travel measures ('Smarter Choices') being promoted by the Department. We encourage local authorities to include schemes, such as car sharing, in their local transport plans. The Government provide Local Transport Plan funding through the integrated transport block grant (£372 million in 2008-09) and the transport component of the revenue support grant. It is for local authorities to decide how they spend this money. We have provided best practice advice and guidance, including 'Making Car Sharing and Car Clubs Work' in 2005.

On 20 March the Secretary of State opened the UK's first motorway high occupancy vehicle lane on M606/62 between Bradford and Leeds. We will continue to consider such lanes for use across the network alongside other measures.

Transport Direct provides links to car sharing organisations, which are provided along with the results of journey plans. We also propose this year to develop car sharing messages under the ACT ON CO_2 campaign. Car sharing can be an important part of workplace, school and other travel plans. As such we have included it in guidance on travel planning, such as the Essential Guide to Travel Planning, and promote it via our National Business Travel Network.

Dartford Tunnel: Tolls

Mr. Goodwill: To ask the Secretary of State for Transport what estimate she has made of the net change in annual revenue of ceasing to levy the Dartford Crossing toll. [197901]

Ms Rosie Winterton: Ceasing to levy the Dartford-Thurrock River Crossing Road User Charge would mean there was no annual revenue. Revenue for 2006-07 was £69.0 million.

Departmental Manpower

Stephen Hammond: To ask the Secretary of State for Transport how many members of her departmental staff, in each pay band, have been working on high speed rail links from London to Birmingham, Manchester and Scotland in each of the last five years. [195177]

Mr. Tom Harris *[holding answer 19 March 2008]:* Departmental staff work on matters relating to inter-urban rail, though none have been dedicated to work on high-speed rail links.

The Secretary of State recently invited Network Rail to begin work to develop a better understanding of some of the complex rail options, such as new lines, that we may have in future.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Transport what guidance is issued to members of her Department on the authorship and publication on the internet of material relating to their official duties; and if she will make a statement. [196747]

Jim Fitzpatrick: In pursuing Transformational Government's objectives to rationalise the web presence of Government Departments, our aim is to ensure that any new departmental information published online is published on either the DfT/Executive Agency websites for corporate content; Directgov, for citizen-facing content; and Business Link, for business-facing content.

We publish material in accordance with cross-Government guidance on propriety and the Civil Service Code. In addition, our departmental intranet provides guidance on how to get content published on the website. This guidance sets out the steps involved, which include the need for ministerial approval and procedures for converting documents into HTML (in accordance with Government web guidelines).

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Transport when her Department plans to publish its sustainable operations policy statement. [195886]

Jim Fitzpatrick: The Department for Transport's sustainable operations policy statement was published on 25 October 2007 and is available for viewing on the DfT website as follows:

http://www.dft.gov.uk/about/sr/susopsdftest

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Transport how many staff in her Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197056]

Jim Fitzpatrick: The total number of staff in the Central Department for Transport and its agencies who have attended the aforementioned National School of Government courses over the last 12 months, and the costs are set out in the table:

	Working Assertively		*Managing your Confidence*		*Influencing with Integrity*		*Emotional Intelligence*		
Department/ Agency	*Number*	*Cost (£)*	*Number*	*Cost (£)*	*Number*	*Cost (£)*	*Number*	*Cost (£)*	*Total (£)*
Department for Transport (C)	1	726	1	1,149	3	2,178	0	0	4,053
Driving Standards Agency	0	0	0	0	1	726	0	0	726
Highways Agency	0	0	0	0	0	0	1	1,495	1,495
Vehicle and Operator Services Agency	0	0	0	0	0	0	1	1,495	1,495

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for Transport how much her Department and its agencies spent on first class travel in the last 12 months for which figures are available, broken down by staff grade. [187660]

Jim Fitzpatrick: Travel arrangements are made in the most efficient and cost effective way, all official travel is undertaken in accordance with the rules set out in the Department/agency staff handbook.

DfT(C) and five of its agencies do not record travel expenditure differentiated by staff grade or class of travel. The information could be provided only at disproportionate cost.

Two of the Department's agencies record first class travel separately. DVLA spent £431,000 during the last 12 months, but do not record staff grade. Highways Agency spent a total of £1,780,142 broken down as follows:

Grade (HA Pay Band)	*Value (£)*
2	12,341
3	42,984
4	56,770
5	228,786
6	627,062
7	449,401
8	181,196
SCS	111,251
Non civil servants	70,351

These figures do not include costs paid for by the individual and reclaimed through a travel and subsistence claim. Details of this additional expenditure could be provided only at disproportionate cost.

Driver Information Systems

Dr. Ladyman: To ask the Secretary of State for Transport what plans she has to publish her conclusions arising from the consultation on in-vehicle information systems. [196319]

Jim Fitzpatrick: The Department intends to publish a summary of the results of the initial consultation on in-vehicle information systems this spring. It will be available on the departmental website and copies will be sent to the Libraries of both Houses.

Drivers: Training

Mr. Spellar: To ask the Secretary of State for Transport how many new light goods vehicle drivers were trained in the last 12 months; and how many foreign light goods vehicle drivers were working in the UK. [197857]

Jim Fitzpatrick: DVLA does not keep information on LGV driver training nor can we identify the number of foreign LGV drivers working in the UK. We do, however record volumes of applications being processed for vocational drivers, which includes both LGV and PCV.

For the 12 month period ending December 2007, the number of first applications processed for vocational drivers was 73,475. This figure includes 60,119 provisional and 13,356 substantive applications.

Driving: Safety

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government has taken to educate the public on the possible effects of driving long distances when tired. [197624]

Jim Fitzpatrick: The Department for Transport continues to educate the public on the possible effects of driving long distances when tired through the THINK! road safety education campaign and motorway variable message signs. Drivers are encouraged to plan regular breaks on long journeys through a mix of:

Radio advertising;

Ambient advertising in service stations;

Online advertising on journey planning websites;

Partnership marketing activity;

Truck Back advertising;

Public relations activity; and

Distribution of promotional materials to road safety stakeholders for regional campaigns and the general public.

Advice on how to avoid and combat driver tiredness is in the Highway Code and on the Department's THINK! website at:

www.thinkroadsafety.gov.uk/campaigns/drivertiredness/drivertiredness.htm

Environment Agency: Heathrow Airport

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the Environment Agency's response to the Adding Capacity at Heathrow Airport consultation; and what steps she plans to take as a result. [197540]

Jim Fitzpatrick *[holding answer 31 March 2008]:* We have received many thousands of responses to our recent consultation on further development at Heathrow and these are still being analysed. No decisions will be taken until we are in a position to consider the totality of responses.

Heathrow Airport: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport for what reasons the Adding Capacity at Heathrow Airport consultation document did not refer to the effects of incoming international flights in estimating the likely impact of a third runway on carbon dioxide emissions. [197539]

Jim Fitzpatrick *[holding answer 31 March 2008]:* The method used to estimate the impact of additional capacity at Heathrow on UK aviation CO_2 emissions in the 'Adding Capacity at Heathrow Airport' consultation document is referenced at paragraph 2.23 of the impact assessment (annex B). Full details of the forecasting method can be found in chapter 3 of 'UK Air Passenger Demand and CO_2 Forecasts', available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/

There is no internationally agreed way to allocate to individual countries the CO_2 emissions from international flights. For reporting purposes, the UN framework convention on climate change requires each nation to report emissions based on aviation bunker fuel consumption, which is closely related to fuel used on departing flights. To ensure consistency with historic reported totals, and to avoid double-counting CO_2 emissions, our forecasts include international aviation emissions on a departing flight only basis.

Heathrow Airport: Complaints

Mr. Ellwood: To ask the Secretary of State for Transport how many complaints the Government received over delays and inefficiencies at Heathrow Airport in each of the last five years. [196169]

Jim Fitzpatrick *[holding answer 25 March 2008]*: The Department for Transport receive a number of letters about a variety of issues at airports e.g. baggage, disability issues, security, passenger information, delays; and these are sometimes taken up with the airport, airline or agency most concerned. The information requested can be obtained only at disproportionate cost as these letters are not filed by airports.

Lorries

Mrs. Dunwoody: To ask the Secretary of State for Transport what plans she has to implement the findings of the recently published study by her Department of trials of longer, heavier vehicles. [190170]

Jim Fitzpatrick: The report of the study is due to be published shortly. Its purpose is to inform policy making rather than to advise on whether to allow trials. At present, we have no plans to introduce longer or heavier vehicles.

Norman Baker: To ask the Secretary of State for Transport how many miles were travelled by heavy goods vehicles in England in each of the last five years. [197534]

Jim Fitzpatrick: The following table provides the total distance travelled by heavy goods vehicles in England from 2002 to 2006.

	Heavy Goods Vehicles (billion vehicle miles)
2002	15.3
2003	15.4
2004	15.8
2005	15.6
2006	15.6

Lorries: Accidents

Dr. Iddon: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* injuries have been caused by other vehicles hitting a heavy goods vehicle in each of the last 10 years; how many of these were attributed to poor visibility; and if she will make a statement. [198210]

Jim Fitzpatrick: The numbers of *(a)* killed and *(b)* injured casualties resulting from reported personal injury road accidents involving at least one heavy goods vehicle and at least one other motor vehicle in Great Britain in 1997 to 2006 are shown in the following table. It is not possible to determine the number of these accidents in which a heavy goods vehicle was hit by (rather than hit) another vehicle.

	Number of casualties	
	Killed	*Injured*[1]
1997	399	15,580
1998	441	15,350
1999	465	16,244
2000	412	16,334
2001	415	15,850
2002	380	14,453
2003	391	14,317
2004	321	13,413
2005	370	13,014
2006	302	12,094

[1] Seriously or slightly injured

Details of contributory factors to road accidents have been recorded since 2005. In 2005 there were a total of 21 fatalities and 700 people injured in accidents involving at least one heavy goods vehicle and at least one other motor vehicle which had "vision affected" recorded as a contributory factor. In 2006, the equivalent figures were 14 fatalities and 669 people injured.

The contributory factor category "vision affected by" includes contributory factors "stationary or parked vehicle(s)", "Vegetation", "Road layout (e.g. bend, winding road, hill crest)", "Buildings, road signs, street furniture", "Dazzling headlights", "Dazzling sun", "Rain, sleet, snow or fog", "Spray from other vehicles", "Visor or windscreen dirty or scratched" and "Vehicle blind spot".

Further information about contributory factors can be found in the 'Contributory factors to road accidents' article in 'Road Casualties Great Britain' at:

http://www.dft.gov.uk/162259/162469/221412/221549/227755/rcgb2006v1.pdf

Motor Vehicles: Fines

Mr. Spellar: To ask the Secretary of State for Transport what arrangements are in place to determine whether there are outstanding and unpaid penalties relating to vehicles leaving the UK. [197648]

Ms Rosie Winterton: The enforcement of a civil penalty charge—for example a penalty charge arising from parking, certain moving traffic contraventions, or from a road user charging scheme—is a matter for the issuing local authority. The Government are not aware of local authorities making arrangements to monitor vehicles leaving the UK for this purpose.

The enforcement of criminal penalties is an operational matter for HM Courts Service. HMCS does not routinely monitor vehicles leaving ports for the purpose of fine enforcement. The EU Framework on Mutual Recognition of Financial Penalties, once implemented, should ensure that future offenders from other EU member states pay the penalty for the criminal offences they commit.

Motorcycles: Licensing

Bill Wiggin: To ask the Secretary of State for Transport how many instructors have been trained to oversee tests under the second European driving licence directive for motorcycles; how many will be required to implement the tests; and if she will make a statement. [196708]

Jim Fitzpatrick: Driving examiners, not instructors, will conduct the motorcycling tests under the second European driving licence directive.

The Driving Standards Agency (DSA) has trained 95 examiners to conduct the new practical test and a further 16 are to undergo training before the end of April 2008.

To meet the demand for tests in a full year the Agency estimates that it needs to have the full time equivalent of 75 examiners.

Parking Offences: Lorries

Dr. Ladyman: To ask the Secretary of State for Transport what powers she plans to provide to the police to enable the enforcement of parking penalties imposed on foreign lorry drivers. [197781]

Ms Rosie Winterton: Provisions are included in the Local Transport Bill currently progressing through Parliament which will enable DVLA to request information from foreign registration authorities on behalf of UK authorities or the police, who wish to pursue unpaid penalties incurred by motorists in foreign registered vehicles.

Rackspace

Mr. Hands: To ask the Secretary of State for Transport what the value was of each contract awarded to Rackspace by *(a)* her Department and its predecessors and *(b)* its agencies in each of the last nine years. [197500]

Jim Fitzpatrick: The Department was formed in May 2002. Since this date the central Department has placed orders for work totalling £17,619 (excluding VAT) with Rackspace Managed Hosting Ltd. as follows:

	£
2005-06	5,234
2006-07	11,445
2007-08	940

The Department's agencies have not awarded any work to Rackspace since May 2002.

Railways: Overcrowding

Stephen Hesford: To ask the Secretary of State for Transport what steps her Department is taking to minimise overcrowding on trains; and if she will make a statement. [196926]

Mr. Tom Harris: The rail White Paper, published in July, committed £15 billion in total Government support to the railway over the period from 2009 to 2014. £10 billion of that will be devoted specifically to increasing capacity. Among a range of measures, there will be an extra 1,300 new carriages which will be targeted at the most congested routes on the network.

Renewable Transport Fuel Obligation

Susan Kramer: To ask the Secretary of State for Transport pursuant to the answer of 5 March 2008, *Official Report*, column 2532W, on biofuels, under which of the articles of the Renewable Transport Fuel Obligations Order 2007 the Renewable Fuels Agency has been asked to conduct its review into the impacts of biofuel production. [197402]

Jim Fitzpatrick: The Renewable Fuels Agency has been asked to lead the announced review into the wider impacts of biofuel production. Article 15 of the Renewable Transport Fuel Obligations Order 2007 gives the Renewable Fuels Agency various duties to report as requested to the Secretary of State on a variety of matters and the power to publish reports and guidance as it thinks fit.

Road Safety Act 2006

Dr. Ladyman: To ask the Secretary of State for Transport what range of offences she plans to specify in the orders bringing sections 11 and 12 of the Road Safety Act 2006 into effect; if she will include lorries parking illegally in the range of offences; and if she will make a statement. [197777]

Ms Rosie Winterton: There will be a comprehensive list of offences relating to motor vehicles and we will be consulting on this and other aspects of the secondary legislation later in the year.

Roads

Andrew George: To ask the Secretary of State for Transport how many miles of road there are in *(a)* the St Ives constituency, *(b)* Cornwall and *(c)* England for which her Department is responsible. [198377]

Jim Fitzpatrick: The most recent figures available for road mileage relate to 2006. In 2006 there were 4,620 miles of public road in Cornwall and 189,000 miles in England. Road mileage figures below local highway authority level are not available.

The road lengths provided are the total length of roads maintained by the Highways Agency and local authorities. Private road lengths are not included.

Shipping: Firearms

Mr. Hancock: To ask the Secretary of State for Transport what her policy is on merchant ships carrying firearms to guard against raids by pirates; and if she will make a statement. [197770]

Jim Fitzpatrick: The Government do not encourage the carriage of firearms on board UK registered merchant ships. Only in exceptional circumstances will the Government condone the use of armed guard protection on board such ships. For example, certain shipments of nuclear material and certain VIP passenger

movements have received armed guard protection. In these exceptional circumstances, ship owners should ensure that the guards are properly trained in the effective use of firearms in order to minimise accidents.

In line with their policy of discouraging the carriage of firearms on board UK registered merchant ships, the Government have not set rules of engagement for armed guards at sea. Any company providing an armed guard protection service to a UK registered merchant ship is fully accountable under UK law and the laws of any state in whose territorial and internal waters the firearms are carried.

While the Government do not encourage the carriage of firearms on board UK registered merchant ships, there are legal provisions governing their carriage. Firearms are controlled under the Firearms Act 1968 (as amended) and these provisions were explained in Merchant Shipping Notice 1704 published in January 1998. Permits to carry firearms on ships are issued by the police under guidance issued by the Home Office. Where firearms are carried on board UK registered merchant ships the ship security plan should detail how and where they are stored and state the procedures for accessing them.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Departmental Internet

Mr. Swire: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will *(a)* follow the Internet Content Rating Association (ICRA) guidelines and *(b)* display ICRA's label on the websites for which it is responsible. [191774]

Mr. Thomas: Content on the core Department for Business, Enterprise and Regulatory Reform website does meet the Internet Content Rating Association (ICRA) guidelines. The current review of BERR's website will determine whether it is possible to display ICRA's label in future.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197120]

Mr. Thomas: During the last 12 months, the Department for Business, Enterprise and Regulatory Reform and its agencies has made the following use of the listed training courses run by the National School of Government:

(a) Influencing with Integrity: four staff at a cost of £2,904

(b) Emotional Intelligence: one staff member at a cost of £1,495

(c) Counselling Skills for the Workplace: 0

(d) Managing your Confidence: 0

(e) Balancing Work/Life Realities: 0

(f) Working Assertively: one staff member at a cost of £726

Drinking Water

Mr. Spellar: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 3 March 2008, *Official Report*, column 2235W, on mineral waters, how much bottled water was purchased by his Department's contracted service provider. [196778]

Mr. Thomas: During the last 12-month period, my Department's contracted service provider has purchased 43,680 litres of bottled mineral water, at a cost of £16,161.60. However, since November 2007, all mineral water for official functions, meetings, etc. is provided via a table water bottling system and no pre-packaged water is provided.

Employment Dispute Resolution Review

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what further steps he plans to take on the Gibbons proposals on employment dispute resolution; and if he will make a statement. [197248]

Mr. McFadden: Legislative measures which aim to simplify and improve employment dispute resolution are included within the Employment Bill. Additionally, the Government are making up to £37 million available over the next three years which will allow ACAS to boost its helpline and advice services and enable it to facilitate informal resolutions at any stage of a dispute. A full account of the changes to employment dispute resolution which the Government propose will be included in the Government's response to the consultation "Resolving disputes in the workplace", which will be published in due course.

Environment Agency

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the annual budget for *(a)* Her Majesty's Inspectorate of Pollution and *(b)* the Environment Agency has been for evaluating the research work on radioactive waste disposal carried out by Nirex since its inception. [193638]

Mr. Woolas: I have been asked to reply.

In June 2003, the Environment Agency (EA) entered into a formal agreement with Nirex to scrutinise the company's research, under section 37 of the Environment Act 1995. Following the integration of Nirex into the NDA, this agreement has continued between the Environment Agency and the Nuclear Decommissioning Authority (NDA), and has a budget of up to £350,000 per year.

The EA had no specific arrangements to scrutinise Nirex research between 1995 and 2003. This reflected the Nirex planning application for an underground rock characterisation facility near Sellafield and the redefined role of Nirex following the planning inquiry. There was however ongoing liaison with the company during this period.

Any extant details of Her Majesty's Inspectorate of Pollution's budget for evaluating Nirex's research work between 1992 and 1995 will be held at the National Archives.

Papua: Prince Andrew

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether HRH Prince Andrew recently visited West Papua as part of his role as Special Representative for Trade and Investment. [196294]

Mr. Thomas: As part of his visit to Indonesia as UK Special Representative for Trade and Investment, HRH Prince Andrew visited BP's Tangguh LNG Project in West Papua on 5 March.

Post Office: Empty Property

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate Post Office Ltd has made of its liability for empty property rates in *(a)* 2007-08 and *(b)* 2008-09. [197861]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Closures

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his most recent estimate is of the number of post offices which will close under the Network Change Programme; and if he will make a statement. [191912]

Mr. McFadden: The Government's response in May 2007 to the national public consultation on the post office network committed funding support for strategic changes to the network with up to 2,500 compensated closures nationally. Closures under the network change programme began in January and the programme is scheduled to be completed by the end of the year.

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices are planned to be closed in each constituency under the Network Change Programme; and if he will make a statement. [192147]

Mr. McFadden: Proposals for post office closures by parliamentary constituency are published on an area plan basis at the start of local public consultations. Details of area plans published to date are available on Post Office Ltd.'s website:

www.postoffice.co.uk/networkchange

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with Post Office Ltd on the formula to be used to *(a)* earmark and *(b)* determine post offices for closure. [193903]

Mr. McFadden: In identifying post offices proposed for closure and subsequent final decisions, Post Office Ltd is required to comply with the access criteria set by Government, to take account of local geography and to consider local demographic and economic factors as set out in the Government's response to the national public consultation on the post office network. Ministers do not play any role in identifying which individual post office branches should close.

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how much subsidy has been paid to those post offices proposed for closure in *(a)* Cumbria and *(b)* Copeland in the last 10 years; [198148]

(2) how many customers have used each of the post office branches proposed for closure in *(a)* Cumbria and *(b)* Copeland over the last 10 years; [198149]

(3) what estimate he has made of the number of Post Office customers in *(a)* Cumbria and *(b)* Copeland who access and receive Post Office services on-line or remotely outside of Post Office opening hours; [198151]

(4) what recent assessment criteria the Post Office has made of any over-provision of Post Office branches in urban areas; [198153]

(5) what consideration the Post Office has given to *(a)* deprivation indicators, *(b)* rurality, *(c)* public transport links and *(d)* wider socio-economic issues in producing its Post Office branch closure proposals in Copeland. [198154]

Mr. McFadden: These are operational matters for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Postal Services: North West

Mrs. Ellman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what criteria are being applied in Royal Mail's review of its mail distribution services in the North West. [196376]

Mr. McFadden *[holding answer 25 March 2008]:* This is an operational matter for which Royal Mail has direct responsibility. I have therefore asked the Chief Executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member.

A copy of the response will be placed in the Libraries of the House.

Regeneration: Kent

Gwyn Prosser: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much financial support has been given by *(a)* the South East Regional Development Agency and *(b)* English Partnerships to the regeneration of derelict sites in the former East Kent Coalfield; and if he will make a statement. [195738]

Mr. McFadden: My right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform has not made any specific assessment of the financial

support given by the South East Regional Development Agency (SEEDA) and English Partnerships to the regeneration of derelict sites in the former East Kent coalfield. However, other related assessments have taken place.

As part of the Department's sponsorship framework of the Regional Development Agencies (RDAs), a general assessment of the performance of the RDAs is undertaken by the National Audit Office in the form of Independent Performance Assessment (IPA). This assesses five criteria; ambition, prioritisation, capacity, performance management and achievement. The last IPA report on SEEDA was published in November 2006 (and can be found on SEEDA's website: www.seeda.co.uk).

More specifically, SEEDA itself commissioned consultants BBP and SQW to undertake an interim evaluation of the East Kent coalfields programme. The purpose of this was to establish the impact of regeneration activity to date in the East Kent coalfields area and to assess how well the coalfields programme has addressed its targets. This report was presented to SEEDA in August 2007 in draft and is currently being refined to include 2007 data.

BBP and SQW were previously commissioned by the Department for Communities and Local Government (CLG) to conduct an independent evaluation of the coalfields regeneration programme in England. This was published in March 2007. The report provided strong evidence of the positive impact of English Partnerships' National Coalfields Programme on our former coalfield communities, including the East Kent coalfields. The report, 'Regenerating the English Coalfields—Interim evaluation of the coalfield regeneration programmes' is available on the Communities and Local Government website:

http:www.communities.gov.uk/publications/citiesandregions/regeneratingenglish

Training: Elderly

John Cummings: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people aged over 50 years took up training schemes offered through his Department in Easington constituency in each of the last five years. [192572]

Bill Rammell: I have been asked to reply.

The following table shows the total number of learners aged 50 and over in Easington constituency for the latest five years for which information is available (numbers have been rounded).

LSC funded adult learners (on further education provision, Train to Gain and Adult and Community Learning)

Academic year	*Number*
2002-03	1,740
2003-04	2,170
2004-05	2,370
2005-06	1,920
2006-07	1,350

Overall Government investment in the further education sector has increased by 52 per cent. in real terms between 1997 and 2007. Participation funding for adults will increase to around £3.6 billion in 2010-11, an increase of over 17 per cent. compared with 2007-08.

We have continued to realign funding towards basic literacy and numeracy, full level 2 and full level 3 qualifications providing skills for employment and further progression in learning away from, for example, very short or low quality courses. This has enabled us to support significant increases in participation for young people and adults in these key programmes, providing them with the education and skills they need to fully participate in an economically successful and socially cohesive society.

This Department and the LSC are working closely with the Department of Work and Pensions and Jobcentre Plus to implement the proposals outlined in "World Class Skills: Implementing the Leitch Review of Skills in England" and the Green Paper, "In Work, better off," both published in July this year. These include supporting individuals, including older workers into sustainable employment and progression in work and in skills.

In line with this we are working with employers through Train to Gain and the Skills Pledge to meet skill needs and to ensure that all employees including older people have the basic skills, including literacy and numeracy and Level 2 skills (equivalent to five good GCSEs) needed to sustain and progress in employment. To support this we are increasing funding for Train to Gain from £440 million in 2007-08 to over £900 million in 2010-11. We want to encourage all employers in England to make a Skills Pledge that is a specific promise that every eligible employee will be helped to gain basic skills, and a full Level 2 qualification.

We recognise the importance of FE and adult learning in meeting a range of social and community needs and remain fully committed to ensuring that older learners can benefit from a wide range of learning opportunities, including learning for its own sake, for personal fulfilment and to sustain an active role in the community. In addition we have committed £210 million per annum until 2010-11 to safeguard learning opportunities for personal fulfilment, community development and active citizenship.

HOME DEPARTMENT

101 Calls

Mr. Hoban: To ask the Secretary of State for the Home Department pursuant to the Answer of 4 February 2008, *Official Report*, column 803W, on 101 calls, what the annual cost of maintaining the national 101 infrastructure is; and which local authorities are funding their own pilots of the 101 service. [192452]

Mr. McNulty: The annual cost to the Home Office of maintaining the national 101 telephony infrastructure will be £950,000. This funding will ensure that the 101 number continues to be available for all local areas to use to maintain or develop their own locally funded 101 services, informed by the benefits and good practice successfully demonstrated in the initial live areas.

We welcome the decisions taken to date by local authorities in partnership with local police in Hampshire and the Isle of Wight, Sheffield and Cardiff to continue to operate the 101 service on a locally

funded basis. We also welcome the piloting of a locally funded 101 service by the Greater London Authority together with individual boroughs, London councils, and the Metropolitan Police Service.

Armed Forces: Peterborough

Mr. Spellar: To ask the Secretary of State for the Home Department pursuant to the Answer of 17 March 2008, *Official Report*, column 786W, if she will ask the Chief Constable of Cambridgeshire to provide the information requested. [196774]

Mr. McNulty: Following the previous answer, my right hon. Friend's question was passed to the chief constable of Cambridgeshire on 14 March 2008 asking that you be provided with the information requested.

Arrests

Dr. Starkey: To ask the Secretary of State for the Home Department (1) on what occasions the police have arrested an individual *(a)* on an aircraft at a UK airport and *(b)* at the airport after an individual has landed in the last 10 years; [190484]

(2) on how many occasions police in the course of their duty have been denied access to an aircraft at an airport in the UK in the last 10 years; [190485]

(3) what powers the police have to prevent an aircraft from taking off from a UK airport in order to effect an arrest. [190486]

Mr. McNulty: The statistical information requested is not held centrally.

In England and Wales, section 17 of the Police and Criminal Evidence Act (PACE) 1984 provides that a constable may enter and search any premises, including aircraft, for the purpose of executing a warrant or to arrest a person for an indictable offence. In Northern Ireland, Article 19(1)(b) of the Police and Criminal Evidence (Northern Ireland) Order 1989 provides a constable with the power to enter and search any premises, including aircraft, for the purposes of affecting an arrest of a person for an indictable offence. In Scotland if a constable has grounds to believe that a crime has been committed anywhere within an airport, including an aircraft which has landed and is stationed at a terminal, they can investigate in the same way as for any other crime committed elsewhere within their force area.

Arrest may also be made under European or international warrant. In addition, the Manual of Air Traffic Services enables the police to instruct air traffic controllers to withhold permission for an aircraft to take off.

Asylum

David Davis: To ask the Secretary of State for the Home Department how many attempts to deport asylum seekers were unsuccessful because the receiving country refused to accept them after the flight had left the UK in the last 12 months. [192833]

Jacqui Smith: The information requested could be obtained by the detailed examination of individual case records only at disproportionate cost.

Community Support Officers

Mr. Vara: To ask the Secretary of State for the Home Department what recent assessment she has made of the effectiveness of police community support officers; and if she will make a statement. [195426]

Mr. McNulty: PCSOs are an invaluable addition to policing with their main focus on engaging with their local community, providing high visibility reassurance policing and dealing with low level crime and antisocial behaviour.

The National Policing Improvement Agency is leading a review of PCSOs, considering their role, as well as standardisation of equipment, uniforms, training and career development. The review will report shortly.

Community Support Officers: Complaints

Mr. Ruffley: To ask the Secretary of State for the Home Department how many complaints in each category of complaint *(a)* in total and *(b)* against police community support officers were received by the police complaints and discipline department of each police authority in England and Wales in the last year in which figures are available. [195697]

Mr. McNulty: This information is not held centrally. Such complaints are a matter for each police authority.

Demonstrations: Parliament Square

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females, broken down by age group, were (i) arrested, (ii) prosecuted and (iii) convicted of unlawful public demonstrations in Parliament Square in each of the last three years for which information is available. [192539]

Mr. McNulty: Data showing the number of males and females, by age group, proceeded against and found guilty of organising or carrying out a demonstration in a designated area in 2005 and 2006 are found in the following table. The Ministry of Justice are unable to separate offences committed in Parliament Square from those committed in other locations within the designated area.

The Home Office does not collect the information requested on arrests centrally. However I understand from the Commissioner of the Metropolitan Police that since Section 132 of the Serious Organised Crime and Police Act 2005 came into force until the end of December 2006, there have been 91 arrests of individuals for a range of offences connected to demonstrations in the vicinity of Parliament. Data on the number of arrests in 2007 are not available.

Number of males and females, by age group, proceeded against at magistrates courts and found guilty of organising, taking part in or carrying out a demonstration in a designated area[1], England and Wales, 2005 to 2006[2,3,4,5]

	2005		2006	
Sex and age	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Male				

Number of males and females, by age group, proceeded against at magistrates courts and found guilty of organising, taking part in or carrying out a demonstration in a designated area[1], England and Wales, 2005 to 2006[2,3,4,5]

Total	7	1	22	18

[1] (a) The designated area includes Parliament Square and other locations within the Westminster area - as detailed in the Serious Organised Crime and Police Act 2005, Designated Area Order (No 1537).
[2] These data are on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[4] The above data cover the following statutes:
Section 132(1)(a),(b) and (c), Section 136(1) and (2) of the Serious Organised Crime and Police Act 2005.
[5] The above named Act came into force on 7 April 2005.

Departmental Pay

Chris Huhne: To ask the Secretary of State for the Home Department how much was paid in discretionary bonuses to staff in her Department in each of the last five years. [187251]

Jacqui Smith: Within Home Office Headquarters and the Border and Immigration Agency discretionary bonuses may be awarded in the form of annual, appraisal-related awards based on exceptional contribution throughout the year; or special bonuses for exceptional outstanding achievements by staff in particularly demanding tasks or situations. senior civil servants can be awarded bonuses as set out in the Senior Salaries Review Body report number 62.

The following table provides information about the amount paid in end of year bonuses (annual appraisal related) in the last five years, and includes information for senior civil servants across the Home Office Group, and staff working within Home Office Headquarters and the Border and Immigration Agency. It does not include figures for special bonuses, as this is not available without incurring disproportionate costs.

	Amount paid (£)
2002-03	2,067,878
2003-04	3,361,516
2004-05	4,287,676
2005-06	4,449,667
2006-07	4,135,224[1]

[1] Figures for 2006-07 are subject to some change as data is not yet complete.

Staff in the Identity and Passport Service receive end of year corporate bonuses, and change agent bonuses. As the corporate bonuses were only introduced in 2003-04 the following table provides information for the last four years only:

	Appraisal bonus	*Special bonus*
2003-04	388,874	12,375
2004-05	734,484	23,060
2005-06	1,068,482	41,663
2006-07	1,253,045	106,219
2007-08 ytd		71,799

Staff in the Criminal Records Bureau do not receive end of year bonuses. Staff do receive special bonus payments but this information is not available without incurring disproportionate costs.

Data are not available from the Prison Service, who were formally an agency of the Home Office prior to transferring to the Ministry of Justice, as obtaining this data is possible only at disproportionate cost.

Departmental Questions

Mr. Harper: To ask the Secretary of State for the Home Department how many and what percentage of questions tabled for answer on a named day to her Department received a substantive answer on the day due in the last year for which figures are available. [162615]

Mr. McNulty: Details of how many and what proportion of named day parliamentary questions the Home Office answered since 2006-07 is given in the following table:

	Session	
	2006-07	*2007-08*
Named day questions received	1,260	404
Answered substantively on the named day[1]	443	155
Proportion answered substantively on the named day (percentage)	35	38

[1] All questions not answered substantively on the named day receive a holding answer.
[2] To 12 March 2008.

Information prior to 2006-07 is not held in the format requested and could be obtained only at disproportionate cost.

Departmental Written Questions

Damian Green: To ask the Secretary of State for the Home Department (1) how many and what proportion of written parliamentary questions her Department did not answer on the grounds of disproportionate cost, in each of the last five years; [193169]

(2) what proportion of named day written parliamentary questions her Department answered on the date named in the latest period for which figures are available; [193170]

(3) what the average length of time taken for her Department to answer written parliamentary questions was in the latest period for which figures are available; [193171]

(4) how many written parliamentary questions to her Department were answered within *(a)* one, *(b)* two,

(c) three, *(d)* four, *(e)* five and *(f)* six months in each of the last five years. [193172]

Mr. McNulty *[holding answer 12 March 2008]:* Information on written parliamentary questions answered on grounds of disproportionate costs is not held centrally.

Information on the number of named day parliamentary questions answered on the date named since the 2006-07 session is given in the following table:

Session	*Named day questions received*	*Answered substantively on the named day*[1]	*Proportion answered substantively on the named day (percentage)*
2006-7	1260	443	35
2007-8[2]	404	155	38

[1] All questions not answered substantively on the named day receive a holding answer.
[2] Data based on questions answered up to 12 March 2008

The average length of time taken for the Department to answer written parliamentary questions is not held centrally.

The number of parliamentary questions answered within one to six months since 2006-07 is given in the following table:

	Session			
	2006-07[1]		*2007-08*[2]	
Number of written parliamentary questions answered in months	*Number*	*Percentage*	*Number*	*Percentage*
One	5,680	95	1,815	97
Two	187	3	59	3
Three	74	1		
Four	12	0.2		
Five	6	0.1		
Six	3	0.05		

[1] Based on 5,964 questions answered in 2006-7.
[2] Data based on 1,874 questions answered in 2007-08 to 12 March 2008.

Information prior to 2006-07 is not held centrally in the format requested.

Dorset Police Authority: Olympic Games 2012

Mr. Walter: To ask the Secretary of State for the Home Department what funding is being made available to Dorset Police Authority in *(a)* 2007-08, *(b)* 2008-09, *(c)* 2009-10, *(d)* 2010-11 and *(e)* 2011-12 for security for the 2010 and 2011 Sailing World Championships and the 2012 Olympic Games and their preparatory events. [197004]

Mr. McNulty *[holding answer 27 March 2008]:* The Home Office has made available £416,311 in 2007-08 to enable Dorset police to plan and prepare for security at the Olympic and Paralympic Games in 2012. We are in discussion with Dorset police authority about funding for the remaining years. The Home Office has not made any additional funding available to Dorset police for the staging of the Sailing World Championships.

Mr. Walter: To ask the Secretary of State for the Home Department what discussions she has had with the Chief Constable of Dorset police on the security requirements for the Olympic sailing events in Dorset up to and including 2012. [197005]

Mr. McNulty *[holding answer 27 March 2008]:* The Home Secretary is the Minister accountable for the delivery of the wider security for the London 2012 Olympic and Paralympic games. The security requirements for the events are part of the security strategy and operational planning which is being led by the multi-agency Olympic Security Directorate, including Dorset Police. The Director of Olympic Safety and Security in the Home Office and the Olympic Security Directorate are in discussion with Dorset police about their requirements.

Emergency Calls: Hoaxes and False Alarms

Mr. Kemp: To ask the Secretary of State for the Home Department what percentage of emergency calls to the police were classified as prank calls in each of the last five years for which figures are available. [197266]

Mr. McNulty: The information requested is not centrally collected.

EU Immigration

David Davis: To ask the Secretary of State for the Home Department what funding was received by the UK in each year to date from the *(a)* European Refugee Fund, *(b)* External Borders Fund, *(c)* Integration Fund and *(d)* European Return Fund as part of the EU General Programme, Solidarity and Management of Migration Flows; and how much is expected to be received in each year up to 2013. [195787]

Jacqui Smith *[holding answer 20 March 2008]:* The amount allocated to the UK for these funds in 2007 and 2008 is publicly available in the Committee General Programme Solidarity and Management of Migration Flows dated 20 July 2007.

The 2009-13 allocations are scheduled for announcement by the European Commission no later than 1 July of every preceding year.

David Davis: To ask the Secretary of State for the Home Department how many additional illegally residing foreign nationals she expects to be able to return to their home countries as a result of the European Return Fund in each year between 2008 and 2013. [195790]

Jacqui Smith *[holding answer 20 March 2008]:* No firm estimates are available at this time as a result of the newly established European Return Fund.

Human Trafficking: Arrests

David Davis: To ask the Secretary of State for the Home Department how many people have been *(a)* arrested and *(b)* convicted of human trafficking offences as a result of operations by the Serious and Organised Crime Agency. [195541]

Jacqui Smith: The Serious Organised Crime Agency records data on organised immigration crime, including people trafficking and human smuggling. In the first six months of 2007-08, there were 55 arrests and 17 convictions in operations where organised immigration crime was the main threat.

In its 2006-07 annual report, SOCA reported 749 arrests flowing from SOCA casework in the United Kingdom. Of these, 128 were in operations where organised immigration crime was the main threat.

In its 2006-07 annual report, SOCA reported 271 convictions in UK courts. Of these, 31 were in operations where organised immigration crime was the main threat.

Immigration: EC Law

David Davis: To ask the Secretary of State for the Home Department what submissions the UK has made on the adoption of EC Decision No 575/2007/EC establishing the European Return Fund; and if she will make a statement. [196310]

Jacqui Smith *[holding answer 25 March 2008]:* In line with other EU member states under the jurisdiction of the EU Commission's Common Committee Solidarity and Management of Migration Flows, the UK submitted the appropriate Explanatory Memorandum under references 8690/05 and 9930/06.

Metropolitan Police: Recruitment

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were recruited to the Metropolitan Police in each year since 1997; and what proportion of them were recruited directly from other police forces in each of those years. [195616]

Mr. McNulty: The available data for the numbers of police officer standard direct recruits and police officer transfers to the Metropolitan Police, have been collected centrally from 2002-03 onwards and are given in the following table.

Police officer standard direct recruits and transfers (FTE)[1] for Metropolitan Police from 2002-03 to 2006-07

	Police standard direct recruits	*Police transfers*[2]
2002-03[3]	2,434	407
2003-04	2,971	319
2004-05	1,886	351
2005-06	1,050	182
2006-07	1,216	478

[1] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding there may be an apparent discrepancy between totals and the sums of the constituent items.
[2] Between 2002-03 and 2006-07 1,594 police officers transferred to other forces from the Metropolitan Police.
[3] Excludes Quarter 1, data are not available.

Joan Ryan: To ask the Secretary of State for the Home Department how many officers were recruited into the Metropolitan Police from the London Borough of Enfield in each of the last 10 years. [196844]

Mr. McNulty: The information requested is collected at the police force level only.

The deployment of police officers within the force is an operational matter for the Metropolitan Police Commissioner and the Metropolitan Police Authority.

Personation: Crime Prevention

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government have taken to reduce the number of offences related to identity theft since 1997. [197681]

Meg Hillier: We are involved in a variety of activity to reduce the incidence of offences related to identity theft. A public-private sector work programme, the Identity Fraud Steering Committee (IFSC), was set up in 2003 to co-ordinate this work.

We have sought to ensure better co-ordination in prosecuting fraudsters. This has involved the establishment of a network of single points of contact in all police forces and a range of Government Departments and agencies dealing with identity fraud investigations and prosecutions.

Legislation has also been strengthened. Tougher criminal penalties have been introduced for driving licence and passport offences, alongside offences in the Identity Cards Act 2006 to target those who possess and use false identity documents and genuine documents belonging to someone else.

More powers to share data to combat fraud have been enacted in the Serious Crime Act 2007, and most recently the Disclosure of Death Registration Information Scheme, under the Police and Justice Act 2006, was launched on 16 January 2008.

We have introduced systems to confirm the validity of UK passports presented to other organisations and interviews for first time passport applicants over 16-years-old now take place to verify the identity of individuals.

The IFSC produce a leaflet and a website www.identitytheft.org.uk to increase public awareness of the problem. The material advises on how to reduce the risk of becoming a victim of identity fraud, warning signs to look out for, and what someone should do if they do fall victim.

On 9 October 2007 the Attorney-General announced that funding had been approved for the proposals arising from the Government's Fraud Review. This includes the development of a National Fraud Strategic Authority, together with a National Fraud Reporting Centre, the establishment of the City of London Police as the lead force on fraud, and proposals for measurement of fraud. These measures will help to tackle fraud in general and increase our understanding of the nature and extent of the problem.

Finally, our plans for a National Identity Scheme will provide people with a highly secure means of protecting their identity and help citizens to prove their identities easily, quickly and with vastly improved security.

Police: Accidents

Bob Spink: To ask the Secretary of State for the Home Department how many accidents there were involving police vehicles on emergency calls in *(a)* Castle Point constituency and *(b)* Essex in each of the last five years. [196801]

Mr. McNulty *[holding answer 26 March 2008]:* The available data for the number of road traffic collisions involving police vehicles during immediate/emergency response and police pursuits are collected at the police force level only and the data supplied by Essex are given in the following table.

Number of road traffic collisions involving police vehicles during immediate/emergency response and police pursuit, from 2002-03 to 2006-07—Essex

	Number
2002-03	127
2003-04	22
2004-05	21
2005-06	67
2006-07	92

Police: Bureaucracy

Mr. Ruffley: To ask the Secretary of State for the Home Department which recommendations of the police bureaucracy taskforce report 2002 *(a)* were accepted and *(b)* have been implemented. [195606]

Mr. McNulty: The last formal update on the recommendations of the police bureaucracy taskforce report 2002 that were *(a)* accepted and *(b)* implemented was undertaken in November 2005. This information is available on the Home Office website via the following link:

http://police.homeoffice.gov.uk/news-and-publications/publication/police-reform/trafficlightsummary.pdf?view=Binary

The report has been placed in the House Library.

Sir Ronnie Flanagan was asked in April 2007 to look at further progress in this area as part of his independent review of policing, the final report of which was published on 7 February 2008. The Secretary of State for the Home Department set out her initial response to this report in her statement to the House of Commons on 7 February 2008. The Home Office, together with the National Policing Improvement Agency and other policing partners, is currently considering Sir Ronnie's recommendations more fully and the Home Office will be setting out its response shortly.

Police: Career Structure

Mr. Ruffley: To ask the Secretary of State for the Home Department what recent representations she has received on the review of the OSPRE procedure; and if she will make a statement. [195689]

Mr. McNulty: After trialling a new promotions process incorporating work-based assessment, the National Policing Improvement Agency (NPIA) held a consultation in the autumn of 2007 to decide the future of promotion to the rank of sergeant and inspector. It outlined four options: extending the trial; reverting to OSPRE; full rollout of the trialled system; and phased rollout of the trialled system. There were 48 responses, of which a clear majority favoured a phased rollout. All forces involved in the trial wanted to continue using the new promotions process as they said it delivered better quality sergeants and inspectors.

An analysis of this consultation can be found on the NPIA website: www.npia.police.uk and a copy has been placed in the Library.

Police: Death

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers *(a)* were killed on duty and *(b)* received bravery awards in each police force area in England and Wales in each year since 1997. [195700]

Mr. McNulty: The information is as follows.

(a) The numbers of fatal assaults on police officers have been published each year by Her Majesty's Inspectorate of Constabulary (HMIC) in their annual report. HMIC have advised that these assaults data will no longer be published in their annual report and that the data for 2004-05 would be the last series of data to be published. The available data are given in the following table.

(b) The UK Honours System (including awards for merit, service or bravery) is managed by the Cabinet Office Ceremonial Secretariat and details of awards are published in the *London Gazette*. The number of police officers receiving such awards is not collected centrally within the police personnel statistics series.

Fatal assaults[1] on police officers 1999-2000 to 2004-05[2,3]

Force	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05
Avon and Somerset	0	0	0	0	0	0
Bedfordshire	0	0	0	0	0	0
Cambridgeshire	0	0	0	0	0	0
Cheshire	0	0	0	0	0	0
City of London	0	0	0	0	0	0

Fatal assaults[1] on police officers 1999-2000 to 2004-05[2,3]

Force	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05
West Yorkshire	0	0	0	0	0	0
Wiltshire	0	0	0	0	0	0

[1] Data collated on behalf of and published by HMIC. Serious assaults are those for which the charge would be under sections 18 and 20 of the Offences Against the Person Act 1861. Other assaults include those with minor or no injury. Recording practices may vary over time and between forces.
[2] Financial year runs 1 April to 31 March inclusive.
[3] HMIC did not publish a force breakdown of assaults prior to 1999-2000. HMIC have advised that assaults data will no longer be published in their annual report and that the data for 2004-05 is the last series of these data to be published.
[4] Greater Manchester was not able to provide data in 2003-04.
[5] Lancashire and West Midlands were not able to provide breakdowns of numbers for different assaults in 2003-04, however the number of overall assaults was 462 and 1,112 respectively.
[6] Lancashire and West Midlands were not able to provide breakdowns of numbers for different assaults in 2004-05, however the number of overall assaults was 521 and 910 respectively.
[7] Metropolitan Police was unable to provide data in 2000-01 and was unable to provide breakdowns of numbers for different assaults from 2001-02 to 2003-04.
[8] South Wales was not able to provide breakdowns of numbers for different assaults in 1999-2000.

Police: Finance

Mr. Ruffley: To ask the Secretary of State for the Home Department what assessment she has made of the effect of changes in the level of crime on the police funding formula in each of the last 10 years. [195644]

Mr. McNulty: The police funding formula uses a range of data relating to demographic and social characteristics, which are heavily weighted by changes in population, to allocate grant and reflect the relative needs of each police authority.

Changes in the level of crime are not factored into the police funding formula when calculating grant allocations per se, as to do so, would create perverse incentives for police authorities and forces.

Mr. Ruffley: To ask the Secretary of State for the Home Department which police forces in England and Wales are receiving funding *(a)* above the formula funding level, *(b)* at the formula funding level and *(c)* below the formula funding level in 2007-08; and if she will make a statement. [195692]

Mr. McNulty: The information requested is set out in the following table.

The damping mechanism exists to protect all authorities against financial instability and ensures all authorities receive an increase in grant at least equal to the "floor" level on a like-for-like basis year-on-year.

For the three years of the comprehensive spending review we have set the funding floor at 2.5 per cent. This will mean that each police authority in England and Wales is guaranteed an increase of at least that amount in each of the next three years while enabling us to move towards fuller implementation of the needs based funding formula.

Police grant floors 2007-08

£ million

	2007-08 allocation

[1] Rounded to the nearest £100,000. Grant as calculated using the Police Funding Formula for 2004-05. This includes the Metropolitan Police special payment.
[2] Figures for the City of London are excluded because these are allocated to the Common Council of the City of London as a whole in respect of all its functions. The City of London is grouped with education authorities for floors and ceilings purposes.
[3] Rounded to the nearest £100,000. Grant as calculated under the Local Government Finance Report (England) and Local Government Finance Report (Wales). This includes the Metropolitan Police special payment, and the effects of floors and ceilings.

Mr. Ruffley: To ask the Secretary of State for the Home Department how changes in population are taken into account when calculating the total resource allocation formula for police forces. [195703]

Mr. McNulty: The police funding formula uses a range of data relating to demographic and social characteristics, which are heavily weighted by changes in population, to allocate grant and reflect the relative needs of each police authority.

When calculating formula grant allocations, the best information available at the time that treats all authorities on a consistent basis is used. Population data is provided by the Office for National Statistics (ONS).

Police: Firearms

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were *(a)* shot at, *(b)* injured by shootings and *(c)* killed by shootings in each police force area in England and Wales in each of the last five years for which figures are available. [19561[c]]

Mr. McNulty: Information on firearms offences (excluding air weapons) in which the weapon was fired but did not cause injury and the principle victim was a police officer on duty, from 2002-03 to 2006-07 is given in table (a).

Data relating to crimes recorded by the police in which a police officer on duty was injured by a firearm (excluding air weapon) by the weapon being fired, from 2002-03 up to and including 2006-07 and are given on table (b).

Table a: Crimes recorded by the police in England and Wales in which a firearm (excluding air weapon) was fired but did not cause injury and the principle victim was a police officer on duty, 2002-03 to 2006-07

	Police force area	Number of offences
2002-03[1]	Metropolitan	14

West Yorkshire			2	2
Wiltshire			1	1
England and Wales total		3	16	19

[1] By the weapon being fired.
[2] A serious injury is one which necessitated detention in hospital or involve fractures, concussion severe general shock penetration of a bullet or multiple shock wounds.
[3] The National Crime Recording Standard was introduced on 1 April 2002. Figures for some crime categories may have been inflated by this.
4. More explicit guidelines for the classification of weapons introduced on 1 April 2004 may have increased the recording of firearm offences particularly those committed by imitation weapons.

Police: ICT

Mr. Ruffley: To ask the Secretary of State for the Home Department which police forces are equipped with the National Strategy for Police Information Systems for managing *(a)* custody records and *(b)* case files; when she expects the remaining police forces to adopt the systems; and if she will make a statement. [195607]

Mr. McNulty: The police forces equipped with the National Strategy for Police Information Systems (NSPIS) for managing custody records and case files are shown in the following table.

The forces that have not contracted for the NSPIS products have implemented alternative custody and/or case preparation that conform to the same data standards.

All of these implementation projects are now completed or are in their final stages. The Metropolitan Police Service is introducing NSPIS case preparation in parallel with the deployment schedule for the HM Court Service Libra system. All 43 forces will have an approved custody of case preparation system live at all sites by the end of 2008.

Mr. Ruffley: To ask the Secretary of State for the Home Department which police forces are *(a)* equipped with and *(b)* piloting niche record management software. [195608]

Mr. McNulty: The following forces are equipped with Niche record management software (RMS):

Cheshire Constabulary
Cleveland Police
Hampshire Constabulary
Merseyside Police
Police Service of Northern Ireland
North Wales Police
North Yorkshire Police
South Wales Police
West Yorkshire Police
Wiltshire Constabulary.

Niche Technology Inc. develops software which is commercially available. I am not aware of any forces, other than those listed, that are currently piloting Niche RMS in a "live" environment.

Police: Pensions

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how much was spent on the police pension scheme in each year since 1980-81; what forecasts she has made of how much will be spent in each year between 2007-08 and 2050-51; how many members of the scheme there are; and if she will make a statement; [195680]

(2) what the cost of pension provision to each constabulary was in each year since 1997; and what percentage of the budget of each force this represented in each of those years [195691]

Mr. McNulty: The information requested on the total cost of police pensions and on the cost of pension provision as a share of police spending for each constabulary for the years before 2006-07 is not held centrally as the administration of the police pension schemes is the responsibility of individual police authorities. Information on financial statistics, including expenditure on police pensions and overall spending, for police forces is included in the annual reports published by the Chartered Institute of Public Finance and Accountancy (CIPFA). This information is gathered independently of the Home Office.

However, the system for financing police pensions changed on 1 April 2006. Under the new system, police

authorities no longer have to meet the cost of pensions in payment out of their operating accounts. Police authorities now have a separate pensions account for this purpose, into which are paid officers' contributions and a new employer's contribution. Where the pensions account does not have enough funds to meet the cost of pensions in any year it is topped up with a grant from central Government; any surplus is recouped. A key benefit of this change is that it takes away from police authorities the responsibility for meeting the rising cost of pensions in payment as a result of an increase in the number of pensioners.

Figures from the annual police pensions financing reporting cycle show that based on police forces' unaudited accounts for 2006-07, the estimated pensions expenditure from forces' pensions accounts under the new system across the service was £1.96 billion—£1.46 billion net of the contributions made by serving officers.

The following figures are the most recently published projections of total future expenditure on police pensions in England and Wales, net of the contributions made by serving officers. These were produced by the Government Actuary's Department (GAD) as part of the consultation process on the new system for funding police pensions in 2005. GAD advise that in view of the time elapsed since the figures were produced they should be viewed only as indicative as the likely future trend of police pensions expenditure. No projections are available for 2013-14 to 2050-51.

The following table outlines figures for the expenditure of each police force on employer contributions for police pension purposes, based on their unaudited accounts, set against each force's budget requirement for 2006-07 as a percentage.

Membership figures are not held centrally, but we estimate that there are approximately 140,000 active members of one or other of the two Police Pension Schemes. We also estimate that there are approximately 120,000 police pensioners, including survivor pensions, and a further 20,000 police deferred pensioners. This gives a total estimate of 280,000 members of the police pension schemes.

Financial year	*Estimated pensions expenditure (£ billion)*
2007-08	1.61
2008-09	1.74
2010-11	1.88

Police: Political Impartiality

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what recent guidance has been given to chief constables on the use by political parties of photographs of named police officers in election leaflets. [196296]

Mr. McNulty: Regulation 6 of the Police Regulations 2003 as amended by the Police (Amendment) Regulations 2004 states that:

"a member of a police force shall at all times abstain from any activity which is likely to interfere with the impartial discharge of his duties or which is likely to give rise to the impression amongst members of the public that it may so interfere. A member of a police force shall in particular (a) not take any active part in politics".

No guidance has been issued to police forces on the interpretation of these provisions.

Police: Retirement

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average retirement age for a police officer was in the most recent period for which figures are available; and what the average age was at which police officers retired on invalidity pensions in each police force area in England and Wales in each year since 1997. [195701]

Mr. McNulty: Retirement age cannot be separately identified from the data collected within the police personnel statistics series.

The available data are the age on leaving the service within the following time bands only: 25 and under, 26 to 40, 41 to 55 and over 55.

Mr. Ruffley: To ask the Secretary of State for the Home Department what proportion of retirements from each police force in England and Wales have been on medical grounds in each year since 1997. [195702]

Mr. McNulty: The numbers of police officer medical retirements have been published each year by Her Majesty's Inspectorate of Constabulary (HMIC) in their annual report. HMIC have advised that these data will no longer be published in their annual report and that the data for 2004-05 would be the last series of data to be published.

The format of the published data was changed from 2001-02, and the available data are given in the following tables.

Police officer medical retirements as a percentage of all retirements[1] (FTE)[2] by force from 1996-97 to 2000-01[3]

	1996-97	1997-98	1998-99	1999-2000	Percentage 2000-01

Police: Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department what rates of sick leave were reported in each police force in each year since 1997. [195617]

Mr. McNulty: The data for the amount of police officer and police staff working time lost to sickness, have been collected centrally from 2002-03.

Police officer and police staff sickness absence data for 2002-03 onwards are available on the Home Office website, located at:

http://www.police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

For 2002-03 and 2003-04, the data are given in the 2003-04 Police Performance Monitoring report, in the form of police officer and staff days lost per person per year.

For 2004-05 onwards, the data are given in the annual Police Performance Assessment reports, in the form of average number of police officer and staff hours lost per person per year.

Safer Neighbourhood Teams

Joan Ryan: To ask the Secretary of State for the Home Department what plans she has to resize safer neighbourhood teams. [195107]

Mr. McNulty: Decisions over the size of a Safer Neighbourhood or Neighbourhood Policing Team are operational considerations for the chief constable, in consultation with community partners and the communities themselves. Sir Ronnie Flanagan has recently endorsed this in his review, saying that there should be no "one size fits all" model or strategy.

Terrorism: Convictions

John Mann: To ask the Secretary of State for the Home Department how many individuals were convicted of terrorist offences in the UK in each year since 1978. [194235]

Mr. McNulty *[holding answer 14 March 2008]:* The number of individuals convicted since 1978 under the Prevention of Terrorism (Temporary Provisions) Acts 1974 and 1976 is available on the Home Office website in "Statistics on the Operation of the Prevention of Terrorism Legislation, Great Britain". This publication details detentions under this Act and outcomes including statistics on individuals found guilty. It is available quarterly through the 'archive' page back to 1979.

http://www.homeoffice.gov.uk/rds/hosbarchive.html

The Terrorism Act 2000 came into force on 19 February 2001. Statistics compiled from police records are available on the Home Office website from 11 September 2001 to 31 March 2007:

http://www.homeoffice.gov.uk/security/terrorism-and-the-law/?view=Standard

These detail arrests under this Act and under other legislation where the investigation is considered terrorist related and the outcomes to those arrests, including convictions.

For this period, there were 41 Terrorism Act convictions. There were also 183 convictions under other legislation.

In addition to the aforementioned, statistics on the number of convictions in significant terrorist cases are collated for 2007 and 2008. In 2007, 37 individuals were convicted in 15 significant terrorist cases. 21 of those individuals pleaded guilty. So far in 2008, 21 people have been convicted in seven significant terrorist cases. Of these 21, 10 individuals pleaded guilty.

Figures are complied from police records and are subject to change as cases go through the system. The Home Office is currently working with the police to review how terrorism statistics are collated.

Terrorism: Detainees

Mr. Winnick: To ask the Secretary of State for the Home Department pursuant to the Answer of 19 November 2007, *Official Report*, column 505W, on terrorism: detainees, if she will provide an update on the numbers of people *(a)* held, *(b)* charged and *(c)* released without charge. [195178]

Mr. McNulty *[holding answer 19 March 2008]:* Pre-charge detention came into force on 25 July 2006 as part of the Terrorism Act 2006. The latest figures are given in the following table. To date 11 individuals have been held for over 14 days pre-charge detention. Six individuals have been held for the maximum 27 to 28 day period. Of these three individuals were charged and three individuals were released without charge. Statistics are collated from police records and are updated accordingly.

Pre-charge detention to date

Period of detention (days)	Number of persons held	Charged	Released w/o charge
14 to 15	1	1	
18 to 19	1	1	
19 to 20	3	3	
27 to 28	6	3	3

WORK AND PENSIONS

Access to Work Programme

Mr. Harper: To ask the Secretary of State for Work and Pensions under what circumstances *(a)* criminal and *(b)* credit checks of employers claiming access to work funding are undertaken. [198253]

Mrs. McGuire: At present there are no criminal or credit checks on employers of Access to Work customers.

Access to Work Programme: Fraud

Mr. Harper: To ask the Secretary of State for Work and Pensions what procedures are in place to prevent fraudulent claims for access to work funding. [198254]

Mrs. McGuire: Jobcentre Plus has a responsibility to use taxpayers' money wisely. Access to Work assessment procedures evaluate customer needs and identify the most cost effective but suitable support solution. In the majority of cases, external assessors carry out workplace based assessments. Once support has been agreed the customer or their employer purchase the support from a supplier of their choice up to the agreed funding level and claim reimbursement from Access to Work.

Managerial checks are carried out to ensure validity of applications and that claims are adequately checked before payments are made. These checks also ensure that the correct amount is paid promptly to the relevant person or organisation and the amounts claimed are in line with the spend profiled for the customer.

To further mitigate the risk of fraudulent claims or inappropriate support, all Access to Work customers receiving ongoing support are reviewed at least once annually to confirm that the appropriate support is being claimed and received. All customers complete a renewal declaration stating that any change of circumstances has been notified and the support meets their needs.

Children: Maintenance

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions with reference to the answer of 17 July 2007, *Official Report*, columns 205-06W, on children: maintenance, what the reasons were for recent statements by the staff operating the Child Support Agency (CSA) MP hotline that they are unable to contact the Bolton office of the CSA by telephone. [196304]

Mr. Plaskitt *[holding answer 25 March 2008]:* The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephan Geraghty, dated 1 April 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, with reference to the Answer of 17th July 2007, Official Report, columns 205-6W, on children: maintenance, what the reasons were for recent statements by the staff operating the Child Support Agency (CSA) MP hotline that they are unable to contact the Bolton Office of the CSA by telephone. [196304]

In my previous letter to you I confirmed that when the Agency received a complaint relating to a clerical case managed by the Bolton site, the initial contact with the Bolton site was by email to ensure that all the necessary information to progress and resolve the client's concerns was gathered.

Since my last response to you in July 2007, the Agency has addressed the concerns that you and others have raised about how the Bolton site was managing complaints. Our Minister, Lord McKenzie, also wrote to all Members of Parliament in July last year announcing the Agency's decision to increase the resource dedicated to managing the clerical caseload. All complaints involving Members of Parliament or the Independent Case Examiner were transferred to specialist caseworkers within the Agency at the end of last year. In addition the Agency now retains new clerical cases until the first maintenance payment has been received, allowing the Bolton site to concentrate on collecting and paying maintenance for children.

These changes now mean that clerical cases are progressed in five separate sites across the Agency. To support these changes the Agency introduced a new database which allows all sites receiving queries relating to clerical cases to deal with all but the most complex of issues. Where the Agency is unable to resolve a query relating to a clerical case from the MP Hotline by reference to the database, the Agency now co-ordinates the response through a specialist team based in our Falkirk Centre. This team then takes responsibility for resolving the query and will contact the Member of Parliament to progress the case.

I can assure you that the Agency is committed to improving the service to those clients whose cases are managed clerically and as a result of the additional resource dedicated to this area client service will continue to improve.

I hope you find this answer helpful.

Construction: Death

Mr. Hepburn: To ask the Secretary of State for Work and Pensions for what reasons the Health and Safety Executive has ended its publication of a running current total of construction fatalities. [196432]

Mrs. McGuire: The Health and Safety Executive does not publish a running total of construction fatalities. Its practice of providing such information to inquirers on request continues, on the understanding that numbers given are unvalidated, and therefore subject to change.

Partially validated statistics on fatal injuries for all industries (including construction) are published on the HSE website on a quarterly basis, as are unvalidated details of fatalities presented in monthly reports made by HSE's Chief Executive to Health and Safety Commission (HSC) meetings.

Council Tax Benefits

Mr. Pickles: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of households in England entitled to but not claiming council tax benefit at the latest date for which figures are available; and what savings accrue to the public purse from such non take-up of entitlement. [195252]

Mr. Plaskitt: Estimates of the numbers not claiming their entitlement to council tax benefit, and the amount of council tax benefit that is not claimed are available in the DWP publication series entitled "Income Related Benefits Estimates of Take-Up in 2005-06". Estimates relate to Great Britain only. Copies of the latest publication, plus past reports, can be found in the Library.

There is no saving, relative to spending plans, from take-up of benefits being lower than 100 per cent. Forecasts of spending on benefits are based on estimates of those who will actually receive the benefit, not those who are entitled. This is in accordance with Government accounting rules that require forecasts to be taut and realistic.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions pursuant to the answer of 6 March 2008, *Official Report*, column 2806W, on the departmental intranet, whether his Department's IT system is able to provide a record of Wikipedia entries *(a)* created and *(b)* amended from within his Department. [195834]

Mrs. McGuire: The Department for Work and Pensions is not able to provide a record of Wikipedia entries *(a)* created and *(b)* amended from within the Department as the cost of obtaining such data could be obtained only at disproportionate cost.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196445]

Mrs. McGuire: The information requested is not held centrally and can be provided only at disproportionate cost.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195816]

Mrs. McGuire: The Department for Work and Pensions does not collate records of the total or average hours that were worked by it's employees.

To extract this information from individual records for the period requested would be at a disproportionate cost.

Housing Benefit: Antisocial Behaviour

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 22 February 2008, *Official Report*, columns 1122-3W, on housing benefit: antisocial behaviour, what level of proof is needed for *(a)* individuals and *(b)* households to (i) be made the subject of an order for possession on grounds of anti-social behaviour and (ii) be found to have unreasonably refused to engage with the help and support offered as specified in a written warning notice. [197027]

Mr. Plaskitt *[holding answer 26 March 2008]:* The Anti-social Behaviour Act ensures the courts must give particular consideration to the actual or likely effect which the antisocial behaviour has had or could have had on others when considering whether it is reasonable to grant a possession order on the grounds of nuisance or annoyance. This consideration does not remove the duty on the court to consider fairly the case against the tenant who is accused of committing or failing to prevent antisocial behaviour. This might include any particular circumstances that may have led to such conduct, (issues of mental health or drug or alcohol abuse for example). But in doing so, the court must also take into account the effect of their behaviour on their victims and the wider community.

When a sanction in housing benefit is being considered, decisions on whether a household has unreasonably refused to engage with the help and support offered, will normally be made by a panel composed of senior officers drawn from relevant local authority departments and key support agencies. The panel should ensure that the package of support offered was properly determined, that a reasonable attempt has been made to engage with the household and also consider whether the household has good cause for failing to undertake action specified in the warning notice.

The Department for Work and Pensions has issued detailed guidance on all aspects of the operation of the pilot schemes to the eight local authorities in the pilot areas; a copy of which has been placed in the Library.

ICT: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions what projects his Department has to assist disabled people to use computers; and how much funding each of these programmes received in the last 12 months. [196985]

Mrs. McGuire: The Department for Work and Pensions is responsible for a range of mainstream and specialist employment programmes which can help disabled people move into or retain work.

For example, subject to an assessment, Access to Work can provide whatever adjustment a customer needs to access a computer in order to do their job. Some WORKSTEP provision can assist customers to use computers if the job requires use of computers. Work preparation courses can also assist customers to use a computer if this is necessary to achieve and sustain their job goal. However, it is not possible to allocate programme costs specifically by activity.

Income Support: Lone Parents

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many lone parents in receipt of income support in the most recent period for which figures are available had *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five or more children. [197144]

Mr. Plaskitt *[holding answer 26 March 2008]:* The requested information is in the following table.

Number of children in lone parent families in receipt of income support in Great Britain

Number of children	*Lone parents in receipt of income support*
All claimants	765,630
One child	351,820
Two children	246,700
Three children	110,410
Four children	39,690
Five or more children	17,000

Notes:
1. Lone parents are defined as single claimants with children under 16 and not receiving incapacity benefits.
2. Figures are rounded to the nearest 10.
3. Totals may not sum due to rounding.
4. Data are to May 2007.

Source:
100 per cent DWP Work and Pensions Longitudinal Study.

Industrial Health and Safety: Directors

Mr. Clapham: To ask the Secretary of State for Work and Pensions what format the evaluation of the voluntary health and safety guidance addressed to directors of corporate bodies and their equivalents in the public and third sectors will take; and when he expects to publish his findings. [196952]

Mrs. McGuire *[holding answer 27 March 2008]:* The HSE will commission an evaluation from independent researchers in two phases:

(i) a survey focussing on the distribution, penetration and reception of the guidance within the target audience of directors of corporate bodies and their equivalents in the public and third sectors. This will be undertaken six months after launch, in May 2008.

(ii) a survey designed to assess the extent and nature of change in behaviour of directors of corporate bodies and their equivalents in the public and third sectors. It is planned that this work should be undertaken within 18 months to two years of the launch of the guidance; with a final report published early in 2010.

Mr. Clapham: To ask the Secretary of State for Work and Pensions what percentage of all organisations have agreed, in accordance with guidance issued by the Health and Safety Executive, to appoint voluntarily a director to take responsibility for safety and health duties in the *(a)* private, *(b)* public and *(c)* third sectors. [196953]

Mrs. McGuire *[holding answer 27 March 2008]:* There is no evidence yet available on the impact of the guidance on director leadership issued jointly by the HSC and the Institute of Directors, published in November 2007.

However, a programme of research was undertaken over four years following the issue in 2001 by the HSC of guidance on directors' responsibilities. This research involved a telephone survey examining the health and safety responsibilities of company directors and management board members in large organisations, and found:

Percentage where a board director has responsibility for health and safety

	Percentage of type		
	2001	*2003*	*2005*
Top 350	85	90	82
Large Firms	73	87	84
Public Sector	74	77	89
Voluntary	86	55	[1]
All	75	82	85

[1] Voluntary organisations were not surveyed in 2005 as the previous surveys found that the number of large voluntary organisations was relatively small and hence it was difficult to secure a response.

There is separate evidence available from a postal survey carried out as part of an evaluation of HSE's enforcement policy statement in 2004. This covered firms of all sizes (including sole traders, micro and small firms) and found that 44 per cent. of all organisations questioned, reported having a 'Health and Safety Board Director'. This included 33 per cent. of the charities questioned; 86 per cent. of central Government organisations; 67 per cent. of local government organisations; and 50 per cent. of social services.

Mr. Clapham: To ask the Secretary of State for Work and Pensions whether he is considering the introduction of statutory health and safety duties for company directors; and if he will make a statement. [196955]

Mrs. McGuire *[holding answer 27 March 2008]:* Government are committed to promoting greater director leadership, and supports Health and Safety Commission efforts to achieve high standards of board level leadership through advice, guidance and enforcement.

Government are keeping the question of new legal duties for directors on health and safety under review.

Industrial Health and Safety: Prosecutions

Mr. Clapham: To ask the Secretary of State for Work and Pensions how many successful prosecutions of company directors there were for breaching section 37 of the Health and Safety at Work Act 1974 in each of the last six years for which figures are available, broken down by industrial sector. [196954]

Mrs. McGuire *[holding answer 27 March 2008]:* For the period 1994 to 2004, section 37 of the Health and Safety at Work Act 1974 was used to bring proceedings against a total of 111 company directors in relation to various health and safety management matters. Of these, 86 were convicted and 11 jailed.

The more detailed breakdown of the figures requested could be obtained only at disproportionate cost.

Social Security Benefits

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of claimants of *(a)* jobseekers allowance, *(b)* incapacity benefit and *(c)* income support who were living abroad in each of the last 10 years. [185963]

Mr. Plaskitt: Neither jobseeker's allowance, nor income support are payable to people who live outside Great Britain. Further, 0.45 per cent. only of incapacity benefits claimants live abroad.

An EC regulation co-ordinates member states' social security schemes for workers who move between member states. The EC regulation provides that generally, sickness and invalidity benefits must be exported if a beneficiary moves to another member state, although there are some restrictions on the export of sickness benefit. In effect, people in Great Britain who qualify for contributory incapacity benefit (IB) because they have made sufficient national insurance contributions, can continue to receive their benefit if they take up permanent residence in one of the other EU member states. The agreement also extends to the states of the European Economic Area (EEA) and Switzerland. The UK also has reciprocal arrangements with a number of non-European countries (e.g. USA, Jamaica) some of which include similar arrangements for people from Great Britain to continue to receive contributory benefit when they move there and vice-versa.

Of those receiving IB abroad most live in the Republic of Ireland and Spain and smaller numbers across a wide range of other European countries. Very few live outside Europe. They include both British expatriates and nationals of other countries who have worked and paid contributions

in Great Britain and have then returned to their own country. They also include "pro rata" cases where the benefit is paid partly by the UK and partly by a foreign authority as customers have contributed to insurance schemes in both Great Britain and an EEA state.

The available information for incapacity benefits is in the table.

Incapacity benefit and severe disablement allowance claimants in Great Britain and abroad, as at May each year

Quarter ending	*GB*	*Claimants living abroad*
1998	2,784,500	9,400
1999	2,744,300	9,000
2000	2,728,090	10,230
2001	2,795,340	10,430
2002	2,807,630	10,800
2003	2,815,660	11,360
2004	2,814,710	11,740
2005	2,783,720	12,130
2006	2,730,000	12,050
2007	2,685,320	12,010

Notes

1. Caseload figures prior to May 2000 are rounded to the nearest 100, and to the nearest 10 thereafter.
2. Incapacity benefit (IB) and severe disablement allowance (SDA) claimant figures include IB credits only cases.
3. Caseload figures prior to May 2000 have been produced using 5 per cent. data and rated up proportionally using 100 per cent. WPLS totals.
4. Great Britain totals may include a small number of claimants living abroad.
5. It is possible to receive IB/SDA in another country in the European Economic Area (EEA) or a country which has a social security agreement with the United Kingdom, or short-term IB for up to 26 weeks under certain conditions.

IAD Information Centre 5 per cent. samples—May 1998 to May 1999 and DWP Information Directorate, Work and Pensions Longitudinal Study, 100 per cent. data—May 2000 onwards.

Social Security Benefits: Prisoners

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was paid to prisoners in each type of benefit in each of the last five years. [196653]

Mr. Plaskitt: The information is not available.

Winter Fuel Payments

Chris Grayling: To ask the Secretary of State for Work and Pensions how much the winter fuel allowance was worth, expressed as a percentage of *(a)* average fuel bills and *(b)* average pensioner fuel bills in each of the last 10 years for which information is available, broken down by region. [185891]

Mr. Mike O'Brien: The winter fuel payment is intended to provide a contribution towards winter heating bills which account for around 60 per cent. of the total annual fuel bill. The payment provides a significant contribution to these higher winter costs. Winter fuel payments have increased from £20 in 1997-98 to the current value of £200 for households with someone aged 60 to 79 years of age, and £300 for households with someone aged 80 or over.

Next winter, 2008-09, a one-off additional payment will be made. Households with someone aged 60 to 79 will receive an extra £50 giving them £250 and households with someone aged 80 or over will receive an extra £100 giving them £400.

The following table shows the winter fuel payment as a percentage of average winter fuel bills for all households, by region. Information relating to pensioner household expenditure on fuel broken down by region is not available. Obviously these figures will be significantly affected by the Budget announcement.

Year and rate of winter fuel payment (WFP)

Family Spending Surveys 2002-03 to 2005-06.

OLYMPICS

Olympic Games 2012: Construction

Mr. Don Foster: To ask the Minister for the Olympics with reference to the answer of 25 July 2006, *Official Report*, columns 1630-31W, on the London Olympics, whether the detailed plan being developed by Constructing London 2012 to deliver locally available construction skills to build the Olympic and Paralympic infrastructure has been published. [197411]

Tessa Jowell: ConstructionSkills will be publishing its Greater London Strategy later this year, which will include skills and employment programmes for the 2012 games and other major construction projects scheduled for the capital in the next five years.

In the meantime, ConstructionSkills is part of the partnership which is delivering the Employment and Skills Strategy launched by the Olympic Delivery Authority in February. The strategy sets out how the ODA will work with a range of public and private sector partners to help its contractors recruit the 9,000-10,000 construction workers that will be needed at peak in 2009-10 while at the same time helping people develop sustainable skills and a long term career path after the games.

Mr. Don Foster: To ask the Minister for the Olympics what steps she has taken to provide to the local workforce training in the specialist skills required to fill the 33,500 additional jobs identified by Construction Skills as necessary to complete preparations for the London 2012 Olympics. [197443]

Tessa Jowell: The London Development Agency, which leads on maximising the employment and skills benefits of the games in London, forecasts the demands for jobs on site. It also provides important recommendations about workforce training requirements, directly informing the joint construction training programme, as set out in the Olympic Delivery Authority (ODA's) Employment and Skills Strategy. The strategy sets out how the ODA will work with a range of public and private sector partners to help its contractors recruit the 9,000-10,000 construction workers that will be needed at peak in 2009-10, and helps local employees develop their skills.

The Olympic site becoming a National Skills Academy for Construction (NSAfC) is a critical part of this. The NSAfC co-ordinates training provision to meet the identified needs of the project, bringing together contractors and their supply chains, colleges and private providers, funding bodies and other agencies. Detailed plans are currently being prepared, which are expected to include targets for training local people.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Duncan Smith: To ask the Secretary of State for Defence what assessment he has made of the *(a)* quality and *(b)* quantity of food supplies to (i) British forces and (ii) ISAF forces in Afghanistan; and if he will make a statement. [197012]

Mr. Bob Ainsworth: All food supplied to all British and ISAF forces meets EU Quality and Food Safety Standards. Quality assurance checks are carried out throughout the supply chain and food quality is continually monitored by deployed chefs and food supply staff. UK technical staff also regularly visit theatre to monitor quality.

In terms of quantity, a large reserve of both operational ration packs (ORPs) and commercial food is held in Kabul to ensure that all demands from the front line are met. Both Main Operating Bases and Forward Operating Bases (FOBs) that are catering with ORPs are also provided with fresh food, the quantities of which are only ever impeded by the physical logistics of the challenging environment.

The feeding arrangements in main ISAF locations are the responsibility of NATO. I am aware, however, that UK NATO Food Services Staff have regular discussions with the Contractor and NATO regarding the dining facilities and that no official complaints have been received.

Mr. Duncan Smith: To ask the Secretary of State for Defence what steps his Department is taking to prevent menu fatigue amongst UK forces in Afghanistan issued with 24-hour operational ration packs; and if he will make a statement. [197015]

Mr. Bob Ainsworth: We place the utmost importance on ensuring our troops are properly fed on operations, and indeed throughout the world. Huge effort goes into nutritional analysis, designing and planning menus, delivering food stocks and preparing food to ensure our men and women have all the proper nutrition they need to carry out their demanding and important tasks. We are aware that menu fatigue can arise, however, and every effort is made to alleviate it.

There are 10 General Purpose menus available in the 24 hour Operational Ration Packs (ORP), and plans are under way to increase this number to 14. There are also five Halal, five Sikh/Hindu and five Kosher/Vegetarian variants and five 10 Man ORP variants available. The majority of remote operating locations also receive supplies of fresh food at least once a week which are used to supplement ORPs.

Royal Logistics Corps chefs have now been deployed to all of the Forward Operating Bases, and provide cooked meals for personnel using ORPs and fresh food supplies. Meals in the larger bases are generally provided from a three to four week multiple choice menu cycle. All chefs supporting the British armed forces on operations take great pride in providing a varied and high quality menu and are very responsive to customer feedback. Unit commanders are also provided with guidance on how to ensure that personnel remain properly nourished and hydrated on operations.

Armed Forces: Fisheries

Mrs. Iris Robinson: To ask the Secretary of State for Defence how many hours were spent policing fisheries legislation in the Irish Sea and North Channel by *(a)* RAF Nimrods, *(b)* RAF aircraft other than Nimrods and *(c)* Royal Navy vessels in the last 12 months; and what personnel were involved. [197271]

Mr. Bob Ainsworth: The Royal Air Force does not undertake fishery protection duties.

The Royal Navy does not keep records of hourly activity of fishery protection vessels (FPVs), but records patrol days (24 hr period). In the last 12 months—1 March 2007 to 29 February 2008—FPVs were on task in the Irish sea (International Council for the Exploration of the Sea Area 107A) for 78 days: 55 days by river class vessels and 23 days by hunt class vessels. The average ships complement numbers for river class vessels is 32 and for hunt class vessels it is 37.

Armed Forces: Food

Mr. Duncan Smith: To ask the Secretary of State for Defence what the maximum period is that UK forces are expected to subsist on 24-hour operational ration packs alone. [197014]

Mr. Bob Ainsworth: There is no defined maximum period for the use of 24 hour operational ration packs (ORP) as the main source of nutrition. A recent study commissioned by the MOD found that, providing it is consumed in its entirety, there is no nutritional evidence to suggest that healthy personnel could not subsist on 24 hour ORPs indefinitely. Personnel deployed on extended patrols usually live on ORP for the duration of their task, although whenever possible, ORPs (both the 24 hour and 10 man variants) are supplemented by fresh produce cooked by service chefs.

Armed Forces: Housing

Danny Alexander: To ask the Secretary of State for Defence what his Department's policy is on disposing of homes which have become surplus to the needs of forces personnel; and if he will make a statement. [197417]

Derek Twigg: The majority of Service Family Accommodation (SFA) properties in England and Wales were sold to Annington Homes Ltd. (AHL) in 1996 and then leased to the Ministry of Defence (MOD). When they become surplus to defence requirements the properties are handed back to AHL for disposal.

Other surplus SFA in the UK is usually sold on the open market to achieve best value in accordance with Treasury guidelines, unless they are required by other public bodies (e.g. English Partnerships, Scottish Executive) or there are former owner (Crichel Down) considerations.

Where the opportunity exists for a bulk sale of SFA at market value, MOD will discuss the way forward with the local authority and registered social landlords.

Danny Alexander: To ask the Secretary of State for Defence how many homes his Department sold in each local authority area of Scotland in each year since 1997; and what proportion of those homes were sold or otherwise transferred to the relevant local authority or a registered social landlord in each of those years. [197418]

Derek Twigg: Records of all Service housing sold in Scotland since 1997 are either not held centrally or no longer available. It will take a time to establish what information can be provided without incurring disproportionate cost and effort. I will write to the hon. Member.

Armed Forces: Influenza

Dr. Murrison: To ask the Secretary of State for Defence pursuant to the answer of 7 January 2008, *Official Report*, column 24W, on armed forces: influenza, whether the supplies of *(a)* influenza vaccine, *(b)* anti-virals and *(c)* face masks deployed to theatre in the event of an influenza pandemic will also be made available to (i) coalition partners and (ii) local inhabitants; and if he will make a statement. [195256]

Derek Twigg: For NATO deployments, force protection is a national responsibility. The World Health Organisation is ultimately responsible for the protection of civilian local inhabitants. As with any medical supplies, decisions on their use in specific instances will be made on a case-by-case basis, taking into account operational and humanitarian factors.

Dr. Murrison: To ask the Secretary of State for Defence whether his Department holds stocks of *(a)* vaccines and *(b)* anti-virals for use by the armed forces for the treatment of seasonal influenza; and if he will make a statement. [195352]

Derek Twigg: The Department holds stocks of both vaccines and antivirals for the treatment of seasonal influenza. These will be offered if necessary to specific groups of personnel (such as key workers in the Defence Medical Services), in accordance with the national guidance from the UK Departments of Health.

Dr. Murrison: To ask the Secretary of State for Defence with reference to paragraph 15 of the Defence Medical Services Department's policy letter of 20 January 2006, entitled "The use of influenza vaccines and anti-virals in the event of an influenza pandemic by the Defence Medical Services", reference DMSD/13/1/4; whether he has any plans to use anti-virals for prophylaxis before a pandemic is established; and if he will make a statement. [195354]

Derek Twigg: MOD's policy on the use of vaccines and antivirals with regard to an influenza pandemic follows the Department of Health's national guidelines. For the majority of armed forces personnel there are no plans for prophylactic use, as this is not in accordance with the UK national policy.

Armed Forces: Labour Turnover

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* inflow, *(b)* outflow and *(c)* voluntary outflow rate was of officers at (i) OF-1, (ii) OF-2 and (iii) OF-3 levels in each service in each year since 1997. [196621]

Derek Twigg: The information requested is provided in the following tables:

Inflow[1] rates[2] to UK regular forces[3] from civil life by rank

n/a = unavailable

[1] Figures show all intake to UK regular forces including re-enlistments and rejoined reservists.

[2] Inflow and outflow rates have been calculated using total (trained and untrained) strength as at 1 April of each year.

[3] Figures are for UK regular forces and therefore excludes Gurkhas, Full Time Reserve Service personnel, the Home Service battalions of the Royal Irish Regiment and mobilised reservists. NATO Rank is based on JPA field 'Paid Rank', if this field is blank then NATO Rank is based on JPA field 'Substantive Rank'.

[4] Due to the introduction of a new personnel administration system, Naval Service statistics from 1 October 2006 are provisional and subject to review.

[5] Due to the introduction of a new personnel administration system, Army outflow data by rank for 1 March 2007 to 31 March 2007 are not available. Consequently, Army figures for 2006-07 are the latest available, comprising flows during the period 1 March 2006 to 28 February 2007.

[6] Denotes provisional.

[7] Figures show all outflow from UK regular forces including recalled reservists on release and outflow to the Home Service battalions of the Royal Irish Regiment.

[8] Voluntary outflow rates have been calculated using trained strength only as at 1 April of each year.

[9] Due to ongoing validation of data from the new personnel administration system, Army voluntary outflow data for 2006-07 are currently unavailable.

DASA (Quad-Service)

Armed Forces: Pay

Dr. Fox: To ask the Secretary of State for Defence what the average pay for soldiers at each rank was in each year since 1997. [196611]

Mr. Bob Ainsworth: The following table provides tri-service estimates of average annual basic pay by rank for each year since 1997.

Estimate of average annual salary[1] by NATO rank[2]

	NATO rank							
	OR9	OR8	OR7	OR6	OR4	OR3	OR2	OR1[3]
1997-98	26,800	24,800	23,400	20,500	18,200	15,600	12,400	9,300
1998-99	27,700	25,600	24,200	21,100	18,800	16,100	12,900	9,600
1999-2000	29,000	26,800	25,300	22,100	19,700	16,900	13,500	10,100
2000-01[4]	30,200	27,900	26,400	23,100	20,500	17,700	14,200	10,670
2001-02	33,400	31,100	29,400	26,000	22,900	19,300	15,300	11,600
2002-03	35,000	32,300	30,500	27,000	23,700	20,000	15,900	12,100
2003-04	36,200	33,400	31,600	27,900	24,700	20,700	16,500	12,500
2004-05	37,200	34,300	32,500	28,700	25,400	21,300	17,000	12,909
2005-06	38,300	35,300	33,500	29,500	26,100	21,900	17,500	13,200
2006-07	39,500	36,400	34,500	30,400	26,900	22,600	18,100	13,700
2007-08	40,800	37,600	35,600	31,500	27,800	23,300	18,800	14,500

[1] Estimates of average annual salaries are based on basic pay only and do not include any allowances. They are calculated by multiplying fixed pay level strengths by the corresponding yearly pay rates. As such they will not include the effects of changes to the spread of pay levels within each rank caused by annual increments, promotions, exits and intakes. The figures provided in this table are taken from calculations used for the Military Salaries Index, a copy of which is available in the UK Defence Statistics at Table 2.26

http://www.dasa.mod.uk/natstats/ukds/2007/c2/table226.html

Note that UKDS Table 2.26 also includes illustrative rates. These are actual rates corresponding to the pay level populated by the most service personnel of that rank and will therefore differ from the estimates of average rates of pay provided in this answer.

[2] An explanation of the relationship between NATO rank codes and UK service ranks is provided on page 3 of TSP9 available at http://www.dasa.mod.uk/natstats/tsp9/tsp9tab4.html

[3] OR1 estimates include personnel on New Entrant rates of pay and personnel on Artificer Apprentices, Probationary Medical and Communications-Technicians rates of pay.

[4] There is a discontinuity between 2000-01 and 2001-02 signified by the blank row which is due to the introduction of a new pay system, Pay 2000. The resulting changes to the structure of military salaries meant that the individual pay rates could not be tracked over this period. As such while estimates since 2001-02 are based on strengths by pay level as at 1 May 2005 estimates prior to this will be based on historic pay strengths under the previous pay structure.

Note:

All estimates of average annual salary are rounded to the nearest £100.

Armed Forces: Pensions

Danny Alexander: To ask the Secretary of State for Defence what estimate he has made of the number of beneficiaries of pension-sharing orders for armed forces pensions under the age of 65 years whose former spouse already receives a pension. [196187]

Derek Twigg: The precise number of beneficiaries of pension-sharing orders for armed forces pensions under the age of 65 years where the former spouse already receives a pension is not held, and could be provided only at disproportionate cost.

As a broad estimate, however, there are some 1,800 beneficiaries whose pension share will become payable from age 60, and another 450 that will commence from age 65.

Armed Forces: Recruitment

Dr. Fox: To ask the Secretary of State for Defence what caps or restrictions have been placed on the recruitment for the (*a*) Army, (*b*) Navy and (*c*) RAF in each year since 2005; and what plans there are for the next financial year. [196618]

Mr. Bob Ainsworth: Restrictions are placed on military recruiting in terms of the overall manning requirement and quality of the individuals applying. The numbers of recruits required every year are derived from the requirement for trained manpower to sustain the service's delivery of operational capability and the manning structures that support it. In order to assure operational capability, recruits must meet the three services' entry standards.

Services recruitment achievement levels (percentage)

	2004-05	2005-06		2006-07		2007-08	
	Target	Intake/ percentage	Target	Intake/ percentage	Target	Intake/ percentage	Target	Intake/ percentage
Naval Service	3,753	3,690	3,933	3,940	4,029	[1]3,770	4,272	[1]3,760
		98		100		94		88
Army	12,252	11,720	13,402	12,730	13,950	[1]14,300	14,544	[1]14,550
		96		95		103		100
RAF	2,209	2,180	1,500	1,480	1,887	1,720	3,085	[1]2,510
		99		99		91		81

Services recruitment achievement levels (percentage)

2004-05		2005-06		2006-07		2007-08	
	Target	Intake/ percentage	Target	Intake/ percentage	Target	Intake/ percentage	Target	Intake/ percentage
All services	18,214	17,590	18,835	18,150	19,866	19,790	21,901	20,830
		97		96		100		95

1 Due to ongoing JPA data validation the figures are provisional and subject to review. Therefore the tri-service total is provisional

Notes

1. Recruiting/target figures provided by single services. Figures for FY 2007-08 show position as at 31 January 2008.

2. All intake from civil life figures have been provided by DASA (Quad-Service) - TSP 1. Numbers have been rounded to nearest 10. Due to the rounding methods used, totals may not equal the sum of the parts.

Hugh Bayley: To ask the Secretary of State for Defence how many people from Yorkshire and the Humber were recruited into each of the armed services in each year since 2001. [197138]

Mr. Bob Ainsworth: The information is not held in the format requested to allow the identification of those recruited to the armed forces who originated from a particular region within the UK. It is possible, however, to ascertain the number recruited through the Armed Forces Career Offices within the Yorkshire/ Humberside area and these are given in the following table. Please note that figures are not available for RAF personnel before 2003-04 as these were not centrally held. Figures for naval officers are also not included as they are recruited through the auspices of the Officer Career Liaison Offices of which there are six nationwide. These cover too wide a geographical area to provide useful information in this response.

	Royal Navy	Royal Marines	Army	RAF
2001-02	282	114	1,334	
2002-03	300	92	1,569	
2003-04	206	84	1,301	297
2004-05	192	65	1,015	191
2005-06	178	101	1,110	156
2006-07	178	70	1,386	206
2007-08 (as at 25 March)	170	65	1,210	259

Armed Forces: Schools

Dr. Murrison: To ask the Secretary of State for Defence what plans he has to extend the skill force programme in schools. [195275]

Derek Twigg: Skill Force was started in September 2000 by the Ministry of Defence and the Department for Education and Skills (now the Department for Children, Schools and Families). It uses ex-military instructors to provide the teams which support schools to re-engage disaffected 14 to 16-year-olds with vocationally based education. It was always intended that Skill Force should become a charity and in 2004 it received charitable status.

Since then MOD has provided Skill Force with £10.3 million and funding from other Government Departments (DfES now DCSF) amounts to £9 million. Skill Force will become fully self-supporting in Financial Year 2009-10 when further funding from MOD will cease. Thereafter, the expansion of Skill Force into schools will not be an MOD responsibility.

Armoured Fighting Vehicles

Dr. Fox: To ask the Secretary of State for Defence what the (*a*) orders outstanding for, (*b*) initial date of announcement for procurement and (*c*) expected delivery date are for the (i) Pitbull, (ii) Mastiff, (iii) Bulldog and (iv) Ridgeback armoured vehicles. [196613]

Mr. Bob Ainsworth: There is no vehicle named Pitbull in UK military service. The hon. Member may be referring to the Mobility Weapon Mount Installation Kit (MWMIK), now to be named Jackal in service with UK armed forces. Of the 130 vehicles in the initial order, some 60 have now been delivered. We have announced our intention to procure a further 72 vehicles, with the full quantity of over 200 vehicles expected to be delivered by the end of the year. We announced our intention to procure the initial order in June 2007.

We have ordered over 280 Mastiff vehicles. The first tranche has been completely delivered, with 174 remaining to be delivered by mid 2009. The intention to procure the first tranche of Mastiff was announced in July 2006.

We are converting 900 FV430 vehicles with an upgraded drivetrain to the Mk3, or Bulldog, specification. For operations in Iraq over 100 of these vehicles have been upgraded further (including with additional protection) and this variant has been fully delivered. We announced our intention to procure up-armoured Bulldog in July 2006.

The intention to procure some 150 Ridgeback was announced in December 2007. As contract details have still to be finalised, none have been delivered and schedules have not yet been set.

Charter Flights

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much his Department spent on chartering transport aircraft in 2007. [197424]

Mr. Bob Ainsworth: Chartered aircraft are used to transport freight and personnel when RAF assets are not available, generally due to operational commitments, and when there is a requirement for additional or specialist airlift that it would not be cost-effective to provide in-house.

The expenditure in 2007 was £111 million in direct support of operations and £7 million on core general business.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Defence how many and what percentage of appeals by employees of *(a)* his Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192515]

Derek Twigg: Statistics for appeals made to the Civil Service Appeal Board (CSAB) by MOD Civil Servants prior to 2004 are not held centrally and could be provided only at disproportionate cost. The information in the following tables represents both departmental and agency figures as some agencies have only one or two cases and there exists a duty to protect the identity of individuals concerned within the scope of the Data Protection Act 1998.

The figures for appeals made to the Civil Service Appeal Board by MOD Civil Servants from 2004-2005 onwards are:

2004-05

	Number/percentage
Number of CSABs heard	15
Number of CSAB upheld	3
Upheld (percentage)	20

Successful Appellants

1. Compensation award £30,684.66—CSAB found insufficient evidence of fraudulent intent.

2. Compensation award £17,667.55—CSAB found dismissal unfair on grounds of failing to satisfy the substantive issue.

3. Original Departmental Review Board compensation award increased from 75 per cent. to 100 per cent. due to new medical evidence.

Failed Appellants

Original reason for dismissal:

Six gross misconduct

Three unsatisfactory attendance

Two redundancy

One unsatisfactory performance.

2005-06

	Number/percentage
Number of CSABs heard	16
Number of CSAB upheld	1
Upheld (percentage	6

Successful Appellants

Original compensation award increased by 50 per cent. due to medical evidence.

Failed Appellants

Original reason for dismissal:

10 gross misconduct

Three redundancy

Two unsatisfactory attendance.

2006-07

	Number/percentage
Number of CSABs Heard	14
Number of CSAB Upheld	4
Upheld (percentage)	29

Successful Appellants

1. Compensation award £66,226.13 failure to provide internal appeal process.

2. Compensation award ongoing failure to provide internal appeal process.

3. Dismissal had been procedurally unfair, no award on the basis of 100 per cent. contributory fault.

4. Dismissal had been procedurally unfair, no award on the basis of 100 per cent. contributory fault.

Failed Appellants

Original reason for dismissal:

Five gross misconduct

Four unsatisfactory attendance

One unsatisfactory performance.

Colchester

Bob Russell: To ask the Secretary of State for Defence (1) if he will make available empty Ministry of Defence residential dwellings in Colchester constituency for *(a)* the short-term and *(b)* long-term use by (i) Colchester Borough Council and (ii) relevant housing associations; and if he will make a statement; [195985]

(2) what estimate he has made of how much has been received by Annington Estates in *(a)* 2007-08 and *(b)* the previous 10 years for which figures are available in payments for rent in respect of vacant residential dwellings for military personnel in Colchester constituency. [195986]

Derek Twigg: Service family accommodation (SFA) is provided to house service personnel and their dependants, and in England and Wales most SFA is owned by Annington Homes Ltd. (AHL). Surplus properties are returned to that company. In Colchester some unoccupied properties have been used to accommodate single service personnel while new single living accommodation (SLA) blocks are being built. However, as new SLA becomes available the SFA properties are returned to AHL. For instance around 100 properties have been identified for return to AHL in Financial Year 2008-09. For these, among other, reasons we have no current plans to make empty SFA available for non-military use.

Out of the 1,094 SFA properties at Colchester some 219 are currently void (not in use for their intended purpose). Void stock includes SFA being held for planned moves of service units, or awaiting planned upgrades, sale or release, modernisation or demolition. The Department is taking a number of steps to reduce the amount of void SFA. Since March 2007, the total number of void SFA worldwide has reduced from 13,336 to 12,240 properties.

Whether SFA is occupied or not, we pay the same rent to AHL, an average of £3,500 per annum per property. It is thus not possible to identify the rent paid to AHL for void properties in this and previous years, as no separate assessment of the cost of void SFA is made.

Departmental Databases

Adam Price: To ask the Secretary of State for Defence whether *(a)* companies based in the United States and *(b)* UK subsidiaries of US companies have been contracted by his Department and its agencies to provide services involving the use, storage, processing or analysis of databases of personal information held by the Government on UK citizens in the last five years. [188223]

Mr. Bob Ainsworth: My Department including its agencies has engaged a US registered service provider and UK subsidiaries of US registered service providers to manage storage, processing or analysis of personal information during the last five years.

The Data Protection Act 1998 includes provisions to ensure that personal data benefits from adequate protection when it is transferred outside the European economic area[1] by UK data controllers. Contracts are based on UK contract law with the applicable statutory safeguards.

[1] The 27 EU member states plus Iceland, Liechtenstein and Norway.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Defence what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196452]

Derek Twigg: Due to the way historic records are held, individual hourly rates of pay by month could be provided only at disproportionate cost. However, the average hourly rate of basic salary for 1,329 casual staff paid in March 2008 was £9.42. These figures exclude any employer contributions such as national insurance.

Departmental Translation Services

Mr. Paul Goodman: To ask the Secretary of State for Defence pursuant to the answer of 4 March 2008, *Official Report*, column 2347W, on departmental translation services, how much was spent on translation services into *(a)* Welsh and *(b)* other languages in (i) 2003-04 and (ii) 2004-05. [197544]

Derek Twigg: The following was spent on centrally-contracted MOD translation services into:

Welsh

2003-04: £2,378

2004-05: £2,785

Other languages

2003-04: £57,403

2004-05: £101,865

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Defence how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195826]

Derek Twigg: The annual number of hours worked by civil servants in the Ministry of Defence during 2007-08 was about 140.5 million, representing an average per employee of about 1,950 hours (equivalent to 37.5 hours per week). This figure is extrapolated from an analysis of hours worked in the first week of March 2008. It includes basic conditioned hours plus overtime and any other additional working hours, but excludes staff employed in MOD Trading Funds or locally employed staff overseas.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Defence how many press officers are employed by his Department. [153074]

Derek Twigg: On 27 July 2007 there were 22 press officers employed in the Ministry of Defence's central press office in London, and seven press officers employed in Regional Press Offices. This answer does not include those employed as press officers in Defence Agencies, the Permanent Joint Headquarters, single Service Commands or at unit level, some of whom have a press officer task in addition to their main role. An audit is being conducted by MOD of overall numbers and roles of personnel involved in communications in order to assist with implementation of the Defence Communications Strategy. When this audit concludes, key findings will be made available through the MOD's website and I will write to you.

Substantive reply from Derek Twigg to Mark Hoban:

I undertook to write to you in answer to your Parliamentary Question of 3 September 2007 (Official Report, column 1619W) about the number of press officers employed at the Ministry of Defence. I noted that this information was not available for staff outside the Department's Press Office, but that an audit was being conducted.

In July 2007 there were 22 press officers employed in the MOD Central Press Office in London, and 7 press officers employed in Regional Press Offices.

The audit I have undertaken is now concluded, and it indicates that across Defence the number of people performing press officer functions is around 70, although it is impossible to give a precise figure, and some of these also have other duties. A number of other individuals are involved in communication activity but do not have a press officer role.

I hope this information is helpful, and I am very sorry that it has taken me so long to get back to you.

I am placing a copy of my letter in the Library of the House.

Iraq: Compensation

Mr. Davey: To ask the Secretary of State for Defence how much the Government paid in compensation to Iraqi nationals injured by British armed forces in Iraq in each year since 2003. [198014]

Des Browne: Since 2003 the Ministry of Defence has paid £3,340,000 in compensation to Iraqi nationals injured or killed by British forces as follows:

Financial year	*Total payments (£)*
2003-04	753,000
2004-05	331,000
2005-06	98,000
2006-07	158,000
2007-08	2,000,000

Military Aircraft: Helicopters

Nick Harvey: To ask the Secretary of State for Defence how many flying hours were completed by *(a)* Apache Attack helicopter, *(b)* Gazelle, *(c)* Lynx Mk3, *(d)* Lynx Mk7, *(e)* Lynx Mk8, *(f)* Lynx Mk9, *(g)* Merlin Mk1 and *(h)* Merlin Mk3 helicopters in the armed forces in the last 12 months. [197097]

Mr. Bob Ainsworth: The flying hours completed during the last 12 months, broken down by helicopter type, are as follows:

Helicopter type	*Flying hours*
Apache Attack Helicopter	11,777
Gazelle	12,032
Lynx Mark 3	6,392
Lynx Mark 7	13,607
Lynx Mark 8	5,407
Lynx Mark 9	4,550
Merlin Mark 1	6,683
Merlin Mark 3	5,466

Radar: Wind Power

Mr. Ellwood: To ask the Secretary of State for Defence pursuant to the answer of 20 March 2008, *Official Report*, column 1311W, on radar: wind power, what guidelines his Department provides on the siting of wind farms in relation to maintaining working aerial defences; and how many planning applications have been refused on the grounds that windmills may interfere with defence equipment. [198225]

Derek Twigg: All wind farm applications which are assessed to fall within line of sight of an air defence radar are subject to individual consideration. This scrutiny includes consideration of a range of factors which will be particular to each application in order to assess the likely operational impact of the scheme should it proceed. An objection will be lodged if the operational impact is assessed as being unmanageable. Where an objection is lodged mitigation options will be suggested to the developer where possible.

The Ministry of Defence does not hold information on planning applications refused, however, since 2005 the Department has objected to 54 pre-planning applications for wind turbines on the grounds of interference with defence equipment. Of those objections, three were subsequently withdrawn.

Rapid Reaction Corps

Mr. Laurence Robertson: To ask the Secretary of State for Defence when he expects the Rapid Reaction Corps to move to RAF Innsworth; and if he will make a statement. [197270]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 21 January 2008, *Official Report*, column 1604W.

CULTURE, MEDIA AND SPORT

Cultural Heritage

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 3 March 2008, *Official Report*, columns 2121-2W, on cultural heritage, how many people each percentage figure represents. [194820]

Margaret Hodge: Pursuant to the answer of 3 March 2008, *Official Report*, columns 2121-2W, the table previously supplied is repeated with additional information relating to population.

The table shows the percentage of people from our priority groups and the population as a whole who had made at least one visit to a designated heritage site during the 12 months prior to interview. Population figures have been rounded to the nearest 10,000.

	2005-06		*2006-07*	
Priority group	*Percentage*	*Thousand*	*Percentage*	*Thousand*
Black and minority ethnic	50.7	1,980	48.3	1,900
Limiting disability	59.5	5,090	60.2	5,110
Lower socio-economic	57.1	9,000	57.3	9,140
All adults	69.9	27,730	69.3	27,640

All data are taken from the DCMS 'Taking Part' survey, which provides national data on engagement in culture, leisure and sport by adults aged 16 and over.

Cultural Heritage: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to his Department's press release of 13 February 2008 entitled young people to get five hours of culture a week—£135m funding boost announced, how he plans to measure the number of hours of arts and culture a week children receive in the pilot areas; and what estimate he has made of the number they currently receive. [194873]

Andy Burnham: The Find Your Talent pilot programme will test different ways of delivering a range of cultural opportunities over the next three years, including ways of ensuring all children are able to experience at least five hours.

The pilots will build on the considerable amount of cultural activity already taking place in and out of school and the investment we put into this area. They will also be asked to audit current level of provision and the take up of cultural activities by children and young people. What we learn from them will give us the information we need to make decisions about implementing the scheme nationally.

Although I am unable to give figures for how many hours young people currently receive, the 'Taking Part' survey showed that overall 99 per cent. said they had engaged in cultural sector at least once during the last 12 months. Within this, 61 per cent. of young people said they had engaged in cultural activities at least once a week during the last 12 months, and a further 21 per cent. said at least once a month.

The numbers quoted here relate to the percentage of 11 to 15-year-olds living in private households in England, both in and out school. The interviews were conducted between January and December 2006.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197149]

Andy Burnham: I have not visited any of the listed venues in a ministerial capacity since my appointment.

My ministerial predecessor, my right hon. Friend the Member for Stalybridge and Hyde (James Purnell) visited Manchester Central on 6 and 7 July 2007 to attend the Manchester International Festival and on 19 October 2007 to speak at the Supporters Direct Annual Conference. He also visited the ExCel Conference Centre on 5 August 2007 for the London Triathlon.

My right hon. Friend the Member for Dulwich and West Norwood (Tessa Jowell) when Secretary of State for Culture, Media and Sport visited the Business Design Centre on 25 January 2005 to speak at a NESTA Conference, the Queen Elizabeth Centre on 5 March 2005 to speak at the Capital Woman 2005 Conference and on 16 March 2005 to speak at the Tourism UK 2005 Conference. On 27 and 28 August 2005, she attended the Edinburgh International Conference Centre for the Edinburgh TV Festival. She also visited the International Conference Centre, Birmingham on 8 November 2005 and spoke at the EU Gender Equality Conference. On 23 November 2005, she spoke at the Thames Gateway Conference at the Excel Conference Centre.

During 2006, on 23 October she spoke at the Museum Association Conference at the Bournemouth International Conference Centre and on 23 November at the Thames Gateway Forum at the Excel Conference Centre.

On 18 June 2007, she spoke at the Emergency Planning Society Annual Conference at the Riviera Centre, Torquay and on 25 June 2007 at the International Conference Centre, Birmingham with regional stakeholders about the 2012 Olympics.

Digital Broadcasting: North East

Mr. Kemp: To ask the Secretary of State for Culture, Media and Sport what progress has been made on preparations for digital television switchover in the North East region. [197260]

Andy Burnham: Digital UK is the body charged with communicating with the public and co-ordinating the technical works to upgrade the terrestrial television network to digital. Digital UK operates both national and regional information campaigns. A communications campaign dedicated to the Tyne Tees region, as well as work to upgrade the television transmitters serving the Tyne Tees region, will commence in 2010 to enable the switch to digital to be completed in 2012.

S4C

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of trends in figures for S4C. [194858]

Andy Burnham: Given S4C's independence, it is not necessary for my Department to monitor S4Cs viewing figures closely or make assessments of this kind.

In the first two months of this year, 32 S4C programmes each attracted over 100,000 viewers. Weekly viewing figures for the most popular programmes on S4C are shown on the S4C website:

<http://www.s4c.co.uk/>.

Sports

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many visits were organised as part of the Sporting Champions Mentoring programme in *(a)* 2006-07 and *(b)* 2007-08. [198228]

Mr. Sutcliffe: There were 509 Sporting Champions visits between April 2006 and March 2007, and 513 visits between April 2007 and March 2008.

Sports: Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on the *(a)* Sporting and *(b)* Cultural Champions initiatives since each was established. [198227]

Mr. Sutcliffe: Sport England's current available records indicate that they have allocated the following amounts to the Sporting Champions programme since 2001-02.

	£
2001-02	297,737
2002-03	338,714
2003-04	329,737
2004-05	336,026
2005-06	300,000
2006-07	300,000
2007-08	300,000

DCMS does not fund a "Cultural Champions" programme but we do fund a mentoring programme, which use mentors from sport, music and the media to help young people that are at risk of social exclusion engage with positive activities and make positive life choices. DCMS has allocated £1 million per year to this programme since it was established in 2006-07.

Sports: Per Capita Costs

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 March 2008, *Official Report*, columns 1157-8W, on sports: per capita costs, if he will provide the figures in 2007-08 prices. [198347]

Mr. Sutcliffe: Using information from the Office for National Statistics website the estimated Population of England in each of the last three years is shown in the following table:

	Population England Millions
Mid 2005	50.432
Mid 2006	50.763
Mid 2007	51.017

Based on the above information and Treasury GDP Deflators at Market Prices and Money GDP - Revalorised to baseline 2007-08, the following tables show spend on sport per capita in England for the last three years at 2007-08 prices from:

(a) Public Funding

	Spend per capita (£)
2005-06	5.78
2006-07	7.72
2007-08	7.96

It should be noted that the Exchequer figures (above) include funding from Department for Children Schools and Families and the Capital Modernisation Fund for School Sport and Space for Sports and Arts respectively.

(b) Lottery

	Spend per capita (£)
2005-06	8.82
2006-07	6.99
2007-08	4.16

Tourism

Mr. Whittingdale: To ask the Secretary of State for Culture, Media and Sport which recommendations of the Allnutt Review of Tourism Statistics have been implemented; which recommendations remain to be implemented; which recommendations he does not plan to implement; and if he will make a statement. [196759]

Andy Burnham: The Allnutt Review of Tourism Statistics, published in June 2004, made 14 major recommendations. The implementation of these has necessarily been framed against available resources, the evolution of needs and taking advantage of opportunities that have arisen.

A main recommendation of the review was to establish and resource an effective organisation to develop and maintain tourism statistics of appropriate quality. This 'Tourism Statistics Unit' was recommended to most appropriately be located in the Office for National Statistics (ONS). The recent formation of the English Tourism Intelligence Partnership (ETIP) has led to significant progress being made against this recommendation and planning is under way for the unit to be established, in the ONS, this summer. The work plan for a new 'Tourism Intelligence Unit' (TIU) is being drawn up, and will include fully reviewing the recommendations and preparing costed proposals for future development and implementation.

A brief summary of progress against each of the other recommendations is provided as follows:

Recommendation 1: UK Tourism Survey (UKTS) and Leisure Day Visits Survey (LDVS) should be subject to a major redesign

The UKTS was redesigned and recommissioned in 2005 to address serious concerns about the erosion of data quality. The LDVS was most recently conducted by Natural England in 2005 (England only). The ONS has identified a cost-benefit analysis of the possible future inclusion of these two surveys within the ONS' new Integrated Household Survey as part of their provisional work plan for the TIU.

Recommendation 2: Some interim improvements should be made to the LDVS

Improvements were made to the methodology for the 2005 England Day Visits Survey. VisitBritain have been exploring possible options for a more regular, consistent, day visits survey.

Recommendation 3: The International Passenger Survey (IPS) should be improved as a source of tourism statistics

A recent change to the survey methodology has extended the weighting of the survey results to a regional basis, but other significant improvements—such as the regular inclusion of a detailed expenditure trailer—would require major financial investment. However, the IPS in its current format continues to provide credible and reliable data on inbound and outbound tourism.

Recommendation 4: The registers of accommodation and other tourism businesses should be improved

The provisional work plan for the TIU includes development and publication of a better statistical picture of the 'supply side' tourism data—drawing on ONS business data.

In 2007, VisitBritain commissioned a project aiming to measure the level of serviced and non-serviced accommodation stock across England, by region, using their own extensive database of accommodation data from regional partners and commercial organisations.

Recommendation 5: The UK Occupancy Survey (UKOS) should be improved to cover all types of commercial accommodation and provide viable statistics of occupancy and visitor nights

The methodology for the England part of the occupancy survey was changed in 2007, with a switch to an online-only approach to speed up reporting and improve response rates. The survey still covers serviced accommodation only.

Recommendation 6: The Survey of Visits to Visitor Attractions (SVVA) should be amended to focus more on the quality and completeness of its statistics of visitor numbers

The National Tourism Organisations continue to each conduct a separate annual Survey of Visits to Visitor Attractions. In addition, VisitBritain has addressed the call for timelier visitor data by launching the quarterly England Attractions Monitor in 2006.

Recommendation 7: Regional input-output tables of the best possible quality, and supplementary statistics from relevant businesses, should be produced as key input to the proposed development of Tourism Satellite Accounts

A pilot UK Tourism Satellite Account (TSA) was published in 2004, with a follow-up pilot TSA for the English regions published in 2005. Proposals for future development of TSA work will be scoped and costed by the TIU.

Recommendation 8: Panel surveys should be developed to provide timely short-term indicators of trends for a range of relevant indicators

VisitBritain launched a 'Domestic Industry Panel' in 2006 to help identify reasons behind the trends seen in the quantitative surveys. It is conducted three times a year and involves interviews with senior people in leading tourism businesses.

The England Attractions Monitor, launched by VisitBritain in 2006, is a quarterly panel of 500 visitor attractions across England.

A 'Trip Tracker' survey is also run by VisitBritain in advance of major holiday periods—Easter, Christmas and the August bank holiday—in order to monitor short-term trends. However, the survey is a random telephone survey rather than a panel survey.

Recommendation 9: Methods for producing local tourism statistics should be developed and piloted

The proposal for improved production of local area tourism statistics will be reviewed by the TIU.

Recommendation 10: Arrangements should be established for tourism interests to influence the development of employment and related statistics

The provisional work plan for the TIU includes the development and publication of a better statistical picture of the 'supply side' tourism data, drawing on ONS business data—this will include undertaking basic statistical analyses of employment and other economic data.

Recommendation 11: The dissemination of tourism statistics, and information about the basis and quality of those statistics, should be improved

VisitBritain have greatly improved the communication of research and market intelligence to the industry. They produce rich 'Market Profiles', quarterly round-ups of research and intelligence and have revamped their research web pages (to replace the Star UK website).

The provisional work plan for the TIU includes development of a series of guidance notes that will outline the basis and quality of all key tourism statistics.

Recommendation 12: Various steps should be taken to improve the quality of statistics of Business Tourism

No significant progress—in line with review's recommendation to see as low priority.

Recommendation 13: The review also makes a number of other, relatively minor, recommendations

No significant progress—also low priority.

WALES

Brofiscin Quarry: Hazardous Substances

Mr. Hancock: To ask the Secretary of State for Wales pursuant to his answer of 17 March 2008, *Official Report*, column 819W, on Brofiscin Quarry: hazardous substances, what the timetable was of action taken by the Environment Agency following the receipt of information relating to cattle mortality and deformed cattle foetuses in the vicinity of Brofiscin Quarry. [196355]

Mr. Paul Murphy: I am informed by the Environment Agency Wales that the information relating to cattle mortality and deformed cattle foetuses reported in the vicinity of the Brofiscin Quarry was received by the Environment Agency in the course of its investigations under Part 2A Environmental Protection Act 1990. The cattle mortality investigation took place in the 1960s, was not conducted by the Environment Agency but the information was reviewed and found not to be related to pollutant linkages included in the Record of Determination produced by the local authority.

Any information was passed to the local authority who retain responsibility for investigating other potential pollutant linkages, including livestock.

In accordance with Part 2A Environmental Protection Act 1990 and statutory guidance, regulatory authorities are not authorised to carry out any action that is not referable to a significant pollutant linkage.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Wales what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196748]

Mr. Paul Murphy: All officials are instructed to liaise with members of the Wales Office Communications Team over items to be uploaded to the Wales Office websites. All officials are also contractually bound to follow Ministry of Justice guidelines on internet usage.

Local Transport Bill (Draft)

Mrs. Gillan: To ask the Secretary of State for Wales if he will place in the Library copies of communications and correspondence between the Wales Office and the Welsh Assembly Government relating to the Local Transport Bill. [197361]

Mr. Paul Murphy *[holding answer 31 March 2008]*: Identifying copies of all communications and correspondence between the Wales Office and the Welsh Assembly Government relating to the Local Transport Bill, and placing it in the Library, would incur disproportionate costs. However, on the Bill's introduction we placed an Explanatory Memorandum on the Framework Power—agreed between the Wales Office and the Welsh Assembly Government—in the Libraries of both Houses.

Mrs. Gillan: To ask the Secretary of State for Wales what role his Department played in the inclusion of clauses 115 and 116 in the Local Transport Bill. [197493]

Mr. Paul Murphy *[holding answer 31 March 2008]*: The Secretary of State for Wales is responsible for Welsh provisions in the UK Government's legislative programme. As a result my Department is involved in discussions between the Welsh Assembly Government and UK Government sponsor Department at all stages in legislation relating to Wales. The Local Transport Bill is no exception.

DUCHY OF LANCASTER

Carbon Emission

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 March 2008, *Official Report*, column 2544W, on carbon emissions, whether the amount of carbon dioxide offset referred to in the answer was of equivalent tonnes of carbon dioxide. [198176]

Phil Hope: Yes, the amount of carbon dioxide offset referred to in the answer of 5 March 2008, *Official Report*, column 2544W, was of equivalent tonnes of carbon dioxide.

Departmental Publications

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster when the February 2008 edition of the White Book of the Central Office of Information will be placed in the Library. [198193]

Mr. Watson: The latest edition of the White Book was delivered to the Library on 27 March 2008.

Ministers: Redundancy Pay

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster (1) which former Ministers have been awarded severance pay since 28 June 2007; [196566]

(2) how much was paid in severance pay to Ministers leaving the Government in each year since 1997. [197532]

Mr. Watson: The Ministerial and Other Pensions and Salaries Act 1991 sets out the circumstances in which severance is paid to certain office holders. Information on Ministers who have left office is a matter of public record.

Post Offices: Closures

Mr. Hollobone: To ask the Chancellor of the Duchy of Lancaster what assessment the Social Exclusion Task Force has made of the effects on social inclusion of post office closures. [196429]

Phil Hope: I refer the hon. Member to the answer I gave to the hon. Member for North-East Milton Keynes (Mr. Lancaster) and the right hon. Member for Wells (Mr. Heathcoat-Amory) on 19 March 2008, *Official Report*, column 909.

Rackspace

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster (1) what the value was of each contract awarded to Rackspace by *(a)* his Department and *(b)* its agencies in each of the last nine years; [197510]

(2) what the value was of each contract awarded to Rackspace by the Office of the Leader of the House in each of the last nine years. [197501]

Mr. Watson: The information requested for the Cabinet Office is not readily available and may not be obtained without incurring disproportionate costs.

Smith Institute

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the status is of the Charity Commission's investigation into the Smith Institute; and if he will make a statement. [198199]

Phil Hope: This is a matter for the Charity Commission as the independent regulator of charities in England and Wales. The Commission has told me that it cannot, at this stage, provide a precise timeline for the completion of its inquiry, but that it is currently expected to be concluded by early summer. The Commission will, as is its normal practice, publish a report of its findings after the inquiry is completed, setting out any wider lessons for the charity sector.

CHILDREN, SCHOOLS AND FAMILIES

Basic Needs Safety Valve Fund

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families when he expects to announce the result of the recent applications for the basic needs safety valve fund for *(a)* Milton Keynes and *(b)* other authorities. [197303]

Jim Knight: I would hope to announce the result of the recent applications for the basic need safety valve for *(a)* Milton Keynes and *(b)* other authorities by close on 4 April 2008. Achievement of this target will depend upon further correspondence with local authorities, and their replies, regarding financial details entered on their application forms. If queries cannot be resolved by close on 4 April 2008, it may be necessary to announce allocations individually.

Building Schools for the Future Programme: Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how much funding has been allocated to Building Schools for the Future projects in each local authority; [192838]

(2) how much funding has been allocated under the Building Schools for the Future programme, broken down by parliamentary constituency. [192874]

Jim Knight: Table 1 as follows details the funding which Partnerships for Schools plans to allocate to Building Schools for the Future projects in waves 1, 2 and 3. Funding is provided to local authorities as an 'envelope' to allow local allocation of resources to individual schools in accordance with local priorities. As projects develop, the funding allocations are updated, so it is likely that the final allocations will change. Funding levels have not yet been confirmed for live projects in wave 4 and beyond. However, table 2 shows current indicative allocations, which are subject to change, for each wave 4 authority.

Table 1: Local authority wave 1 to 3 projects

		Estimated funding allocation for whole wave (£ million)

Children

Mr. Gauke: To ask the Secretary of State for Children, Schools and Families how many copies of the Children's Plan Toolkit his Department has had printed; and what the cost of design, printing and distribution has been. [198231]

Beverley Hughes: 1,550 packs have been produced. The total cost was £30,534, which included the design, production and distribution of the packs.

Children: Reading

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families (1) what measures his Department has introduced to support pupils with dyslexia-type reading difficulties in the last five years; [195537]

(2) what measures his Department has introduced to enable parents of children with dyslexia-type reading difficulties to provide support for their child in the last five years. [195535]

Kevin Brennan: All local authorities, schools, and early years settings must haves regard to the special educational needs code of practice which provides advice on carrying out statutory duties to identify, assess and make provision for pupils' special educational needs. Children with dyslexia should have their needs identified and support put in place in the same way as children with any other type of special educational need (SEN).

To help those working in schools with identifying and supporting children with dyslexia, last October we launched the Inclusion Development Programme, which will offer professional development in key areas of SEN starting with training on communication difficulties, including dyslexia. The Inclusion Development Programme materials are being developed in close consultation with dyslexia organisations.

This builds on earlier support to schools which has included: funding the British Dyslexia Association's schools resource pack 'Achieving Dyslexia Friendly Schools'; working with the British Dyslexia Association to produce and disseminate a poster to primary schools on identifying children with dyslexia; and funding the National Strategies production of a DVD 'Learning and teaching for dyslexic children'.

To identify and disseminate best practice in improving outcomes for children with dyslexia, we are working with a number of dyslexia organisations on the "No to Failure" project. This is supporting schools in three local authority areas to be "trailblazers", where children are being screened for dyslexia and specialist tuition is provided to those identified with dyslexia. The impact on outcomes is being evaluated. The project is also raising awareness of dyslexia as a learning difficulty. We are providing up to £900,000 funding over three years.

As set out in the Children's Plan (cm 7280), we will develop a pilot which will evaluate the impact of additional intensive reading tuition for children identified as needing this through the 'Every Child a Reader' programme. If specialist provision demonstrates significant impact, we will look at how assessment and specialist dyslexia support could be rolled out nationwide as best practice.

Through the Education Act 1996, local authorities are required to arrange for the parent of any child with SEN in their area to be provided with advice and information about matters relating to those needs. We are providing £64,000 this financial year, and £86,000 next financial year to enable the British Dyslexia Association to enhance their helpline's provision of information and advice for teachers and parents on best practice in identifying and supporting children with dyslexia.

Departmental Pilot Schemes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what pilot initiatives his Department has launched since 1997; what the cost has been of each initiative; whether each initiative has been rolled out nationally; and if he will make a statement. [196568]

Jim Knight: I believe that pilot initiatives are a valuable way to test and develop policy options and their likely impact prior to implementation. They allow us to work in close partnership with local leaders and key partners to understand how policies will work in practice. This understanding from early testing and implementation is key to our decision-making on national roll-out. Due to the prohibitive cost involved in trawling a 10-year period I am unable to supply the details of all the individual schemes that my Department has sponsored for the period requested; but I am happy to attach the most recent information we have for 2007 as an illustration of the range and cost of our test activity. Although too early for full, formal evaluations of these schemes, I can give assurance that all initiatives are closely monitored and the learning fed back into policy design and operational implementation on an ongoing basis.

We have recently improved our internal processes for planning and coordinating our pilot schemes to ensure we maximise the learning and cost savings from this activity in a more systematic way while minimising burdens on front line delivery. We are also working hard to ensure that local authorities and regional government office colleagues are closely involved in the selection of pilots, and that there is strategic coherence in the breadth and range of such activities.

Pilot initiative	*Summary*	*Timescale*	*Budget*
Family Nurse Partnership	DCSF funded thereafter transferring to DoH. Focussing on first-time mothers under the age of 24. The project is testing a US model of early intervention which involves a structured programme of home visits by trained nurses.	1 April 2007 - 31 March 2008 in DCSF, thereafter with DH	£6 million in 2007/08
Multidimensional Treatment Foster Care	An intervention targeting young people who are already displaying severe levels of challenging anti-social behaviour and for whom more conventional approaches do not offer an effective solution.	December 2006 - 2008/2011	£3 million in 2007/08
Budget-holding Lead Professionals for children in care	A budget-holding lead professional commissions services for a child in care using a dedicated budget. Four local authorities are taking part.	July 2007 - July 2009	£200,000 in 2007/08
Budget Holding Lead Professional Pilots	A budget-holding lead professional co-ordinates provision when a range of services are needed for a child, and who has access to and leverage over a budget, allowing them to commission services directly from providers.	June 2006 - March 2008	£5million over the life of the pilot project
Drug and Alcohol Courts Pilot	A multi-agency early intervention via the justice system that aims to prevent children coming into care by tackling their parents' substance abuse.	September 2007 - September 2010	£50,000 - 2007/08
Sustainable Communities Market Renewal pathfinders	The pilot aim is business involvement in education in deprived communities improving outcomes for young people and helping them to contribute to the local economy.	2005 - 2010	not available at time
Parenting Early Intervention	Aims to test out 3 parenting programmes for families with 8-13 year olds at risk of anti-social behaviour.	from October 2006 - March 2008	£5 million over life of pilot
Regional Commissioning Units Pilots	The Government is committed to secure better value for money and give more placement choice to children in care by piloting regional commissioning units with interested local authorities.	from October 2007 - March 2008	2007/08 - £873,000
Parent Support Advisers	A preventative school- based role to support parents, concentrating on behaviour and attendance, parental engagement with schools and reducing barriers to learning.	from September 2006 - end summer 2008	£20 million -2007/08
Family Intervention Projects	Uses intensive tailored action with supervision and clear sanctions to improve the behaviour of persistently anti-social households.	Ends March 2008	*not available at time
Virtual Headteacher and Private Tutoring Pilots	These pilots are about testing how a senior individual working at local authority level can drive up standards of education for children in care, wherever they go to school as though they attended a single 'virtual' school.	September 2007 - July 2011	2007/09 - £792,000
Right2B Cared4	The Right2B Cared4 pilot will give young people a veto over any decisions about legally leaving care before they turn 18. The pilots will offer young people the opportunity to have a significant degree of control over the timing of transition, and in planning placement moves and identifying the services needed for their future support and care.	September 2007 - September 2011	£2 million - 2007/08
Free Entitlement for 3 and 4 Year- Olds Pathfinders	15 hours a week free early education for all 3 and 4 year olds for 38 weeks a year. Phased roll out between 2008/11.	Wave 1 commenced April 2007. Wave 2 commences September 2008	£80 million - 2007/08

Pilot initiative	*Summary*	*Timescale*	*Budget*
Free Entitlement for 2 Year Olds Pilots	Free early years provision to 12,000 disadvantaged two year olds, not already accessing provision who would most benefit from early access, and particularly those identified as less likely to access free entitlement at age 3.	April 2006 - March 2009	£20 million over 2 Years (2006-07)
Increasing Take up of formal childcare in BME Communities	The project is about shaping delivery to extend the reach of good quality childcare and early years' provision among Black and Minority Ethnic Families (BME) – with increased take up as a result.	September 2007 - March 2008	£265,000 - 2007/08
Multi-systemic Therapy Pilot	Multi Systemic Therapy (MST) is a family and community-based treatment programme for young people with complex clinical, social, and educational problems such as violent behaviour, drug abuse and school expulsion. MST therapists work in close partnership with the young person's family and community to strengthen protective factors known to reduce the risk of future offending and anti-social behaviour.	From September 2007-March 2011	£3 million - 2007/08
Every Child a Reader	Every Child a Reader is a unique collaboration between charitable trusts, the business sector and government. It aims to show that with the right resources, it is possible to overcome the literacy difficulties that blight so many children's lives.	2005/06 to end 2008/09	£5.2 million - 2007/08
Primary Specialism Pilot	A small project trialling the specialist programme in a small number of primary schools.	2007-2010	£10 million over life of the project
Trust School Pathfinders	Pathfinder schools working towards acquiring Trust School status	From September 2006 - September 2008	up to £15,000 per school
Low Attainers Pilots	Addresses the challenges that are faced by schools in which a very substantial proportion of the cohort enter at level 3 and struggle to access the secondary curriculum because their core skills in literacy, numeracy and learning are weak.	Sept 2004 - July 2008	*not available at time
Making Progress Pilots	The pilot is designed to improve the rate of progress which children make year by year, as well as between key stages.	September 2007 - July 2009	£8 million - 07-08
LA Strategic Commissioning of School Planning	Working with 17 local authorities to investigate what their new strategic commissioning of school places role would mean in practice, identify good practice and disseminate this to others.	November 2006 to March 2008	£2.3 million
Early Learning Partnerships	The Project is targeting parents of children aged 12 months to 3 years who are at risk of learning delay. Parents will be supported to become involved in their child's early learning, through effective partnerships with practitioners, using home visiting where necessary.	2006-08	£6.83 million (2006/07 and 2007/08)
Boarding School Provision Vulnerable Children Pathfinders	Testing the effectiveness of a boarding placement as an additional option for local authorities to improve social and educational outcomes for vulnerable children.	November 2006 to March 2008	£393k over the life of the project.
Transition Information Sessions	Sessions for parents of new intake of pupils into a school	*not available at time	£3 million 2007/08
Key Stage4 Engagement Programme	Alternative work-focused learning for low-achieving Key Stage 4 pupils disengaged with the mainstream curriculum. Pilots act as test-beds for developing good practice provision which will be widely disseminated.	2007/08	*not available at time
Formalised Peer Mentoring in Secondary Schools	2 year pilot being run in 180 schools engaging 3,600 pupils in matched mentoring pairs. By working together it is hoped that the result will be improved outcomes across a range of areas such as attendance, behaviour, academic performance and reducing bullying.	April 2006 - March 2008	£1.5 million total
Functional Skills Qualification Pilot	To ensure that young people achieve a firm grounding in the basic functional skills of English, Mathematics and ICT which are needed for participation in life, learning and work. From Sept 07 - 2 year pilot for GCSE candidates in English and ICT and a 3 year pilot for GCSE candidates in Mathematics.	September 2007 to September 2010	£661,000 - 2007/08
Learning Agreements	16-17 year olds in employment without level 2 to engage in education and training	Ends March 2008 (but may be extended)	£30million 2007/08
Activity Agreements & Allowances	To incentivise young people who have not been in education, employment or training (NEET) long term to take the first steps back to engagement in learning.	Ends March 2008 (but may be extended)	£45 million 2007/08
Study Plus Pilots	Aims to promote more effective use of the existing intervention toolkit by improving the management of intervention and by helping teachers to tailor their teaching more closely to the needs of particular groups and individuals at Key Stage 4.	Ends 2008	£426,000 in 2007/08

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how much his Department and its agencies spent on first class travel in the last 12 months for which figures are available, broken down by staff grade. [187529]

Kevin Brennan: The spend for the Department for Children, Schools and Families and its agencies on first class travel for the period 1 April 2006 to 31 March 2007 for rail travel is £6,297,690 and for air £29,641.

Education Maintenance Allowance

Mr. Drew: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 20 March 2008, *Official Report*, column 141W, on the education maintenance allowance, if he will investigate whether households are shrinking their incomes in order to claim education maintenance allowances. [197878]

Jim Knight: The Department for Children, Schools and Families (DCSF) has no evidence to suggest that

any household has chosen to reduce their income in order that their children become eligible for education maintenance allowance (EMA). Where people have made choices which have reduced income, such as moving from full time to part time work, it seems unlikely that such choices would have been made solely on the basis that their child may, in the following financial year, be able to claim EMA for up to one year. Parents are entitled to make decisions about their lifestyle and career, and it is not for the administrators of the EMA scheme to challenge those personal choices.

For EMA purposes, the majority of successful applicants have their household income assessed on the basis of a tax credit award notice (TCAN) awarded by Her Majesty's Revenue and Customs (HMRC) or through a benefits check verified with the Department for Work and Pensions. Both Departments make detailed investigations to assess the evidence presented for establishing income for tax and benefit purposes. Our strategy for protecting the EMA scheme against potential abuse through the incomplete or false declaration of household income includes a data sharing protocol with both of those Departments. We currently investigate evidence we assess as high risk. We plan to strengthen this by building on our data sharing protocol to verify all EMA income assessments.

Schools: Construction

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what post-occupancy evaluation has been conducted on new schools built under Building Schools for the Future and the Academies Programmes; [197912]

(2) when the Partnership for Schools' review into the Building Schools for the Future procurement process will be completed and its report published. [197913]

Jim Knight: Schools in Building Schools for the Future (BSF) are required to complete a post occupancy evaluation as part of the design quality indicator for schools process. This was put in place for local authorities joining the programme as pathfinders and in the subsequent waves. Post occupancy evaluation typically takes place after the building has been through a cycle of one summer and one winter and so the first evaluations are expected to take place towards the end of 2008.

The Commission for Architecture and the Built Environment assessed the design quality of 12 completed academy buildings on behalf of the National Audit Office. The Commission used a tool based on the design quality indicator for schools, which in its full version will be used to measure the quality of all schools in BSF. Future academies, delivered through BSF will be subject to the requirements of that programme.

The independent PwC evaluations of BSF and the academies programme will also look at building quality.

Partnerships for Schools set out the preliminary findings from its Procurement Review in early February 2008. I expect to receive the final report and conclusions shortly.

Schools: Cycling

Mrs. Villiers: To ask the Secretary of State for Children, Schools and Families how many schools make provision for Bikeability training. [191702]

Ms Rosie Winterton: I have been asked to reply.

This information is not collected centrally.

I announced on 17 March that we would be making funding available to local authorities to train nearly 80,000 schoolchildren to the Bikeability standard in 2008/09. This is in addition to the 46,000 children for whom we have already funded training via local authorities and School Sports Partnerships. We do not collect or hold data on the number of schools associated with these 126,000 children.

These figures do not include Bikeability-standard training paid for directly by local authorities, schools or other organisations. Estimates are that local authorities fund some form of cycle training for around 200,000 children a year. We do not collect information on how many of these children are trained to the Bikeability standard. We do know that some of the local authorities who will receive funding in 2008/09 are paying for Bikeability standard training to 29,000 more children from their own resources, in addition to the 80,000 funded by the Government. Other local authorities provide Bikeability standard training as part of their normal programme without DFT grant. For example York city council provide training to around 2,500 children to different Bikeability levels, including 1,200 to Level 2.

Schools: Fire Prevention

Sir Paul Beresford: To ask the Secretary of State for Children, Schools and Families what recent research his Department has (a) commissioned and (b) evaluated on the combustibility of plastic foam composite panels used in the building of schools. [196303]

Jim Knight *[holding answer 25 March 2008]*: The Department commissioned the Fire and Safety Unit at the Building Research Establishment to write Building Bulletin 100, Fire safety design for schools. This was published in 2007. BB100 is quoted as the compliance document for schools in Approved Document B (Fire Safety) 2006 edition, in support of the building regulations.

Appendix B of BB100: Fire behaviour of insulating core panels covers composite plastic foam insulated panels and gives design recommendations for their use in schools. This guidance is based on research that BRE carried out for the Home Office in 1996-97 on the fire hazards of this type of construction and the findings are valid for many building types, including schools.

Secondary Education: Curriculum

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families what plans he has to encourage schools to collaborate in the delivery of the 14 to 19 curriculum; and if he will make a statement. [195597]

Jim Knight: We offer a range of support to support stronger collaboration. We have a well-established and successful programme of Learning Visits sharing good practice on collaborating to deliver 14-19 reforms; 142 local authorities have attended at least one Learning

visit. Three of our strongest 14-19 areas have been awarded beacon council status, and are being used to disseminate good practice, including bespoke consultancy support to those areas that need more intensive support. We also share good practice via the departmental website and publications, including specific work on developing collaborative arrangements and planning 14-19 provision locally. In addition, we are looking to strengthen 14-19 partnerships by introducing legislation about local cooperation on 14-19 education in the Education and Skills Bill now before Parliament. The legislation provides the opportunity to signal the importance of collaboration between local partners.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which schools will be offering a new diploma course in September 2008; what estimate he has made of the number of pupils who will be enrolling on such courses; and if he will make a statement. [196423]

Jim Knight: In the early years of diploma delivery, we have made it our priority that all learners doing diplomas should have a good experience. To this end, we instituted a rigorous Gateway process, designed to ensure that only consortiums which were well placed to deliver from 2008 were allowed to do so. Only around 20 per cent. of applications were approved to teach diplomas in 2008 through this process, with 144 consortiums across the country involved in delivery.

Since then, we have been supporting these consortiums in a range of ways, and training teachers to teach diplomas. At the time of making Gateway applications, the consortiums approved to deliver from 2008 estimated that around 39,000 young people could be taking diplomas. In a number of cases, we have encouraged consortiums to keep student numbers lower than their initial projections in the first year, as new arrangements are introduced, in order to ensure that the quality of the experience for young people is extremely high. Therefore, we would anticipate that learner numbers in these areas should be lower than initial consortiums' projections. However, young people are making choices at present for September and, particularly post-16, will continue to do so for some months. We are therefore unable to provide an accurate national figure for learner numbers in September at this point.

Recent announcements of the results of the second Diploma Gateway show a significant increase in the quality of applications to deliver diplomas, leading to a substantial increase in the number of consortiums approved to deliver diplomas in 2009 against the same rigorous criteria. By September 2009, we anticipate that some 335 consortiums will be offering diplomas to around 100,000 young people.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* academies, *(b)* grammar schools and *(c)* independent schools he estimates will offer the full range of diplomas from (i) September 2008 and (ii) September 2009; and if he will make a statement. [196879]

Jim Knight: Applications for the first consortia were received in December 2006 when there were only 46 open academies. In March 2007, 18 academies were in consortia approved for the delivery of one or more of the five diplomas in the first phase, from September 2008.

There are currently 83 academies open. 58 academies are partners in consortia that have been approved for the delivery of one or more of the 10 diplomas to be available from September 2009 (14 of which are also partners in the consortia approved for delivery of diplomas from September 2008).

16 selective schools were partners in consortia approved for the delivery of one or more the first five diplomas from September 2008, and 81 have been approved for the delivery of diplomas from September 2009 (12 of these are also partners in consortia for delivery from September 2008).

There were no independent schools in consortia approved for diploma delivery from September 2008. Two independent schools are partners in consortia approved for the 2009 start.

These figures exclude any academies, selective schools and independent schools that might be among the additional partners that successful Gateway 1 consortia are yet to declare.

At this relatively early stage, very few consortia have gained approval to deliver the full range of diplomas (i.e. all of the available lines of learning) and it is doubtful that any single school will at this stage be actively involved in teaching across the full range.

Truancy

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 6 February 2008, *Official Report*, column 1142W, on truancy, how many pupils have had a recorded unauthorised half-day absence while in year *(a)* nine, *(b)* 10 and *(c)* 11. [189360]

Kevin Brennan: The requested information is given in the table and relates to secondary schools only.

Information for the academic year 2006/07 was published on 26 February 2008.

All secondary schools[1] absence in national curriculum year groups 9, 10 and 11: 2005/06, England

National curriculum year group	Number of pupils of compulsory school age[4]	Number of enrolments[2]	Number of enrolments who missed at least one session due to[3]: Authorised absence	Unauthorised absence	Overall absence	Percentage of enrolments who missed at least one session due to[3]: Authorised absence	Unauthorised absence	Overall absence
9	598,760	605,640	573,250	195,290	579,150	94.7	32.2	95.6
10	601,220	606,090	572,490	232,410	579,890	94.5	38.3	95.7
11	581,300	582,600	552,780	255,680	560,880	94.9	43.9	96.3

[1] Includes middle schools as deemed. Includes city technology colleges and academies.
[2] One session relates to half a school day.
[3] The number of enrolments who had at least one session of absence expressed as a percentage of the total number of enrolments in same national curriculum year group.
[4] Pupil numbers are as at January 2006. Includes pupils aged five to 15 with sole and dual (main) registration. Excludes boarders.
[5] Number of pupil enrolments in schools between 1 September 2005 and 27 May 2006. Includes pupils on the school roll for at least one session who are aged between five and 15, excluding boarders. Some pupils may be counted more than once if they moved schools during the year or are registered at more than one school.

Note:
Pupil numbers have been rounded to the nearest 10.

School Census.

Vocational Education

Mr Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the returns to the economy of people gaining (a) level 1 and (b) level 2 vocational qualifications; and if he will make a statement. [174260]

Mr. Lammy: I have been asked to reply.

Historically, vocational qualifications at level 2 have been associated with improvement in earnings where those qualifications were obtained in the workplace rather than in college, and for people who have no or low qualifications rather than those who are already qualified to level 2 or better, for example through having good GCSEs. Thus the skills strategy has emphasised the acquisition of vocational qualifications in the workplace and has prioritised funding toward those with low or no previous qualifications. There is also clear evidence that higher level qualifications provide substantial benefits but that those with low or no qualification face barriers to learning; so the skills strategy has also aimed to get people up to at least level 2, from where they will both be incentivised to continue in learning because of the substantial average earnings gain to be had, and because the personal barriers to further learning are likely to be lessened.

The latest evidence on the economic benefits for level 2 vocational qualifications was published in autumn last year[1]. It changes this picture in that level 2 vocational qualifications give higher average earnings gain than previous studies have shown, and for a wider group of people. In many cases the gains seem to be better than the equivalent academic or general qualifications. Earnings improvements for young people up to the age of 25 who gained such qualifications experienced on average at least a 12 per cent. improvement in earnings, and for some qualifications much more. People with such qualifications also experienced substantial improvements in employment chances. The benefits continue to be larger for those with no or low prior qualifications than for those already qualified.[1]

That report also provided for the first time detailed evidence on level 2 vocational qualifications gained as adults (over the age of 25). The earnings differential is slightly lower than when acquired by young people, but they are still substantial, on average at least an 11 per cent. improvement in earnings. The exception in that study was the National Vocational Qualification at level 2 (NVQ2), which was associated with a lower improvement in earnings when acquired by adults. There are thought to be two reasons. First, there is a data difficulty, in that there are a relatively large proportion of adults in this country without qualifications. Many will have skills at around level 2, so a simple comparison of those with and without such qualifications does not reveal the true improvement in earnings for an individual who increases their skill level through gaining such a qualification. A further research study that will report later this year is using a different, longitudinal, approach and will identify more clearly the scale of benefit from gaining qualifications. Second, in the early years after NVQs were introduced, they were used extensively in government programmes for the unemployed, and hence they are disproportionately held by adults who have lower employability. As time goes on, and NVQs are used by the workforce more generally, the benefits are expected to become more apparent.

There is much less evidence on level 1 vocational qualifications. Recent evidence does show substantial positive improvements in employment chances for individuals who were low-achievers at school though[2].

Vocational Guidance: Training

Adam Afriyie: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to provide continuing professional development for school careers advisers. [187354]

Beverley Hughes *[holding answer 20 February 2008]:* The Children's Plan sets out our vision for a professional, graduate-led children's work force. This includes looking at ways to professionalise the careers work force in schools, enhancing the range of qualifications, and quality and accessibility of continuing professional development opportunities in careers education. We are building on current support, by developing a range of resources to support the careers work force in schools, including curriculum guidance on careers education and work-related learning; and high-quality classroom materials for teachers.

Wind Power

Mr. Weir: To ask the Secretary of State for Children, Schools and Families to which wind farm proposals his Department lodged objections in each of the last three years; and for what reasons in each case. [191112]

Kevin Brennan: No such objections have been lodged.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government: East Anglia

11. **Mr. Bellingham:** To ask the Secretary of State for Communities and Local Government when she next expects to meet representatives of local authorities in East Anglia to discuss unitary local government. [197692]

John Healey: Having been asked by us for advice, the Boundary Committee for England is currently considering unitary local government in Norfolk and Suffolk, and hence local authorities should now be speaking to, and meeting the Committee, which in fact they are doing. We thus have no plans to meet these authorities to discuss unitary local government.

Social Housing: Lancashire

12. **Mr. Borrow:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the level of affordable social housing required in new housing developments in Lancashire to meet local needs. [197694]

Caroline Flint: The Government are aware of the shortages of affordable houses in many parts of the north-west, including Lancashire and South Ribble.

Providing affordable housing to meet the needs of local areas is a Government priority.

Local authorities are best placed to assess the specific need in their areas, and the Government has helped authorities in Lancashire to do this by funding an independent housing market assessment.

Council Tax

13. **Mr. Harper:** To ask the Secretary of State for Communities and Local Government what the percentage change in cash terms has been in band D council tax in (*a*) Forest of Dean, (*b*) London and (*c*) England between 1997-98 and 2008-09. [197695]

Hazel Blears: Between 1997-98 and 2008-09 the average Band D, two adult, council tax in the Forest of Dean district council area rose by 114 per cent.. This figure includes the precepts for Gloucestershire county council, Gloucestershire police authority and parish councils.

The corresponding figure for London was 98 per cent. and for England the figure was 100 per cent.

Post Offices

14. **John Barrett:** To ask the Secretary of State for Communities and Local Government what discussions she has had with the Secretary of State for Business, Enterprise and Regulatory Reform on the contribution of local post offices to community cohesion. [197696]

Mr. Dhanda: My right Hon Friend and I hold regular discussions with counterparts from across Government about a wide range of issues relating to our ambition to build strong, prosperous and cohesive communities across England.

Home Information Packs

15. **Mr. Dunne:** To ask the Secretary of State for Communities and Local Government how many home information packs and home condition reports have been commissioned. [197697]

Mr. Iain Wright: The commercial and private nature of a home owner's decision when to place their property on the market for sale means this information is not available in a robust form. We therefore do not hold this information centrally in the format requested.

Regeneration

16. **Joan Walley:** To ask the Secretary of State for Communities and Local Government, what steps she has taken following the publication of the consultation paper on the review of sub-national development and regeneration. [197698]

John Healey: We published the Review of Sub-national Economic Development and Regeneration in July last year. We subsequently published an issues paper in December last year, updating stakeholders on progress on implementing the SNR. Yesterday we published a consultation document "Prosperous Places: Taking forward the Review of Sub-national Economic Development and Regeneration". The consultation asks for views on the implementation of new regional strategies and the creation of a new duty on local authorities to carry out an economic assessment of their area. It also consults on possible statutory arrangements for sub-regional collaboration among local authorities.

20. **Dr. Ladyman:** To ask the Secretary of State for Communities and Local Government, what progress has been made in implementing the initiatives on regeneration set out in the Unlocking the Talent of our Communities document; and if she will make a statement. [197702]

Hazel Blears: In the document I launched on the 5 March, I announced plans for a new White Paper focused on empowering citizens. The document also outlined our plans to develop a framework for regeneration, and the future of the Working Neighbourhoods Fund.

We will be engaging with stakeholders over the coming months through regional events, expert panels, government offices, discussion forums and third sector organisations. The learning from these exercises will help shape the white paper and future regeneration policy. The empowerment white paper will be published in the summer.

Social Housing

17. **Martin Horwood:** To ask the Secretary of State for Communities and Local Government, what her most recent estimate is of the size of the social housing stock. [197699]

Caroline Flint: The social rent stock (local authority and registered social landlord) was estimated at 3.9 million dwellings in England at March 2006.

Planning: Developer Contributions

18. **Jim Sheridan:** To ask the Secretary of State for Communities and Local Government, what plans she has to review local authority performance in securing developer contributions under section 106 of the Town and Country Planning Act 1990. [197700]

Mr. Iain Wright: It is for local authorities to decide whether to seek planning obligations to ensure that planning permissions are compatible with planning policies. Authorities should monitor the collection and spending of developer contributions made in this way. The Department has commissioned research on the use of planning obligations and a copy is available in the Library of the House.

Eco-towns

19. **Mr. Todd:** To ask the Secretary of State for Communities and Local Government, what methodology will be used for determining which eco-town bids go forward to consultation; and if she will make a statement. [197701]

Caroline Flint: The criteria and assessment approach for the selection of eco-town sites are set out in the Eco-towns Prospectus.

This was published last July as part of the Housing Green Paper.

The criteria are tough and challenging and only those locations that meet these will be shortlisted for consultation.

Affordable Housing: Wirral, South

21. **Ben Chapman:** To ask the Secretary of State for Communities and Local Government what plans she has to increase the amount of affordable housing in Wirral, South. [197703]

Caroline Flint: Further to the response given by the Secretary of State in October of last year I can confirm we are continuing with our commitment to affordable housing providing £8 billion up to 2011.

Furthermore, the Housing Corporation has announced allocations for the new Affordable Housing Programme for 2008-11 which will contribute towards our Housing Green Paper target of providing 70,000 new affordable homes per annum by 2010-11 of which 45,000 homes will be for social rent.

Following their invite to local providers to bid for affordable homes investment the Housing Corporation have recently announced that £11 million has been approved for 229 homes for the period 2008-11 in Wirral local authority.

Flood Damage

22. **John Mann:** To ask the Secretary of State for Communities and Local Government what progress has been made in reopening local authority buildings damaged by the floods in 2007; and if she will make a statement. [197704]

John Healey: Information regarding the reopening of local authority buildings damaged by the floods in 2007 is not held centrally by the Department and could be obtained only at disproportionate cost.

We do however have some central information on schools. A total of 858 schools were damaged in last summer's floods. All of these have now reopened, and local authorities have advised the Department for Children, Schools and Families of only eight still using temporary classrooms because of flood damage.

Rough Sleepers

23. **Greg Mulholland:** To ask the Secretary of State for Communities and Local Government what methodology her Department uses to estimate levels of rough sleeping; and if she will make a statement. [197705]

Mr. Iain Wright: The methodology is set out in the Department's guidance on evaluating the extent of rough sleeping which has been developed in conjunction with the voluntary sector. An estimate of the number of rough sleepers in England is published each September based on the results of local authority street counts. The methodology has been consistently applied over the last 10 years.

Greater London Authority

24. **Mr. Evennett:** To ask the Secretary of State for Communities and Local Government if she will consider the merits of bringing forward legislative proposals to revise the governance arrangements of the Greater London Authority; and if she will make a statement. [197706]

Hazel Blears: The governance arrangements for the Greater London Authority were reviewed as part of the Government's review of the authority's powers in 2006, and several legislative changes were subsequently made to its governance framework by the Greater London Authority Act 2007.

Council Tax: Armed Forces

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what liability members of the armed forces, in a single person household which does not have a Ministry of Defence accommodation exemption, have to pay council tax when on active duty overseas. [194293]

John Healey: The amount that a person is liable to pay in council tax for a financial year is primarily a matter for the relevant billing authority. This amount will be specified in a council tax demand notice issued by the relevant billing authority for the year. However, a single person discount of 25 per cent. is available to those people who live alone.

My right hon. Friend the Secretary of State for Defence announced on 28 January 2008 that all service personnel on designated operations overseas will receive a lump sum payment based on the number of days in theatre and worth £140 over a six-month tour to help with the cost of their council tax. This is equivalent to 25 per cent. of the average council tax bill in England for 2007-08.

Departmental Pay

John McDonnell: To ask the Secretary of State for Communities and Local Government when the last equal pay review was completed, in line with the Equality Opportunities Commission guidance, for *(a)* her Department's headquarters, *(b)* each of its executive agencies and *(c)* her Department's Government offices; when those equal pay reviews were made available to the recognised trades unions of each of her Department's bargaining units; and if she will place in the Library each of those reviews. [193708]

Mr. Dhanda *[holding answer 13 March 2008]:* The information requested is as follows:

DCLG (HQ)

The Department for Communities and Local Government (DCLG) was created on 5 May 2006, inheriting functions and employees, under Machinery of Government changes, previously the responsibility of the Office of Deputy Prime Minister (ODPM), the Home Office (Communities Group) and the DTI (Women and Responsibilities Unit). The last equal pay review completed was the ODPM 2003 Equal Pay Review. This was made available to the trade unions in April 2003. The 2006-07 Equal Pay Review is due to be completed by June 2008.

Government offices

The last equal pay review for Government offices was carried out in June 2007 and sent to the unions in July 2007. This has been deposited in the Library of the House.

The Planning Inspectorate

PINS' recognised trade unions, PCS and Prospect, participated fully in the Equal Pay Review and the final report was made available to them when it was completed in September 2007 and has been deposited in the Library of the House.

The Queen Elizabeth II Conference Centre

No full equal pay review has been completed for the QEII Conference Centre.

Fire Service College

The Fire Service College undertook an equal pay review in line with Cabinet Office requirements in 2003. The review findings were communicated widely within the College, and were shared with the unions. Unfortunately, due to both significant change in college management and HR structures since 2003, and also various changes in responsibilities for key staff, the college is unable to locate the original report and associated data. However, summaries of the review and the agreed actions were compiled at the time, these have been deposited in the Library of the House.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government how many staff in her Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197058]

Mr. Dhanda: The number of staff in my Department who have attended the courses listed is shown in the following table:

Course	*Number of attendees*	*Cost (£)*
Influencing with Integrity	8	5,808
Emotional Intelligence	—	—
Counselling Skills for the Workplace	—	—
Managing your confidence	1	1,149
Balancing Work/Life Realities	2	2,160
Working Assertively	5	3,630

Fire Alarms

John McDonnell: To ask the Secretary of State for Communities and Local Government in how many dwelling fires where a smoke alarm fitted by the Fire and Rescue Service was present was the alarm raised by such alarms in each year since 2004. [197954]

Mr. Dhanda: Information on the total number of smoke alarms installed by fire and rescue services in England, in dwellings which have raised the alarm in the presence of a fire is not collected by the Department for Communities and Local Government.

Fire Services

John Mann: To ask the Secretary of State for Communities and Local Government how many fire service call outs were *(a)* for house fires, *(b)* for non-house fires, *(c)* the result of hoax or malicious calls and *(d)* for road traffic accidents in the last 12 months. [197420]

Mr. Dhanda: The information requested is shown in the table, for the most recent years for which the data are available.

Primary dwelling fires, all non-dwelling fires, malicious false fire alarms attended in England, 2006; Number of road traffic accidents attended in 2005/06

	Number
Dwelling fires, 2006	44,845
Non-dwelling fires, 2006	294,967
Malicious false fire alarms, 2006	25,427
Road traffic accidents, 2005-06	42,308

Note:
Fire and false alarm data are provisional for 2006. Non-dwelling fires include secondary fires.

Fire Services: Standards

John McDonnell: To ask the Secretary of State for Communities and Local Government what the response times to emergency calls were for each fire service in each year since 2000. [197956]

Mr. Dhanda: The following table shows the average response times of fire and rescue services in England between 2000 and 2006, the most recent calendar year for which data are available. The table shows the time from the initial call to attendance and covers primary fires only—response times to other incidents are not collected centrally by DCLG. Please note that figures for 2006 are provisional.

Average response time to fires[1, 2, 3] by FRS area and year of call, England, 2000 to 2006[4]

FRS area	2000	2001	2002	2003	2004	2005	*2006
England	6.3	6.3	6.4	6.6	6.8	7.1	7.2

[1] Excluding late call and heat and smoke damage only incidents.
[2] Excluding incidents not recorded during periods of industrial action in 2002 and 2003.
[3] A small number of incidents with response time greater than an hour have been excluded so that results are not skewed by likely reporting errors.
[4] Provisional.

Mr. Dismore: To ask the Secretary of State for Communities and Local Government what the average response times to emergency calls were for each fire service in each year since 2000. [198059]

Mr. Dhanda: The following table shows the average response times of fire and rescue services in England between 2000 and 2006, the most recent calendar year for which data are available. The table shows the time from the initial call to attendance and covers primary fires only—response times to other incidents are not collected centrally by DCLG. Please note that figures for 2006 are provisional.

Average response time to fires[1, 2, 3] by FRS area and year of call, England, 2000-06[4]

FRS area	2000	2001	2002	2003	2004	2005	2006[4]
England	6.3	6.3	6.4	6.6	6.8	7.1	7.2
England—Non-Met counties	7.2	7.3	7.4	7.5	7.6	7.9	8.0

[1] Excluding late call and heat and smoke damage only incidents
[2] Excluding incidents not recorded during periods of industrial action in 2002 and 2003
[3] A small number of incidents with response time greater than an hour have been excluded so that results are not skewed by likely reporting errors
[4] Provisional

Fires: Motor Vehicles

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many malicious vehicle fires there have been in each year since 1997. [198060]

Mr. Dhanda: The number of deliberate vehicle fires, in England, attended by fire and rescue services, in each year since 1997 is displayed in the following table. Figures for 2006 are provisional and may be subject to change.

Deliberate fires[1] in road vehicles, England, 1997-2006[2]

	Road vehicles
1997	35,162
1998	40,090
1999	51,888
2000	58,979
2001	67,158
2002	66,018
2003	61,088
2004	46,660
2005	40,335
2006[2]	34,893

[1] Excluding incidents not recorded during periods of industrial action in 2002 and 2003
[2] Provisional

Fires: Schools

Mr. Dismore: To ask the Secretary of State for Communities and Local Government how many fires there were in schools in England in each month in each of the last five years. [198058]

Mr. Dhanda: Information on the number of fires, in schools, attended by fire and rescue services, in England, in each month from 2002 to 2006 is available in the following table. Data for 2006 are provisional and subject to change.

Fires[1] in schools by month of call, England, 2002 to 2006[2]

Month of call	2002	2003	2004	2005	[2]2006
Total	1,249	1,232	1,229	1,102	1,068
January	83	86	122	102	106
February	82	103	82	98	92

November	102	93	158	120	110
December	67	87	88	57	82

[1] Excluding incidents not recorded during periods of industrial action in 2002 and 2003.
[2] Provisional.

Government Offices for the Regions: Manpower

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many of her Department's staff are allocated to manage the Government office network. [195118]

Mr. Dhanda: On 30 September 2007 this Department employed the equivalent of 690 full-time staff in the Government office network, of which 22 worked in the Regional Co-ordination Unit, which is the corporate centre for the Government office network.

Land Use: Thames Gateway

Bob Spink: To ask the Secretary of State for Communities and Local Government how much previously developed land which could be used for new development lies within the *(a)* Thames Gateway and *(b)* Thames Gateway Interim Plan area. [197243]

Caroline Flint: There is no distinction between the area defined as the Thames Gateway and the area covered by the Thames Gateway Interim Plan. The Thames Gateway Interim Plan notes that some 3,800 hectares of brownfield sites were available in November 2006.

Local Government: Complaints

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many complaints were *(a)* received, *(b)* investigated and *(c)* upheld by the Local Government Ombudsman for England in each year since 1990, broken down by local authority in relation to which the complaint was filed. [194349]

Mr. Dhanda: Information for years 1990-96 has been placed in the Library of the House. For information 1997 to 2007 I refer the hon. Member to the answer I gave to the hon. Member for Fareham (Mr. Hoban) on 6 March, *Official Report*, column 2780W.

Minister for the West Midlands

Mr. Hoban: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 4 February 2008, *Official Report*, column 850W, on the Minister for the West Midlands, what the date of each listed visit was. [195909]

Mr. Dhanda: The date of each of the visits made by the Regional Minister for the West Midlands since his appointment up to 11 February 2008 are given in the following table:

Organisation visited	Date of visit (2007)
South Shropshire district council	16 July
A flood-damaged Newbridge nursery/farm at Cleobury Mortimer	16 July
BMW plant at Hams Hall in Coleshill, North Warwickshire	17 September
The Regional Partnership Centre	17 September
The West Midlands Business Council	17 September
The West Midlands Regional Assembly	17 September
The Science City Partnership	17 September
Birmingham city council	29 October
Blitz Games in Leamington Spa	5 November
Telford and Wrekin council	12 November
Ironbridge Gorge World Heritage	12 November
The Ricoh factory	12 November
Keele Science and Business Park	19 November
North Staffordshire Regeneration Partnership	19 November
Waterside housing development	19 November
University Quarter in Stoke-on-Trent	3 December
Stoke city council	3 December
Wolverhampton University Science Park	3 December
Wolverhampton Urban Regeneration Company	3 December
Walsall Art Gallery	3 December
Dudley Limestone Caverns	3 December
Business leaders at the West Bromwich Building Society	3 December
The Innovation Centre at Longbridge	10 December
The Guild/Pridmore Estate	10 December
Whitefriars Housing Association	10 December

The following planned visits were included in the answer of 4 February and subsequently took place on 11 February:

Organisation visited	Date of visit (2008)
Government Office West Midlands	11 February
Jobcentre Plus	11 February
Learning and Skills Centre	11 February
West Midlands strategic health authority	11 February
Advantage West Midlands	11 February

Navigation: Thames Estuary

Bob Spink: To ask the Secretary of State for Communities and Local Government if she will commission research on the effect of the availability of pilots on shipping movements in the Thames estuary; and if she will make a statement. [197244]

Jim Fitzpatrick: I have been asked to reply.

No; pilotage services on the Thames are a matter for the Port of London Authority as the relevant competent harbour authority.

Planning: Retail Trade

Dan Rogerson: To ask the Secretary of State for Communities and Local Government pursuant to the Answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 10 December 2007, *Official Report*, column 149W, on planning: retail trade, when she plans to publish a consultation document on proposals to revise Planning Policy Statement 6. [197387]

Mr. Iain Wright *[holding answer 31 March 2008]:* We intend to take forward our Planning White Paper commitment, to replace the need and impact tests with a new test which has a strong focus on our town centre first policy, and which promotes competition and improves consumer choice, avoiding the unintended effects of the current need test. We will consult on revisions to Planning Policy Statement 6 shortly.

Regeneration: North East

Mr. Kemp: To ask the Secretary of State for Communities and Local Government what steps the Government have taken to promote regeneration in the North East since 1997. [197265]

John Healey: The last 10 years have seen significant progress in ensuring that no one should be seriously disadvantaged by where they live. In 2001 we set out a radical vision of transformation in our New Commitment to Neighbourhood Renewal. In the north-east we have promoted regeneration through: Neighbourhood Renewal Funding (NRF); New Deal for Communities (NDC); Neighbourhood Management Pathfinders; and Housing Market Renewal Pathfinders. 17 areas in the region have benefited from these programmes. From this April 14 local authority areas in the region will also benefit from the new Working Neighbourhoods Fund.

Regional Planning and Development: Empty Property

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what discussions she has had with regional development agencies on the potential effects of changes to empty property rates on regeneration in each region. [197865]

John Healey: I refer the hon. Member to the answer I gave him on 19 March 2008, *Official Report*, column 1202W.

Roads: Accidents

John Mann: To ask the Secretary of State for Communities and Local Government how many fire service call outs were for road traffic accidents where alcohol was a contributory factor in the last 12 months. [197419]

Mr. Dhanda: The information requested is not held centrally.

FOREIGN AND COMMONWEALTH OFFICE

China: Tibet

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs what his definition is of the special position of China in relation to Tibet to which he referred on the BBC World At One programme on 20 March 2007. [197460]

Meg Munn: Successive governments have regarded Tibet as autonomous, while recognising the special position of the Chinese there. This position was set out in detail to an inquiry by the Foreign Affairs Select Committee in 2000 as follows:

"Successive British Governments have regarded Tibet as autonomous while recognising the special position

of the Chinese there. We have consistently informed the Chinese government of our view that greater autonomy should be granted to the Tibetans. We have also emphasised that the current political difficulties in Tibet can best be resolved through dialogue between the Chinese government and the Tibetan people, including the Dalai Lama. We seek to encourage the Chinese authorities to enter into a dialogue without preconditions and have noted that the Dalai Lama has stated publicly that he does not seek independence, but greater autonomy for Tibet. Central to our interest in Tibet is our deep concern at evidence of human rights abuses."

Committee on the Grant of Honours, Decorations and Medals

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) who is responsible for making appointments to the Committee on the Grant of Honours, Decorations and Medals; [196241]

(2) when there was last a vacancy on the Committee on the Grant of Honours, Decorations and Medals; who filled the vacancy; and what process was used to assess the suitability of candidates. [196242]

The Prime Minister: I have been asked to reply.

Members of the Committee serve on an ex officio basis and are therefore automatically succeeded on the Committee by the successor to the official post. Members of the Committee are as follows:

Secretary of the Cabinet and Head of the Home Civil Service (Chair)

Her Majesty The Queen's Private Secretary

Permanent Secretary, Prime Minister's Office

Defence Services Secretary

Permanent Secretary, Home Office

Permanent Secretary, Foreign and Commonwealth Office

Permanent Secretary, Ministry of Defence

Secretary of the Central Chancery of the Orders of Knighthood

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what measures are in place to ensure that a member of the Committee on the Grant of Honours, Decorations and Medals is not involved in making a decision that could result in them being awarded an honour, decoration or medal; [196246]

(2) on how many occasions a member of the Committee on the Grant of Honours, Decorations and Medals has received an honour, decoration or medal as a result of a decision of the committee. [196247]

The Prime Minister: I have been asked to reply.

The Committee has been in existence for some 70 years. Its main purpose is to advise The Sovereign on proposals for the introduction or acceptance of new honours, decorations and medals. It does not normally consider awards for individual people. If the eligibility of an individual member to a specific award were discussed, they would be expected to declare their interest and take no part in the discussion. It is not possible to say on how many occasions members of the Committee may have received an honour or a medal as a result of a policy recommendation by the Committee.

Commonwealth: Overseas Students

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements he will make to ensure financial support for future high quality doctoral students from Commonwealth countries wishing to join research teams in United Kingdom universities. [196633]

Mr. Jim Murphy: The Foreign and Commonwealth Office (FCO) has committed £79,110,000 to scholarship funding (including to Commonwealth countries) over the next three years, in accordance with the FCO's global strategy and priorities. Other sources of funding for overseas doctoral students performing research in the UK are available through research councils and universities themselves.

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the Prime Minister on the implementation of the announcement at the Commonwealth Heads of Government meeting in November 2007 of an increase of UK funding for Commonwealth scholarships over the coming three years. [196635]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has not had any such discussions. The increase in UK funding for Commonwealth scholarships over the next three years is being made through the Department for International Development.

EU Countries: Terrorism

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what role the European Council has in assessing the terrorist threats facing the European Union. [195290]

Mr. McNulty: I have been asked to reply.

The EU Joint Situation Centre (SitCen), now known as the Single Intelligence Analysis Capacity (SIAC), provides a secure hub for receiving member states' intelligence assessments on a range of subjects including the threat from international terrorism. Strategic analysis of this material produced in the SIAC is used to inform EU decision-making.

Ferries: Scotland

Ms Katy Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it will be necessary to enter into a further tendering of the ferry services to the Scottish island communities currently provided by Caledonian MacBrayne should the Treaty of Lisbon be ratified and the Protocol on Services of General Interest come into effect. [194776]

David Cairns: I have been asked to reply.

Article 2 of the protocol on services of general interest makes clear that the provisions of the treaty of Lisbon do not affect in any way the competence of member states to provide, commission and organise non-economic services of general interest. The Scottish Executive is responsible for determining, in light of this, whether a further tendering of Caledonian MacBrayne ferry services is necessary.

Group of Eight: AIDS

Mr. Caborn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether AIDS-related issues will feature on the agenda for the next G8 meeting; and what progress has been made towards securing the objectives of the treatment for all by the 2010 agreement. [196416]

Meg Munn: I refer my right hon. Friend to the reply given by the Under-Secretary of State for International Development, my hon. Friend the Member for Harrow, West (Mr. Thomas) my hon. Friend the Parliamentary Under-Secretary of State for International Development (Mr. Thomas) gave to my hon. Friend the Member for Edinburgh, South (Nigel Griffiths) on 19 March 2008, *Official Report*, columns 1183-84W.

International Criminal Tribunal for the Former Yugoslavia

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial support the UK Government have allocated to the International Criminal Tribunal for the former Yugoslavia in each year since its establishment. [191981]

David Miliband: The International Criminal Tribunal for the former Yugoslavia (ICTY) is funded from the UN budget and the UK's main financial contribution is calculated as a proportion of the UK's assessed UN contributions. The UK's voluntary and UN assessed contributions to ICTY since its establishment are as follows:

	US$	
1995	1,016,190	Assessed
1996	855,703	Assessed
1997	495,178	Voluntary
1998	1,436,888	Voluntary
1998	204,500	Voluntary
1999	3,100,000	Assessed
2000	4,794,591	Assessed
2001	5,390,183	Assessed
2002	4,681,322	Assessed
2003	4,466,322	Assessed
2004	5,849,376	Assessed
2004	20,000	Voluntary
2005	5,809,039	Assessed
2005	15,000	Assessed
2006	5,319,942	Assessed
2007	5,845,538	Assessed

Iraq: Peacekeeping Operations

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions his Department had with the United States about the decision to disband the Iraqi Army and the Ba'ath Party in May 2003; [198163]

(2) what discussions he had with the United States on the decision to disband the Iraqi Army and the Ba'ath Party in May 2003. [198162]

Dr. Howells: The detail of exchanges between the Foreign and Commonwealth Office and the US Administration in 2003 remains confidential. By the end of the initial hostilities the Iraqi army had effectively dissolved itself—there were no formed units, no equipment and all barracks had been comprehensively looted. At the same time throughout Iraq there was overwhelming popular pressure for de-Ba'athification to begin, reflecting the suffering and resentment among ordinary Iraqis as a consequence of three decades of repression by Saddam Hussein's regime.

Iraq: Weapons

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs what status annotations made by individuals to the hard copy of the John Williams' draft of the 2002 Iraq dossier had within the drafting process. [188777]

Dr. Howells *[holding answer 25 February 2008]*: I refer the hon. Member to my right hon. Friend the Foreign Secretary's written ministerial statement of 18 February 2008, *Official Report*, columns 1-2 WS. The document produced by John Williams was not used as the basis for the dossier the Government subsequently published.

Saudi Arabia: Overseas Residence

Mr. Winnick: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance his Department gives to non-Muslim UK citizens working in Saudi Arabia who wish to practise their religion in a congregation; and if he will make a statement. [196297]

Dr. Howells *[holding answer 25 March 2008]*: Saudi Arabia has recently acknowledged the right of non-Muslims to practise their faith in private. But it still does not allow Christian or other non-Muslim religious services. Non-Muslims who contact our embassy in Riyadh are told that practising their faith in public is not permitted under Saudi law.

Simon Mann

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what steps he plans to take in the week beginning 31 March to monitor the *(a)* treatment and *(b)* risk of torture of Mr. Simon Mann in Black Beach Prison, Equatorial Guinea; and whether Mr. Mann is still being continuously shackled; [198166]

(2) what steps he plans to take in the week beginning 7 April to monitor the *(a)* treatment and *(b)* risk of torture of Mr. Simon Mann in Black Beach Prison, Equatorial Guinea; [198167]

(3) what steps he plans to take in the week beginning 14 April to monitor the *(a)* treatment and *(b)* risk of torture of Mr. Simon Mann in Black Beach Prison, Equatorial Guinea. [198168]

Meg Munn: Our consul from the British deputy high commission in Lagos was refused consular access to Simon Mann during his last visit to Equatorial Guinea in March. We have expressed our concern to the Equatorial Guinea authorities and are urgently seeking

another consular visit. The authorities have offered assurances that Mr. Mann will be treated well whilst in detention. His welfare remains our primary concern.

Television

Mr. Maude: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 March 2008, *Official Report*, column 2792W, on television, if he will list each individual internal department in his Department. [195578]

Mr. Jim Murphy *[holding answer 20 March 2008]:* A list of internal departments within the Foreign and Commonwealth Office (FCO) on 26 March 2008 is given. The FCO is composed of directorates and other teams. Departments are listed by directorate. Where a directorate is not divided into departments, or where a team exists outside a directorate, these directorates and teams are listed separately. The organisational structure of the FCO changes and this list reflects the situation on the current date. Asterisks have been used to show where an FCO unit is jointly managed by the FCO and other Whitehall Departments.

Africa Directorate
Africa Department (Equatorial)
Africa Department (Southern)
Pan Africa Policy Unit
Sudan Unit
Americas Directorate
Caribbean, Mexico and Central America Team

Thailand: Burma

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the policies of the Government of Thailand in regard to Burma; what discussions he has had with the Government of Thailand on Burma; and what reports he has received to the statements made by the Prime Minister of Thailand during, and following, his recent visit to Burma. [196397]

Meg Munn: I discussed issues relating to Burma with the Thai Foreign Minister, Noppadon Pattama, on 29 February 2008 during my recent visit to Thailand and again on 11 March, before he visited Burma. Foreign Minister Noppadon assured me that the new Thai Government want to become more actively engaged on Burma as part of a wider "Neighbourhood Engagement Policy".

The Thai Government support the good offices mission of the UN Secretary-General to promote peaceful reconciliation in Burma. We noted the warm welcome Thai Prime Minister Samak received during his recent visit to Burma. We believe it is important that the Thai Government should send a clear message on the need for political transformation in Burma. We encourage Prime Minister Samak and other members of the Thai Government to reinforce this message in their contacts with their Burmese counterparts.

We continue to discuss all aspects of the Burma situation with the Thai Government on a regular basis.

Western Sahara: Politics and Government

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed the referendum process in the Western Sahara with representatives of Polisario. [196775]

Dr. Howells: My right hon. Friend the Foreign Secretary has not discussed the Western Sahara referendum process with representatives of the Polisario. However, when officials from the Foreign and Commonwealth Office have met with the Polisario representatives to discuss Western Sahara, they have expressed our hope that a mutually acceptable political solution would be found, which would provide for the self determination of the people of Western Sahara. To this end, the UK fully supports the efforts of the UN Secretary-General and his personal envoy to the Western Sahara, Peter van Walsum.

INNOVATION, UNIVERSITIES AND SKILLS

Christmas

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171441]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was created as a result of machinery of government changes in June 2007.

In 2007, DIUS held a competition for further education college students to design an electronic Christmas card for the Department. The competition was won by Matthew Boulton college. This incurred no significant cost to the Department as colleges were individually invited to participate. The prize—a trip to a design centre or space centre—was donated by our partners. The DIUS Christmas card was distributed electronically through existing e-mail routes and therefore incurred no significant costs.

DIUS did not purchase any Christmas decorations in 2007, nor did the Department hold a Christmas party. Divisions do hold Christmas parties for staff to attend, for which these staff must pay. Christmas parties are not paid for out of departmental budgets.

Information on expenditure by our agencies on Christmas cards, and decorations is not held centrally by the Department. Therefore this information could be obtained only at disproportionate cost.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196448]

Mr. Lammy: It is not possible to provide this information without incurring disproportionate costs of collection. Since the Department was formed by Machinery of Government changes on 28 June 2007 it has continued to make use of the services of several types of temporary staff, including temporaries and contractors from agencies. Such temporary staff are engaged for a variety of purposes and rates paid reflect the differences between generic and specialist services. Preferential rates of pay and terms of engagement have been negotiated with certain selected agencies under an over-arching framework agreement. This procurement process has the purpose of achieving best value for money and is used across Government.

Departmental Publicity

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much his Department, its predecessors and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167350]

Mr. Lammy: Since formation of the Department for Innovation, Universities and Skills on 28 June 2007, the Department has spent an estimated £38,759.49 on managing its corporate identity. This includes development of the logo, branding guidelines, signposts, display panels and stationery.

The Department is responsible for two agencies, National Weights and Measures Laboratory and the UK Intellectual Property Office.

National Weights and Measures Laboratory have had no spend on managing their corporate identity over the past 12 months.

UK Intellectual Property Office have had no spend on managing their corporate identity over the past 12 months.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Innovation, Universities and Skills when his Department plans to publish its sustainable operations policy statement. [195860]

Mr. Lammy: We are currently developing our proposals for the Department's sustainable development action plan (SDAP) with a view to publication by the summer.

Education: Standards

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on measures to avoid grade inflation. [178221]

Bill Rammell: UK degrees are internationally competitive qualifications and the value of UK degrees continues to be robust. Higher education institutions, as autonomous bodies, are responsible for the academic standards of the qualifications which they award. It is for each institution to determine its own curricula, organise teaching and learning, and assess and award final degrees.

Institutions are supported by the Quality Assurance Agency for Higher Education (QAA) which exists to safeguard the public interest in sound standards of higher education qualifications and to encourage continuous improvement in the management of the quality of higher education. The QAA carries out this function by conducting audits of the management of

quality in institutions. One aspect of these audits is to consider how closely institutions follow the QAA's Code of Practice, which includes a section dedicated to the assessment of students. The judgments of the QAA audit teams are made public in published reports. Additionally—and unique to the UK—all higher education institutions are expected to appoint external examiners to assist them to monitor the standards of their awards.

Hearing Impaired

Mr. Andy Reed: To ask the Secretary of State for Innovation, Universities and Skills what provision is made for deaf people to access services provided by his Department through call centres. [194880]

Mr. Lammy: The Department for Innovation, Universities and Skills has its telephone enquiry service provided as a shared service by the Department for Children Schools and Families.

The Department for Children, Schools and Families' telephone inquiry service offers a textphone/minicom service for deaf people. They also accept inquiries by email, fax and letter.

On information campaigns—such as provision of Student Finance—our advertising directs people to our campaign website which is fully accessible for people with impairments. A textphone number service is available on the aspirational Aimhigher website; and a transcript of the information DVD is also provided.

Higher Education: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills when he expects to implement the matched funding for funds raised by universities mentioned in the former Prime Minister's comments at Brunel University on 15 February 2007; and if he will make a statement. [196903]

Bill Rammell: The HE voluntary giving scheme is an unprecedented opportunity for institutions to increase their capacity to attract donations and I am delighted by the amount of enthusiasm it has generated among universities and potential donors. As we have already announced, the start date for donations to be eligible for the scheme will be 1 August 2008 and the matched funding will be paid retrospectively.

Following extensive consultation with the sector and fundraising experts, we will shortly be announcing the final structure and rules of the scheme so that institutions are able to prepare for the start date.

Higher Education: Prisoners

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what plans he has to increase the higher education *(a)* budget for and *(b)* qualifications achieved in prisons. [196547]

Mr. Lammy: The Department for Innovation, Universities and Skills set a budget of £547,000 for its support for prisoners studying undergraduate higher education with the Open university in 2007-08. In his written statement of 25 March 2008, the Secretary of State for Innovation, Universities and Skills said that he will be considering the future management of financial support for offenders in higher education, based on recommendations from this Department and the Ministry of Justice.

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills how many prisoners are participating in *(a)* distance learning provisions and *(b)* distance learning provisions provided by the Open university. [196549]

Mr. Lammy: The number of prisoners participating in distance learning provided by the Open university changes from day to day as prisoners start and complete part-time courses of study. On Thursday 20 March 2008, figures from the Open university show that 935 prisoners were studying Open university courses through distance learning. In 2007 a total of 1,372 prisoners undertook one or more Open university courses.

Figures are not collected centrally on the number of prisoners where distance learning other than through the Open university is assessed as the most appropriate means of meeting their learning need.

Overseas Students

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many non-EU students attended English universities in each year since 1997. [170441]

Bill Rammell: The latest available information is given in the following table. Figures for 2007/08 will be available in January 2009.

Number of non-EU enrolments[1] at English higher education institutions 1997/98 to 2006/07

Academic year	*Non-EU enrolments*
1997/98	92,740
1998/99	92,875
1999/2000	97,500
2000/01	107,040
2001/02	117,940
2002/03	142,660
2003/04	161,250
2004/05	163,750
2005/06	164,975
2006/07	171,835

[1] Figures cover postgraduate and undergraduate students on full-time and part-time courses.

Note:
Figures are calculated on a snapshot basis as at 1 December to maintain a consistent time series across all years and have been rounded to the nearest 5.

Source:
Higher Education Statistics Agency (HESA)

The figures indicate that international student numbers at English higher education institutions have increased by 85 per cent. since 1997. This is very much a success story as these students contribute to the cultural mix, the research capacity and the finances of our institutions. The growth of international student numbers has not been at the expense of home students as they are not in competition with each other for places.

Skilled Workers: Construction

Mr. Don Foster: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the skills need forecast made by ConstructionSkills in 2005 of the number of recruits to the construction industry required in each year to 2010; and what steps he *(a)* has taken and *(b)* plans to take in response. [197495]

Mr. Lammy: Forecast data by ConstructionSkills anticipates that to meet the demand for new workers the construction industry in England will need to recruit 74,340 people per annum between 2008 and 2012. The Construction Industry has responded very positively to the Government's Skills Pledge, with over 1,000 employers already committed. For apprenticeships, the aim is to double the number of apprenticeships in the sector to 20,000 by 2012. The National Skills Academy for Construction was launched in 2007 and has a major programme of activities working with employers across England. The number of Inspire scholarships, offering support to individuals studying for a Built Environment degree, has increased this year to 300. Together these initiatives will make a strong contribution to help meet the skill needs of the sector.

Skilled Workers: Voluntary Organisations

Rosie Cooper: To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the contribution of third sector organisations towards developing the skill set of specific groups, with particular reference to those with learning disabilities. [196853]

Mr. Lammy: Third sector organisations have a vital role to play in reaching specific user groups including those with learning difficulties and/or disabilities, providing opportunities to learn and train that might not otherwise exist, and supporting the Government's twin aims of economic success and social inclusion for all.

In 2006-07 the Government invested around £177 million in 2006-07 in post-16 further education and skills provision delivered by 543 voluntary organisations directly contracted with the Learning and Skills Council.

The Working Together Advisory Group (launched in December 2006) has brought together experts from across the third sector to advise the LSC on how it can work most effectively with third sector providers. The substantial progress that has been made was celebrated at a ministerial reception in January 2008.

The LSC is continuing to work with the Advisory Group to make sure the third sector's contribution to targets and priorities is recognised and understood, and that third sector organisations are treated equitably with all other providers of services.

Spaceflight: Finance

Dr. Blackman-Woods: To ask the Secretary of State for Innovation, Universities and Skills what the Government's policy is on *(a)* participation in and *(b)* funding of a future European space flight mission. [194520]

Ian Pearson: The new UK Civil Space Strategy 2008-12 and beyond, published on 14 February 2008, stated that the European Space Agency (ESA) is a vital delivery partner. More than 60 per cent. of the UK Government's civil space expenditure is invested in ESA activities. The Government through the British National Space Centre considers participation and funding of each proposed European space flight mission on its merits.

Students: Fees and Charges

Stephen Hesford: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the percentage of students from Wirral West constituency who are exempt from payment of tuition fees. [194420]

Bill Rammell: Fees are payable for all students. Tuition fee loans have been available since September 2006, so no student needs to find money up front to meet tuition fees. Borrowers start to repay loans in the April after they leave higher education. Repayment is linked to income and repayable at 9 per cent. on earnings above £15,000 a year. No repayment is required if income is below £15,000. Interest paid is linked to the rate of inflation, so in real terms what is paid back is equivalent to what was borrowed.

Some employers and other agencies pay fees on behalf of students, including the Training and Development Agency for Schools and the NHS.

Continuing students who entered higher education before 2006/07 are charged fees but those with lower incomes can apply for means-tested grants to cover part or all of the fees, and for non-means-tested fee contribution loans to cover any shortfall in the grant. These fee grants and fee contribution loans are paid direct to the HE institution. Information on fee grants and fee contribution loans is not available at constituency level.

Students: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills whether the new arrangements for funding students studying for qualifications that are equivalent or lower to qualifications they already hold will apply to all EU-domiciled students. [197142]

Mr. Lammy: All students, including EU-domiciled students, who wish to study an equivalent or lower level course of higher education in England will be affected by the new funding arrangements.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills whether the new arrangements for funding students studying for qualifications that are equivalent or lower to qualifications they already hold will apply to students funded via Train to Gain. [197143]

Mr. Lammy: The new arrangements apply to students studying for higher education qualifications which are equivalent to or lower than ones they already hold, whereas Train to Gain funding has been predominantly focused on low and intermediate skills. We are clear that any eligible provision which is co-funded by employers

will continue to attract public subsidies. Since it was launched in April 2006, Train to Gain has helped over 170,000 people gain qualifications ranging from basic skills, such as literacy and numeracy, to intermediate level skills (level 3). It has also helped employers source other non qualification skills support, such as Investors in People, as well as more general business support from Business Link.

Our plans for the expansion of Train to Gain were set out in November 2007 in Train to Gain: A Plan for Growth. Our ambition is that employers will be able to both identify and then source, against existing funding rules, their skills needs at all levels, including higher education.

Students: Identity Cards

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills whether English-domiciled home or EU higher education students will have to be in possession of an identity card in order to access student loans or other state or Institution-determined support related to their studies at English higher education institutions in 2009-10 or in any subsequent years. [195302]

Bill Rammell: There are no plans to require students to have an ID card to apply for a student loan or any other form of student support.

Students: Lancashire

Rosie Cooper: To ask the Secretary of State for Innovation, Universities and Skills how many students in West Lancashire constituency entered higher education in *(a)* 2004, *(b)* 2005 and *(c)* 2006. [189739]

Bill Rammell: The latest available information is given in the table. Figures for the 2007-08 academic year will be available in January 2009.

Entrants to undergraduate courses at UK higher education institutions from West Lancashire parliamentary constituency: academic years 2004-05 to 2006-07

Academic year	Entrants
2004-05[1]	1,200
2005-06	1,285
2006-07	1,185

[1] Figures for the Open University for 2004-05 have been included but these are known to undercount entrants to undergraduate courses at the Open University.

Note:
Figures are based on a HESA Standard Registration Population and have been rounded to the nearest five.

Source:
Higher Education Statistics Agency (HESA).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants who had been accepted for entry in 2007, rose by 6.1 per cent. to 307,000, the highest ever. Latest figures for students applying for entry in 2008, show that applicants from England up by 7.1 per cent. compared to 2007.

Students: Loans

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many people with student loans who graduated in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004, *(e)* 2005, *(f)* 2006 and *(g)* 2007 have yet to make any repayments of a student loan. [188039]

Bill Rammell: Available data are shown in the following table.

English domiciled borrowers who have not yet made repayments on their student loans by loan type[1]

Cohort (repayment start)[2]	Mortgage-style loan	Income-contingent loan[3]	All loans[4]
April 2002	9,900	33,900	43,800
April 2003	3,100	56,300	59,400
April 2004	800	71,600	72,400
April 2005	200	103,800	104,000
April 2006	100	146,700	146,800
April 2007[5]	100	n/a	n/a

n/a = Not available.

[1] Figures are rounded to the nearest 100. Publicly-owned student loans.

[2] Repayment begins from the April following the year of graduation, when income reaches the threshold.

[3] Annual repayment information is passed to the SLC after the end of the tax year, to update borrowers' records. Some of the borrowers covered in the table will have made repayments via their employers recently that have not yet been reflected in their SLC accounts, and therefore appear not to have made repayments.

[4] Borrowers with both types of loan may be counted twice.

[5] Details of income-contingent loan repayments collected through the tax system are passed to the SLC after the end of the financial year to update borrowers' accounts. Therefore data are not yet available on repayments by 2006 graduates who became liable to begin repaying in the tax year 2007-08.

Source:
Student Loans Company (SLC).

Borrowers who graduated in 2007 are not required to begin repaying their student loans until April 2008. Income-contingent loans replaced mortgage-style loans from 1998; the table reflects this change. It also shows that many people who have recently left university have not yet begun to repay, but those in older cohorts are now repaying.

Borrowers with up to four mortgage-style loans repay over five years when their income exceeds the repayment threshold; those with five or more loans repay over seven years. The threshold for borrowers with mortgage-style loans is 85 per cent. of national average earnings, currently £25,287 from 1 September 2007. Borrowers are able to apply for deferment of repayments if their income is below this.

Borrowers with income contingent loans repay at a rate of 9 per cent. of earnings above £15,000 a year. Repayments are usually collected through the tax system by employers, in the same way as income tax and national insurance contributions. Self employed borrowers make repayments through the self assessment system.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills (1) how many full-time undergraduates qualified for 75 per cent. net income assessed loans of *(a)* £2,685, (living at home), *(b)* £3,470, (living away from home outside London) and *(c)* £4,855, (living away from home in London), in the latest period for which figures are available; [194197]

(2) how many full-time undergraduates qualified for maximum student loans of *(a)* £3,580, (living at home), *(b)* £4,625, (living away from home outside London) and *(c)* £6,475, (living away from home in London), in the latest period for which figures are available; [194198]

(3) how many full-time undergraduates qualified for 25 per cent. income assessed loans of *(a)* £895, (living at home), *(b)* £1,155, (living away from home outside London) and *(c)* £1,620, (living away from home in London), in the latest period for which figures are available. [194202]

Bill Rammell: Student maintenance loans consist of up to three elements: a non-means tested loan of around 75 per cent. of the maximum; a means tested loan for around 25 per cent. of the maximum; and an additional income-assessed amount for extra weeks if the course is longer than normal. The level of loan available is reduced for final year students. Students can choose to borrow less than their full entitlement.

Available data are shown in the following tables.

English domiciled students receiving non-means tested maintenance loans by entitlement category, year and loan rate: academic year 2006/07[1]

Entitlement category: Living at	Full year or final year	Students receiving loan at maximum rate	Students receiving loan below maximum rate
Home	Full	90,700	6,200
	Final	34,800	1,700
London	Full	51,900	3,700
	Final	19,900	2,100
Elsewhere	Full	305,200	23,400
	Final	123,500	11,100

[1] Table excludes students who move between entitlement categories during the year (e.g. Home and Elsewhere). Figures are rounded to the nearest 100.
Source:
Student Loans Company.

English domiciled students receiving means tested maintenance loans by entitlement category, year and loan rate: academic year 2006/07[1]

Entitlement category: Living at	Full year or final year	Students receiving loan at maximum rate	Students receiving loan below maximum rate
Home	Full	69,500	1,400
	Final	29,900	200
London	Full	36,300	600
	Final	14,000	200
Elsewhere	Full	186,400	3,200
	Final	76,200	900

[1] Table excludes students who move between entitlement categories during the year (e.g. Home and Elsewhere). Figures are rounded to the nearest 100.
Source:
Student Loans Company.

English domiciled students receiving maintenance loans including extra weeks allowances by entitlement category, year and loan rate: academic year 2006/07[1]

Entitlement category: Living at	Full year or final year	Students receiving loan above maximum rate due to extra weeks	Students receiving loan at maximum rate	Students receiving loan below maximum rate
Home	Full	45,600	24,900	27,000
	Final	19,900	10,100	11,500
London	Full	25,600	10,600	19,400
	Final	10,100	3,900	8,000
Elsewhere	Full	82,200	104,500	141,900
	Final	36,300	40,000	58,300

[1] Table relates to total maintenance loans including non-means tested loans, means tested loans and extra weeks allowances. Excludes students who move between entitlement categories during the year (e.g. Home and Elsewhere). Figures are rounded to the nearest 100.
Source:
Student Loans Company.

Students: Low Incomes

Linda Gilroy: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effectiveness of his Department's policies to encourage people from low income households to study at university. [172395]

Bill Rammell: This Government have instigated and supported a range of policies to encourage a wider range of people to be able and willing to participate in higher education (HE). We have done this because of economic need and to support social justice. Forecasts show that half of the 12 million jobs that should become vacant between 2004 and 2014 will be in occupations most likely to employ graduates. And higher education offers significant benefits to individuals—over their working life, the average graduate can expect to earn comfortably over £100,000 more than a similar person with just A levels, and graduates experience better health, are less likely to commit crime and are more likely to engage in civil society. It is right that these benefits should be available to all, regardless of their background, but the issues affecting HE participation patterns are varied and need to be addressed across the education system.

In recent years we have made good progress. There has been a steady increase in the number and proportion of entrants to HE who come from lower social class backgrounds. This is reflected in recent UCAS application data for 2008 entry—in England, the proportion of applicants coming from lower social class backgrounds is up from 28.2 per cent. in 2007 to 28.9 per cent. this year. The numbers and proportions of entrants to HE from lower social class backgrounds are at their highest ever levels, as are the numbers and proportions of entrants from state schools and low participation neighbourhoods. Similarly, the proportion of young people from lower social class backgrounds is at it highest level.

There is a range of interventions which contribute to this progress—the Aimhigher Programme, improvement in student financial support both from the Government and from higher education institution bursaries, institutions' own outreach activity working directly with schools and the Government's broader efforts to raise attainment across the board and to narrow attainment gaps.

The Aimhigher Programme has been operating nationally since 2004 although similar, predecessor programmes began in 2001. The programme is designed to increase opportunities for people from under-represented groups to participate in HE. There have been various evaluations of the programme which show that it has had a positive impact on participants' attainment and their attitudes towards HE. In the programme's early years (2001 to 2002 when it was known as Aimhigher: Excellence Challenge (AH: EC)), and before it became a national programme, research showed that being part of AH: EC:

(a) led to an improvement in the proportion, by 4.6 per cent., of year nine pupils attaining levels four, five or six in maths at key stage 3;

(b) involved improvement in nearly all measures of year 11's GCSE results, with an average improvement in total points scored of 2.5, which corresponds to an increase of between two and three grades in one GCSE; and

(c) led to participants being more likely to say that they intended to take part in HE (by 3.9 percentage points).

Additional research conducted by the Higher Education Funding Council for England (HEFCE) showed that over 70 per cent. of universities responding to its survey said that Aimhigher as a national programme added value to their widening participation policies and activities, that Aimhigher provided a positive and welcome boost to their own efforts to widen participation in HE and that this translated into increased applications.

Widening participation requires long-term address and we have announced the continuation of Aimhigher to 2011. We will continue to work with HEFCE to commission a national study to report before the end of 2011 on outcomes across the whole programme since 2004, when the unified, national Aimhigher was introduced. And at local level, Aimhigher Partnerships will determine the extent to which the Aimhigher programme has raised HE awareness, aspirations and attainment among participants and within participating institutions.

There is less accumulated evidence about the effectiveness of other interventions given that they were introduced relatively recently. But we do know that the Office for Fair Access, which agrees access agreements with HEIs, showing what they will do to attract students from lower-income backgrounds, reported that in the first operational year of access agreements, 2006-07:

(a) HEIs paid £96 million to low income students in bursaries in 2006-07 (21.4 per cent. of additional income went back to students in support), benefiting well over 70,000 low income students;

(b) for those on the lowest incomes (entitled to full state grant) the mean bursary was £870. A typical bursary (median and mode) by institution for the lowest income is £1,000 per year;

(c) £21 million additional income spent on additional outreach in 2006-07; and

(d) by 2008-09 institutions estimate that they will be disbursing over £300 million a year in bursaries and scholarships to students on low incomes (OFFA definition of low income is family incomes up to £47,425 (2006-07 values).

We continue to support the work of universities and colleges through the Department's own communications activity and make efforts to raise awareness of bursaries alongside all other elements of the higher education student finance package.

Television

Mr. Maude: To ask the Secretary of State for Innovation, Universities and Skills how many plasma television screens have been purchased by his Department, since its creation; and how many such screens have been purchased by its agencies in the last 24 months. [191079]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was created by the Prime Minister on 28 June 2007.

DIUS has purchased eight plasma screens for use at its London and Sheffield offices.

The UK Intellectual Property Office (UK-IPO) has purchased three plasma screen TVs in the last 24 months. Other than purchases for the purpose of testing under the RoHS regulations, the National Weights and Measures Laboratory (NWML) has not purchased any plasma TV screens in the last 24 months.

Training

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many adult and employer responsive training places will be available in the academic year 2010-11. [173171]

Bill Rammell: The Learning and Skills Council (LSC) Statement of Priorities published on 16 November set out the funding strategy for post-16 further education (FE) and skills for the comprehensive spending review (CSR) period (2008-09 to 2010-11). Total investment on post-16 FE and skills will increase from £11.2 billion in 2007-08 to £12.4 billion in 2010-11.

Annex C to the joint Grant Letter to the LSC from my Department and Department for Children, Schools and Families provides a breakdown of the number of funded places by programme. This is reproduced here and is also available at:

http://www.dius.gov.uk/publications.html.

It shows that in 2010-11 a total of 2.5 million adult learner places will be funded through the adult learner and employer responsive models. In line with the national roll-out of level 3 provision delivered through Train to Gain set out in 'Train to Gain: A Plan for Growth (November 2007)', the number of funded adult learners on full level 3 provision significantly increases between 2009-10 and 2010-11 (from 144,000 to 356,000). This increase reflects the higher level skills challenge set out by Lord Leitch. It more than offsets the planned reductions in funded non-accredited and non-priority learning places in 2010-11 resulting in an overall increase in funded adult learner places compared with 2009-10.

Taking into account all adult learners funded by the LSC, not just those on provision funded through the adult learner and employer learner responsive models, on average over three million adult learners will be funded each year over the CSR period.

	2008-09	*2009-10*	*2010-11*
Skills for Life—achievements counting towards the literacy level 1 target and the numeracy entry level 3 target	349,000	368,000	387,000
First full level 2 Adult Achievements (All)	346,000	388,000	412,000
First full level 3	115,000	168,000	213,000
16-18 Apprenticeships Average in Learning	160,000	172,000	183,000
Total Apprenticeship Completions	123,000	134,000	142,000

Notes:
1. Skills for Life volumes when added together will remain constant. There will be issued shortly a consultation document on English for Speakers of Other Languages (ESOL). These projections will then be remodelled.
2. Youth Participation figures exclude those delivered through specialist colleges with learners with learning disabilities and or difficulties.
3. Funding of academies is not routed through the LSC, so academy volumes are not included in the Youth Participation total. However Academies volumes do contribute to overall participation.
4. Component learner numbers and achievements presented are not cumulative. For example; a learner may undertake an apprenticeship programme of study that incorporates the successful achievements of both a Skills for Life literacy and numeracy qualification.
5. Developmental learning is defined as below level 2 learning outside the national qualifications framework, and learning above level 3. Figures are indicative and subject to further modelling. Activity associated with developmental learning will form part of the consultation the Secretary of State will launch shortly to help inform our approach to adult learning.

Training: Apprentices

Mr. Sheerman: To ask the Secretary of State for Innovation, Universities and Skills what the average length of apprenticeships was at the latest date for which figures are available. [196665]

Mr. Lammy: The latest figures available for average length of apprenticeships are for 2006/07. These figures show that at that time, the average length of stay was 57 weeks and for Advanced Apprenticeships 91.1 weeks.

This is a marked increase in length of stay since 2002/03 figures—(45.4 weeks for Apprenticeships and 84.2 weeks for Advanced Apprenticeships) and reflects the improving completion rate which is currently 63 per cent. We aim to improve this further by enhancing the quality of apprenticeship provision and the apprenticeship experience for young people and adults.

Training: British Nationality

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 21 February 2008, *Official Report*, column 878W, on training: British nationality, how many and what proportion of those undertaking *(a)* Skills for Life courses, *(b)* apprenticeships, *(c)* first time level 2 adult training and *(d)* train to gain programmes are not (i) British citizens, (ii) EU citizens and (iii) UK residents. [195906]

Bill Rammell: The Learning and Skills 'Statement of Priorities' published on 16 November 2007 reaffirms the Government's commitment to up-skilling British people to provide them with the skills required in a more competitive labour market, to get them off benefits and into jobs and to help them to advance from low skilled to higher skilled jobs. We will continue to help those who need to improve their skills—the overwhelming majority of whom, but not all, are British.

In 2006/07 there were a total of 2.060 million adult learners (aged 19+) on further education (FE) provision including Skills for Life and level 2 training funded by the Learning and Skills Council. Approximately 36,500 of these learners are recorded as having a country of domicile outside the United Kingdom and its Islands. Due to the way data are collected, further differentiation of these learners to identify all those domiciled outside the European Union or by qualification level is not possible.

The total number of LSC-funded adult learners on work-based learning (including apprenticeships) and Train to Gain courses in 2006/07 was 204,300 and 169,400 respectively. It is not possible to break down these figures by country of domicile so EU and non-EU residents cannot be identified.

Vocational Education: Mature Students

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* grants and *(b)* training schemes are available through his Department for people (i) over 55-years-old and (ii) in retirement to learn new job skills. [194595]

Mr. Lammy: I refer the hon. Member to the reply given on 3 March, *Official Report*, column 2217W.

Vocational Training: Prisoners

Mr. Frank Field: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 17 March 2008, *Official Report*, column 861W, on vocational training: prisoners, what plans he has to conduct a new skills audit of prisoners; and if he will make a statement. [197106]

Mr. Lammy: Proposals for developing the delivery of offender learning were published in September 2007 in 'Developing the Offenders' Learning and Skills Service: The Prospectus'. The prospectus set out the intention to commission a series of reviews based on criminal justice areas, now to be called Offender Skills Curriculum Area Reviews.

The outcome of the reviews will be to improve the alignment between the supply of learning and skills and the needs of offenders. The reviews will determine the range, type and level of provision to be in place in each prison establishment or area so we can commission a more effective service.

HEALTH

Breast Cancer: Screening

Mr. Hepburn: To ask the Secretary of State for Health how many breast cancer screenings took place in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [195229]

Ann Keen: The following table shows breast screening coverage in the areas requested. We are unable to identify Jarrow separately. Jarrow constituency is within South Tyneside primary care trust (PCT), for whom information has been provided.

Coverage is the percentage of eligible women with a breast screening test result in the previous three years.

Breast screening programme: coverage of women in the target age group[1] for specified organisations, 31 March 1997 to 2007

		Women aged 50-64[1]				
		1997	*1998*	*1999*	*2000*	*2001*

n/a = not available

[1] The breast screening programme covers women aged 50-64 but is best assessed using the 53-64 age group as women may be first called at any time between their 50th and 53rd birthdays. Prior to 2002 data for women aged 50-53 cannot be identified so coverage is presented for women aged 50-64.

[2] This is the number of women in the resident population less those with recall ceased for clinical reasons.

Notes:

1. Data prior to 2006 have been estimated to match current SHA boundaries.
2. Data from 2002 to 2006 have been estimated to match current Primary Care Organisation (PCO) boundaries.
3. Jarrow constituency is within South Tyneside PCT, we are unable to identify Jarrow separately.
4. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years.
5. The breast screening programme was extended to invite women aged 65-70 in April 2001.
6. The last unit began inviting women aged 65-70 in April 2006 and full coverage should be achieved by 2008-09.

KC63, The Information Centre for health and social care.

Burton Independent Sector Treatment Centre

Charlotte Atkins: To ask the Secretary of State for Health what percentage of services at Burton Independent Sector Treatment Centre has been taken up by patients *(a)* across the whole contract, *(b)* from within the North Staffordshire Primary Care Trust area, *(c)* from within the Stoke-on-Trent Primary Care Trust area and *(d)* from within the South Staffordshire Primary Care Trust area (i) in 2006-07 and (ii) at present. [194603]

Mr. Bradshaw *[holding answer 19 March 2008]:* Utilisation data for the Burton independent sector treatment centre (ISTC) contract as a whole were collected for the financial year 2006-07 in line with the Department's contractual requirements. In addition to this, for the year 2007-08, the local national health

service with support of the Central Contract Monitoring Unit of the Department's Commercial Directorate decided also to collect primary care trust (PCT) based data to support intensive efforts to improve overall utilisation and PCT specific initiatives. This was part of a range of initiatives that have improved utilisation in all PCTs and therefore the contract as a whole.

Overall contract utilisation for 2006-007 and 2007-08 and PCT based data for the contract year 2007-08 are shown in the following table:

	2006-07	2007-08 (up to 31 January 2008)
Overall contract utilisation	71	79
North Staffordshire PCT		22
Stoke on Trent PCT		5
South Staffordshire PCT		120

Note:
PCTs are contracted to refer an agreed value of activity to the ISTC and utilisation shows the percentage of their agreed value that has actually been used.

Care Homes

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 27 February 2008, *Official Report*, column 1734W on care homes, if he will break down the statistics provided by *(a)* region and *(b)* local authority. [194734]

Mr. Ivan Lewis: Information provided by the Commission for Social Care Inspection has been placed in the Library. The information shows the numbers of care homes for older people with scores of 1—standard not met—and 2—standard not met with minor shortfall—against each of the National Minimum Standards for the year ending 31 March 2007.

Care Homes: MRSA

Norman Lamb: To ask the Secretary of State for Health *(1)* what proportion of (a) MRSA and (b) clostridium difficile cases there were in care homes in each of the last five years; [183766]

(2) how many *(a)* recorded incidents of and *(b)* deaths attributed to (i) MRSA and (ii) clostridium difficile in (A) care homes and (B) other community settings there were in each of the last five years. [183768]

Ann Keen: The information requested is not available however the Health Protection Agency's (HPA) mandatory surveillance scheme provides some limited information for methicillin-resistant *Staphylococcus aureus* (MRSA) blood stream infections.

Information on the patient location for *Clostridium difficile* surveillance has been collected since April 2007 and we aim to publish this later this year.

Death certificates record the place where a person dies, but not where any infections may have been acquired. It is not possible from the information on a death certificate to know whether an infection was acquired in the care home or other place where a patient died. Patients are often transferred between hospitals, nursing/care homes and other establishments and may acquire infections in a different place from where they died.

Care Homes: Standards

Mr. Lansley: To ask the Secretary of State for Health how many care homes for the elderly were closed *(a)* temporarily and *(b)* permanently on grounds of failure (i) to meet national minimum standards and (ii) to comply with conditions placed on them as a result of not meeting national minimum standards in each of the last three years. [194841]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that, during the current inspection year, from 1 April 2007-29 February 2008, there have been eight urgent and 16 non-urgent de-registrations of care homes for older people.

While CSCI keeps individual records containing the history and reasons for closures of older people's care homes, it does not hold overall statistics that would enable the numbers of de-registrations to be broken down into the categories requested.

Children: Protection

Mrs. Curtis-Thomas: To ask the Secretary of State for Health (1) what guidance is given by *(a)* his Department and *(b)* NHS trusts to clinicians on substantiating clinical opinion and medical diagnosis prior to the instigation of child protection measures; [179549]

(2) how many child protection investigations were initiated by the Royal Liverpool Children's NHS Trust in *(a)* 2005 and *(b)* 2006; and in what percentage of these cases a child was shown to be (i) in need of and (ii) not in need of protection; [179556]

(3) whether NHS trusts publish data on the number of child protection investigations undertaken; [179688]

(4) what account NHS trusts take of information on child protection investigations in carrying out their functions. [181025]

Ann Keen: We understand that the Children's Safeguarding team at the Rainbow Centre at Alder Hey Children's Hospital, Liverpool, which is a part of the Royal Liverpool Children's NHS Trust, sees on average 40 children per month, taken from a large catchment area that includes the boroughs of Liverpool, Knowsley and South Sefton. We do not have any further information on the percentage of cases at the Rainbow Centre where children did or did not need protection.

The Government's guidance for organisations working with children including both primary care trusts and NHS trusts are contained in "Working Together to Safeguard Children", published by the Stationery Office in April 2006, copies of which are available in the Library. This sets out a whole chapter (chapter 5) on managing individual cases and a chapter (chapter 2) on roles and responsibilities has a section on health services. National health service trusts are not required to publish data on the number of child protection investigations undertaken.

A diagnosis of child abuse is not a matter for a clinician alone, but would be for multi-disciplinary decision. Primary care trusts and NHS trusts are

required to work with local authorities in the establishment of Local Safeguarding Children Boards (LSCBs) and as statutory partners. The LSCBs ensures that the duty to safeguard and promote the welfare of children is carried out appropriately.

Chiropody: Greater London

Mr. Evennett: To ask the Secretary of State for Health what recent assessment he has made of the level of provision of free podiatry services by primary care trusts in London. [194657]

Ann Keen: No recent assessment has been made of podiatry services in London. It is for local primary care trusts to determine how best to use their funds to meet national and local priorities for improving health services, including podiatry, and to commission services accordingly.

Chronically Sick: Cheshire

Mr. Stephen O'Brien: To ask the Secretary of State for Health what progress has been made in implementing the targets for the national service framework for long-term conditions in Eddisbury. [195320]

Ann Keen: It is for individual primary care trusts (PCTs), including Western Cheshire PCT and the Central and Eastern PCT, within the national health service to develop locally the levels of service described in the National Service Framework for Long-term (Neurological) Conditions (the NSF). The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of differences in local priorities and needs. A copy of the NSF is available in the Library.

Information on the progress that has been achieved locally with regard to the implementation of the targets set out in the NSF can be obtained direct from Western Cheshire PCT and the Central and Eastern PCT.

Dental Services: Ashford

Damian Green: To ask the Secretary of State for Health how many dentists accepting NHS patients in Ashford he estimates will have used all their units of dental activity before the end of the financial year. [195146]

Ann Keen: The Department does not assess the performance of individual dental providers. Primary care trusts, as the commissioning bodies, are responsible for monitoring the delivery of services by their local dental providers.

Dental Services: South East

Damian Green: To ask the Secretary of State for Health what estimate he has made of the number and percentage of the population of *(a)* children and *(b)* adults in (i) the South East of England and (ii) Kent who were seen by an NHS dentist in each of the last five years. [195137]

Ann Keen: The number of patients seen in a 24-month period replaced registration as a measure of access to national health service dentistry on 1 April 2006. Under the old contractual arrangements, which were in place up to and including 31 March 2006, access was measured through the number of patients registered with an NHS dentist. This measure is not directly comparable to the "patients seen" measure used under the new contractual arrangements.

The number and percentage of the population registered with an NHS dentist in England at 31 March each year from 1997 to 2006 are available in Annex A and Annex B of the report 'NHS Dental Activity and Workforce Report, England: 31 March 2006'. The information is provided for children and adults by primary care trust (PCT) and strategic health authority (SHA).

This report was published on 23 August 2006 and is available in the Library. It is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

The number and percentage of the population seen by an NHS dentist in the 24-month periods ending 31 March 2006, 31 March 2007, 30 June 2007 and 30 September 2007 are available in tables C1 and C2 of Annex 3 of the report 'NHS Dental Statistics for England: Quarter 2, 30 September 2007'. The information is provided for children and adults by PCT and SHA.

This report was published on 28 February 2008 and is available in the Library. It is also available at:

www.ic.nhs.uk/pubs/dentalstatsq20708

Both reports were published by The Information Centre for health and social care.

Dental Services: Wirral

Stephen Hesford: To ask the Secretary of State for Health how much his Department spent on NHS dentistry in Wirral West constituency in each year since 1997. [194301]

Ann Keen: The Government's fundamental reform programme for primary dental care services was introduced from 1 April 2006. Primary care trusts (PCTs) were given responsibility for planning and commissioning primary dental services and provided with local, devolved, dental budgets.

Wirral PCT reported the following expenditure on primary dental care services in 2006-07, the first year of the new service arrangements. This has been set out in the following table. However, data on expenditure by individual parliamentary constituency are not collected centrally.

National health service expenditure on primary dental care services, Wirral PCT, 2006-07

	£000
Gross expenditure	20,110
Income from dental charges paid by patients	4,879
Net expenditure	15,231

Note:
Resource expenditure, as noted in end year accounts

Prior to April 2006, most primary dental care services were provided under former general dental service (GDS) arrangements. These were demand led services where the pattern of dental expenditure was largely determined by where dentists chose to practice, and how much NHS work they chose to undertake. PCTs were not given fixed funding allocations, except in those areas where personal dental services (PDS) pilots were established to test alternative, local commissioning arrangements and new forms of contract remuneration.

Local level data on primary dental care expenditure prior to April 2006 is held by the Information Centre for health and social care. Copies of the report 'NHS Expenditure for General Dental Services and Personal Dental Services: England 1997-98 to 2005-06' have been placed in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-expenditure-for-general-dental-services-and-personal-dental-services:-england-1997-98-2005-06

Departmental Plants

Mr. Hoban: To ask the Secretary of State for Health how much his Department spent on pot plants in each of the last five years. [192059]

Mr. Bradshaw: The figures in the table are the agreed contract costs associated with the provision of all horticultural services to the Department across its estate. It is not possible to break down these figures further. The figures include the salary costs of the contract personnel. Figures in each of the last five years are as follows:

	£
2003-04	14,500
2004-05	14,500
2005-06	14,500
2006-07	14,500
2007-08	14,500

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health how much *(a)* resource and *(b)* capital underspend incurred by his Department in 2007-08 he expects to be carried forward. [197045]

Mr. Bradshaw: The Department will as usual publish details of any 2007-08 underspend and carry forward in the 2007-08 Public Expenditure Outturn White Paper (due to be published in summer 2008).

Eastern and Coastal Kent Primary Care Trust: Staff Assaults

Damian Green: To ask the Secretary of State for Health how many attacks on NHS staff have been reported by *(a)* Eastern and Coastal Kent Primary Care Trust, *(b)* East Kent Hospitals NHS Trust and *(c)* their predecessor Trusts in each of the last five years. [195140]

Ann Keen: The Department collected figures on the number of violent incidents in the year 2002-03.

In April 2003 the National Health Service Security Management Service (NHS SMS) was created and assumed responsibility for tackling violence against NHS staff. Since 2004-05 the NHS SMS has collected statistics for the number of reported physical assaults against NHS staff.

The numbers of violent incidents and reported physical assaults for 2002-03 and for 2004-05 to 2006-07 are shown in the following table.

	Violent incidents	*Physical assaults*		
NHS trusts	*2002-03*	*2004-05*	*2005-06*	*2006-07*
East Kent Hospitals NHS trust	118	84	157	120
East and Coastal Kent primary care trust	—	—	—	157
Ashford primary care trust[1]	2	79	93	—
Canterbury and Coastal primary care trust[1]	28	15	10	—
East Kent Coastal primary care trust[1]	10	6	4	—
Shepway primary care trust[1]	6	1	2	—
Swale primary care trust[1]	56	46	18	—

[1] On 1 October 2006, the mentioned primary care trusts merged to form Eastern and Coastal Kent primary care trust.

Eyesight: Testing

David Simpson: To ask the Secretary of State for Health how many eye tests funded by the public purse in *(a)* England and *(b)* each region in each of the last 10 years; and what percentage of those who had eye tests subsequently received (i) spectacles for the first time and (ii) replacement or repairs of spectacles funded by the public purse. [194594]

Ann Keen: Information on the number of sights paid for by the national health service in England, is provided in table 1 of the 'General Ophthalmic Services: Activity Statistics for England and Wales—Year ending 31 March 2007' report. Information is provided for the years ending 31 March, 1997 to 2007.

Sight test information by strategic health authority (SHA) and by primary care trust (PCT) level for the year ending 31 March 2007 is available in table A3 of Annex D of the report.

The number of those who receive spectacles for the first time is not collected centrally.

Table 3 of this report shows the number of vouchers for spectacles or contact lenses paid for by the NHS in England for the years ending 31 March, 1997 to 2007.

Figure 6a of the Report shows the number of items for repair or replacement, in England, for the years ending 31 March, 1997 to 2007.

Information on the numbers of vouchers and the numbers of items for repair or replacement by SHA and by PCT for the year ending 31 March 2007 are available in tables B3, C3 and D3 of Annex D of the Report.

This Report, published on 31 July 2007, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/gosactivity310307

The Information Centre for health and social care will aim to publish information at a regional level for earlier years in the 'General Ophthalmic Services: Activity Statistics for England and Wales—Year ending 31 March 2008' report. Once published a copy of the Report will be placed in the Library.

All the reports have been published by the Information Centre for health and social care.

Family Practitioner Services

David Simpson: To ask the Secretary of State for Health how many *(a)* GPs, *(b)* dentists, *(c)* optometrists and *(d)* pharmacies there were in (i) England and (ii) each English region in each of the last three years; and how many this equated to per 100,000 resident population in each category. [194593]

Ann Keen: The number of general practitioners (GPs) in England, each strategic health authority in each of the last three years and how many this equated to per 100,000 resident population in each category, has been placed in the Library.

The number of national health service dentists and persons per dentist in England, as at 31 March, 1997 to 2006 are available in annex E and F of the "NHS Dental Activity and Workforce Report England: 31 March 2006" report. The information is provided by strategic health authority (SHA) and by primary care trust (PCT). This information is based on the old contractual arrangements which were in place up to and including 31 March 2006.

This report, published on 23 August 2006 is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

The number of dentists, and number of dentists by population, on open NHS contracts, in England, as at 30 June 2006, 30 September 2006, 31 December 2006, and 31 March 2007 are available in table E1 of annex 3 of the "NHS Dental Statistics for England: 2006-07" report. This information is provided by PCT and by SHA.

This report, published on 23 August 2007, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

Information on the number of ophthalmic practitioners (OPs) in England is provided in table 1 of the "General Ophthalmic Services: Workforce Statistics for England and Wales, 31 December 2006" report. The information is provided as at 31 December, 1996 to 2006. The information is provided by type of practitioner. This report was published on 31 July 2007 and is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/eye-care/general-ophthalmic-services:-workforce-statistics-for-england-and-wales-year-ending-31-december-2006

Information on the number of OPs in England as at 31 December 2006 is also provided in annex 3, table 1, of the aforementioned report. This information is provided by type of practitioner and by PCT.

Information on the number of OPs in England as at 31 December 2005 is provided in table 10, annex A of the "General Ophthalmic Services: Statistical Bulletin – Ophthalmic Statistics for England, 1996-97 to 2005-06" report. This information is provided by PCT.

This report, published on 24 October 2006, has been placed in the Library and is available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/opticians/general-ophthalmic-services:-statistical-bulletin-ophthalmic-statistics-for-england-1996-97-2005-06

Information on the number of OPs in England as at 31 December 2004 is provided in table 9 of the "General Ophthalmic Services: Consultation tables for England, Wales and Scotland, 2004-05" report. This information is provided by PCT. This table also includes information on the number of OPs per 10,000 of the population.

This report, published on 30 November 2005, has been placed in the Library and is available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/opticians/general-ophthalmic-services:-consultation-tables-nhs-sight-tests-vouchers-workforce-premises-2004-2005

The following shows data for the number of pharmacies there were in England, each SHA in each of the last three years and how many this equated to per 100,000 resident population in each category.

Community pharmacies in contract with PCTs at 31 March and population by SHA, England, 2004-05

SHA by region	*Number of community pharmacies*[1]	*Population June 2003*[2] *(Thousand)*	*Pharmacies per million population*
England	9,742	49,856	195

General Practitioners

Damian Green: To ask the Secretary of State for Health how many GPs there are per 100,000 population in (*a*) England, (*b*) the South East of England, (*c*) Kent and (*d*) Ashford. [195138]

Ann Keen: The information requested is shown in the following table.

General practitioners (GPs) (excluding retainers and registrars)[1] per head of population by selected area in England, as at 30 September 2007

			All GPs (excluding retainers and registrars)[1]	All GPs (excluding retainers and registrars)[1] headcount per 100,000 population
England			33,364	65.7
Q37	South East Coast		2,700	63.7
	5LQ	Brighton and Hove City Primary Care Trust (PCT)	167	66.4
	5P7	East Sussex Downs and Weald PCT	220	66.6
	5QA	Eastern and Coastal Kent PCT	438	60.8
	5P8	Hastings and Rother PCT	113	64.2
	5L3	Medway PCT	130	51.7
	5P5	Surrey PCT	718	66.9
	5P9	West Kent PCT	384	58.0
	5P6	West Sussex PCT	530	68.8

[1] General medical practitioners (excluding retainers and registrars) includes GP providers and GP others.

Note:
Ashford is contained within Eastern and Coastal Kent PCT

Sources:
The Information Centre for health and social care General and Personal Medical Services Statistics 2001 Office for National Statistics Population Census.

Andrew Mackinlay: To ask the Secretary of State for Health what authorisation is required from a primary care trust in setting up a closed-list GP practice by an employer; whether there are any elements of public funding for such practices; and if he will make a statement. [198170]

Mr. Bradshaw: Any employer is free to employ a general practitioner (GP) to provide medical services to their staff. Such an arrangement would be a private one between the employer and the GP. No authorisation is required by a primary care trust and no public funding would be available for such an arrangement. Employees would remain free to register with a national health service GP practice in the usual way.

General Practitioners: Finance

Mr. Moss: To ask the Secretary of State for Health how much funding each GP practice in Cambridgeshire received in the latest period for which figures are available; how many full-time equivalent doctors were employed by each practice; and how many patients were registered at each practice. [196858]

Mr. Bradshaw: Information about payments by primary care trusts (PCTs) to individual general practitioner (GP) practices is not collected centrally.

Information on number of GP doctors and patients is not collected by constituency. Information is collected by national health service organisations. Therefore information has been provided for the number of GP doctors, and number of registered patients within Cambridgeshire PCT, which serves the Cambridgeshire area and is shown in the following table.

All GP partnerships in Cambridgeshire PCT by number of GPs (excluding retainers and registrars) and registered patients, as at 30 September 2007

Health Services: Prisons

Norman Lamb: To ask the Secretary of State for Health how many prescriptions were dispensed to persons held in each prison for *(a)* subutex, *(b)* methadone and *(c)* other opiate replacements in each of the last five years. [197935]

Mr. Ivan Lewis: The information is not available in the format requested.

Since April 2007, HM Prison Service has collected information on regular opioid prescriptions to prisoners. From April to December 2007, 9,242 maintenance prescriptions, for methadone and buprenorphine, were initiated.

Health Services: York

Miss McIntosh: To ask the Secretary of State for Health what progress has been made towards achieving the targets for the National Service Framework for Long-term Conditions in the Vale of York. [193798]

Ann Keen: It is for individual primary care trusts (PCTs), including North Yorkshire and York PCT, within the national health service to develop locally the levels of service described in the 'National Service Framework for Long-term (Neurological) Conditions' (the NSF). The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of differences in local priorities and needs. A copy of the NSF is available in the Library.

Information on the progress that has been achieved locally with regard to the implementation of the targets set out in the NSF can be obtained direct from North Yorkshire and York PCT.

Health Services: Yorkshire and Humberside

Mr. Graham Stuart: To ask the Secretary of State for Health what estimate he has made of the annual number of people who use the Humber Bridge to access medical services provided in *(a)* Kingston upon Hull and *(b)* the East Riding of Yorkshire; and if he will make a statement. [197437]

Ann Keen: This information is not collected centrally.

Hereditary Diseases

Anne Milton: To ask the Secretary of State for Health what assessment he has made of the incidence of birth defects in consanguineous marriages; how many representations he has received about the number of birth defects in consanguineous marriages in the last six months; and if he will make a statement. [194437]

Ann Keen: Information on the number of birth defects in consanguineous marriages is not collected centrally. The Department's correspondence unit has no record of any representations on birth defects from consanguineous marriages this year.

HIV Infection: Prisons

Norman Lamb: To ask the Secretary of State for Health how many prescriptions for anti-retroviral drugs were dispensed to persons detained in each prison in each of the last five years. [197940]

Mr. Ivan Lewis: The information requested is not held centrally.

Hospitals: Staff Assaults

John Cummings: To ask the Secretary of State for Health how many assaults upon staff at *(a)* Sunderland Royal Hospital, *(b)* Durham University Hospital and *(c)* Hartlepool General Hospital were recorded in each year since 2002; and how many successful prosecutions followed such assaults. [194126]

Ann Keen: The Department collected figures on the number of violent incidents in the year 2002-03.

In April 2003 the national health service security management service (NHS SMS) was created and assumed responsibility for tackling violence against NHS staff. Since 2004-05 the NHS SMS has collected statistics for the number of reported physical assaults and criminal sanctions against individuals who have assaulted NHS staff.

The numbers of violent incidents, reported physical assaults and criminal sanctions are not available by hospital but by trust. The figures for 2002-03 and for 2004-05 to 2006-07 are shown in the following table.

	2002-03	2004-05		2005-06		2006-07	
NHS trust	Violent incidents	Assaults	Sanctions	Assaults	Sanctions	Assaults	Sanctions
City hospitals and Sunderland NHS Foundation Trust	103	124	1	153	2	123	4
County Durham and Darlington NHS Foundation Trust	339	97	1	47	4	41	7
North Tees and Hartlepool NHS Foundation Trust	163	61	22	57	1	8	0

Notes
Criminal sanctions include:
Cautions and Conditional Cautions,
Community Rehabilitation or Punishment Orders,
Imprisonment (including suspended sentences),
Conditional Discharges, and
Fines.

David Simpson: To ask the Secretary of State for Health how many hospital staff in England were hospitalised as a result of assault while on duty in each of the last three years. [194654]

Ann Keen: The information is not available centrally and could be obtained only at disproportionate cost.

Hypertension: Health Services

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) what steps he is taking to improve patient services for the treatment of pulmonary arterial hypertension; and what assessment he has made of the effectiveness of care and treatment available to end stage patients; [194210]

(2) what assessment he has made of the efficacy of treatment pathways for pulmonary arterial hypertension; [194211]

(3) what specialist centres for the treatment of pulmonary arterial hypertension there are; what plans he has to increase the number of such centres; and whether the role of such specialist centres will be continued; [194212]

(4) what assessment he has made of the treatment provided for pulmonary arterial hypertension patients in England against UK and international benchmarks; [194213]

(5) what assessment he has made of the impact of *(a)* the changing structure of NHS processes and *(b)* recent National Institute for Health and Clinical Excellence recommendations on the commissioning of pulmonary arterial hypertension services. [194214]

Ann Keen: There are six centres for the treatment of adults with pulmonary hypertension in England. These are at Newcastle, Sheffield, Papworth, Hammersmith, Royal Free and the Brompton hospitals. Several of these centres run outreach clinics at other hospitals.

From April 2008, pulmonary hypertension services for adults will be commissioned by specialised commissioning groups on behalf of their constituent primary care trusts. The National Specialised Commissioning Group retains a national overview of these commissioning arrangements and considers the appropriate standards, which local centres should achieve, taking National Institute for Health and Clinical Excellence guidance into account.

For the care and treatment of children with pulmonary hypertension, a United Kingdom national network is organised on a 'hub and spoke' principle. The hub is Great Ormond Street hospital for Children and the spokes for follow up care are six centres of paediatric cardiology at Leeds General Infirmary, Bristol Children's hospital, Freeman hospital in Newcastle, Birmingham Children's hospital, Yorkhill hospital in Glasgow and the Royal Hospital for Children in Belfast.

Pulmonary hypertension services for children are nationally commissioned and performance managed by the National Commissioning Group on behalf on the national health service.

There are no current plans to change the arrangements for these specialist centres.

In addition, the national pulmonary hypertension centres of the UK and Ireland have published "A Consensus Statement on the Management of Pulmonary Hypertension in Clinical Practice in the UK and Ireland in March 2008". This is available at:

www.brit-thoracic.org.uk/ClinicalInformation/PulmonaryHypertension/NationalPulmonaryHypertensionServices/tabid/205/Default.aspx

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for Health what payments his Department has made to Ipsos MORI in the last 24 months; and for what purposes. [194315]

Mr. Bradshaw: The total paid to Ipsos MORI (Market and Opinion Research International) for surveys by various policy teams of the Department from March 2006 to mid March 2008 is £19,138,755.15.

It would not be possible to discern the specific details of each survey without incurring disproportionate cost.

Maternity Services

Mr. Lansley: To ask the Secretary of State for Health how many deliveries at each NHS maternity unit there were in the latest year for which figures are available, broken down by maternity unit within each NHS trust. [194898]

Ann Keen: Information is not available on the number of deliveries by maternity unit. The following table has provisional information for 2006-07 on the number of deliveries in national health service hospitals by NHS provider.

Number of deliveries taking place in NHS hospitals by NHS provider—NHS hospitals, England 2006-07

Total	629,207

Note:
Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with *. Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional smallest number have been suppressed in order to protect patient confidentiality.
Source:
Hospital Episode Statistics (HES), The Information Centre for health and social care

Mr. Lansley: To ask the Secretary of State for Health what percentage of pregnant women did not seek maternity care until they were five months or more pregnant in each of the last five financial years for which figures are available, broken down by primary care trust. [195751]

Ann Keen: Information is not available in the format requested.

However in our publication, 'Maternity Matters: Choice, Access and Continuity of Care in a Safe Service', we estimated that around 16 per cent. of all pregnant women, including many under 18 years of age, delay seeking maternity care until they are five months or more pregnant. A copy of the document is available in the Library.

Members: Correspondence

Tim Loughton: To ask the Secretary of State for Health pursuant to his Answer of Monday 28 January 2008, *Official Report*, column 110W, on Members:

correspondence, when he expects to substantively respond to the letter from the hon. Member for East Worthing and Shoreham, dated 17 July 2007, to the Parliamentary Under-Secretary of State for Care Services requesting a meeting to discuss the charging regime for multiple sclerosis treatment centres. [184271]

Mr. Bradshaw: A reply was issued to the hon. Member on 4 February 2008.

Mid Yorkshire Hospitals NHS Trust: Finance

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 29 November 2007, *Official Report*, column 724W, on Mid Yorkshire Hospitals NHS Trust: finance, following the publication of the NHS Operating Framework for 2008-09, if he will place a copy of the report on the Mid Yorkshire Hospitals NHS Trust in the Library. [194735]

Ann Keen: I refer the hon. Member to the answer I gave him on 7 February 2008, *Official Report*, column 1472W.

NHS: Consultants

Mr. Drew: To ask the Secretary of State for Health how many finished consultant episodes there were at *(a)* Gloucestershire Royal Hospital and *(b)* Cheltenham General Hospital in each year since 1992. [196420]

Mr. Bradshaw: Information is not held in the format requested. Information is collected about finished consultant episodes (FCEs) at national health service trust level, rather than individual hospital level. Gloucestershire Royal hospital and Cheltenham general hospital are part of Gloucestershire hospitals NHS foundation trust.

The following table shows numbers of FCEs at Gloucestershire hospitals NHS foundation trust for 2002-03 to 2006-07. Prior to 2002-03, there were a number of complex trust mergers, meaning that the data are too inconsistent to use.

FCEs at Gloucestershire hospitals NHS foundation trust for 2002-03 to 2006-07, NHS hospitals in England and activity performed in the independent sector in England commissioned by English NHS

Year (of end of period of care in patient's hospital stay)	*FCEs*
2006-07	160,627
2005-06	158,911
2004-05	146,768
2003-04	140,017
2002-03	137,570

Notes:
1. A FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Assessing growth through time. HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
3. Data Quality. HES are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
4. Ungrossed Data. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The Information Centre for health and social care.

NHS: Staff Assaults

Mr. Swire: To ask the Secretary of State for Health what *(a)* discussions he has had and *(b)* representations he has received on streamlining the IR1 form to ensure all NHS employees are able to document all incidents in hospitals. [189495]

Ann Keen: The Department has had no discussions, and is unaware of receiving any representations, about streamlining the IR1 form, the name many national health service organisations give to their locally produced incident report form. NHS staff and service providers are also encouraged to share these reports of patient safety incidents with the National Patient Safety Agency using the National Reporting and Learning System.

NHS: Drugs

Mrs. Gillan: To ask the Secretary of State for Health if he will list the drugs available on the national health service. [197394]

Dawn Primarolo: General practitioners are able to prescribe any licensed medicine on the national health service unless it is listed in schedules 1 or 2 of the National Health Service (General Medical Services Contracts) (Prescription of Drugs etc.) Regulations 2004.

Hospital clinicians are not affected by these statutory restrictions. They can prescribe any medicine, provided their local primary care trust agrees to its supply at NHS expense.

NHS: Registration

John Mann: To ask the Secretary of State for Health which 10 constituencies have the lowest density of NHS registration by UK nationals. [197328]

Mr. Bradshaw: The Department does not hold this information centrally.

The national health service is intended first and foremost for the benefit of people living in the United Kingdom. Free NHS treatment is based on residence in the UK, not on nationality, the payment of UK taxes or national insurance contributions.

Occupational Health: Cardiovascular System

Mark Simmonds: To ask the Secretary of State for Health what representations his Department has received on heart-health testing for employees in the last 12 months; and if he will make a statement. [195377]

Ann Keen: The Prime Minister announced on 7 January that the Department would bring forward proposals for a risk assessment programme within the national health service to assess the population for the risk of vascular diseases. Heart health testing is not currently available in the work place, although private occupational health providers can buy this in for their employees. We are not aware of any representations on this subject in the last 12 months.

Organs: Donors

Mr. Hepburn: To ask the Secretary of State for Health how many organ donors were registered in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [195231]

Ann Keen: The information requested is in the following tables.

Number joining the National Health Service Organ Donor Register from Jarrow, South Tyneside, North East England and all England, 1997-2007, by year

	1997	1998-2000	2001	2002	2003	2004	2005	2006	2007	Total
Jarrow [1]	733	864	1,009	859	789	999	1,184	1,203	1,038	10,406
South Tyneside [2]	1,452	1,856	2,156	1,785	1,608	2,095	2,633	2,597	2,188	22,082
North East England [3]	32,789	38,806	47,845	50,490	42,790	41,210	47,139	49,593	43,301	471,575
All England	690,275	807,111	1,021,806	947,807	756,195	866,973	924,039	1,004,416	858,467	9,491,311

[1] Parliamentary constituency.
[2] Council area.
[3] Postcodes DH, DL, NE, SR, TS, TD15.
For administrative reasons, the data for 1998-2000 is not available for each year separately so the yearly average is given.

Deceased organ donors from hospitals in South Tyneside, North East England and all England, 1997-2007 by year

Donating hospital	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	Total
South Tyneside Dist. Gen. Hosp.	1	1	—	2	—	2	1	2	—	—	1	10
North East England Hospitals [1]	39	45	51	58	49	34	38	39	30	39	41	463
Hospitals in all England	689	621	617	653	640	652	598	682	633	647	667	7,099

[1] donating hospitals in: Darlington, Durham, Bishop Auckland, Hexham, Ashington, Gateshead, Newcastle, North Shields, South Shields and Sunderland.
Note:
There are no donating hospitals (i.e. with ICU/HDU) in the Jarrow constituency.

Prescriptions: Fees and Charges

Mr. Lansley: To ask the Secretary of State for Health how many prescription penalty notices were issued in each financial year since 1997-98 for which figures are available; and how much was collected each year in penalty charges. [194902]

Ann Keen: From August 2001 to March 2003, the Prescription Pricing Authority undertook prescription penalty charge functions as per the provisions of the Health Act 1999.

From April 2003 to March 2005, the national health service Counter Fraud and Security Management Service (CFSMS) undertook these functions.

From April 2005, these functions were devolved to primary care trusts with the CFSMS providing a central support process to facilitate verification checks. Detailed information on recoveries since April 2005 is not held centrally and could be obtained only at disproportionate cost.

The number of penalties and the amounts recovered are shown in the following table.

	Penalties issued	Original prescription charge (£)	Penalties and surcharges (£)
August 2001 to March 2005	160,000	550,000	2,400,000
2005-06	21,837	—	—
2006-07	25,029	—	—

Data for the period August 2001 to March 2005 is not available by year. The figures given are recovery figures for the original prescription charge and the associated penalties and surcharges.

Prostate Cancer: Screening

Mr. Hepburn: To ask the Secretary of State for Health how many prostate screenings took place in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [195226]

Ann Keen: The national health service does not operate a prostate cancer screening programme. There is currently insufficient evidence from any country in the world to show that screening would reduce deaths from prostate cancer. The Government are committed to introducing a national screening programme for prostate cancer if and when screening and treatment techniques are sufficiently well developed. The United Kingdom National Screening Committee keeps screening for prostate cancer under review.

The prostate cancer risk management programme was established in 2002 to ensure that men considering a prostate specific antigen (PSA) test are given information concerning the benefits, limitations and risks associated with having a test. Figures on the number of PSA tests taken as a result of the programme are not collected centrally.

Psychiatry: Regulation

Dan Rogerson: To ask the Secretary of State for Health what plans his Department has to introduce a regime to regulate psychotherapists and counsellors. [198257]

Mr. Bradshaw: In the White Paper, Trust, Assurance, Safety—The Regulation of Health Professionals in the 21st Century, the Government identified psychotherapists and counsellors as a priority for statutory regulation. Before this can happen, these groups need to have agreed standards of training and practice and have put in place an interim voluntary system of regulation, which can form the basis of a statutory system.

Sexually Transmitted Diseases: Prisons

Norman Lamb: To ask the Secretary of State for Health how many cases of sexually transmitted infections were recorded in each prison in each of the last five years, broken down by infection. [197937]

Mr. Ivan Lewis: The information requested is not routinely collected.

The Department issued new key performance indicators (KPIs) for prison health services in October 2007. These include a KPI for sexual health in prisons.

Under this, prisons must ensure that prisoners are aware of the means of accessing condoms in prisons; have access to social and life skills modules on sex and relationship education; have access to a genito-urinary clinic in prison; and have access to a Chlamydia screening programme.

Skin: Diseases

Mrs. Humble: To ask the Secretary of State for Health what research is being *(a)* undertaken and *(b)* funded by his Department on the likely causes of Hidradenitis Suppurativa. [196317]

Ian Pearson: I have been asked to reply.

The Medical Research Council is one of the main agencies through which the Government support medical and clinical research. The MRC is not currently funding any research specifically on Hidradenitis Suppurativa, but does fund a broad range of research looking at understanding inflammation and inflammatory diseases which may benefit the condition in the future. While the MRC does not earmark funds for particular topics, research proposals in all areas are welcome.

Waiting Lists: York

Hugh Bayley: To ask the Secretary of State for Health what the average waiting time for *(a)* in patient treatment and *(b)* day surgery was for each clinical speciality at York NHS Hospital in each year since 1997. [197131]

Mr. Bradshaw: The information requested has been set out in the following tables:

Median waiting times in weeks York hospitals NHS Trust by specialty

	Period ending March											
	1997		*1998*		*1999*		*2000*		*2001*		*2002*

Gynaecology	15.6	15.4	14.5	13.5	15.5	13.1	10.5	8.5	8.3	6.2	6.5	7.1
All specialties	15.8	13.7	11.8	11.7	10.9	9.7	9.0	8.3	6.5	6.7	4.8	6.3

Notes:
1. The figures show the median waiting times for patients waiting for admission at the end of each period.
2. These are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.
3. Specialties where the total number waiting is less than 20 have been excluded as medians calculated from these figures would be prone to fluctuation due to small numbers. This is why there are some gaps of information.
4. Figures by specialty not collected after September 2007.
Source:
Department of Health KH07

Westminster Primary Care Trust: General Practitioners

Andrew Mackinlay: To ask the Secretary of State for Health whether there are any closed-list GP practices within Westminster Primary Care Trust. [198169]

Mr. Bradshaw: Data about general practitioner (GP) practices that have lists closed for the registration of new patients are collected quarterly through the Primary Care Access Survey, and the latest available data are for November 2007 to January 2008. For Westminster Primary Care Trust (PCT), these data showed two practices with closed lists, which is 4 per cent. of the PCTs GP practices. In England, 2 per cent. of GP practices reported that they were operating closed lists.

JUSTICE

Antisocial Behaviour: Essex

Mr. Amess: To ask the Secretary of State for Justice how many *(a)* cautions and *(b)* fines were imposed for (i) vandalism, (ii) graffiti, (iii) litter and (iv) anti-social behaviour in each district and unitary council area in Essex in each of the last eight quarters for which records are available. [194199]

Maria Eagle: The number of persons given cautions, and those found guilty who were given fines for vandalism, graffiti, litter and antisocial behaviour in Essex for the years 2005 and 2006 can be viewed in tables 1 and 2.

Apart from criminal damage (which includes minor acts of vandalism and graffiti among other things) and littering, penalty notices for disorder (PNDs) can be issued for a range of offences that might be characterised as antisocial behaviour including behaviour likely to cause fear, alarm and distress (section 5 of the Public Order Act 1986). The total number of PNDs issued in Essex in 2005 and 2006 is 4,454 (for 2005) and 4,461 (in 2006) a breakdown of those issued by offence is provided in table 3.

Information held by the Ministry of Justice cannot identify the district or unitary council area these offences were committed in.

Court proceedings data for 2007 will be available in the autumn of 2008. Fixed Penalty Notices can be issued by local authorities for graffiti and littering offences. These data are collected annually by the Department for the Environment, Farming and Rural Affairs. There were no fixed penalty notices issued for graffiti offences in Essex between April 2005 and March 2007. Information on fixed penalty notices issued for littering offences in each local authority in Essex are contained in table 4.

Full data, including for other offences related to antisocial activity such as fly-posting and certain noise and waste-related offences, are published on-line at:

http://www.defra.gov.uk/environment/localenv/legislation/fpn/index.htm

[1] Cautions data are provided on the principal offence basis, PND data are a count of PNDs issued.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Table covers all PND offences as outlined in table 3, although where no cautions were issued for an offence figures have been omitted from the table. 4 A PND may be issued to an offenders an alternative to a caution or prosecution only where the value of the item stolen is less than £200.
[4] Includes offences of vandalism and graffiti but is not exclusive to those offences.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Justice at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196946]

Maria Eagle: My Department does not hold any records of how many events wine or Fairtrade wine has been served in the last three years and the information could be obtained only at disproportionate cost.

Where catering services are through commercial arrangements, we will continue to encourage suppliers to support and make use of Fairtrade products.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Justice pursuant to the answer of 19 February 2008, *Official Report*, column 599W, on the departmental intranet, whether his Department's IT system is able to provide a record of Wikipedia entries *(a)* created and *(b)* amended from within his Department. [195838]

Maria Eagle: The Ministry of Justice's IT systems do not provide a record of this information, as IP addresses for Wikipedia users within the Department and its agencies cannot be linked to individuals. It should be noted that any input to such websites would be done in accordance with the civil service code, which states that civil servants should: "use resources only for the authorised public purposes for which they are provided" and "make sure public money and other resources are used properly and efficiently".

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Justice how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197067]

Maria Eagle: The information requested is in the following table.

	Ministry of Justice	*HM Courts Service*	*HM Prison Service*
AAW			
Number	—	—	1
Charged (£)	—	—	726.00
AWLB			
Number	—	—	—

Charged (£)	—	—	—
IIS			
Number	—	1	—
Charged (£)	—	726.00	—
PEPS			
Number	—	—	—
Charged (£)	—	—	—

Key:
AAW = Working Assertively
AWLB = Balancing Work/Life Realities
CONF = Managing your Confidence
COUN = Counselling Skills for the Workplace
IIS = Influencing with Integrity
PEPS = Emotional Intelligence

Drugs: Misuse

David Davis: To ask the Secretary of State for Justice what the average sentence was for persons sentenced to immediate custody for offences under the Misuse of Drugs Act 1971 section 4(3) and 5(3), in each of the last five years. [196833]

Mr. Straw: The information requested is shown in the following table.

Person sentenced[1] to immediate custody for offences under the Misuse of Drugs Act 1971 section 4(3) and 5(3), and the average sentence length[2], for each of the last five years

		Sentenced	Sentence to immediate custody	Custody rate (%)	Average sentence length (months)[2]
2002	Section 4(3)	2,655	2,077	78	43.7
	Section 5(3)	3,017	2,233	74	34.3
2003	Section 4(3)	2,905	2,248	77	43.2
	Section 5(3)	3,378	2,444	72	36.1
2004	Section 4(3)	3,101	2,348	76	40.6
	Section 5(3)	3,880	2,645	68	37.4
2005	Section 4(3)	3,274	2,085	64	36.6
	Section 5(3)	4,810	2,944	61	33.5
2006	Section 4(3)	2,425	2,039	84	38.2
	Section 5(3)	4,925	2,930	59	31.8

[1] Principal offence basis
[2] Excludes life sentences
PQ(RN)133-08 RDS NOMS
28 March 2008
Misuse of drugs Act (1971) S.4(3)
Supplying or offering to supply a controlled drug (or being concerned in) Class 'A' Drug, Class 'B' Drug, Class 'C' Drug, class unspecified
Misuse of drugs Act (1971) S.5(3)
Having possession of a controlled drug with intent to supply, Class 'A' Drug, Class 'B' Drug, Class 'C' Drug, class unspecified

Financial Reporting Orders

David Davis: To ask the Secretary of State for Justice pursuant to the answer of 10 March 2008, *Official Report*, column 156W, on financial reporting orders, for what reason the Serious Organised Crime Agency Annual Report for 2006-07 states that 12 such orders are in place. [195714]

Mr. Straw: The SOCA annual report 2006-07 gave the number of orders, which the Agency had successfully obtained in that period. The information in my reply of 10 March 2008, *Official Report*, column 756W, was prepared looking only at principal sentencing disposals, in line with standard practice. As the financial order is not a "primary disposal" of the courts, this led to the discrepancy in my earlier reply, and the impression—which I regret—that none had been issued when 12 had. I continue to be concerned about the reliability of court data and have asked for serious work to be undertaken to make it more informative.

HM Courts Service: Security

Jim Cousins: To ask the Secretary of State for Justice (1) at how many courts the provision of security, guarding and surveillance services have been outsourced to private contractors; [196106]

(2) how many staff the Courts Service employs directly or via contractors for security and guarding duties. [196108]

Maria Eagle: Contracted security guarding services are provided to 609 courts.

The majority of security guarding services in Her Majesty's Courts Service are contracted out. Contractors currently provide 1,361 guards in courts. A further 50 staff are employed directly by HMCS.

House of Lords: Reform

Mr. Spellar: To ask the Secretary of State for Justice if he will publish the minutes of the cross-party working group on Lords reform. [197649]

Mr. Straw: I refer my right hon. Friend to my written answer given on 18 February 2008, *Official Report*, column 187W to the hon. Member for South Staffordshire (Sir Patrick Cormack).

Judges: Education

John Mann: To ask the Secretary of State for Justice how many judges were educated at *(a)* private and *(b)* comprehensive schools. [197322]

Mr. Straw: This information is not kept by either the Ministry of Justice or the Judicial Offices for England and Wales.

Members: Correspondence

Mr. Swayne: To ask the Secretary of State for Justice when he plans to reply to the letter of 11 February 2008 from Mr. C. M. Goodchild of Lymington on a divorce case. [198121]

Bridget Prentice: We do not appear to have received Mr. Goodchild's letter. A copy has been obtained and a reply will be sent to him as soon as possible.

National Offender Management Service

Mr. Austin Mitchell: To ask the Secretary of State for Justice what assessment he has made of the contribution of the National Offender Management Service to public safety since its inception. [196144]

Maria Eagle: Since its inception, the National Offender Management Service (NOMS) has developed and disseminated a range of operational guidance, practice and advice to assist frontline staff in managing offenders under statutory supervision in the community, including offenders managed under the Multi-Agency Public Protection Arrangements (MAPPA). The guidance to the MAPPA responsible authorities—the police, prison and probation services—assists them in the effective supervision of offenders convicted of the most serious sexual and violent offenders.

In addition, the roll-out of the offender management model has brought the benefits of end to end offender management to bear on the supervision of the most high risk offenders. And the introduction of ViSOR into prisons and probation has provided offender managers with significant new sources of information on which to assess and manage sexual and violent offenders.

Offenders: Housing

Ms Keeble: To ask the Secretary of State for Justice what the addresses are of the residential institutions run by ClearSprings on behalf of the National Offender Management Service for offenders and ex-offenders. [197048]

Mr. Hanson: ClearSprings do not provide hostels or institutions. They provide homes in normal residential accommodation for people who have been bailed by the Courts or released from prison on home detention curfew. It is not our practice to disclose the private addresses of defendants or offenders.

Offenders: Rehabilitation

Jenny Willott: To ask the Secretary of State for Justice (1) how much was spent on providing behavioural programmes for offenders *(a)* in custody and *(b)* serving community sentences in each of the last 10 years; and if he will make a statement; [196127]

(2) what funding has been allocated for the provision of behavioural programmes for offenders *(a)* in custody and *(b)* serving community sentences for 2008-09, broken down by funding source; and if he will make a statement. [196128]

Maria Eagle: The funding for the delivery of accredited offending behaviour programmes in custody is part of establishment baselines, therefore it is not possible to accurately disaggregate the cost of this work. The Prison Service is currently working on developing a costing process to provide more accurate costs for regime activities and interventions.

Additional funding was provided by the Government to expand the delivery of accredited offending behaviour programmes in custody as shown in the following table:

£ million

	Additional funding source		
	Comprehensive spending review	Crime reduction programme	Spending review 2000
1999-2000	7.3	0.7	—
2000-01	8.4	1.1	—
2001-02	8.9	1.5	—
2002-03	8.9	—	3.6
2003-04	8.9	—	11.6

Based on an estimated average cost per programme completion and the number of completions in 2006-07, we estimate that the cost of delivering accredited offending behaviour programmes in 2006-07 to be approximately £25 million. A similar amount will be spent in 2007-08.

In addition, governors and area managers may allocate funds from their budgets to support local initiatives or partnerships with outside organisations or the voluntary sector to address particular needs. This information is not recorded centrally.

Probation Boards fund the cost of providing behavioural programmes for offenders in the community through their grant as they see fit to meet their statutory duties. Data is only available on the budgeted cost of delivering programmes to offenders under probation supervision, which includes offenders on community sentences and on licence in the community following a custodial sentence. Probation Boards' budgeted spend on behavioural programmes is as follows:

£ million

2005-06	77
2006-07	85
2007-08	86.5

The requested information relating to expenditure for years leading up to 2005 is not recorded centrally.

Prisoners

Steve Webb: To ask the Secretary of State for Justice what the prison population was in each of the last 12 months in *(a)* all prisons and *(b)* open prisons. [197406]

Mr. Hanson: The following table gives the numbers of prisoners held in all open prisons in England and Wales at the end of each month since February 2007.

	2007											2008
	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan

All prison establishments	79,582	79,745	80,261	80,264	79,734	80,164	80,534	80,855	30,997	81,404	79,605	81,142

Note:
In addition to the establishments listed above Drake Hall, Moton Hall, Norwich, Reading and Wealstun prisons have small open units, but population data is not available at this level.

The figures for establishment totals are published monthly at the website:

http://www.justice.gov.uk/|publications/populationincustody.htm

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Mentally Ill

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of the prison population are currently held in (*a*) NHS and (*b*) independent sector secure mental health care places; and if he will make a statement. [196071]

Mr. Ivan Lewis: I have been asked to reply.

The information is not available in the format requested.

Offenders held in secure mental health care settings can be held under various articles of legislation and do not necessarily constitute part of the 'prison population'.

Probation: Wales

Mr. Llwyd: To ask the Secretary of State for Justice (1) what assessment he has made of the delivery of unpaid work requirements in probation areas in Wales against delivery timetables in 2005-06; [197797]

(2) what assessment he has made of the delivery of unpaid work requirements in probation areas in Wales against timetables in (*a*) 2006-07 and (*b*) 2007-08. [197902]

Maria Eagle: The National Offender Management Service monitors the commencement of unpaid work requirements in two ways:

(i) Probation areas are required to provide a quarterly report which monitors the average number of days which elapse between initial health and safety instruction and the first work session for offenders sentenced to unpaid work.

(ii) Probation areas also undertake monthly sample inspections of case files in order to monitor compliance with National Standards. For offenders sentenced to unpaid work, these inspections monitor the percentage of offenders for whom unpaid work was arranged within the National Standards requirement of 10 working days following sentence.

In the period October 2005 to March 2006, the average number of days which elapsed between initial health and safety instruction and commencement of work at the work placement for offenders in Wales was 5.5 days. In 2006-07, the figure was 6.2 days and from April 2007 to December 2007, it was 5.5 days. Data for the early part of 2005 and the full year 2007-08 is not available.

Sample case file inspections during 2005-06 found that, in 90 per cent. of files inspected, unpaid work was arranged within 10 working days following sentence by probation areas in Wales. In 2006-07 and from April 2007 to December 2007, the figure was 94 per cent. Data for the full year 2007-08 is not yet available.

Figures are obtained from large-scale administrative and monitoring systems which may be subject to data input errors.

Public Service: Misconduct

Mr. Hoban: To ask the Secretary of State for Justice when the last conviction for misconduct in public office took place; and how many such convictions took place in each of the last 10 years. [196651]

Maria Eagle: The available information held by my Department on defendants found guilty of misconduct in public office, from 1996 to 2006, is provided in the following table.

Number of defendants found guilty of misconduct in public office, England and Wales 1996-2006[1,2]

	Found guilty
1996	
1997	
1998	
1999	2
2000	2
2001	1
2002	2
2003	3
2004	10
2005	3
2006	12

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Data for 2007 will be available in November 2008.

Robbery: Greater London

David Davis: To ask the Secretary of State for Justice how many people were convicted of robbery in London in (*a*) 2000 and (*b*) 2006, broken down by age group. [196834]

Mr. Straw: The information requested on robbery convictions in London in 2000 and 2006 is provided in the following table.

Number of defendants found guilty of robbery by age group, Greater London 2000 and 2006[1,2,3]

Age group	*2000*	*2006*
10-11	3	8
12-14	146	384
15-17	558	1,141
18-20	276	417
21 and over	473	629
Total	1,456	2,579

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Comprises the Metropolitan and City of London police force areas.

Secure Training Centres: Restraint Techniques

Jenny Willott: To ask the Secretary of State for Justice (1) how many injuries sustained by juvenile and young adult offenders held in secure training centres during level *(a)* 1, *(b)* 2 and *(c)* 3 physical control in care restraints required hospital treatment in each year since 2000; and if he will make a statement; [197305]

(2) how many injuries were sustained by juvenile and young adult offenders held in each secure training centre during level *(a)* 1, *(b)* 2 and *(c)* 3 physical control in care constraints in each year since they were established; and if he will make a statement; [197307]

(3) how many times level *(a)* 1, *(b)* 2 and *(c)* 3 physical control in care restraints were used in each secure training centre in each year since they were established; and if he will make a statement. [197309]

Mr. Hanson: Young adult offenders are not placed in secure training centres or secure children's homes. The restraint techniques known collectively as physical control in care fall into three categories. Phase 1 restraints involve one member of staff only; phase 2, two members of staff; and phase 3, three members of staff.

The data collected centrally by the Youth Justice Board about use of restraint do not include details of which phase was used. That information could be obtained only by examining the individual incident reports held at each secure training centre, which would involve disproportionate cost.

Secure Training Centres: Violence

Jenny Willott: To ask the Secretary of State for Justice how many reports of *(a)* prisoner on prisoner and *(b)* prisoner on officer assaults were received from each (i) secure training centre, (ii) young offender institution and (iii) secure children's home in each year since 2000; and if he will make a statement. [197312]

Mr. Hanson: Young adult offenders are not placed in secure training centres or secure children's homes. The Youth Justice Board began collecting comparative data on assaults by trainees in under-18 young offender institutions, secure training centres and secure children's homes in April 2007. The following table provides this data for the period April 2007 to January 2008. For earlier data, collected by the Prison Service following different recording principles, and relating solely to young offender institutions, I refer the hon. Lady to the reply I gave on 28 November 2007, *Official Report*, column 495W to the hon. Member for North Shropshire (Mr. Paterson).

Establishment	*Assault: trainee on trainee*	*Assault: trainee on staff*
Secure training centres		
Rainsbrook	96	172
Hassockfield	93	57
Oakhill	521	152
Medway	136	233
Secure children's homes		
Aldine House	5	4
Atkinson Unit	62	47
Aycliffe	12	2
Barton Moss	16	12
Clayfields	76	64
Eastmoor	31	12
Gladstone House	13	8
Hillside Secure Centre	12	0
Kyloe House	0	0
Lincolnshire Secure Children's Home	43	65
Orchard Lodge	44	0
Red Bank	85	7
Sutton Place	2	8
Swanick Lodge	0	5
Vinney Green	64	34
Under-18 young offender institutions		
Ashfield	186	76
PARC	32	10
Brinsford	34	15

Eastwood Park	4	0
Foston Hall	4	9
New Hall	11	8

Sentencing: Young Offenders

Jenny Willott: To ask the Secretary of State for Justice what the average number of days was between arrest and sentence of persistent young offenders in England and Wales by *(a)* magistrate courts and *(b)* Crown courts in the latest period for which figures are available; and if he will make a statement. [197316]

Mr. Hanson: Overall statistics on Persistent Young Offenders (PYOs) are available from 1997 to 2007. However, figures split by court type, as requested in the question, are only available from 1999 onward.

These figures are derived from Police National Computer data, and used to monitor the pledge to halve the average time from arrest to sentence for dealing with PYOs in England and Wales from 142 days in 1996 to 71 days.

The following table shows the number of PYO cases heard, and the average time interval (in days) from arrest to sentence for dealing with these juvenile offenders in England and Wales. It also provides a breakdown based on whether the cases were heard in the magistrates courts or in the Crown court.

Average time from arrest to sentence for persistent young offenders

	All courts		*Magistrates courts*		*The Crown court*	
	Cases	*Days*	*Cases*	*Days*	*Cases*	*Days*
1997	16,010	141				
1998	18,605	125				
1999	21,151	108	18,851	96	2,271	212
2000	23,130	93	21,145	82	1,976	218
2001	25,393	76	23,752	68	1,632	196
2002	26,116	68	24,280	61	1,829	174
2003	26,083	66	24,480	58	1,588	187
2004	26,363	69	24,698	61	1,653	186
2005	27,037	68	25,498	60	1,526	191
2006	28,252	72	26,529	63	1,704	214
2007	30,683	65	28,904	57	1,769	206

Note:
The Police National Computer data can contain records where the type of court in which the case was heard was unknown. This missing information only impacts a very small minority of cases, and was more a feature of the data in the past than in the present. Thus, the sum of cases heard in magistrates courts and the Crown court in each year is less than all cases heard in England and Wales.

The Ministry of Justice (MOJ) publishes the data in the above table as National Statistics. Further information on persistent young offenders can be found on the dedicated page of the MOJ website:

www.justice.gov.uk/publications/averagetimearresttosentencepyo.htm

Written Answers to Questions

Wednesday 2 April 2008

PUBLIC ACCOUNTS COMMISSION

National Audit Office: Aviation

Mr. Maude: To ask the Chairman of the Public Accounts Commission how many tonnes of carbon dioxide equivalent were offset by the National Audit Office in 2006-07 for air flights. [198201]

Mr. Alan Williams: The National Audit Office has a green travel plan which encourages staff to reduce carbon dioxide emissions by considering their travel options and choosing environmentally friendly modes of transport when travelling to clients and to and from work. The Office also uses teleconferencing facilities which further reduce the need for travel.

The office does not currently purchase carbon offsets for its air or other travel and therefore offset no carbon dioxide in 2006-07.

The Office has recently awarded new contracts for the provision of travel services. These arrangements will provide improved data on the level of carbon emissions incurred by the Office and enable exploration of options to reduce emissions.

CULTURE, MEDIA AND SPORT

Arts: Expenditure

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what public expenditure on the arts in Wantage constituency in each year since 1997 was. [197898]

Margaret Hodge: The Arts Council has provided £239,633 in lottery funding, as follows:

	£
1997-98	25,600
1998-99	..
1999-2000	29,250
2000-01	41,371
2001-02	106,005
2002-03	..
2003-04	9,995
2004-05	..
2005-06	..
2006-07	23,000
2007-08	4,412

Creative Britain Apprenticeships

Anne Moffat: To ask the Secretary of State for Culture, Media and Sport what steps he plans to take to ensure the availability of Creative Britain apprenticeships throughout the country. [196758]

Margaret Hodge: My Department is already working with employers, sector skills councils, Trade Associations, the Learning and Skills Council and other Government Departments to ensure the provision of high quality places. For example, Creative and Cultural Skills are currently developing proposals for apprentices in live events and promotion, music business (recording industry), technical theatre (rigging, lighting and sound), costume and wardrobe, cultural and heritage venue operation and community arts.

The provision of apprenticeship places is a devolved matter. However the Sector Skills Councils, who engage with employers, operate within a UK wide context. Creative and Cultural Skills and sector skills councils for example, are in discussions with the Scottish Government to ensure that creative apprenticeships are developed in Scotland, based on employer demand.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196453]

Mr. Sutcliffe: The information requested for the Department for Culture, Media and Sport and its agency The Royal Parks, for the past 12 months, is contained in the table.

DCMS	*Administrative/secretarial*	*Junior/middle managers*	*Senior interim managers*
Monthly average number of staff	15	1	7
Average hourly rate (£)	13.28	30	115
Royal Parks			
Monthly average number of staff	11	1	0
Average hourly rate (£)	14.06	36.25	0

A more detailed breakdown could be supplied only at disproportionate cost.

National Lottery: Finance

Mr. Betts: To ask the Secretary of State for Culture, Media and Sport (1) what proportion of the cost of each national lottery ticket bought online goes towards *(a)* prize money, *(b)* good causes, *(c)* lottery duty, *(d)* operating costs and *(e)* profit for the national lottery operator; [198067]

(2) how the money received from national lottery tickets sold online is apportioned into *(a)* prize money, *(b)* good causes, *(c)* lottery duty, *(d)* operating costs and *(e)* profit for the national lottery operator. [198147]

Mr. Sutcliffe: National lottery ticket sales revenue is liable to lottery duty which is set by HM Treasury, currently at 12 per cent. The terms of the second licence to operate the lottery govern the way in which the remainder of the revenue is apportioned among prize money, good causes, retailer commissions and operator retentions (from which costs and profits are met). The second licence does not provide for this apportionment to be calculated on a game by game or sales channel by sales channel basis (the licence can be viewed on the National Lottery Commission website: www.natlotcomm.gov.uk <http://www.natlotcomm.gov.uk>). In particular, all relevant games are aggregated when calculating the appropriate contributions to the National Lottery Distribution Fund (NLDF) and Olympic Lottery Distribution Fund (OLDF).

LEADER OF THE HOUSE

Members: Offices

John Mann: To ask the Leader of the House pursuant to the answer of 18 December 2007, *Official Report*, column 1227W, on office facilities, how much was paid in office rent by hon. Members to each registered political party in 2006-07. [198053]

Helen Goodman: According to the Department for Resources, the figures for 2006-07 are as follows:

Party	*Amount paid (£)*
Conservative Party	737,995
Democratic Unionist Party	3,375
Labour Party	376,975
Liberal Democrats	186,682
Plaid Cymru	8,440
Scottish National Party	19,941
Total	1,333,408

NORTHERN IRELAND

Drugs: Children

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many children under the age of 16 years were arrested for possession of Class *(a)* A, *(b)* B and *(c)* C drugs in each district command unit in each of the last five years. [194752]

Paul Goggins: The following table details the number of children under the age of 16 years arrested for possession of Class A, B and C drugs, in each district command unit in each of the last five years.

As one person can be arrested for multiple offences, adding together the total number of persons arrested under each category does not equal the total number of persons arrested.

Cannabis was reclassified from Class B to Class C on 29 January 2004, hence the decrease of Class B and the increase of Class C arrests for the period 2004-07.

Repossession Orders

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many homes were repossessed in Northern Ireland in each of the last five years. [197278]

Mr. Hanson: I have been asked to reply.

Repossessions following a court order are dealt with by the Enforcement of Judgments Office (EJO) of the Northern Ireland Court Service.

The following table sets out the number of repossession applications lodged with EJO and the number which have been resolved by way of eviction over the last five years.

	Repossession applications lodged with EJO	Repossession applications finalised by way of eviction
2003	914	152
2004	945	200
2005	972	188
2006	1,002	184
2007	923	128
Total	4,756	852

In addition to those cases in which the EJO repossess the property and give vacant possession to the applicant, a larger number of cases are resolved by agreement reached between the parties or where the occupant vacates the property voluntarily.

WALES

National Assembly

8. **David T.C. Davies:** To ask the Secretary of State for Wales what recent discussions he has had with the First Minister on bringing forward legislative proposals to increase the number of Members of the National Assembly for Wales. [197232]

Mr. Paul Murphy: None.

Economic Inactivity

9. **James Duddridge:** To ask the Secretary of State for Wales what recent discussions he has had with the First Minister on economic inactivity in Wales. [197233]

Huw Irranca-Davies: The Secretary of State has regular discussions with the First Minister on all issues affecting Wales, including the economy and employment.

Child Poverty

10. **Mrs. Betty Williams:** To ask the Secretary of State for Wales if he will make a statement on measures in Budget 2008 designed to address child poverty in Wales. [197234]

Mr. Paul Murphy: The excellent measures announced by the Chancellor in his Budget will underpin our commitment to halve child poverty by 2010 and totally eradicate child poverty by 2020.

Flood Defences

11. **Miss McIntosh:** To ask the Secretary of State for Wales what discussions he has had with the First Minister on the condition of flood defences in Wales. [197235]

Huw Irranca-Davies: Regular discussions take place with the First Minister on such matters. The Welsh Assembly Government, local authorities and the Environment Agency are actively involved in flood defence planning within Wales.

Research Funding

12. **Ian Lucas:** To ask the Secretary of State for Wales if he will hold discussions with the Secretary of State for Innovation, Universities and Skills on UK Government funding for research in Wales. [197236]

Mr. Paul Murphy: I have regular discussions with ministerial colleagues at the Department for Innovation, Universities and Skills to discuss a variety of issues affecting Wales.

Welsh universities have a vital role to play in meeting the challenges of the future, not only in increasing the knowledge economy of the region but also in encouraging entrepreneurship and innovation.

Cross-border Health Services

13. **Ben Chapman:** To ask the Secretary of State for Wales what recent discussions he has had with the Welsh Assembly Government on consultation on cross-border health service issues. [197237]

Huw Irranca-Davies: My right hon. Friend and I have regular discussions with the Welsh Assembly Government on these matters. These discussions include the protocol currently in place to underpin cross-border health delivery arrangements.

Offender Management

14. **Mr. Vara:** To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Justice on offender management in Wales. [197238]

Huw Irranca-Davies: The Government remain committed to ensuring efficient offender management. We have committed a further £40 million towards more effective community sentences; are providing increased prison capacity with an extra £1.2 billion to deliver a further and extended building programme that will create 15,000 places in England and Wales by 2014, 330 of which will be at Parc Prison in Bridgend by 2011.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Co-operatives

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what response he plans to make to the French proposal to strengthen agricultural sectors by promoting co-operative organisations. [198108]

Jonathan Shaw: The French proposals were discussed under any other business at the EU Agriculture and Fisheries Council meeting on 17 March. I expressed interest in exploring ideas about how farmers could be competitive in global markets through greater collaboration, but did not share the French conclusions about the need for new EU measures.

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs on what codes of practice outlined in the Animal Welfare Act 2006 his Department is working; and when they are expected to be published. [197846]

Jonathan Shaw: The information requested is not yet available as the departmental business planning process for the forthcoming financial year has still to be finalised.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the size was of the Departmental team dealing with codes of practice relevant to the Animal Welfare Act 2006 in *(a)* 2004, *(b)* 2005, *(c)* 2006 and *(d)* 2007; and what the size of the team is now. [197847]

Jonathan Shaw: Precise figures for the number of staff working on codes of practice are difficult to estimate as this work does not require full-time input from staff. However, work on an individual code of practice under the Animal Welfare Act typically involves the input of one veterinary adviser and one higher executive officer plus administrative support.

Animals: Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements there are to deal with circumstances where a devolved Administration disagrees with his Department's policy or actions in the event of an animal disease outbreak. [197428]

Jonathan Shaw: Disease control functions are a devolved matter, but DEFRA and the devolved Administrations all work to EU rules. This aligns our policies and minimises any serious differences. During an animal disease outbreak, consultations and discussions take place at all levels to ensure that coherent and effective measures operate across the UK.

Bees

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the number of queen bees which have been imported in each of the last three years; and if he will make a statement. [197462]

Jonathan Shaw *[holding answer 1 April 2008]:* Importers of queen bees from third countries are required to notify DEFRA about the intended import and then must send the cages and accompanying worker bees to the National Bee Unit for analysis. In the last three calendar years DEFRA was notified of the following imports of queens:

	Number
2005	2,385
2006	2,435
2007	3,097

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the UK bee population *(a)* in each year since 1997 and *(b)* in each of the next 10 years; and if he will make a statement. [197595]

Jonathan Shaw: On the basis of the number of colonies estimated by ADAS in their 2001 survey, there are around 273,000 managed honey bee colonies in the UK. In population terms, there are approximately 5 billion honey bees in winter (20,000 per colony), rising to some 16 billion in the summer (60,000 per colony). Numbers of colonies may have declined in recent years. The numbers in each of the next 10 years will depend

on the number of beekeepers and their stockmanship and colony husbandry skills, including effective pest and disease management. No estimate has been made of the numbers of bumble bees or solitary bees etc.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has received a research plan from Rothamstead and Warwick Horticulture Research International on bee health; and if he will make a statement. [197672]

Jonathan Shaw: DEFRA has not received any such research plan. Short descriptions of two research projects proposed by the two organisations were included in a "Beekeeping Research" paper produced by the British Beekeepers' Association.

Bees: Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he expects the small hive beetle to become a threat to UK beehives; what measures he is taking to prevent the small hive beetle entering the UK; and if he will make a statement. [197591]

Jonathan Shaw: The possibility of the small hive beetle arriving in the UK is a recognised threat to the health of honey bees. To help mitigate this threat, DEFRA has developed a contingency plan in consultation with stakeholders. Additionally, DEFRA is funding research into a "lure and kill" monitoring system for rapid deployment should the beetle be detected. To promote early detection, publicity material has been distributed to help raise individual beekeepers' awareness of the risk. Plant health import inspectors and horticultural marketing inspectors have also been alerted, as one possible entry pathway is imported fruit. DEFRA is also pressing the European Commission to introduce tighter contingency arrangements to reduce the risk of spread should the beetle be introduced into another member state.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of threats to the UK bee population; and if he will make a statement. [197596]

Jonathan Shaw: The importance of the contribution of honey bees to sustainable agriculture is well recognised. For this reason, DEFRA continues to fund a programme of controls and education for beekeepers through the National Bee Unit and the Bee Inspectorate. To further this, work DEFRA will shortly be consulting on a draft Bee Health strategy. The main aim of the strategy will be to focus future action by both DEFRA and other key stakeholders, especially individual beekeepers, on the main threats facing our honey bees.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many beehives were damaged by the varroa mite in each year since 1997; and if he will make a statement. [197598]

Jonathan Shaw: By 1995 virtually all apiaries in England had some degree of varroa infestation. While there may be colonies in isolated areas, which have yet to be infested by varroa, the pest is virtually ubiquitous. Every colony is damaged by varroa to varying degrees once it becomes infested. Uncontrolled it will kill colonies and that is why it is important for beekeepers to understand the biology of the mite, know the levels of varroa populations and how to treat their colonies to keep the mite below damage thresholds.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to prevent the spread of the varroa mite; and if he will make a statement. [197599]

Jonathan Shaw: Despite the implementation of an extensive control programme, varroa is now endemic and is no longer notifiable under EC law. However, while it cannot be completely eradicated, beekeepers can keep productive bees despite its presence, providing they operate effective controls The best way of tackling varroa is by means of a careful programme of integrated pest management and DEFRA has published detailed advice for beekeepers on this. Experience has shown that it is effective.

A comprehensive advisory leaflet is available from the National Bee Unit.

The Bee Health Strategy, which will shortly be published for consultation, will address the issue of varroa and whether control should have greater priority compared, for example, to threats for exotic pests.

Bees: Diseases

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will make a statement on bee colony collapse; [197593]

(2) what recent research he has commissioned into colony collapse disease affecting bees; and if he will make a statement. [197594]

Jonathan Shaw: DEFRA is aware of the press reports last year about the serious situation in the USA in respect of cases of abnormally high levels of colony loss, described as Colony Collapse Disorder (CCD). While some common factors have been identified, such as high levels of Israeli Paralysis Virus, the cause of colony collapse has yet to be identified.

Scientists and inspectors at DEFRA's National Bee Unit (NBU) are continuing to monitor the situation in the USA. To date, we do not have evidence to suggest that there is something similar happening in the UK.

The limited cases of high losses which occur here, for which there is no ready explanation such as poor management or failure to control the varroa mite, are investigated in depth as part of the NBU's horizon-scanning work.

National Bee Unit: Finance

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding he proposes to provide to the National Bee Unit in each of the next five years; and if he will make a statement. [197597]

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what allocations were made to future funding for bee health in the Comprehensive Spending Review. [197461]

Jonathan Shaw *[holding answer 1 April 2008]:* Detailed allocations have still to be finalised. The expectation is that funding for DEFRA's ongoing programme of support for bee health will be around the same level as previously. In the event of a need to respond to new serious threats, there are contingency arrangements in place for additional funding to be made available.

Bluetongue Disease

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the likelihood of cases of bluetongue arising in 2008 and subsequent years; [197992]

(2) what assessment he has made of the likelihood of bluetongue overwintering in the UK. [197995]

Jonathan Shaw: Bluetongue disease is spread from animal to animal by midges. During the winter, midge activity is at its lowest, and low temperatures mean that the virus is unlikely to replicate in the midges. As temperatures increase and midges become more active, it is likely that disease will re-emerge this year.

Experiences in northern Europe in 2007 showed that the virus reappeared in spring, with clinical cases being observed in June/July. Given our similar climate, we are preparing on the basis of a similar scenario in the UK this year.

The implementation of a vaccination programme could significantly reduce bluetongue virus circulation and limit its geographical distribution, contributing to its control and potential eradication at some point in the future. However, the future is uncertain and it is acknowledged that the UK may have to live with the threat of bluetongue for some time to come.

Further information about our control and vaccination strategy is available on the DEFRA website.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects a bluetongue vaccination programme to begin. [197996]

Jonathan Shaw: DEFRA placed an order with pharmaceutical company Intervet to supply 22.5 million doses of BTV-8 vaccine for use in England and Wales. Intervet has indicated that the first batches of vaccine are expected for delivery in May 2008.

Bovine Tuberculosis: Finance

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* the Chancellor of the Exchequer, *(b)* other Treasury Ministers and *(c)* Treasury civil servants on funding for tackling bovine tuberculosis. [197904]

Jonathan Shaw: There have been no recent discussions with my right hon. Friend the Chancellor of the Exchequer, other Treasury Ministers or officials on funding for tackling bovine TB.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will make a cost-benefit assessment of the cattle-based control options recommended by the Independent Scientific Group on bovine tuberculosis; [197905]

(2) when he will make a substantive response to the recent Environment, Food and Rural Affairs Committee Report on the final report of the Independent Scientific Group on bovine tuberculosis. [197906]

Jonathan Shaw: We are grateful to both the Independent Scientific Group on Cattle TB (ISG) and the Environment, Food and Rural Affairs Committee for their respective reports on bovine TB.

We are committed to making decisions on bovine TB control policies for the future which are based on the evidence available. There is a great deal to consider in the ISG and Select Committee's reports concerning both cattle-based TB control measures and the potential role of badger culling in controlling TB in cattle.

Once we have made a decision on the way forward we will respond to the Environment, Food and Rural Affairs Committee.

Cattle

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 19 March 2008, *Official Report*, column 1123W, on cattle, if he will make it his policy to collect information on the number and proportion of cows in the national herd which are being kept in zero-grazed conditions. [197110]

Jonathan Shaw: There are currently no plans to collect such information.

Climbing

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the contribution to the rural economy of *(a)* mountaineering and *(b)* hill walking. [197466]

Jonathan Shaw: DEFRA has not specifically assessed the contribution to the rural economy of hill walking or mountaineering. However, Natural England has published the results of a survey of leisure day visits in England in 2005 and these do provide an estimate of the value of walking, hill walking and rambling in rural areas. The estimated value, in 2005, of walking, hill walking and rambling in the countryside and along the coast was £1.325 billion.

Not all of this expenditure was made in the rural economy as, for example, many of the visits started from urban areas and involved spend on petrol and ticket fares. Also, this figure does not include overnight spend on accommodation, or spend by overseas visitors. Although mountaineering activity was captured in this survey, the numbers of participants interviewed as part of the telephone survey of 46,000 households was too low to make a statistically reliable estimate of spending specifically associated with this activity.

Youth Hostels: Finance

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding his Department gave to capital infrastructure projects for youth hostels in each of the last 30 years. [197664]

Jonathan Shaw: DEFRA was created in June 2001 and it does not have responsibility or provide direct funding for youth hostels.

Ivory: Trade

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy to oppose the application from China to the Convention on International Trade in Endangered Species to become a trading partner for the agreed ivory stockpiles; and if he will make a statement. [198349]

Joan Ruddock: Trading nation status can only be granted once all the conditions contained in Conference Resolution 10.10 (Rev14) have been complied with. The UK, along with our EU colleagues, will be looking at all information relevant to those conditions before coming to any conclusions. We will take into account all the information available to us, including that from Convention on International Trade in Endangered Species Secretariat visits, third country visits and reports from non-governmental organisations, before taking any decision to approve or oppose China as a trading partner.

Laboratories: Capital Investment

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what capital funding was provided for *(a)* Pirbright and *(b)* Weybridge laboratories in the last five years; and what future capital funding is planned. [197429]

Jonathan Shaw: Under a ministerial agreement made with the then Department of Trade and Industry, now the Department for Innovation, Universities and Skills, DEFRA agreed to provide a total of £67 million capital grant in aid funding during the period 2004-13 for the redevelopment of the Institute of Animal Health laboratory and Pirbright. To date the value of the funding DEFRA has provided is:

	£
2004-05	1,195,000
2005-06	3,700,000
2006-07	6,300,000
2007-08	6,537,000

DEFRA capital funding for the Veterinary Laboratories Agency located at Weybridge for the last five years and estimated funding for the current and future years is:

	£
2003-04	32,164,000
2004-05	16,993,000
2005-06	20,419,000
2006-07	18,034,000
2007-08	[1]19,000,000
2008-09	[1]10,000,000
2009-10	[1]2,000,000
2010-11	[1]2,000,000

[1] Estimated

Landfill

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how much waste was sent to landfill outside the region of origin in the last period for which figures are available, broken down by region of reception. [197397]

Joan Ruddock: The following tables provide data on inter-regional movements of waste for disposal to landfill in 2006, which is the most current data set available. The data relate to all types of waste deposited in landfill, including inert, hazardous and non-hazardous wastes.

Environment Agency data come from site input returns provided by landfill operators. Providing information on the origin of waste is not mandatory. This is reflected in the 'not codeable' column, which shows the quantity of waste that does not have an identified origin.

The data only report on inputs from Scotland, Northern Ireland and 'Outside UK' since the Environment Agency does not have comparable information on deposits in those areas.

Inter-regional movements of waste for landfill disposal in 2006

Environment Agency Operator Site Returns

Packaging

Judy Mallaber: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the whole-life carbon footprint of *(a)* paper and *(b)* plastic bags. [194606]

Joan Ruddock: The Environment Agency is carrying out a study to consider the environmental impacts of a range of carrier bags (including disposable plastic carrier bags and bio-degradable alternatives) over their entire life cycle, from raw material extraction through to product manufacture, use and final disposal. The study is due to report later this year.

Recycling: Finance

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding was provided to local authorities to support recycling activities in each year since 1997. [197408]

Joan Ruddock *[holding answer 31 March 2008]:* The main sources of funding for local authorities' waste management services are revenue support grant (RSG) and national non-domestic rates (NNDR), distributed by central Government, and council tax. It is for local authorities to decide what proportion of this funding to invest in waste management services, including recycling. Other funding made available to authorities in England for waste management since 1997 is shown in the following table.

Funding provided

Scheme	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*£ million 2007-08*

Seals: Hunting

Kerry McCarthy: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the European Food Safety Authority's December 2007 report on the animal welfare aspects of seal hunting. [198668]

Jonathan Shaw: Seal management is a devolved matter. My Department has noted the findings and

recommendations of the European Food Safety Authority's December 2007 report Animal Welfare Aspects of the killing and skinning of seals.

There is no commercial or recreational hunting of seals in England. Government policy is to permit only limited local management of seals where specific interactions between individual seals and particular fisheries or fish farms may result in serious damage to fisheries or property.

The Government fully implement the requirements of the EU Habitats Directive, including prohibiting the use of certain methods of killing seals. The limited seal management undertaken is broadly in line with the relevant general recommendations of the EFSA report.

Sugar: Subsidies

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has accepted the application by British Sugar for restructuring aid to the sugar industry in respect of the proportion of aid to be distributed to the contractor industry. [197403]

Jonathan Shaw *[holding answer 31 March 2008]:* The application for restructuring aid submitted by British Sugar has been determined to be eligible and the European Commission informed. The proportion of the processor's aid to be reserved for beet growers and machinery contractors affected by the restructuring is set by the appropriate Council regulation at 10 per cent. How this part of the aid is allocated between the two groups is for individual member states to decide on the basis of objective criteria determined after consultation with the interested parties.

DEFRA is urgently taking this forward. Eligible beet growers will also share in an additional payment in respect of the tonnage of beet quota renounced.

COMMUNITIES AND LOCAL GOVERNMENT

Aerials

Keith Vaz: To ask the Secretary of State for Communities and Local Government how many mobile phone companies share masts; what arrangements are in place to encourage mobile phone companies to share masts; and if she will make a statement. [195299]

Mr. Iain Wright: The five UK mobile network operators all participate in mast sharing arrangements with each other and with other companies such as Arqiva, which owns a number of sites.

Planning Policy Guidance Note 8: Telecommunications makes clear that applicants for new masts should provide evidence that they have explored the possibility of erecting antennas on an existing building, mast or other structure and that such evidence should accompany any prior approval or planning application made to the local planning authority. If the evidence regarding the consideration of sharing existing masts and sites is not considered satisfactory, the planning authority, or the Secretary of State on appeal, may be justified in refusing prior approval or planning permission for the development. Site sharing may not always be possible or the most appropriate environmental solution in every case. The ability to site share may be limited by a range of possible factors including the extent of the coverage required, topographical features and reception interference issues.

The mobile operators have established a computer program which monitors site-share usage and is used for making site-share requests between each other.

Arson

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many deliberate *(a)* property and *(b)* vehicle fires were attended by each fire and rescue service in each year since 1997. [198061]

Mr. Dhanda: Information on the number of deliberate property (i.e. dwellings and other buildings) and vehicle fires, in England, as attended by Fire and Rescue Services, from 1997 to 2006 (the latest calendar year for which information is available), is displayed in Table 1. Data for 2006 are provisional and subject to change.

[1] Excluding incidents not recorded during periods of industrial action in 2002 and 2003
[2] Provisional

Citizen's Advice Bureau: Finance

Danny Alexander: To ask the Secretary of State for Communities and Local Government how much funding her Department provided for the citizen's advice bureau in each of the local housing allowance pathfinder areas to support money advice services. [181374]

Mr. Timms: I have been asked to reply.

The DWP has paid out around £59 million for the overall implementation of the local housing allowance in the local authorities. This money was for a range of implementation activity. The payments were made in August 2007 and included funds for money management advice, IT costs, training, communications and advertising.

As each local authority decides whether to provide in house money advice services or to contract this out, it is not possible to provide a breakdown of how much funding was used by individual local authorities in support of the services provided by citizen's advice bureau.

Council Tax: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 19 February 2008, *Official Report*, column 613W, on council tax: valuation, what steps were taken as a result of the consequentials identified following the data enhancement that took place in the Council Tax Revaluation 2007 programme; and what estimate the group valuation officers made of the number of properties involved in the programme. [193917]

John Healey: No detailed analysis was undertaken and any action was dealt with as part of the normal duty to maintain the current council tax lists.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 19 February 2008, *Official Report*, column 613W, on council tax: valuation, how many consequentials following data enhancement were identified by the Valuation Office Agency; and what actions her Department has taken as a result of such identifications. [193976]

John Healey: The issue was one of potential banding changes as a consequence of data enhancement. No detailed analysis was undertaken and they were dealt with as part of the normal duty to maintain the current council tax lists.

Disabled Facilities Grants

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many disabled facilities grant awards were made in each of the last five years. [196987]

Mr. Iain Wright: The disabled facilities grant is a mandatory grant used to provide adaptations to the homes of disabled people. Local authorities in England report their annual disabled facilities grant expenditure and the number of recipients of disabled facilities grant through the housing strategy statistical appendix. The 2006-07 housing strategy statistical appendix report was recently published. The following table sets out the number of disabled facilities grant recipients in England from 2002-03 to 2006-07:

	Number of recipients
2002-03	29,314
2003-04	34,925
2004-05	38,552
2005-06	34,955
2006-07	37,266

Mr. Harper: To ask the Secretary of State for Communities and Local Government pursuant to the statement of 25 February, *Official Report*, columns 66-67WS, on the national strategy for housing in an ageing society: disabled facilities grant (funding), what guidance will be issued to local authorities to ensure that funding provided for the disabled facilities grant (DFG) is spent on DFG related purposes once the ring fencing for this funding is removed. [196997]

Mr. Iain Wright *[holding answer 27 March 2008]:* The removal of the ringfence in respect of the funding for disabled facilities grant will be piloted in a number of local authorities from 2008-09. The pilots will be evaluated and lessons learnt through this process. This will inform good practice guidance for all other local authorities before the ring fence is removed in 2010-11.

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many disabled facilities grant awards have been made at the maximum level of £25,000 in the last five years. [196998]

Mr. Iain Wright *[holding answer 27 March 2008]:* The disabled facilities grant is a mandatory grant used to provide adaptations to the homes of disabled people. Local authorities in England report their total annual disabled facilities grant expenditure and the number of recipients of disabled facilities grant through the housing strategy statistical appendix. This does not include information on the individual level of grants awarded.

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many disabled facilities grant awards the Government estimate will be made at the new maximum level of £30,000 in the three years after its introduction in April 2008; and what the effect on costs will be. [196999]

Mr. Iain Wright *[holding answer 27 March 2008]:* In 2004, the Government launched a cross departmental review of the disabled facilities grant programme. Bristol university were commissioned to carry out an independent study of the programme and make recommendations for change. One of the recommendations for change was to increase the maximum level for a disabled facilities grant. Bristol estimated that increasing the limit from £25,000 to £30,000 would impact on the national budget in the region of £4.3 million. It is estimated that this increase will affect in the region of 1,000 grant applications each year. The national budget for the disabled facilities grant programme increases by £25 million in 2008-09 and then by £10 million in each of the following two years. This increase meets the cost of the changes made to the programme as well as helping to address the continued growth in demand for adaptations.

Mr. Harper: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 25 February 2008, *Official Report*, columns 66-67WS, on the national strategy for housing in an ageing society: disabled facilities grant (funding), how many disabled facilities grant awards the Government estimate will be made in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [197107]

Mr. Iain Wright: The disabled facilities grant is a mandatory grant used to provide adaptations to the homes of disabled people. Local authorities in England report their annual disabled facilities grant expenditure and the number of recipients of disabled facilities grant through the housing strategy statistical appendix.

The figures provided by the 2007 housing strategy statistical appendix estimates a total of 42,014 will receive disabled facilities grants in 2008-09. The Department does not hold estimated numbers beyond 2008-09.

Energy Performance Certificates: Complaints

Angela Browning: To ask the Secretary of State for Communities and Local Government what complaints procedures are available to those paying for energy performance certificates. [193042]

Caroline Flint *[holding answer 10 March 2008]:* Details of the complaints procedure available to those paying for energy performance certificates are set out in the accreditation scheme standards for Domestic Energy Assessors (DEAs) and Commercial Energy

Assessors (CEAs) respectively. A copy of the accreditation scheme standards for DEAs is available at:

http://www.communities.gov.uk/documents/planningandbuilding/pdf/319273

The accreditation scheme standards for CEAs are currently being updated. They will be published on the CLG website shortly.

Fire Services: Manpower

Paul Holmes: To ask the Secretary of State for Communities and Local Government how many fire-fighters there were in each local authority area in the East Midlands in each year since 1997. [187034]

Mr. Dhanda: Available information, for each Fire and Rescue Service area within East Midlands, is shown as follows:

Firefighters[1] in East Midlands 1997-2006

	Derbyshire	Leicestershire	Lincolnshire	Northamptonshire	Nottinghamshire	Total East Midlands
1997	841	701	628	520	921	3,611
1998	859	723	588	503	891	3,564
1999	836	710	662	518	923	3,649
2000	863	718	682	517	922	3,702
2001	834	730	674	517	930	3,685
2002	846	701	682	534	930	3,693
2003	808	696	690	535	945	3,674
2004	832	694	716	531	936	3,709
2005	829	739	701	539	888	3,696
2006	805	672	724	517	911	3,629

[1] Includes all roles of fire officers including chief officers.

Numbers of firefighters can fluctuate when firefighters retire and are not immediately replaced. These figures provide a snapshot of figures at one point during the year.

Flood Control: Finance

John Mann: To ask the Secretary of State for Communities and Local Government what criteria her Department will use for allocating European Union solidarity flood funding. [198396]

John Healey: The recommendation to award the UK funding from the European Union Solidarity Fund to assist with recovery from the floods of 2007 was approved by the European Union Budgetary Committee on 28 February 2008. We are currently working alongside the European Commission to draft the implementation agreement which will allow the money to be paid to the UK, and we expect to receive the money in spring.

The nature of the EUSF is that it is to reimburse emergency operations undertaken by public bodies, including central Government.

Regulations governing the EUSF state that it can only be spent on works in the following four categories:

immediate restoration to working order of infrastructure and plant in the fields of energy, water and waste water, telecommunications, transport, health and education—in most circumstances costs relating to energy, water, waste water and telecommunications will not be covered as these costs are borne by the private utilities companies;

providing temporary accommodation and funding rescue services to meet the immediate needs of the population concerned;

immediate securing of preventive infrastructures and measures of immediate protection of the cultural heritage; and

immediate cleaning up of disaster-stricken areas, including natural zones.

Home Information Packs

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average amount of time taken for a conveyancing search to be completed in *(a)* Milton Keynes unitary authority and *(b)* England, (i) before the introduction of the home improvement pack legislation and (ii) after the introduction of the legislation. [197340]

Caroline Flint *[holding answer 31 March 2008]*: My Department does not hold the information in the form requested. Based on our survey of local authority property searches services of April 2007, we estimate that on average, property searches took five days in England. As part of this survey, Milton Keynes unitary authority reported an average time of seven days.

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government how many *(a)* home information packs and *(b)* home condition reports have been commissioned to date. [198259]

Mr. Iain Wright *[holding answer 1 April 2008]*: The commercial and private nature of a home owner's decision when to place their property on the market for sale means this information is not available in a robust form. We therefore do not hold this information centrally in the format requested.

Housing: Disabled

Joan Ryan: To ask the Secretary of State for Communities and Local Government how much was spent by the London borough of Enfield on improving homes for people with disabilities in each of the last three years. [196788]

Mr. Iain Wright: The disabled facilities grant is a mandatory grant used to provide adaptations to the homes of disabled people. Local authorities in England report their annual disabled facilities grant expenditure through the housing strategy statistical appendix. The 2006-07 housing strategy statistical appendix report was published recently. The 2004-05 to 2006-07 expenditure by the London borough of Enfield is provided in the following table. Communities and Local Government provide 60 per cent. of the value of the disabled facilities grant to local authorities. Local authorities fund the remaining 40 per cent. from their own resources. Expenditure figures for 2007-08 are not yet available.

The following table sets out disabled facilities grant expenditure for the London borough of Enfield.

	2004-05	2005-06	£ 2006-07
Total expenditure	1,860,000	1,203,000	1,689,000
CLG contribution	734,000	844,000	915,000

Neighbourhood Renewal Fund

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of each report on the Neighbourhood Renewal Fund prepared by each of the Government Offices for the Neighbourhood Renewal Unit. [193774]

John Healey: Government Offices do not systematically prepare such reports, although information on the Neighbourhood Renewal Fund may form part of Local Strategic Partnership reporting.

WORK AND PENSIONS

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Work and Pensions what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196578]

Mr. Timms: Contracts awarded to the suppliers *(a)* to *(e)* are listed in the following table. Details of contracts awarded to other consultancy firms *(f)* can be provided only at disproportionate cost.

Month	Supplier	Purpose	Value (£)
2007			
April	PWC	Analysis, evaluation and advice on CSA debt	139,334

February	Deloitte	Risk management support to RAD	50,000
March	PWC	Support to conduct equal pay audit	21,100

Incapacity Benefit

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people received incapacity benefits or severe disablement allowance on the grounds of dependency on (*a*) drugs and (*b*) alcohol in each year since 1997 for which information is available. [185923]

Mrs. McGuire: The Government's drugs strategy was published on 27 February 2008. It stresses the need for the benefit system to support re-integration and personalisation. We will ensure that it provides the right level of support, and also creates incentives for people with drug problems to move towards treatment.

We will put in place arrangements which require drugs misusers on benefits who are not already in treatment to attend a discussion with an appropriate specialist treatment provider or partner organisation.

Entitlement to incapacity benefit is not linked to any specific diagnosis or condition. Entitlement, which is assessed by the personal capability assessment, depends on the effect that a person's condition has on their ability to carry out a number of activities relevant to work. Most people with drug or alcohol dependency also have other conditions, such as mental illness; and it is these other conditions which result in entitlement to benefits.

We do record the diagnosis of incapacity that is written on a claimant's medical certificate. The table shows the number of people receiving incapacity benefits whose recorded diagnosis includes drug or alcohol dependency.

Working age incapacity benefit/severe disablement allowance claims which includes a recorded diagnosis of alcoholism or drug abuse from the claimant's medical certificate

Number as of May	Alcoholism	Drug abuse	Alcoholism as proportion of caseload	Drug Abuse as proportion of caseload
1997	26,800	21,900	1.03	0.84
1998	29,800	25,300	1.13	0.96
1999	32,500	27,900	1.23	1.05
2000	35,580	30,950	1.32	1.15
2001	38,660	36,230	1.40	1.32
2002	41,040	40,690	1.48	1.47
2003	43,420	43,890	1.57	1.58
2004	45,940	46,320	1.66	1.66
2005	47,740	47,980	1.74	1.75
2006	49,200	48,550	1.83	1.81
2007	51,410	49,890	1.94	1.89

Notes
1. May 1997 to May 1999 (inclusive) numbers are uprated to WPLS totals and rounded to the nearest hundred.
2. May 2000 to May 2007 (inclusive) numbers are rounded to the nearest 10.
3. Totals may not sum due to rounding.
4. May 1997 to May 1999 (inclusive) numbers are based on a 5 per cent. sample, and are therefore subject to a degree of sampling variation.
5. These figures should be used as a guide to the current situation only.
6. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.

Medical Examinations: Sight Impaired

Dr. Iddon: To ask the Secretary of State for Work and Pensions whether all registered blind people are required to undertake a personal capability assessment. [195534]

Mr. Timms: Registered blind people are treated as meeting the threshold of incapacity for benefit purposes and are exempt from the personal capability assessment process.

New arrangements will apply when the work capability assessment for the Employment and Support Allowance is introduced in October this year.

Mineral Waters

Mr. Peter Ainsworth: To ask the Secretary of State for Work and Pensions how many litres of bottled water were purchased by his Department in each of the last three years; and if he will make a statement. [191249]

Mrs. McGuire: The Department for Work and Pensions currently has a single contract to supply DWP offices with water coolers, bottled water and associated services and equipment. Bottled water may also be provided for business meetings but is sourced from a variety of contracts and is not accounted for separately.

From April 2006 to March 2007, DWP purchased 3.4 million litres of bottled water. So far this year, from April 2007 to January 2008, DWP has purchased 2.9 million litres. Information prior to these dates is not available.

DWP is committed to phase out the use of bottled water for all business meetings and replace it with tap water. We are aiming to have this process in place by the summer of 2008.

New Deal for Disabled People

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many people have taken part in the new deal for disabled people *(a)* nationally and *(b)* in West Lancashire. [196857]

Mr. Timms: Nationally, 271,180 people started the new deal for disabled people between July 2001 and August 2007. In the same period, 490 people started the programme in the West Lancashire constituency.

Pensioners

Dr. Kumar: To ask the Secretary of State for Work and Pensions what assessment he has made of the effects of measures introduced by his Department since 1997 on pensioners in *(a)* the UK, *(b)* the North East, *(c)* the Tees Valley and *(d)* Middlesbrough, South and East Cleveland. [198003]

Mr. Mike O'Brien: Latest available information shows that average net incomes of pensioner households in the UK increased by 29 per cent. between 1996-97 and 2005-06, and average net incomes of pensioner households in the North East increased by 29 per cent. between 1994-95 to 1996-97 and 2003-04 to 2005-06. Information for the Tees Valley and Middlesbrough, South and East Cleveland is not available.

The Government have introduced a number of measures since 1997 to help older people to enjoy a better standard of living, most notably the introduction of the minimum income guarantee and its successor pension credit. We have successively raised the pension credit standard minimum guarantee by earnings in every year since its introduction. For 2008 the standard minimum guarantee will rise to £124.05—an increase of 4.2 per cent.—more than keeping pace with earnings and prices.

In addition we have introduced winter fuel payments for those aged 60 and over, including an extra one-off payment for winter 2008-09 of £50 for households with someone aged 60 to 79 and £100 for those with someone aged 80 or over announced in the Budget on 12 March 2008.

We have also introduced free television licences for people aged over 75 and from April 2008 those over 60 will be entitled to free off-peak bus travel in England. We have committed to increasing the basic state pension by earnings by 2012, subject to affordability and the fiscal position, or by the end of the next Parliament.

As a result of the personal tax and benefit changes that we have introduced pensioner households nationally will be around £1,500 a year better off in 2008-09 than they would have been under the 1997 system. The poorest third of pensioner households will on average be around £2,100 a year better off.

Our new public service agreement 'Tackle poverty and promote greater independence and wellbeing in later life' demonstrates our commitment to ensure that the specific needs of the older population are given due priority.

Social Security Benefits: Recipients

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many people in *(a)* London and *(b)* England in receipt of (i) jobseeker's allowance and (ii) incapacity benefit have been claiming benefit continuously for (A) more than three months, (B) more than six months, (C) more than a year and (D) more than two years. [189308]

Mr. Plaskitt: The most recent available information is in the following tables:

Jobseekers allowance claimants in England and London by duration of current claim, as at January 2008

	All	Up to 3 months	3 months up to 6 months	6 months up to 1 year	1 year and up to 2 years	2 years and up to 5 years	5 years and over
England	688,505	333,700	147,450	108,025	69,835	24,400	5,105
London	130,730	53,895	30,400	23,595	16,160	5,410	1,280

Note:
Figures are rounded to the nearest five; totals may not sum due to rounding.

Social Security Benefits: Wales

Dr. Francis: To ask the Secretary of State for Work and Pensions how many and what proportion of people claimed each type of benefit in *(a)* Aberavon constituency and *(b)* Wales in each year since 1979. [190221]

Mr. Plaskitt: Information is not available prior to 2002. Estimates for the proportion of the population are not available at parliamentary constituency level. The available information is in the following tables.

Working age and pensioner client groups, by statistical group and proportion (percentage) of adult population in Wales, as at May each year

	2002	2003	2004	2005	2006	2007
All benefits	947,340	949,200	944,530	945,710	949,070	948,240
Proportion	40.5	40.2	39.7	39.5	39.5	39.4
Job seekers	45,700	45,120	38,620	40,320	44,400	40,100
Proportion	2.0	1.9	1.6	1.7	1.8	1.7
Incapacity benefits	223,970	221,220	216,800	212,140	206,880	200,540
Proportion	9.6	9.4	9.1	8.9	8.6	8.3
Lone parents	46,580	45,020	42,860	40,540	39,800	38,540
Proportion	2.0	1.9	1.8	1.7	1.7	1.6
Carers	30,350	34,180	41,780	46,310	49,860	52,540
Proportion	1.3	1.4	1.8	1.9	2.1	2.2
Other income related benefit	93,770	94,270	134,090	143,110	144,850	145,380
Proportion	4.0	4.0	5.6	6.0	6.0	6.0
Disabled	138,000	142,900	128,630	126,520	129,430	133,590
Proportion	5.9	6.1	5.4	5.3	5.4	5.6
Bereaved	10,610	9,530	8,500	7,860	7,080	6,340
Proportion	0.5	0.4	0.4	0.3	0.3	0.3
State pension only	358,370	356,970	333,260	328,910	326,750	331,220
Proportion	15.3	15.1	14.0	13.8	13.6	13.8

Working age and pensioner client groups, by Statistical group in the Aberavon parliamentary constituency, as at May each year

	2002	2003	2004	2005	2006	2007
All	25,240	25,280	24,870	24,860	24,720	24,560
Job seekers	1,070	1,110	860	1,000	1,010	960
Incapacity benefits	7,550	7,520	7,340	7,230	6,920	6,700
Lone parent	1,320	1,300	1,220	1,190	1,170	1,180
Carers	1,110	1,310	1,580	1,780	1,980	2,090
Other income related benefits	2,590	2,580	3,640	3,810	3,960	3,920
Disabled	4,620	4,760	4,240	4,100	4,060	4,150
Bereaved	210	190	170	140	140	120
State pension only	6,770	6,530	5,830	5,620	5,480	5,450

Notes:
1. Caseload figures are rounded to the nearest ten.
2. Totals may not sum due to rounding.
3. Figures for attendance allowance, carers allowance, and disability living allowance include those cases with entitlement but where payment is currently suspended (for example, because of an extended stay in hospital or an overlapping benefit).
4. Statistical Group is a hierarchical variable. A person who fits into more than one category will only appear in the top-most one for which they are eligible.
Job Seeker: claimant on jobseekers allowance;
Incapacity benefits: claimant on incapacity benefit or severe disablement allowance;
Lone Parent: claimant on income support with child under 16 and no partner;
Carer: claimant entitled to carer's allowance;
Other Income related benefit: claimant on income support or pension credit;
Disabled: claimant on attendance allowance or disability living allowance;
Bereaved: claimant on bereavement benefit or widow's benefit;
State Pension only: claimant in receipt of state pension only.
For example a claimant of disability living allowance and jobseekers allowance would appear in "job seeker", not in "disabled".

DEFENCE

Afghanistan: Compensation

Mr. Davey: To ask the Secretary of State for Defence how much the Government paid in compensation to Afghan nationals injured by British armed forces in Afghanistan in each year since 2001. [198015]

Des Browne: Payments totalling $US 295,386 have been paid to Afghan nationals killed or injured by British armed forces in Afghanistan since 2001 as follows:

Financial year	*Total payments ($)*
2001-02	[illegible]
2002-03	35,000
2003-04	[illegible]
2004-05	[illegible]

Financial year	Total payments ($)
2005-06	[1]
2006-07	36,061
2007-08	224,325

[1] None recorded

Air Force: Military Bases

Mr. Drew: To ask the Secretary of State for Defence what is the duration of the contract with the US administration for its use of *(a)* RAF Menwith Hill and *(b)* RAF Fylingdales. [198155]

Des Browne: There is no contract for the use of RAF Menwith Hill. The base is made available to the United States Visiting Force under the terms of the NATO Status of Forces Agreement 1951, and other confidential arrangements.

The use of RAF Fylingdales to provide the US with ballistic missile early warning data is governed by the Memorandum of Agreement Concerning Ballistic Missile Early Warning Station at Fylingdales Moor, Yorkshire 1960. This agreement is scheduled to remain in force while the North Atlantic Treaty remains in force. The use of the upgraded early warning radar at RAF Fylingdales to provide data for the US ballistic missile defence system is governed by the Memorandum of Understanding Concerning Ballistic Missile Defence. This agreement is scheduled to last for 25 years, and began in 2003.

Ammunition

Harry Cohen: To ask the Secretary of State for Defence what the UK's stockpile of cluster munitions is; and what the criteria is for their use. [198111]

Mr. Bob Ainsworth: I am withholding the information requested as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces. The use of cluster munitions, as with all munitions, is governed by international humanitarian law.

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence how many individuals in each branch of the armed forces participated in his Department's shared equity housing scheme. [197932]

Derek Twigg: The Department does not currently operate a shared equity housing scheme.

Armed Forces: Influenza

Dr. Murrison: To ask the Secretary of State for Defence what guidance the Defence Medical Services Department has issued to the armed forces overseas on preparing for an influenza pandemic; and if he will make a statement. [195353]

Derek Twigg: Guidance and information on infection control procedures for military establishments, both within the UK and overseas, is set down in the Defence Medical Services document "Pandemic Influenza: Infection Control Guidance for Military Settings", issued in October 2006, and based on Health Protection Agency guidance. In the event that the World Health Organisation declares a pandemic alert, Defence Medical Services personnel on operational deployment will work with military commanders to apply the guidance in-theatre.

In addition, MOD has recently produced a "Pandemic Influenza Guide", to enable defence personnel to make informed judgements on what to do should an influenza pandemic occur. Two leaflets have also been produced, summarising key aspects of the guidance; TLBs and Trading Funds will be arranging promulgation to their staff shortly.

Armed Forces: Pensions

Mr. Mates: To ask the Secretary of State for Defence how many forces' widows whose husbands retired before 31 March 1973 were receiving an armed forces pension scheme pension at the latest date for which figures are available. [197893]

Derek Twigg: The information is not held centrally and could be provided only at a disproportionate cost.

Mr. Mates: To ask the Secretary of State for Defence for what reasons figures on the number of service pensions paid are not included in UK defence statistics. [197895]

Derek Twigg: Figures on the number of service pensions paid are not included in the UK Defence statistics as there has been no past requirement for the Defence Analytical Services Agency to routinely process information on the armed forces pension scheme.

Armed Forces: Schools

Dr. Fox: To ask the Secretary of State for Defence what discussions his Department has had with the National Union of Teachers on the provision of materials on *(a)* the armed forces and *(b)* Iraq to schools; and what steps have been taken following such discussions. [196606]

Derek Twigg: No discussions have taken place between MOD and the NUT.

Armed Forces: Transexuality

Mr. Jack: To ask the Secretary of State for Defence if he will place in the Library a copy of the Tri Service Draft on Transgender Service Personnel. [198200]

Mr. Bob Ainsworth: I will place a copy of the policy document in the Library of the House once it has been finalised.

Army: Manpower

Dr. Murrison: To ask the Secretary of State for Defence what the *(a)* mean, *(b)* median and *(c)* mode length of service of (i) UK nationals and (ii) non-UK nationals in the British Army was in each of the last 10 years. [194551]

Mr. Bob Ainsworth: This question has been assumed as mean, median and mode return of service and is therefore based on the length of service of those that outflowed during the period.

Non-UK nationals have only been recruited into the Army in significant numbers since 1999 and so a comparatively small number have had the opportunity to serve a full career. This is reflected in the number that have outflowed and the mean, mode and median calculations.

The following tables show the mean, mode and median length of service on outflow for trained regular army direct entry and late entry officers and other ranks. Because of the very small population of outflow from non-UK nationals this information is not comparable with the outflow from UK nationals.

Direct entry officers

	UK nationals				*Non-UK nationals*			
Financial year of outflow	*Mean*	*Mode*	*Median*	*Number of outflow*	*Mean*	*Mode*	*Median*	*Number of outflow*
2006-07[1]	16 years 2 months	6 years	16 years	710	13 years 9 months	4 and 9 years	9 years	20
2005-06	17 years	6 and 34 years	14 years	660	11 years 5 months	5 and 6 years	7 years	30
2004-05	16 years 9 months	6 years	14 years	630	11 years 2 months	4 years	6 years	20
2003-04	17 years 3 months	5 and 34 years	16 years	570	13 years 6 months	4 and 34 years	8 years	10
2002-03	17 years 11 months	34 years	16 years	570	7 years 10 months	34 years	5 years	20
2001-02	17 years 4 months	34 years	16 years	650	16 years 11 months	6 years	10 years	10
2000-01	16 years	4 years	12 years	650	13 years 4 months	16 years	11 years	20
1999-2000	16 years 7 months	34 years	12 years	630	11 years 10 months	6 years	8 years	20
1998-99	14 years 11 months	4 years	9 years	750	11 years 3 months	5 and 8 years	8 years	20
1997-98	14 years 11 months	6 years	9 years	650	13 years 4 months	7 years	8 years	20

Late entry officers

	UK nationals				*Non-UK nationals*			
Financial year of outflow	*Mean*	*Mode*	*Median*	*Number of outflow*	*Mean*	*Mode*	*Median*	*Number of outflow*

[1] The financial year 2006-07 is for an 11 month period from 1 April 2006 to 28 February 2007.
[2] Due to insufficient numbers of outflow we are unable to publish the mode without disclosing sensitive personal data.
Notes:
1. Figures have been rounded to the nearest 10 to prevent disclosure of sensitive personal data.
2. '0' Denotes zero or rounded to zero.
3. UK nationals equal personnel with a nationality at birth of UK or UK dependency.
4. Non-UK Nationals equal personnel with a nationality at birth of Commonwealth(excluding UK), Eire and other.

Committee of Permanent Representatives

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 16 March 2008, *Official Report*, column 652W, on Committee of Permanent Representatives, whether each agenda item listed was decided as an *(a)* A, *(b)* B, *(c)* I or *(d)* false B Point. [196713]

Mr. Bob Ainsworth: The Committee of Permanent Representatives H considers agenda items as either "I points" (agreed without discussion) or "II points" (items scheduled for debate). There are no items considered as A, B or false B points.

My answer on 13 March 2008, *Official Report*, column 652W, set out which items were considered as "I points" and which were considered as "II points".

Defence: Procurement

Mr. Hancock: To ask the Secretary of State for Defence what his Department's outstanding offset obligations are in respect of previous procurement exercises conducted since 1997; what the unfulfilled value was in each case; when the decision to undertake each exercise was taken; what the *(a)* originally anticipated and *(b)* currently anticipated completion date is of each; and if he will make a statement. [197738]

Mr. Bob Ainsworth: The Ministry of Defence holds no industrial participation (IP) obligations. Since 1997, 13 IP commitments have been made by offshore companies relating to defence procurements. 12 of these are outstanding with a combined value of £526 million. These are listed as follows, along with commencement dates and planned dates for completion.

Programme	*Start date*	*Completion date*
ASTOR	February 1999	April 2011
BSFM	August 2007	August 2011
C-17	August 2006	December 2010
Chinook Support	December 2006	December 2011
Javelin	December 2002	March 2013
Javelin (Training)	May 2003	March 2013
MTADS/PNVS	May 2005	December 2010
NLAW	January 2002	January 2017
Litening Pods	November 2006	November 2010
Shielder	September 2006	September 2009
Soothsayer	August 2003	August 2011
Watchkeeper	October 2005	October 2012

Departmental Property

Angus Robertson: To ask the Secretary of State for Defence what the locations are of accommodation sold by his Department in each year since 1993; and if he will make a statement. [196971]

Derek Twigg: Details of all Ministry of Defence (MOD) accommodation sold as far back as 1993 are not available, as central records were not kept until 2000. However, the following table provides details of MOD property sold in the UK since 2000.

Financial year beginning	*Site*	*Town*
2006	Agricultural Land Disposal (2) (DCSA Forest Moor)	Harrogate
	Monkmoors Disposal Area (DE Eskmeals)	Millom

In-Flight Refuelling: Procurement

Mr. Gerald Howarth: To ask the Secretary of State for Defence what consideration he has given to acquiring future strategic tanker aircraft by adding the UK's requirement to that of the United States. [197734]

Mr. Bob Ainsworth: As I announced in my statement to the House on 31 March 2008, *Official Report*, column 31WS, we have concluded a contract with AirTanker Ltd to deliver the Future Strategic Tanker Aircraft service from 2011. It is a holistic contract including provision of purpose designed training and maintenance facilities at RAF Brize Norton, together with through life training and maintenance support services, until 2035. The US has selected an aircraft to meet its requirement but has not yet concluded the commercial arrangements. We believe that the FSTA contract is the most cost effective way to meet the UK requirement.

Iraq: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence how many awards for *(a)* bravery and *(b)* distinguished service were issued to personnel who had served in Iraq in each year since 2003, broken down by (i) service, (ii) rank and (iii) regiment. [195380]

Mr. Bob Ainsworth: It has not been possible to collate the necessary information in the format requested within the required timescale. I can however provide aggregate figures as follows:

Service	Gallantry	Meritorious service	Total
Royal Navy/Royal Marines	32	77	109
Army	328	310	638
Royal Air Force	43	70	113
Royal Fleet Auxiliary	—	5	5
Total	403	462	865

The Army figures can be further broken out into regiment follows:

Regt/Corps	Gallantry	Meritorious service	Total
Household Cavalry Regiment	7	—	7
1st The Queen's Dragoon Guards	6	6	12
The Royal Scots Dragoon Guards	2	2	4
The Royal Dragoon Guards	—	1	1
The Queen's Royal Hussars	4	2	6
9th/12th Royal Lancers	—	1	1
The King's Royal Hussars	3	3	6
The Light Dragoons	—	4	4
The Queen's Royal Lancers	4	5	9
Royal Tank Regiment	1	4	5
The Queens Own Yeomanry	—	2	2
Royal Artillery	14	27	41
Royal Engineers	20	40	60
Royal Corps of Signals	2	15	17
Grenadier Guards	2	—	2
Coldstream Guards	2	2	4
Scots Guards	3	3	6
Irish Guards	7	3	10
Welsh Guards	3	5	8
Royal Regiment of Scotland	34	14	48
Princess of Wales' s Royal Regiment	43	4	47
Royal Regiment of Fusiliers	7	5	12
Royal Anglian Regiment	9	4	13
The Duke of Lancaster's Regiment	15	12	27
The Yorkshire Regiment	4	10	14
The Mercian Regiment	6	6	12
The Royal Welsh	19	4	23
The Rifles	35	10	45
The Royal Irish Regiment	5	5	10
The Parachute Regiment	29	10	39
The London Regiment	1	—	1
The Royal Gurkha Rifles	—	1	1
Queen's Gurkha Engineers	—	1	1
Royal Army Chaplains Department	—	1	1
Army Air Corps	5	2	7
The Royal Logistic Corps	16	41	57
Royal Army Medical Corps	6	16	22
Corps of Royal Electrical and Mechanical Engineers	12	12	24
Adjutant General's Corps	2	13	15
Small Arms School Corps	—	1	1
Intelligence Corps	—	9	9
Queen Alexandra's Royal Army Nursing Corps	—	4	4
Total	328	310	638

I will write to the hon. Member with more detailed information when this has been collated.

Substantive answer from Bob Ainsworth to Nick Harvey:

I undertook to write to you in answer to your parliamentary question on 19 March 2008, Official Report, columns 1174-75W with more detailed information on bravery and distinguished service since 2003.

After further investigation by officials it has become clear that the information is not held in the format you requested and could be provided only at disproportionate cost.

Since 2003 there have been 10 operational honours lists, all of which have been published in the London Gazette, http://www.london-gazette.co.uk, copies of which were forward to the Library of the House. The operational honours list was gazetted on the following dates:

31 October 2003

23 April and 7 September 2004

18 March and 9 September 2005

24 March, 8 September and 15 December 2006

19 July 2007

7 March 2008

Angus Robertson: To ask the Secretary of State for Defence how many UK armed forces personnel were stationed in Basra in each month since December 2007; and if he will make a statement. [196918]

Des Browne: The number of established UK military posts in southern Iraq over the period requested is shown in the table (to the nearest hundred):

	Number
31 December 2007	4,500
31 January 2008	4,100
29 February 2008	4,000
31 March 2008	4,000

The actual number of UK military personnel in theatre varies significantly from day-to-day for a variety of reasons, including leave (rest and recuperation), temporary absence for training, evacuation for medical reasons, the roulement offerees and other factors.

Jo Swinson: To ask the Secretary of State for Defence how many UK armed forces personnel have served *(a)* one, *(b)* two, *(c)* three and *(d)* four or more tours of duty in Iraq since March 2003. [197890]

Des Browne: The information is not held in the format requested and could be provided only at disproportionate cost.

Museums: Grants

Dr. Fox: To ask the Secretary of State for Defence to which military museums the Department makes grants; and how much the grant for each was in each year since 1997. [196600]

Derek Twigg: The information is as follows:

Grant in aid

£ million

	1996-97	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*[1]

[1] Estimate

In addition there are a number of regimental museums which have their costs paid direct by the Department.

Territorial Army

Mike Penning: To ask the Secretary of State for Defence how many Territorial Army centres there were in each of the last 10 years. [196871]

Mr. Bob Ainsworth *[holding answer 26 March 2008]*: In 1998 there were 455 Territorial Army Centres. Following the Strategic Defence Review a decision was taken to reduce this number to 341, with 27 being retained for use by cadet force units and the remainder being disposed of. As at 1 March 2008 there were 362 centres in use by the Territorial Army.

Information on the specific number of Territorial Army Centres in existence in each year since 1998 could be provided only at disproportionate cost.

War Pensions

Colin Challen: To ask the Secretary of State for Defence how many veterans of the Second World War are in receipt of a war pension. [196803]

Derek Twigg: Information on Veterans of the Second World War in receipt of a War Pensions could be provided only at disproportionate cost.

SCOTLAND

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Scotland what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196746]

David Cairns: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

CHILDREN, SCHOOLS AND FAMILIES

Citizenship: Teachers

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families whether he plans to increase the number of initial teacher training and continuing professional development places for citizenship teachers. [198650]

Jim Knight: There are 270 Initial Teacher Training (ITT) places for Citizenship in 2007/08 and 265 in 2008/09 to 2010/11. Numbers of Citizenship ITT

places are being kept at much the same level as they are now for the next three years despite significant reductions in pupil numbers.

The Citizenship Continuing Professional Development certification course will be carried forward extended with similar levels of funding as 2007/08.

Education: Finance

Mr. Ruffley: To ask the Secretary of State for Children, Schools and Families how much funding each local education authority in the East of England has received from his Department and its predecessors in each year since 1997. [169965]

Jim Knight: The Department does not collect the information in the format requested and to do so would incur disproportionate cost.

General Certificate of Secondary Education: Greater London

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many children obtained fewer than five A* to C grades at GCSE, including mathematics and English, in each London borough in each of the last 10 years. [196565]

Jim Knight: The available information is given in the following tables:

Numbers and percentages of 15-year-old pupils in London who did not achieve 5 or more A-C grades at GCSE[1], including English and Mathematics[2], 1997 to 2007*

	1997			1998			1999

Geography: Assessments

Gregory Barker: To ask the Secretary of State for Children, Schools and Families what response he has made to the recommendations of the Qualifications and Curriculum Authority that A-level geography coursework be abolished; and if he will make a statement. [189205]

Jim Knight: Following the Qualifications and Curriculum Authority's (QCA's) recommendations, the new criteria for A-level geography courses from September 2008 remove the requirement for coursework to be assessed. Fieldwork will, however, become a specific requirement in the A- level criteria from September 2008. QCA is working closely with the Geographical Association, Royal Geographical Society and awarding bodies to ensure that assessment methods continue to provide satisfactory ways of assessing fieldwork. Through the Action Plan for Geography, Government funding has set up a virtual fieldwork and local learning centre to help teachers make the most of geography in their local areas, including expert advice and planning on embedding fieldwork in the curriculum.

Physical Education: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary schools were deemed to have unsatisfactory physical education and sports provision in each of the last 10 years. [195963]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 1 April 2008:

PARLIAMENTARY QUESTION NUMBER 195963: To ask the Secretary of State for Children, Schools and Families, how many (a) primary and (b) secondary schools were deemed to have unsatisfactory physical education and sports provision in each of the last 10 years. Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Between September 1996 and July 2005, inspectors made an overall judgement about the quality of teaching in each subject inspected. From September 2003 to July 2005, they made an additional judgement about the overall quality of provision in each subject inspected. These judgements were made using a seven point scale: "excellent, very good, good, satisfactory, unsatisfactory, poor and very poor. Since September 2005 there has been no specific subject reporting in routine school inspections so we are unable to provide all the information you request. Since this time too physical education has been inspected in a sample of 30 primary and 30 secondary schools each year.

The information requested is set out in the three tables attached. The first shows the overall quality of provision in physical education in 2003/04 and 2004/05 and the second and third show the overall quality of teaching in physical education between 1997/98 and 2004/05. Figures 4-6 show these same data in terms of percentage of schools inspected. Please note that these percentages are calculated from weighted data so that they provide a more accurate representation of English schools as a whole at that time.

These data cover three different inspection frameworks (1996, 2000 and 2003) and comparisons should be treated with caution as the guidance used by inspectors varied between different frameworks.

In addition, the 2000 framework incorporated a differentiated inspection system in which the most effective schools had short inspections and other schools had full inspections. There was detailed reporting on each subject only in full inspections.

The 2003 framework also involved a differentiated inspection system in which inspectors tailored the inspection to the school. In schools where the core subjects were weak, more time was allocated to the inspection of these subjects while less time was given to other subjects and teaching in physical education was not always observed in the course of a given inspection. Therefore these data do not cover all the schools inspected during this period and this is more likely to be the case in primary than in secondary schools.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

[1] The framework change in January 2000 means that data for that year cannot be aggregated across two frameworks so the data shown are for inspections from January 2000 to July 2000.

Primary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many key stage two pupils did not reach level 4 or above in a combination of reading, writing and mathematics key stage two tests in 2007; [197612]

(2) how many primary schools there were in which less than 50 per cent. of key stage two pupils gained level 4 or above in a combination of reading, writing and mathematics key stage two tests; [197622]

(3) how many primary schools there were in which less than 50 per cent. of key stage two pupils gained level 4 or above in a combination of English, mathematics and science key stage two tests. [197623]

Jim Knight: The provisional results from the Key Stage 2 tests in 2007 published last August show that 40 per cent. of pupils did not reach level 4 or above in a combination of reading, writing and mathematics (see table 5 of the Statistical First Release on National Curriculum Assessments at Key Stage 2 in England, 2007 (Provisional), via the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000737/index.shtml

This represents a considerable improvement since 1997 when over two thirds of 11-year-olds failed to reach this standard.

The available information on level 4 achievement in combinations of subjects at school level shows that there were 3,655 schools with 50 per cent. of pupils (or less) achieving Level 4+ in reading, writing and mathematics. Further information can be provided only at disproportionate cost.

These figures are based on provisional data because the reading and writing figures are not checked by schools as part of the Achievement and Attainment tables checking exercise.

Pupil Exclusions

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government plan to take to improve the handling of children excluded from school. [198124]

Kevin Brennan: Revised exclusions guidance published in September 2007, put local authorities under a duty to arrange suitable full time education from the sixth day of exclusion for children permanently excluded. For fixed period exclusions, this sixth day duty lies with the school.

Furthermore, the Children's Plan, published in December, set out our commitment to improve provision outside school for excluded pupils and other pupils who for a range of reasons are unable to attend a mainstream school. A copy of the Plan is in the Library. We plan to publish a strategy paper on how we expect to take the Children's Plan commitment forward in the summer.

Pupils: Play

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what information his Department has collected on the amount of time children spend in free play during school hours; and if he will make a statement. [189035]

Jim Knight: The Department does not collect the information requested.

Respect Squads

Mr. Steen: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 13 December 2007, *Official Report*, column 783W, on respect squads, what the qualifications are for appointment as a nationally recognised expert practitioner in a respect squad; what support they offer local partners; and who those partners are. [176122]

Mr. Coaker: I have been asked to reply.

Responsibility for the respect squad now rests with the Home Office which provides support to local delivery partners in tackling antisocial behaviour. The members of the respect squad were chosen for their experience and expertise at a national level in the field of antisocial behaviour. All members are highly qualified professionals from local authorities, the police and the independent sector. They are skilled practitioners in antisocial behaviour law and practice, and in particular, in their specialisms as principle solicitors, police professionals and heads of antisocial behaviour services. In addition, all members are experienced in training and advising other professionals in this field. The future role of the squad is currently under review.

Schools: Admissions

Mr. Allen: To ask the Secretary of State for Children, Schools and Families how many head teachers, school governors and members of academy trusts were disciplined for breaches of the Admissions Code in the most recent period for which figures are available. [197651]

Jim Knight: From a recent examination of the admission arrangements of schools in three local authority areas, we found evidence to suggest a significant minority appeared to contain aspects that did not comply with the relevant statutory requirements. We have written to the admission authorities concerned (either the local

authority or school governing body) to verify our findings and will present detailed information to Parliament in due course.

To ensure admission arrangements fully comply with the law for 2009, I have written to all admission authorities across the country to remind them of their statutory duties and we are taking measures to further strengthen the admissions system. As announced in the Secretary of State's written statements of 11 and 17 March, we have launched a consultation to increase the period within which objections against unfair or unlawful arrangements are referred to the Schools Adjudicator for investigation and are introducing amendments to the Education and Skills Bill to improve the process by which admission arrangements are consulted on.

Schools: Armed Forces

Dr. Fox: To ask the Secretary of State for Children, Schools and Families (1) if he will make a statement on his Department's policy regarding visits by armed forces personnel to schools; [196603]

(2) what discussions his Department has had with the National Union of Teachers on the provision of materials on *(a)* the armed forces and *(b)* Iraq to schools; and what steps have been taken as a result of such discussions. [196604]

Jim Knight: The Department received one letter from the National Union of Teachers (NUT) in October 2007, drawing the attention of the Secretary of State to teaching materials which were being prepared by the Ministry of Defence (MOD). The letter sought reassurance that action would be taken to ensure that all materials issued by the MOD were compliant with sections 406 and 407 of the Education Act 1996. The Secretary of State responded that the Department does not endorse or promote specific teaching resources or methods, and that sections 406 and 407 of the Education Act 1996 place the duty on teachers to secure balanced treatment of political issues.

The Department is supportive of activities that help children and young people understand the role of the armed forces and we are in discussions with the Ministry of Defence as to how we might increase access to Cadet Forces and Army Cadet Forces for pupils in state schools. However, it is for head teachers to determine whether to invite armed forces personnel to visit their schools.

Schools: Nurses

Mr. Leech: To ask the Secretary of State for Children, Schools and Families how many school nurses there are in England. [197478]

Ann Keen: I have been asked to reply.

The annual national health service work force census collected accurate information on the number of school nurses employed by the NHS in England for the first time in 2004. The number of school nurses from 2004-07 is shown in the following table.

The 2007 census showed there were 2,232 qualified nurses in the school nursing area of work in England, an increase of 613 or 37.86 per cent. since 2004. Of these there were 893 school nurses with a post registration school nurse qualification. This is an increase of 286 or 47.12 per cent. since 2004.

School nurse numbers—England

	2004	*2005*	*2006*[1]	*2007*	*Increase 2004-07*	*Percentage increase since 2004*
Headcount						
School nursing service nurses	2,409	2,887	2,968	3,162	753	31.25
of which:						
Nurses with a post registration school nursing qualification	856	943	1,129	1,227	371	43.3
Full-time equivalent						
School nursing service nurses	1,619	1,913	2,053	2,232	613	37.86
of which:						
Nurses with a post registration school nursing qualification	607	665	815	893	286	47.12

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated.

The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

Source:

The Information Centre for health and social care, Non-Medical Workforce Census, general and personal medical services statistics.

Mr. Leech: To ask the Secretary of State for Children, Schools and Families how many schools in England do not have access to a school nurse. [197479]

Ann Keen: I have been asked to reply.

Information is not collected centrally on how many schools in England do not have access to a school nurse.

It is for primary care trusts in partnership with local authorities, strategic health authorities and other local stakeholders to determine how best to use their funds

to meet national and local priorities for improving health, and to commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of school nursing services.

Specialised Diplomas: Independent Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which independent schools are planning to offer diplomas; and if he will make a statement. [194868]

Jim Knight: One independent school, Polam Hall School in Darlington local authority, is part of a consortium that has approval to deliver Diplomas in September 2009. The Government encourage independent schools to deliver Diplomas. It is important for Diplomas to be available in all parts of the education sector. We are working closely with the independent schools' associations to encourage independent schools to join 14-19 consortia.

TREASURY

Births: Romford

Andrew Rosindell: To ask the Chancellor of the Exchequer how many babies have been born at the Queen's hospital, Romford since it was opened. [196552]

Ann Keen: I have been asked to reply.

This requested information is not collected centrally.

The hon. Member may wish to raise this matter with the chief executive of Barking, Havering and Redbridge Hospitals National Health Service Trust, of which Queen's hospital is a part.

Council Housing: Repairs and Maintenance

Lembit Öpik: To ask the Chancellor of the Exchequer whether consideration has been given to reducing the VAT rate on renovation work to social housing; whether there are legal barriers that would prevent such a VAT rate reduction; and if he will make a statement. [198144]

Jane Kennedy: European VAT agreements allow for the application of a reduced VAT rate, of not less than 5 per cent. for the 'provision, construction, renovation and alteration of housing, as part of a social policy'. This is subject to the general Community law principles of equal treatment and fiscal neutrality, under which similar supplies are usually taxed at the same VAT rate.

The Government keep the impact of VAT on different types of building work under review, and since 1997 have introduced VAT rate reductions to support the regeneration and renewal of housing stock, and domestic energy efficiency. At Budget 2008 the Chancellor announced that the Government would explore the case for further targeted and cost-effective VAT measures for the refurbishment and renovation of dwellings that are of too poor quality to rent or sell.

Devolution: Finance

Andrew George: To ask the Chancellor of the Exchequer what reviews of the Barnett formula have been undertaken by the Government since 1997; and when he plans to publish the factual paper on the Barnett formula to support the Scottish parliamentary review of the devolution settlement. [198392]

Yvette Cooper: The Barnett formula is regularly updated in spending reviews. The Treasury will publish a factual paper on the Barnett formula in due course.

Exercise: Health Education

Andrew Rosindell: To ask the Chancellor of the Exchequer what steps the Government are taking to promote increased cardiovascular exercise by persons under 40 years of age. [196672]

Dawn Primarolo: I have been asked to reply.

The Department and the national health service promote the benefits of physical activity to people of all ages and are keen to target those individuals most at risk of inactivity.

Action includes the piloting of a physical activity care pathway model in a number of general practitioner practices in London, targeting sedentary adults while the National Step-o-meter programme is already providing training and free loan pedometers to health professionals for use with inactive patients.

Other examples of current action include:

in total 86 per cent. of school children now do at least two hours of quality sport a week and we aim to offer every child and young person the chance of five hours sport a week by 2011;

over 91 per cent. of schools are now participating in the Healthy Schools Programme;

the National School Pedometer Programme is distributing 45,000 pedometers to encourage children to become more active;

a further £140 million funding for Cycling England has been announced;

new investment of £225 million outlined in the Children's Plan to allow up to 3,500 playgrounds to be rebuilt or renewed; and

a £372 million investment in this Cross-Government Obesity Strategy—"Healthy Weight, Healthy Lives: A Cross-Government Strategy for England"; to enable people to maintain a healthier weight for a healthier life.

A copy of this publication is available in the Library.

Government Departments: Annual Reports

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the guidance provided by his Department to other Government Departments on what should be included in their 2008 departmental annual reports. [195684]

Angela Eagle: A copy of the guidance to Departments on their spring 2008 departmental reports has been deposited in the Library of the House.

Pensioners: Standard of Living

Dr. Kumar: To ask the Chancellor of the Exchequer what steps the Government have taken to improve

living standards for pensioners in *(a)* the UK, *(b)* the North East, *(c)* the Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency since 1997. [195673]

Mr. Mike O'Brien: I have been asked to reply.

Latest available information shows that average net incomes of pensioner households in the UK increased by 29 per cent. between 1996-97 and 2005-06, and average net incomes of pensioner households in the north east increased by 29 per cent. between 1994-95 to 1996-97 and 2003-04 to 2005-06. Information for the Tees Valley and Middlesbrough, South and East Cleveland is not available.

The Government have introduced a number of measures since 1997 to help older people to enjoy a better standard of living, most notably the introduction of the minimum income guarantee and its successor pension credit. We have successively raised the pension credit standard minimum guarantee by earnings in every year since its introduction. For 2008 the standard minimum guarantee will rise to £124.05—an increase of 4.2 per cent.—more than keeping pace with earnings and prices.

In addition we have introduced winter fuel payments for those aged 60 and over, including an extra one-off payment for winter 2008-09 of £50 for households with someone aged 60 to 79 and £100 for those with someone aged 80 or over announced in the Budget on 12 March 2008.

We have also introduced free television licences for people aged over 75 and from April 2008 those over 60 will be entitled to free off-peak bus travel in England. We have committed to increasing the basic state pension by earnings by 2012, subject to affordability and the fiscal position, or by the end of the next Parliament.

As a result of the personal tax and benefit changes that we have introduced, pensioner households nationally will be around £1,500 a year better off in 2008-09 than they would have been under the 1997 system. The poorest third of pensioner households will on average be around £2,100 a year better off.

Our new public service agreement 'Tackle poverty and promote greater independence and wellbeing in later life' demonstrates our commitment to ensure that the specific needs of the older population are given due priority.

Revenue and Customs: Manpower

Danny Alexander: To ask the Chancellor of the Exchequer how many full-time equivalent employees worked in HM Revenue and Customs criminal investigation arm in each year since its creation. [197980]

Jane Kennedy: The number of full-time equivalent employees that have worked in HM Revenue and Customs criminal investigation directorate since its creation in 2005-06 are as follows:

	Staff in post (FTE)
2005-06	1,601
2006-07	1,817
2007-08	1,827

Mr. Meacher: To ask the Chancellor of the Exchequer how many tax collectors were employed by HM Revenue and Customs and its predecessor in each year since 1979; how much tax revenue they collected in each year; how many are expected to be employed in each of the next three years; and how much is expected to be collected by them in each year. [194240]

Jane Kennedy *[holding answer 17 March]:* Most of the staff in HM Revenue and Customs, and its predecessor departments, Inland Revenue and HM Customs and Excise, are employed directly or indirectly in the collection of tax. However, because of departmental reorganisation it is not possible to provide directly comparable figures for each of the years in question.

In 2006-07, the average number of people HM Revenue and Customs (HMRC) employed in the collection of taxes (taken from Note 9 of the 2006-07 Resource Account) was 89,746. This figure does not include staff working on child benefit and child trust fund. HMRC collected £423.443 billion in tax in 2006-07, and in 2007-08 £383.701 billion up to the end of February 2008.

Staff numbers and the amount of tax collected for earlier years are published in previous annual reports and accounts for HMRC and its predecessor departments.

Detailed staffing estimates for each of the next three years are not available, but HMRC has indicated that it expects by 2011 to be operating with around 25,000 fewer posts than the baseline SR04 figure of 97,755 full-time equivalent posts on 1 April 2004.

Table C6 of Budget 2008 (HC 388) gives estimates of future receipts.

Revenue and Customs: Surveys

Mr. Philip Hammond: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the conclusions of HM Revenue and Customs' latest staff satisfaction survey. [187630]

Jane Kennedy: I have done so.

Revenue and Customs: Visits Abroad

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many overseas visits were made by staff working on tax credits in each of the last five years; which destinations were visited; and at what cost in each year. [183716]

Jane Kennedy: Staff from different parts of HMRC's business can be involved in tax credits work and an overseas visit will often cover a range of departmental topics. In such circumstances it would not be possible to isolate the information requested so it can be attributed specifically to tax credits.

However HMRC and HMT staff working on tax credits visited Australia and New Zealand early in 2008 to learn from their experiences. Total costs were around £15,000.

Road Traffic: North East

Dr. Kumar: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the level of congestion on roads in the North East on the local economy. [198002]

Yvette Cooper: Treasury does not routinely assess every economic impact on every locality, and has made no specific assessment of the effect of congestion on local economies in the North East.

Serious Organised Crime Agency

Danny Alexander: To ask the Chancellor of the Exchequer how many times staff from HM Revenue and Customs criminal investigation arm have met officers from the Serious and Organised Crime Agency since the Agency's creation. [197979]

Jane Kennedy: HMRC criminal investigation is actively engaged with SOCA and staff meet on a regular basis.

A formal record of all meetings is not held centrally.

Tax Havens: EC Action

Mr. Spellar: To ask the Chancellor of the Exchequer what discussions he has had with European counterparts on the regulatory regime affecting tax havens in the last 12 months. [197645]

Jane Kennedy: Issues concerning tax havens and tax evasion were discussed at ECOFIN on 4 March. The UK and other member states made clear their determination to tackle cross-border tax evasion and invited the European Commission to bring forward its review of the savings directive, which enshrines the principle of exchange of information as the means of combating tax evasion. The savings directive is complemented by agreements with countries and territories outside the EU. There will be further discussions in the coming months.

The UK is also actively involved in promoting OECD standards of transparency through tax information exchange agreements between offshore jurisdictions and OECD countries.

Taxation: Trade Unions

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the Answer of 4 March 2008, *Official Report*, column 2327W, on taxation: trade unions, which trade unions subscription fees are eligible for tax relief under section 344 of the Income Tax (Earnings and Pensions) Act 2003. [198173]

Jane Kennedy: A record of all organisations, including trade unions, eligible for tax relief under section 344 of the Income Tax (Earnings and Pensions) Act 2003 can be found on the HMRC website at:

http://www.hmrc.gov.uk/list3/list3.pdf

VAT: Personal Care Services

Bill Wiggin: To ask the Chancellor of the Exchequer (1) what estimate he has made of the revenue to be raised by charging VAT to the users of saunas and spas within leisure centres backdated in respect of *(a)* 2005, *(b)* 2006 and *(c)* 2007; [198080]

(2) what legal advice his Department has *(a)* commissioned and *(b)* evaluated on charging back-dated value added tax on charities running leisure centres with spas and saunas; [198081]

(3) what assessment he has made of the effects of charging back-dated value added tax to charities which run leisure centres which offer spa and sauna facilities; [198082]

(4) what discussions he has had with the Secretary of State for Culture, Media and Sport on leisure centres liability for back-dated value added tax where those leisure centres allow swimmers access to saunas or spas. [198083]

Jane Kennedy: There have been no recent changes to the VAT rules for supplies made by leisure centres. No estimate has been made of revenue properly due from leisure centres on charges made for use of their saunas and spas between 2005 and 2007.

HM Revenue and Customs regularly receives and evaluates legal and other advice on the administration of the VAT rules, and its statutory duties in relation to the collection of VAT that is properly due. Treasury Ministers are also in regular discussion with Ministers in other Departments on a range of issues.

I refer the hon. Member to the answer I gave on 14 March 2008, *Official Report*, column 722W, to my hon. Friend the Member for Eltham (Clive Efford).

Welfare Tax Credits

Danny Alexander: To ask the Chancellor of the Exchequer what the Tax Credit Office's target is for responding to *(a)* letters, *(b)* telephone calls and *(c)* e-mails from (i) hon. Members and (ii) members of the public; and how many in each category were answered within the target time in the last 12 months. [194468]

Jane Kennedy: It is HM Revenue and Customs' (HMRC) aim to reply to the majority of all letters within three weeks. There is no separate target for e-mails.

The majority of telephone enquiries to Tax Credit Office are dealt with as they are received.

I refer the hon. Member to the answer I gave the hon. Member for Fareham (Mr. Hoban) on 18 February 2008, *Official Report*, columns 368-69W.

Danny Alexander: To ask the Chancellor of the Exchequer how many people were employed in the administration of tax credits in each quarter since April 2003. [194477]

Jane Kennedy: Information about the number of staff engaged in tax credits administration each year is contained in part 2, table 1 of the comptroller and auditor general's standard report in the 2006-07 HM

Revenue and Customs (HMRC) accounts, which is available on the HMRC website at:

http://www.hmrc.gov.uk/about/hmrc-accounts2007.htm

Quarterly information would only be available at disproportionate cost.

Danny Alexander: To ask the Chancellor of the Exchequer how many people *(a)* left the Tax Credit Office and *(b)* were recruited to permanent posts in the Tax Credit Office in each year since 2003; what proportion of current staff are employed on (i) a temporary basis and (ii) contracts of less than one year; and what the average salary is of staff working in (A) the Tax Credit Office and (B) HM Revenue and Customs as a whole. [194478]

Jane Kennedy: For the information requested at *(a)* and *(b)* I refer the hon. Member to the answer I gave the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 17 March 2008, *Official Report*, column 898W.

The proportion of Tax Credit Office staff on temporary contracts is around 12.5 per cent. and none of those contracts have been for less than one year.

The average salary of staff at all grades working in TCO is (A) £24,400 and in HM Revenue and Customs as a whole is (B) £23,300.

Danny Alexander: To ask the Chancellor of the Exchequer how many tax credit award notices were sent out in each year since 2003; and if he will make a statement. [194485]

Jane Kennedy: Award notices are issued at the following points in the tax credits cycle:

An initial award notice, following a successful claim.

An amended award notice when a claimant notifies HMRC of a change of circumstances or income during a year.

A finalised award notice following the completion of the renewal process.

Where payments are continuing following a finalised award for one year, an award notice is issued to advise of the provisional payments HMRC will be making for the subsequent year.

Award notices issued each year since 2003 are as follows:

	Total
2003-04	21,000,000
2004-05	34,000,000
2005-06	37,500,000
2006-07	32,000,000
2007-08[1]	29,000,000

[1] To end February

Danny Alexander: To ask the Chancellor of the Exchequer how many tax credit awards were paid into foreign bank accounts in each year since April 2003. [194504]

Jane Kennedy: The information requested is not available.

Danny Alexander: To ask the Chancellor of the Exchequer pursuant to the answer of 17 March 2008, *Official Report*, column 900W, on welfare tax credits, if he will place in the Library the six Office of Government Commerce Gateway reports on the new tax credits programme. [197976]

Jane Kennedy: The disclosure of such reviews is currently the subject of proceedings in the High Court in an unrelated case.

HOME DEPARTMENT

Air Navigation Order 2000

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Air Navigation Order 2000 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195998]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Alcoholic Drinks: Enforcement

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government have taken to reduce under-age drinking in the last three years. [193345]

Mr. Coaker *[holding answer 12 March 2008]:* I refer the hon. Member to the answer given on 27 March 2008, *Official Report*, column 423W.

Alcoholic Drinks: Misuse

Mr. Llwyd: To ask the Secretary of State for the Home Department whether she has plans to meet representatives of the Portman Group to discuss *(a)* binge and (b) under-age drinking; and if she will make a statement. [191335]

Mr. Coaker: The Home Secretary has no current plans to meet with representatives of the Portman Group, but the Government continue to work with members of the alcohol industry to address issues such as binge and under-age drinking.

We are aware that our Department of Health colleagues have regular contact with the Portman Group regarding a number of proposals and will continue this support to further reduce alcohol-related harms. A joint industry and Government officials seminar is due to be held on 24 April 2008 to consider how to further promote sensible drinking.

Additionally, representatives from the Portman Group will be invited to the Prime Minister's summit on alcohol which is likely to take place later in the spring.

Asylum: York

Hugh Bayley: To ask the Secretary of State for the Home Department what estimate she has made of the number of people living in York seeking asylum in each year since 1997. [197128]

Mr. Byrne: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The location of those asylum seekers not in receipt of support is not available.

The number of asylum seekers in receipt of support is available, broken down by Government office region, local authority and parliamentary constituency; these regional breakdowns are available from December 2002.

The number of asylum seekers in receipt of support is published on a quarterly and annual basis. Copies of these publications are available in the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Further breakdowns by parliamentary constituency are available from the Library of the House.

Bigamy

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences of bigamy were recorded in each year since 1997; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196015]

Mr. Coaker: The information is not available in the form requested.

Table 1 gives the number of offences of bigamy recorded by the police and the number detected by means of a sanction detection. Table 2 shows the numbers[1] of defendants proceeded against and found guilty at all courts for bigamy for the years 1997 to 2006, and is taken from the court proceedings database held by the Office for Criminal Justice Reform.

Recorded crime and court proceedings statistics are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and count offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

Table 1: Offences[2] of bigamy recorded by the police and detected by means of a sanction detection, 1997 to 2006-07

	Number of offences	Number of sanction detections
1997	75	n/a
1997-98	106	n/a
1998-99	129	n/a
1999-2000	83	n/a
2000-01	80	n/a
2001-02	74	33
2002-03	88	38
2003-04	71	47
2004-05	104	44
2005-06	101	47
2006-07	61	37

n/a = Not available

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts for bigamy offence, England and Wales 1997 to 2006[1, 2, 3]

Offence	Proceeded against	Found guilty
1997	22	16
1998	30	18
1999	40	28
2000	17	12
2001	23	17
2002	31	16
2003	29	20
2004	22	22
2005	28	21
2006	23	11

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column can often exceed the number proceeded against when a conviction takes place in a different month to when the proceeding was originally brought, or for a different offence.

Burglary: Greater London

Mr. Hoban: To ask the Secretary of State for the Home Department how many (*a*) burglaries and (*b*) sanction detections for burglaries there were in each London borough in each of the last 10 years. [195851]

Mr. Coaker: Offences of burglary recorded by the police and the number of sanction detections by London borough are available from 2000-01 and are given in the following tables.

Table 1: Offences of burglary recorded and detected by means of a sanction detection by London borough, 2000-01 and 2001-02

Number

	2000-01		2001-02	
Borough	Offences	Sanction detections	Offences	Sanction detections
Barking and Dagenham	1,970	132	2,220	149
Barnet	4,107	438	3,954	546
Bexley	2,583	379	2,394	186
Brent	4,441	404	4,099	471
Bromley	3,263	272	3,580	278
Camden	5,305	707	5,857	765
City of Westminster	5,403	563	5,646	666
Croydon	3,779	692	4,131	498
Ealing	4,637	311	4,533	404

Table 1: Offences of burglary recorded and detected by means of a sanction detection by London borough, 2000-01 and 2001-02

Number

Borough	2000-01		2001-02	
	Offences	Sanction detections	Offences	Sanction detections
Enfield	3,973	514	4,411	349
Greenwich	3,050	399	2,794	304
Hackney	4,298	667	4,287	518
Hammersmith and Fulham	3,076	263	2,789	354
Haringey	4,159	430	4,803	444
Harrow	2,791	185	2,623	200
Havering	2,356	120	2,567	166
Hillingdon	4,085	213	3,643	297
Hounslow	3,415	253	3,192	261

Note:
Figures in this table are after the introduction of the National Crime Recording Standard in April 2002. Figures before and after that date are not directly comparable.

Census Act 1920

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under section 89 of the Census Act 1920 in each year since 1997, broken down by offence, and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [195993]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Closed Circuit Television: Licensing

Mr. MacNeil: To ask the Secretary of State for the Home Department what estimate she has made of the number of Scottish local authorities that are (*a*) precluded and (*b*) have been previously precluded for any periods since October 2007 from operating the installed closed-circuit television security networks because of delays in processing operative applications for licences by the Security Industry Authority. [196365]

Mr. Coaker *[holding answer 25 March 2008]*: The information necessary to make such an assessment is not available.

Mr. MacNeil: To ask the Secretary of State for the Home Department what estimate she has made of the number of applications for licences submitted by applicants resident in Scotland to the Security Industry Authority during 2007 which remain outstanding, broken down by local authority area. [196366]

Mr. Coaker *[holding answer 25 March 2008]*: None. The Security Industry Authority does not hold data in a form which would enable information on numbers of applications from applicants resident in Scotland or smaller areas to be readily obtained. The information requested could be obtained only at disproportionate cost.

Constituencies: Correspondence

Kate Hoey: To ask the Secretary of State for the Home Department what steps her Department is taking to locate the representations made by a constituent of the hon. Member for Vauxhall (reference 01619851), when it was first discovered that the representations had been misplaced; and if she will make a statement. [193678]

Mr. Byrne: The Border and Immigration Agency wrote to the hon. Member on 31 March 2008.

Crime and Disorder Act 1998

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Crime and Disorder Act 1998 in each year since 2002, broken down by offence, and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196020]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in either the appropriate 'Racially or religiously aggravated offence' classification or in the 'Other offences against the State and Public Order' offence classification and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Crime: Drugs

Mr. Burrowes: To ask the Secretary of State for the Home Department pursuant to the answer of 11 March 2008, *Official Report*, column 339W, on crime: drugs, (1) what assessment she has made of the performance of drug enforcement authorities in restricting imports of class A drugs into the UK. [196288]

(2) whether a decision has been made to stop measuring class A drug seizure quantities for drugs specifically destined for the UK. [196289]

Mr. Coaker: Given the uncertainty of the final destination of many of the drugs which are seized overseas the Government do not attempt to estimate the amounts which were destined for the UK. The

Serious Organised Crime Agency and HM Revenue and Customs will record in the annual reports which they publish later this year the amounts of drugs where they have been involved in the seizures.

Crimes of Violence: Greater London

Mr. Hoban: To ask the Secretary of State for the Home Department how many (*a*) violent crimes and (*b*) sanction detections for violent crimes there were in each London borough in each of the last 10 years. [195850]

Mr. Coaker: A number of changes have been made to recorded crime in response to suggestions in the two reviews of crime statistics. One such change is that the term 'violent crime' is no longer used in connection with the recorded crime statistics and we now provide figures for violence against the person.

For London boroughs, offences of violence against the person recorded by the police are available from 1999-2000 and the number of sanction detections are available from 2000-01. The statistics are given in the following tables.

Table 1: Offences of violence against the person recorded and detected by means of a sanction detection by London borough, 1999-2000 to 2001-02

	1999-2000		2000-01		2001-02	
Borough	Number of offences	Number of sanction detections	Number of offences	Number of sanction detections	Number of offences	Number of sanction detections

Written Questions

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many and what proportion of Parliamentary questions for answer on a named day to her Department received a *(a)* holding and *(b)* substantive answer on the named day in each year since 2001. [190286]

Mr. McNulty: Details of how many and what proportion of named day parliamentary questions the Home Office answered since 2006-07 is given in the following table:

	Session	
	2006-07	2007-08[1]
Named day questions received	1,260	404
Answered substantively on the named day[2]	443	155
Proportion answered substantively on the named day (percentage)	35	38

[1] To 12 March 2008

[2] All questions not answered substantively on the named day receive a holding answer.

Information prior to 2006-07 is not held in the format requested and could be obtained only at disproportionate cost.

Mike Penning: To ask the Secretary of State for the Home Department how many questions for written answer to her Department had not received an answer as at 25 February 2008 for *(a)* between two and four, *(b)* between four and six, *(c)* between six and eight and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [193396]

Mr. McNulty: The information requested is given in the following table.

Questions that had not received an answer as at 25 February 2008

Weeks	Questions awaiting answer: Ordinary written	Named day
2-4	61	10
4-6	37	10
6-8	10	4
8 plus	47	14

Domestic Violence: Victim Support Schemes

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate she has made of the number of women who are experiencing domestic abuse who are not in receipt of assistance funded by the public purse. [196723]

Mr. Coaker *[holding answer 25 March 2008]:* There are approximately 500 women per year who identify themselves as victims of domestic violence, who have been granted leave to enter the UK in order to marry a UK national, and whose leave to remain is subject to a condition that there shall be no recourse to public funds, in order to prevent abuse of the marriage concession.

Recognising that their lack of access to public services may put them at risk of further abuse, the Government are developing a new scheme whereby victims of domestic violence who have no recourse to public funds who successfully apply for indefinite leave to remain (ILR) will be able to have their housing and living costs met. The new scheme will be announced later in the spring.

Mr. Oaten: To ask the Secretary of State for the Home Department what support she plans to make available to women subject to domestic abuse who are not entitled to existing provision on grounds of citizenship; and if she will make a statement. [197385]

Mr. Coaker: The Government are aware of the problems faced by women with insecure immigration status who suffer domestic violence. We will shortly be announcing details of a new scheme where victims of domestic violence with no recourse to public funds will be eligible to receive support for their housing and living costs. Under the new scheme victims of domestic violence whose applications for indefinite leave to remain (ILR) are successful may qualify for a contribution towards these costs.

The Home Office is also working with the Border and Immigration Agency to re-examine the fee regulations for domestic violence ILR applications, to ensure that genuine claims are not hampered by prohibitive costs.

Drugs: Caribbean

Stephen Hesford: To ask the Secretary of State for the Home Department what recent steps she has taken to tackle drug trafficking into the UK from the Caribbean; and if she will make a statement. [195625]

Mr. Coaker: Preventing the importation of cocaine from the Caribbean region is a priority for the UK's international counter-narcotics efforts. The UK works closely with the Governments of the region and other international partners to disrupt trafficking and interdict consignments of illicit drugs.

The FCO has invested in various counter-narcotics projects in the Caribbean through its Global Opportunities Fund's drugs and crime programme. Projects such as the UK Security Advisory Team based in Bridgetown have helped to build capacity among various Caribbean law enforcement agencies and the judiciary.

HM Revenue and Customs Operation Airbridge was set up in 2002 to reduce the number of couriers arriving in the UK from Jamaica and since its inception the number of couriers arriving in the UK has fallen from about 1,000 to five in the last financial year.

The Serious Organised Crime Agency maintains a team of resident liaison officers in the region, which works with local partners, US agencies, and others, against major organised crime syndicates. In the Caribbean region during 2007-08 this operational work led to the seizure of 1 tonne of cocaine and 6.5 tonnes of cannabis, and to the arrest of a total of 76 suspects.

Drugs: Rehabilitation

Tony Baldry: To ask the Secretary of State for the Home Department what funds have been made available to *(a)* Thames Valley Police force and *(b)* Oxfordshire County Council to further the Government's 2008 drug strategy: Tackling drugs, changing lives. [196534]

Mr. Coaker: The Home Office has a provisional allocation of £804,860 from the Drug Intervention Programme for Thames Valley police force in 2008-09. This funding is for drug testing those arrested, or charged with trigger offences or for offences where there are grounds to suspect that class A drug use may have caused or contributed to the offence, and for the wider strategic delivery of DIP.

The Drug Interventions Programme (DIP) main grant is a Home Office grant aimed at getting adult drug-misusing offenders out of crime and into treatment and other support. The drug action team (DAT), a partnership of which Oxfordshire county council is a member, will receive (via the primary care trust) main grant funding of £1,213,041 for the Drug Interventions Programme in 2008-09. It is for the DAT to decide how best to use the funding to deliver the Drug Interventions Programme in their area, taking account of Home Office guidance.

The Home Office, Department for Children, Schools and Families and the Department of Health are providing funding alongside mainstream funding to support local areas in preventing and reducing substance misuse-related harm (including illegal drugs, alcohol and volatile substances) for children and young people. The funding is routed through to all areas through the area-based grant which is paid on an un-ring-fenced basis to allow maximum flexibility, to primary care trusts through the Pooled Treatment Budget and to youth offending teams through the Youth Justice Board. Oxfordshire will receive funding of £356,613 in 2008-09.

Finance Act 2003

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Finance Act 2003 in each year since its entry into force, broken down by offence; and what percentage

of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196011]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in one of the following offence classifications:

Offences against Laws relating to Customs, Excise and Inland Revenue; or

Disclosure, Obstruction, False or Misleading Statements.

These offences cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Firearms Act 1968

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Firearms Act 1968 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196024]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in either the 'Possession of weapons' or 'Firearms Act 1968 and other Firearms Acts' offence classifications and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department what guidance her Department gives to chief constables on the consideration to be given to duty of care to the community when considering the grant of authorisation for operations to remove illegal immigrants. [197025]

Mr. Byrne: There is an agreed Memorandum of Understanding between the Border and Immigration Agency and each police force in England, Wales, Scotland and Northern Ireland.

This understanding ensures that all operations are risk assessed prior to deployment. Part of this risk assessment entails a community impact assessment being carried out by the police force governing the operation. Each police force reserves the right to veto any operation on grounds of adverse community reaction.

Immigration: Personal Records

Mr. Holloway: To ask the Secretary of State for the Home Department what estimate she has made of the number of records missing from the register of foreign nationals granted indefinite leave to remain in the United Kingdom. [194118]

Mr. Byrne: There is no central register of people who have been given indefinite leave to remain in the United Kingdom.

Applications for indefinite leave have been recorded on the Case Information Database and on the United Kingdom Visa Database since 2003. There is no estimate made as to records missing from this database.

International Criminal Court Act 2001

Mr. Dai Davies: To ask the Secretary of State for the Home Department what steps have been taken by her Department since the International Criminal Court Act 2001 came into force to publicise its applicability to United Kingdom residents. [180939]

Meg Hillier: No special measures have been taken to publicise the Act's applicability to UK residents. The International Criminal Court (ICC) can only take jurisdiction over an offence committed in the UK or by a UK national if our domestic authorities are unable or unwilling to investigate or prosecute the case.

The 2001 Act incorporates the offences of genocide, crimes against humanity and war crimes into domestic law so that our domestic authorities will always be in a position to investigate and prosecute any ICC crimes committed in this country, or committed overseas by a UK national, a UK resident or a person subject to UK Service jurisdiction.

Merchant Shipping Act 1995

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Merchant Shipping Act 1995 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196022]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in one of the following offence classifications as appropriate:

Endangering life at sea;

Public Health offences;

Disclosure, Obstruction, False or Misleading Statements or

Other indictable or triable either way offences.

These offences cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

National Identity Register

Mr. Pickles: To ask the Secretary of State for the Home Department what access local authorities will have to the national identity register. [194996]

Meg Hillier: I refer the hon. Member to the answer I gave him on 25 March 2008, *Official Report*, column 73W.

Offensive Weapons Act 1996

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Offensive Weapons Act 1996 in each year since 2002, broken down by offence; and what percentage

of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196025]

Mr. Coaker: The information requested is not available. Offences which would have been recorded under this legislation would be included in the 'Possession of Weapons' offences classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Offensive Weapons: Crime Prevention

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government have taken to reduce gun crime since 1997. [197680]

Mr. Coaker *[holding answer 1 April 2008]:* The Government have taken a range of action since 1997. This has focused on legislation, enforcement and prevention.

Legislative measures include:

the introduction of a five-year minimum sentence for unlawful possession of a prohibited firearm;

the creation of a new offence of using someone to mind a weapon;

banning the sale, manufacture and importation of realistic imitation firearms;

doubling the sentence for the possession of an imitation firearm in public; and

banning the sale, manufacture and importation of tandem cartridge air systems, such as the Brocock.

On enforcement:

We support the work of dedicated intelligence-led enforcement such as Operation Trident, which has a good track record in dealing with gun crime in London. Similar operations have been established in other priority areas.

We held a national firearms amnesty in April 2003, which resulted in 44,000 guns and over a million rounds of ammunition being handed in and removed from circulation.

In September 2007, we set up the Tackling Gangs Action Programme (TGAP), to focus work in areas of London, Manchester, Birmingham and Liverpool which were particularly affected by street gangs and gun crime. A Day of Action in November 2007 resulted in 124 arrests. Further robust enforcement activity has followed, including during a targeted month of action during March 2008.

TGAP has also been concentrating on the supply of firearms, with focused action on postal hubs and other potential supply routes.

The Home Office supported the establishment of the National Ballistics Intelligence Service, which is implementing an enhanced firearms forensic technology capability.

And on prevention:

The Government work with a wide range of delivery partners on initiatives which can help prevent gun violence. These include the Safer Schools Partnerships, whereby police officers are allocated to schools, providing young people with contact with police officers in a neutral setting; CrimeStoppers, which acts as a conduit for information on crime, including gun crime; From Boyhood to Manhood and other organisations which work intensively with vulnerable young people who have been excluded from school to help them reach their potential; and Street Pastors, who work in a number of inner city areas to help and support young people on the streets.

The continued delivery of this programme of work will be taken forward through the Tackling Violence Action Plan, published on 18 February 2008.

Offensive Weapons: North East

Dr. Kumar: To ask the Secretary of State for the Home Department pursuant to the answer of 14 March 2008, *Official Report*, column 2301W, on offensive weapons, what information her Department holds on knife crime in *(a)* the North East, *(b)* Tees Valley district and *(c)* Middlesbrough, South and East Cleveland. [197907]

Mr. Coaker: From the information collected centrally on recorded crime, it has historically not been possible to identify those offences where an assault with a knife resulted in an injury. The details of the individual circumstances of offences do not feature in the recorded crime statistics.

From April 2007, police forces have been collecting data on serious violence offences involving a knife or sharp instrument, to improve our understanding of the prevalence of these types of crime. The first full year's data will be available from July.

Paedophilia: Disclosure of Information

Mr. Hoban: To ask the Secretary of State for the Home Department pursuant to her written ministerial statement of 18 February 2008, *Official Report*, columns 2-3WS, on tackling violence, what plans she has to allow members of the public to apply for information on arrests for child abuse. [197527]

Mr. Coaker: The review of the "Protection of Children from Sex Offenders", published in June 2007, included two actions concerned with disclosing information on child sex offenders' convictions to members of the public, which were referred to in the ministerial statement. These actions are intended to build on existing practice, and were developed in consultation with all relevant agencies and voluntary organisations. The review did not consider disclosing information on arrests, and there are no plans to allow members of the public to apply for information on arrests for child abuse.

Police: Career Structure

Mr. Ruffley: To ask the Secretary of State for the Home Department what recent discussions she has had on the review of the police high potential development scheme; and if she will make a statement. [195687]

Mr. McNulty: The National Policing Improvement Agency (NPIA) has responsibility for policy, selection and co-ordination for the police high potential development scheme (HPDS). The NPIA has finished a review of the existing HPDS alongside a wider process of developing the future strategy for police leadership. The revised HPDS is a priority within the NPIA Business Plan and will be re-launched in 2008.

Prisoner Escapes

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded of absconding from lawful custody in each year since

1997; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195991]

Mr. Coaker: The information is not available in the form requested.

Table 1 gives the number of offences of absconding from lawful custody and the number detected by means of a sanction detection. Table 2 shows the numbers of defendants proceeded against and found guilty at all courts for absconding from lawful custody for the years 1997 to 2006, and is taken from the court proceedings database held by the Office for Criminal Justice Reform.

Recorded crime and court proceedings statistics are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and count offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

Table 1: Offences of absconding from lawful custody recorded by the police and detected by means of a sanction detection—1997 to 2006-07

	Number of offences	*Number of sanction detections*
1997	1,379	n/a
1997-98	1,372	n/a
1998-99	1,301	n/a
1999-2000	1,559	n/a
2000-01	1,389	n/a
2001-02	1,357	1,022
2002-03	1,553	1,229
2003-04	1,721	1,412
2004-05	1,362	1,165
2005-06	1,272	1,007
2006-07	980	819

n/a = Not available.

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts for bigamy offence, England and Wales 1997-2006[1,2,3]

	Proceeded against	*Found guilty*
1997	22	16
1998	30	18
1999	40	28
2000	17	12
2001	23	17
2002	31	16
2003	29	20
2004	22	22
2005	28	21
2006	23	11

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column can often exceed the number proceeded against when a conviction takes place in a different month to when the proceeding was originally brought, or for a different offence.

Violent and Sex Offender Register

Mr. Ruffley: To ask the Secretary of State for the Home Department how many individuals *(a)* convicted of a sex offence *(b)* imprisoned for more than 12 months for violence and *(c)* assessed as being high risk there are on the Violent and Sex Offenders Register; and how many times the database has been accessed in each year since 1997. [195613]

Mr. Coaker: As at 19 March 2008, ViSOR contained 58,722 persons categorised as being a "Registered Sexual Offender" (subject to notification requirements) or an "Other Sexual Offender" (not subject to notification requirements). This will include offenders who are in custody and those in the community, and those who are currently required to be supervised and those who are not. It also contained 3,906 persons categorised as being a "Violent Offender" and a total of 14,647 persons recorded as being managed as a "High Risk" or "Very High Risk" person.

It should be noted that ViSOR is a live system used by the police, and is currently subject to a national roll-out to the National Offender Management Service. As such, it does not yet contain all violent offenders or other sexual offenders.

Further statistical data on sexual and violent offenders in England and Wales are published in local multi-agency public protection arrangements (MAPPA) reports which have been issued annually for the past six years. These are available in the House Library and at:

http://www.probation.justice.gov.uk/output/page30.asp

ViSOR is a web-based operational management system that is in continuous use. It is not possible to provide a meaningful statistic relating to the number of times the database has been accessed.

Violent Crime Reduction Act 2006

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Violent Crime Reduction Act 2006 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196019]

Mr. Coaker: The information requested is not available. Offences recorded under the Violent Crime Reduction Act 2006 are included within the 'Possession of Weapons' offence classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Women's Aid Last Resort Fund

Mr. Oaten: To ask the Secretary of State for the Home Department how much has been allocated to the Women's Aid Last Resort Fund since 2004 in relation to supporting women at risk of domestic abuse whose independent applications for leave to remain in the UK are being considered; and how much she plans to allocate to the Fund in each of the next three years. [197393]

Mr. Coaker *[holding answer 31 March 2008]*: During 2004-05 and 2005-06, the Government provided a grant of £145,000 to Women's Aid to bolster their Last Resort Fund, a fund aimed at meeting the living costs of a small number of victims in refuges who are not covered by the Supporting People funding arrangements.

There are currently no plans to support the Last Resort Fund directly in the future. The Government do, however, recognise the particular needs faced by this small group of people and we will soon be announcing details of a new scheme where victims of domestic violence with no recourse to public funds will be eligible to receive support for their housing and living costs. Under the new scheme, victims of domestic violence whose applications for indefinite leave to remain are successful may qualify for a contribution towards these costs.

Written Questions: Government Responses

Mr. Malins: To ask the Secretary of State for the Home Department when she will reply to questions *(a)* 180331 and *(b)* 180332, on Eurostar, tabled by the hon. Member for Woking on 21 January 2008. [188352]

Mr. Byrne *[holding answer 22 February 2008]*: I replied to the hon. Member on 17 March 2008, *Official Report*, column 804W and on 27 March 2008, *Official Report*, column 439W.

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms since the Department was established; and what the (i) purpose and (ii) value was of each of these contracts. [196581]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was created as a result of machinery of government changes in June 2007. DIUS operates a devolved procurement structure for consultancy contracts. As such there is no central register of contracts let. Information on this type of expenditure is not held separately for DIUS for prior years, therefore this information could be obtained only at disproportionate cost. However, year to date, the Department has spent £2,734,621 on consultancy.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills what the cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193533]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. Information on this type of expenditure is not collected to the detail required in the Department. This information could be obtained only at disproportionate cost.

Departmental Private Finance Initiative

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many private finance initiatives and public private partnerships his Department is responsible for; and what the value is of each such contract. [196988]

Mr. Lammy: The Department for Innovation, Universities and Skills was created by machinery of government changes at the end of June 2007. The Department does not have any private finance initiatives or public private partnership contracts.

Departmental Public Expenditure

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills whether consideration has been given to applying gender responsive budgeting to his Department's budget. [192117]

Mr. Lammy: The UK Government are supportive of efforts to achieve gender equality and continue to work very closely with both the Women's National Commission and the Women's Budget Group on promoting gender equality within the UK. In 2004, HM Treasury undertook a pilot project on gender analysis of expenditure with the Women's Budget Group. The project demonstrated the value of gender analysis in some areas and identified what tools and expertise were necessary within government to carry out gender analysis, but that further work was needed before gender responsive budgeting could be implemented. In 2008, HM Treasury will be conducting further work that will determine whether it is prudent and feasible to disaggregate departmental expenditure statistics by gender.

The Department for Innovation, Universities and Skills (DIUS) is committed to tackling discrimination and inequality including gender inequality. As the Department has only been in existence since June 2007, DIUS is using policies of the former parent entity DTI including the equality scheme which can be found on the BERR website.

Departmental Translation Services

Mr. Paul Goodman: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 17 March 2008, *Official Report*, column 854W, on departmental translation services, how much was spent on translation services into *(a)* Welsh and *(b)* other languages in 2007-08. [197552]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. Information on translation expenditure to this level can be obtained only at disproportionate cost.

Higher Education

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many and what

proportion of full-time undergraduates with each number of UCAS tariff points from their A-levels did not complete their degree in each of the last 10 years for which data are available. [196659]

Bill Rammell: The available information on the proportion of UK-domiciled starters to full-time first degree courses who are projected to neither obtain an award nor transfer to another institution is shown in table 1. Comparable figures for the 2005/06 academic year will become available in June this year. Information on the actual number of students who are projected to neither obtain an award nor transfer to another institution has not been published. These figures cannot be broken down by UCAS tariff points on entry.

Table 1: Proportion of full-time first degree starters at English and UK higher education institutions, who were projected to neither gain an award nor transfer to another institution, academic year 1997/98 to 2004/05

Percentage

Academic year	1997/98	1998/99	1999/2000	2000/01	2001/02	2002/03	2003/04	2004/05
England	15.8	15.9	15.8	15.0	13.8	13.9	14.4	13.8
UK	15.7	15.8	15.8	15.0	14.1	14.4	14.9	14.2

Note:
Figures from the 1996/97 academic year have been excluded due to a change in methodology between 1996/97 and 1997/98. Figures for years earlier than 1996/97 are not available.
Source:
Performance Indicators in Higher Education, published by the Higher Education Statistics Agency (HESA).

HESA also publishes non-continuation indicators, which show the proportion of entrants to full-time first degree courses not continuing in higher education after their first year, and which can be broken down by entry qualification. Table 2 contains the available information for non-continuation indicators broken down by entry qualification.

Table 2: Proportion of UK-domiciled young[1] entrants to full-time first degree courses at UK higher education institutions not continuing in higher education after their first year, academic year 2002/03 to 2004/05

Entry qualification categories	Tariff points	2002/03	2003/04	2004/05
A-levels or highers	Unknown	11.3	12.6	13.9
	Up to 200	11.7	11.9	11.2
	201 to 290	7.9	8.1	7.7
	291 to 380	4.9	5.3	4.9
	Above 380	2.6	2.8	2.6
Other qualifications		11.4	11.6	11.2
All qualifications		7.8	7.7	7.2

[1] Young refers to entrants who are under 21 years of age.
Note:
Figures for years earlier than 2002/03 are not available.
Source:
Higher Education Funding Council for England (HEFCE).

Student retention rates in this country compare very well internationally. The UK ranks fifth in the OECD for first degree completion rates, out of 23 countries who report data in this area. A university education is now open to more students than ever before and the higher education sector has made significant achievements in maintaining, and in some areas slightly improving, retention rates for its students.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of full-time undergraduates from each socio-economic group did not complete their degree in each of the last 10 years for which data are available. [196660]

Bill Rammell: The available information on the proportion of UK-domiciled starters to full-time first degree courses who are projected to neither obtain an award nor transfer to another institution is shown in Table 1. Comparable figures for the 2005-06 academic year will become available in June this year. Information on the actual number of students who are projected to neither obtain an award nor transfer to another institution has not been published.

Table 1: Proportion of full-time first degree starters at English and UK higher education institutions, who were projected to neither gain an award nor transfer to another institution

Percentage

	England	UK
1997-98	15.8	15.7
1998-99	15.9	15.8
1999-2000	15.8	15.8
2000-2001	15.0	15.0
2001-02	13.8	14.1
2002-03	13.9	14.4
2003-04	14.4	14.9
2004-05	13.8	14.2

Notes:
Figures from the 1996-97 academic year have been excluded due to a change in methodology between 1996-7 and 1997-98. Figures for years earlier than 1996-97 are not available.
Source:
Performance Indicators in Higher Education, published by the Higher Education Statistics Agency (HESA).

HESA also publishes non-continuation indicators, which show the proportion of entrants to full-time first degree courses not continuing in higher education after their first year. It is possible to break these down by NS-SEC. Table 2 contains the available information for non-continuation indicators broken down by socio-economic group. Information on the actual numbers from each socio-economic group has not been published.

Table 2: Proportion of UK-domiciled young[1] entrants to full-time first degree courses at UK higher education institutions not continuing in higher education after their first year

NS-SEC Classification	2002-03	2003-04	2004-05
Groups 1-3	6.3	6.0	5.6
Groups 4-7	8.1	8.2	7.6
Unknown	10.6	12.5	11.8
All classifications	7.8	7.7	7.2

[1] Young refers to entrants who are under 21 years of age.

Note:
Figures for years earlier than the 2002-03 academic year are not available: this is the earliest academic year for which socio-economic classification information is available for higher education students.

Source:
Higher Education Funding Council for England (HEFCE).

Student retention rates in this country compare very well internationally. The UK rank fifth in the OECD for first degree completion rates, out of 23 countries who report data in this area. A university education is now open to more students than ever before and the Government are totally committed to providing opportunities for all people to achieve their potential and to maximise their talent.

Higher Education: Admissions

Mr. Hepburn: To ask the Secretary of State for Innovation, Universities and Skills how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England were attending universities in each year since 1997. [195228]

Bill Rammell: The latest available information is given in the table. Comparable figures for the 2007/08 academic year will be available in January 2009.

Enrolments[1] at UK higher education institutions from Jarrow parliamentary constituency, South Tyneside local authority, north east Government office region[2] and England: academic years 1997/98 to 2006/07

Academic year	Jarrow	South Tyneside	North east	England
1997/98	1,765	3,055	67,795	1,272,780
1998/99	1,805	3,125	70,715	1,308,300
1999/2000	1,790	3,090	60,890	1,309,505
2000/01	1,715	2,930	62,940	1,339,120
2001/02	1,775	3,000	64,705	1,377,475
2002/03	1,875	3,250	68,120	1,435,655
2003/04	1,985	3,420	69,980	1,492,580
2004/05	2,160	3,765	70,590	1,524,120
2005/06	2,095	3,625	71,240	1,533,770
2006/07	2,040	3,595	72,465	1,494,595

[1] Covers all students on any year of a course. Includes students on both full-time or part-time courses at undergraduate and postgraduate level including the Open university.

[2] Figures for the 1997/98 and 1998/99 academic years relate to the North of England, rather than the north east due to a change in the classification of government office regions. Therefore, figures for this region from these two years cannot be directly compared to other years in the time series.

Note:
Figures are on a snapshot basis as at 1 December excluding those writing up, on sabbatical or dormant and are rounded to the nearest five.

Source:
Higher Education Statistics Agency (HESA).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants to full-time undergraduate courses who had been accepted for entry in 2007, rose by 6.1 per cent. to 307,000, the highest ever. Latest figures for students applying for entry in 2008, show that applicants from England are up by 7.1 per cent. compared to 2007.

Higher Education: Finance

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what assessment has been made of the likely effect on *(a)* female, *(b)* mature and *(c)* disabled students of the Government's proposed reduction in spending on equal and lower qualification students; and if he will make a statement. [195300]

Bill Rammell: Our policy is a progressive redistribution of £100 million in institutional funding by 2010 away from students who already have a first HE qualification and want to study another one at an equivalent or lower level towards first time entrants which will enable millions more people of working age without a first HE qualification to participate in higher education and enjoy all the benefits it brings. Within that group, about half are female, a quarter are over 50 and a quarter have a disability and these students will all have more opportunities as a result of the ELQ policy. The majority are likely to be mature learners from non-traditional backgrounds who want to study part-time.

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for Innovation, Universities and Skills what payments his Department has made to Ipsos MORI in the last 24 months; and for what purposes. [194314]

Mr. Lammy: The Department for Innovation, Universities and Skills (DIUS) was created as a result of machinery of government changes in June 2007. DIUS operates a devolved procurement structure for consultancy contracts. As such there is no central register of contracts let. Information on this type of expenditure is not held separately for DIUS for prior

years, therefore this information could be obtained only at disproportionate cost. However, year to date, the Department has spent £2,734,621 on consultancy.

Written Questions: Government Responses

Mr. Frank Field: To ask the Secretary of State for Innovation, Universities and Skills when he expects to answer question 191211 on prisoners and qualifications, tabled on 27 February 2008. [195441]

Bill Rammell: I refer my right hon. Friend to the reply given on 31 March, *Official Report*, columns 595-598W.

INTERNATIONAL DEVELOPMENT

Chad: Armed Conflict

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of *(a)* the humanitarian effects of the civil war in Chad since December 2005 and *(b)* the availability of humanitarian aid; when this assessment was last reviewed; and if he will make a statement. [197121]

Gillian Merron: The Department for International Development (DFID) remains very concerned about the humanitarian effects of the ongoing conflict in Chad. Since the end of 2005, the tensions between Sudan and Chad have increased levels of insecurity. The UN estimates that there are up to 180,000 Internally Displaced Persons (IDPs) as a result of the conflict, and there are a further 700,000 people thought to have been adversely affected in host communities.

DFID continues to monitor developments closely, and is continuously reviewing the level of humanitarian aid available through contact with the Red Cross and with UN and NGO agencies, and through discussions with other donors.

In overall terms, the 2007 humanitarian effort in Chad was well supported. The 2007 UN appeal for Chad (for $274 million) was 99.5 per cent. funded, making it the best supported UN appeal of 2007. The 2007 ICRC appeal was more than 100 per cent. funded. The 2008 UN appeal (for $290 million) is currently 16.1 per cent. funded, which represents good coverage this early in the year.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for International Development what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196580]

Mr. Douglas Alexander: The Department for International Development's (DFID) website:

http://www.dfid.gov.uk/procurement/contractslet.asp

provides the requested information on all consultancy contracts awarded for the 12-month period January to December 2007. Low value contracts issued by DFID's overseas offices are not included. To produce a separate list of these would incur a disproportionate cost.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for International Development how many staff in his Department have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197066]

Gillian Merron: The statistics for Department for International Development attendance at these National School of Government (NSG) courses for 2007-08 is as follows:

Course title	*Number of DFID participants*	*Cost (£)*
Influencing with Integrity	9	6,543
Emotional Intelligence	1	1,495
Counselling Skills for the Workplace	0	0
Managing your Confidence	1	1,149
Balancing Work/life Realities	0	0
Working Assertively	1	726

Responsibility for booking and financing training courses is at departmental level. NSG is one of a range of possible providers for these types of learning activities.

Developing Countries: Food

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of whether *(a)* the Food Security Programme and *(b)* the Productive Safety Net Programme set up by the Government of Ethiopia are viable models to be encouraged in countries facing similar food security issues; what assistance his Department has (i) offered and (ii) delivered (A) directly, (B) through the European Union and (C) through other international institutions to each programme; and if he will make a statement. [197031]

Gillian Merron: The Ethiopian Food Security Programme consists of three components: the Productive Safety Net Programme (PSNP), the Other Food Security Programme and a programme of resettlement.

The Department for International Development (DFID) has supported the PSNP since 2005. Since then, DFID has facilitated assessments of both the Food Security Programme and the PSNP. DFID has also supported the dissemination of lessons learned from PSNP to Southern African countries.

Since 2005, DFID has disbursed £92 million in support of the PSNP. These funds have been provided directly to the Government of Ethiopia.

DFID does not support the other components of the Food Security Programme.

Food Aid

Angus Robertson: To ask the Secretary of State for International Development what programmes have been *(a)* planned, *(b)* initiated, *(c)* run, *(d)* directly funded and *(e)* part-funded by his Department using nutrient dense ready-to-use foods since the beginning of 2007; and if he will make a statement. [197174]

Gillian Merron: Complete costing information on what programmes have been planned and funded using ready-to-use foods (RUTF) is not readily available and could be obtained only at disproportionate cost. The Department for International Development frequently channels funds for RUTF through budget support at the country level or as contributions to the core budgets or pooled funds of UN organisations working on humanitarian issues.

DFID is providing £1.5 million (2006 to 2010) to the NGOs Concern Worldwide and Valid International to widen the use of RUTFs in community care programmes in Zambia, Malawi, Ethiopia and Bangladesh.

HIV Infection: Overseas Aid

Ben Chapman: To ask the Secretary of State for International Development what financial contribution the UK is making to the 2007 G8 commitments on *(a)* prevention of mother to child transmission of HIV services and *(b)* paediatric HIV treatment; and if he will make a statement. [197053]

Gillian Merron: I refer my hon. Friend to the answer given to my hon. Friend the Member for Edinburgh, South (Nigel Griffiths) on 19 March 2008, *Official Report*, columns 1183-84W.

Latin America

Mr. Lancaster: To ask the Secretary of State for International Development how many of his Department's staff were based in Latin America at the latest date for which figures are available; where in Latin America each such member of staff was based; how many staff he plans to be based in Latin America in each of the next three years; and where each will be located. [197467]

Mr. Malik: Currently 29 members of the Department for International Development (DFID) staff are based in Latin America. 12 are based in Managua, nine in Brasilia and eight in La Paz.

The offices in La Paz and Managua will close in September 2008 and April 2009 respectively. The Brazil office will continue to operate but with eight staff in 2008-09.

Mr. Lancaster: To ask the Secretary of State for International Development how many of his Department's UK-based staff have been dedicated to working on matters relating to Latin America in each of the last five years; and how many will be dedicated in each of the next three years. [197476]

Mr. Malik: The numbers of Department for International Development staff based in the UK and working on Latin America over the last five years are shown in the table as follows.

Financial year	*Number of Latin America posts based in UK*
2007-08	8
2006-07	10.5
2005-06	14.5
2004-05	16.5
2003-04	16.5

The staffing structure for the UK/Latin America Team for the next three years is still under discussion.

Latin America: Overseas Aid

Mr. Lancaster: To ask the Secretary of State for International Development when he plans to publish the future Regional Assistance Plan for Latin America. [197468]

Mr. Malik: The Department for International Development's (DFID) future support to Latin America will be provided through civil society organisations and international institutions. We will also continue to work on Brazil's global role in development. A summary of our programme will be produced and made publicly available (although this will not be in the form of a Regional Assistance Plan). This document will be available by the end of 2008.

Moldova: Food

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the food security situation in Moldova; what assistance his Department has *(a)* offered and *(b)* provided to (i) the Government and (ii) the population of Moldova to alleviate the impact of another possible drought; and if he will make a statement. [197032]

Mr. Malik: During 2007 Moldova was affected by a serious drought that reduced crop production across an estimated 84 per cent. of arable land. The Government of Moldova requested assistance from the United Kingdom and other donors. The Department for International Development (DFID) contacted the European Commission (EC) who confirmed that they were responding by providing €4 million of Food Security Programme budget support and releasing €20 million of macro-economic support funds to enable the Government of Moldova to respond to the impact of the drought. The EC also provided €3 million in direct humanitarian aid. Other donors also provided assistance.

The UK Government are continuing to support the Moldovan Government with longer-term reforms aimed at strengthening the economy of the country and its resilience to future shocks through its small bilateral programme (£4 million pa). This includes a £3

million contribution to the World Bank Poverty Reduction Support Credit, one aim of which is to strengthen the agriculture sector and consequently food security. The EC is also discussing with the Government of Moldova support to agriculture sector reform in its 2008 programme.

Palestinians: Overseas Aid

Mrs. Dunwoody: To ask the Secretary of State for International Development what assessment he has made of the effect of the situation in Gaza on the flow of UK aid to the Palestinians; whether his Department plans to resume direct funding to the Palestinian Authority; and if he will make a statement. [196807]

Mr. Douglas Alexander: The Department for International Development (DFID) funds public services and humanitarian support in both the West Bank and Gaza. UK contributions to the European Commission's PEGASE mechanism help to provide allowances to 77,000 key workers such as doctors and nurses as well as engineers working to keep Gaza's power supply operational. In addition DFID provided £3 million to the Palestinian Authority (PA) to help pay its private sector debts, directly benefiting firms in Gaza as well as in the West Bank. Financial support of this kind is one way of getting aid directly to the people of Gaza.

DFID's humanitarian support to Gaza is channelled through major humanitarian agencies such as the International Committee of the Red Cross (ICRC) and the UN Relief and Works Agency (UNRWA) that are still able to operate in Gaza. I recently announced a further £2 million through the ICRC.

Concerning support to the Palestinian Authority for both Gaza and the West Bank I refer to the statement I made to the House today in which I announced a £20 million contribution to the Palestinian Authority through a new multi-donor mechanism managed by the World Bank.

Somalia: Internally Displaced Persons

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the humanitarian conditions of *(a)* internally displaced people in and *(b)* refugees from Somalia since the beginning of 2007; what estimate he has made of the number of such people; and if he will make a statement. [197124]

Gillian Merron: The latest estimates from the United Nations High Commission for Refugees (UNHCR) for the number of Somali refugees resident in countries neighbouring Somalia are as follows:

	Number
Djibouti	8,642
Yemen	50,000
Eritrea	4600
Ethiopia	19,572
Kenya	182,000

In February 2008 UNHCR estimated that the numbers of internally displaced people in Somalia were 776,600. This does not include those who have been recently displaced by drought, floods and clan conflict as these are believed to be temporary. This leads the UN to estimate total numbers of displaced at approximately 1 million.

The humanitarian situation remains critical. In Somalia the relief effort is constrained by conflict and insecurity-related obstruction of supplies. Nevertheless, UN and NGO relief agencies are providing shelter, food, emergency health services and clean water, which help to address the most urgent needs, and reduce suffering.

Sudan: Armed Conflict

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the humanitarian impact of the activities of the Lord's Resistance Army; and if he will make a statement. [196914]

Gillian Merron: The activities of the Lord's Resistance Army (LRA) have had a devastating impact on civilians in northern Uganda and parts of southern Sudan. At the height of fighting between the LRA and the Ugandan army in 2003 over 2 million people were displaced from their homes. An estimated 25,000 children and young people were abducted by the LRA between 1990 and 2006. Although many have returned, approximately 4,000 remain unaccounted for.

Since the signing of the Cessation of Hostilities Agreement in August 2006 the security and humanitarian situation in the conflict affected areas has improved dramatically. The United Nations estimates that since 2006 over 400,000 people have been able to return home and a further 526,000 have moved to sites nearer to their homes where they are able to access their land. Even for those that currently remain in camps the situation has improved markedly with most people now able to access land for farming. Health and other social services have also improved with better access for trained personnel and supplies.

Sudan: Overseas Aid

Mr. Drew: To ask the Secretary of State for International Development whether the Government will contribute to the annual budget of the World Food Programme's Humanitarian Air Service in Darfur; and if he will make a statement. [195670]

Gillian Merron: The UK Government do not contribute directly to the annual budget of the World Food Program's Humanitarian Air Service in Darfur.

The UK Government channel all their humanitarian funding to UN agencies in Sudan through the Common Humanitarian Fund (CHF). The UK Government have committed £40 million to the CHF and £40 million to the Central Emergency Response Fund (CERF) in 2008. The Humanitarian Air Service is currently applying for money from the CHF and the CERF.

Zimbabwe: HIV Infection

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the availability over the last 12 months of antiretroviral treatment in Zimbabwe; and if he will make a statement. [197125]

Gillian Merron: Of the 300,000 people who require it approximately 100,000 people have access to antiretroviral therapy (ARVs) in Zimbabwe (an increase of 50 per cent. in the last 18 months).

The Government of Zimbabwe's capacity to procure needed drugs has weakened over the last 12 months. However, several bilateral donors, including the UK Government, the EC, the United States and the Global Fund for AIDS, TB and Malaria have increased their support for the procurement of antiretroviral medicines. Deliveries are now regular and predictable.

TRANSPORT

A14: Lorries

Norman Baker: To ask the Secretary of State for Transport how many lorry movements there were on average per day on the A14 in 2007; and what percentage of overall vehicle movements along the road this figure represents. [195939]

Jim Fitzpatrick: 2007 road traffic estimates are not yet available. These will become available in July 2008, as part of the publication 'Road Statistics 2007: Traffic, Speeds and Congestion'.

Aircraft: Air Conditioning

Mr. Brazier: To ask the Secretary of State for Transport what assessment she has made of recent changes to aircraft design which result in cabin air no longer being taken from engines; if she will re-examine the findings of the relevant study from the Committee on Toxicity; and if she will make a statement. [196734]

Jim Fitzpatrick *[holding answer 31 March 2008]:* We are aware that new aircraft designs, such as the Boeing 787 Dreamliner, are using a different cabin air system. But older aircraft will be in use globally for many years to come. Hence the Department, following the advice and recommendation of the Committee on Toxicity, is developing cabin air sampling research with a number of participating airlines to assemble real-time data on substances which may be in cabin air during fume events.

Aviation

Norman Baker: To ask the Secretary of State for Transport how many internal flights there were in each of the last five years; and how many there are forecast to be in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [195923]

Jim Fitzpatrick: The number of internal flights (air transport movements, excluding double counting) in the UK in each of the last five years is as follows:

	Flights ('000)
2003	376
2004	405
2005	429
2006	427
2007	417

Source:
Civil Aviation Authority

The coverage of air transport movements (ATMs) in the DfT aviation forecasting model, along with the methodology and results, is set out in 'UK Air Passenger Demand and CO_2 Forecasts' (2007), available at:

http://www.dft.gov/uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/

This differs from the coverage of the figures reported above. The differences arise from the range of airports and domestic charter operations covered, and the categorisation of oil rig and Channel Isles traffic. The difference amounts to around an extra 45,000 ATMs per annum in 2005.

Owing to the tolerance with which the iterative forecasting model works, forecast results are rounded and presented at no less than five-yearly intervals. The central forecast is for annual domestic air transport movements to grow from 765,000 in 2005 to 840,000 in 2010. This equates to growth in annual domestic flights from 385,000 in 2005 to 420,000 in 2010.

Aviation: Health Hazards

Norman Baker: To ask the Secretary of State for Transport if she will investigate the potential impact on health arising from the seeping of emissions from engine lubricants on to the flight decks of aircraft. [197528]

Jim Fitzpatrick: The Government do not want anyone's health to be at risk when travelling by air, and are leading research in this area. In 2007 we commissioned a world first research project to try to capture substances released during transient fume events. The first stage of this work was to identify and test equipment capable of sampling any potentially harmful substances in cabin air. The report into this first stage work was published by Cranfield university on 21 February after peer review. It is published on the Department's website. The next phase of work is to use the equipment identified to capture real-time fume events; this work is being developed.

Norman Baker: To ask the Secretary of State for Transport what measures are in place to prevent the incapacitation of pilots and co-pilots arising from the seeping of emissions from engine lubricants on to the flight decks of aircraft. [197529]

Jim Fitzpatrick: Civil Aviation Authority (CAA) investigations into reported incidents have resulted in measures to minimise occurrences. For example, overfilling engines with oil can result in oily fumes. The CAA has worked with aircraft operators, and with

engine and aircraft manufacturers, to ensure that revised oil filling instructions are made available. Mandatory procedures have been put in place to ensure aircraft systems are examined and, where necessary, rectified and cleaned before further flight. To minimise the effects on pilots, the CAA has published advice to operators that, in the event of a suspected air contamination in the flight deck, pilots should consider the use of oxygen equipment.

Norman Baker: To ask the Secretary of State for Transport what (*a*) regulations and (*b*) international agreements govern the spraying of biocides in the passenger deck of international aircraft; and what substances are permitted to be so sprayed. [197530]

Jim Fitzpatrick: The use of insecticide is required under the International Health Regulations of the World Health Organisation (WHO) on flights to or from certain destinations to prevent infectious and contagious diseases.

Rules established by the International Civil Aviation Organisation (ICAO) permit the use of certain insecticides, which have the approval of and are recommended by the WHO, based on their efficacy and minimal human toxicity. These rules are binding on International Civil Aviation Organisation (ICAO) contracting states.

All pesticides used for aircraft disinsection in Great Britain (GB) must be approved by the Health and Safety Executive (HSE) under the Control of Pesticides Regulations 1986. The active ingredient in sprays in GB is either 2 per cent. permethrin or 2 per cent. d-phenothrin.

Biofuels

Mr. Spellar: To ask the Secretary of State for Transport what assessment her Department has made of the merits of second generation biofuels. [197579]

Jim Fitzpatrick: Advanced biofuel production processes have the potential to deliver significant reductions in greenhouse gas emissions from the transport sector. These processes also have very significant advantages in potentially using a much wider range of materials than those used for current biofuels, including materials which do not compete with food products, thus reducing the environmental pressures from using land for biofuel crop production. The Government's aim is to create the right market incentives, through policies such as the Renewable Transport Fuel Obligation (RTFO), backed up by technology support, for such fuels to flourish.

The Government have funded a number of pieces of recent research by the National Non-Food Crops Centre (NNFCC) on the feasibility of advanced biofuel production processes. These include work on the feasibility of second generation biodiesel production in the UK, available via the NNFCC's website at:

http://www.nnfcc.com

as well as an evaluation of emerging biodiesel technologies and a mapping of the development of advanced biorefinery concepts which could become reality beyond 2020.

Bus Lanes: Motorcycles

Bill Wiggin: To ask the Secretary of State for Transport if she will undertake research into the use of powered two-wheeled vehicles in bus lanes; what research she has evaluated on the matter; and if she will make a statement. [197631]

Ms Rosie Winterton: The Department has commissioned three research projects to investigate the effects of allowing powered two-wheeled vehicles to use bus lanes. The research, in Bristol, Swindon and the City of Westminster, considered the impact of schemes on both motorcyclists and other road users.

The case for allowing powered two-wheeled vehicles in bus lanes is very much a site-specific matter. The research has helped identify potential benefits and disbenefits that local authorities need to consider in determining whether or not to permit motorcycles to use their bus lanes. The results of this research provide the basis for the Department's current advice in Traffic Advisory Leaflet 2/07 "The use of bus lanes by motorcycles".

Bus Services: Concessions

Norman Baker: To ask the Secretary of State for Transport how many local authorities in England offered subsidised bus services after 11 pm in each year since 1997. [195929]

Ms Rosie Winterton: The information is not held at the level of detail requested. Local authorities have discretion to offer concessionary travel beyond the statutory times defined in the Transport Act 2000. The statutory minimum concession is available to eligible residents on local buses from 9.30 am to 11 pm Monday to Friday and at all times at weekends and on bank holidays.

Bus Services: Schools

Mr. Lancaster: To ask the Secretary of State for Transport what assessment she has made of the effect on road safety of the use by local authorities of buses exempt from the requirement to have passenger seatbelts fitted to transport children to school. [197245]

Jim Fitzpatrick: The Department has not made a specific assessment of the implications of carrying children in buses that are not equipped with safety belts. However, a review of the benefit of safety belts in minibuses and coaches recognised technical difficulties associated with fitting adequate seat belts retrospectively to other types of bus.

'Road Casualties Great Britain 2006' shows buses to be one of the safest forms of road transport with the rate of killed or seriously injured passengers, on a mile for mile basis, being approximately one-third that for passenger cars.

Local authorities are able to specify that transport providers supply buses with safety belts and should consider if this is appropriate as part of their risk assessment.

Car Sharing

Norman Baker: To ask the Secretary of State for Transport what meetings and discussions took place between (*a*) her Department and (*b*) the Highways Agency and (i) car share organisations, (ii) bus companies and (iii) other groups with experience of high occupancy vehicle lanes prior to the decision not to proceed with the proposed high occupancy vehicle lane on the M1 between junctions 7 and 10. [197576]

Mr. Tom Harris: Various official-level meetings and discussions with stakeholders have taken place over the course of the M1 HOV lane scheme's development, including with the Campaign for Better Transport, the Confederation of Passenger Transport (CPT), National Express, Carplus and Liftshare. Officials have also met with highway authorities in other countries who have experience of high occupancy vehicle lanes. Ministers met with the CPT and National Express in autumn 2007.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Transport how many and what percentage of appeals by employees of (*a*) her Department and (*b*) its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192508]

Jim Fitzpatrick: The Department for Transport was established in 2002. Since then it has responded to 21 cases brought to the Civil Service Appeal Board.

12 cases were on grounds of gross misconduct, two for breach of ICT policy, two for bringing the agency/department into disrepute, four for other individual reasons and one for which the information is not currently available.

Six appeals were upheld (29 per cent.), five on the grounds of unfair dismissal and one for a minor procedural error by the Department. The total compensation paid was £128,837.55. Only one individual was reinstated (in 2005) following an upheld appeal, as the Board concluded that there was insufficient evidence that the appellant was deliberately bringing the agency/Department into disrepute.

Cycling

Dr. Francis: To ask the Secretary of State for Transport what discussions she has had with Welsh Assembly Ministers and Ministers of other devolved administrations to ensure that appropriate funding is made available throughout the UK to encourage the promotion of the shift from cars to cycling. [189212]

Ms Rosie Winterton: DfT Ministers have had no such meetings but they are in regular contact with Ministers in the devolved Administrations about a range of issues.

Decisions on local transport issues are a devolved matter.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Transport what contracts were awarded by her Department to (*a*) KPMG, (*b*) PricewaterhouseCoopers, (*c*) Ernst and Young, (*d*) McKinsey, (*e*) Deloitte and (*f*) other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196559]

Jim Fitzpatrick: A table showing the value and the nature of work undertaken by KPMG, PricewaterhouseCoopers, Ernst and Young and Deloitte between 1 March 2007 and 29 February 2008 has been placed in the Libraries of the House.

McKinsey has not carried out any work for the Department and its agencies in this 12 month period.

Details of contracts carried out by other consultancy firms in the last 12 months could be provided in response to this question only at disproportionate cost.

Departmental Databases

Adam Price: To ask the Secretary of State for Transport pursuant to the answer of 17 March 2008, *Official Report*, columns 772-3W, on departmental databases, which US-registered service providers have been engaged by her Department and its agencies to manage aspects of personal data; and what types of personal information such service providers have been engaged to manage. [197148]

Jim Fitzpatrick: The following US registered service providers have been engaged by the Department for Transport to manage aspects of personal data—this list only incorporates contracts under which services are still being provided;

Driver and Vehicle Licensing Agency (DVLA)

International Business Machines Corporation is a registered US company with subsidiaries all over the world. The DVLA's contract is presently with the UK subsidiary, IBM United Kingdom.

DVLA's prime IT service provider is IBM.

As the prime IT service provider, IBM has been engaged to manage all aspects of DVLA IT, including responsibility for DVLA's core driver and vehicle databases which contain UK citizens' personal information, including names, addresses, dates of birth, disclosed medical conditions (in relation to the driver's ability to drive) and driving licence photographs. All this information is maintained within the UK.

IBM is also supporting the programme to migrate the Department to a shared service centre initially covering the Department's financial and Human Resources back-office functions. This includes personal data for the Department's civil servants and the Department's financial data.

Driving Standards Agency (DSA)

The DSA contracts Pearson Driving Assessments Ltd to provide theory test services. Some of these services involve data processing, which is carried out in

the US by NCS Pearson, Inc., a US registered company in the same corporate group as Pearson Driving Assessments Ltd. These companies manage data on candidates' personal information (name, address, date of birth, gender), payment information, driver licence number, details of the test taken and the result.

Maritime and Coastguard Agency (MCA)

The MCA has a contract with GroupLink, a US registered company which provides a customer relationship management (CRM) system for part of the MCA. Grouplink managed the migration of the CRM data in 2007 to the new system and currently only provides support for this system without having access to the data which include contact details of MCA customers.

As part of the Communities and Local Government Framework Agreement, which the Department and its agencies call off, some parts of the Department use Iron Mountain, a US registered company, for file storage, retrieval and destruction of registered files. Among these files are standard departmental personnel records, which include:

reports, personal, leave and attendance, medical, conduct and discipline, pay, travel and subsistence, long term detached duty, permanent transfer and secondment files.

Departmental Translation Services

Mr. Paul Goodman: To ask the Secretary of State for Transport pursuant to the answer of 12 March 2008, *Official Report*, column 442W, on departmental translation services, how much was spent by her Department and its agencies on translation services into (*a*) Welsh and (*b*) other languages in (i) 2003-04, (ii) 2004-05, (iii) 2005-06, (iv) 2006-07 and (v) 2007-08 to date. [197548]

Jim Fitzpatrick: The Department for Transport, the Driver and Vehicle Licensing Agency, the Highways Agency, and the Vehicle and Operator Services Agency, do not hold the data in an appropriate format to provide the breakdown requested. The required analysis to obtain the information would incur disproportionate cost, requiring recourse to all the original invoices for the years concerned.

The Maritime and Coastguard Agency translated one document into Welsh in 2005, "Stay SAFE at the seaside", at a cost of £329.

The Vehicle Certification Agency translates the Fuel Consumption booklet into Welsh at an annual cost of approximately £1,000.

As recorded in the answer of 12 March 2008, *Official Report*, column 442W, data are not available for the Driving Standards Agency for 2003-04 and 2004-05. The expenditure shown for 2005-08 (to end January 2008) is for translating forms and the Highway Code into Welsh.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Transport if she will set a target to increase the use of video-conferencing by her Department to reduce the need to travel to meetings. [195887]

Jim Fitzpatrick: The Department for Transport and its agencies use video conferencing (and also teleconferencing) extensively, and already encourage all staff to use the facilities as a first option in preference to travelling, and to save time and travelling expenses. However, it is considered more appropriate and feasible to judge each case on its merits, rather than set specific targets, due to the variable individual circumstances surrounding each meeting.

Driving Tests

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to her Statement of 17 December 2007, *Official Report*, column 624, on Department for Transport data storage and use, if she will place in the Library a copy of the terms of the contract between the Driving Standards Agency and Pearson Driving Assessments which relate to compliance with UK data protection rules. [176272]

Jim Fitzpatrick: A copy of the terms of the contract between the Driving Standards Agency and Pearson Driving Assessments Limited which relate to compliance with UK data protection rules has been placed in the Library.

Environment Directorate

Norman Baker: To ask the Secretary of State for Transport what the objectives of her Department's Environment Directorate are; what the directorate's performance against those objectives has been in the last six months; and what projects the directorate has undertaken over that period. [197538]

Jim Fitzpatrick: The Department for Transport's (DFT) Environment and International (ENI) Directorate was set up in April 2007.

The Directorate's objectives, as set out in the DFT's business plan for 2007-08, include:

working with the Department for Environment, Food and Rural Affairs (DEFRA), with the Department for Business, Enterprise and Regulatory Reform (BERR) and internationally to deliver the joint PSA target for climate change and take forward the Department's strategy for tackling the environmental impact of transport in line with the Stern Review. Sub-objectives include:

improving strategy, planning and the evidence base for climate change policy in DFT;

tackling the climate change impacts of transport through putting a price on carbon (tax, trading or regulation);

removing barriers to behaviour change and promoting more environmentally-friendly transport;

promoting technological development and innovation to reduce carbon emissions from transport;

working with DEFRA and other stakeholders to deliver the joint Public Service Agreement target for air quality;

influencing international transport negotiations to achieve UK objectives for market liberalisation, improved environmental protection, consumer rights and better regulation. Sub-objectives include ensuring timely and proper implementation of all new EU obligations.

ensuring that the DFT adopts Better Regulation principles and reduces the administrative burdens imposed by transport regulations.

DFT's full business plan is available at

http://www.dft.gov.uk/about/publications/priorities

Environment-related projects undertaken by ENI in the past six months have included:

programme management of overall DFT carbon reduction activity (liaising with other parts of DFT including aviation and shipping sections, as well as relevant executive agencies);

contributing to cross-Government development of the Climate Change Bill and analysis of climate change strategy;

developing policy within the EU on mandatory targets for new car CO_2 emissions;

developing policy on the use of renewables in transport, in particular in respect of the EU Renewable Energy Directive and the Fuel Quality Directive, and implementing the Renewable Transport Fuels Obligation;

supporting the work of H M Treasury in Budget 2008 on cleaner cars and incentives for people to buy them;

progressing the Low Carbon Transport Innovation Strategy, supporting research and development and procurement of low carbon vehicles;

policy development and stakeholder engagement relating to the climate change goal set out in the "Towards a Sustainable Transport System" discussion paper;

contributing to policy development in Europe on air quality, notably through negotiations on EURO VI standards for heavy duty vehicles.

In the past six months, as part of its responsibilities for cross-cutting international matters and for DFT's better regulation work, ENI's work has also included updating the DFT simplification plan, the preparations for European Transport Councils, and wider EU coordination work.

Fuels: Renewable Energy

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the complementarity of the *(a)* targets and *(b)* sustainability criteria in the EU Fuel Quality Directive and the EU Renewable Energy Directive. [191811]

Jim Fitzpatrick: The European Commission has proposed a greenhouse gas reduction target for the Fuel Quality Directive which would, in our assessment, need to be met mainly through biofuels, in quantities much greater than would be required by the draft Renewable Energy Directive. In negotiations in the EU, the UK and other member states have made clear that this discrepancy needs to be resolved. The Commission's proposal for the Fuel Quality Directive does not include sustainability criteria for biofuels, though some have been proposed in the European Parliament. There are different sustainability criteria in the Renewable Energy Directive: again, we and other member states have stressed that it will be essential to have just one set, applying to both directives. In the high-level discussions on this issue the UK will be pressing for these criteria to be as robust and wide-ranging as possible.

Government Car and Dispatch Agency: Expenditure

Mrs. Villiers: To ask the Secretary of State for Transport how much the Government Car and Dispatch Agency has spent on replacing cars *(a)* in 2007-08 and *(b)* since 27 June 2007. [191752]

Jim Fitzpatrick: The Government Car and Despatch Agency (GCDA) has spent £393,956 (excluding VAT) on cars for its fleet so far in 2007-08. Of that, £381,398 has been spent since 27 June 2007. The timing of this expenditure is part of GCDA's three year rolling programme of capital expenditure that was agreed with the Department for Transport during 2006-07. GCDA replaces approximately one third of its car fleet each year.

Heathrow Airport

John McDonnell: To ask the Secretary of State for Transport how many visits she has made to Heathrow Airport to meet representatives of *(a)* businesses and the aviation industry and *(b)* local residents associations affected by Heathrow expansion in (i) 2006, (ii) 2007 and (iii) 2008 to date. [189605]

Jim Fitzpatrick *[holding answer 27 February 2008]:* The Secretary of State, Ministers and Department for Transport officials have met a number of stakeholders in a variety of locations to discuss the Heathrow Consultation. The Department engaged with the local community at a series of dedicated roadshows.

Mrs. Villiers: To ask the Secretary of State for Transport how many meetings she has held with *(a)* BAA, *(b)* HACAN ClearSkies, *(c)* 2M group and *(d)* Future Heathrow Group on Heathrow expansion since her appointment. [193991]

Jim Fitzpatrick: Since July the Secretary of State has held regular meetings at a senior level with BAA. These have covered a range of issues pertinent to BAA airports including Heathrow. Although the Secretary of State has not met HACAN ClearSkies or the 2M group, I have held meetings with these groups since July either individually or as part of meetings with a wider stakeholder attendance. Both myself and the Secretary of State have met with Future Heathrow Group on one occasion since July.

Mrs. Villiers: To ask the Secretary of State for Transport what assessment she has made of the effects of each option for Heathrow expansion as set out in the adding capacity at Heathrow consultation on local public health, with particular reference to *(a)* air quality, *(b)* nitrogen oxide emissions and *(c)* noise pollution; and if she will make a statement. [194042]

Jim Fitzpatrick: Our work has been focused primarily on demonstrating compliance with limits on local air quality pollutants and noise. The former relate to European obligations under Directives whose key objectives are protecting human health. The public health impacts of aviation are considered in the development of our policies. We monitor the continuing research on the effects of noise on human health. In addition we take account of existing guidelines and long-term targets recommended by the World Health Organisation.

Mr. Meacher: To ask the Secretary of State for Transport which Minister in her Department approved the consultation document on the third runway at Heathrow. [195183]

Jim Fitzpatrick *[holding answer 19 March 2008]:* My right hon. Friend the Secretary of State approved the consultation document which was then subject to the collective Cabinet clearance process.

Sarah Teather: To ask the Secretary of State for Transport how many people from each London borough submitted representations to the Heathrow third runway consultation. [195707]

Jim Fitzpatrick: The 'Adding Capacity at Heathrow Airport' consultation ended on 27 February. We are not yet in a position to provide data on the numbers of responses received or provide any breakdowns.

Heathrow Airport: Health Hazards

Mr. Hurd: To ask the Secretary of State for Transport what plans she has to make a health impact assessment of the proposed expansion of Heathrow Airport. [197030]

Jim Fitzpatrick: While our principal focus has been on meeting the key noise and local air quality limits, we plan to update the initial impact assessment incorporated in our recent Heathrow consultation in the light of responses and relevant evidence received. We have made it clear that any proposals for future development would need to be the subject of a full health impact assessment by the airport operator at the planning stage.

Lorries: Safety

Norman Baker: To ask the Secretary of State for Transport how many lorries in each region of England were detected by *(a)* the police and *(b)* the Vehicle and Operator Services Agency, as being (i) overloaded, (ii) in an unsatisfactory mechanical condition and (iii) driven in breach of drivers' hours regulations, in each of the last 10 years; and what penalties were imposed on those drivers found to be in breach of the law. [192959]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) was formed in April 2003, since then the relevant statistics relating to VOSA are:

	Prohibited for overloading	*Prosecuted for overloading*	*Mechanical prohibitions*	*Prohibited for drivers' hours tachograph and records*	*Prosecuted for drivers' hours tachograph and records*

Total	3,097	2,448	13,622	5,638	6,768

VOSA does not individually record the number of prosecutions due to mechanical faults but VOSA is sure this would be an insignificant figure.

Data collected centrally on the Court Proceedings Database, held by the Ministry of Justice do not identify the vehicle type (e.g. lorry, buses or coaches etc) involved for the specified motoring offences.

Similarly the Fixed Penalty Notices, Written Warnings and Vehicle Defect Rectification Scheme motoring offences collections, also held by the Ministry of Justice do not identify types of vehicles involved.

Lorries: Safety Measures

Dr. Iddon: To ask the Secretary of State for Transport (1) what estimate she has made of the average cost to a road haulier of fitting retro-reflective marking tape to a heavy goods vehicle; and what the total estimated cost of doing so is for all road hauliers; [198208]

(2) what consideration she has given to making the fitting of retro-reflective marking tape mandatory on all new heavy goods vehicles from 10 October 2009. [198209]

Jim Fitzpatrick: Following European and international negotiations, it was agreed to require fitment of retro-reflective marking tape for new trucks over 7.5 tonnes gross vehicle weight (GVW) and new trailers over 3.5 tonnes GVW. The cost over 12 years has been estimated at between £152.6 million and £164.2 million and potential benefits over the same period have been estimated at £297 million. The cost per vehicle has been estimated as ranging from around £186 to almost £388.

The UK is working to implement the requirement via amendment to our national Road Vehicles Lighting Regulations by 10 October 2009. This is the earliest date that Contracting Parties to UN-ECE Regulation 48 can refuse to register new heavy trucks not fitted with reflective tape. A public consultation on proposed amendments will be carried out in due course.

Lorries: Testing

Mrs. Dunwoody: To ask the Secretary of State for Transport how many heavy goods vehicle test stations are operated by the Vehicle and Operator Services Agency; and what their locations are. [197879]

Jim Fitzpatrick: The Vehicle and Operator Services Agency currently has 89 heavy goods vehicle test stations. A list of locations has been placed in the Libraries of the House.

Mrs. Dunwoody: To ask the Secretary of State for Transport what the maximum distance is that a road haulier is expected to travel to present his vehicle for examination. [197880]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA)'s criteria is to provide a testing facility sufficient to accommodate at least 90 per cent. of its customers with a travel distance of 30 miles, or 60 minutes, and that target is currently exceeded by a substantial margin.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether there are plans to change the *(a)* number and *(b)* location of Vehicle and Operator Services Agency-operated heavy goods vehicle test stations. [197881]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) is currently undertaking a strategic review of its operational estate and has not ruled out changes. VOSA has recently relocated the Bristol heavy goods vehicle testing station to a more strategic location in Avonmouth.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether there are plans to alter the *(a)* numbers and *(b)* terms of employment of staff employed and based at Vehicle and Operator Services Agency's heavy goods vehicle test stations. [197883]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) has *(a)* no plans to reduce the number of staff employed in technical roles in its HGV test stations. However, there are plans to reduce the number of admin support staff. As part of the DFT Value For Money programme, VOSA has been investing in modern technology and call-handling processes to improve customer service and as a result, fewer admin staff are required. There are plans to reduce the admin work force by 19 FTEs. *(b)* VOSA has no proposals to change the terms and conditions of staff based at its HGV test stations. However, work has been done to investigate the options for more flexible opening hours for its test stations which may require new contracts to be negotiated.

Lorries: Tolls

Dr. Ladyman: To ask the Secretary of State for Transport what recent consideration has been given to the possibility of introducing a vignette to charge lorries for road use; and if she will make a statement. [195828]

Ms Rosie Winterton: As announced in Budget 2008, the Government will not be progressing a vignette scheme at this stage. This decision was informed by the freight data feasibility study which found that all options considered, including a vignette, offered limited safety, congestion and environmental benefits. The conclusions of the study will be published shortly.

M25: Finance

Norman Baker: To ask the Secretary of State for Transport what the latest ministerially-approved costs are of the *(a)* M25 widening schemes and *(b)* M1 widening schemes; and what the original estimated cost was of these schemes. [188494]

Mr. Tom Harris: The following table provides the information requested for the schemes on the M1 and M25 motorways, forming part of the Highways Agency's programme of major schemes, which were designated 'widening schemes' at programme entry. Following the Nichols report on the Highways Agency, revised cost estimates for a number of the schemes listed are currently in preparation. In addition,

following publication on 4 March of the 'Advanced Motorway Signalling and Traffic Management Feasibility Study' a number of these schemes will be considered for their suitability for active traffic management (ATM), including hard shoulder running, as an alternative to conventional widening. Where ATM is selected as the preferred option the scheme cost will be re-estimated.

Scheme name	*Programme entry estimate*	*£ million Latest ministerial approved estimates*
M25 J12-15 widening[1]	94	120
M25 J1b to J3 widening ECI	66	[2]62
M25 J5 to J6/7 widening DBFO	214	214
M25 J16 to J23 widening DBFO	496	697
M25 J23 to J27 widening DBFO	419	419
M25 J27 to J30 widening DBFO	402	583
M25 total	1,691	2,098
M1 J6A to J10 widening	241	289
M1 J10 to J13 widening	382	601
M1 J21 to J30 widening (ECI) Contract 1		
M1 J21 to J30 widening (ECI) Contract 2	1,915	1,915
M1 J30 to J31 widening	135	135
M1 J31 to J32 widening[1]	20	20
M1 J32 to J34S	139	139

M1 J39 to J42 widening	202	202
M1 total	3,504	3,771

[1] Scheme complete.
[2] In addition, £12 million of work has been transferred to the A2/A282 scheme

M42: Motorway Service Areas

Mrs. Spelman: To ask the Secretary of State for Transport what progress has been made on negotiations between the Highways Agency, Birmingham International airport and the management of the Blue Boar Inn on the proposed motorway service area at Junction 6 on the M42. [198387]

Mr. Tom Harris: The proposed motorway service area is on the mainline between Junction 5 and Junction 6 of the M42. This site was formerly being promoted by Blue Boar Motorways Ltd. and is now being promoted by Swayfields.

The Highways Agency is not negotiating with Birmingham International airport and the management of Swayfields with regard to the proposed motorway service area. As part of the planning process, the Highways Agency has a duty to co-operate and act reasonably in considering proposals coming forward. Our conclusions on the acceptability of the proposals have been set out in our Proof of Evidence submitted to the ongoing Public Inquiry.

The Highways Agency has worked with Birmingham International Airport Limited and the National Exhibition Centre on options for, improving motorway access from the M42 to their developments. A Joint Statement produced by the Highways Agency, Birmingham International Airport Limited and the National Exhibition Centre regarding options for improving motorway access from the M42 was read out and given to the Inspector at the Pre-Inquiry Meeting on 19 March 2007.

Members: Correspondence

Norman Baker: To ask the Secretary of State for Transport when she expects the Parliamentary Under Secretary of State for Transport to reply to the letter sent to him by Campaign for Better Transport, Liftshare.com, Sustrans, Friends of the Earth and the Campaign for the Protection of Rural England on 18 October on the proposed high occupancy vehicle lane on the M1 between junctions 7 and 10. [197575]

Mr. Tom Harris: A reply was sent on 17 March.

Metronet

Mr. Hoban: To ask the Secretary of State for Transport pursuant to the answer of 15 January 2008, *Official Report*, column 1088W, on Metronet, what the size of the loan from TfL to Metronet is. [196638]

Ms Rosie Winterton: Funding of the administrators of the Metronet companies during their appointment is the responsibility of Transport for London and London Underground Limited.

Ministers: Official Cars

Norman Baker: To ask the Secretary of State for Transport how many former Ministers, other than the former Prime Minister, are supplied with a car from the Government Car and Despatch Agency; and how many former Ministers were in receipt of such cars on 1 January 2005. [195935]

Jim Fitzpatrick: Currently the Government Car and Despatch Agency (GCDA) provides cars and drivers for 6 former Ministers and former Prime Ministers. On 1 January 2005 GCDA provided cars and drivers to 11 former Ministers and Prime Ministers.

Norman Baker: To ask the Secretary of State for Transport if she will take steps to quantify the down-time of drivers employed to drive ministerial cars supplied by the Government Car and Despatch Agency. [195937]

Jim Fitzpatrick: The Government Car and Despatch Agency provides allocated cars and drivers to Departments for use by Ministers and senior officials. The day to day allocation of work for these drivers is the responsibility of each Department.

Norman Baker: To ask the Secretary of State for Transport in which Government Departments permanent secretaries have chosen not to make use of an allocated vehicle supplied by the Government Car and Despatch Agency. [195938]

Jim Fitzpatrick: The Government Car and Despatch Agency does not provide allocated cars and drivers to the permanent secretaries of the Department for Communities and Local Government, the Department for Culture, Media and Sport, the Ministry of Defence, the Department for the Environment, Food and Rural Affairs; the Foreign and Commonwealth Office, the Ministry of Justice or the Department for Innovation, Universities and Skills.

Norman Baker: To ask the Secretary of State for Transport what recent assessment she has made of the merits of providing a pool of cars per Government Department rather than allocating cars to individual Ministers and permanent secretaries; and if she will make a statement. [195950]

Jim Fitzpatrick: The Government Car and Despatch Agency is responsible for providing official cars and drivers to Ministers and senior officials. There has been no formal review or assessment of the merits of introducing departmental driver pools since GCDA became part of the Department for Transport.

Norman Baker: To ask the Secretary of State for Transport what criteria are used in determining the entitlement of former Ministers to vehicles supplied by the Government Car and Despatch Agency; and what the process is for deciding when such use should cease. [195951]

Jim Fitzpatrick: The use of an official car after a Minister's departure from office will be on the advice of the security authorities. In line with successive Administrations, the Government do not comment on security issues.

Norman Baker: To ask the Secretary of State for Transport in respect of how many former *(a)* Ministers, *(b)* permanent secretaries and *(c)* other categories, other than serving Ministers and permanent secretaries, requests have been received for the provision of vehicles by the Government Car and Despatch Agency. [195952]

Jim Fitzpatrick: The Government Car and Despatch Agency provides official cars and drivers for Ministers and senior officials. GCDA does not accept requests to provide official cars and drivers directly from former Ministers or former officials. All requests for the provision of official cars and drivers are routed through the Cabinet Office. This information is not readily available and could be obtained only at a disproportionate cost.

Motor Vehicles

Bob Russell: To ask the Secretary of State for Transport when she plans to publish her recommendations following the review of class *(a)* two and *(b)* three powered wheelchairs and powered scooters. [197999]

Ms Rosie Winterton: The Department for Transport published research into class two and three powered wheelchairs and mobility Scooters in 2006. The research included a series of recommendations to Government on areas such as fitness to drive and insurance requirements.

The review's findings are helping to inform policy development in this area. However, we do not have any additional announcements planned at this point in time.

Motor Vehicles: Fines

Mrs. Dunwoody: To ask the Secretary of State for Transport how many Vehicle and Operator Services Agency staff will be employed to issue fixed penalty notices to vehicles where offences are detected. [197882]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) employs 590 traffic and vehicle examiners, all of whom may be required to issue fixed penalty notices. There are plans to employ a further 127 enforcement staff in the coming year as a result of reinvesting Gershon VFM post savings and new funding from DFT for additional enforcement activity. All these additional staff will be trained to issue fixed penalty notices.

Motor Vehicles: Fuels

Norman Baker: To ask the Secretary of State for Transport when her Department expects to complete its review of the Powering Future Vehicles Strategy. [197533]

Jim Fitzpatrick: The Department is currently considering the status of the Powering Future Vehicles Strategy review, in light of the recent publication of the final report from the King Review of low-carbon cars. As announced in Budget 2008, a detailed Government response to the King Review will be published in the summer.

Motor Vehicles: Ministers

Mrs. Villiers: To ask the Secretary of State for Transport what type of car each Government Minister receives from the Government Car and Dispatch Agency. [191763]

Jim Fitzpatrick: Cabinet Ministers may choose either a diesel powered Jaguar XJ or a Toyota Prius hybrid. Other Ministers may also choose from a Toyota Prius, a Honda Civic hybrid or any other suitable car with a CO_2 emission of 185 g/km or less.

Motor Vehicles: Testing

Mrs. Dunwoody: To ask the Secretary of State for Transport how many garages in the UK are licensed by the Vehicle and Operator Services Agency (VOSA) to conduct private vehicle and motorcycle MOT tests; how often these garages are inspected by VOSA to ensure standards are being upheld; and how many inspectors VOSA employs to check on standards in these garages. [197884]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) has 19,064 garages authorised to conduct MOT testing in Great Britain on private vehicles and motorcycles. In the financial year 2007-08, every active MOT garage received a VOSA site assessment in addition to any demand-led or targeted visits. This fully achieved a demanding Secretary of State key target last year. VOSA employs 330 vehicle examiners who spend around one third of their time on MOT garage supervision.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many non-UK registered vehicles were inspected by Vehicle and Operator Services Agency inspectors during the south-east pilot exercise in the 2007-08 financial year; and how many prohibition notes were issued. [197918]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) inspected and issued prohibitions to the following numbers of non-UK registered vehicles:

	Inspections	*Prohibitions*
Roadworthiness	17,320	8,762
Traffic offences (inc. weighing)	19,677	5,428

Mrs. Dunwoody: To ask the Secretary of State for Transport what plans she has for future charges for *(a)* private vehicle and motorcycle MOT tests, *(b)* heavy goods vehicle tests and *(c)* public service vehicle tests. [197921]

Jim Fitzpatrick: A consultation on proposals to raise HGV and PSV test fees by approximately 5 per cent. for 2008-09 closed on 10 March. A further consultation on MOT fees is due to close on the 30 of April. The results of these consultations are being/will be analysed. The Secretary of State (SoS) will announce her decision on future fees, having duly considered the response to these consultations in due course.

The SoS announced in 2006 her intention to abolish certain HGV and PSV operator licence fees and increase HGV and PSV test fees to recover the income lost. This rationalisation is planned to occur in April 2009 to coincide with the normal annual fee review cycle.

The Vehicle and Operator Services Agency (VOSA) plans to review fee levels regularly, including consultation on proposed changes.

Motorcycles: Licensing

Bill Wiggin: To ask the Secretary of State for Transport with reference to the answer of 16 April 2007, *Official Report*, columns 55-6W, on motorcycles: licensing, what her current estimate is of the costs provided in that answer; and if she will make a statement. [196709]

Jim Fitzpatrick: The total estimated cost for implementing the new practical motorcycling test being introduced in September 2008 is £71,000,000.

Of this, £70,200,000 is for acquisition, design construction and development of multi-purpose test centres (MPTCs). The remainder of £800,000 has been allocated for equipment, training and site set-up cost.

The second European driving licence directive as amended by Commission directive 56/2000 aims to improve the standard of road safety for all road users including motorcycle and moped riders. Test candidates must be able to demonstrate that they are competent to ride their machines at a more demanding level than is currently the case. The new practical motorcycle test must be introduced no later than 30 September 2008. The higher speed exercises and other manoeuvres will be performed in the off-road element of the test conducted at MPTC sites.

In the interests of the safety of all road users, not least the motorcycling test candidate, assessing the new manoeuvres will be conducted off-road at MPTCs.

MPTCs will also cater for other types of practical tests, including for car drivers.

Motorways

Bob Russell: To ask the Secretary of State for Transport for what purposes the hard shoulders of the motorway infrastructure are used. [194947]

Mr. Tom Harris: The Motorways; Traffic (England and Wales) Regulations 1982 define a hard shoulder and its uses. Regulation 7 provides that a vehicle may stop and remain at rest on a hard shoulder where it is necessary:

By reason of a breakdown or lack of fuel, oil or water or

By reason of any accident, illness or other emergency or

To permit any person carried in the vehicle to recover or move any object that has fallen onto a motorway or

To permit any person carried in the vehicle to give help to another person in association with the above situations.

The M42 (Junctions 3A to 7) Actively Managed Hard Shoulder and Variable Speed Limits) Regulations 2005, modified the 1982 regulations in respect of M42 Junctions 3A to 7 and the adjoining slip roads to introduce variable speed limits and create the concept of an 'actively managed hard shoulder', which may, in certain circumstances, be driven on.

Information for drivers on the use of the hard shoulder is given in the Highway Code, sections 269 to 271.

Motorways: Accidents

Bob Russell: To ask the Secretary of State for Transport how many deaths there have been as a result of crashes involving vehicles parked on motorway hard shoulders in the last 10 years for which figures are available. [194934]

Mr. Tom Harris: Between 1997 and 2006 there were 85 fatalities resulting from road traffic accidents on M and A(M) class roads on the Highways Agency's trunk road network, where at least one vehicle was stopped on the hard shoulder.

The 85 fatalities (in accidents where at least one vehicle was parked on the hard shoulder) accounted for 4.9 per cent. of all fatalities on M and A(M) class roads on the Highways Agency's trunk road network (1,739 in total), recorded over the same period.

Motorways: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the annual change in carbon dioxide emissions expected to result from the planned motorway widening programme by 2015. [197541]

Mr. Tom Harris *[holding answer 31 March 2008]*: Following the recent publication of the advanced motorway signalling and traffic management feasibility study, hard shoulder running will now be considered for the schemes which were due to be widened, apart from the first two sections of the M25 widening scheme".

The feasibility study modelled the emissions impacts of a programme of planned widening schemes comprising all the motorway elements of the Highways Agency's current major schemes programme, plus widening of the M6 from the north of Birmingham to Knutsford, for the year 2015. This high level analysis showed an increase in CO_2 of 0.3 megatonnes (an increase of 0.3 per cent.) for the widening package, compared to 0.2 megatonnes (0.2 per cent.) if all the widening schemes were to be replaced with hard shoulder running. This is compared to a reference case with no improvements to these parts of the motorway network. Year-on-year impacts were not modelled. Further details are included in the study report, available online at:

http://www.dft.gov.uk/pgr/roads/network/policy/mtorsigntrafmanagement/

Passenger Transport Executives: Marketing

Stephen Hammond: To ask the Secretary of State for Transport what estimate she has made of the costs of rebranding passenger transport authorities as integrated transport authorities as proposed in the Local Transport Bill; and when the Government will provide funding for this purpose. [198389]

Ms Rosie Winterton: The Local Transport Bill provides for the statutory designation of each passenger transport authority to be changed to "integrated transport authority". This reflects their proposed new responsibilities for leading the integration within the Local Transport Plan of the whole transport agenda including, for example highways and traffic issues. Most passenger transport in the former metropolitan areas is already provided under "brand" names such as Merseytravel or Nexus, and the legislation will not affect the ability of authorities to use such names. I expect the change in statutory designation not to impose any significant additional costs on authorities, and that any such costs will be more than offset by savings resulting from other measures.

Penalty Fares: Appeals

Norman Baker: To ask the Secretary of State for Transport which approved appeals bodies adjudicate on the penalty fares scheme. [194548]

Mr. Tom Harris: There are two approved appeal bodies handling National Rail penalty fare scheme appeals. These are the Independent Penalty Fares Appeals Service (IPFAS), and the Independent Appeals Service (IAS).

Public Transport

Mr. Ancram: To ask the Secretary of State for Transport what recent estimate she has made of the proportion of people who travel by public transport in *(a)* rural and *(b)* urban areas. [198597]

Ms Rosie Winterton: The following table shows the proportion of trips by people living in urban and rural areas which are by public transport.

Proportion of trips by main mode by residents of urban and rural areas, Great Britain, 2006

	Public transport
Urban	11
London	26
Other urban	9
Rural	4
Total	10

Source:
DfT: National Travel Survey 2006

Public Transport: Tickets

Norman Baker: To ask the Secretary of State for Transport what steps she is taking to encourage the deployment of train-bus Oystercard-type arrangements in major conurbations other than London. [195948]

Mr. Tom Harris: The smartcard and integrated ticketing programmes are being rolled out progressively. Plus Bus (add-on bus travel to a rail ticket) is growing and passenger transport executives already have integrated bus and train tickets, safeguarded through rail franchise agreements. The national concessionary bus passes are being introduced on ITSO smartcards and with older people being the biggest users of bus, this gives the potential for further smartcard initiatives.

The key to more integrated smart ticketing is to establish ITSO on rail in London and elsewhere. ITSO smartcards are being rolled out through new rail franchise agreements and train operators are encouraged to engage with local authorities on ticketing schemes.

The Northern Way have identified smartcards as a tool which would support economic growth by making public transport more attractive; and are considering how they might potentially encourage take up in the north.

Railways: Buckinghamshire

Mr. Lancaster: To ask the Secretary of State for Transport what the passenger capacity is of commuter trains serving *(a)* Wolverton, *(b)* Central Milton Keynes and *(c)* Bletchley train stations per day; and what the capacity is of (i) peak time services and (ii) an average train serving each. [197300]

Mr. Tom Harris: Commuter trains to London that serve the three stations in the Milton Keynes area have the capacity to transport over 50,000 passengers in each direction each day. Trains calling for London arrivals between 7 am and 10 am have almost 8,000

seats with an absolute capacity of 13,000. A typical peak time train serving the Milton Keynes area would have 412 seats and an absolute capacity of 720. Capacity at individual stations is a matter for London Midland.

Mr. Lancaster: To ask the Secretary of State for Transport how many people used *(a)* Wolverton, *(b)* Central Milton Keynes and *(c)* Bletchley train stations per day for (i) peak and (ii) non-peak journey times in the latest period for which figures are available; and what projection has been made of the likely numbers in each year until 2031. [197301]

Mr. Tom Harris: Depending on the time of year, a total of between 15,000 and 20,000 rail passengers use the three stations within the Milton Keynes region every weekday. The morning peak period carries between 5,000 and 8,000 of the daily passengers, the evening peak is almost as popular, and the remainder travel outside of these times. Over two-thirds of all the passengers have an ultimate origin or destination of London.

We expect numbers to continue to grow significantly over the next few years as a result of the projected population growth in the Milton Keynes region. The Department is providing for this growth by lengthening most peak time trains to 12 cars during 2009. Figures for individual stations are matters for London Midland.

The Department is currently engaged with Milton Keynes council in assessing the projected passenger numbers in the region as far ahead as 2031 as part of the Intercity Express project.

Railways: Freight

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the steps that need to be taken to facilitate rail freight movements from Felixstowe via Ipswich and Huntingdon to the midlands; what she estimates the cost of such steps to be; and if she will make a statement. [195940]

Mr. Tom Harris: The Network Rail Freight Route Utilisation Study, published March 2007, identified the Felixstowe, Ipswich and Peterborough to Nuneaton route as requiring gauge and capacity enhancement to meet growth in demand.

Hutchison Ports (UK) Ltd. (HPUK)—the owner of the Port of Felixstowe—is funding the cost of upgrading the gauge capability and capacity of the route between Felixstowe, Ipswich, Peterborough and the east coast main line and South Yorkshire.

The funding commitment from HPUK was made through a Section 106 agreement relating to the planning approval for Port of Felixstowe south quay reconfiguration.

The Peterborough to Nuneaton route has received £80 million in funding support through the Transport Innovation Fund (TIF) for gauge and capacity enhancements to complement the work east of Peterborough. This work will start in April 2008.

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the potential for the diversion of freight traffic from the A14 to the rail network *(a)* in the absence of improvements to the rail network and *(b)* following improvement of the rail path from Felixstowe to the midlands. [195941]

Mr. Tom Harris: The business case supporting the Peterborough to Nuneaton gauge and capacity enhancement scheme, for which Productivity Transport Innovation Fund funding was announced in October 2007, estimated that these improvements have the potential to remove 65,000 lorry journeys per annum from a number of roads including the A14 when completed.

Railways: Greater London

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the implications for longer-distance commuters of the proposals of the Mayor of London in relation to Southern Metro services including their transfer to his responsibility; and if she will make a statement. [195944]

Ms Rosie Winterton: The Department for Transport has received a proposal from the Mayor of London regarding his involvement in the South Central franchising process. We continue to consider the proposal and its implications on all users of the railway.

Railways: Land

Mrs. Villiers: To ask the Secretary of State for Transport who in her Department is responsible for monitoring BRB (Residuary) Limited's compliance with Departmental guidance on the sale of disused railway lines. [193982]

Mr. Tom Harris: Ministers are responsible for monitoring BRB (Residuary) Limited's compliance with the departmental guidance on the sale of disused railway lines. In addition, officials from the Department for Transport are members of the Property Review Group which has been established by the company in accordance with that guidance.

Railways: Repairs and Maintenance

Bob Russell: To ask the Secretary of State for Transport if she will seek an explanation from Network Rail for delays to maintenance work over the Easter holiday on the rail network from Essex into London Liverpool Street; what procedures were put in place following delays to maintenance work on the same network over the new year holiday to prevent a recurrence; and if she will make a statement. [197563]

Mr. Tom Harris *[holding answer 31 March 2008]*: These are operational matters for Network Rail. Although the Government have no power to intervene in Network Rail's operations, Ministers regularly meet with Network Rail to discuss a range of issues relating to the railways.

Railways: Standards

Stephen Hammond: To ask the Secretary of State for Transport pursuant to the Answer of 18 March 2008, *Official Report*, columns 952-3W, on Great Western Trains, if she will make it her policy to place in the Library copies of each train operating company's four-weekly report on their joint performance improvement plans as soon as they are available. [198400]

Mr. Tom Harris: The four-weekly reports on joint performance improvement plans contain commercially sensitive information; therefore, it would not be appropriate for these reports to be available in the Library.

Railways: Tickets

Norman Baker: To ask the Secretary of State for Transport what progress is being made in extending Oyster card deployment to national rail services in the Greater London area. [195947]

Mr. Tom Harris: The Department for Transport, Transport for London and train operators are working together on the acceptance of Oyster 'Pay As You Go' on rail services in the London Travelcard zones and the acceptance of ITSO smartcards on Oyster equipment. Commercial and contractual negotiations are taking place.

Road Traffic

Norman Baker: To ask the Secretary of State for Transport (1) what the average delay on motorways and trunk roads was for *(a)* all journeys and *(b)* the 10 per cent. most delayed journeys in each region in each year since 1997; [191814]

(2) which routes accounted for the most delayed journeys on motorways and trunk roads in each year since 1997; and what the average delay on each of these routes was in each of those years. [191815]

Mr. Tom Harris: Figures for total and average vehicle delay for individual routes on England's motorways and trunk roads have been placed in the House Libraries. These present delays in respect of all journeys and the worst 10 per cent. of journeys in each year since 2004-05. The earliest available data are for the period August 2004 to July 2005 and the latest for January 2007 to December 2007. Data before 2004-05 are not held on this basis.

These figures represent average daytime delays (6.00 am to 8.00 pm) on the 91 routes currently used for monitoring performance on the strategic road network. Figures are presented on a rolling year basis.

Delay is calculated as the difference between observed journey time and a reference journey time (the time that could theoretically be achieved when the traffic is free flowing).

Figures for average delays on motorways and trunk roads for individual regions are not calculated on this basis.

Roads: Accidents

Mr. Amess: To ask the Secretary of State for Transport (1) what research has been *(a)* commissioned and *(b)* evaluated by her Department on the number of (i) fatal, (ii) serious and (iii) minor road accidents caused by the driver using on a mobile telephone; and if she will make a statement; [198673]

(2) how many road accidents were caused by the driver using a mobile telephone in each of the last two years for which information is available; and how many *(a)* males and *(b)* females (i) were killed, (ii) were seriously injured and (iii) received minor injuries, broken down by (A) driver, (B) front seat passenger and (C) rear seat passenger. [198674]

Jim Fitzpatrick: The Department has not commissioned research into the numbers of accidents caused by a driver using a mobile phone and is unaware of research specifically into the numbers of accidents. The Department is aware of research available elsewhere into the risks posed by the use of a mobile phone while driving. That is summarised in sections 5.201 to 5.214 of the report (published in 2000) of the Independent Expert Group on Mobile Phones (the Stewart Report) on "Mobile Phones and Health" — available on-line at:

www.iegmp.org.uk/report/text.htm

Contributory factor data recorded by police officers in their statistical returns to the Department has indicated there were 306 reported personal injury road accidents with 'driver using mobile phone' in 2005. In 2006, this figure was 345.

The numbers of *(a)* males and *(b)* females who were (i) killed, (ii) seriously injured and (iii) slightly injured in personal injury road accidents, reported at the scene by a police officer, involving 'driver using mobile phone' as a contributory factor, by casualty class in 2005 and 2006 are given in the table. Pedestrian casualties are not included in the table.

Number of casualties

		2005			2006		
Casualty severity	*Casualty class*	*Male*	*Female*	*Total*[1]	*Male*	*Female*	*Total*[1]
Killed	Driver or rider	8	3	11	17	8	25
	Car front seat passenger	0	0	0	2	1	3
	Car rear seat passenger	0	0	0	3	0	3
	Other-vehicle passenger	0	0	0	0	0	0
Seriously injured	Driver or rider	30	12	42	31	22	53
	Car front seat passenger	4	3	7	3	5	8

Number of casualties

Casualty severity	Casualty class	2005 Male	2005 Female	2005 Total[1]	2006 Male	2006 Female	2006 Total[1]
	Car rear seat passenger	2	0	2	1	2	3
	Other-vehicle passenger	1	1	2	0	0	0
Slightly injured	Driver or rider	175	89	264	170	127	297
	Car front seat passenger	23	31	55	22	42	64
	Car rear seat passenger	16	22	38	11	26	37
	Other-vehicle passenger	1	4	5	12	10	22

[1] Includes cases where gender is not given

The contributory factor 'Driver using mobile phone' includes 'hand held' and 'hands free' phones.

Roads: Finance

Norman Baker: To ask the Secretary of State for Transport what the total budget allocated to major road schemes is for *(a)* 2007-08, *(b)* 2008-09, *(c)* 2009-10 and *(d)* 2010-11. [195924]

Mr. Tom Harris: The Highways Agency's total budget for delivery of major improvement schemes in 2007-08 was £969 million.

The Highways Agency's budget is set annually and so only available for 2008-09. The Highways Agency's 2008-09 budget for major improvement schemes is £1,049 million.

Roads: Rural Areas

Andrew George: To ask the Secretary of State for Transport what steps her Department is taking to reduce deaths and injuries on rural roads. [198378]

Jim Fitzpatrick: The majority of the Department's road safety policies will have an impact on the number of deaths and serious injuries on rural roads. In addition there are a number of policies specifically aimed at the rural road network.

The Department is investing £8 million in a Rural Road Safety Demonstration Project which will be introduced from 1 April 2007 and continue for three years.

The Rural Road Safety Demonstration Project is intended to demonstrate good practice for local highway authorities in developing and implementing an area wide, data-led, strategy for addressing road casualty reduction in rural areas. It is intended that good practice guidance will be developed from the knowledge gained during the project, and that this will be disseminated to other highway authorities.

The Department also published guidance to local authorities on setting local speed limits in August 2006. This requests local traffic authorities to review speed limits on their A and B roads, and implement any necessary changes by 2011.

Lower speed limits are encouraged where the evidence or characteristics of the road warrant this. But equally local traffic authorities should consider increasing limits if it is warranted and can be done safely.

Single European Sky Initiative

Norman Baker: To ask the Secretary of State for Transport what steps she is taking to promote the introduction of the Single European Sky initiative. [197577]

Jim Fitzpatrick: The Government support the Single European Sky (SES) and the associated Single European Sky Air Traffic Management Research (SESAR) Project and are working to ensure that the objectives of these two efforts are fully met.

The UK is an active member, through both the Department for Transport (DfT) and the Civil Aviation Authority (CAA), of the Single Sky Committee (SSC) which was established in 2004 to give strategic direction. Senior officials from the Department also participated in the High Level Group, which was created by the European Transport Commissioner, to look at the future of the European Aviation Regulatory Framework; the Government fully support its ten recommendations and action plan that were published in July 2007.

The European Commission are currently working on the drafting of a second package of SES legislation and both the CAA and relevant divisions of the DfT are engaged in that work. The Government will closely scrutinise the proposals for this second package when they are issued later this year.

Somerset County Council

Mrs. Villiers: To ask the Secretary of State for Transport what meetings her Department has had with the Executive of Somerset County Council in the last three years. [193980]

Mr. Tom Harris: The Department has met with officers at Somerset county council on a number of occasions over the last three years to discuss transport and operational issues. The following included the attendance of representatives from the Council's Executive:

24 July 2006—Presentation to Somerset County Council at Road Safety Workshop.

In addition members of the Council's Executive may also have been present at meetings over the last three years between the Department for Transport and the South West Regional Assembly or other regional partnership bodies.

Southern: Trains

Sir Malcolm Rifkind: To ask the Secretary of State for Transport whether she has made an estimate of the number of dual-voltage trains that would be needed to operate both the Watford to Brighton service and the Thameslink service. [198245]

Mr. Tom Harris: 109 dual-voltage trains will be required to operate the Thameslink service from March 2009. If the Watford-Brighton service were to be retained in its present form, and if the resources were to be set aside for that service, the requirement would be eight trains.

Speed Limits: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport what estimates her Department has made of the changes in carbon dioxide emissions attributed to the variable speed limits in force on the M25 in each year since the scheme was introduced. [197571]

Mr. Tom Harris: The change in carbon dioxide emissions was estimated as part of the evaluation of the M25 J15-16 controlled motorway scheme. The variable speed limits were operational in the morning (7am to 11am) and evening (3pm to 7pm) peak periods. The assessment showed a reduction in carbon dioxide emissions of 4.5 per cent. on the northbound section and a reduction of 2.9 per cent. on the southbound section during the peak hours. This translates into a potential weekday saving measured over a calendar year of 1,184 tonnes of carbon dioxide for J15-16.

Changes in other years and on other sections are expected to be similar.

Norman Baker: To ask the Secretary of State for Transport (1) what account the advanced motorway signalling and traffic management feasibility study took of the impact of carbon dioxide emissions of active traffic management operating at *(a)* 50 mph and *(b)* 60 mph; and if she will make a statement; [197572]

(2) what estimate she has made of the effect on carbon dioxide emissions if the maximum speed for hard shoulder running in the modelling for the advanced motorway signalling and traffic management feasibility study were reduced from 60 mph to 50 mph. [197573]

Mr. Tom Harris: All traffic modelling of the impacts of hard shoulder running undertaken as part of the advanced motorway signalling and traffic management feasibility study was carried out on the basis of a 60 mph speed limit during operation of the hard shoulder as a running lane.

The additional modelling undertaken to ascertain the effects on emissions of the smoothing of the traffic flow brought about by the imposition of controlled lower speed limits and hard shoulder running was done using average speed emissions curves based on actual data collected during the M42 pilot, which operated a 50 mph limit for hard shoulder running. It was not possible to provide a comparison with a 60 mph limit.

Following detailed safety assessment, hard shoulder running with a 60 mph speed limit is the standard to be adopted for future hard shoulder running schemes, starting with the M42 where this has been operational since 18 March. As a larger data set for hard shoulder running becomes available, the speed emissions relationships will be reviewed.

Further detail on the modelling undertaken is set out in the advanced motorway signalling and traffic management feasibility study report and technical annex, which are available on the DfT website at:

http://www.dft.gov.uk/pgr/roads/network/policy/mtorsigntrafmanagement/

Thameslink: Trains

Sir Malcolm Rifkind: To ask the Secretary of State for Transport how many dual-voltage trains will be available to run on Thameslink following the decision to order 11 new trains; and how many trains will remain on the West London Line. [198246]

Mr. Tom Harris: 109 dual-voltage trains will be available to run on Thameslink, so that there will now be no need to transfer class 377 (Electrostar) trains from the West London Line to Thameslink. However, Southern has now lost the opportunity to use class 465 (Networker) trains, which were to have been transferred from Southeastern, because of gauge clearance problems on Southern routes. In the light of this information, Southern is now having to re-assess the rolling stock allocations for all its suburban routes.

Sir Malcolm Rifkind: To ask the Secretary of State for Transport what her policy is on the proposal to transfer trains from the West London Line to Thameslink since the order of 11 new trains for Thameslink. [198247]

Mr. Tom Harris: There will now be no need to transfer class 377 (Electrostar) trains from the West London Line to Thameslink. However, Southern has now lost the opportunity to use class 465 (Networker) trains, which were to have been transferred from Southeastern, because of gauge clearance problems on Southern routes. In the light of this information, Southern is now having to re-assess its rolling stock allocations.

Train Operating Companies: Rolling Stock

Norman Baker: To ask the Secretary of State for Transport what requests have been received from train operating companies for extra rolling stock which have been *(a)* agreed to and *(b)* rejected since 1 January 2005. [190559]

Mr. Tom Harris: There are a number of discussions which have taken place since 2005 which have resulted in contract orders on a number of train operating companies.

Contract date	*TOC*	*Number of vehicles*	*Type*
May 2005	Chiltern	6	Diesel
June 2005	Southeastern	174	Electric

Contract date	TOC	Number of vehicles	Type
February 2006	SWT	68	Electric
May 2007	Southern	48	Electric
August 2007	London Midland	148	Electric
December 2007	London Midland	69	Diesel
January 2008	Chiltern	8	Diesel

Transport: Higher Civil Servants

Mrs. Villiers: To ask the Secretary of State for Transport to which (*a*) private companies, (*b*) other organisations and (*c*) lobbying organisations in the transport sector former senior officials from her Department have gone to work on leaving the Department in the last five years. [194000]

Jim Fitzpatrick: Before departure, all Senior Civil Service staff are reminded of their obligation under the business appointment rules to seek permission before accepting an outside appointment within two years of leaving Crown Service.

Senior Civil Servants' applications to accept outside appointments in the last five years were to the following organisations:

(a) Private Companies

Price Waterhouse Coopers
Bomel
Accord Consultancy Services
WSP Management and Consultancy
Consultancy for Association of Train Operating Companies
Jacobs UK Ltd
British Airways (Airline Flight Safety Review Board)
Serco Science
Alpha to Omega Motoring Ltd
Faber Maunsell
Det Norske Veritas
Mouchel Parkman Services
Steer Davies Gleave
Brookings Institute (USA)
Consultant for EDS
Downer EDI Works ltd (in New Zealand)
GNER/MTR
Securicor

(b) Other Organisations

Civil Aviation Authority
Transport for London
Guide Dogs for the Blind
Disability Rights Commission
Government of Ontario
European Commission
St Johns Ambulance
Northampton County Council
Essex County Council
Transport Research Laboratory

(c) Lobbying Organisations

No applicants have classified their prospective employer as a Transport lobbying organisation, but some of those under(a) will carry out lobbying activity in this area.

Tyne and Wear : Metro:

Mr. Hepburn: To ask the Secretary of State for Transport (1) how much capital funding from the public purse the Tyne and Wear Metro received in each year since 1997; [197658]

(2) how many people were prosecuted for fare evasion on the Tyne and Wear Metro in each year since 1997; [197656]

(3) how many passengers travelled on the Tyne and Wear Metro in each year since 1997. [197632]

Mr. Tom Harris: The figures for passenger journeys and prosecutions are as follows.

	Number of Passenger journeys (million)	Number of Prosecutions (as advised by Nexus)
1997-98	35.0	1,220
1998-99	33.8	3,015
1999-2000	32.7	1,904
2000-01	32.5	1,877
2001-02	33.4	2,827
2002-03	36.6	2,995
2003-04	37.9	3,477
2004-05	36.8	4,627
2005-06	35.8	5,723
2006-07	37.9	5,736

The prosecutions are mostly for fare evasion but the figures include a small element for other offences, for example relating to trespass and disorder. A precise breakdown is not available.

Since April 1997 the Government have provided the following specific capital funding.

	Purpose	£ million
1999-2000 to 2003-04	Extension of the Metro to Sunderland	37.465
2000-01	Metrocar refurbishment	0.46
2002-03 to 2004-05	Four Lane Ends Bus/Metro Interchange	7.625
2000-01	CCTV provision	7.2

The Government have also supported investment in the Metro through local transport capital block funding provided to the Tyne and Wear local authorities and the Passenger Transport Executive (Nexus) though the local transport plan (LTP) system and previous arrangements. The proportion of this funding spent on the Metro is a matter for the local LTP partners and information is not held centrally. Nexus has also received grants from the European Commission for Metro capital funding.

In addition the Government have provided an annual subsidy for the Metro in every year since 1997. Up to and including 2004-05 this was provided solely as revenue support although Nexus were able to use

this for capital spending on the Metro. In 2005-06 and 2006-07 the annual subsidy has included a specific element of capital grant of £4.180 million and £4.305 million respectively.

Vehicle and Operator Services Agency: Consultants

Mrs. Dunwoody: To ask the Secretary of State for Transport how much was spent by Vehicle and Operator Services Agency on consultants in each of the last five financial years. [197919]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) was formed in April 2003, since then VOSA's consultancy costs are as follows:

	£ million
2003-04	3.0
2004-05	3.4
2005-06	1.4
2006-07	3.0
2007-08	2.4

Year to date

Vehicle and Operator Services Agency: Finance

Mrs. Dunwoody: To ask the Secretary of State for Transport what the total Vehicle and Operator Services Agency staff salary bill was in each of the last five financial years. [197920]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) was formed in April 2003, since then VOSA's total staff salary bill has been as follows:

	£000
2003-04	69,081
2004-05	78,018
2005-06	85,671
2006-07	86,268
2007-08	-

Figures not available yet

Vehicle and Operator Services Agency: ICT

Kelvin Hopkins: To ask the Secretary of State for Transport for what reason laptops and hand-held devices issued within the Vehicle and Operator Services Agency have been recalled; what effect this recall is expected to have on enforcement and other activities; and when it is expected that all laptops and hand-held devices will be reissued to staff. [190238]

Jim Fitzpatrick: In accordance with Government-wide direction, the Vehicle and Operator Services Agency (VOSA) implemented the policy that no unencrypted departmental laptops or drives containing personal data should be taken outside secured office premises.

The agency minimised the impact on its enforcement activities through increased use of encrypted mobile compliance devices (MCDs), laptops with printing function disabled, and temporary paper-based enforcement processes.

The overall impact was a temporary reduction in VOSA's normal enforcement performance of about 20 per cent. The agency completed deployment of encrypted operations laptops on 11 March 2008.

Vehicle and Operator Services Agency: Manpower

Mrs. Dunwoody: To ask the Secretary of State for Transport what plans she has for (*a*) future numbers of Vehicle and Operator Services Agency inspection staff and (*b*) their terms of employment. [197917]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) has (*a*) no plans to alter the number of inspection staff in test stations in the future, however, there are plans to increase the number of staff involved in enforcement activity. There are 30 new frontline posts as a result of re-investing under the Gershon review and 97 posts as a result of additional DFT funding.

(*b*) The posts will be recruited with staff on newly agreed flexible working patterns to allow the continued roll-out of extended working patterns which was piloted at ports in the south-east.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether there are plans to alter the (*a*) number and (*b*) terms of employment of Vehicle and Operator Services Agency staff who will issue fixed penalty notices. [197924]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) has no plans to alter the (*a*) number and (*b*) terms of employment of Vehicle and Operator Services Agency staff that will issue fixed penalty notices. However, VOSA is rolling out revised working patterns for Enforcement staff on a staged basis, with a view to having as many as possible 24/7 shift working contracts over the coming year or two.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on trends in opium production in Afghanistan. [196704]

Dr. Howells: The UN Office on Drugs and Crime (UNODC) conducts annual surveys of opium cultivation in Afghanistan. We remain concerned by the total opium cultivation figures, but welcome the UNODC's findings in its Rapid Assessment survey, that they expect cultivation to "decrease slightly in 2008". Poppy cultivation has increased primarily in the south, where insecurity is greatest. In the north and east—where security, alternative livelihoods and governance exists—poppy cultivation has fallen: in 2007, the number of poppy free provinces doubled from six to 13. (Further information is available in the joint UK/US paper, 'Fighting the Opium Trade in Afghanistan: Myths, Facts, and Sound Policy'—available on the counter narcotics page at:

www.fco.gov.uk/ukandafghanistan).

This year we hope to see further progress and support the government of Afghanistan's target of over half of all provinces becoming poppy free in 2008. The following data are drawn from the UNODC surveys.

	Estimated opium poppy cultivation (hectares)	*Potential total volume of opium production (metric tonnes)*
2007	193,000	8,200
2006	165,000	6,100
2005	104,000	4,100
2004	131,000	4,200
2003	80,000	3,600
2002	74,000	3,400
2001	8,000	185
2000	82,172	3,276
1999	91,983	4,565
1998	64,674	2,693

Armenia: Elections

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the (*a*) conduct and (*b*) outcome of the election in Armenia on 19 February 2008; and if he will make a statement. [197033]

Mr. Jim Murphy: The UK supports the various pre-election and post election interim assessments made by the independent International Election Observation Mission (IEOM), in which it participated. These generally noted some improvements on previous elections, highlighting for example genuine attempts to address previously identified shortcomings; a non-discriminatory candidate registration process; the ability of candidates to campaign at public meetings; and improvements in electoral legislation and in the accuracy of the national register of votes.

The IEOM however, raised many concerns, such as the lack of clear separation between state and party functions and the unequal treatment of candidates in the media; and the vote count in some 16 per cent. of polling stations visited was assessed as "bad" or "very bad". A subsequent interim report from the IEOM three weeks later, following the handling of complaints, appeals and recounts, was much more critical of these processes. The Armenian Constitutional Court rejected appeals from opposition candidates challenging the election results.

With EU partners and bilaterally, we have expressed our serious concerns about recent political developments in Armenia, including violent clashes with demonstrators on 1 March, which resulted in eight deaths and scores of injured. We have urged the Armenian government to engage in a dialogue with the opposition to address their concerns. We welcome the recent lifting of the state of emergency in Yerevan, but we urge the Armenian authorities to lift continuing restrictions on freedom of assembly; to avoid further harassment of opposition politicians and ensure that any prosecutions are handled in a transparent and fair manner; to ensure an independent and open inquiry into the events of 1 March; and to address the substantive concerns raised by the IEOM.

Bombs

Roger Berry: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to ensure that civil society organisations will have a strong voice during the negotiations in May on a treaty banning cluster munitions. [196859]

Dr. Howells: The Government welcomes the continued active participation of civil society organisations in the Oslo Process on cluster munitions. At the Dublin meeting in May, final negotiations on the text of a treaty will take place and civil society organisations are being invited to attend by the Government of Ireland as observers as per the rules of procedure for Dublin which can be found at:

http://www.clustermunitionsdublin.ie/pdf/draft-rules-for-dublin-c-en.pdf.

The Government are pleased with the outcome of the last Oslo Process meeting in Wellington (18-22 February), where the UK was able to join many other nations in supporting the Wellington Declaration this document can be found at:

http://www.mfat.govt.nz/clustermunitionswellington/conference-documents/Wellington-declaration-final.pdf.

We believe that this declaration and the associated compendium of proposals, which includes contributions from the International Committee of the Red Cross and the Cluster Munition Coalition, pave the way for a successful outcome in Dublin, securing a legally binding instrument prohibiting the use, production, transfer and stockpiling of those cluster munitions that cause unacceptable harm to civilians.

Central African Republic: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received reports of Lord's Resistance Army troop movements into the Central African Republic; and if he will make a statement. [197078]

Meg Munn: The Government are aware of unverified reports that the Lord's Resistance Army is relocating from Garamba national park, in the Democratic Republic of Congo, to the Central African Republic.

Chad: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of recent claims by the Government of Chad of Sudanese support of rebel forces active in Chad; and if he will make a statement. [196913]

Meg Munn: We are aware of reports that both Sudan and Chad continue to support each other's rebels. The Government, together with the UN, the EU and the African Union, has urged both sides to cease all support for armed groups in the region, commit to a peace process and abide by previous ceasefire agreements.

Chad: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the *(a)* political and *(b)* security situation in Chad; and if he will make a statement. [196919]

Meg Munn: The political and security situation in Chad remains unstable following rebel incursions into the capital, N'Djamena, on 2 February 2008. The UN estimated that roughly 30,000 people were forced to flee into neighbouring Cameroon during the fighting, though many Chadians have now returned to N'Djamena.

In the East, roughly 13,000 new refugees have crossed the border from Sudan. UN and humanitarian operations in Eastern Chad were curtailed during the fighting, but have largely returned to normal. EUFOR, the EU force in Eastern Chad and the Central African Republic, has now reached initial operating capability and will increase security around refugee and Internally Displaced Persons camps.

The Dakar Accord was signed by the Chadian President Idriss Deby Itno and the Sudanese President Omar Hassan Bashir in Senegal on 13 March 2008. It commits the two countries to reconciling their differences, normalising relations and contributing to stability in the region. The Government welcome the signing of this agreement.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives in (i) N'Djamena and (ii) Yaounde have had with (A) members and (B) representatives of the government of Chad on the (1) grounds for and (2) nature of the detention of former President Lol Mahamat Choua; and if he will make a statement. [197133]

Meg Munn: The UK is represented in Chad through our high commission in Yaounde. We have not had any bilateral contact with members or representatives of the government of Chad on this issue. We are supporting EU efforts to investigate the circumstances surrounding the detention of Lol Mahamat Choua and the arrest of several other Chadian political opposition leaders. EU representatives have been in contact with Chadian opposition politicians.

The EU General Affairs and External Relations Council Conclusions of 18 February 2008 stated

> "The Council expresses its deep concern over the arrest of members of the unarmed political opposition in Chad, including Mr. Choua. The Council calls on President Deby to show restraint and immediately release these detainees".

We will continue to support EU initiatives encouraging an official Chadian Commission of Inquiry into this matter.

Chad: Sudan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the accord signed between the Governments of Chad and Sudan at the Dakar summit on 14 March; and if he will make a statement. [196910]

Meg Munn: The Dakar Accord was signed by the Chadian President Idriss Deby Itno and the Sudanese President Omar Hassan Bashir in Senegal on 13 March 2008. It commits the two countries to reconciling their differences, normalising relations and contributing to stability in the region. The Government welcome the signing of this agreement. We will make clear to both Chad and Sudan that we expect them to abide by the terms of this agreement.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department *(a)* offered and *(b)* provided to the Government of Senegal in reaching the Dakar agreement between the Governments of Chad and Sudan; and if he will make a statement. [196911]

Meg Munn: The Dakar Accord between Chad and Sudan was an initiative of President Wade of Senegal. The Government were not asked for any assistance in facilitating the agreement.

We welcome the Dakar Accord and will make clear to both Chad and Sudan that we expect them to abide by the terms of this agreement.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of peace accords reached between the Governments of Sudan and Chad in the last five years; and if he will make a statement. [196912]

Meg Munn: There have been several peace accords between Chad and Sudan in the last five years. The most notable of these are the Tripoli Agreement of 8 February 2006, the Khartoum Agreement of 28 August 2006, the Cannes Declaration of 15 February 2007 and the Riyadh Agreement of 3 May 2007. These agreements have not been respected by the Governments of Chad and Sudan.

The Government welcome the new Dakar Accord, signed on 13 March 2008 by President Idriss Deby Itno of Chad and President Omar Hassan Bashir of Sudan. We will make clear to both Chad and Sudan that we expect them to abide by the terms of this agreement.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of relations between Sudan and Chad; and if he will make a statement. [196920]

Meg Munn: Tensions between Chad and Sudan remain high following the cross-border fighting in January 2008 and the Chadian rebel incursions into N'Djamena on 2 February 2008. The Dakar Accord, signed in Senegal on 13 March 2008, commits both sides to reconciling their differences, normalising relations and contributing to stability in the region. We will make clear to both Chad and Sudan that we expect them to abide by the terms of this agreement.

Colombia: Armed Conflict

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what the evidential basis is for the statement that Justice for Colombia supports the Revolutionary Armed Forces

of Colombia made by the Minister of State for South America; and if he will make a statement. [196922]

Dr. Howells: This Government regard an active civil society, able to operate freely and without fear, as a fundamental aspect of any democracy, particularly so in a country as dangerous as Colombia. Trade unionists have an absolutely key role in this.

We welcome the opportunity to work with all those organisations who share our goal of promoting peace and prosperity in Colombia, including the Trades Union Congress and Justice for Colombia. We intend to work closely with British trade unions and their affiliated bodies to uphold the rights and security of trade unionists in Colombia.

Colombia: Trade Unions

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Colombia on the *(a)* protection of trade unionists in that country and *(b)* deaths of Antonio Gomez and Carmen Carvajal Ramirez; and if he will make a statement. [196921]

Dr. Howells: We regard human rights defenders and trade unionists as a fundamental part of Colombian civil society. We have repeatedly urged the Colombian government to do their utmost to ensure that these brave people can take forward their essential work safely and with adequate protection. I did so when visiting Colombia in November 2007, and my right hon. Friend the Foreign Secretary did so with the Colombian Vice President in March. I also reiterated the Government's strong support to a delegation of Colombian trade unionists who visited the UK in early March, a visit co-organised by the Foreign and Commonwealth Office and the Trades Union Congress (TUC).

I have urged the Colombian government to continue with its programme of expanding protection to trade unions and other human rights defenders, including when I spoke to Vice President Santos and the new Colombian Ambassador to London in March 2008. We will continue to discuss with the Colombian TUC and their UK counterparts how this Government can offer its practical support to Colombian trade unionists.

We make regular and numerous representations to the Colombian government on specific cases of abuse of trade unionists. I have asked our Embassy in Bogota to make representations to the Colombian government on the cases of Antonio Gomez and Carmen Carvajal Ramirez, and will write to the hon. Member with the outcome of those representations once the Embassy receives a response. I will also arrange for copies of the letter to be placed in the Library of the House.

Credit Cards: Fraud

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government has taken to encourage UK citizens to minimise the risk of credit card fraud whilst abroad. [198126]

Meg Munn: The Foreign and Commonwealth Office website warns British nationals travelling abroad, of known credit card scams and frauds in its country specific Travel Advice pages. In addition, there is general advice on how to avoid credit card fraud while travelling abroad in the travelling-and-living abroad section:

http://www.fco.gov.uk/en/travelling-and-living-overseas/staying-safe-/travel-insurance/credit-card-protection.

Departmental Databases

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 March 2008, *Official Report*, columns 642-3W, on departmental databases, which US-registered service providers have been engaged; and what types of personal information they have been engaged to manage. [197146]

Meg Munn: The Foreign and Commonwealth Office does not hold this information centrally and it could be obtained only at disproportionate cost.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197062]

Meg Munn: No staff from the Foreign and Commonwealth Office, or its agencies, have attended the Influencing with Integrity, Emotional Intelligence, Counselling Skills for the Workplace, Managing your Confidence, Balancing Work/Life Realities and Working Assertively training course run by the National School of Government in the last 12 months.

Entry Clearances

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many ancestral visas were issued in the last five years for which figures are available; and what the countries of origin were of the applicants to which they were issued. [196957]

Mr. Jim Murphy: Figures for ancestral visas are only available for the last four years and are as follows:

Nationality	*2004*	*2005*	*2006*	*2007*	*Grand total*
Australia	4,230	4,742	4,548	3,779	17,299
New Zealand	2,165	2,092	2,247	2,064	8,568

International Criminal Tribunal for the former Yugoslavia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives in (i) Zagreb and (ii) Belgrade have had with (A) members and (B) representatives of the Governments of (x) Croatia and (y) Serbia on the (1) beginning of the trial of General Ante Gotovina, (2) co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY), (3) future co-operation with the ICTY and (4) (aa) diplomatic and (bb) economic incentives for such co-operation; and if he will make a statement. [197179]

Mr. Jim Murphy: The International Criminal Tribunal for the Former Yugoslavia's (ICTY) view is that Croatia continues to co-operate fully with ICTY and has done so since October 2005. We welcome this. We have not held formal meetings with the Croatian Government to discuss the opening of the trial of General Ante Gotovina. Continued full co-operation with ICTY remains a condition for their progression on the EU accession track.

The issue of Serbia's co-operation with ICTY arises regularly in ministerial and official-level contacts with the Serbian Government. We regularly press the Serbian Government to fully co-operate with ICTY.

The UK is committed to seeing all four outstanding ICTY indictees, including Ratko Mladic and Radovan Karadzic, arrested and brought to trial before the Tribunal. The UK has given full and consistent support, both practical and political, to ICTY's work.

Kenya: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the vote in Kenya's parliament on 18 March, unanimously approving the power-sharing agreement between Mr. Odinga and Mr. Kibaki; and if he will make a statement. [196915]

Meg Munn: The Government welcomed the power-sharing agreement signed by President Kibaki and Prime Minister-designate, Raila Odinga, on 28 February. The constitutional reforms passed unanimously on 18 March to enshrine the agreement in law. It is important that Kenya's leaders display the leadership, patience and tolerance necessary to ensure that the agreement is implemented in full.

Kosovo: Civil Disorder

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the civil unrest in Mitrovica on 18 March; and if he will make a statement. [197084]

Mr. Jim Murphy: Our embassy in Pristina provided detailed reporting on the disturbances in Mitrovica on 17 March 2008. We understand that the UN Mission in Kosovo (UNMIK) will be carrying out an investigation into the events of the day.

On the morning of 17 March, UN police entered the UN court building in Mitrovica to arrest Kosovo Serb protestors who had occupied the building on 14 March. In response, Kosovo Serbs attacked UNMIK police and the North Atlantic Treaty Organization (NATO Kosovo Force (KFOR)) troops, including with grenades and small arms fire. 25 UNMIK police officers and 22 KFOR troops were injured and one Ukrainian police officer was killed. Serbian media report that around 70 Kosovo Serb civilians were injured. We have strongly condemned the violent disturbances directed against UN and NATO personnel. The situation is currently calm but tense in northern Kosovo and stable elsewhere. Our embassy in Pristina continues to monitor the situation on the ground in Northern Kosovo.

Nagorno Karabakh

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he and *(b)* his officials have had with the government of (i) Azerbaijan, (ii) Armenia, (iii) Russia, (iv) the US and (v) with the European Commission on (A) reported statements by Azeri President Ilham Aliev on the status of Nagorno-Karabakh, (B) recent reports of armed clashes on 4 March 2008 and (C) possible initiatives in response to events in the region; and if he will make a statement. [197036]

Mr. Jim Murphy: The armed clashes on the line of contact between the Azerbaijani and Armenian forces, along with statements by the leadership of both Azerbaijan and Armenia, have been discussed extensively by our officials in Baku and Yerevan, in Vienna among the Organization for Security and Co-operation in Europe (OSCE) member states, in Brussels among EU partners and between officials in London and the Azerbaijan embassy. I sent a message to the Azerbaijani Foreign Minister urging that they do everything possible to calm the situation, including ensuring that the personal representative of the OSCE chairman in office to the Minsk Group is granted the necessary access to enable him and his staff to obtain clarity of the events of 4 March. Others including the US, the Finnish Foreign Minister, as the OSCE Chairman in Office, the EU Special Representative for the South Caucasus and the EU have issued statements or sent messages urging restraint on both sides.

Officials will remain in close contact with all the relevant parties, including the mediators. We continue to urge all sides to calm the current tensions and to resume contacts leading towards a negotiated settlement, which remains the only way to secure a lasting, peaceful resolution of the dispute.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the recent statements by Azeri President Ilham Aliev on the status of Nagorno-Karabakh; and if he will make a statement. [197083]

Mr. Jim Murphy: We are following closely the situation in Azerbaijan and Armenia following fighting along the Line of Contact between Azerbaijani and Armenian forces on 4 March, and have noted the statements made by both sides since the adoption of a resolution on the occupied territories of Azerbaijan, by the UN General Assembly, on 14 March.

We have seen some suggestions that one, or both of the parties, may withdraw from the Organisation for Security and Co-operation in Europe (OSCE) Minsk Group-facilitated negotiation process for a peaceful settlement to the Nagorno-Karabakh conflict. The EU statement made at the UN on 14 March supported the mediation efforts of the OSCE Minsk Group, expressed support for all steps which contribute to a peaceful resolution of the conflict and called upon all parties to avoid actions which heighten tensions. We will continue to impress upon the sides that there is no sustainable alternative to a peacefully negotiated solution.

Natural Gas: Prices

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the likely political effects of the decision announced on 11 March 2008 by KazMunaiGas, Uzbekneftgaz and Turkmengaz to raise prices for natural gas; what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives have had with the governments of (i) Kazakhstan, (ii) Turkmenistan and (iii) Uzbekistan on the matter; and if he will make a statement. [197034]

Mr. Jim Murphy: It was announced on 11 March, following a meeting between the Chief Executive Officer of Russia's Gazprom and the heads of the Kazakh, Turkmen and Uzbek state gas companies, that Gazprom would pay European market rates for the Central Asian gas that it imports, beginning from 2009. However, the announcement is a framework agreement and the exact pricing formula has yet to be determined. It is expected that the actual price paid for the gas will be based on a net-back formula related to the cost of the gas, less transport costs.

There has been significant press speculation on the agreement and the underlying reasons behind it, in particular on the likelihood that Gazprom will seek to pass on the increased price to Ukraine and the impact that this may have on the price Ukraine pays for its gas. However, until the exact commercial parameters of the agreement are clear, it would be premature to draw conclusions about its likely political effects.

We have not had any formal discussions with the Governments of Kazakhstan, Turkmenistan and Uzbekistan on this issue since 11 March. However, we remain in regular contact, both bilaterally and through the EU, with all three governments on energy related issues.

Organisation of the Islamic Conference

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the achievements of the Organisation of the Islamic Conference since its establishment; and if he will make a statement. [196907]

Mr. Jim Murphy: The Organisation of the Islamic Conference comprises 57 member states from across the Islamic world making it the second largest intergovernmental organisation after the UN. The Foreign and Commonwealth Office considers it an important organisation for intercultural dialogue, reducing poverty and addressing other global and regional issues.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* possibility and *(b)* merits of having a European Union observer at the Organisation of the Islamic Conference (OIC); what discussions (i) he, (ii) his Department and (iii) UK representatives have had with (A) members and (B) representatives of (1) the governments of members states of the OIC, (2) the Permanent Secretariat of the OIC, (3) the governments of member states of the European Union and (4) the European Commission concerning observer status for the EU; and if he will make a statement. [196909]

Mr. Jim Murphy: Formal contact between the EU and Organisation of the Islamic Conference (OIC) currently takes place on an ad hoc basis. The Foreign and Commonwealth Office has not sought observer status for the EU at the OIC.

Russia: Oppression

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives overseas have had with (i) members and (ii) representatives of the Government of Russia on the detention of Maxim Reznick; and if he will make a statement. [197185]

Mr. Jim Murphy: We welcome the news that Maksim Reznik was released from custody on 21 March 2008, following a decision made by the St. Petersburg court.

The UK regularly raises its concerns over human rights violations, including individual cases, both in its annual bilateral consultations and through the EU. The next EU/Russia human rights dialogue will be held on 17 April 2008. We will continue to monitor this case closely.

Serbia: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the proposed resolution by the Serb parliament abandoning Serbia's pursuit of membership of the European Union unless EU member states rescind their recognition of Kosovo's statehood; and if he will make a statement. [197080]

Mr. Jim Murphy: Our embassy in Belgrade closely follows political developments in Serbia. The resolution, proposed by the Radical party, was not endorsed by the Serbian Government and was not debated by the Serb Parliament. The Parliament has now been dissolved pending elections scheduled for 11 May.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* the UK representative in (i) Belgrade, (ii) Pristina and (iii) Moscow have had with (A) members and (B) representatives of the governments of (1) Serbia, (2) Kosovo and (3) Russia on (x) the proposed resolution by the Serb parliament abandoning Serbia's pursuit of membership of the European Union unless EU member states rescind their recognition of Kosovo's statement, (y) possible reactions by the Provisional Institutions of Self-Government in Kosovo and (z) Russia's position on this issue; and if he will make a statement. [197081]

Mr. Jim Murphy: The resolution, proposed by the Radical party, was not endorsed by the Serbian Government and was not debated by the Serb Parliament. The Parliament has now been dissolved pending elections scheduled for 11 May.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* the UK representative in (i) Brussels, (ii) Berlin, (iii) Paris and (iv) Madrid have had with (A) members and (B) representatives of the European Commission and the governments of (1) Germany, (2) France and (3) Spain on (w) the proposed resolution by the Serb parliament, abandoning Serbia's pursuit of membership of the European Union unless EU member states rescind their recognition of Kosovo's statement, (x) possible reactions by the Provisional Institutions of Self-Government in Kosovo, (y) Russia's position on this

issue and (z) the possibility of a co-ordinated response by the EU and member states; and if he will make a statement. [197082]

Mr. Jim Murphy: The resolution, proposed by the Radical party, was not endorsed by the Serbian Government and was not debated by the Serb Parliament. The Parliament has now been dissolved pending elections scheduled for 11 May.

My right hon. Friend the Foreign Secretary last discussed Serbia's European future with his EU colleagues, including those from Germany, France and Spain, and with the European Commission, at the Gymnich meeting in Brdo, Slovenia on 28-29 March.

Somalia: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives overseas have had with (i) members and (ii) representatives of (A) the Transitional Federal Government of Somalia, (B) the government of Ethiopia, (C) the European Union Commission, (D) the governments of member states of the European Union and (E) the United States administration on the recent increase in fighting in (1) Mogadishu and (2) elsewhere in Somalia; and if he will make a statement. [197177]

Meg Munn: The Government maintain regular contact with all of the relevant actors. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, met with President Yusuf in January 2008 and with Prime Minister Hussein at the African Union Summit in February 2008, where he also met Prime Minister Meles of Ethiopia. Officials at our high commission in Nairobi and our embassy in Addis Ababa are in regular contact with the Transitional Federal Government of Somalia, including the President and Prime Minister, and with the Government of Ethiopia. Officials in London, overseas in Nairobi, Addis Ababa, Washington, in Brussels and at the UK Mission to the UN in New York are in regular contact with their counterparts in other EU missions, with the EU Commission and the US administration. Close co-operation with our international partners ensures that our messages and assistance to Somalia are consistent, mutually reinforcing, and supportive of efforts made by the UN Special Representative of the Secretary-General to achieve progress on political, security and humanitarian tracks.

Somalia: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of progress on *(a)* establishing security, *(b)* establishing the rule of law and *(c)* improving humanitarian conditions in Somalia since the beginning of 2007; and if he will make a statement. [197134]

Meg Munn: The Government continue to work with international partners and the UN to make progress on security, rule of law and improving humanitarian conditions in Somalia.

Security remains of concern. The African Union Mission in Somalia (AMISOM), established to provide an external security presence, is still building up its deployment. Most recently, the UK has provided funding to assist Burundian troops to deploy and has funded a reconnaissance visit by the Nigerian military ahead of their planned deployment. Increasing the numbers of AMISOM troops will help to improve the security of Mogadishu. However, long-term security will be dependent on a political solution and the establishment of the rule of law.

The UK contributes to the UN Development Programme Rule of Law and Security programme (ROLS) in Somalia. Through the Department for International Development, the UK has committed £6 million to the ROLS programme since 2006. Currently 3,410 Somali police officers have been trained. These officers will form the core of future civilian law enforcement, leading to a more secure environment for all Somalis.

The humanitarian conditions in Somalia remain very difficult. The Prime Minister, Nur Hassan Hussein, has 17 years of humanitarian experience. He has shown himself an effective partner in tackling both the humanitarian issues and political reconciliation in Somalia. We expect this to lead to improved aid community access to those in need. During 2007, the UK committed £8.6 million in additional humanitarian assistance, beyond our annual programme, to respond to the suffering of the people of Somalia.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* political and *(b)* security situation in Somalia since January; and if he will make a statement. [197176]

Meg Munn: The Government assess that the political situation in Somalia has improved since January, offering a fresh opportunity for Somalis to make real progress on the issues facing that nation. The appointment of Prime Minister Nur Hassan Hussein and the endorsement of his cabinet in January marked a significant point. Since January the Transitional Federal Government has agreed a package of assistance with the European Union, has drawn up a reconciliation plan for clans in Mogadishu and a timetable for a Constitutional Process and has begun working closely with the UN and the international donor community.

The Government assess that the security situation remains fragile. However, further political progress will lead to long-term improvements in the security situation and allow for further reconciliation and state-building to take place. However, we also recognise that progress on building trust between the parties is likely to take time, since Somalia has experienced much violence and suffering during the past 17 years. We therefore continue to encourage all parties to take responsibility for participating in continuing and constructive dialogue to settle their political differences and to call for an end to the violence.

Sri Lanka: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK

representatives in Colombo have had with (i) members and (ii) representatives of (A) the government of Sri Lanka and (B) the Liberation Tigers of Tamil Eelam on (1) civilian deaths since and (2) the humanitarian effects of (x) the resumption of major fighting in Sri Lanka in August 2006 and (y) the government's formal withdrawal from the ceasefire agreement on 2nd January 2008; and if he will make a statement. [197135]

Mr. Jim Murphy: The conflict and its impact on civilians is the focus of high level discussions between the British and Sri Lankan governments. We are gravely concerned by the humanitarian impact of the conflict on the civilian population. All parties to the conflict need to do more to protect civilians.

My right hon. Friend the Foreign Secretary met the Sri Lankan Foreign Minister in November 2007 in Kampala. He said that we stood ready to support a process of reconciliation and underlined the need for respect for human rights and democracy. During visits by my hon. Friend the Minister of State for Foreign and Commonwealth Affairs (Dr. Howells) to Sri Lanka in February and July 2007, he expressed deep concern at the deteriorating human rights and humanitarian situation.

The Government do not regularly meet the Liberation Tigers of Tamil Eelam (LTTE). My right hon. Friend the Member for Torfaen (Mr. Murphy) visited Sri Lanka, including LTTE controlled territory in November 2006, to share his experience of peace-building in Northern Ireland with the parties to the conflict. Officials from our high commission in Colombo and the Foreign and Commonwealth Office meet representatives of a broad range of Tamil views, on a regular basis.

Sudan: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the viability of introducing a no-fly zone in regions of the Sudan; and if he will make a statement. [196908]

Meg Munn: We rule nothing out but we are not currently proposing a no-fly zone for Darfur. We assess that a no-fly zone would restrict essential humanitarian operations and be a major logistical challenge due to the size of Darfur and the lack of available air assets. The UN-African Union Mission in Darfur is mandated to monitor military activity, including flights prohibited by UN Security Council Resolution 1591. We continue to push for its rapid and effective deployment.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the implications of fighting in southern Sudan between the armed forces of Southern Sudan and the Misseriya since late November 2007; and if he will make a statement. [197038]

Meg Munn: We are aware of clashes between units of the Sudan People's Liberation Army and armed elements of the Misseriya tribes in Southern Sudan, and that the UN Mission in Sudan personnel are mediating to end the fighting. We continue to press both the Government of National Unity and the Government of Southern Sudan to deal with the root causes of these clashes and deliver basic services.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the willingness of *(a)* the government of Sudan, *(b)* the Sudanese Liberation Army, *(c)* the Justice and Equality Movement, *(d)* other rebel groups and *(e)* the Janjaweed in Darfur to reach a political solution to the civil war; and if he will make a statement. [197169]

Meg Munn: The African Union and UN Special Envoys assess that there are five main rebel groups in Darfur: the Justice and Equality Movement (JEM), the United Resistance Front (URF) and three factions of the Sudan Liberation Movement (SLM/Abdel Wahid, SLM/Abdel Shafie and SLM/Unity). Of these, SLM/Unity and the URF have publicly stated their readiness to participate in political talks, whereas the other three have yet to do so. The Special Envoys are currently talking to all these groups to encourage them to unify and agree common platforms for negotiations with the government of Sudan. The envoys will return to Sudan on 7 April to continue this process and we have urged them to intensify contacts with the movements.

We welcome the government of Sudan's public commitment to attend further political talks, but this commitment must be matched by action that builds confidence with the rebels, including stopping attacks in Darfur and reigning in the Janjaweed militia, as they committed to in the Darfur peace agreement. Similarly the various movements, including JEM, must cease military activity.

The views of wider Darfuri society, including Arab groups, need to be taken into account in the political process. We are urging the Special Envoys and their staff, and the UN Civil Affairs and the Darfur-Darfur Dialogue and Co-operation (set up as a result of the Darfur peace agreement) to co-operate and work with civil-society in this process.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives have had with (i) members and (ii) representatives of the government of Russia on its position on Darfur (A) prior to and (B) since Ambassador Vitaly Churkin's statement at the UN Security Council meeting on 11 March; and if he will make a statement. [197170]

Meg Munn: Following the 11 March UN Security Council consultations on Darfur, the Security Council agreed that Russia, as Council chair, would brief the media: expressing the Council's concern at the worsening security and humanitarian situation; calling for a cease-fire; reiterating the need for all parties to facilitate the UN African Union Mission in Darfur's (UNAMID) deployment; recalling the obligation of all parties to engage in political talks; and looking forward to a positive result between Sudan and Chad in Dakar.

We have regular discussions with the Government of Russia about Darfur. We have urged Russia to support the effective deployment of UNAMID and to use its

influence with the Government of Sudan to press Sudan to fulfil its commitments and end the violence.

Sudan: Peacekeeping Operations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the time needed to deploy the remaining 17,000 United Nations and African Union troops projected to operate in Darfur; what the main logistical difficulties are in deploying the full number; and if he will make a statement. [197171]

Meg Munn: The UN-African Union Mission in Darfur (UNAMID) currently has approximately 10,500 personnel, including troops, police and other civilian staff. We understand further Egyptian and Ethiopian battalions, and supporting units, are due to deploy by the end of May. As one of the most complex and logistically difficult missions the UN has ever undertaken, UNAMID is unlikely to reach full deployment before the end of 2008.

Several African troop contributing countries require assistance with training and equipping prior to deployment; we are supporting with £4 million to assist their deployment. Delays in generating force capabilities, and lack of co-operation from the Government of Sudan, have also slowed deployment of UNAMID. We are pressing the Government of Sudan to expedite UNAMID deployment and we are working closely with the UN Department for Peacekeeping Operations in lobbying to fill capability shortfalls.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives have had with (i) members and (ii) representatives of the government of Sudan on (A) the current and (B) the proposed deployment of troops as part of the African Union/United Nations hybrid operations in Darfur; what concerns have been raised by the government of Sudan; what conditions have been (1) proposed and (2) attached to the deployment; and if he will make a statement. [197172]

Meg Munn: My right hon. Friend the Prime Minister on 12 March called for the UN-African Union (AU) Mission in Darfur (UNAMID) to be in place as quickly as possible and on 19 March announced £4 million to support African troops deploying for UNAMID. My right hon. Friend the Foreign Secretary called for the speedy deployment of UNAMID in a joint statement with my right hon. Friend the Secretary of State for International Development on 27 February. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, has repeatedly pressed the Government of Sudan to expedite the deployment of UNAMID, including during his visit to Sudan and the AU Summit between 28 January and 1 February. Our ambassador in Khartoum and other officials are also in regular contact with the Sudanese government on this issue.

The terms of UN Security Council Resolution 1769 reflect an agreement between the UN and the AU that UNAMID should be 'predominantly African' in character. This allows for non-African troop contributions, particularly where specific capabilities are required. The Government of Sudan has argued that sufficient troops have been pledged by African countries. We have pressed the AU and the UN to choose the troops needed to ensure an effective mission, irrespective of nationality. And we have called on the Government of Sudan to accept the force composition agreed by the UN and the AU and remove all obstacles to the effective deployment of UNAMID.

Sudan: Sanctions

Stephen Hesford: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage the Chinese government to support UN sanctions against Sudan; and if he will make a statement. [196925]

Meg Munn: My right hon. Friend the Prime Minister discussed Darfur with Chinese Premier Wen during his visit to China on 18 January. UK Ministers subsequently agreed with the Chinese Special Envoy for Africa, Liu Guijin, in London on 21-22 February the key goals of:

accelerating the UN-African Union Mission in Darfur deployment so as to improve security and humanitarian access;

re-energising the Darfur political process; and

supporting implementation of the comprehensive peace agreement.

My right hon. Friend the Foreign Secretary reinforced these messages during his visit to China on 25-29 February, both in talks with Chinese Ministers and in a public speech at Peking university.

We continue to make clear that the UK will pursue further targeted sanctions against any party that undermines resolution of the Darfur conflict. We have regular discussions with other members of the UN Security Council, including China, that sanctions must be one of a range of measures to help resolve the conflict.

Uganda: Armed Conflict

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives have had with the governments of (i) the Central African Republic, (ii) Uganda and (iii) the Democratic Republic of Congo on recent activity by the Lord's Resistance Army; and if he will make a statement. [197077]

Meg Munn: The Government have not had any discussions with the Governments of the Central African Republic, Uganda or the Democratic Republic of Congo regarding recent activity by the Lord's Resistance Army (LRA). We are aware that discussions regarding the LRA have taken place between these Governments at the regional level.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has had discussions with President Yoweri Museveni on *(a)* government negotiations with the Lord's Resistance Army and *(b)* the International Criminal Court's arrest warrant for Joseph Kony; and if he will make a statement. [197079]

Meg Munn: My right hon. Friend the Foreign Secretary has not had any discussions with President Museveni. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, discussed the Lord's Resistance Army and the International Criminal Court warrants with Ugandan Foreign Minister Kutesa on 10 March in London. My right hon. Friend the Prime Minister and President Museveni discussed the conflict in northern Uganda when they met at the Commonwealth Heads of Government meeting in Kampala on 24 November 2007.

Uganda: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to President Yoweri Museveni's statement in London on 11 March 2008 and the answer on 13 March 2008, *Official Report*, column 650W, on Uganda: politics and government, what assessment his Department has made of the (i) impact on the sustainability of a peace agreement in Uganda should Joseph Kony not face charges at the International Criminal Court (ICC) and (ii) likelihood of a peace agreement being reached if ICC (A) investigations and (B) charges against Joseph Kony are not dropped. [196968]

Meg Munn: We hope that the Lord's Resistance Army will sign the Final Peace Agreement with the Ugandan government even if the International Criminal Court warrants are not suspended. The Government considers justice to be an essential part of a sustainable peace and it is vital that those responsible for the terrible crimes committed during the conflict in northern Uganda are held to account.

UN Peacebuilding Fund

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what funding the UK has provided for the UN Peacebuilding Fund; what commitments the UK has entered into for further such funding; and what steps he has taken to encourage others to make contributions to the Fund. [197892]

Mr. Thomas: I have been asked to reply.

The UK has committed £30 million over three years (2007-09) to the UN Peacebuilding Fund, of which £18 million has been disbursed so far. The UK regularly encourages other contributions to the Peacebuilding Fund as a member of the Peacebuilding Commission.

United Nations Peacebuilding Commission

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what support is provided by the United Kingdom to the United Nations Peacebuilding Commission. [196828]

Mr. Jim Murphy: The UK drove the establishment of the Peacebuilding Commission (PBC) in 2005 and has since been a very active member of the PBC's Organisational Committee.

The UK continues to provide full support to the PBC, working closely with partner countries and with countries on the PBC's agenda. Through our mission to the UN in New York and our Embassies and the Department for International Development (DFID) offices in Burundi and Sierra Leone, the UK has assisted with the development of the Strategic Peacebuilding Frameworks for both countries and are now engaged in supporting their monitoring and implementation. We are working closely with Brazil, chair of the Country Specific Meeting for Guinea-Bissau, the latter being the most recent country on the PBC's agenda.

We, in particular through the UK Mission to the UN, also work closely with the Peacebuilding Support Office (PBSO), which act as the secretariat to the PBC. DFID has provided US$1 million in support to the PBSO over two years.

USA: North Korea

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives in Washington DC have had with (i) members and (ii) representatives of the United States Administration on the planned meeting between US Assistant Secretary of State, Christopher Hill and Vice-Minister of the Ministry of Foreign Affairs of the Democratic People's Republic of Korea, Kim Kye-gwan; and if he will make a statement. [197178]

Dr. Howells: We continue to have regular contact with the US Administration and other participants in the Six-Party Talks, including in the week leading up to Assistant Secretary Hill's latest talks with Vice-Minister Kim Kye-gwan in Geneva that commenced on 13 March. The UK supports the ongoing Six-Party process and the goal of de-nuclearisation of the Korean Peninsula. We welcome the leadership shown by the US, Japan, China and Republic of Korea, and encourage all parties to implement the agreements reached.

Uzbekistan: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the human rights situation and *(b)* the transparency of (i) law enforcement agencies and (ii) the court system in Uzbekistan; and if he will make a statement. [197035]

Mr. Jim Murphy: We remain concerned about the overall human rights situation in Uzbekistan for reasons set out in the Foreign and Commonwealth Office 2007 Annual Human Rights report launched on 25 March 2008. Harassment of human rights defenders is common-place and we are disturbed by reports that Mutabar Tojibaeva has been moved from prison in Tashkent and that her family do not know her whereabouts. Restrictions remain on civil society, non-governmental organisations, media and religious organisations. Set against this, however, the Uzbek authorities have recently taken some positive steps which we welcome. These include the release in February of prominent human rights defenders, the ratification by the Uzbek Parliament in March of two international labour organisation conventions, including on the worst forms of child labour, and the

resumption of prison visits by the International Committee of the Red Cross. We hope that this overall positive progress will continue.

There is little transparency in the work of the law enforcement agencies. There is no system for systematically investigating all allegations of torture or corruption, although small numbers of police are punished. There is no independent watchdog to hold police and other law enforcement bodies to account. Transparency in the court system is a little better and most trials are open to the public. Uzbek law provides for closed trials to preserve state secrets or to protect victims and witnesses, but over the past 12 months our embassy in Tashkent has been unable to gain access to trials where these circumstances did not apply.

In January new habeas corpus legislation came into force which transferred the authority to issue arrest warrants from the prosecutor to the courts. This has required comprehensive amendments to the criminal justice system, including to court and police procedures, which should increase transparency and protection of detainees' rights. We, and our EU partners, stand ready to assist the Uzbek authorities with support for its practical implementation.

JUSTICE

Bail: Housing

Jenny Willott: To ask the Secretary of State for Justice how many units and what proportion of prison officers' accommodation will be used to provide accommodation under the bail accommodation support scheme, broken down by region; and if he will make a statement. [197989]

Mr. Hanson: There are no plans to use prison officer accommodation for the Bail Accommodation and Support Service. ClearSprings Ltd. provide the Bail Accommodation and Support Service using housing sourced from private landlords and some properties they themselves purchase.

ClearSprings Management

Jenny Willott: To ask the Secretary of State for Justice pursuant to the answer of 11 March 2008, *Official Report*, columns 376-77W, on ClearSprings Management, in which towns accommodation for remand prisoners is needed; how many accommodation places for remand prisoners are needed in each town; and if he will make a statement. [197288]

Mr. Hanson: We are continually assessing need for accommodation under BASS. I have instigated informing local MPs as well as police and probation where local schemes are being considered.

ClearSprings: Wales

Mr. Llwyd: To ask the Secretary of State for Justice (1) how many hostels managed by ClearSprings have been opened in Wales in the last 12 months; [197801]

(2) whether there is a duty on ClearSprings to consult (*a*) the local community, (*b*) the police, (*c*) the Probation Service and (*d*) local authorities prior to opening a bail hostel in Wales; [197802]

(3) how many bail places were provided by ClearSprings in (*a*) 2006-07 and (*b*) 2007-08; [197805]

(4) how many bailees placed in hostels in Wales run by ClearSprings have been charged with a subsequent offence. [197807]

Mr. Hanson: The bail accommodation and support service provided by ClearSprings does not provide hostels. Normal residential housing in the community, typically with three people sharing a house, is provided for defendants whom the courts have granted bail and for offenders released on home detention curfew. Nine houses have been made available in Wales in the last 12 months. ClearSprings are required to consult the local authority, the police and probation when acquiring properties for the service. There is no requirement for any other community consultation. The service commenced from 18 June 2007. In 2007-08, from that date up to 28 March, 481 people were bailed and 375 were released on Home Detention Curfew into the service across England and Wales. Reliable information on the number of people released into the service who are charged with a subsequent offence is not available.

Convictions: Disclosure of Information

Jenny Willott: To ask the Secretary of State for Justice whether his Department plans to bring forward proposals to reform the provisions of the Rehabilitation of Offenders Act 1974 on the disclosure of previous criminal convictions for ex-offenders; and if he will make a statement. [197304]

Mr. Hanson: The Government undertook a review of the Rehabilitation of Offenders Act in 2002 and published the document 'Breaking the Circle' which set out proposals for reform of the Act. That paper made proposals for modifying disclosure periods for offences, and other changes to the operation of the Act. In 2003 the Government agreed that the proposals had merit and proposed to legislate when parliamentary time allowed. I am currently reviewing the position in the light of the Safeguarding Vulnerable Groups Act 2006, which was based on the recommendations of the Bichard report, and which makes changes to the disclosure situation for ex-offenders in many areas of employment.

Criminal Injuries Compensation: EC Nationals

Jenny Willott: To ask the Secretary of State for Justice (1) how many citizens of other EU countries have (*a*) made and (*b*) received compensation in respect of criminal injuries compensation claims in each of the last three years; and if he will make a statement; [197439]

(2) the average payment was in respect of successful criminal injuries compensation claims made by citizens from other EU countries in each of the last three years; and if he will make a statement. [197441]

Maria Eagle: Anyone, of any nationality or domicile, who sustains an injury in Great Britain as a result of

violent crime, is eligible to apply for compensation under the Criminal Injuries Compensation Scheme. The Criminal Injuries Compensation Authority, which administers the scheme, does not record information about an applicant's nationality since that is not a qualifying criterion for compensation. The Authority cannot, therefore, supply the information requested.

Deportation: Offenders

Mr. Spellar: To ask the Secretary of State for Justice what progress has been made in securing agreements with third countries on the return of prisoners held in the UK. [196816]

Mr. Hanson: In 2007, prisoner transfer agreements were concluded with Jamaica and with Pakistan. The agreement with Jamaica will come into force when amendments have been made to Jamaican law. The agreement with Pakistan was signed on 24 August 2007 and will enter into force as soon as we have confirmation that constitutional arrangements in Pakistan have been completed and instruments of ratification have been exchanged. We expect that the agreement will be in force soon.

In addition to the agreements signed last year, an agreement with Ghana has recently been concluded and will be signed shortly. Negotiations with Nigeria and Vietnam are at an advanced stage.

Domestic Violence: Wales

Mr. Llwyd: To ask the Secretary of State for Justice what assessment he has made of the delivery of domestic violence programmes in probation areas in Wales against delivery timetables in *(a)* 2006-07 and *(b)* 2007-08. [197900]

Maria Eagle: National guidance to probation areas states that offenders sentenced to a community order with a requirement to attend an accredited domestic violence programme should commence the group work programme by the 12th week of the order. In some cases this timeline can be altered at the discretion of the offender manager. There is no timetable for offenders on licence.

Offenders waiting for a place on a domestic violence programme are under the supervision of their offender manager. The offender manager will monitor the risk posed by the offender and manage it. Additionally the offender manager will normally prepare offenders for the programmes by carrying out set work. This can take between six and 12 weeks.

Driving Offences: Greater London

Sarah Teather: To ask the Secretary of State for Justice how many people were charged with a speeding offence in each London borough in each of the last five years. [197283]

Maria Eagle: Available information on the number of proceedings at magistrates courts for speed limit offences within the Metropolitan and city of London police force areas combined from 2001 to 2005 (latest available) is provided in the following table. 2006 data will be available later this year.

Information on the number of people charged by the police is not collected centrally.

Proceedings at magistrates courts for speed limit offences[1], London[2], 2001 to 2005

	Number of offences
2001	9,968
2002	8,971
2003	9,184
2004	9,487
2005	11,589

[1] Offences under the Road Traffic Regulations Act 1984 ss. 16, 81, 84, 86, 88 and 89; Motor Vehicles (Speed Limits on Motorways) Regs 1973; Parks Regulation (Amendment) Act 1926—byelaws made thereunder.
[2] Metropolitan and city of London police combined.
Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Driving Offences: Speed Limits

Andrew George: To ask the Secretary of State for Justice how many drivers have been *(a)* cautioned for and *(b)* convicted of speeding in (i) St Ives constituency, (ii) Cornwall, (iii) the South West Region, (iv) Greater London and (v) England in the last 12 months. [198383]

Maria Eagle: Available information for 2005 (latest available) is provided in the following table. 2006 data will be available later this year.

Information is available at police force area level only.

Written warnings[1] issued and findings of guilt at all courts for speeding offences[2] within Devon and Cornwall police force area, the south west region, Greater London[3] and England, 2005

	Number of offences	
	Written warnings	Findings of guilt
Devon and Cornwall police force area		5,200
South west region	1,600	19,700
Greater London[3]	0	10,700
England	5,500	148,400

[1] Written warnings only. Formal cautions are not given for summary motoring offence of speeding.
[2] Offences under the Road Traffic Regulations Act 1984 ss. 16, 81, 84, 86, 88 and 89; Motor Vehicles (Speed Limits on Motorways) Regs 1973; Parks Regulation (Amendment) Act 1926—byelaws made thereunder.
[3] Metropolitan and city of London police combined.
Notes:
1. 0 means less than 50.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Misuse

Philip Davies: To ask the Secretary of State for Justice what assessment has been made of the effectiveness of *(a)* prisons, *(b)* community rehabilitation orders

and (c) drug treatment and testing orders in stopping drug taking by offenders. [196929]

Mr. Hanson: There is evidence to support the effectiveness of certain treatments in reducing substance misuse. Treatments which are effective in addressing substance misuse include pharmacotherapies (e.g. methadone); psychological treatments; residential rehabilitation; 12-step treatment; and therapeutic communities[1].

(a) Success of prisons in stopping the drug taking of offenders

The evaluations to date of drug treatment programmes in prisons in the UK suggest that these programmes can reduce re-offending[2].

The best available measure of drug prevalence in prisons is the random mandatory drug testing (rMDT) programme, which routinely tests prisoners chosen at random for panel of drugs. The positive rate for rMDT has dropped from down from 24.4 per cent. in 1996-97 to 8.8 per cent. in 2006-07[3].

NOMS has in place a comprehensive drug treatment framework, based on the National Treatment Agency's revised models of care, to address the different needs of drug-misusers in prison. The interventions available are designed to meet the needs of low, moderate and severe drug misusers irrespective of age, gender or ethnicity.

(b) Success of community rehabilitation orders in stopping the drug taking of offenders

For offences committed on or after 4 April 2005, the Criminal Justice Act 2003 introduced the community order which replaced all previous community sentences, including community rehabilitation orders (CROs) and drug treatment and testing orders (DTTOs), for adult offenders. Under the Act, the court may impose a community order with a drug rehabilitation requirement. It is too early to have an effective assessment.

(c) Success of Drug Treatment and Testing Orders (DTTOs) in stopping the drug taking of offenders

Research[4] concluded that DTTOs can reduce spending on drugs and re-offending, although it was not possible to determine to what extent these changes were due to the DTTO or whether other factors also contributed.

Turnbull, P., McSweeney, T., Webster, R., Edmunds, M. and Hough, M. (2000). Drug treatment and testing orders: Final Evaluation Report. Home Office Research Study 212. London: Home Office.

Drugs: Rehabilitation

Mr. Llwyd: To ask the Secretary of State for Justice what assessment he has made of the delivery of drug and alcohol abuse programmes in probation areas in Wales against delivery timetables in (a) 2006-07 and (b) 2007-08. [197808]

Mr. Hanson: National guidance to probation areas states that offenders sentenced to a community order with a requirement to attend the accredited offender substance abuse programme (OSAP) should commence the group work programme when their motivation and ability to complete the programme has been assessed. There is no set time given the nature of the lifestyle of those dependent upon alcohol or drugs.

Offenders waiting for a place on OSAP are under the supervision of their offender manager and also may be subject to a drug rehabilitation requirement (DRR). The offender manager will monitor the risk posed by the offender and manage it. Additionally the offender manager will normally prepare offenders for the programmes by carrying out set work.

Electoral Register

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government has taken to make voter registration more accessible. [198121]

Bridget Prentice: The Electoral Administration Act 2006 (EA Act) introduced a number of new provisions to make electoral registration more accessible and to enhance the accuracy of the electoral register. These have included:

- Imposing a new duty on electoral registration officers to take all necessary steps, such as sending the canvass form more than once, making house to house inquiries and promoting registration, and
- Increasing the time available for electoral registration to 11 days prior to polling day.

The Office for National Statistics has recently published electoral registration rates for the UK and as of the 1 December 2007:

- The number of parliamentary electors grew by 307,669 to 45,082,854; and
- The number of local government electors grew by 463,340 to 45,920,503.

In addition, Section 67 of the EA Act requires the Electoral Commission to set and monitor performance standards for electoral services and this will also provide more information about electoral registration and help share best practice.

In light of the Slough Judgment concerning electoral fraud, the Government are currently considering the effectiveness of the new measures and are keeping electoral registration under review to identify initiatives that will further ensure the accuracy and integrity of the electoral register.

Fireworks: Prosecutions

Mr. Kemp: To ask the Secretary of State for Justice how many prosecutions there were for firework-related offences in (a) 2003, (b) 2004, (c) 2005 and (d) 2006. [197268]

Maria Eagle: The number of defendants proceeded against at magistrates courts for offences relating to fireworks in England and Wales for the years 2003 to 2006 can be viewed in the table as follows.

Number of defendants proceeded against at magistrates courts for offences relating to fireworks in England and Wales for the years 2003 to 2006[1,2,3]

	Proceeded against
2003	599
2004	730
2005	708
2006	571

[1] These data are on the principal offence basis.

[2] The data relate to the following Statutes:

Emergency Laws (Miscellaneous Provisions) Act 1953 S.3 orders made under.

Explosives Act 1875

Explosives Act 1923 and order in council and rules thereunder.

Fireworks Act 1951

Sporting Events (Control of Alcohol, etc.) Act 1985 Section 2A(1).

Fireworks Act 2003 S.11 (1),(2),(3)(a)(b),(4).

Manufacture and Storage of Explosives Regulations 2005 S.25(1)(a) and (b)

Highways Act 1980 S.131(1)(d), S.161(2)(b)

Metropolitan Police Act 1839 S.54(15)

Fireworks Safety (Regulations) 1997 S.6(1)

[3] Every effort is made to ensure that the figures presented are accurate and complete.

However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Court proceedings data held by RDS - Office for Criminal Justice Reform - Ministry of Justice

Foreign Workers: Domestic Service

Mr. Steen: To ask the Secretary of State for Justice how many employers of migrant domestic workers were *(a)* prosecuted for and *(b)* convicted of psychological abuse, physical abuse or sexual abuse of their employees in each of the last three years. [197984]

Maria Eagle: Information on the number of employers of migrant domestic workers who have been *(a)* prosecuted and *(b)* convicted for psychological abuse, physical abuse or sexual abuse of their employees is not held centrally.

The Court Proceedings Database held by the Ministry of Justice does not separately identify either the category of defendant (i.e. employer etc.) the type of victim (i.e. migrant domestic worker), or the type of abuse.

Juries: Wales

Mr. Spellar: To ask the Secretary of State for Justice what assessment his Department has made of the cost of providing bilingual juries in Wales. [197601]

Maria Eagle: I refer the hon. Member to Part 1 of our consultation document "The Use of Bilingual (English and Welsh-speaking) Juries in Certain Criminal Trials in Wales", some options for bilingual juries would give rise to additional costs. A copy of the consultation document is on the CJS website at:

http://www.cjsonline.gov.uk/downloads/application/pdf/Welsh%20jury%20consultation%20-%20English.pdf

We have identified potential resource implications for the Jury Central Summoning Bureau (JCSB) and in moving jurors further than usual, whether in hotel fees or travel costs. These costs have not been quantified. In the event that we were to decide in principle in favour of bilingual juries, full costings would be carried out.

Labour Party: Marketing

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 25 January 2008, *Official Report*, column 2303W, on Labour Party: marketing, if he will place in the Library a copy of the Labour party's licence issued by the Office of Public Sector Information. [198087]

Mr. Wills: The Labour party has a Click-Use license, which is listed on the Office of Public Sector Information's (OPSI) Click-Use website. The licence can be viewed on the OPSI website at:

http://www.opsi.gov.uk/click-use/index.htm

The Click-Use licence is not a traditional licence in that applicants accept the terms of a set of licence terms online. It follows that there is not a specific licence naming the Labour party as a licensee. A list of Click-Use licence holders with the terms of the Click-Use licence can be viewed on the OPSI website.

Copies of the relevant pages will also be deposited in the Library.

Legal Aid Scheme: Drugs

John Mann: To ask the Secretary of State for Justice if he will estimate expenditure on legal aid for defendants with drug addictions in 2007. [197660]

Maria Eagle: An individual applying for legal aid is not required to disclose whether he or she has a drug addiction. Moreover, an individual with a drug addiction could receive legal aid in matters not connected with the addiction. Therefore, it is not possible to provide reliable estimates of expenditure on legal aid for those with drug addictions.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he will answer the letter of 15 January 2008 from the right hon. Member for Manchester Gorton with regard to Miss E. A. Price. [195388]

Ann Keen: I have been asked to reply.

A reply was issued to the hon. Member on 30 January 2008.

National Identity

Andrew George: To ask the Secretary of State for Justice (1) what assessment he has made of the likely effect of devolving further powers to local communities on attitudes towards British citizenship and national identity; [198384]

(2) when his Department plans to take forward the proposals in the report of Lord Goldsmith's Citizenship Review; [198385]

(3) what consideration he has given to the report of the recommendation in Lord Goldsmith's Citizenship Review on a national day focused on ideas about shared citizenship. [198386]

Mr. Wills: A robust sense of citizenship and national identity is reinforced by a democracy which is healthy and engages citizens at all levels. The Government believe that devolving power to Parliament, to citizens and to local communities, as included in the Governance of Britain Green Paper and the 2006 Local Government White Paper, will help revitalise our democracy.

The Government welcome Lord Goldsmith's Review of Citizenship and its contribution to the current debate about legal and social rights and responsibilities.

We have already announced many measures as part of the earned citizenship document which are consonant with Lord Goldsmith's proposals on acquiring citizenship and we are also interested in his thoughts on supporting and encouraging volunteering, which we will study closely.

Prison Officers: Housing

Jenny Willott: To ask the Secretary of State for Justice whether prison officers' accommodation will be sold in order to avoid the costs that would be incurred in upgrading properties to meet the 2010 Decent Housing standard. [197990]

Mr. Hanson: No.

Prison Service: Location

John McDonnell: To ask the Secretary of State for Justice whether his Department has conducted a sustainability appraisal in the light of the recent relocation announcements regarding the Prison Service. [198036]

Maria Eagle: It is unclear from the question which relocation announcement the hon. Member refers to. However, since 1999 the Prison Service has actively pursued the Government's environmental and sustainability agenda.

Details of progress made by the Service in addressing its commitments, aims and targets regarding sustainable development are contained in its recently published Annual Sustainable Development Report 2006-07 and which can be found on its website: www.hmprisonservice.gov.uk

Prisons: MRSA

Norman Lamb: To ask the Secretary of State for Justice how many cases of *(a)* MRSA and *(b)* clostridium difficile were recorded in each prison in each of the last five years. [197926]

Maria Eagle: The information requested is not held centrally.

The Prison Service's Performance Standard, Health Services for Prisoners (May 2004), requires every prison establishment to have in place effective arrangements for the prevention, control and management of communicable diseases. These must include arrangements for the notification of all incidents of notifiable disease, such as tuberculosis, to the local Health Protection Agency's Consultant in Communicable Disease Control (CCDC) and an action plan in the event of an outbreak of a communicable disease.

Upon the detection of any infection in a prison establishment, appropriate health care and infection control procedures should be instituted in partnership with infection control teams in primary care trusts and health protection units.

Probation: Foreigners

Mr. Llwyd: To ask the Secretary of State for Justice whether there are any restrictions on the ability of probation service staff to recommend supervision of foreign nationals in Wales where interpreters would be required. [197800]

Maria Eagle: There is no policy restriction on the ability of probation staff to recommend supervision, delivered with the assistance of an interpreter, for foreign national offenders in Wales. As with any other offender, a recommendation would be based on the individual's risks, particular needs, eligibility and suitability.

Probation: Manpower

Mr. Llwyd: To ask the Secretary of State for Justice how many qualified probation officers were employed in Wales on *(a)* 31 December 1997 and *(b)* 31 December 2007. [197798]

Maria Eagle: Information is not available for the period requested. Data collected prior to April 2003 were collated by a different source and were incomplete in some categories and therefore are not directly comparable with the figures collected since that time.

The following table shows the staff in post in probation officer grades in Wales from 2003 onwards. It also shows the number of trainee probation officers at the same period.

	2003[1]		2004[1]		2005[1]		2006[1]		2007[2]	
Staff in post	*PO*	*TPO*	*PO*	*TPO*	*PO*	*TPO*	*PO*	*TPO*	*PO*	*TPO*
Dyfed Powys	46.30	15.00	49.10	15.00	55.70	18.00	49.80	16.00	47.80	16.00
Gwent	68.10	25.00	67.30	33.00	65.30	23.00	92.10	29.00	92.40	29.00
North Wales	67.10	26.00	88.20	21.00	88.30	24.00	90.10	20.00	87.30	19.00
South Wales	157.60	83.00	195.90	48.00	215.10	44.00	210.40	41.00	207.50	29.00
Total	339.10	149.00	396.50	117.00	424.40	109.00	442.40	106.00	435.00	73.00
NPS	6271.50	1818.20	6584.90	1774.00	6894.40	1386.70	7209.55	1134.09	7007.75	1031.20

[1] Figures provided are as at 31 December.
[2] Figures provided are as at 30 June and are about to be published.

Mr. Llwyd: To ask the Secretary of State for Justice how many probation staff managers were employed in Wales on *(a)* 31 December 1997 and *(b)* 31 December 1998. [197799]

Maria Eagle: Information is not available for the period requested. Data collected prior to April 2003 were collated by a different source and were incomplete in some categories and therefore are not directly comparable with the figures collected since that time.

Rackspace

Mr. Hands: To ask the Secretary of State for Justice what the value was of each contract awarded to Rackspace by *(a)* his Department and its predecessor and *(b)* its agencies in each of the last nine years. [197509]

Maria Eagle: There is no record of any contracts awarded to Rackspace by the Department, its predecessor or agencies in the last nine years.

Residence Orders

Susan Kramer: To ask the Secretary of State for Justice how many residence orders were awarded to *(a)* men and *(b)* women in each year for which figures are available. [197374]

Bridget Prentice: The information requested is not collected centrally and could be provided only at disproportionate cost. Information is available on the overall number of residence orders made under section 8 of the Children Act 1989 and is published annually in judicial statistics, but the courts in England and Wales do not collect information about who the order is made in favour of from each case record.

A study entitled "Residence and Contact Disputes in Court Volume 1" by Professor Carol Smart and others, University of Leeds (DCA Research Series 6/03) published September 2003, found the following:

Outcomes where mothers applied for residence or for residence and/or contact:

Outcome	*Percentage (number = 120)*
Residence to mother	42
Shared residence	5
Contact only to mother	3
No order/withdrawn	19
Dismissed	10
Residence to respondent/other	3
Residence to respondent plus contact to mother	3
Other	15
Total	100

Outcomes where fathers applied for residence or for residence and/or contact:

Outcome	*Percentage (number = 83)*
Resident to father	36
Shared residence	7
Contact only to father	11
No order/withdrawn	23
Dismissed	4
Residence to respondent or other	3.5
Residence to respondent plus contact to father	12
Other	3.5
Total	100

The sample size is small compared to the overall numbers of residence orders made in all types of court in England and Wales and the sample was taken from three county courts so the percentages above may not give an accurate reflection of all residence orders made in all levels of court.

The overall number of residence orders made for the years 2002-06 is set out as follows.

	Number
2002	30,006
2003	31,996
2004	31,878
2005	26,523
2006	30,035

Secure Training Centres: Restraint Techniques

Ms Keeble: To ask the Secretary of State for Justice (1) when he will publish the Government's action plan on the recommendations from the inquests into Gareth Myatt and Adam Rickwood; [198051]

(2) what consultation there has been with the families of Adam Rickwood and Gareth Myatt about the Government's action plan on the recommendations from the inquests into the boys' deaths. [198052]

Mr. Hanson: I refer my hon. Friend to the written ministerial statement by my right hon. Friend the Secretary of State for Justice and Lord Chancellor (Mr. Straw) on 27 March 2008, *Official Report*, column 22WS.

My right hon. Friend the Secretary of State for Justice and Lord Chancellor (Mr. Straw) met both families on 18 October to discuss their concerns following the inquests. In drawing up the action plan we have taken full account of the families' concerns.

Voting Behaviour

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government has taken to address negative voting trends. [198122]

Bridget Prentice: The Government are committed to looking at ways in which the electoral process can be made more convenient and responsive to the overall needs of the electorate. As part of this commitment, we have and will continue to look at measures which can be introduced to encourage eligible persons to vote at elections.

Under the Electoral Administration Act 2006 (EA Act), we introduced a number of measures aimed at increasing voter turnout, including a requirement for local electoral officers to take appropriate steps to

increase participation in the electoral process in their areas, the costs of which may be reimbursed by the Secretary of State.

The EA Act also introduced a new duty requiring electoral registration officers to take all necessary steps to register electors, including sending the canvass form more than once, making house to house enquiries and inspecting records they are permitted to inspect. And this new duty is making a difference to the levels of registration, as confirmed by the Office for National Statistics when they recently published electoral registration rates for the UK. As of the 1 December 2007:

The number of parliamentary electors increased by 307,669 to 45,082,854; and

The number of local government electors increased by 463,340 to 45,920,503

Following our commitment in the "Governance of Britain" Green Paper, we will also be consulting shortly on the merits of moving voting to the weekend for general, European and local elections. This will include consideration as to whether this would improve voter participation at elections.

It is important that we capture young people's interest at an early age and build their understanding of democratic and political processes so that they take an active part in society, as they become adults and citizens. My Department has undertaken a number of projects to encourage participation and engagement among young people. This includes setting up a Youth Citizenship Commission which will consider how to increase young people's participation in politics.

Young Offender Institutions: Restraint Techniques

Jenny Willott: To ask the Secretary of State for Justice how many times restrictive physical interventions were used in each *(a)* young offender institution and *(b)* secure children's home in each year since 2000; and if he will make a statement. [197310]

Mr. Hanson: Young adults are not placed in secure children's homes. The Youth Justice Board began collecting data against a common definition of restraint across the under-18 secure estate in April 2007. The following table shows the total number of restrictive physical interventions between 1 April 2007 and 31 January 2008 in each under-18 young offender institution and secure children's home. Information on restraints of young adults in senior young offender institutions is not collected centrally.

Establishment type	*Number of restrictive physical interventions*
Secure Children's Homes	
Aldine House	20
Atkinson Unit	91
Aycliffe	174
Barton Moss	104
Clayfields	66
Eastmoor	393
Gladstone House	86
Hillside Secure Centre	28
Kyloe House	15

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Arms Trade: Saudi Arabia

Roger Berry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the sum of the Export Credits Guarantee Department's exposure in respect of the al-Yamamah arms deal with Saudi Arabia was on *(a)* 31 December 1989, *(b)* 31 December 1994, *(c)* 31 December 1999, *(d)* 31 March 2005 and *(e)* 12 September 2006. [196623]

Malcolm Wicks: ECGD exposure as at the requested dates is set out as follows.

	£ million
31 December 1989	450
31 December 1994	750
31 December 1999	1,000
31 March 2005	750
12 September 2006	750

Business: Bermuda

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assistance his Department provides to Bermudan businesses wishing to *(a)* invest in the United Kingdom and *(b)* take part in joint ventures with UK companies; how much was made available for these purposes in each of the last five years; and if he will make a statement. [192530]

Mr. Thomas: UK Trade and Investment (UKTI) has the lead role within Government for delivering trade development and inward investment services for business. It brings together the work of the Department for Business, Enterprise and Regulatory Reform and the Foreign and Commonwealth Office on international trade and investment.

UKTI and its network of partner agencies across the UK welcome, and are available to assist, foreign direct investment (FDI) projects seeking to locate in the UK from all over the world including Bermuda. However we dedicate specific resource to priority markets to maximise taxpayers' investment and Bermuda is not one of these.

Business: Cyprus

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assistance his Department provides to Cypriot businesses wishing to *(a)* invest in the United Kingdom and *(b)* take part in joint ventures with UK companies; how much was made available for these purposes in each of the last five years; and if he will make a statement. [192531]

Mr. Thomas: UK Trade and Investment (UKTI) has the lead role within Government for delivering trade development and inward investment services for business. It brings together the work of the Department for Business, Enterprise and Regulatory Reform and the Foreign and Commonwealth Office on international trade and investment.

UKTI and its network of partner agencies across the UK welcome, and are available to assist, foreign direct investment (FDI) projects seeking to locate in the UK from all over the world including Cyprus. However we dedicate specific resources to priority markets, in order to maximise taxpayers' investment and Cyprus is not one of these.

Capita

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will provide a geographical breakdown of the 46,000 claims identified by Capita to his Department's Yorkshire monitoring committee as not having made services claims for mining industrial diseases. [197662]

Malcolm Wicks: I am unsure to what the figure of 46,000 relates. Approximately 60,000 vibration white finger claimants were eligible to claim services on the basis of their medical staging for general damages but, for whatever reason, did not do so.

Coal Fired Power Stations: Kingsnorth

Derek Wyatt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the annual carbon dioxide emissions from the proposed coal-fired power station in Kingsnorth, Kent. [197291]

Malcolm Wicks: The applicant estimates that if the proposed station was generating some 12 TWh of electricity per annum it would produce some 8.6 MTe of CO_2. However the amount of annual carbon dioxide emissions depends on the actual amount of electricity generated.

Derek Wyatt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with the Secretary of State for Environment, Food and Rural Affairs on the environmental impact of a coal-fired power station at Kingsnorth, Kent. [197362]

Malcolm Wicks: The Secretary of State has a quasi-judicial role in deciding E.ON's application for his consent to build a new coal-fired power station at Kingsnorth. It would therefore be improper for him to express a view on whether he is in favour or against the proposal prior to taking a fully considered decision.

Coal: Concessions

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many residents in Bassetlaw constituency are in receipt of concessionary coal. [197859]

Malcolm Wicks *[holding answer 31 March 2008]:* There are currently 1,230 Bassetlaw residents who receive concessionary coal via the Department.

Coal: Mining

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library a copy of the note taken of the meeting of 20 March 2008 between Ministers, officials and the Union of Democratic Mineworkers on the future of the coal industry. [197380]

Malcolm Wicks: On 19 March 2008, I met my hon. Friend the Member for Sherwood (Paddy Tipping) and representatives of the Union of Democratic Mineworkers to hear their views about recent events in connection with the possible restart of Harworth Colliery. Information relating to internal meetings, discussions and advice is not disclosed, as to do so, could harm the frankness and candour of internal discussion.

Energy: Meters

Paddy Tipping: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will publish the report he commissioned from Mott McDonald on smart meters; with which organisations he has discussed the report; and what the timetable is for the introduction of such meters. [198054]

Malcolm Wicks: My Department is currently working up its impact assessment on smart metering, which will take account of the analysis by Mott MacDonald, as well as that of a number of other organisations. The Mott MacDonald report, with other analysis, will be published later this month, together with the Government's impact assessment and their response to the metering and billing consultation. As part of this process, my Department has held discussions with a range of interested parties, including

gas and electricity suppliers, meter owners and service providers, Ofgem and Energywatch. The Government will set out their views on the next steps on smart metering shortly.

Global Nuclear Energy Partnership: Finance

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* funding and *(b)* other resources his Department plans to commit to the Global Nuclear Energy Partnership. [191458]

Malcolm Wicks: There are no plans *(a)* to commit funds other than Travel and Subsistence *(b)* resources other than that necessarily involved in our membership of the GNEP Steering and Ministerial committees. Any future funding or resource commitment would be subject to further justification.

UK membership of GNEP allows us to help shape this international programme and help develop and share international best practice. It also helps position UK organisations to compete for international contracts and take part in collaborations that benefit their missions.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been paid in compensation for *(a)* hearing loss, *(b)* vibration white finger and *(c)* chronic obstructive pulmonary disease, broken down by constituency. [197474]

Malcolm Wicks: The Department publishes the data for Vibration White Finger and Chronic Obstructive Pulmonary Disease claims on our webpage:

http://www.berr.gov.uk/energy/coal-health//statistics/constituency/page20839.html

These statistics are updated monthly and include the information requested.

A table containing the figures for hearing loss claims has been placed in the Libraries of the House.

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many claims for *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease have not been fully settled, broken down by constituency. [197475]

Malcolm Wicks: The Department publishes data for vibration white finger and chronic obstructive pulmonary disease claims on our webpage:

http://www.berr.gov.uk/energy/coal-health/statistics/constituency/page20839.html.

These statistics are updated monthly and include the information requested.

Lighting: Billing

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the role of the unmetered supply operator (UMSO) is in calculating local authority bills for street lighting; and if he will take steps to ensure that the charging policy of the UMSO does not inhibit the development by local authorities of small-scale trials of low-energy street lighting technologies. [196375]

Malcolm Wicks *[holding answer 25 March 2008]*: Each unmetered supply operator (in this context, the electricity distributor or DNO) is obliged to prepare a use of system charging methodology approved by Ofgem which is designed to achieve a number of relevant objectives as set out in their licence. These include an obligation to review the Use of System charging methodology at least once a year and have a methodology that takes account of developments in the licensee's distribution business.

Ofgem would expect a DNO to ensure that its methodology takes account of developments in its distribution business and DNOs should be made aware of the results of any small scale trials of low-energy street lighting which may result in changes to a local authority's inventory. It is for the DNO and local authorities concerned to work together and a DNO to assess whether or not, as a result of such trials, a change is required to its Use of System methodology or Use of System charges. This would be a matter that the DNO would generally discuss with Ofgem.

Low Carbon Buildings Programme: Finance

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the budget for the low carbon building programme was in 2007-08; and what proportion of this budget has been spent. [196382]

Malcolm Wicks: The Low Carbon Buildings Programme (LCBP) phase 1 has a £36 million budget over three years. We did not set yearly allocations. For the 2007-08 tax year we have currently spent £5.1 million, including management fees.

Phase 2 of the programme has a £50 million budget over three years and we did not set yearly allocations. From April 2007 to the end of February 2008 we spent £1.3 million, including management fees. The total of grants allocated on phase 2 in this period was £7.4 million.

Recent changes to LCBP and planning requirements should help to boost uptake. All technologies under LCBP phase 2 will now receive 50 per cent. grant funding. This will make it a more affordable option and enable more organisations to take part. We have also extended the length of time householders have to apply for grants through to June 2010 for the remaining £10 million funds. In addition, from 6 April 2008 we will be relaxing the planning rules to make it easier for householders to install microgeneration technologies.

Metering: Finance

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the cost to the public purse of the provision of smart meters on a national basis, broken down by main budget heading. [197739]

Malcolm Wicks: The Government are currently working up their impact assessment of smart metering, and will publish that assessment later this month, together with the Government's response to the metering and billing consultation. The assessment will include a detailed examination of costs and benefits.

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent representations he has received from companies associated with smart-meter production or sales. [197740]

Malcolm Wicks: In the course of developing its impact assessment on smart metering, my Department has been in discussion with a range of interested parties about the costs and benefits of smart metering. My Department has received written representations as part of this process, as well as in response to the metering and billing consultation.

Mining: Compensation

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the timetable is for the transfer of information to the Law Society on claimants under the Miners' Compensation Claim scheme as piloted in Rother Valley. [197661]

Malcolm Wicks: The Department has already provided some information to the Legal Complaints Service (LCS). This will enable LCS to plan the next stages of their campaign which, I understand, is planned for autumn 2008. The Department will continue to work with LCS to ensure they have the information they require.

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many requests from the Serious Fraud Office he has acceded to for information on mining compensation. [197663]

Malcolm Wicks: The Department is co-operating fully with the Serious Fraud Office (SFO) however, it would be inappropriate for me to comment on ongoing inquiries.

My statement in December 2005 reported that, although their investigations are continuing, the SFO were not now focusing on any suspected fraud against the Department.

Nuclear Decommissioning Authority: Foreign Workers

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 11 March 2008, *Official Report*, column 251W, on Nuclear Decommissioning Authority: foreign workers, what the nationalities were of the 12 foreign nationals employed by the Nuclear Decommissioning Authority since its establishment. [196645]

Malcolm Wicks: The nationalities of the 12 foreign nationals who have been employed by the Nuclear Decommissioning Authority since its establishment are as follows:

	Number
USA	2
Irish	2
South African	2
Canadian	1
French	1
German	1
Greek	1
Italian	1
Australian	1

Nuclear Power Stations: Costs

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 21 January 2008, to the hon. Member for Tamworth (Mr. Jenkins), *Official Report*, columns 1632-3W, on nuclear power stations: costs, what discount rate was assumed in carrying out the cost-benefit analysis. [197320]

Malcolm Wicks: The cost benefit analysis assumed in the central case a post tax real discount rate of 10 per cent. There were also low and high sensitivity cases in which rates of 7 per cent. and 12 per cent. respectively were used.

The full analysis can be found at:

http://www.berr.gov.uk/files/file39525.pdf

Nuclear Power: Security

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how the Government plans to strengthen the capacities of the International Atomic Energy Agency's Nuclear Security Fund, as indicated at paragraph 4.21 of the National Security Strategy of the United Kingdom, Cm 7291. [196829]

Malcolm Wicks: The UK is a contributor to the Nuclear Security Fund (NSF) and provides a cost free UK expert to the fund. The UK seeks to further strengthen delivery mechanisms within the NSF by improving internal IAEA efficiency. We intend to do this by providing continuing assessment and feedback on project progress, exploring means to overcome difficulties and by encouraging the agency to streamline its operations. We will seek to feed our experience of working with the NSF into the current '2020 Review' of the Agency's operations.

Oil

Alan Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment the Government has made of the likely year of peak global oil production; what contingency plans the Government has made should global oil supplies peak sooner than International Energy Agency predictions; and what assessment he has made of the likely effect on the UK economy of the passing of peak production. [197009]

Malcolm Wicks *[holding answer 31 March 2008]:* The Government's assessment is that the global oil (and gas) reserves are sufficient to sustain economic growth for the foreseeable future. This is consistent with the assessment made by the International Energy Agency (IEA) in its 2007 World Energy Outlook (WEO).

However, the Government recognise the need for further investment both in upstream and downstream oil in order for production to keep pace with the growing global oil demand.

The Government constantly monitor risks to the UK economy, including from energy-related developments, as detailed in the Energy White Paper (May 2007) and the Long-term Opportunities and Challenges for the UK (November 2006). In addition, the UK's policies, as outlined in the Energy White Paper, in promoting open and competitive markets, increasing energy efficiency, investing in low carbon technologies and the use of alternative energy sources such as renewables will reduce the risks to the UK of any potential future declines in global oil and gas production.

The Government are also aware of a wide range of academic and industry studies which look at future world oil supplies, including the peak oil phenomenon, and meets regularly with experts to discuss this and other oil market issues.

Post Offices: Closures

Robert Key: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to his answer of 19 March 2008, *Official Report*, column 972, that in certain circumstances the Chairman of the Post Office would himself review cases and take closure decisions, what the procedure is by which this process can be engaged in respect of the proposed closure of Laverstock Post Office on 1 April. [197783]

Mr. McFadden *[holding answer 31 March 2008]:* The review process for closure decisions after public consultation is instigated by Postwatch where it considers that Post Office Ltd. has not given due consideration to material evidence received during the public consultation or that the proposal for the branch does not meet the Government's policy requirements.

A four-stage process provides for review on an individual case basis. Where Post Office Ltd. and Postwatch are unable to reach an agreed way forward after the first three stages, a review of the closure decision is then undertaken by the chairman of Royal Mail Group. I understand that in the case of Laverstock, discussions about the closure did not proceed beyond the first stage of the review process as Postwatch were satisfied at that stage that all relevant factors had been duly considered by Post Office Ltd. in reaching their decision.

Renewable Energy: Finance

Mr. Ingram: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department has spent on the promotion of the use of energy from renewable sources in *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08. [196213]

Malcolm Wicks *[holding answer 25 March 2008]:* The 2007 Energy White Paper sets out the Government's policy to promote energy innovation in renewable technologies. The Government are supporting a wide range of technology push measures to stimulate research and development and demonstration through the Research Councils, Technology Strategy Board, Energy Technologies Institute (all DIUS funded) and the Environmental Transformation Fund (DEFRA and BERR funded).

These bodies work closely together to ensure that funding activities are complementary and together effectively supports a portfolio of technologies, including renewables such as wind, wave and tidal, microgeneration and photovoltaics and bioenergy.

In addition market pull comes by providing the market mechanisms and incentives such as the renewables obligation (RO). By 2010 the RO along with exemption from the climate change levy will provide around £1 billion per year in support to the renewables industry. We are introducing measures to allow banding of the RO. This will provide the generation industry with greater incentive to develop and deploy those technologies which are currently further from commercial deployment.

Small Businesses

Anne Main: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many new businesses were registered in *(a)* St. Albans and *(b)* England in each of the last five years. [196186]

Malcolm Wicks: VAT registration data provide the only accurate indicator of the level of business start-up activity.

The number of new VAT registrations in St. Albans and England are shown in the following table for 2002 to 2006, alongside data for the stock of all VAT registered businesses. Data for registrations in 2007 will be available in autumn 2008.

Number of VAT registrations and stock of VAT registered businesses in St. Albans and England

	2002	2003	2004	2005	2006	2007
Registrations						
St. Albans	540	655	620	620	660	
England	155,770	168,250	160,565	158,995	159,315	
Stock at start of year						
St. Albans	5,715	5,725	5,850	5,940	6,045	6,160
England	1,521,285	1,541,155	1,574,270	1,602,230	1,635,845	1,670,500

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2006, available at: http://stats.berr.gov.uk/ed/vat

Although the number of new registrations has fluctuated over the period, the total number of VAT registered businesses in St. Albans has increased annually, from 5,715 at the start of 2002 to 6,160 at the start of 2007, an increase of 445 (8 per cent.). For England, in comparison, the total number of VAT registered businesses has increased from 1.52 million to 1.67 million, an increase of 149,000 (10 per cent.).

VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Only 1.9 million out of 4.5 million UK enterprises (43 per cent.) were registered for VAT at the start of 2006.

Unfair Practices

Mr. Sheerman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many investigations the Office of Fair Trading is conducting into UK markets. [196666]

Mr. Thomas: The Office of Fair Trading (OFT) publishes an annual plan providing an overview of its current and planned work. The OFT recently concluded a public consultation on its draft annual plan for 2008-09, a copy of which can be found on the OFT website at http://www.oft.gov.uk/news/press/2007/163-07. A copy of the annual plan for 2007-08 and further information about the work of the OFT can be found at the "OFT at work" section of the OFT's website at

http://www.oft.gov.uk/oft_at_work/

The OFT also publishes an annual report providing detailed information about the work it has undertaken during that year. The 2006-07 annual report can be found on the OFT website at

http://www.oft.gov.uk/advice_and_resources/publications/corporate/annual-report/annual-report-2006.

Utilities: Fees and Charges

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to prevent utility providers charging those who do not pay charges by direct debit more than those who do. [195589]

Malcolm Wicks *[holding answer 20 March 2008]:* In respect of gas and electricity supply, in broad terms, the rebate given to customers paying by direct debit, rather than standard credit or prepayment, reflects the lower cost of serving direct debit customers. However, Ofgem is currently conducting a probe into the energy market, the results of which will be published shortly. If the evidence shows that prepayment meter users are treated less favourably than other customers in respect of their charges for energy, then we will look to Ofgem and the energy suppliers to come forward with proposals to reduce any disadvantage. If sufficient progress is not made by winter 2008-09, the Secretary of State is prepared to use his existing statutory powers with a view to reducing the differential between prepayment and other forms of payment.

For telecoms, Ofcom is currently consulting on introducing new guidance for communications providers who levy additional charges on consumers, such as for not paying bills by direct debit. This will spell out Ofcom's view of the law and what providers have to do to meet their obligations under the Unfair Terms in Consumer Contract Regulations 1999 to ensure that additional charges are fair and transparent. Once the guidance has been finalised Ofcom is proposing to give providers three months to comply. Ofcom will then start an enforcement programme.

Wind Power: Noise

Mr. Gale: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 19 February 2008, *Official Report*, columns 559-60W, on wind power: noise, when he expects installation and product standards for micro wind turbines to be published. [189194]

Malcolm Wicks *[holding answer 27 February 2008]:* Under the Microgeneration Certification Scheme (MCS) installation and product standards for micro wind, which address noise issues, will be published shortly. More information on development of the standards is available on the MCS website:

www.microgeneration.org

HEALTH

Accident and Emergency Departments: Essex

Bob Spink: To ask the Secretary of State for Health how many people attended hospital accident and emergency departments in *(a)* Essex, *(b)* Basildon Hospital NHS Trust and *(c)* Southend Hospital NHS Trust in each of the last three years. [197659]

Mr. Bradshaw: The information is not held in the format requested. Information is collected on attendances at accident and emergency (A and E) departments, minor injury units and walk-in centres at trust level, and can be found in the following table for Essex national health service trusts. The data currently available for 2007-08 cover only the first three quarters of the year (April to December 2007).

Attendances at A and E departments, minor injury units and walk in centres, NHS organisations in England 2004-05 to quarter three 2007-08

Organisation	*2004-05*	*2005-06*	*2006-07*	*2007-08 (Q1 -Q3)*
Basildon and Thurrock University Hospital NHS Foundation Trust	99, 893	101,342	104,685	74,076
Essex Rivers Healthcare NHS Trust	97,230	99,355	95,470	60,500
Mid Essex Hospital Services NHS Trust	70,291	72,212	73,351	56,207
Southend University Hospital NHS Foundation Trust	82,888	85,806	86,384	66,923
The Princess Alexandra Hospital NHS Trust	76,189	80,718	81,230	64,746

Note:
Data for 2007-8 are for quarter one to quarter three. *Source:* Department of Health dataset QMAE.

Alcoholic Drinks: Labelling

Mrs. James: To ask the Secretary of State for Health what consideration he has given to reviewing the Food Labelling Regulations 1984 to require the listing of all ingredients in drinks with alcohol. [197812]

Dawn Primarolo: A proposal made by the European Commission (EC) in January 2008 for a new food information regulation would introduce ingredient labelling on alcoholic drinks.

There would be an exception for wine, beer and spirits, pending a review by the EC with a proposal to produce a report to determine the labelling of these categories of drinks after five years of the entry into force of the regulations.

The Food Standards Agency (FSA) is responsible for taking forward UK negotiations and has issued a public consultation on the proposal, further information is on the FSA website at:

www.food.gov.uk/consultations/ukwideconsults/2008/infoprovision.

The FSA's consultation on the proposal requests comments and views on these issues.

Mrs. James: To ask the Secretary of State for Health what regulations govern the labelling of alcohol to display suitability for vegans and vegetarians. [197813]

Dawn Primarolo: There is no definition in law for the use of the terms 'vegetarian' and 'vegan' either at United Kingdom, or European level. There are no current rules that make display of this information mandatory and any labelling of food or drink products as 'vegetarian' or 'vegan' is voluntary. Consumers are protected by general legal provisions outlawing false or misleading labelling in UK legislation.

Alcoholic Drinks: Misuse

Andrew Rosindell: To ask the Secretary of State for Health what estimate he has made of the expenditure by the NHS on treatment of illnesses related to alcohol abuse in each of the last five years; and if he will make a statement. [196557]

Dawn Primarolo: We estimate that alcohol abuse costs the national health service around £1.7 billion each year, with an estimated £217 million spent each year on specialist treatment for alcohol dependence. Additional funding of £15 million has been included within primary care trust general allocations from 2007-08 to improve alcohol interventions.

Baby Care Units

John Mann: To ask the Secretary of State for Health how many new-born babies required specialist cots and incubators in each of the last 10 years. [197327]

Ann Keen: The Department does not collect the information requested. The following table details the number of births recorded in the last 10 years that required specialist care, level 2 intensive care and level 1 intensive care. It is likely that each of these births would have required a specialist cot or incubator but it should be taken as an approximate number of those pieces of equipment actually used.

Count of births by neonatal level of care for the period 1997-98 to 2006-07 in national health service hospitals in England

Finished consultant birth episodes

Neonatal level of care description	*2006-07*	*2005-06*	*2004-05*	*2003-04*	*2002-03*	*2001-02*	*2000-01*	*1999-2000*	*1998-99*	*1997-98*
Special care	33,069	31,879	30,848	28,811	28,743	28,510	28,727	31,397	36,102	36,117
Level 2 intensive care (high dependency intensive care)	3,835	4,051	4,051	4,389	4,415	4,233	4,336	4,675	4,741	4,458
Level 1 intensive care (maximal intensive care	6,272	6,173	5,459	5,110	5,049	6,053	5,636	6,061	7,133	6,862
Total	43,176	42,103	40,358	38,310	38,207	38,806	38,699	42,133	47,976	47,437

Bone Diseases

Dr. Richard Taylor: To ask the Secretary of State for Health (1) what representations he has received on behalf of people with ankylosing spondylitis in the last 12 months; and if he will make a statement; [197768]

(2) what estimate he has made of the number of people in England who had been diagnosed with ankylosing spondylitis broken down by *(a)* strategic health authority and *(b)* primary care trust area in the most recent year for which figures are available. [197769]

Ann Keen: The Department published the Musculoskeletal Framework in July 2006 in which we estimated that about 200,000 people in the United Kingdom were living with ankylosing spondylitis. The National Institute for Health and Clinical Excellence have estimated a prevalence of 0.15 per cent. and an annual incidence of 6.9 per 100,000 population. A more detailed breakdown of these figures has not been produced.

The Department has received recent representations on the cost of providing treatment for those with

ankylosing spondylitis and the availability of drugs, especially the anti-tumour necrosis factor drugs (anti-TNF).

Brain Cancer

John Bercow: To ask the Secretary of State for Health what progress has been made in increasing survival rates for *(a)* children and *(b)* adults with brain cancer in the last five years. [197727]

Ann Keen: Of the adult patients (over 15 years) diagnosed with brain cancer between 1998 and 2003, 12.3 per cent. of men and 16.2 per cent. of women survived for at least five years. This compares with five-year survival rates of 12.5 per cent. for men and 15.3 per cent. for women diagnosed between 1996 and 1999.

Analysis of survival rates among children with brain cancer undertaken in 1999 showed that significant progress has been made on survival rates since the 1960s. This analysis showed that 68 per cent. of children diagnosed with cancer of the brain and central nervous system in the mid-1990s survived for at least five years compared with 37 per cent. in the 1960s.

Caesarean Sections

Stephen Hesford: To ask the Secretary of State for Health what assessment he has made of the reasons for elective births by Caesarean-section in the last 12 months. [195624]

Ann Keen: In 2004, the National Institute for Health and Clinical Excellence (NICE) published a guideline on caesarean section (CS) in which it addressed planned (elective) caesarean sections. It found a number of reasons why a planned CS may take place. Some of them include breech presentations, multiple pregnancies and conditions such as placenta praevia. In addition, a CS may have also been undertaken at the request of the women.

The NICE guidelines recommend that the doctor or midwife should discuss the benefits and risks of a CS compared with a normal birth. If a CS has been requested by the women a note will be taken, although a CS will not be automatically agreed. If it has been requested because of a fear of giving birth, an opportunity to discuss the fears with a counsellor should be offered.

Ultimately, it is clinical decision that a CS would be of benefit to the mother and/or baby.

Cancer: Queen's Hospital Romford

Andrew Rosindell: To ask the Secretary of State for Health how many people were treated for cancer at the Queen's Hospital, Romford in 2007. [196553]

Ann Keen: The information is not held in the format requested, as data are not collected at individual hospital level. The information is collected as finished consultant episodes (FCEs) at trust level, which are defined as a period of admitted care under one consultant within one health care provider.

The number of FCEs with a primary diagnosis of cancer and neoplasms for Barking, Havering and Redbridge National Health Service Trust, of which Queen's Hospital is a part, was 11,072 for the year 2006-07. The figures do not represent the number of patients, as a person may have more than one episode of care within the year. In addition, cancer treatments could take place in other settings, for example a patient could be classed as a 'regular attender' or these treatments may occur in outpatients.

Cancer: Research

Andrew Rosindell: To ask the Secretary of State for Health what research and development schemes into new cancer treatments his Department sponsors; and if he will make a statement. [196674]

Dawn Primarolo: The Department funds national health service research and development through the National Institute for Health Research (NIHR). The NIHR research programmes support high quality research of relevance and in areas of high priority to patients and the NHS and are open to researchers investigating new cancer treatments.

The NIHR Health Technology Assessment Programme focuses specifically on the effectiveness, costs and broader impact of health care treatments and tests for those who plan, provide or receive care in the NHS and is funding a range of research on cancer treatments. In addition, the NIHR National Cancer Research Network provides NHS support for trials and other well designed cancer studies.

In partnership with Cancer Research UK, the NIHR is funding 15 experimental cancer medicine centres across England. A further two centres are in development. This initiative brings together laboratory and clinical patient-based research to speed up the development of new therapies by evaluating novel drugs and biomarkers, thus individualising patient treatment.

The Department works in close partnership with United Kingdom cancer research funders through the National Cancer Research Institute (NCRI). NCRI initiatives such as the NCRI Prostate Cancer Collaboratives—to which the Department contributes over half of the total £11.6 million funding—are discovering and developing new cancer treatments.

The Department does not normally take on the role of sponsor under the Medicines for Human Use (Clinical Trials) Regulations 2004.

Cancer: Screening

Andrew Rosindell: To ask the Secretary of State for Health how many women in the London borough of Havering received *(a)* breast, *(b)* cervical and *(c)* bowel screenings in each of the last five years. [196555]

Ann Keen: The requested information is collected by national health service organisation and not by local borough. Information on breast and cervical screening for Havering Primary Care Trust (PCT) can be found in the following table. There are currently no bowel cancer screening data being collected.

Roll-out of the NHS Bowel Cancer Screening Programme began in April 2006. The first invitations were sent out in July 2006, and full national roll-out is expected by December 2009.

Breast screening programme: coverage of women aged 53 to 64 (target age group) for England and specified organisations, at 31 March 2003 to 2007

	2003	2004	2005	2006	2007
Havering PCT					
Eligible Population[1]	17,727	17,704	17,784	17,990	18,273
Women screened (less than 3 years since last test)	14,195	14,112	14,073	14,076	13,514
Coverage (less than 3 years since last test) (percentage)	80.1	79.7	79.1	78.2	74.0

[1] This is the number of women in the registered population less those recorded as ineligible.

Notes:

1. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years. Coverage of the screening programme is currently best assessed using the 53 to 64 age group as women may be first called at any time between their 50th and 53rd birthdays.
2. The breast screening programme covers women aged 50 to 64 but it was extended to invite women aged 65 to 70 in April 2001. The last unit began inviting women aged 65 to 70 in April 2006 and full coverage should be achieved by 2008-09.

Source:

KC63 The Information Centre for health and social care

Cervical screening programme: coverage of women aged 25 to 64 (target age group) for specified organisations, 31 March 2003 to 2007

	2003	2004	2005	2006	2007
Havering PCT					
Eligible population[1]	59,497	59,804	60,137	60,992	61,331
Women screened (less than 5 years since last adequate test)	49,072	48,689	48,576	48,039	48,506
Coverage (less than 5 yrs since last adequate test) (percentage)	82.5	81.4	80.8	78.8	79.1

[1] This is the number of women in the resident population less those with recall ceased for clinical reasons.

Note:

National policy for the cervical screening programme is that eligible women aged 25 to 64 should be screened every three or five years (women aged 25 to 49 are screened every three years, those aged 50 to 64 every five years).

Source:

KC53 Parts A2 and A3, The Information Centre for health and social care

Cancer: West Midlands

Mr. Jenkins: To ask the Secretary of State for Health how much his Department spent on treating *(a)* men and *(b)* women with cancer in hospitals in the west midlands in each of the last five years for which figures are available. [195414]

Ann Keen: The information requested is not available in the format requested.

The Department centrally collects disease level expenditure estimates from primary care trusts (PCTs) as part of programme budgeting returns. The following table shows estimated aggregate expenditure on cancer for PCTs in the west midlands region from 2003-04 to 2006-07.

Financial year	£ Aggregated expenditure
2003-04	306,112,000
2004-05	358,382,000
2005-06	400,604,000
2006-07	451,665,000

Notes:

1. 2003-04 data are net expenditure.
2. 2004-05 to 2006-07 data are net expenditure but also take account of lead/host commissioner arrangements.
3. 2006-07 data may not be comparable with previous years due to changes in data definitions.

Care Homes: Elderly

Bob Spink: To ask the Secretary of State for Health when he intends to repeal the liable relatives rules in respect of care home financing for elderly patients; and if he will make a statement. [197366]

Mr. Ivan Lewis: Provisions for the repeal of the liable relatives rule are contained in clause 139 and schedule 13 of the Health and Social Care Bill which is currently making its way through Parliament. Subject to the Bill receiving parliamentary approval, we intend to repeal the rule later this year.

Childbirth: Foreigners

Sandra Gidley: To ask the Secretary of State for Health how many non-UK residents from *(a)* other EU and *(b)* other countries gave birth in hospitals in England in each of the last five years, broken down by trust. [197856]

Dawn Primarolo: These data are not collected centrally.

Chiropody

Anne Milton: To ask the Secretary of State for Health (1) what assessment he has made of the merits of the development of a national service framework for podiatry services; [197255]

(2) what podiatry services are provided free at the point of delivery; and for which groups such services are provided; [197256]

(3) under what circumstances podiatry services are provided by *(a)* a foot health practitioner and *(b)* a regulated chiropodist or podiatrist. [197257]

Ann Keen: No assessment has been carried out centrally. Guidance for access to foot care services is included in the national service frameworks for older people, diabetes, and long-term conditions, and the "White Paper Our health, our care, our say: a new direction for community services".

All national health service podiatry services are provided free of charge on the basis of assessed clinical need. It is for primary care trusts in partnership with local stakeholders, including practice based commissioners, local government and the public to determine how best to use their funds to meet national and local priorities

for improving health and to commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of podiatry services.

A foot health practitioner can only provide podiatry services if they are a registered podiatrist. The titles podiatrist and chiropodist are protected by law. Anyone using these titles must be registered with the Health Professions Council. It is also an offence to imply that someone is one of these professions, for example by stating that they provide podiatry services when they are not on the register.

Chlamydia: Screening

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 11 March 2008, *Official Report*, column 259W, on chlamydia screening, when his Department expects to announce which primary care trusts have met their targets for screening 15 per cent. of their 15 to 24 population in 2007-08. [197825]

Dawn Primarolo: Data for the National Chlamydia Screening Programme have been reported to the end of December 2007. Data for the final quarter, January 2008 to March 2008, will be reported to the Health Protection Agency in April and published in May.

Community Care: Finance

Mr. Lansley: To ask the Secretary of State for Health how much a district nurse home visit costs on average, exclusive of the cost of any treatment being administered. [196821]

Ann Keen: The information requested is not collected centrally. It is for local national health service organisations to commission services to meet local needs. This may include determining the cost of providing home visits by a district nurse.

Dental Services: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health how much his Department has spent on NHS dentistry in each Staffordshire constituency in each year since 1997. [195421]

Ann Keen: The Government's fundamental reform programme for primary dental care services was introduced from 1 April 2006. Primary care trusts (PCTs) were given responsibility for planning and commissioning primary dental services and provided with local, devolved, dental budgets.

North and South Staffordshire PCTs reported the following expenditure on primary dental care services in 2006-07, the first year of the new service arrangements. Data on expenditure by individual parliamentary constituency are not collected centrally.

£000

	Gross expenditure	Income from dental charges paid by patients	Net expenditure
National Health Service expenditure on primary dental care services, North Staffordshire PCT, 2006-07	6,483	1,818	4,665
NHS expenditure on primary dental care services, South Staffordshire PCT, 2006-07	22,574	5,734	16,840

Source:
Audited Primary Care Trust Summarisation Schedules 2006-07

Prior to April 2006, most primary dental care services were provided under former general dental service (GDS) arrangements. These were demand-led services where the pattern of dental expenditure was largely determined by where dentists chose to practice, and how much NHS work they chose to undertake. PCTs were not given fixed funding allocations, except in those areas where personal dental services (PDS) pilots were established to test alternative, local commissioning arrangements and new forms of contract remuneration.

Local level data on primary dental care expenditure prior to April 2006 is held by the Information Centre for health and social care, which is due to publish its report 'NHS Expenditure for General Dental Services and Personal Dental Services: England 1997-98 to 2005-06' in the near future. A copy will be placed in the Library following publication.

This report will give access to the available local-level information by PCT, strategic health authority and parliamentary constituency on expenditure on NHS primary dental care.

Dental Services: York

Hugh Bayley: To ask the Secretary of State for Health how many general dental practitioners providing NHS services there were in the City of York *(a)* at the latest date for which figures are available and *(b)* in each of the last 10 years. [197129]

Ann Keen: The number of national health service dentists, in England, as at 31 March, 1997 to 2006 are available in Annex E and Annex G of the "NHS Dental Activity and Workforce Report England: 31 March 2006". Annex E provides information by strategic health authority (SHA) and by primary care trust (PCT). Annex G provides information by constituency.

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report, published on 23 August 2006, is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006.

The numbers of dentists on open NHS contracts, in England, as at 30 June 2006, 30 September 2006, 31 December 2006 and 31 March 2007, are available, in

table E1 of Annex 3 of the "NHS Dental Statistics for England: 2006-07" report. This information is based on the new dental contractual arrangements, introduced on 1 April 2006. This information is provided by SHA and by PCT. Information by constituency is not available under the new dental contractual arrangements.

This report, published on 23 August 2007, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

The inclusion of dentists on trust-led contracts in the data collection following the 2006 reforms means that data collected since April 2006 cannot be directly compared with data collected under the previous system.

The numbers quoted are headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

The methodology for reporting dental work force information since the introduction of the new contract on 1 April 2006 is currently under review. The review is to ensure that the figures provide an appropriate measure of the work force, given the way that the work force reporting system is being used by PCTs. The work force data provided in the 2006-07 report will therefore remain the latest available until this review is complete.

Both reports have been published by the Information Centre for health and social care.

Hugh Bayley: To ask the Secretary of State for Health what proportion of (*a*) adults and (*b*) children in (i) the City of York, (ii) Yorkshire and the Humber and (iii) England were registered with an NHS dentist in each of the last 10 years. [197130]

Ann Keen: Figures showing the proportion of the population registered with an national health service dentist, adults and children, in England, as at 31 March, 1997 to 2006 are available in Annex B of the "NHS Dental Activity and Workforce Report, England: 31 March 2006". Information is provided by strategic health authority (SHA) and by primary care trust (PCT).

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report, published on 23 August 2006, is available in the Library and also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006.

Under the new contractual arrangements, introduced on 1 April 2006, patients do not have to be registered with an NHS dentist to receive NHS care. The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ('patients seen') over a 24-month period. However, this is not directly comparable to the registration data for earlier years.

The number of adults and children seen by an NHS dentist as a percentage of the population, in England, are available in Table C2 of Annex 3 of the "NHS Dental Statistics for England: Quarter 2, 30 September 2007" report. Information is available for the 24-month periods ending 31 March 2006, 31 March 2007, 30 June 2007 and 30 September 2007. The information is provided by SHA and by PCT.

This report, published on 28 February 2008, is available in the Library and also available at:

www.ic.nhs.uk/pubs/dentalstatsq20708.

Both reports have been published by the Information Centre for health and social care.

The information requested is not available at constituency level.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Health what contracts were awarded by his Department to (*a*) KPMG, (*b*) PricewaterhouseCoopers, (*c*) Ernst and Young, (*d*) McKinsey, (*e*) Deloitte and (*f*) other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196582]

Mr. Bradshaw: The Department does not collect information on contracts in the format requested. To do so would attract disproportionate cost.

Dermatology

Mrs. James: To ask the Secretary of State for Health what progress is being made in increasing the numbers of dermatologists working in the NHS. [197811]

Ann Keen: There were 444 dermatologists identified in the NHS work force census on 30 September 2007, that is an increase of 158 (17 per cent.) from 1997. The work force census on 30 September 2007 also showed that there were 250 doctors training in the dermatology speciality, this is an increase of 73 (41.2 per cent.) from 1997.

Dermatology: Finance

Mrs. James: To ask the Secretary of State for Health what funding his Department provided for dermatology care in the NHS in each year since 1997; and if he will make a statement. [197677]

Ann Keen: Funding for dermatology services forms part of the revenue allocations. The following table shows the revenue allocations made to health authorities from 1996-97 to 2002-03 and to primary care trusts (PCTs) from 2003-04 to 2008-09. It is for PCTs to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations.

£000

	Total England Allocation
1996-97	20,886,002
1997-98	21,816,441
1998-99	22,895,307
1999-2000	31,192,915
2000-01	34,234,888
2001-02	37,157,382
2002-03	41,468,469
2003-04	45,027,181
2004-05	49,328,244

	£000
	Total England Allocation
2005-06	53,924,975
2006-07	64,309,595
2007-08	70,354,697
2008-09	74,197,471

Diabetes

Mr. Kemp: To ask the Secretary of State for Health how many people were diagnosed with (*a*) type 1 and (*b*) type 2 diabetes in (i) Tyne and Wear, (ii) the North East and (iii) England in each of the last 10 years. [197262]

Ann Keen: Data on the number of people with a specific type of diabetes are not available. The overall number of people with diabetes can be provided based on the read codes that are used in the Quality and Outcomes Framework (QOF). The QOF data for diabetes cover people over the age of 17. Data are only available for the financial years 2004-05, 2005-06 and 2006-07.

'Tyne and Wear' is not analogous to a national health service organisation. The sum of the primary care trusts of Newcastle, North Tyneside, Gateshead, South Tyneside and Sunderland is the closest we can provide.

In July 2006, strategic health authorities (SHAs) were restructured. We have provided for 2004-05 and 2005-06 the old SHAs that became the new North East SHA. Northumberland, Tyne and Wear SHA and County Durham and Tees Valley SHA became the North East SHA.

	Area	Diabetes list size
2004-05	Northumberland, Tyne and Wear SHA	51,408
	County Durham and Tees Valley SHA	39,552
	'Tyne and Wear'	39,067
	England	1,766,391
2005-06	Northumberland, Tyne and Wear SHA	54,970
	County Durham and Tees Valley SHA	42,380
	'Tyne and Wear'	41,511
	England	1,890,663
2006-07	North East SHA	101,690
	'Tyne and Wear'	43,111
	England	1,961,976

Drugs: Rehabilitation

Tony Baldry: To ask the Secretary of State for Health what progress has been made in the commitment in the 2008 drug strategy, "Tackling drugs, changing lives", to achieve better outcomes for those entering treatment by raising standards across all treatment providers through new local clinical governance arrangements; and if he will make a statement. [196531]

Dawn Primarolo: Clinical governance is an increasingly important quality and safety assurance framework for all drug treatment providers. There are important issues about how clinical governance can work across complex drug treatment systems and how this can be helpful to drug treatment services, not just those in the national health service, and their commissioners.

The National Treatment Agency (NTA) is working with local partnerships to help ensure that clinical governance is operating effectively across the drug treatment sector. The NTA have asked that partnerships set out in their annual treatment plans what actions were planned at a partnership level to identify the current arrangements for clinical governance and what is planned to support their future development to enable service providers to respond to recent guidelines. This should include, as a minimum:

a planned audit by the partnership of current clinical governance arrangements; and

an objective that all providers will review their practice in line with recent National Institute for Health and Clinical Excellence drug misuse guidelines and technology appraisals (which together effectively update recognised standards of practice) and clinical excellence guidance documents and the recently revised 'clinical guidelines' through an effective clinical governance mechanism.

In February this year the NTA published a consultation draft of guidance on clinical governance in drug treatment. Consultation will finish on 14 May 2008.

Eyesight: Testing

Norman Lamb: To ask the Secretary of State for Health what estimate he has made of the percentage of (*a*) children under 16-years-old and (*b*) adults entitled to free eye tests who have regular eye examinations. [197968]

Ann Keen: The Department has made no estimate of the numbers of individuals who are entitled to a sight test and who have regular eye examinations.

Numbers of General Ophthalmic Services (GOS) sight tests paid for by the national health service per 10,000 persons in England, Wales, Scotland and Great Britain for the years ending 31 March 1996 to 2005 are

available in Table 3 of "General Ophthalmic Services: Consultation tables for England, Wales and Scotland, 2004-05". Information is available for children (aged 15 and under), students in full-time education (aged 16 to 18) and other eligible adults.

Copies of this report, published 30 November 2005, have been placed in the Library and is available at:

www.ic.nhs.uk/pubs/genopth2005

The Information Centre for health and social care will aim to publish a complete time series of population rates for numbers of GOS sight tests paid for by the NHS, by patient eligibility in the "General Ophthalmic Services: Activity Statistics for England and Wales – Year Ending 31 March 2008" report. This report is due to be published in July 2008.

Folic Acid

Mr. Todd: To ask the Secretary of State for Health if he will meet representatives of *(a)* Folic Acid Action and *(b)* the Association for Spina Bifida and Hydrocephalus to discuss the proposals of the Food Standards Agency to limit the strength of folic acid in food supplements. [196594]

Dawn Primarolo: Women who might become pregnant are recommended to take 400 micrograms per day folic acid until the 12 week of pregnancy to reduce the risk of neural tube defect affected pregnancies. There are no plans to revise this long standing Food Standards Agency/departmental advice or to limit the levels of folic acid in those supplements aimed at women of child-bearing age. There are therefore no plans for my right hon. Friend the Secretary of State to meet these organisations.

General Practitioners: Training

John Mann: To ask the Secretary of State for Health how many hours of training relating to substance misuse those preparing to become GPs receive. [197329]

Ann Keen: The educational and training curricula of doctors is set and managed by the appropriate Royal College for the specialty concerned. The content of the training curriculum is agreed by the Postgraduate Medical Education and Training Board. The Department is not involved in setting training programmes but does share a commitment with those bodies that all health professionals are trained so that they have the skills and knowledge to deliver high quality healthcare in their specialty.

Genetics: Testing

John Battle: To ask the Secretary of State for Health what plans he has to regulate the sale by biotechnology companies of genetic testing kits which determine susceptibility to psychiatric disorders; and if he will make a statement. [196229]

Dawn Primarolo: In its response to the Human Genetics Commission (HGC) report on direct to consumer genetic tests in 2007, the Department and the Medicines and Healthcare products Regulatory Agency undertook to work with the HGC and other interested parties, such as the Advertising Standards Authority, to develop a voluntary code of practice to ensure that genetic testing services are safe, effective and are promoted responsibly.

Health Centres: Railway Stations

John Mann: To ask the Secretary of State for Health what estimate he has made of the use by UK nationals of drop-in health centres at London's mainline stations in the last two years. [197336]

Mr. Bradshaw: There are three centrally procured operational contracts for commuter walk-in centres in London at Victoria, Liverpool Street and Canary Wharf. These are located close to major commuter hubs and not actually within mainline stations.

The Department collects information on ethnic origin from patients but has made no formal analysis of this data. All patients visiting the commuter walk-in centres are asked to fill in a form which gathers information on ethnic origin. It is not compulsory to fill in these forms and therefore the Department does not hold full data sets about the ethnic origin of the patients treated.

The following table shows the number of patients who voluntarily recorded their ethnic origin as British at commuter walk-in centres in London for January 2006 to December 2007.

Facility	*Patients treated*	*Number of recorded British nationals treated*[1]	*Date of service commencement*	*Average number of patients per day*
Liverpool Street	41,463	30,103	December 2005	80
Canary Wharf	30,380	20,769	April 2006	74
Victoria	22,582	16,098	December 2006	117
Total	94,425	66,970		

[1] This column represents people who have listed themselves as 'white British' 'Asian or Asian British' and 'black or black British'. Due to the way ethnic origin statistics are collected this means the number of people recorded here could also include some non-British nationals.

Health Visitors

Mr. Lansley: To ask the Secretary of State for Health how many health visitors there were in each *(a)* region and *(b)* primary care trust in each of the last five years for which figures are available in terms of (i) headcount and (ii) full-time equivalent staff. [196818]

Ann Keen: A table has been placed in the Library which shows the number of health visitors in England during the last five years, broken down by strategic health authority and primary care trust for both headcount and full-time equivalent staff.

Heart Diseases: Greater London

Andrew Rosindell: To ask the Secretary of State for Health how many men under the age of 35 years in *(a)* Romford constituency, *(b)* the London borough of

Havering and (c) Greater London had heart attacks in each of the last five years. [196673]

Ann Keen: This information is not held centrally.

Heart Diseases: Health Services

Mr. Lansley: To ask the Secretary of State for Health when the evaluation report on pilot sites for the provision of primary angioplasty will be published. [197877]

Ann Keen: The evaluation of the primary angioplasty pilot sites being carried out by the University of Sheffield into staffing, patient experience and costs is due to be completed by the end of April 2008. This will feed into the final report by the Department to be published later this year.

Hereditary Diseases

Anne Milton: To ask the Secretary of State for Health whether (a) he, (b) his Ministers and (c) his officials have had meetings in relation to birth defects in consanguineous marriages in the last six months. [196755]

Ann Keen: Information on the number of birth defects in consanguineous marriages is not collected centrally. The Department's correspondence unit has no record of any representations on birth defects as a result of from consanguineous marriages this year. Neither Ministers nor officials have met to discuss this issue in the last six months.

Hospitals: Cleaning Services

Mr. Jenkins: To ask the Secretary of State for Health how much funding his Department has allocated to hospitals in the west midlands for deep cleaning to date, broken down by hospital. [195416]

Ann Keen: All trusts were required to submit and agree their deep clean plans with primary care trusts in their area by 14 December 2007 and this process has been monitored and assessed by strategic health authorities (SHAs). As set out in the written ministerial statement given by my right hon. Friend, the Secretary of State on 17 January, *Official Report*, columns 38-39WS, further information on the implementation of the deep clean of the national health service is available from SHAs. All deep cleans will be complete by the end of March 2008.

Hospitals: Parking

Mr. Spellar: To ask the Secretary of State for Health what guidance he issues to NHS bodies on the level of charges levied at hospital car parks; whether such guidance permits the setting of charges at levels above those required for cost recovery; and if he will make a statement. [197718]

Mr. Bradshaw: National health service bodies are able to charge for car parking on their premises as an income generation scheme. NHS bodies have income generation powers enabling them to generate income by utilising spare capacity resulting from a non-core function.

Providing car parking services will inevitably incur overheads that must be paid for, such as maintenance and operational costs, security and lighting. If no charges were imposed, these costs would have to be found from elsewhere, at the risk of diverting funds away from patient services. Profits after covering these costs are allowed, but they must only be used to improve the health service.

The Department issued revised guidance to the NHS in December 2006 entitled Income Generation: Car Parking Charges—Best Practice for Implementation on the issues to be considered when setting up a car parking scheme or when reviewing existing ones, including what kind of car parking scheme to offer, what charges to impose and what concessions to consider.

However, the fact remains that it is for individual NHS bodies to set the level of car parking charges on their premises, taking account of all the relevant local factors.

Hospitals: Waste Disposal

Daniel Kawczynski: To ask the Secretary of State for Health whether his Department monitors the (a) level of emissions from hospital incinerators and (b) effects on health of dioxins produced from burning hospital waste. [197835]

Mr. Bradshaw: The Department provides advice and guidance to the national health service on the management and disposal routes of healthcare waste in health technical memorandum (HTM) 07-01: "Safe management of healthcare waste". A copy of HTM 07-01 is available in the Library and is also available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_063274

It is the role of the Environment Agency and the relevant local authority to licence and register all waste disposal plant, including NHS operated sites and a number of privately operated sites that are still located on hospital land. This will include monitoring the level of emissions and reporting on dioxin levels to ensure they are within acceptable and permissible limits.

Human Fertilisation and Embryology Bill: Hearing Impaired

Janet Anderson: To ask the Secretary of State for Health what discussions he has had with representatives of deaf communities on provisions in the Human Fertilisation and Embryology Bill. [196923]

Dawn Primarolo: Officials at the Department have had contact with the Royal National Institute for the Deaf, the British Deaf Association, Islington Deaf Campaign and the Stop Eugenics group. Communication with these groups is ongoing.

Injuries: Sports

Mr. Caborn: To ask the Secretary of State for Health how many people attended accident and emergency departments as a result of sports injuries in the last two years. [197258]

Dawn Primarolo: The information requested is not collected centrally. Hospital Episode Statistics does not collect data on accident and emergency attendance.

Junior Doctors: Labour Turnover

Mr. Laurence Robertson: To ask the Secretary of State for Health how many junior doctors left the NHS in each of the last five years for which figures are available; what estimate he has made of the number likely to leave the NHS in 2008; and if he will make a statement. [196161]

Ann Keen: We do not collect the number of junior doctors who have left the national health service. We do collect the number in post, which is shown in the following table.

England as 30 September each year

Number

	2003	*2004*	*2005*	*2006*	*2007*
Registrar Group	14,619	16,823	18,006	18,808	30,759
Senior House Officer	18,698	20,601	21,642	18,863	5,954
Foundation Year 2	–	–	–	3,693	4,830
House Officer and Foundation Programme Year 1	4,003	4,273	4,663	4,905	5,240
Total	37,320	41,697	44,311	46,269	46,783

Kidney Patients: Medical Treatments

Sandra Gidley: To ask the Secretary of State for Health (1) how many people received dialysis treatment in each of the last five years, broken down by trust; [195395]

(2) what the average waiting time for the commencement of dialysis treatment is, broken down by trust. [195400]

Ann Keen: The Department does not collect this information.

Information on acceptance rates onto renal replacement therapies, the percentage of patients on each modality of treatment, and the referral to treatment times for incident patients is collected by the UK Renal Registry. The annual reports containing analysis of data from 1997 to 2006 can be found on the Renal Registry's website at:

www.renalreg.com/reports/.

Macular Degeneration: Drugs

Mr. Swire: To ask the Secretary of State for Health when he expects clinical trials for the use of avastin in the treatment of wet age-related macular degeneration to commence. [196809]

Dawn Primarolo: Avastin has not been licensed for use in wet age-macular degeneration (AMD) and the companies that make Avastin have not applied for a licence for the treatment of AMD.

The National Institute for Health Research Health Technology Assessment Programme commissioned a head-to-head trial of Avastin and Lucentis in July 2007 to compare their clinical and cost-effectiveness in the treatment of wet AMD. Funding for the trial will amount to £2.8 million over a period of 42 months.

Further details about the trial can be found at:

www.ncchta.org/project/1625.asp

The law does allow the use of either unlicensed medicines or the prescribing of a licensed medicinal product 'off-label' – that is outside the terms of its marketing authorisation in order to meet special clinical needs. Such prescriptions are subject to the individual clinician's judgment and are on the personal responsibility of the prescriber, and subject to funding by individual primary care trusts.

Maternal Mortality

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of UK (*a*) maternal and (*b*) infant mortality rates against EU benchmarks; and if he will make a statement. [195397]

Ann Keen: The United Kingdom is one of the safest places in the world to have a baby. The UK rate for 2000-02 of seven maternal deaths per 100,000 pregnancies is comparable to that of France (17), Switzerland (seven) and the USA (14).

For the past 52 years, the UK is the only country in the world in which health professionals submit their work to review by their peers and they proactively notify the Confidential Enquiry into Maternal and Child Health of any women they know have died.

The infant mortality rate for England was 5.0 per 1,000 live births in 2004, compared to the 2004 European Union average of 5.3 per 1,000, according to the latest World Health Organisation data. These rates have fallen by around 40 per cent. in the last 15 years and they are broadly comparable to other industrialised countries, according to the latest United Nations Children's Fund report. Action to reduce health inequalities in infant mortality continues to be a national priority.

It is difficult to make international comparisons due to differential definitions and data registration systems, and comparisons should be made with caution. The review system used to establish maternal death in the UK, unlike in other countries, covers not just those where death certificates name maternal death. The differences in registrations of live births mean that there are variations between countries in reporting live births and infant deaths.

Maternity Services: Closures

Mr. Ancram: To ask the Secretary of State for Health how many maternity units in England have closed since May 2005. [198451]

Ann Keen: This information is not collected centrally. Any decisions on changes to services should be locally led and transparent, with full consultation with local people. It is only right that decisions about service reconfiguration and which maternity units remain open or close, are matters for local primary care trusts to determine, taking into account local population needs, priorities and resources, and having followed all appropriate processes, including public consultation.

Maternity Services: Finance

Mr. Lansley: To ask the Secretary of State for Health how much was spent on maternity services in each of the last five financial years for which figures are available, broken down by *(a)* region and *(b)* NHS trust. [195753]

Ann Keen: Information is not available by individual trust. The following table shows expenditure by region. The expenditure shown is for the commissioning of secondary healthcare (maternity) by strategic health authorities (SHAs) and primary care trusts (PCTs).

On 25 January 2008, we announced extra funding over the next three years, totalling £330 million to ensure mothers get the best possible care. The funding which will available to trusts from April 2008 will also ensure a growth in the maternity work force.

SHA area	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Maternity Services: Negligence

Mr. Lansley: To ask the Secretary of State for Health how many claims under Clinical Negligence Scheme for Trusts there have been relating to maternity services since 1995; and what the value has been of such claims. [195748]

Ann Keen: The information requested is shown in the following tables.

Numbers and values of open Obstetrics claims by year since 1995

NHSLA notification year	*Number of claims*	*Provision (£)*	*Damages paid (£)*	*Defence costs paid (£)*	*Claimant costs paid (£)*	*Total paid (£)*
1995-96	1	65,910	260,000	55,717	96,000	411,717

Notes
NHSLA Notification year relates to the year the claim was notified to the NHSLA, and not the year the incident occurred nor the year the claim was settled.
Open claims include claims where damages have been agreed but final payments have not yet been paid.
Provisions denote the likely amount that the NHSLA expects to pay on the claim, given current available data, should it be successful. Provisions are subject to change over time.
Data shown is valid for the period up to 20 March 2008.

NHS Litigation Authority (NHSLA).

Mr. Lansley: To ask the Secretary of State for Health how many patient safety incidents relating to maternity services were reported to the National Patient Safety Agency in each of the last five years for which figures are available. [195750]

Ann Keen: The number of patient safety incidents relating to maternity services reported to the National Patient Safety Agency is shown in the following table:

Year reported	Frequency
2005	28,891
2006	50,608
2007	74,986

The increase in the number of incidents reported annually reflects the trend in all incident reporting. An increased number of reported incidents does not necessarily mean a higher number of incidents but may instead reflect greater levels of reporting.

Medicine: Overseas Students

Mr. Hoban: To ask the Secretary of State for Health how many and what percentage of medical graduates from overseas medical schools who applied for speciality training in 2007 had indefinite leave to remain. [196654]

Ann Keen: The available data allow applicants to be categorised as one of a limited number of categories, shown in the following table.

Breakdown of eligible modernising medical careers 2007 applicants (England)

	International Medical Graduates (IMGs)		United Kingdom Graduates (UKGs)		All applicants	
	Number	Percentage of IMG total	Number	Percentage of UKG total	Number	Percentage of aggregate total
UK nationals	1,811	13	11,994	88	13,805	50
Other European economic area (EEA) nationals	1,545	11	389	3	1,934	7
Non-EEA nationals on highly skilled management programme	8,352	59	573	4	8,925	32
Other non-EEA nationals	2,517	18	668	5	3,185	11
Total	14,225	100	13,624	100	27,849	100

Note:
Applicants are categorised as England applicants according to their first choice round 1 application.

Mental Health Services: MRSA

Norman Lamb: To ask the Secretary of State for Health how many cases of *(a)* MRSA and *(b)* clostridium difficile were recorded in mental health units in each of the last five years. [197963]

Ann Keen: This information is not collected centrally.

Methadone

David Davis: To ask the Secretary of State for Health how many methadone prescriptions were issued by primary care trusts in each of the last five years. [196843]

Dawn Primarolo: Methadone can be prescribed as a cough suppressant, as an analgesic or for the treatment of addiction. All three uses are included in these figures and cannot be separated. The Department does not hold information on prescriptions issued, only on prescription items prescribed in primary care trusts and then dispensed. The total number of items prescribed in England and dispensed in the United Kingdom for methadone since February 2003 are shown in the following table.

Prescription items prescribed in the community in England and dispensed in the UK

	Methadone (thousand)
2003 (February to December)	843.3
2004	1,046.0
2005	1,246.7
2006	1,514.1
2007	1,783.9

Source:
Electronic Prescribing Analysis and Cost Tool system

Midwives: Standards

Mr. Lansley: To ask the Secretary of State for Health by what date he estimates midwife numbers will have risen sufficiently to provide 36 midwives per 1,000 deliveries. [195747]

Ann Keen: The number of midwives is expected to rise by an additional 4,000 by 2012. Estimates to provide 36 midwives per 1,000 deliveries are not yet available.

The September 2007 Census figure shows that the number of midwives (full-time equivalent (FTE)) increased by 2.5 per cent. from September 2006 and we now have more than 25,000 (19,298 FTE) midwives, the highest number ever.

In January 2008 we announced extra funding of £330 million over the next three years to ensure that mothers get the best possible maternity care. This money will be available to the national health service from April 2008 to invest in their maternity services.

NHS Cleaning Summit

Mr. Lansley: To ask the Secretary of State for Health (1) if he will place in the Library copies of the *(a)* agenda, *(b)* minutes and *(c)* summary of feedback from delegates at his Department's cleaning summit on 28 February; [194899]

(2) which organisations were represented at his Department's cleaning summit held on 28 February; [194900]

(3) what the cost was of his Department's cleaning summit held on 28 February. [194901]

Ann Keen: The NHS chief executive, David Nicholson hosted a Cleanliness summit on 28 February, as per the commitment in "Clean, Safe Care: reducing infections saving lives" (January 2008). This was a meeting aimed at understanding the broad challenges of delivering clean hospitals, and at sharing ideas for ongoing work. Formal minutes were not recorded, although notes were taken of subjects raised, and of plans for future work. Copies of the agenda, a letter to invitees from the NHS chief executive, which includes a list of delegates and a note of key points and next steps from the meeting have been placed in the Library.

The meeting was held at the Department and administrative costs were met from within departmental overheads. Additional costs were for a buffet lunch and an external facilitator:

	£
Facilitator	738.20
Lunch	264.80

Note:
Excluding VAT

NHS Counter Fraud Squad: Manpower and Finance

Norman Lamb: To ask the Secretary of State for Health (1) how many staff were assigned to the NHS Counter Fraud Squad in each of the last five financial years; [197914]

(2) how many *(a)* full-time and *(b)* part-time investigators were employed by the NHS Counter-Fraud Squad in each of the last five years; [197949]

(3) what the budget of the NHS Counter-Fraud Squad was in each of the last five years; [197961]

(4) what estimate he has made of the cost of fraud to the NHS in each of the last three years. [197962]

Ann Keen: The number of staff employed by the NHS Counter Fraud Service (CFS) at the end of the last five financial years and the number of those staff who were either full or part-time investigators is shown in the following table.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Total number of staff in post	243	289	246	197	170
Number of full-time investigators	58	57	60	51	48
Number of part-time investigators	4	4	4	3	3

The NHS CFS budget figures for the last five years is shown in the following table.

	£ million
2003-04	8,929
2004-05	13,893
2005-06	11,521
2006-07	11,620
2007-08	10,491

Information on the cost of fraud to the national health service for the last three years is not available in the format requested. The NHS CFS has developed risk measurement exercises to carry out examinations of samples of cases in specific areas of NHS spending and produce statistically robust estimates of fraud, corruption and error. Exercises have been carried out across pharmaceutical, optical and dental primary care cervices. These show an overall reduction in losses to fraud within these services of £94.65 million, or 55.4 per cent. as a result of anti-fraud work.

NHS Questionnaires

Mrs. May: To ask the Secretary of State for Health pursuant to the answer of 7 March 2008, *Official Report*, column 2860W, on NHS questionnaires, what businesses were contracted by the Department to conduct surveys on its behalf in 2007-08; and what the cost to the public purse was of each of these contracts. [196230]

Mr. Bradshaw: This information is not available without incurring disproportionate cost.

NHS: Ancillary Staff

Mr. Vara: To ask the Secretary of State for Health pursuant to the Answer of 28 February 2008, *Official Report*, columns 1897-903W, on NHS: ancillary staff, what proportion of staff at each acute hospital trust was designated as *(a)* medical, *(b)* nursing, *(c)* midwifery and health visiting, *(d)* scientific, *(e)* therapeutic, *(f)* technical, *(g)* ambulance, *(h)* NHS infrastructure support and *(i)* administrative staff in the latest period for which figures are available. [195437]

Ann Keen: The information requested is shown in the following table.

[1] Includes clerical and administrative staff working specifically in clinical areas, for example medical secretaries and medical records officers.
[2] NHS Infrastructure Support includes administrative managers and senior mangers, maintenance staff, and clerical and administrative staff working in central functions.
Central functions includes areas such as personnel, finance, IT, legal services, library services, health education and general management support services.

Note:
Percentages for some organisations will not total 100 due to the exclusion of small numbers of staff who are classed as "Other and unknown".

NHS: Violent Patients

James Brokenshire: To ask the Secretary of State for Health how many people were registered on the violent patient register of each London primary care trust in each of the last three years. [195649]

Ann Keen: There is no legislative provision for the maintenance of a violent patient register. Primary care trusts (PCTs) are required to consult their Local Medical Committee, if there is one, about any proposals they have to establish a specific scheme in their area for dealing with violent patients requiring primary medical services. In setting up local arrangements PCTs might keep lists of the patients to whom these primary medical services arrangements apply but this is not a legislative requirement.

NHS: Finance

Hugh Bayley: To ask the Secretary of State for Health what surplus or deficit he expects (*a*) York NHS foundation trust, (*b*) North Yorkshire and York primary care trust and (c) Yorkshire and the Humber strategic health authority to have at the end of the 2007-08 financial year; and whether he expects North Yorkshire and York primary care trust to have brought its expenditure in the 2007-08 year into balance with its income. [197087]

Ann Keen: The latest published information on year-end forecast outturn is for quarter three, 2007-08.

North Yorkshire and York primary care trust (PCT) forecasted a year-end outturn position of £19 million deficit at quarter three.

Yorkshire and the Humber strategic health authority (SHA) reported a forecast year-end outturn position of £268 million surplus at quarter three.

The Department does not collect quarterly year-end forecast outturns for foundation trusts. Monitor is due to publish quarter three financial data for foundation trusts shortly.

North Yorkshire and York PCT agreed a service modernisation and financial recovery plan with Yorkshire and the Humber SHA in April 2007 that outlined plans to return to financial balance in 2008-09 as well as the measures the PCT intends to take to achieve this.

Norman Lamb: To ask the Secretary of State for Health how funds from NHS underspends in the last five years have been re-allocated; and how he plans to allocate any underspends in the next 12 months. [197922]

Mr. Bradshaw: Surpluses generated by national health service organisations in any year are carried forward, and are available to spend in future years. In each financial year, resource adjustments are applied at strategic health authority (SHA) level equal to the value of the net resource carry forward for the overall SHA economy. SHAs are then responsible for managing the distribution of these adjustments to their individual NHS organisations according to local priorities. From 2007-08, following a change to the resource accounting and budgeting rules, this adjustment excludes under or over spends generated by NHS trusts.

The NHS operating framework for 2008-09 states that the aggregate surplus delivered by SHAs and primary care trusts in 2007-08 will be carried forward to the next financial year.

Mr. Lansley: To ask the Secretary of State for Health which NHS budgets will be amended in the years from 2008-09 to 2010-11 to take into account changes in planned expenditure in those years. [198261]

Mr. Bradshaw: The national health service budgets for 2008-09 are currently being finalised. The level of NHS budgets for 2009-10 and 2010-11 will be informed by decisions on the composition and growth to primary care trust allocations for these years.

NHS: Fraud

Norman Lamb: To ask the Secretary of State for Health (1) how many people were (*a*) found guilty and (*b*) acquitted of charges relating to fraud against the NHS in each of the last five years; [197945]

(2) how many cases were referred by the NHS Counter Fraud Squad to the Crown Prosecution Service in each of the last five years; [197947]

(3) how many cases were investigated by the NHS Counter Fraud Squad in each of the last five years. [197948]

Ann Keen: The NHS Counter Fraud Service (CFS) pursues a multi track approach in all cases investigated. This includes the option of criminal prosecution. The CFS also seek civil recovery of losses to the national health service and investigation costs as well as a disciplinary sanction before the appropriate regulatory or disciplinary body. Of criminal prosecution cases, 95 per cent. have resulted in a guilty verdict.

The NHS CFS does not refer cases to the Crown Prosecution Service.

Information on investigation cases and prosecution outcomes is shown in the following table.

	2002-03	2003-04	2004-05	2005-06	2006-07
Prosecution undertaken and defendant found guilty	51	70	56	68	82
Prosecuted undertaken and defendant acquitted	2	4	4	3	3
Investigations opened	339	429	305	272	409

NHS: Manpower

John Mann: To ask the Secretary of State for Health how many (*a*) front line and (*b*) other staff were employed by the NHS in each of the last 10 years. [197335]

Ann Keen: The number of front line staff is not collected centrally as the Department does not identify them as a separate group within the national workforce census staff groups.

Frontline staff breaks down to comprise professionally qualified clinical staff, support clinical staff and staff in general practitioner's (GP) practices. Other staff comprises national health service infrastructure support and those staff with unknown qualifications.

The following table shows the numbers of staff within the two categories for each of the last 10 years.

NHS Hospital Community Health Services and general practice workforce as at 30 September each specified year—England

Full-time equivalent

	Frontline[1]	Other[2]	Total

[1] Frontline staff comprises the following staff groups:
Consultants (including Directors of public health);
Registrars;
Other doctors in training;
Other medical and dental staff;
GPs (excluding retainers);
Qualified nursing, midwifery and health visiting staff, including Practice Nurses;
Qualified Allied Health Professions;
Other qualified scientific, therapeutic and technical staff;
Support to clinical staff; and
Other GP practice staff.
[2] Other staff comprises the following staff groups:
Central functions;
Hotel, property and estates;
Manager and senior manager; and
Other non-medical staff or those with unknown classification.

NHS: Radiography

Andrew Rosindell: To ask the Secretary of State for Health how many *(a)* radiologists and *(b)* radiographers are employed by the NHS. [196669]

Ann Keen: The latest published workforce census showed there were 3,137 qualified radiology staff working in the national health service in England in September 2007, an increase of 1,130 (56 per cent.) since September 1997.

The latest published workforce census showed there were 15,066 qualified therapeutic and diagnostic radiographers working in the NHS in England in September 2007, an increase of 3,295 (28 per cent.) since September 1997.

Non-British EU Nationals

Chris Huhne: To ask the Secretary of State for Health (1) how many *(a)* non-British EU nationals and *(b)* non-EU nationals worked in the East Midlands Strategic Health Authority (i) at the latest date for which figures are available and (ii) in each of the last five years; [197126]

(2) how many *(a)* non-British EU nationals and *(b)* non-EU nationals worked for the (i) London, (ii) North East, (iii) North West, (iv) South Central, (v) South East, (vi) South West, (vii) West Midlands, (viii) Yorkshire and the Humber and (ix) East of England Strategic Health Authority (A) at the latest date for which figures are available, and (B) in each of the last five years; [197180]

(3) how many foreign nationals from *(a)* the European Union and *(b)* outside the European Union are employed or contracted by the (i) East Midlands, (ii) East of England, (iii) London, (iv) North East, (v) North West, (vi) South Central, (vii) South East, (viii) South West, (ix) West Midlands and (x) Yorkshire and the Humber Strategic Health Authority; and how many were employed or contracted by each in each of the last five years. [197269]

Ann Keen: The nationality of national health service staff is not collected. The NHS Workforce Census does record the country of qualification for medical staff, including general practitioners (GPs). This is not the same as the nationality as it is possible United Kingdom (UK) nationals to qualify outside of the UK and vice versa.

The following table shows country of qualification for medical staff and GPs, this is broken by UK, European Economic Area (EEA) and those qualified elsewhere.

No information is provided for the majority of NHS staff, as country of qualification data for non-medical staff is not collected.

All GP Practitioners (excluding GP registrars and GP retainers)[1] and Hospital and Community Health Services, medical and dental staff[2] by country of qualification and SHA—England as at 30 September 2006

The Information Centre for health and social care Medical and Dental Workforce Census

Nurses: Disciplinary Proceedings

Mr. Drew: To ask the Secretary of State for Health what measures are in place to prevent someone from re-entering nursing in the NHS when they have previously been deemed unsatisfactory for the nursing profession. [195716]

Ann Keen: In order to work as a nurse, a person must be registered with the Nursing and Midwifery Council (NMC). If the NMC determines that a registrant is unfit to practise, they will be removed from the register and it would then be illegal for them to continue to practise as a nurse.

If a nurse who has been struck off wants to get back onto the register, they cannot apply for restoration before a period of five years has elapsed. Before restoring a person to the register, the Practice Committee must be satisfied the person holds an approved qualification and satisfies the registrar that they are capable of safe and effective practice as a nurse.

Nurses: Training

Daniel Kawczynski: To ask the Secretary of State for Health what assessment he has made of the adequacy of the levels of bursaries for student nurses. [196087]

Ann Keen: The Department provides non-repayable national health service bursaries and pays the tuition fees in full for the majority of nursing students undertaking programmes leading to professional registration. The NHS Bursary rates are reviewed annually and since 1998 the NHS Bursary has been increased each year, in September 2007 the uplift was 2.33 per cent.

The Department has worked in partnership with stakeholders to develop a package of changes to update and modernise the current NHS student Bursary Scheme.

Obesity

Andrew Rosindell: To ask the Secretary of State for Health what estimate he has made of the proportion of the population of *(a)* England and *(b)* Romford constituency that is clinically obese. [196670]

Dawn Primarolo: Information on the proportion of the population of England that are clinically obese is collected in the Health Survey for England.

"Health Survey for England 2006: Volume 1 Cardiovascular disease and risk factors in adults" pages 98-99 published on 31 January 2008 show that 24 per cent. of adults (aged 16 or over) in England were classified as obese. This publication has been placed in the Library.

Obesity rates in Romford are not available.

Neighbourhood statistics published in December 2007, provide estimated prevalence of obesity among adults aged 16 and over, along with associated confidence intervals for Havering local authority are shown in the following table. These estimates are taken from Model-Based Estimates of Healthy Lifestyle Behaviours, and are for combined years 2003 to 2005.

The proportion of people who are obese in Havering was not found to be statistically different to England.

Table 1: Model-based estimates of obesity prevalence, 2003 to 2005

	Percentages
Havering local authority	
Estimated prevalence of obesity	22.0
95% lower confidence interval	19.7
95% upper confidence interval	24.6
England[1]	
Estimated prevalence of obesity	23.6
95% lower confidence interval	23.0
95% upper confidence interval	24.2

[1] The national estimate is derived directly from the Health Surveys for England 2003 to 2005 (with associated Confidence Intervals) and therefore is not a model-based estimate.

Source:
Model-Based Estimates of Healthy Lifestyles Behaviours, 2003 to 2005.
Neighbourhood Statistics, Office for National Statistics (ONS)

Patient Choice Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what percentage of general practitioner referrals to first consultant-led outpatient services were made through the choose and book system in each month since its inception; [195316]

(2) what are the latest available figures for the percentage of general practitioner referrals to first consultant-led outpatient services made through the choose and book system. [195317]

Mr. Bradshaw: April 2006 is officially when the national rollout of choose and book began. National rollout was the commencement of primary care trust trajectory plans. The following table gives the percentage of general practitioner referrals to first outpatient services made through choose and book each month since national roll-out started.

	Percentage
April 2006	9
May 2006	13
June 2006	18
July 2006	21
August 2006	25
September 2006	26
October 2006	26
November 2006	30
December 2006	30
January 2007	31
February 2007	37
March 2007	38
April 2007	36
May 2007	35
June 2007	36
July 2007	37
August 2007	37
September 2007	39
October 2007	40
November 2007	41
December 2007	41
January 2008	44

Physiotherapy

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the number of physiotherapists qualifying in 2007 who have not been employed by the NHS. [197867]

Ann Keen: The number of physiotherapy graduates from 2006 and 2007, registered in the newly qualified health care professionals pools, as looking for their first post in the national health service has fallen from a peak of 771 on 10 September 2007 to its current figure of 430 on 18 March 2008.

Prescriptions: Fees and Charges

Norman Lamb: To ask the Secretary of State for Health (1) how many people were prosecuted for illegally claiming exemption from NHS prescription charges in each of the last five years; [197942]

(2) what estimate he has made of the cost of prescription fraud to the NHS in each of the last five years; [197943]

(3) what estimate he has made of the number of people illegally claiming exemption from NHS prescription charges in each of the last five years. [197944]

Ann Keen: Since August 2001, a penalty charge system has been in place in respect of those falsely claiming exemption to national health service prescription charges. Financial recoveries are made in the first instance through a cost effective civil process rather than by criminal prosecution. There is an option for repeat offenders to be dealt with through criminal proceedings and to date there has been one criminal prosecution, in 2004.

Information on the number of people falsely claiming exemption from NHS prescription charges and the cost of prescription fraud to the NHS is not available in the format requested.

The NHS Counter Fraud Service (CFS) undertakes fraud risk measurement exercises on a statistically valid number of prescription exemption claims. These exercises are repeated to capture reductions in losses due to anti-fraud work. The last such exercise in England took place in 2002-03. This showed the number of claims found to be fraudulent to be 1.6 per cent. and that the loss to the NHS through prescription fraud had been reduced from £117 million in 1998-99 to £47 million in 2002-03. A further risk measurement exercise will be undertaken in 2008-09.

Pressure Sores

Mr. Lansley: To ask the Secretary of State for Health (1) what plans he has to introduce a preventative programme to reduce the incidence of leg ulcers; [196819]

(2) how many people were treated for leg ulcers in England in each of the last three years; and what the cost of such treatment was in each year. [196820]

Ann Keen: This information is not collected centrally and there are no plans to introduce a national preventative programme.

Tissue viability is a vital component of nursing care for patients, and one in which there is a strong body of evidence about effective treatment. Nurses receive training in this during their preparation for registration, and as part of their continuing professional development. They have access to specialist tissue viability nurses who provide training as well as expert advice in the care of individual patients.

"Essence of Care", published in 2003, sets benchmarks for pressure ulcers in health and social care settings, and helps health care professionals to devise appropriate care plans. A copy of the publication is available in the Library. The National Institute for Health and Clinical Excellence has published detailed clinical guidelines on pressure ulcer management in primary and secondary care. It is the responsibility of local health bodies to ensure that this guidance is implemented.

Rackspace

Mr. Hands: To ask the Secretary of State for Health what the total value was of each contract awarded to Rackspace by *(a)* his Department and *(b)* its agencies in each of the last nine years. [197504]

Mr. Bradshaw: Neither the Department nor its agencies have awarded contracts to Rackspace in the last nine years.

Radiography: Training

Andrew Rosindell: To ask the Secretary of State for Health how many junior doctors trained as *(a)* radiologists and *(b)* radiographers in each of the last five years. [196671]

Ann Keen: The number of junior doctors who trained as radiologists in the last five years are shown in the following table. The number has increased by 25 per cent. from 831 in 2002-03 to 1,035 in 2006-07.

	Number of junior doctors training as radiologists
2002-03	831
2003-04	909
2004-05	945
2005-06	1,024
2006-07	1,035

The number of training places for radiographers in the last five years are shown in the following table. The number has increased by 64 per cent. from 948 in 2001-02 to 1,555 in 2005-06.

	Number of radiographers in training
2001-02	948
2002-03	1,227
2003-04	1,411
2004-05	1,461
2005-06	1,555

Radiographers are Allied Health Professionals rather than qualified medical staff, and as such are not classified as junior doctors.

Redcar and Cleveland NHS Primary Care Trust: Finance

Dr. Kumar: To ask the Secretary of State for Health how much from the public purse has been spent on the part financing of the development of New Skelton Health, in the Redcar and Cleveland NHS Primary Care Trust. [195677]

Ann Keen: Responsibility for local health services lies with the local national health service. It is the responsibility of primary care trusts (PCTs) in partnership with strategic health authorities and other local stakeholders to plan, develop and improve services for local people.

Details of the financing of the new Hillside Medical Centre can be obtained from the Redcar and Cleveland PCT.

Sanitary Waste Disposal

Martin Horwood: To ask the Secretary of State for Health (1) what *(a)* statutory and *(b)* other guidelines apply to the disposal of sanitary waste in private care homes; and which body is responsible for monitoring compliance; [197653]

(2) whether sanitary waste is included in his Department's definition of clinical waste. [197654]

Mr. Bradshaw: Statutory responsibility for environmental and waste legislation rests with the Department for Environment, Food and Rural Affairs. The management of waste, its storage, carriage, treatment and disposal and health and safety requirements are governed by legislation, including the Hazardous Waste Regulations and Lists of Waste Regulations 2005. The Environment Agency is the regulatory body for compliance.

The Department has produced guidance document Health Technical Memorandum (HTM) 07-01 "Safe management of health care waste" that includes advice on the disposal of sanitary waste appropriate to private care homes. The term 'sanitary' waste is defined as 'offensive/hygiene waste' in HTM 07-01. The guidance is applicable to all producers of health care waste and not only the national health service. A copy of HTM 07-01 is available in the Library and is also available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicy/AndGuidance/DH_063274.

'Offensive/hygiene' waste describes waste which is non-infectious and which does not require specialist treatment or disposal, but which may cause offence to those who come into contact with it, such as sanitary or 'sanpro' waste. The guidance provides advice based on assessment procedures to determine the medicinal, chemical, infectious and offensive properties of health care waste to ensure waste is disposed at appropriately licensed facilities.

Skin: Diseases

Mrs. Humble: To ask the Secretary of State for Health (1) what steps his Department has taken to *(a)* raise public awareness and *(b)* provide information to health providers and general practitioners regarding the skin disease hidradenitis suppurativa; [196314]

(2) what steps his Department plans to take with regard to hidradenitis suppurativa; [196315]

(3) what estimate he has made of the number of individuals who have hidradenitis suppurativa; [196316]

(4) what his estimate is of the cost to the public purse of NHS treatment and other support for individuals with hidradenitis suppurativa in the most recent period for which figures are available. [196318]

Ann Keen: The Department has made no estimate of the number of people living with hidradenitis suppurativa, or the cost of treatment and support provided.

The Department has not taken steps to raise public awareness of this condition. Information for health professionals has been made available on the Clinical Knowledge Summaries website at:

www.cks.library.nhs.uk.

It is the responsibility of health professionals, using their clinical judgment, to provide the most appropriate treatment for those diagnosed with hidradenitis suppurativa. This may include, for the most severely affected, referral to a specialist in dermatology.

Smoking: Telephone Services

Andrew Rosindell: To ask the Secretary of State for Health how many people called the NHS smoking helpline in 2007. [196556]

Dawn Primarolo: The national health service smoking helpline received a total of 234,709 calls in 2007. Of these calls, 82,442 are described as interactive calls. Interactive calls include calls that have a positive outcome where helpline advisers have either had a conversation with the caller or the caller has made a request for information.

Surgery: Disease Control

Mr. Hancock: To ask the Secretary of State for Health how many surgical procedures were carried out by NHS hospitals in each year since 2000; and how many of these were followed by an episode of *(a)* MRSA, *(b)* clostridium difficile and *(c)* norovirus. [195572]

Ann Keen: This information is not collected centrally

Tony Baldry: To ask the Secretary of State for Health how many surgical procedures were carried out in GP surgeries or other non-hospital patient centres since 2000; and how many resulted in episodes of *(a)* MRSA, *(b)* clostridium difficile and *(c)* norovirus. [195832]

Ann Keen: Data on the number and outcome of surgical procedures carried out in general practitioners surgeries or other non-hospital settings are not available.

York NHS Hospital: Finance

Hugh Bayley: To ask the Secretary of State for Health (1) how much capital funding was spent by York NHS Hospital in each year since 1996-97; what capital projects have been implemented at the hospital costing £1 million or more since this date; and on what date work on each project commenced; [197844]

(2) how much capital funding was spent at York NHS Hospital between 1986-87 and 1995-96. [197845]

Ann Keen: The information is not available in the format requested. However, information for the York Hospitals Foundation Trust from 2000-01 onwards has been set out in the following table.

Capital expenditure for York Hospitals NHS Foundation Trust

£000

	Gross capital expenditure	*Buildings excluding dwellings*	*Assets under construction and payment on accounts*	*Plant and machinery*	*Information technology*	*Equipment*
2006-07	8,280	2,822	2,115	2,951	n/a	n/a
2005-06	14,887	11,085	1,311	2,014	n/a	n/a
2004-05	16,154	7,776	5,286	2,388	n/a	n/a
2003-04	11,344	2,581	3,199	3,040	2,009	n/a
2002-03	10,383	2,126	6,294	1,064	n/a	n/a
2001-02	4,351	1,065	n/a	n/a	n/a	2,570
2000-01	6,813	3,688	n/a	n/a	n/a	2,958

Notes:
1. Data is not available before 2000-01.
2. Total capital spend figures include expenditure over all categories of fixed assets.
3. Individual projects cannot be identified as expenditure; it is reported by category rather than by project. Start dates for projects are not held.
4. Where expenditure in a category exceeded £1 million, the figures have been included. N/a represents where expenditure is less than £1 million, or data collection was not applicable under that category.
5. In 2000-01 and 2001-02, the analysis of equipment was simpler than in later years.
6. York Hospitals NHS Trust became a foundation trust on 1 April 2007.

Source:
Audited summarisation schedules for York Hospitals NHS Foundation Trust 2000-01 to 2006-07

Information relating to capital funding and expenditure for the York Hospitals Foundation Trust for the years prior to 2000-01 is not held centrally. This information might instead be available direct from the trust itself.

Written Answers to Questions

Thursday 3 April 2008

CULTURE, MEDIA AND SPORT

Betting Shops

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how many fixed-odds betting terminals were located in Tote betting shops at the latest date for which figures are available. [198765]

Mr. Sutcliffe: I understand from the Tote that there were 1,988 such terminals on 1 April 2008.

National Lottery: Play

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what proportion of the funding available under the Big Lottery Fund Children's Play initiative has been *(a)* committed and *(b)* spent. [198335]

Mr. Sutcliffe: The figures reflect the proportion of money which has been committed and spent under the Big Lottery Fund's children's play initiative in England.

£

Programme name	*Current value (committed)*	*Total paid to date (spent)*
Play Infrastructure	14,494,368	5,972,696
Playful Ideas	8,706,612	1,610,325
Children's Play	113,889,266	9,135,853
Total	137,090,246	16,718,874

The total money available for the Children's Play initiative is £155 million. The Big Lottery Fund has committed 88 per cent. of the total available and expect to commit all funds under the play initiative by September 2008.

Rackspace

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport what the value was of each contract awarded to Rackspace by *(a)* his Department *(b)* its agencies in each of the last nine years. [197508]

Mr. Sutcliffe: My Department uses the services of Rackspace via a framework agreement with its main IT suppliers, Atos Origin. My Department does not have a direct contract with Rackspace.

Charges made by Atos Origin for the Rackspace service are from January 2005 to date and amount to £52,782.

The Royal Parks Agency has never awarded a contract to Rackspace.

Sports: Voluntary Organisations

Bill Wiggin: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of charities running local authority sports and leisure centres which provide access to spas or saunas for those who pay for access to swimming pools. [199293]

Mr. Sutcliffe: Specific information on the delivery of leisure services by local authorities and the number providing access to spas or saunas for those who pay for access to swimming pools is not centrally collated. However, the Audit Commission report of June 2006, "Public sports and recreation services: making them fit for the future", suggests that some 22 per cent. of public leisure facilities in England are provided through trusts.

DUCHY OF LANCASTER

Bone Diseases: Death

Andrew George: To ask the Chancellor of the Duchy of Lancaster how many people died from ankylosing spondylitis in each year since 1997 in *(a)* England and *(b)* each region. [198692]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician, I have been asked to reply to your recent question asking how many people died from ankylosing spondylitis in each year since 1997 in (a) England and (b) each region. (198692)

The table attached provides the number of deaths where ankylosing spondylitis was the underlying cause of death in (a) England and (b) each government office region, from 1997 to 2006 (the latest year available).

Table 1 Number of deaths where ankylosing spondylitis was the underlying cause of death[1], Government Office Regions and England, 1997 to 2006[2,3]

Deaths (persons)

Region	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
North East	1	2	0	1	0	0	1	1	1	0
North West	1	1	2	4	2	0	1	1	2	1
Yorkshire and The Humber	1	3	2	1	2	2	0	1	3	2
East Midlands	3	1	0	0	0	0	1	0	0	2
West Midlands	2	1	3	0	1	2	1	2	0	2
East of England	2	2	2	1	1	1	4	6	3	3
London	0	5	1	2	1	1	0	2	0	2
South East	3	4	6	2	1	1	2	2	5	2

Table 1: Number of deaths where ankylosing spondylitis was the underlying cause of death[1], Government Office Regions and England, 1997 to 2006[2,3]

									Deaths (persons)
Region	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
South West	3	4	4	1	2	1	3	0	1	4
England	16	23	20	12	10	8	13	15	15	18

[1] Cause of death for ankylosing spondylitis was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 720.0 and Tenth Revision (ICD-10) code M45. The introduction of ICD-10 in 2001 means that the numbers of deaths from this cause before 2001 are not completely comparable with later years.
[2] Based on boundaries as of 2008.
[3] Figures are for deaths registered in each calendar year.

Charities: Fraud

Jo Swinson: To ask the Chancellor of the Duchy of Lancaster how many of his Department's leaflets raising public awareness of the problem of bogus charity clothing collections have been distributed to date; and what plans he has for wider distribution. [198547]

Phil Hope: The Office of the Third Sector has teamed up with stakeholders including representatives from the charity sector to produce a leaflet for householders with top tips to help check clothing collection leaflets. We have printed 500,000 copies of this leaflet which was distributed by Clothes Aid to households in particular areas where problems have been reported across England and Wales.

This leaflet has been published on stakeholder websites to raise public awareness. Stakeholders are free to print and distribute further copies of this leaflet if they feel it is necessary. I am aware for example, that British Heart Foundation have printed at least 50,000 copies of this leaflet for door to door distribution.

Employment: Houghton and Washington East

Mr. Kemp: To ask the Chancellor of the Duchy of Lancaster how many people were in employment in Houghton and Washington East constituency in each of the last 10 years. [198485]

Edward Miliband: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people were in employment in Houghton and Washington East constituency in each of the last 10 years. (198485)

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS), following International Labour Organisation definitions.

Table 1, attached, shows the number of people aged 16 and over, resident in the Houghton and Washington East constituency, who were in employment in each of the last 10 years. Estimates are obtained from the annual LFS for each 12 month period from 1997 to 2004 ending in February. For time series comparisons, the APS estimates from 2005 to 2007 are provided covering the 12 month periods ending in March, but the most recently released estimate is also included, which covers the 12 month period ending in September 2007.

As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In order to produce estimates for small geographical areas, APS and annual LFS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.

Table 1: People aged 16+ in employment in Houghton and Washington East constituency

	Thousand
12 months ending	In employment
February 1997[1]	38
February 1998[1]	42
February 1999[1]	34
February 2000[1]	37
February 2001[1]	41
February 2002[1]	38
February 2003[1]	38
February 2004[1]	36
March 2005[2]	38
March 2006[2]	40
March 2007[2]	39
September 2007[2]	41

Iraq: Documents

Lynne Jones: To ask the Chancellor of the Duchy of Lancaster (1) pursuant to the Answer of 29 February 2008, *Official Report*, column 2025W, on Iraq: documents, how the detailed comments passed on by Ann Taylor to John Scarlett on the draft dossier on Iraq on 19 September 2002 which were referred to in evidence to the Hutton inquiry (ISC/3/0003) were passed on; and whether John Scarlett or any other individual made a record of these comments; [193199]

(2) when he expects to answer Question 193199, on Iraqi documents, tabled on 5 March 2008. [197111]

Edward Miliband: I refer my hon. Friend to my answer of 29 February 2008, *Official Report*, column 2025W.

Liverpool

Mr. Wareing: To ask the Chancellor of the Duchy of Lancaster (1) if he will make a statement on his visit to Liverpool, West Derby constituency on 1 February 2008; at whose invitation he attended; where he visited; and whom he met; [193825]

(2) when he plans to answer Question 193825, on his visit to Liverpool, West Derby constituency, tabled on 10 March 2008. [198699]

Edward Miliband *[holding answer 13 March 2008]*: The visit to Liverpool, West Derby on 1 February 2008 was not made in my ministerial capacity.

Non-profit Making Associations: Community Work

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster what steps he is taking to support the community work of social enterprises providing services for vulnerable user groups. [196851]

Phil Hope: Government are committed to creating an environment in which all social enterprises, including those providing services to vulnerable groups, can thrive. The social enterprise action plan, published in November 2006, sets out cross-departmental commitment to actions which aim to foster a culture of social enterprise; ensure the right information and advice is available to those running social enterprises; enable social enterprises to access appropriate finance; and enable social enterprise to work with government.

As part of this action plan, the Office of the Third Sector, within the Cabinet Office, provides core funding to umbrella organisations which support and represent social enterprise at a national level. Included among these is Social Firms UK which offers support to social enterprises which provide employment to disadvantaged groups.

The joint Cabinet Office and HM Treasury report on the Future Role of the Third Sector in Social and Economic Regeneration, published in July 2007 also sets out the commitments of the Cabinet Office in supporting the third sector as a whole.

Both of the social enterprise action plan and the report on the future role of the third sector are available in the Library of the house.

Non-profit Making Associations: Special Educational Needs

Rosie Cooper: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the potential for third sector organisations to assist in the delivery of public services for those with learning difficulties. [196852]

Phil Hope: Third sector organisations working in partnership with the public sector play a valuable role in supporting people with learning difficulties. They bring an innovative, flexible approach tailored to people's needs. In particular, as part of the Government's wish to encourage independent living, we are keen to promote the role of user-led organisations of disabled people in supporting them to lead independent lives.

We expect third sector organisations to play an important role in the delivery of the new Socially Excluded Adults PSA (PSA 16). The PSA aims to increase the proportion of four socially excluded groups in employment and in settled accommodation; adults with learning disabilities known to councils are one of the target groups.

Public Participation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the Answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, what other public participation events have been organised since the deliberative forum on the draft legislative programme. [198203]

Edward Miliband: The Cabinet Office has not organised any further public participation events since the deliberative forum on the draft legislative programme.

ELECTORAL COMMISSION COMMITTEE

Departmental Visits Abroad

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer to the hon. Member for Chichester of 25 February 2008, *Official Report*, columns 1146-8W, on departmental visits abroad, which of the flights listed were carbon offset. [198096]

Peter Viggers: The Electoral Commission informs me that none of the flights listed were carbon offset.

Electoral Commission: Grants

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 4 March 2008, *Official Report*, columns 2241-2W, on Electoral Commission: grants, if he will place in the Library a copy of the terms and conditions of the scheme. [198093]

Peter Viggers: The Electoral Commission informs me that it has done so.

HOUSE OF COMMONS COMMISSION

Freedom of Information: Requests for Data Held

Mr. Carmichael: To ask the hon. Member for North Devon, representing the House of Commons Commission, pursuant to the answer of 26 March 2008, *Official Report*, column 89W, on Freedom of Information to the hon. Member for Aberdeen North, what further steps the Members Estimate Committee plans to take regarding FoI requests for data held by the House. [199136]

Nick Harvey: The House has appealed to the High Court against the Information Tribunal decision that full details of the additional costs allowance for 14 Members should be disclosed, on the grounds that the tribunal had misdirected itself in law, in particular in ordering the disclosure of private addresses.

Further decisions by the Information Commissioner now need to be addressed. The Members Estimate Committee has taken the view that two such decisions,

which require that the House should disclose less detailed information about the allowances of seven Members should not be appealed. This information will be released to the requesters shortly.

The same principle will also be applied to requests for information on the claims of 14 Members about which the House has appealed to the High Court. Data on these 14 MPs will only be disclosed now to that lesser level of information (by category of expense but not down to receipt level). The appeal relates to more detailed information about addresses and receipts.

The same level of information (i.e. by category—not down to receipt level) will be released about the expenses of all Members in the autumn, for the years 2004-05 to 2007-08. For the future, information compiled on a similar basis will be released quarterly, starting with the information relating to the first quarter of 2008-09 (April to June). This release of information will also begin in the autumn.

The MEC remains committed to reviewing the allowance system and ensuring that there is probity and transparency

OLYMPICS

Departmental Advertising

Mr. Hoban: To ask the Minister for the Olympics what initiatives for which she is responsible have been advertised to the public; and at what cost. [192466]

Tessa Jowell: I refer the hon. Member to the answer I gave to the hon. Member for Carshalton and Wallington (Tom Brake) on 4 March 2008, *Official Report*, columns 2307-08W.

Legacy Action Plan

Mr. Don Foster: To ask the Minister for the Olympics when she expects the Legacy Action Plan to be published. [198381]

Tessa Jowell: I intend to publish the Legacy Action Plan soon after purdah for the forthcoming local elections.

Olympic Delivery Authority

Mr. Don Foster: To ask the Minister for the Olympics (1) for how long a paper copy of the Olympic Delivery Authority's *(a)* register of interests and *(b)* register of gifts and hospitality has existed; and for what reason an electronic version has not yet been published; [198332]

(2) pursuant to the answer of 31 January 2008, *Official Report*, column 519W, on the Olympic Delivery Authority, when the Olympic Delivery Authority's *(a)* register of interests and *(b)* register of gifts and hospitality will be published; when they were (i) first commissioned and (ii) originally due for publication; and what the reasons are for the time taken for the registers to be published; [198333]

Tessa Jowell: The Olympic Delivery Authority's (ODA) register of gifts and hospitality was published on the London 2012 website on 14 March 2008. A copy has also been placed in the House Library. The register of gifts and hospitality covers registrations up to 31 December 2007 and includes the period prior to April 2006 when the ODA was an interim Authority. The registrations for the first quarter of 2008 will be published in the coming weeks.

The current register of ODA Board Members' interests is due to be published on the London 2012 website in the week beginning 31 March 2008 and a copy will also be placed in the House Library. Details of prospective ODA Board Members' interests were required as part of the DCMS recruitment process and all ODA Board Members have signed the necessary ODA declaration of interest forms.

Paper copies of the ODA's register of gifts and hospitality have existed for the period of the ODA's formal existence and its period as an interim Authority. The ODA's register of Board members interests has also existed since the ODA formally came into being.

The publication of both registers was foreshadowed in my answer to the hon. Member on 31 January 2007, *Official Report*, column 519W, in which I stated that the ODA intended to publish *(a)* its register of Board members' interests, and *(b)* its gifts and hospitality register in the first quarter of 2008.

Olympic Delivery Authority: Disclosure of Information

Mr. Don Foster: To ask the Minister for the Olympics what guidance the Government has given to the Olympic Delivery Authority on openness, transparency and accountability in dealing with requests from members of the public for access to information it holds. [198331]

Tessa Jowell: The Olympic Delivery Authority (ODA) was formally established on 30 March 2006 by the London Olympic Games and Paralympic Games Act 2006. It is a non-departmental public body sponsored by the Department for Culture, Media and Sport and is a public authority bound by the Freedom of Information Act 2000 ("the FOI Act"). The ODA is subject to a Management Statement and Financial Memorandum, approved by the Minister for the Olympics and the Chief Secretary to the Treasury, which sets out the rules and guidelines relevant to the exercise of the ODA's functions, duties and powers.

The Management Statement makes clear the responsibility of the Chairman and Members of the ODA for ensuring that the ODA complies with its statutory duties, which would include its duties under the FOI Act. The ODA is committed to complying with its obligations under the FOI Act by fostering a culture of openness, transparency and accountability as appropriate.

Olympic Delivery Authority: Manpower

Mr. Don Foster: To ask the Minister for the Olympics how many members of staff are employed by the Olympic Delivery Authority; and what teams they work in. [198330]

Tessa Jowell: The Olympic Delivery Authority (ODA) appointed a delivery partner (CLM) to programme and project manage the delivery of the venues and infrastructure for the 2012 games. The ODA has oversight and control of the venues and infrastructure programme, and directly manages transport, property, planning, communications

and interaction with Government in addition to managing engagement with a wide range of stakeholders and partners.

As of 31 March 2008 the Olympic Delivery Authority employed 164 permanent employees and 13 fixed term employees. The breakdown of employees is:

Directorates	*Number*
Chief Executive's Office	3
Chairman's Office	3
Finance and Corporate Services (finance, human resources, legal, internal audit, equality and diversity, information technology, insurance and programme assurance	45
Design and Regeneration	27
Transport	26
Construction (includes employment, skills and employment, health and safety, procurement)	23
Communications (statutory consultation, public inquiries, community engagement, stakeholder relations, media, site visits, filming, internal communications, and marketing)	19
Planning Development Control	12
Infrastructure and Utilities	10
Property (Village, IBC/MPC)	7
Security	2
Total	177

The ODA also has 21 staff seconded into the ODA from other organisations supporting directorates including Security, Construction, and Design and Regeneration.

Olympic Games 2012: Training

Mr. Hoban: To ask the Minister for the Olympics pursuant to the Answer to the hon. Member for Henley of 10 December 2007, *Official Report*, column 47W, on Olympic Games 2012: training, what the *(a)* level and *(b)* course title is of each of the 13 training places offered above level one. [195899]

Tessa Jowell: Provisional figures show that a total of 12 training courses (as opposed to 13 previously stated) were above Level 1. These courses are plant operation related and directly based on the needs of contractors on site. The 12 courses, all of which are level 2, break down as follows:

Five courses for slinger/banksmen

Three courses for 360° excavators operation

One course for telescopic forklift operation

One course for chainsaw operators

Two CSCS (Construction Skills Certification Scheme) Level Two courses (Blue card)

This local investment is part of a bigger National Skills Academy for Construction initiative led by the ODA. This partnership is likely to deliver a much larger proportion of training above Level 1.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the Answer to the hon. Member for Henley of 10 December 2007, Official Report, column 47W, on Olympic Games 2012: training, how many training places had been offered for *(a)* apprenticeships and *(b)* level (i), one, (ii) two, (iii) three and (iv) four qualifications at the latest date for which figures are available. [195901]

Tessa Jowell: Since the launch of the Local Employment and Training Framework (LETF) in January 2007 until December 2007 (the latest period for which figures are available) 1,835 training places have been offered, the vast majority of which were at level 1, with 12 at level 2. Information on places offered since then is not yet available.

Olympic Games: China

Norman Baker: To ask the Minister for the Olympics if she will hold discussions with *(a)* the International Olympics Committee and *(b)* the Chinese authorities to urge them not to include the Tibetan Autonomous Region and the Chinese provinces which, taken together, constituted Tibet prior to the Chinese invasion, in the route of the Olympic Torch before the Beijing Olympics. [198695]

Tessa Jowell: We are aware that the Olympic Torch Relay is due to pass through Tibet and up Mount Everest on its way to Beijing. The passage of the torch relay through any country is a matter for the authorities of the country concerned and the International Olympic Committee.

PRIME MINISTER

Advisory Committee on Business Appointments: Standards

Chris Huhne: To ask the Prime Minister if he will assess the effectiveness of the work of the Advisory Committee on Business Appointments. [196892]

The Prime Minister: The work of the Advisory Committee on Business Appointments has already been the subject of a review by the Public Administration Select Committee. Its report, "The Business Appointment Rules", published in June 2007, included consideration of an independent review carried out by Sir Patrick Brown. They concluded that

> "The Advisory Committee on Business Appointments has operated effectively, and we see little benefit in changing its composition, or its way of working".

Copies of the reports and the Government's response are in the Libraries of the House. The Public Administration Select Committee is also considering further the work of the advisory committee in relation to its current inquiry on lobbying.

The House will also wish to be aware that the chairman of the advisory committee, Lord Mayhew, has informed me that he wishes to step down from the chairmanship of the committee for reasons of ill health. I would like to place on record my thanks to him for the nine years of outstanding service and commitment he has given the committee and public life more generally. Sir John Blelloch, the vice chairman, will manage the committee's day-to-day business until a successor to Lord Mayhew is appointed.

Departmental internet

Mr. Stephen O'Brien: To ask the Prime Minister whether the IT system of 10 Downing Street is able to provide a record of Wikipedia entries *(a)* created and *(b)* amended from within his Office. [195831]

The Prime Minister: I know of no instance where my Office has either created or amended any records on Wikipedia.

Departmental Pay

Mr. Hoban: To ask the Prime Minister what the *(a)* total staffing cost and *(b)* average annual salary of members of the Number 10 policy unit was in each of the last five years. [195798]

The Prime Minister: The overall staffing costs for No. 10 are published on a regular basis following the end of the financial year.

WALES

Average Earnings

Mr. Roger Williams: To ask the Secretary of State for Wales what the average annual *(a)* earnings were and *(b)* household income was in Wales in each of the last three years. [197908]

Mr. Paul Murphy: Average earnings figures complied by the Office for National Statistics are published as a weekly figure. The data for 2007, 2006 and 2005 are as follows:

	Average gross weekly earnings (full-time) (£)
2007	472.1
2006	466.2
2005	[1]454.8

[1] Due to a change in Office for National Statistics methodology the 2005 figure is not directly comparable to 2006 and 2007.

The latest data on estimated gross disposable household income in Wales for the years 2003, 2004 and 2005 were published in March 2007 and are as follows:

	Estimated gross disposable household income (GDHI) (£)
2005	11,851
2004	11,322
2003	10,932

Brofiscin Quarry

Mr. Hancock: To ask the Secretary of State for Wales when Rhondda Cynon Taff Council were first advised by the Environment Agency to expect receipt of a list of appropriate persons in respect of the pollution in and around Brofiscin Quarry; when the Agency expects to provide the list; what the reasons are for the time taken; and if he will make a statement. [197423]

Mr. Paul Murphy: I am informed by the Environment Agency Wales that on the 7 March 2008 the Environment Agency apprised Rhondda Cynon Taff county borough council of the status of its investigation into potential 'Appropriate Persons'. The Environment Agency did not advise the local authority when it would receive a list of the 'Appropriate Persons'. The Environment Agency is still investigating who should be responsible for the cost of remediation in accordance with the provisions of Part 2A Environmental Protection Act 1990 and Statutory Guidance.

Brofiscin Quarry: Hazardous Substances

Mr. Hancock: To ask the Secretary of State for Wales pursuant to the answer of 4 March 2008, *Official Report*, column 2243W, on Brofiscin Quarry: hazardous substances, what the timetable is for the Environment Agency completing their investigation into responsibility for the cost of remediating the quarry. [193497]

Mr. Paul Murphy: This matter is within the devolved responsibility of the Welsh Assembly Government. However, I understand the Environment Agency is still investigating who should be responsible for the cost of remediation. In doing so, it must ensure that it acts in accordance with the relevant legislation and statutory guidance. The contaminated land regime does not prescribe a timetable for completion of the investigation.

Mr. Hancock: To ask the Secretary of State for Wales pursuant to the answer of 20 March 2008, *Official Report*, column 1300W, on hazardous substances: Brofiscin quarry, what the original planned date for publication of the remedial options was; and what the reason for the time taken to publish is. [197874]

Mr. Paul Murphy: The Environment Agency had no original planned date for publication of its remediation option appraisal but it will place the information required by Regulation 15 and Schedule 3 of the Contaminated Land (Wales) Regulations 2001 on a public register.

The Environment Agency intends to place that information on the public register as soon as reasonably practicable after it is generated.

Human Fertilisation and Embryology Bill (HL) 2007-08

Mark Pritchard: To ask the Secretary of State for Wales if he will hold discussions with the Health Minister in the Welsh Assembly Government on the effects of the Human Fertilisation and Embryology Bill, if enacted, in Wales. [197819]

Huw Irranca-Davies: My right hon. Friend the Minister of State for Public Health (Dawn Primarolo) has had regular discussions with the Welsh Assembly Government during the preparation and passage of the Human Fertilisation and Embryology Bill and I fully expect those discussions to continue.

WORK AND PENSIONS

Access to Work Programme: Fraud

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* amount and *(b)* number of cases of fraud in the access to work scheme in the last 12 months; and what sanctions there are against people who commit such fraud. [198255]

Mrs. McGuire *[holding answer 1 April 2008]:* The level of undetected fraud in Access to Work funding is not separately estimated.

From 1 April 2007 to 28 March 2008 Access to Work provided grants totalling £62 million to help around 40,000 people to keep or get work. In the same period 28 Access to Work cases were investigated because of potential fraudulent claims. The investigation identified a total loss of £190,573. Action taken resulted in savings of £123,605. Court proceedings were taken in three cases where fraudulent claims to Access to Work funds were identified.

Any cases of deliberate fraud will be prosecuted for theft, and courts may consider the imposition of a fine or custodial sentence as well as ordering recovery of amounts overpaid. The Department can cease to deal with an organisation if it is felt that by doing so it would eliminate an unacceptable risk to public funds.

Individuals may continue to receive support through the programme as long as they satisfy the eligibility criteria and comply with the terms under which their support was approved.

Consumer Goods: Nanotechnology

Dr. Gibson: To ask the Secretary of State for Work and Pensions how many products containing free nanoparticles are available in the UK consumer market. [196964]

Ian Pearson: I have been asked to reply.

The Government's aim is for the UK to derive maximum benefit from nanotechnologies and their products in a way that safeguards health, safety and the environment and addresses the aspirations and concerns of the public. The statement by the UK Government about nanotechnologies, announced in the written ministerial statement of 28 February 2008, *Official Report*, columns 86-7W, explains what the Government are doing to deliver these objectives.

The Government do not hold a list of products containing free nanoparticles although it has published a report on the manufacture and use of nanomaterials in the UK

http://www.defra.gov.uk/environment/nanotech/research/reports/index.htm#manufacture

To promote a standardised approach to labelling and ensure that products containing manufactured nanoparticles can be correctly identified, the British Standards Institute has recently published a good practice guidance document PAS 130:2007 "Guidance on the labelling of manufactured nanoparticles and products containing manufactured nanoparticles".

The Research Councils are undertaking public dialogue on nanotechnologies and the topic is likely to feature in work resulting from the recent programme of stakeholder engagement to identify the implications of new and emerging science and technology.

Government Departments and agencies are keeping under review the need for action to address regulatory gaps in the light of emerging evidence. The ministerial group on Nanotechnologies (which comprises the Ministers for Science and Innovation; the Environment; Public Health; Health and Safety; and Business and Competitiveness) will oversee the process and will also review progress on delivery of the Government's other commitments regarding nanotechnologies.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Work and Pensions which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192223]

Mrs. McGuire: The Department for Work and Pensions was formed on 8 June 2001 from parts of the former Department of Social Security, the former Department for Education and Employment and the Employment Service. Information on costs prior to 2002-03 could be obtained only at disproportionate cost.

The Department runs a number of promotional campaigns aimed at increasing awareness of rights and responsibilities. The following table details spend on advertising campaigns run by the Department in each of the last five complete financial years.

Government policies and programmes affect the lives of millions of people and in order for them to work they must be communicated effectively. But that also has to be done with cost efficiency in mind and there are strict rules to ensure value for money on Government advertising.

Departmental advertising costs	*£000*
2006-07[1]	
Age Partnership Group	9
Age Positive	40
Targeting benefit fraud	5,418
Reducing customer error	45

Targeting benefit fraud	35
Direct payment	858
Winter fuel payments	627
Inherited serps	646

The tables do not include the following as the information is not held centrally and to obtain it would incur disproportionate cost:
spend by non-departmental bodies for which the Department is responsible;
details of highly localised publicity activity by the Department's customer-facing businesses;
recruitment or procurement advertising;
Jobcentre Plus publicity during 2002-03 as at that time allocations sat with individual policy teams and within regional budgets.

The information in the tables relates to media buying expenditure only, which forms the bulk of departmental publicity expenditure, but excludes direct mail, public relations, production and other costs. All figures are exclusive of VAT.

Departmental Manpower

Danny Alexander: To ask the Secretary of State for Work and Pensions how many staff his Department recruited in each of the last 10 years; what proportion of these did not have their employment continued at the end of their probationary period in each year, broken down by reason for discontinuance. [194666]

Mrs. McGuire: The Department does not collect data in the format requested.

On 26 June 2006 DWP introduced a new probationary policy which applies to all staff. However while we do record the numbers of staff who leave, we do not record the reasons why they leave. Obtaining the data requested would be at disproportionate cost.

Departmental Postal Services

Mrs. Moon: To ask the Secretary of State for Work and Pensions what estimate he has made of the effect on his Department's expenditure of using (*a*) UK Mail and (*b*) Royal Mail for its correspondence. [195685]

Mrs. McGuire: In 2007-08, it is expected that DWP will spend approximately £15 million with UK Mail to handle 60+ million items of second-class mail from our regional delivery centres. This arrangement saves the Department approximately £2 million per annum against previous provision with Royal Mail.

DWP continues to be a major user of Royal Mail's postal services, spending £37.5 million with them in 2007-08 to deliver 100+ million items.

Departmental Public Expenditure

Bob Spink: To ask the Secretary of State for Work and Pensions whether consideration has been given to applying gender responsive budgeting to his Department's budget. [192110]

Mrs. McGuire: The UK Government are supportive of efforts to achieve gender equality and continue to work very closely with both the Women's National Commission and the Women's Budget Group on promoting gender equality within the UK.

In 2004, HM Treasury undertook a pilot project on gender analysis of expenditure with the Women's Budget Group. The project demonstrated the value of gender analysis in some areas and identified what tools and expertise were necessary within government to carry out gender analysis, but that further work was needed before gender responsive budgeting could be implemented.

In 2008, HM Treasury will be conducting further work that will determine whether it is prudent and feasible to disaggregate departmental expenditure statistics by gender.

All policy needs to have been gender impact assessed if it affects the Department's customers or staff. Gender equality issues have been central to developing the Pensions Act 2007, and to the current Pension Reform Bill going through Parliament. DWP has produced and published two extensive gender impact assessments alongside this legislation which demonstrate how these pension reforms will contribute to achieving equality of outcome in state pension provision, and equality of opportunity in building up private pension rights.

Departmental Publications

Philip Davies: To ask the Secretary of State for Work and Pensions where the "Risking It All—Targeting Benefit Thieves" newsletter has been distributed to; how it was decided where to deliver them; and what the cost was. [196931]

Mr. Plaskitt: The "Risking It All" door drop forms part of the wider Targeting Benefit Thieves campaign to reduce benefit fraud amongst DWP customers. Tackling benefit fraud is an ongoing priority for the Department—in all benefits, we currently estimate that benefit fraud costs the country a total of £0.8 billion each year.

The campaign is targeted at 50 local authority areas across England, Scotland and Wales with the highest numbers of working age benefit claimants. The newsletter was distributed in 27 of those local authority areas:

- Birmingham
- Bradford
- Brent
- Brighton and Hove
- Bristol
- Cardiff
- Coventry
- Edinburgh
- Glasgow
- Greenwich
- Hackney
- Haringey
- Hull
- Lambeth
- Leicester
- Liverpool
- Newcastle
- Newham
- North Lanarkshire
- Nottingham
- Rhondda Cynon Taff
- Sefton
- Southwark
- Stoke on Trent
- Sunderland
- Wigan
- Wirral

The newsletter activity is part of the benefit fraud campaign and is still ongoing. Final spend figures for 2007-08 are not yet available—estimated costs for the newsletter are £235,000.

Employment: Learning Disability

Rosie Cooper: To ask the Secretary of State for Work and Pensions what steps his Department is taking to support people with acute learning disabilities into sustainable work. [196854]

Mrs. McGuire: The specialist disability employment and advisory services help people with a range of disabilities, including those with a learning disability. Around one third of all those helped on the WORKSTEP programme of supported employment are people with a learning disability.

We work extensively with other Government Departments and agencies to secure better work outcomes for people with a learning disability. The "Getting A Life" demonstration project, which is jointly funded by this Department, the Department of Health, the Department for Innovation, Universities and Skills, and the Department for Children, Schools and Families, will be implemented in seven areas from April. The project will address the issues faced by young people with learning disabilities as they move from compulsory education to adult life. The aim is to help join up employment, education and local authority day services for people with a learning disability and smooth their transition from school, through college or training into employment or, where appropriate, other activities.

Housing Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions how many households received housing benefit in each quarter since 1990, broken down by parliamentary constituency. [196686]

Mr. Plaskitt: The information is not available.

Income Support: Mortgages

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to the public purse of extending the eligibility criteria to cover mortgage repayments in addition to eligible rents. [196687]

Mrs. McGuire: The information is not available.

Ministers: Pay

Mr. Harper: To ask the Secretary of State for Work and Pensions what salary each of his Department's Ministers drew *(a)* in 2006-07 and *(b)* since July 2007. [178955]

Mrs. McGuire: The information regarding the salary drawn by the Department's Ministers in 2006-07 is available in the DWP Resource Accounts published in September 2007.

Annual salaries since July 2007 are as shown in the following table.

Post and name	*Annual salary (£)*
Secretary of State	76,904
Minister of State for Pension Reform	39,893
Minister of State for Employment and Welfare Reform	39,893
Minister for Disabled People and Parliamentary Under Secretary (Commons)	30,280
Parliamentary Under Secretary of State and Minister for the East of England[1]	30,280

Post and name	Annual salary (£)
Parliamentary Under Secretary (Commons)	30,280
Parliamentary Under Secretary (Lords)	Unpaid

[1] The Parliamentary Under Secretary of State and Minister for the East of England has since moved to the Government Equalities Office.

Occupational Pensions

Chris Grayling: To ask the Secretary of State for Work and Pensions how many *(a)* public and *(b)* private sector open defined benefit occupational pension schemes there were in each year since 1997. [191149]

Mr. Mike O'Brien: The Government are committed to enhancing and protecting existing occupational pension provision, including good quality defined benefit schemes in both the public and private sector. The Pensions Bill includes a number of deregulation changes including the reduction in the revaluation cap on deferred pensions to 2.5 per cent. from 5 per cent. leading to average savings of £250 million a year.

The movement away from defined benefit to defined contribution schemes is well documented; the Government will continue to work with stakeholders as part of the rolling deregulatory review to encourage employers to keep existing schemes open, while balancing the needs of the employee.

Estimates of the number of public and private sector open defined benefit occupational pension schemes have only been available since 2000. This information is set out in the following table.

	Public	Private
2006	130	3,470
2005	—	6,230
2004	260	6,280
2000	250	18,350

Notes:
1. Figure for average annual savings (£250 million) is in 2007-08 prices.
2. All figures are estimates and are taken from the Occupational Pension Schemes Survey, years 2006, 2005, 2004 and 2000. Data for years 2000 to 2005 inclusive were produced by the Government Actuary's Department (GAD). Data from 2006 were produced by the Office for National Statistics (ONS). 2006 is the latest year published. The coverage of the survey is the UK.
3. Unlike other years, the 2005 survey, only covered private sector schemes.
4. Private sector estimates are for occupational pension schemes with one section only. These exclude schemes offering benefits on different bases to different groups of members.

Source:
Occupational Pension Schemes Survey.

Poverty: Disabled

Mr. Hollobone: To ask the Secretary of State for Work and Pensions what plans his Department has to tackle disability poverty. [196700]

Mrs. McGuire: The Government are committed to tackling all aspects of disability poverty and has made considerable progress. In terms of financial poverty the number of disabled individuals in households with an income below 60 per cent. of median on an after housing cost basis fell by 500,000 in Great Britain between 1998-99 and 2005-06.

The 2007 Comprehensive Spending Review announced measures that would support the alleviation of disability poverty, including commitments to tackle the issues of aspirational poverty and poverty of opportunities. These include measures to narrow gaps in educational achievement, employment outcomes and to promote equality.

The Office for Disability Issues' annual report, in December 2007, published a set of measures of income poverty and material deprivation which will be used to track Government progress towards equality. These measures are based on consultation with disabled people.

Notes:
1. Data are taken from the households below average income series 2005-06.
2. Figures are rounded to the nearest 100,000.
3. The definition of disability used by HBAI changed in 2002-03. It is not possible to separate out definitional and real effects. For 1998-99, available data exclude Northern Ireland, therefore changes across Great Britain between 1998-99 and 2005-06 have been presented.

Rackspace

Mr. Hands: To ask the Secretary of State for Work and Pensions what the value was of each contract awarded to Rackspace by *(a)* his Department and *(b)* its agencies in each of the last nine years. [197499]

Mr. Timms: Since the Department for Work and Pensions was created in June 2001, no contracts have been awarded to Rackspace by the Department or its agencies.

Social Security Benefits: Spain

Mr. Spellar: To ask the Secretary of State for Work and Pensions pursuant to the answer of 18 February 2008, *Official Report*, column 16, what information his Department holds on the benefits available to UK citizens living in Spain. [197717]

Mr. Plaskitt: UK citizens who move to live in Spain may be able to claim UK and Spanish benefits. The exact nature of the benefits they can receive depends on where they have worked, whether they meet the relevant entitlement conditions and how the benefits are covered under the European social security coordination rules.

People who move from the UK to live in Spain may continue to be covered by the UK for social security purposes, because for example they receive a UK contributory benefit. These rules cover old age, survivors, invalidity, unemployment, sickness, maternity, and family benefits. The UK is responsible for the healthcare costs of certain UK citizens, mostly pensioners, who are resident in Spain and who receive Spanish healthcare on the same basis as Spanish citizens.

There are a number of factors that determine which Spanish benefits a UK national resident in Spain can receive; including whether the benefit is covered by the coordination rules, and the entitlement conditions for

the benefits. The UK does not hold detailed information on the benefits systems of other states. However, if UK citizens had worked in Spain they could be entitled to Spanish contributory benefits.

UN Convention on the Rights of Persons with Disabilities

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) which provisions of the UN Convention on the Rights of Persons with Disabilities the Government plans to enter reservations against when it ratifies the convention; [198734]

(2) what changes he plans to bring forward to UK legislation to enable the UN Convention on the Rights of Persons with Disabilities to be implemented once ratified. [198735]

Mrs. McGuire: Departments and the devolved Administrations have been scrutinising their legislation, policies, practices and procedures to check compatibility with the provisions of the convention. This phase of the work is now over and we are considering carefully the emerging findings. We will announce our conclusions as soon as practicable.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bees: Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on his Department's bee health strategy. [197592]

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish his Department's strategy for bee health; and if he will make a statement. [197463]

Jonathan Shaw *[holding answer 1 April 2008]*: DEFRA is developing a bee health strategy in conjunction with stakeholders which will set out the objectives and priorities for the bee health programme over the next 10 years and outline the roles and responsibilities of Government and the beekeeping industry. It is intended that the strategy will be published after public consultation in the summer of 2008.

Bluetongue Disease: Disease Control

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to promote uptake of the bluetongue vaccination among farmers. [196436]

Jonathan Shaw *[holding answer 25 March 2008]*: The emergency bluetongue vaccination plan, developed in close collaboration with a core group of industry stakeholders, outlines how mass vaccination can be best achieved through a voluntary approach. The plan will be supported by a sustained, intensive and widespread campaign promoting the benefits of vaccination, led by the farming industry in partnership with the Government and veterinary organisations.

The campaign will include reports in farming, veterinary and national media, regional meetings and the distribution of information at livestock auction markets. Known infected premises will be targeted directly through promotional activity because experience from mainland Europe and advice from epidemiologists suggests that infected premises will be the most likely source of infection when the disease re-emerges later this year.

Carbon Emissions: International Cooperation

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken in pursuance of the statement of the UK/India summit on 21 January that long-term convergence of per capita emission rates is an important and equitable principle that should be seriously considered in the context of international climate change negotiations. [196804]

Mr. Woolas: Officials from the British high commission have had initial discussions with their counterparts in the Indian government with a view to developing collaborative work on the practical implications of this principle.

In May 2007 we published research, 'Factors Underpinning Future Action', which includes an assessment of long-term convergence of per capita emission rates. This is available on DEFRA's website.

We have also developed a model which uses existing work to explore the costs and financial flows associated with different methods of sharing out the global greenhouse gas mitigation effort, including convergence of per capita emissions. The UK described the model at a side-event at the United Nations climate change negotiations in Bali in December 2007. This is also published on the UNFCCC website. We hope to collaborate with other governments and institutions to improve the credibility and robustness of the results by exploring the implications of different data sets and other scenarios.

Cement: Pollution

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring systems are in place for assessing the levels of particles produced by cement works. [197837]

Jonathan Shaw: Operators of cement plants are required to install continuous emission monitors (CEMs) for specified key emissions including particulates. The CEMs undergo daily internal calibration checks and a mandatory independent quality assurance check in accordance with the relevant British standard. Operators provide the Environment Agency with records of each measured daily average for particulates.

Chemicals

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances the Environment Agency attributes aroclors to groups of polychlarinated biphenyl congeners. [197722]

Mr. Woolas: The Environment Agency does not normally attribute polychlorinated biphenyl congeners to any specific manufacturer.

Climate Change

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the implications for the UK if the Wilkins Ice Shelf continues to melt at its current rate. [198234]

Mr. Woolas: The Antarctic Peninsula has experienced unprecedented warming over the last 50 years and the collapse of part of the Wilkins Ice Shelf is a further indication of climate change in this area. Several ice shelves have retreated in the past 30 years and six have collapsed completely, including the Larsen B Ice Shelf, which collapsed in 2002.

As the Wilkins Ice Shelf is already floating, the loss of this area of ice will not cause an increase in sea level. Sea level will only rise if the ice held back by the ice shelf flows more quickly into the sea. The British Antarctic Survey (BAS) are working with international colleagues to monitor the situation.

Although the loss of this piece of the Wilkins Ice Shelf is of concern, it is not expected to have any direct implications for the UK.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what analysis his Department has carried out of possible links between recent flooding incidents in the UK and global warming. [198235]

Mr. Woolas: Sir Michael Pitt's Interim Review of the summer 2007 floods considered climate change impacts and provided a definition of climate change as "the change in average conditions of the atmosphere near the earth's surface over a long period of time". Although the summer 2007 floods were extreme in their nature, it would need a more frequent series of extreme events over time to confirm that this event was wholly climate change-related.

However, there is already some evidence of an increase in more intense rainfall events, though not for any wide-ranging trend in flood peaks. The evidence for these trends featured recently in The Climate of the United Kingdom and Recent Trends' report from the from UK Climate Impacts programme and Met Office.

The UK 21st Century Climate Scenarios (UKCIP08) are due to be published in October 2008. These scenarios are expected to be the most comprehensive package of climate information ever launched in the UK and will help us to adapt to the future risks of climate change. Under our resilience and adaptation project, the Environment Agency and DEFRA will be exploring the latest work from UKCIP08, so that we can better understand and use the science to support future climate change projections, and trend analyses.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196584]

Jonathan Shaw: Information requested on the purpose and value of every consultancy assignment could be provided only at disproportionate cost. Expenditure by the core-Department with the five firms identified, for the first 10 months of financial year 2007-08, and the financial year 2006-07 is:

£

Vendor	*April 2007-January 2008*	*2006-07*
KPMG	150,557.58	934,652.07
PricewaterhouseCoopers	155,593.37	2,478,503.11
Ernst and Young	213,790.23	63,767.26
McKinsey	276,125.00	
Deloitte and Touche	48,521.63	138,269.29
Deloitte MCS	5,198,320.10	1,157,656.14

Departmental Intranet

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 March 2008, *Official Report*, column 2716W, on the departmental intranet, whether his Department's IT system is able to provide a record of Wikipedia entries *(a)* created and *(b)* amended from within his Department. [195855]

Jonathan Shaw: To collate information on who within DEFRA has accessed the Wikipedia site would incur a disproportionate cost to the Department. It would be necessary to manually sort through individual records of access to the internet. This is an extremely large amount of data which is not held online. For those who had accessed Wikipedia it would not be possible to discern whether they had created or amended an entry.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193529]

Jonathan Shaw: From information held centrally, the core-Department's expenditure on overnight accommodation for civil servants in the period January to December 2007 inclusive was (i) £2,416,929 in mainland Great Britain (ii) £6,245 in Northern Ireland, (iii) £445 in the Republic of Ireland and (iv) £66,809 in other countries.

All ministerial travel, including overnight accommodation, complies with the terms of the "Ministerial Code" and "Travel by Ministers". When travelling on official business Ministers make efficient and cost-effective travel arrangements. DEFRA's financial records for

ministerial travel do not separate out overnight accommodation and this information could be generated only at disproportionate cost.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196451]

Jonathan Shaw: The information requested could be provided only at disproportionate cost.

Departmental Plants

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on pot plants in each of the last five years. [192057]

Jonathan Shaw: From information held centrally, the expenditure on pot plants for each of the last four financial years is as follows:

	£
2004-05	21,200
2005-06	17,300
2006-07	19,500
2007-08	25,400

Energy: EC Law

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy that assessments of buildings systems energy performance are undertaken within the scope of the revised Energy Performance in Buildings Directive. [196191]

Joan Ruddock: The Energy Performance of Buildings Directive sets out the general framework for the calculation of building energy performance and the assessment tools that have been developed for the UK (the Standard Assessment Procedure (SAP) for dwellings and the Simplified Building Energy Method (SBEM) for non-dwellings) comply fully with those requirements. If a future revision of the directive amends this framework then we would aim to comply with those requirements.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the Energy-using Products Directive; and from whom. [196192]

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many representations he has received on the Energy-using Products Directive; and from whom. [196137]

Joan Ruddock: My Department has consulted extensively with industry. In addition, I have replied to 13 letters which I received on this issue. These were from individual businesses involved in the heating industry sent via their respective Members of Parliament. I have also responded to 45 parliamentary questions on this topic since January 2008.

Environment Protection: Television

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has *(a)* commissioned and *(b)* evaluated on the (i) energy usage and (ii) environmental impact of plasma televisions compared to other types of television. [198184]

Joan Ruddock: The Government's Market Transformation Programme (MTP) has analysed the performances of a range of television types, including units with plasma screens. The annual energy consumption of televisions varies significantly with screen size and television type, with larger screen TVs using more energy, regardless of whether they are plasma, liquid crystal display (LCD) or cathode-ray tube (CRT).

There is no significant difference on average in the energy efficiency of the different TV technologies currently available. A 32 inch CRT, LCD or plasma screen will all consume much the same energy, around 300 kWh. However a 42 inch plasma TV (a typical size for this technology) will consume 500 kWh per year under typical usage patterns.

In the 2007 Energy White Paper, the Government announced that we will continue to work with the UK supply chain and seek commitments from manufacturers, retailers and service providers to deliver more efficient goods and services. To support this work, the Government consulted last year on our analysis of how the performance of consumer electronics products will need to improve over the next 10 to 20 years, including proposals for product standards and targets to phase out the least efficient products.

Following completion of the preparatory studies on consumer electronics: TV, the European Commission will bring forward proposals for mandatory minimum standards under the Eco-design for Energy-using Products Framework Directive (EuP) expected in 2010. The preparatory studies analyse the environmental impacts of TVs in light of the market, consumption, technologies and consumer behaviour for the European Union.

Fairtrade Initiative

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to promote Fair Trade Fortnight 2008 among staff within his Department; and if he will make a statement. [189509]

Jonathan Shaw: Fairtrade Fortnight 2008 was promoted across DEFRA through the intranet and staff restaurants.

Flood Control: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the answer of 13 March 2008, *Official Report*, colum

400W, on what additional funding he is providing for the implementation of Sir Michael Pitt's recommendations beyond that allocated to the Environment Agency for flood defence work in 2008-09; [197750]

(2) how the figure of £34.5 million was decided upon as an initial provision needed to implement Sir Michael Pitt's recommendations; [197751]

(3) what budgetary provision has been made for financing the final recommendations of Sir Michael Pitt once they have been published; [197752]

(4) what steps his Department has taken to prepare to implement the final recommendations of Sir Michael Pitt in a timely manner once they have been published. [197753]

Mr. Woolas: As announced by my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs in his written ministerial statement of 4 February 2008, *Official Report*, column 50WS, an initial provision of £34.5 million has been set aside to fund work arising from the Pitt Review. This decision was discussed at the EFRA Committee on 6 February 2008. Not all the recommendations from the review are expected to be for Government to address. The funding allocated so far will not necessarily cover all the recommendations, and is subject to further consideration. We will determine how this should be spent when we see Sir Michael's final report and the priorities it contains.

We look forward to Sir Michael's final report and recommendations. As always my Department stands ready to play its part in such actions as the Government subsequently decides.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with Natural England on opportunities for using land for water storage to prevent flooding elsewhere; and whether the single farm payment can be used for such purposes. [198106]

Mr. Woolas: In areas where flood risk needs to be managed, a range of options are always considered, including flood storage. Suggestions that farmers be paid to store flood water and other novel approaches to flood risk management can be considered within Environment Agency Catchment Flood Management Plans. Such an approach would be welcome if it secured the necessary flood management benefits.

Floods: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to improve the resilience of local authorities to surface water flooding in light of the Pitt recommendations following the floods in summer 2007. [197970]

Mr. Woolas: We are currently consulting on how to improve surface water management as part of the Government's Water Strategy, 'Future Water'. This provides a vehicle to take forward some of the key recommendations outlined in Sir Michael Pitt's interim report on the summer 2007 floods.

The consultation looks at the role of local authorities both in relation to co-ordinating the production of Surface Water Management Plans and in promoting the use of sustainable drainage systems.

Floods: Housing

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of *(a)* proposed new and *(b)* existing homes in the Thames Gateway Interim plan area are within areas vulnerable to flooding. [197242]

Mr. Woolas: There are currently 130,000 homes in the defended tidal and fluvial floodplain, representing approximately 25 per cent. of the total homes within the Gateway.

The Thames Gateway Delivery Plan proposes 160,000 new homes for the Thames Gateway by 2016. The plan sets out the broad areas of development for new homes and the Environment Agency estimates that more than 50 per cent. will be in the defended tidal and fluvial floodplains.

Government Departments: Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government have taken to cut carbon dioxide emissions across Whitehall. [198541]

Mr. Woolas: On 18 March, the Government published their response to the Sustainable Development Commission's latest assessment of Sustainable Development in Government 2007. This response reports on actions taken and planned, centrally and by individual departments, to achieve the sustainable operations targets for the government estate, which include targets to reduce carbon emissions.

The central actions taken include:

making financial support available to Departments through Salix Finance, a revolving loan fund that enables departments to invest in energy efficiency capital projects;

funding the Carbon Trust to provide advice to Government departments on reducing their carbon emissions;

strengthening the Sustainable Development Commission's watchdog function and ensuring Departments report annually on progress towards the targets;

announcing in the 2008 Budget, plans to establish a "centre of expertise in sustainable procurement". The objectives of this centre, which will be overseen by a new Director General Post of Chief Sustainability officer within the Office of Government Commerce, include providing guidance and support to help departments rapidly develop the capability and capacity to deliver our commitments.

The Government's response is available on the Cabinet Office website:

http://www.cabinetoffice.gov.uk/reports/sustainable_development.aspx

Heating: EC Law

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals for a system of grading heating

controls according to their energy efficiency to meet the requirements of the Energy-using Products Directive. [196190]

Joan Ruddock: The Government encourage the use of heating controls and the installation of a minimum set of controls is a requirement of our Building Regulations. Nevertheless, the current consultation paper on improving the energy performance of domestic heating and hot water systems sets out indicative targets for better use of existing heating controls and advance controls.

In discussions on the Energy-using Products Directive, the Government have asked the Commission to consider a system whereby heating installers would be provided with information on the performance of individual system components, including controls, together with an indication of the performance of these components in a system.

Home Energy Efficiency Scheme

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place to ensure that work carried out by firms under the Warm Front scheme is of a satisfactory standard. [197040]

Mr. Woolas: Prior to registration as a Warm Front installer, interested parties must meet stringent selection criteria.

Eaga also use a vendor-rating system to assess contractors against, as well as operational, financial and health and safety audits carried out twice yearly. Contractors who irreversibly fall short of these standards can be removed from the Warm Front scheme.

In addition to these processes, my Department employs independent quality assessors to perform six-monthly audits of scheme delivery to assess standards of workmanship and customer service.

Horses: Disease Control

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential for cases of African horse sickness to arise in England. [197998]

Jonathan Shaw: African horse sickness is included in the Specified Diseases (Notification and Slaughter) Order 1992, to implement the slaughter requirements of EU Council Directive 92/35/EEC, which lays down control rules and measures to combat the disease. Imported horses from at-risk countries outside the EU are routinely tested for African horse sickness which minimizes any likelihood of the disease arising in the UK.

A "Strategy for the control of an outbreak of African horse sickness" is being produced by a working group under the chairmanship of the Horse Trust. DEFRA is one of the main contributors and promoters of this strategy. Working group members included representatives from the equine industry, academia, research organisations and DEFRA.

Incinerators: Pollution

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps his Department is taking to monitor particles derived from the incineration of waste; [197833]

(2) whether his Department plans to extend the monitoring of particles produced by incineration of waste to include smaller particles. [197836]

Jonathan Shaw: Operators of incineration plants are required to install continuous emission monitors (CEMs) for specified key emissions including particulates. The CEMs undergo daily internal calibration checks and a mandatory independent quality assurance check in accordance with the relevant British Standard. Operators provide the Environment Agency with records of each measured daily average for particulates. These monitors record emissions of all particles (PM_{10}) below 10 micrometres, which include those below 2.5 micrometres ($PM_{2.5}$) as a sub-set.

Concentrations of particles in ambient air are monitored by the national Automatic Urban and Rural Network. $PM_{2.5}$ is monitored in a small number of locations around the United Kingdom, although this number is increasing substantially. Data from these locations are publicly available from the UK Air Quality Archive website.

There is no credible evidence to suggest that modern incinerators—which must comply with stringent EU emission limits—cause health effects, beyond those which could be attributed to similarly sized "conventional" combustion plant. A survey carried out in 2005 for DEFRA, and peer-reviewed by the Royal Society, endorsed this view, with the Royal Society declaring that health risks associated with incineration were "small in relation to other known risks". This view is also reflected in a supportive statement by the Health Protection Agency.

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what payments *(a)* his Department and *(b)* its agencies have made to Ipsos MORI in the last 24 months; and for what purposes. [193891]

Jonathan Shaw: From information held centrally, the core-Department made no payments to Ipsos Mori in financial years 2005-06 and 2006-07. Financial systems record one invoice for £1,210.80 in July 2007 charged to the exhibits and exhibitions account. Additionally, between March and July 2007, Ipsos Mori undertook a survey commissioned from the Central Office of Information (CoI) by DEFRA on the Public Sector Food Procurement Initiative (PSFPI) and its communication to schools and local authorities. The cost of this work was £53,500, paid by DEFRA to the CoI.

Local Government: Climate Change

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government has taken to assist local authorities in tackling climate change. [198540]

Mr. Woolas: The new Local Government Performance Framework for England includes an appropriate focus on climate change, with Indicators on mitigation and adaptation.

DEFRA and Communities and Local Government jointly launched a new £4 million best practice programme to provide support to local authorities to allow them to provide effective delivery against the new climate change requirements of the performance framework. Delivery bodies such as the Carbon Trust, Salix Finance and the Energy Saving Trust also offer advice, support and Government funding on reducing emissions. To support private and public sector organisations in assessing the risks and opportunities of unavoidable climate change and planning their own adaptation strategies, the UK Climate Impacts Programme (UKCIP) was set up in 1997, funded by DEFRA.

We are also working to ensure that other policies relevant to local authorities—such as planning policy statements and guidance—reflect the need to address the risks and impacts of climate change.

Northern Rock: Environment Protection

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Northern Rock bank is subject to the provisions of the Environmental Information Regulations. [198222]

Joan Ruddock: Northern Rock bank is not subject to the Environmental Information Regulations 2004 as it does not fall under Regulation 2 (2).

Article 18 of the Northern Rock plc Transfer Order 2008 SI No. 432 deems Northern Rock not to be a publicly-owned company for the purposes of section 3(1)(b) of the Freedom of Information Act 2000 and nor is it performing a function of public administration.

I refer the right hon. Member to the answer given on 21 February 2008, *Official Report*, columns 634-37.

Recycling: Batteries

Mrs. Hodgson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what support is available to local authorities who want to increase levels of battery recycling; [196338]

(2) what plans he has to increase levels of battery recycling; and if he will make a statement. [196344]

Joan Ruddock: We have recently consulted on the transposition of the EU Batteries Directive. When transposed, the directive will reduce the quantity of hazardous and non hazardous waste batteries going to landfill and increase the recovery of the materials they contain. Collection targets set by the directive for portable batteries are 25 per cent. by 2012, rising to 45 per cent. by 2016. The prohibition on incinerating or landfilling industrial and automotive batteries implies a 100 per cent. collection and recycling target for these batteries. The consultation closed on 13 March.

We are in the process of analysing the responses to the consultation. We will publish a summary prior to the second consultation later this year.

Research and trials to provide evidence for the consultation and to investigate the best ways of implementing the Batteries Directive have been carried out on portable batteries. The Waste and Resources Action Programme (WRAP) has been working in partnership with a range of local authorities and not-for-profit organisations that already run recycling collection services to pilot portable waste battery collection trials in the UK. Trials include establishing 'drop off' points at supermarkets, as well as other methods of collection such as at the kerbside.

Supported by funding from DEFRA and the devolved administrations, the trials form part of a wider effort to develop cost-effective ways for the UK to meet the targets of the Batteries Directive. The results of the various trials will be published later this month, and these will be used to help Government and batteries producers identify the best methods of collecting batteries to meet the directive's targets.

It is important to stress the fact that under the Batteries Directive, which is a Producer Responsibility Directive, responsibility for the collection, treatment and recycling of waste batteries will lie with the producers of batteries. In order to fulfil their obligations, they may need to engage with local authorities to improve their collection network. Therefore, when the directive is enforced, local authorities wishing to increase the level of the batteries recycled will need to make contractual agreements with the compliance scheme or schemes representing producers of batteries in the UK.

Mrs. Hodgson: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of batteries were recycled in each (*a*) local authority area and (*b*) constituency in each of the last five years. [196339]

Joan Ruddock: There has been no legislative requirement for waste household batteries to be separately collected and detailed statistics have not therefore been collected.

Sewage: Morecambe Bay

Geraldine Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely impact of the application (ref. 017280252) from United Utilities to vary discharge consent from Fleetwood water treatment works if accepted on the quality of bathing water standards in Morecambe Bay. [194417]

Mr. Woolas: The application for variation of the discharge consent for the Fleetwood Waste Water Treatment Works is being considered by the Environment Agency and further information is required from United Utilities. My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs has received a request to call in the application for his own determination. Paragraph 5 of schedule 10 to the Water Resources Act 1991 requires my right hon. Friend to consider whether or not to call it in, and he will do so once he is satisfied that he has sufficient information. This will include any potential impact on bathing water standards in Morecambe Bay. My right hon. Friend is currently waiting for the Environment Agency and United Utilities to complete their assessments before proceeding with this case.

Solar Power

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many solar energy panels there were in the UK in 2003; and how many panels there were at the most recent date for which figures are available. [197469]

Malcolm Wicks: I have been asked to reply.

The Department does not hold information on the number of PV solar panels installed in the UK, as data on installations is usually collected in terms of installed capacity. The total PV solar installed capacity for 2003 was 5.9 MW. Installed capacity for 2008 is not yet available but based on an extrapolation from the installed capacity of 14.3 MW in 2006, it is estimated to be in the region of 19 MW.

More information is available on the International Energy Agency website at:

www.iea-pvpsuk.org.uk

The Department does not hold the information on the amount of solar heating technology installed in the UK. This could be obtained only at disproportionate cost.

JUSTICE

Bereavement Counselling

Chris McCafferty: To ask the Secretary of State for Justice whether he will take into account *(a)* commitments made in the Department of Health's Action Plan in response to the National Audit of Epilepsy Related Death 2003 and *(b)* the recommended good practice of support to the suddenly bereaved in the National Institute for Health and Clinical Excellence guideline on the Epilepsies 2004 in providing a revised version of the Charter for the Bereaved. [198763]

Bridget Prentice: The draft Charter for Bereaved People for a reformed coroner system takes account of relevant Government commitments and the many helpful and constructive comments made in response to previous consultations. The draft charter describes the services the bereaved can expect to receive from the coroners' service, and contains guidance on how the availability of support and bereavement services should be brought to their attention. I will be issuing the draft charter for further consultation in the early summer.

The charter is an important way to ensure minimum national standards of service to bereaved families throughout England and Wales. The charter also expects coroners for a particular area to provide information to families on the main local voluntary groups which they are aware of, including those groups which offer support to those who have been bereaved as a result of sudden death in epilepsy or through other particular causes.

Courts: Security

Mr. Arbuthnot: To ask the Secretary of State for Justice what security measures courts are required to put in place to deal with instances of disorder in the courtroom. [197044]

Maria Eagle: The security policy document of Her Majesty's Courts Service, 'Safe and Secure' contains detailed guidance on measures for courts to put in place to deal with disorder. It has been recently revised to include a range of specific scenarios setting out the kinds of disorder which might occur and the appropriate security reactions to them.

'Safe and Secure' is a restricted document and it is not available for general publication to preserve the confidentiality and effectiveness of our security response.

Criminal Proceedings: Retail Trade

Bob Spink: To ask the Secretary of State for Justice if he will commission research to establish how many people are awaiting trial under weights and measures legislation for using imperial weights and measures. [197395]

Ian Pearson *[holding answer 1 April 2008]:* I have been asked to reply.

I have no plans to commission such research.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Justice what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [197587]

Maria Eagle: The Ministry of Justice was established on 9 May 2007. Information for the last 12 months is not available and could be provided only at disproportionate cost. Details of consultancy firms used by my Department in the period from April 2007 until September 2007 are provided in the following schedule.

Service Provider	*Brief service description*	*Expenditure April to September 2006-07 (£)*
2020 Delivery	12 weeks RDS help to increase capacity for statistical analysis and modelling	83,000
Mike Lock	Review IT system for collating management information for Parole Board	2,000
Alexander and Partners	Facilitated forums and groups discussing Witness Protection	15,000
Alexander and Partners	Facilitated forums and groups discussing Witness Protection	3,000
Alexander Cameron	Interview Programme for HR Senior Management Team	6,500
Alexander Cameron	Pay and Grading Project	600
Aon	Insurance Advice for new DCMF prisons	1,300
Atkins Asset Management	Framework Audit Commissions—Internal Audit.	54,544
Atkins Ltd	Pay and Grading Project	97,758
Ben Crowe	Citizenship insight Project and production of Family Justice Insight Paper	8,400
Bird and Bird	Caseflow—Case Management Legal Advice	66,000

Service Provider	Brief service description	Expenditure April to September 2006-07 £
BIT Critical	Caseflow Consultancy	35,000
BMG Research	Socio-legal research	3,955
Bovis Lend Lease	Provide scoping paper for taking forward refurbishment project on Giwydyr House	4,700
Bridley Consulting	Review of Judicial Training Administration	7,943
Centre for Public Innovation	CPI to produce a Strategic Mapping event for the ROM for SE England	12,750
CESG	Vulnerability analysis (IT Health Check) of a new IT system within the NOMS Directorate for the handling of UK Restricted data	6,816
CMAS - June Shurmer	Chartermark Consultation	300
CMG Logica	Management Information and Database Expertise	110,948
COI Communications	Pay and Grading Project	52,146
Collinson Grant Ltd	London Probation Service Review of Operations	189,050
David Mooney	Review of Judicial Appointments Procedures	4,800
Delia Coonan	Support on designing e-learning	1,174
Development Planning Partnership	Planning reports on existing estate and specific planning advice	65,329
Digits Industries Ltd	Consultancy connected with development of Computer-Based Training	1,761
Digits Industries Ltd	Consultancy connected with development of Computer Based Training	411
Drivers Jonas	Asset Management	27,749
Eclipse	Development of software to predict re-offending	10,000
Effortmark	Forms consultancy - providing expert advice on the revision of forms and user testing	2,820
Ernst and Young	Prison Performance Framework - Analyst	253,500
Ernst and Young	Workshop	17,500
Ernst and Young	Review of best practice for performance and capability assessment methodologies for IPPI and the selection of the first wave of Probation Trusts	35,000
Ernst and Young	Workshop consultancy	19,000
Ernst and Young	Initial assessment of strategic options	15,000
Exeter University	Report on influencing debtor behaviour in support of the HMCS PAN pilot	60,000
First Assist	Investigation Advice	2,322
Capgemini	Benefits realisation CJS IT development and application of best practice tools	171,000
Capgemini	Facilitated forums and groups discussing Witness Protection	6,300
GVA Grimleys	Challenging Rating Assessments	47,496
Hartley	Provided OR Analyst support for the CJS Modelling work to support CSR 07	12,000
Hazel Genn	Qualities and Abilities Framework	3,600
Heath Lambert	Risk assessment project for Probation Trusts	4,020
Hedra	Consultant to produce a business case for Re Connect Project	40,000
Hensby Communications	Press and PR handling of Annual Report	1,125
Higham Dunnett Shaw	Consultancy and upgrade of Judicial Pensions Database	3,525

Service Provider	Brief service description	Expenditure April to September 2006-07 £
HMSC Birmingham University	Updating Prison Website	7,400
Impact Plus	Review of the Probation Change Programme	20,000
Institute of Employment Studies	Independent review of the Job Simulation Assessment Centre (JSAC) with the Management Selection Unit (MSSU) in Wakefield	45,300
IPSOS MORI	Health and social care survey (research consultancy)	12,014
IPSOS MORI	Customer satisfaction survey (research consultancy)	8,270
Jo O Driscoll	Project Management of Annual Report	4,200
John Garnett	Specialist advice on claims issues	24,415
June Shurmer	Chartermark Consultancy	175
K M Research and Consultancy Ltd	Socio-legal research	8,343
KPMG	Policy Consultancy	49,500
KPMG	Development of an implementation snapshot document	49,000
KPMG	Work on the Change Strategy Review	44,800
KPMG	Report on the nature and type of regulatory frameworks	21,800
KPMG	Provision of management review and assessment for Communications Directorate	14,317
KPMG	Pensions/Appointments Law Commissioners	10,454
Law Absolute	Lawyer for Court Rules project supplementing in house legal	11,135
Leapting Public Relations	PR and communications - increase awareness of community justice in north Liverpool and increased confidence in CJS	13,500
London Economics	Research and analysis which formed part of our Consultation Paper on insurance contract law	7,450
M Bolcat Consulting	Advice on setting up and implementing Claims Management Regulation	10,800
Manchester University	Prison Health Research Network with the Mental Health in Reach Unit	260,000
Matrix	Evaluation of Dedicated Drugs Courts	50,000
Matrix	Socio-legal research	16,729
MBSM	Consultancy - interaction with police forces and systems	15,071
Melva Burton	Consultant	15,000
Mersey Care NHS Trust	Segregation Project with the Department of Health	21,860
Mitchelmores Solicitors	Legal advice on property matters and resolution of CLPHD Property Transfer Issues	659,525
Modis International Ltd	Development of computerised Case Management system	49,078
Morgan Hunt	Consultancy work to review the programme and project management reporting structures	7,191
Mott MacDonald with support from PwC	Business Process Re-engineering (Courts) Project	153,000
Nicholson McBride	Executive Coaching	18,345
Nick Sanderson	Investigation into holding of prisoners in court cells	9,555
Office of Government Commerce	Consultancy—advice for the Supreme Court Project	29,884

Service Provider	Brief service description	Expenditure April to September 2006-07 (£)
Office of Government Commerce	Review of C-NOMIS	24,913
Oliver Wyman	Carter Review	225,000
Oracle	Phoenix Sales and Investment Project	377,780
PA Consulting	Analysis of public perception of the CJS in order for the issue to be better covered in the 2008 CJS Strategic Plan. Facilitated a seminar on the issue	6,775
PA Consulting	Divisional Consultancy	99,000
PA Consulting	Courts Act - Post implementation Review	74,629
PA Consulting	Facilitated forums and groups discussing Witness Protection	10,500
PA Consulting	Cost benefit of rolling out the Re-Connect prisoner resettlement scheme nationally	5,340
Pates	Developed a Mental Health Effective Practice Audit Checklist	1,500
Pattis	Facilitated forums and groups discussing Witness Protection	10,000
Partnerships UK	Procurement advice for DCMI Persons	158,550
Pat Johnstone	Facilitated forums and groups discussing Witness Protection	6,400
Paul Reynolds Associates Ltd. Metis Psychological Consultants. Mirtad Solutions	Optimising potential with the Leadership and Talent Development	20,400
Petna Interim Executive	Executive coaching	9,957
Portchester Macro Tools Ltd	Evaluation plan for accredited offending behaviour programmes	28,200
PRMSTA	Executive Coaching	5,640
Price Waterhouse Cooper	Support to the finance team on all matters relating to the MoJ Finance Transition Project	120,000
Price Waterhouse Cooper	Carter Review	52,000
Price Waterhouse Cooper	Draw together existing analysis	24,675
Price Waterhouse Cooper	Diversity and Community relations consultancy	6,000
Prof Richard Lamming	Consultancy for preparation of a second seminar/workshop relating to the innovation and relationship management for a senior NOMS commissioning audience	5,000
QI	Provided support to the development of the cross CJS CSR Efficiency Plan	156,801
Richard Bailey Esq	Advice and operational/logistics management of Inquest	9,700
RM and BR Merkin	Research and analysis on insurance contract law	500
Robert Walters	Programme content design - future leaders scheme	11,797
Roy Walmsley	International Prison Population Statistics	6,315
Russell Reynolds Associates	Delivery of project support office for MoJ Change Project	52,485
Samantha Jones	Consultant to review, oversee and provide periodic updates	1,750
Sarah Cooke Ltd	Advice on human rights issue	11,500
Security and Standard Consultancy	Provision of quality assurance and technical support services of the electoral modernisation programme	109,366
Siemens Enterprise Commun	Pay and Grading Project	1,100
SJT Associates	Internal Estates Benchmarking System for Property	20,608
Snap Survey Shop	National Staff Survey with the HR Planning Team	13,300
STC Energy Management	Expert support on our energy monitoring system. Gathering and verification of half hourly data from our electricity supplier	20,328
Stephanie Grundy	Lawyer for Court Rules project, supplementing in house legal provision	12,371
Stopgap	Lawyer for Court Rules project, supplementing in house legal provision	11,467
Stopgap	Lawyer for Court Rules project, supplementing in house legal provision	17,371
The Rialto Consultancy Ltd	Consultancy Services	9,915
The Whitehall and Industry Group	Fees for the recruitment, placement and registration of two Non-Executive Directors to the ISB Executive Board	11,400
The Whitehall and Industry Group	Recruitment consultancy for non-executive member of Legal Services Reform Programme	2,350
Tower Perrin	Pay and Grading Project	103,971
Tower Perrin	Pay and Grading Project	36,909
Tower Perrin	Pay and Grading Project	2,400
Tribal	Supported the development an appraisal process to assist OCJR to better assess the projects within its portfolio	33,580

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Justice what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196454]

Bridget Prentice: The breakdown of temporary civil servants along with permanent employees has been published as part of the Office for National Statistics Quarterly Public Sector Employment statistics as at 31 December 2007 for Ministry of Justice and it's agencies. A copy of this table is outlined as follows.

Ministry of Justice

	Number
Gender	
Male	
Full-time	970
Part-time	80
Total	1,050
Female	
Full-time	1,130
Part-time	220
Total	1,350
Headcount	
Total	2,400

Statistics on the number of contractors and agency staff employed by Departments are not published. The Civil Service Statistics represent those employees paid directly from the Department's payroll. Any contractors employed via agencies, and not paid directly by the Department's payroll are not included.

Information relating to workers employed through employment agencies and hourly rates of pay for all staff in the Ministry of Justice and its agencies is not held centrally and could be provided only at disproportionate cost.

Drug Industry: Disclosure of Information

Jim Dobbin: To ask the Secretary of State for Justice how many pharmaceutical companies have been prosecuted for withholding information regarding their products since 1992. [196407]

Dawn Primarolo *[holding answer 25 March 2008]:* I have been asked to reply.

The Medicines and Healthcare products Regulatory Agency (MHRA) records show no prosecutions of this kind since 1992.

As a result of the recent investigation into GSK (the subject of a written ministerial statement on 6 March 2008), the MHRA plans further stringent regulations to place obligations on companies report safety issues timeously.

Firearms Act 1968: Convictions

David Davis: To ask the Secretary of State for Justice pursuant to the answer of 28 February 2008, *Official Report*, columns 1924-26W, on the Firearms Act 1968: convictions, what proportion of those convicted of offences under section 5 of the Firearms Act 1968 of *(a)* all ages and *(b)* aged 18 and over were sentenced to immediate custody in each year from 1997 to 2005. [191898]

Mr. Straw: The following table shows what proportion of those convicted of offences under section 5 of the Firearms Act 1968 of *(a)* all ages and *(b)* aged 18 and over, were sentenced to immediate custody in each year from 1997 to 2005.

The Courts Proceedings Database records five offences under section 5 of the Act. For two of the offences there is a mandatory minimum penalty:

'possessing or distributing prohibited weapons or ammunition' under section 5(1) (a), (b), (aba), (ac), (ad), (ae), (af) or (c) of the Firearms Act 1968, as amended by section 288 of the Criminal Justice Act 2003.

'possessing or distributing firearm disguised as other object' under section 5(1A)(a) of the Firearms Act 1968, also as amended by section 288 of the Criminal Justice Act 2003.

The mandatory minimum is five years for those aged 18 and over, and three years for those aged 16-17. The mandatory minimum came into affect in January 2004, and does not apply to those persons who committed offences before this date. The maximum penalty for these offences is 10 years.

The following figures are taken from the Ministry of Justice (formerly Home Office) Court Proceedings Database and relate to sentences imposed (including life and indeterminate sentences) and the average sentence length of immediate custody (excluding life and indeterminate sentences) for those sentenced for such offences where the principal offence is the one for which they were found guilty. When a defendant has been found guilty of two or more offences, it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe. Where a person is convicted on the same occasion of a firearms offences, and one such as homicide, conspiracy, robbery or GBH with intent (218 of OPA 1861) where the maximum is higher, the data in respect of the firearms offence will not have been included in the following table.

The Lord Chief Justice and I have concerns about the quality of the data relating to mandatory minima. An earlier project was undertaken that looked at cases reported to the Court Proceedings Database during the first six months of 2006 where the mandatory sentence was not given to persons aged 18 and over. These cases were checked with the Crown courts concerned. Of 65 cases, 12 were found to have the offence incorrectly classified (although two were still subject to the five-year sentence). A further case had the custody duration recorded as five months instead of five years. Some 17 per cent. of Crown court cases checked, therefore, had the wrong offence classification. The majority correctly reflect the offence and court outcome although in few cases were the courts able to say whether exceptional circumstances, as allowed for in the Criminal Justice Act, had been the reason for the five-year sentence not being imposed. Among reasons quoted were 'gun incapable of being fired', 'defendant clinically depressed', 'technical breach only' and 'defendant too young for imprisonment'.

The Ministry of Justice is now looking to see if the situation has improved by looking at data from the first six months of 2007.

Offenders sentenced[1] under section 5 of the Firearms Act (1968)

	Section 5 of the Firearms Act (1968)		
	Sentenced (Number)	Immediate custody (Number)	Proportion (Percentage)
All ages			
1997	785	107	14
1998	1,040	171	16
1999	813	138	17
2000	738	143	19

Offenders sentenced[1] under section 5 of the Firearms Act (1968)

	Section 5 of the Firearms Act (1968)		
	Sentenced (Number)	*Immediate custody (Number)*	*Proportion (Percentage)*
2001	745	131	18
2002	789	176	22
2003	903	216	24
2004	1,055	283	27
2005	1,115	318	29
Age 18 and over			
1997	744	103	14
1998	995	169	17
1999	764	136	18
2000	694	139	20
2001	677	129	19
2002	718	166	23
2003	834	206	25
2004	975	270	28
2005	1,031	306	30

[1] Principal offence basis.

Offences under section 5 are:

Possessing or distributing prohibited weapons or ammunition;

Possessing or distributing prohibited weapons designed for discharge of noxious liquid etc.;

Possessing or distributing firearm disguised as other object; and

Possessing or distributing other prohibited weapons.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system.

RDS-NOMS, Ministry of Justice

Mr. Hoban: To ask the Secretary of State for Justice pursuant to the answer of 28 February 2008, *Official Report*, column 1924W, on Firearms Act 1968: convictions, how many people over the age of 18 years were convicted under Section 1 of the Firearms Act 1968 in each of the last 12 months; and what proportion of those were sentenced to immediate custody. [196567]

Mr. Straw: The information requested on convictions and sentences under section 1 of the Firearms Act 1968 is provided in the table.

The mandatory minimum for firearms offences does not apply to offences under section 1 of the Act.

The figures in the table are taken from the Ministry of Justice (formerly Home Office) Court Proceedings Database and relate to sentences imposed (including life and indeterminate sentences) and the average sentence length of immediate custody (excluding life and indeterminate sentences) for those sentenced for such offences where the principal offence is the one for which they were found guilty. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe. Where a person is convicted on the same occasion of a firearms offences, and one such as homicide, conspiracy, robbery or GBH with intent (218 of OPA 1861) where the maximum is higher, the data in respect of the firearms offence will not have been included in the following table.

Number of defendants aged 18 and over found guilty at all courts, sentenced and sentenced to immediate custody for offences under section 1 of the Firearms Act 1968, by month, England and Wales 2006[1,2,3,4]

	Found guilty[3]	*Sentenced[3]*	*Of those sentenced, Percentage sentenced to immediate custody*
January	17	18	50
February	14	15	53
March	21	22	23
April	23	19	42
May	15	17	18
June	17	16	25
July	22	23	26
August	12	12	33
September	11	11	18
October	19	16	25
November	29	28	36
December	19	14	29
Total	219	211	32

[1] These data are on the principal offence basis.

[2] Section 1 of the Firearms act 1968 covers offences of Non-compliance with conditions of a firearm certificate and possessing a firearm or ammunition without a firearm certificate.

[3] The number found guilty may differ from the number sentenced due to the inclusion of people found guilty in a magistrates court but sentenced in the Crown court. For such people, magistrates courts records were used to determine the numbers found guilty and Crown court records were used to determine the numbers sentenced. Hence the dates of the two events would differ.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

court proceedings database Office for Criminal Justice Reform—Ministry of Justice

Firearms: Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of people convicted of carrying an illegal firearm under the Criminal Justice Act 2003 received the mandatory sentence established by the Act in each of the last four years, broken down by age group; and what the average length of sentence of those convicted of carrying an illegal firearm under the Criminal Justice Act 2003 was in each of the last four years. [197743]

Mr. Straw: The table shows the number of persons sentenced to immediate custody of possession of an illegal firearm eligible for the mandatory minimum, and the proportion that received the mandatory minimum.

The mandatory minimum only applies to two offences;

'possessing or distributing prohibited weapons or ammunition' under s. 5(1) (a), (b), (aba), (ac), (ad), (ae), (af) or (c) of the

Firearms Act 1968, as amended by s. 288 of the Criminal Justice Act 2003.

'possessing or distributing firearm disguised as other object' under s. 5(1A)(a) of the Firearms Act 1968; also as amended by s. 288 of the Criminal Justice Act 2003.

The mandatory minimum is five years for those aged 18 and over, and three years for those aged 16-17. The mandatory minimum came into affect in January 2004, and does not apply to those persons who committed offences before this date. The maximum penalty for these offences is 10 years.

The figures in the table are taken from the Ministry of Justice (formerly Home Office) Court Proceedings Database and relate to sentences imposed (including life and indeterminate sentences) and the average sentence length of immediate custody (excluding life and indeterminate sentences) for those sentenced for such offences where the principal offence is the one for which they were found guilty. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe. Where a person is convicted on the same occasion of one of these two firearms offences, and one such as homicide, conspiracy, robbery or GBH with intent (s18 of OAPA 1861) where the maximum is higher, the data in respect of the firearms offence will not have been included in the table.

Courts are required to impose the minimum sentence unless there are exceptional circumstances relating to the offence or to the offender which justify not doing so. The purpose of the minimum sentence is to tackle gun crime and gun culture. It is not aimed at purely technical offences. Exceptional circumstances might therefore include where the holder of a firearms certificate inadvertently forgets to renew his authority or where a war trophy is discovered among a deceased person's effects.

The Lord Chief Justice and I have concerns about the quality of this data and that relating to knife crime. An earlier project was undertaken that looked at cases reported to the Court Proceedings Database during the first 6 months of 2006 where the mandatory sentence was not given to persons aged 18 and over. These cases were checked with the Crown courts concerned. Of 65 cases, 12 were found to have the offence incorrectly classified (although two were still subject to the 5-year sentence). A further case had the custody duration recorded as five months instead of five years. Some 17 per cent. of Crown court cases checked therefore had the wrong offence classification. The majority correctly reflect the offence and court outcome although in few cases were the courts able to say whether exceptional circumstances, as allowed for in the Criminal Justice Act, had been the reason for the five year sentence not being imposed. Among reasons quoted were 'gun incapable of being fired', 'defendant clinically depressed', 'technical breach only' and 'defendant too young for imprisonment'.

The Ministry of Justice is now looking to see if the situation has improved by looking at data from the first six months of 2007.

Persons[1] sentenced for firearms possession offences[2] involving mandatory custodial sentences, England and Wales

Age group	Total persons sentenced	Persons given immediate custody	Of which 5 years or over[3] Number	Percentage of total sentenced	Average custodial sentence length (months)

Law Centres

Mr. Djanogly: To ask the Secretary of State for Justice how many community law centres there are; and how many closed in each of the last 10 years. [196791]

Maria Eagle: In 2000-01, the Legal Services Commission (LSC) contracted with 53 law centres and currently contracts with a total of 60 law centres. Contracted spend on law centres has increased from £6.7 million in 2000-01 to £11.6 million in 2006-07.

The LSC does not have figures for law centres other than those it contracts with.

Mr. Djanogly: To ask the Secretary of State for Justice how many community law centres have given notice to his Department and the Legal Services Commission of an inability to continue *(a)* to operate and *(b)* to operate at current levels of service provision as a consequence of restricted funding; what response he has made to such notifications; and what steps he

is taking to secure continued service provision to individual users of those community law centres which have given notice of an intention to close. [196790]

Maria Eagle: There is no expectation that any law centre will close because of Legal Services Commission (LSC) changes to the fee schemes. Out of the 60 law centres to which the LSC provides funding, four have indicated that they may cease to operate. These four providers have been affected by the withdrawal of non-LSC funding. Funding to law centres from the LSC has increased significantly over the last seven years from £6.7 million in 2000-01 to £11.6 million in 2006-07. It is not the only source of funding to Law Centres and the continuity of their operations depends on securing a range of flinders as well as on the general management of their business.

The LSC has introduced transitional provisions to minimise any short term impact from the new fee arrangements while law centres and other not for profit providers adapt to and take the opportunities provided by these arrangements. It is also working with local authorities and other funders to develop arrangements for community legal advice that will provide greater stability in total funding.

Mr. Djanogly: To ask the Secretary of State for Justice how much was spent through the Legal Services Commission on community law centres in each of the last 10 years. [196792]

Maria Eagle: The Legal Services Commission (LSC) came into being April 2000 and figures are available from this period onwards. The Legal Aid Board provided funding to Law Centres prior to the creation of the LSC, however, data on this cannot be obtained except at disproportionate cost.

The LSC's total spend (help and representation) on Law Centres from 2000-01 to 2007-08 is detailed in the following table. The table also shows the LSC's legal help spend on not for profit organisations overall in the same period.

£ million

Financial year	*LSC funding to law centres*	*Total LSC NfP funding for sector (legal help only)*
2000-01	6.7	24.4
2001-02	8.4	39.8
2002-03	9.4	47.7
2003-04	10.6	51.1
2004-05	11.0	72.4
2005-06	12.0	76.7
2006-07	11.6	79.7
2007-08	[1]11.5	[1]87.2

[1] Figure to date—final figure calculated after the year end and not currently available.

National Offender Management Service: Cost Effectiveness

Mr. Austin Mitchell: To ask the Secretary of State for Justice what *(a)* cost reductions and *(b)* efficiency gains have been achieved by the National Offender Management Service since its inception. [196145]

Mr. Hanson: The National Offender Management Service was established in 2004. The cashable and non cashable efficiency savings achieved since April 2004 under the NOMS Value for Money Programme (comprising the Prison Service, Probation Service, Youth Justice Board and NOMS HQ) are as follows:

£ million

	Cashable savings (cumulative)	*Non cashable savings (cumulative)*
2004-05	66.37	72.069
2005-06	157.692	133.183
2006-07	182.912	205.656
2007-08	237.976	276.692

The savings for 2007-08 are provisional.

Prisoners

Mr. Heath: To ask the Secretary of State for Justice what the ratio of *(a)* prison officers and *(b)* other prison staff to prisoners was in each (i) contracted-out and (ii) public prison in each of the last five years. [188346]

Mr. Straw: The information requested is in the following tables.

Public Sector Prisons

Information on the ratio of prisoners to each officer and prisoners to other staff for each public sector Prison Service establishment in each of the last five years is contained in the following tables. The ratios given are a snapshot at the end of each March and the latest available date.

Ratio of prisoners to each officer[1] in public sector establishments

Rye Hill[4]	n/a	n/a	6.7	6.43	5.6
Wolds	6.5	5.7	3.7	4.6	3.7

[1] Data is provided for HMPS prison officer equivalents in the contracted prison sector, prison custody officers and senior prison custody officers.
[2] HMP Bronzefield did not open until June 2004.
[3] HMP Peterborough did not open until March 2005.
[4] Data for HMP Rye Hill prior to 2005 is not available due to archiving and could only be provided at a disproportionate cost. Information on staffing figures in the contracted estate is not collated centrally and has been requested from each contractor and is derived from their own HR database.
[5] Not Open.

Prisons

Mr. Heath: To ask the Secretary of State for Justice how many *(a)* high and *(b)* medium security psychiatric beds exist in (i) prison facilities and (ii) health facilities used by the Prison Service; and how many (A) high and (B) medium security psychiatric beds were in use by prisoners in (1) prison facilities and (2) health facilities used by the Prison Service in each of the last five years. [193505]

Maria Eagle: Prisons are not designated for treatment under the Mental Health Act and there are no high or medium secure psychiatric beds in the prison estate.

In NHS units in England, for 2006-07, the latest period for which figures are available, there was an average daily number of 2,993 mental illness secure unit beds, and 516 learning disability secure unit beds[1].

Prisoners with mental disorder that meet the criteria for transfer under the Mental Health Act 1983 are transferred, as patients, to mental health facilities commissioned by the national health service.

The number of prisoners transferred in the last five years are shown in the following table.

[1] *Source:*
Department of Health KH03 return.

	Number
2003	786
2004	891
2005	900
2006	962
2007	926

Prisons: Wales

Ian Lucas: To ask the Secretary of State for Justice what representations he has received from Wrexham County Borough Council on the provision of a prison in North Wales in the last 12 months. [197345]

Mr. Hanson: My right hon. Friend the Secretary of State for Justice and Lord Chancellor has received no formal representations from Wrexham county borough council on the provision of a prison in North Wales in the last 12 months. However, NOMS Custodial Estates has had discussions with Wrexham county borough council in conjunction with North Wales Criminal

Justice Board about the possibility of sites becoming a prison development in the Wrexham area.

Property Rights: Cohabitation

Mr. Harper: To ask the Secretary of State for Justice what plans he has to respond to the Law Commission proposals to reform the property rights of cohabiting couples published in July 2007. [198691]

Bridget Prentice: I refer the hon. Member to my written ministerial statement on 6 March 2008, *Official Report*, column 123WS, announcing the Government's response to the Law Commission's paper, "Cohabitation: The Financial Consequences of Relationship Breakdown".

Sexual Offences: Rehabilitation

Mr. Llwyd: To ask the Secretary of State for Justice (1) what assessment he has made of the delivery of internet sex offender programmes in probation areas in Wales against delivery timetables in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08; [197809]

(2) what assessment he has made of the delivery of community sex offenders programmes in probation areas in Wales against delivery timetables in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08. [197866]

Maria Eagle: National guidance to probation areas states that offenders sentenced to a community order with a requirement to attend an accredited sex offender programme should commence the group work programme by the sixth week of the order. In some cases this timetable can be altered at the discretion of the offender manager. There is no timetable for offenders on licence.

Offenders waiting for a place on the group work component of the community sex offender treatment programme or the internet offender programme are under the supervision of their offender manager from the day of sentence. Before they commence either programme a full assessment is required in order to confirm their suitability for the programme; confirm the treatment plan; and identify the modules in which they should participate. During this initial period the offender manager will monitor the risk posed by the offender and manage it. Additionally the offender manager will normally prepare offenders for the programmes by carrying out set work.

The information requested is contained in the following table. These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing. The waiting times may include time that has elapsed while the offender is prepared for the programme or because an offender has been recalled to custody.

		Community sex offender treatment programme		*Internet sex offender treatment programme*	
Area	*Data*	*2006-07*	*2007-08*	*2006-07*	*2007-08*
Dyfed-Powys	Average time to start in weeks	39	20	—	—
	Number of commencements	4	5	—	—
Gwent	Average time to start in weeks	33	34	—	43
	Number of commencements	11	13	—	5
North Wales	Average time to start in weeks	38	44	—	56
	Number of commencements	36	16	11	1
South Wales	Average time to start in weeks	55	49	63	66
	Number of commencements	20	13	1	4

Tribunals: Employment

Bob Spink: To ask the Secretary of State for Justice if he will instruct employment tribunals to *(a)* award costs against and *(b)* reflect in the value of awards those bringing or defending a claim irresponsibly. [197247]

Bridget Prentice: Employment tribunals are independent judicial bodies therefore neither the Secretary of State nor any Government official has the power to instruct or direct employment tribunals on the amount, or circumstances in which an award of costs or compensatory award should be made.

The Employment Tribunals (Constitution and Rules of Procedure) Regulations 2004 give employment tribunals the power to consider an award of costs against a claimant or respondent in respect of costs incurred by the other party. This includes instances where a tribunal or chairman considers that a party or their representative has acted vexatiously, abusively, disruptively or otherwise unreasonably, in the bringing of proceedings. The amount of the award is determined by the tribunal in accordance with the guidance given in the rules.

Young Offender Institutions: Restraint Techniques

Mike Wood: To ask the Secretary of State for Justice (1) what his policy is on the use of restraints in establishments for young offenders; and if he will make a statement; [198343]

(2) on how many occasions restraints were used on young offenders in each of the last three years; [198344]

(3) how many injuries were recorded arising from the use of restraints on young offenders in each of the last three years. [198345]

Mr. Hanson: Young offenders are those prisoners aged 18 to 21 years old who are referred to as young adults. The Prison Service uses control and restraint (C and R) techniques to restrain prisoners, including young adults, as a last resort in order to bring a violent or refractory prisoner under control and only when all other de-escalation techniques have failed. An independent review into the techniques used to restrain young people, below the age of 18, in custodial settings is currently under way and will report to Ministers in June this year.

The information requested on number of restraints and injuries is not held centrally in the format requested and could be provided only at disproportionate cost.

TRANSPORT

Aircraft: Air Conditioning

Mr. Ellwood: To ask the Secretary of State for Transport whether *(a)* the Civil Aviation Authority and *(b)* her Department has commissioned research on the effect of oil leaks of engines on passengers and crew of Boeing 757s. [198164]

Jim Fitzpatrick *[holding answer 1 April 2008]:* The health and safety of passengers and crew is a priority for the Government, which is leading research into "fume events." This research is not exclusive to Boeing 757s.

In 2007 the Department for Transport began a world first research project to try to capture and analyse substances released during transient fume events. The first stage of this work was to identify and test equipment capable of sampling any potentially harmful substances in cabin air. The report into this first stage work was published by Cranfield University on 21 February after peer review. It is published on the Department's website (www.dft.gov.uk). The next phase of work is to use the equipment identified to capture real-time fume events; this work is being developed.

In addition, the Committee on Toxicity published their report into the cabin environment in September 2007. The report is available on the Committee's website:

www.advisorybodies.doh.gov.uk/cotnonfood/index.htm

Mr. Ellwood: To ask the Secretary of State for Transport what representations she has received from the airline industry on illnesses caused by chemicals from oils and lubricants leaking into cabin air supplies. [198165]

Jim Fitzpatrick *[holding answer 1 April 2008]:* The British Air Transport Association (BATA) is an active member of the Aviation Health Working Group (AHWG), the stakeholder forum for aviation health. A number of airlines have volunteered to participate in the cabin air sampling study.

Mr. Ellwood: To ask the Secretary of State for Transport how many representations she has received from *(a)* airline pilots, *(b)* passengers and *(c)* air crew on illnesses relating to cabin air contaminated by engine leakage. [198550]

Jim Fitzpatrick: We would not necessarily expect individual pilots or cabin crew to contact the Secretary of State as their main representative organisations, BALPA and the T and G, are members of the Aviation Health Working Group, the stakeholder forum for all aviation health issues. With regard to passengers, figures quoted by the Air Transport Users Council to the House of Lords inquiry into 'Air Travel and Health' in 2007 noted that "out of a total of 20,000 written complaints since January 2001, 58 were categorised as medical". Of those 58 the main issues raised were pregnancy; injuries, typically from skiing; and allergies, typically from peanuts.

Biofuels: Imports

Richard Ottaway: To ask the Secretary of State for Transport how much bio-fuel has been imported in the last 12 months; and if she will make a statement. [198816]

Jim Fitzpatrick: The Government do not hold precise data on imports of biofuels used in the UK. We will have more accurate data once the Renewable Transport Fuel Obligation (RTFO) comes into effect on 15 April. Under the RTFO, transport fuel suppliers who wish to earn renewable transport fuel certificates in respect of their biofuels will have to report to the Renewable Fuels Agency (RFA) on matters such as the country of origin of and the wider sustainability of those fuels. Further detail on the reporting requirements is available via the RFA's website at:

http://www.dft.gov.uk/rfa

Boats: Licensing

Mr. Steen: To ask the Secretary of State for Transport what consideration she has given to making arrangements under the new boatmasters' licences to give dispensations to boatmasters operating in Category C tidal estuary waters proportionate to the relative risks encountered in their operating waters. [198825]

Jim Fitzpatrick: The Government are considering an amendment to the Merchant Shipping (Inland Waterways and Coastal Operations) (Boatmasters' Qualifications and Hours of Work) Regulations 2006 which would introduce a new category of licence. This would allow masters to operate in a geographically limited area on tidal waters, without the comprehensive and rigorous qualification required by the existing Tier 1, Level 2 licence, subject to the agreement of the relevant navigation and port authorities.

The safety of those who use the UK's waterways has always been the focus of the BML, and it is this concern for safety that led to the current situation of onerous qualification requirements. Any amendment to the BML regulations will follow extensive consultation to ensure that public safety will not be compromised.

Bus Services

Norman Baker: To ask the Secretary of State for Transport how many *(a)* bus and *(b)* rail passenger journeys were made in each region in each year since 1997. [195928]

Ms Rosie Winterton: The following extract from the Department's Public Transport Statistics Bulletin, a copy of which is in the House Library, shows the bus passenger journeys, in calendar years, since 1997-98.

Bus passenger journeys[1] by GO region 1997-98 to 2006-07

Million

Region	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Great Britain	4,43	4,35	4,37	4,42	4,45	4,55	4,68	4,73	4,79	4,97

[1] Each boarding of the vehicle is counted as one journey.
[2] Wales includes Great Orme trams.

Note:
PTE data are from DfT's survey of operators. They might differ from PTE's own survey data.

Source:
DfT survey of PSV operators.

The Department for Transport does not hold information on the number of rail passenger journeys made in each region in each year since 1997. The Office of Rail Regulation (ORR) does, however, publish regional rail passenger flows in the National Rail Trends Yearbook editions, which are available in the House Library or from their website:

www.rail-reg.gov.uk

Bypasses: Construction

Mr. Ancram: To ask the Secretary of State for Transport how many construction projects for trunk road bypasses have been authorised since May 2005. [198513]

Mr. Tom Harris: Five bypass schemes have been authorised since May 2005. These are:

A69 Haydon Bridge Bypass on 26 September 2006;

A38 Dobwalls Bypass on 24 August 2006;

A595 Parton to Lillyhall Improvement on 25 July 2006;

A3 Hindhead on 20 July 2006; and

A419 Blunsdon Bypass on 8 March 2006.

Details of these are published on the Department's website:

http://www.dft.gov.uk/pgr/roads/network/strategic/programme/decisionletters/

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Transport what visits she made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events she attended at each. [197155]

Jim Fitzpatrick: The Secretary of State for Transport has visited the following conference centres in the period 1 January 2005 to 31 December 2007. These visits relate to official engagements only.

Excel Conference Centre, Docklands, London

21 March 2006—Interspill conference

8 October 2006—Intelligent Transport Systems World congress

Business Design Centre, Islington, London

28 November 2005—Confederation of Business Industry conference

Queen Elizabeth Centre, London

9 March 2005—National Rail conference

15 March 2006—National Rail conference

17 July 2006—Ford conference

14 March 2007—National Rail conference

17 April 2007—British Chambers of Commerce Annual Transport/Roads conference

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Transport how many Wikipedia entries have been *(a)* created and *(b)* amended (i) by (A) special advisers, (B) Ministers and (C) communications officials and (ii) from IP addresses of (1) special advisers, (2) Ministers and (3) communications officials in (x) her Department and (y) its agencies since August 2005. [185523]

Jim Fitzpatrick: Current Ministers and special advisers have not created or amended any Wikipedia entries from .IP addresses of special advisers or Ministers.

Departmental officials have created or amended factual entries that explain the role of the Department and the Executive Agencies. This has been done in accordance with the civil service code which states that civil servants should use resources only for the authorised public purposes for which they are provided and that civil servants should make sure public money and other resources are used properly and efficiently.

http://en.wikipedia.org/wiki/Vehicle_Certification_Agency

Heathrow Airport: Environment Protection

Norman Baker: To ask the Secretary of State for Transport if she will commission an independent scientific report into the likely environmental impact of a third runway at Heathrow. [197543]

Jim Fitzpatrick *[holding answer 31 March 2008]*: I refer the hon. Member to the reply I gave to my right hon. Friend the Member for Oldham, West and Royton (Mr. Meacher) on 20 March 2008, *Official Report*, column 1385W.

Lorries: Accidents

Bob Russell: To ask the Secretary of State for Transport if she will make it a requirement that left hand driven lorries operating in the UK be fitted with additional wing mirrors to improve safety of overtaking and visibility of cycles on the nearside; and if she will make a statement. [199236]

Jim Fitzpatrick: All new lorries, whether UK registered or visiting from another member state have, since 26 January 2007 been fitted with enhanced rear view mirrors that improve driver vision.

A European directive has recently been adopted which requires similar mirrors to be fitted to existing lorries, first registered from 1 January 2000. We will implement these requirements through our national legislation.

Members: Correspondence

Mr. Steen: To ask the Secretary of State for Transport when she plans to reply to the letter from the hon. Member for Totnes of 21 February 2008 about the boatmasters' licences in relation to South Sands Ferry. [198824]

Jim Fitzpatrick: A response has been sent.

Motorcycles: Exhaust Emissions

Bill Wiggin: To ask the Secretary of State for Transport what information her Department holds on carbon dioxide emissions from motorcycles, broken down by *(a)* engine size and *(b)* manufacturer. [198840]

Jim Fitzpatrick: The Department for Transport does not, at present, hold information on the carbon dioxide emissions of motorcycles broken down in this way. There is currently no statutory requirement placed upon manufacturers to measure the carbon dioxide emissions of new models of motorcycle when they are approved. However, a legislative proposal from the European Commission mandating this measurement has been awaited for some time and is currently expected to be published early in 2009.

A limited amount of data categorised against engine size have been gathered, in the past, in research projects conducted by the Department and the European Commission's Joint Research Centre. The results of these are available on the Department's website and within the Passenger Transport Emissions Factors on DEFRA's website:

http://www.dft.gov.uk/pgr/roads/environment/research/cqvet/

http://www.defra.gov.uk/environment/business/envrp/pdf/passenger-transport.pdf

Public Transport: Finance

Norman Baker: To ask the Secretary of State for Transport how much funding was provided to *(a)* regions and *(b)* local authorities to provide local public transport in each of the last five years; and how much has been allocated for (i) 2008-09, (ii) 2009-10 and (iii) 2010-11. [195925]

Ms Rosie Winterton: The information is as follows:

(a) Regions advise central Government about priorities for major local authority schemes (including for local public transport) and certain Highways Agency projects. The total budgets for 2008-09 to 2010-11 for these types of project the regions work to are set out in the following table.

Planning assumptions for Transport

£ million

Region	2008-09	2009-10	2010-11
North West	119	121	123
North East	44	45	45
Yorkshire and The Humber	88	90	92
East Midlands	76	77	79

Planning assumptions for Transport

Region	2008-09	2009-10	£ million 2010-11
West Midlands	93	95	97
South West	90	92	94
South East	144	147	150
East	98	100	103

(*b*) The local public transport elements of this funding are provided for local authorities. Detailed information on the funding allocated to local authorities in local transport capital settlements between 1997-08 and 2005-06 (inclusive) was deposited in the Libraries of the House on 18 January 2006. I also refer the hon. Member to my answer of 20 March, *Official Report*, column 1392W, where information about the funding in 2006-07 and 2007-08 was placed in the Libraries of the House.

Most Government funding support for local authorities for local public transport services is provided within the revenue support grant, administered by the Department for Communities and Local Government (CLG). The revenue support grant is not service-specific and it is for local authorities to decide on its use. Transport for London receives a block grant for transport and has the discretion to decide on its use across different modes of transport.

In addition the Department has provided local authorities in rural areas with a specific rural bus subsidy grant and also provides specific grants to assist local authorities with bus projects. From 2008-09 the funding for the rural bus subsidy grant is being pooled in a broad area based grant, administered by CLG.

The Department also provides support for investment in integrated transport improvements as part of the local transport capital settlements. It is for local authorities to determine how much of this funding to allocate to projects related to local public transport, in the light of their local policies and priorities.

Information about the distribution of the specific grants for bus services and the support for local transport investment in 2006-07, 2007-08 and for 2008-09 was also placed in the Libraries of the House on 20 March.

I am placing information about the distribution of the specific bus grants for 2003-04, 2004-05, 2005-06 in the Libraries of the House. Information about the distribution of local transport capital funding, including for integrated transport, was placed in the Libraries of the House on 18 January 2006.

Indicative allocations of rural bus subsidy funding for 2009-10 and 2010-11 have been published at:

http://www.local.communities.gov.uk/finance/0809/specgrants/dft.xls

The local transport capital settlements for 2009-10 and 2010-11 have been published at:

http://www.dft.gov.uk/pgr/regional/ltp/capital/ltpsettle07/

Some funding support for rail services has also been provided via passenger transport authorities, although these authorities do not, in most cases, provide or procure the services themselves.

Public Transport: Tickets

Norman Baker: To ask the Secretary of State for Transport what steps she is taking to promote the integration of rail and bus ticketing systems. [195943]

Mr. Tom Harris: There is already integration of bus and rail ticketing with multi-modal Travelcard-style tickets products in the large urban areas and Plus Bus serving most major towns and stations in the rest of the country.

Railway Stations: Construction

Mr. Hepburn: To ask the Secretary of State for Transport how many new railway stations were built with public funding in (*a*) South Tyneside, (*b*) Tyne and Wear, (*c*) the North East and (*d*) the UK in each year since 1997. [197657]

Mr. Tom Harris: There have been no new railway stations opened in South Tyneside, Tyne and Wear or the North East since 1997.

20 stations have been opened in England since 1997 with some public funding. These are listed as follows.

New stations that have been opened in Scotland, Wales and Northern Ireland with public funding are a matter for the devolved Administrations.

Station	Opened
Euxton Balshaw Lane	15 December 1997
Brunswick	9 March 1998
Whitwell	24 May 1998
Creswell	24 May 1998
Langwith Whaley Thorns	24 May 1998
Shirebrook	24 May 1998
Conway Park	22 June 1998
Canning Town	14 May 1999
West Brompton	30 May 1999
West Ham	30 May 1999
Horwich Parkway	21 November 1999
Luton Airport Parkway	29 May 2000
Brighouse	13 August 2000
Wavertree Technology Park	17 September 2000
Lea Green	10 December 2003
Braintree Freeport	12 December 2004
Glasshoughton	12 December 2004
Chandlers Ford	11 June 2006
Liverpool South Parkway	14 November 2007
St Pancras International	

Railways: Yorkshire and the Humber

Mr. Graham Stuart: To ask the Secretary of State for Transport how many train journeys originating in Yorkshire and the Humber in the last 12 months have been made in trains with no more than one carriage; what percentage of the total number of rail journeys in the region this represents; and if she will make a statement. [197433]

Mr. Tom Harris: The three franchised train operators running services that originate in Yorkshire and the Humber are Northern Rail, TransPennine Express and National Express East Coast. An estimate of the number of journeys made on different types of rolling stock would be a matter for the operators involved.

Northern Rail is the only train operator that runs a one carriage service in Yorkshire and the Humber.

Road Traffic

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the level of congestion on trunk roads and motorways on the afternoon of 8 February 2008; what figures she collates on such matters, including the cost to the economy; and if she will make a statement. [188470]

Mr. Tom Harris: Fully validated congestion data for 8 February 2008 will be available in May 2008. This is due to the time it takes to collect, validate and produce these figures.

Once produced, journey time and delay figures are available nationally, at individual route level, by day and by time of day.

Figures on the cost of congestion to the economy are not routinely calculated, although assessments of this have been made, most recently in the Eddington Study, published in 2006.

Roads: Repairs and Maintenance

John Mann: To ask the Secretary of State for Transport what representations her Department has received on the prioritisation of (*a*) the A1 Elkesley flyover and (*b*) improvements to the A57 in major capital road schemes in each of the last 10 years. [197471]

Mr. Tom Harris: The information is as follows:

(*a*) Representations on the prioritisation of the A1 Elkesley Junctions Improvement (locally known as Elkesley Bridge) were received from:

Correspondence	*Date*
PLaN Parkman, Leicestershire and Nottinghamshire	12 March 1999
Elkesley Parish Council	1 July 2003
Elkesley Parish Council	7 October 2003
Patrick Mercer MP	10 December 2003
Dr. David Pell	23 January 2004
Elkesley Parish Council	1 June 2004
House of Commons re: Elkesley Parish Council	16 August 2004
Elkesley Parish Council	16 September 2004
Elkesley Parish Council	5 October 2004
Elkesley Parish Council	4 January 2005
Dr. David Pell	26 January 2005
Elkesley Parish Council	1 February 2005
Patrick Mercer MP	14 February 2005
Dr. David Pell	23 March 2005
Nottinghamshire county council	25 August 2005
Residents/Users of Coal Pit Lane	18 September 2005
Elkesley Parish Council	7 November 2005
Elkesley Parish Council	27 July 2006
Mr. Simpson on behalf of Elkesley Villagers	20 October 2006
Dr. David Pell	23 June 2007
Dr. David Pell	2 August 2007
Dr. David Pell	28 February 2008

(*b*) Representations received on the prioritisation of improvements to the A57 in major capital road schemes:

The Highways Agency detrunked the A57 in 2002 and 2003. Prior to detrunking, representations had been received from Rotherham metropolitan borough council (RMBC), local groups and Parish Councils for improvement of the A57 from Todwick crossroads west to the M1. Dunham Parish Council was also keen to see the village bypassed. Subsequent to detrunking, information about any improvement schemes on the A57 should be requested from the relevant local highway authority.

Transport: Capital Investment

Mr. Hepburn: To ask the Secretary of State for Transport how much capital funding from the public purse was provided to transport infrastructure in (*a*) Jarrow constituency, (*b*) South Tyneside, (*c*) Tyne and Wear, (*d*) the North East and (*e*) the UK in each year since 1997. [197655]

Ms Rosie Winterton: The following table contains the transport capital expenditure identified by the Public Expenditure Statistical Analyses as having been made in the North East region and the United Kingdom in each year from 2001-02 onwards. Figures for 1997 are not available and the figures that were produced for 1998-99, 1999 to 2000 and 2000-01 are not comparable with the later figures.

This information is not available for Tyne and Wear, South Tyneside or Jarrow constituency.

Table 1: Transport capital expenditure

£ million

	Expenditure North East Region	*Expenditure United Kingdom*
2001-02	188	4,594
2002-03	225	5,771
2003-04	260	7,657
2004-05	267	8,192
2005-06	272	8,543
2006-07	293	9,693

The Public Expenditure Statistical Analyses, including the definitions and assumptions used in them and the figures for 1998-99 to 2000-01, can be viewed at the HM Treasury website:

www.hm-treasury.gov.uk

Woodhead Tunnel and Cross-Pennine Rail Link

Tony Lloyd: To ask the Secretary of State for Transport (1) what assessment she has made of the feasibility of maintaining Woodhead tunnel fit for future rail operations should the National Grid lay electricity cables along it; [182501]

(2) what assessment she has made of the most viable option for a new cross-Pennine rail link.[1] [182502]

Ms Rosie Winterton: The need for additional passenger capacity can best be met through the provision of longer carriages and faster journey times on the Manchester to Leeds via Huddersfield route.

Should additional capacity be required across the Pennines at some future date, capacity enhancements on the three existing Victorian tunnels on the Woodhead route would be considered first. This is because they are more likely to offer value for money than the re-opening of a fourth route.

I shall be meeting with National Grid to confirm that we would wish to explore the option of continued inspection and maintenance of the Woodhead tunnels once National Grid have vacated them.

I intend to meet key stakeholders for their views on transport challenges across the Pennines and how this might tie in with the development of a longer term strategy.

Written Questions: Government Responses

Mr. Stephen O'Brien: To ask the Secretary of State for Transport when she expects to reply to Question 185523 tabled on 4 February 2008 by the hon. Member for Eddisbury on Wikipedia. [195273]

Jim Fitzpatrick: A reply was given to the hon. Member today.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office

10. **Mr. Baron:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of progress on the Post Office network change programme; and if he will make a statement. [198420]

Mr. McFadden: To date, 26 out of the network change programme's 47 area plans have gone out to public consultation and final decisions announced for 15 of them. The programme is scheduled to be complete by the end of the year.

16. **Mr. Heathcoat-Amory:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with the management of Post Office Ltd about the provision of Government services by post offices. [198428]

Mr. McFadden: I regularly meet and discuss a range of issues relating to the post office network with the Managing Director of Post Office Ltd. These include its contracts to provide Government services.

18. **Mr. Harper:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on recent progress made by the Post Office network change programme. [198430]

Mr. McFadden: To date, 26 out of the network change programme's 47 area plans have gone out to public consultation and final decisions announced for 15 of them. The programme is scheduled to be completed by the end of the year.

Renewable Energy

12. **John Penrose:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect of Article 5(2) of the proposed European directive on the promotion of the use of energy from renewable sources on the Government's consideration of the options for renewable energy in the Severn estuary. [198422]

Malcolm Wicks: The Government's initial view is that this draft article is helpful for the UK as it gives partial credit to very large renewable projects with very long lead times and significant risks. It is not a reason for favouring one Severn estuary scheme over another. The Government intend to consider all potential technology and location options on a comparable basis.

Alcohol

14. **Mr. Grogan:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had on the possibility of making an order under the Competition Act 1998 to allow minimum pricing of alcohol for exceptional and compelling reasons of public policy. [198425]

Mr. McFadden: The Government are looking carefully at ways to reduce alcohol related harm. In this context, Ministers have been discussing a number of potential policy options, including the possibility of action relating to alcohol pricing. Making an exclusion order under the Competition Act remains one of the possible available measures for consideration.

Sub-Post Offices

15. **Sandra Gidley:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the future of sub-post offices. [198427]

Mr. McFadden: The Government are committed to a national network of post offices, has set access criteria to ensure reasonable access to post office services for all communities and is providing a network subsidy payment of up to £150 million a year to support the

1. *[Official Report, 21 April 2008, Vol. 474, c. 8MC.]*

non-commercial part of the network. Under the access criteria, Post Office Ltd is required to ensure that nationally 99 per cent. of the UK population is within 3 miles of their nearest post office outlet and 90 per cent. within one mile.

Energy Prices

17. **Sir Nicholas Winterton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect of recent rises in the cost of energy for (*a*) domestic and (*b*) business consumers. [198429]

Malcolm Wicks: Recent increases in retail energy prices, while unwelcome, have been largely due to steadily rising producer prices for oil, coal and gas. The UK is not alone in experiencing these price rises, and the UK's competitive markets have ensured that prices are no higher than necessary. As of 1 January this year, UK energy prices for average domestic customers were significantly lower than in most EU15 states and prices for average industrial customers were around the EU15 median[1].

[1] Quarterly Energy Prices, March 2008, BERR

20. **Ann Winterton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with domestic energy supply companies on their pricing arrangements. [198432]

Malcolm Wicks: Although Ministers have not met companies to discuss pricing arrangements, we have met with them to discuss how to take forward the announcement in the Budget on increasing the level of assistance energy companies provide to vulnerable households.

Post Office Closures

19. **Mr. Carmichael:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of the impact of post office closures on local services. [198431]

Mr. McFadden: Post Office Ltd., in developing its post office closure proposals, continues to consider a range of factors, including the impact of closures on local economies. For example, under the Northern and Western Isles area plan proposals, currently subject to local public consultation, there will be no change to the office currently used by 83 per cent. of customers and in total 97 per cent. will see no change or be within one mile by road of an alternative branch.

Lending Practices

21. **Mr. Allen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to prevent unscrupulous lending practices. [198433]

Malcolm Wicks: The Government are committed to tackling unscrupulous loan sharks who exploit vulnerable people in our poorest communities. In 2004, we established two pilot enforcement teams in Birmingham and Glasgow to track down and prosecute illegal moneylenders.

Following evaluation of the pilots, BERR announced £2.8 million in September for a national crack down on illegal lending. There's now a team in every region of Britain and we have committed to fund this work through the next spending period.

In addition, the Consumer Credit Act 2006, which represents the biggest overhaul of consumer credit legislation since 1974, has boosted consumer rights and redress by introducing a new unfair relationships test and alternative dispute resolution scheme. From 6 April this year, it strengthens the licensing regime for consumer credit businesses to enable more effective action against rogue traders and unacceptable practices.

Power Stations

22. **Steve Webb:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his policy is on development of new coal-fired power stations. [198434]

Malcolm Wicks: The Government's approach is to provide a regulatory framework which incentivises generating companies to deliver secure energy supplies within an overall cap on carbon emissions under the EU Emissions Trading Scheme. Within this framework, decisions on the nature and timing of investment in new generating capacity are a matter for generating companies.

Alcoholic Drinks: Misuse

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of work days lost to UK industries each year through (*a*) alcohol and (*b*) drug misuse by employees. [197464]

Mrs. McGuire: I have been asked to reply.

The information is not available in the form requested. However, on alcohol misuse, research published by the Cabinet Office in 2003 estimated that between 11 million and 17 million working days were lost each year due to such misuse ("Alcohol Misuse: How much does it cost?" – Rannia Leontaridi, Cabinet Office, 2003 www.number10.gov.uk/files/pdf/econ.pdf.

Business: Regulation

John Robertson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to reduce the regulatory burden on businesses and the voluntary sector. [198424]

Mr. McFadden: Government undertook an exercise, supported by industry, to measure the administrative burdens that impact businesses, charities and voluntary organizations and third of all sizes as a result of complying with regulations. Upon the completion of this exercise, 25 per cent. net targets by 2010 were set to reduce this burden.

In December 2007, 19 Simplification Plans were published, showing more than 700 measures to reduce the burdens of complying with regulations. Over 280 of these measures have already been delivered saving businesses £800 million per year.

Consumer Goods: Health Hazards

Dr. Gibson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he plans to take to ensure that UK consumers can identify products containing free nanoparticles. [196963]

Ian Pearson: I have been asked to reply.

The Government's aim is for the UK to derive maximum benefit from nanotechnologies and their products in a way that safeguards health, safety and the environment and addresses the aspirations and concerns of the public. The statement by the UK Government about nanotechnologies, announced in the written ministerial statement of 28 February 2008, *Official Report*, columns 86-87W, explains what the Government are doing to deliver these objectives.

The Government do not hold a list of products containing free nanoparticles although it has published a report on the manufacture and use of nanomaterials in the UK at:

http://www.defra.gov.uk/environment/nanotech/research/reports/index.htm#manufacture

To promote a standardised approach to labelling and ensure that products containing manufactured nanoparticles can be correctly identified, the British Standards Institute has recently published a good practice guidance document PAS 130:2007 "Guidance on the labelling of manufactured nanoparticles and products containing manufactured nanoparticles".

The Research Councils are undertaking public dialogue on nanotechnologies and the topic is likely to feature in work resulting from the recent programme of stakeholder engagement to identify the implications of new and emerging science and technology.

Government Departments and agencies are keeping under review the need for action to address regulatory gaps in the light of emerging evidence. The ministerial group on nanotechnologies (which comprises the Ministers for Science and Innovation; the Environment; Public Health; Health and Safety; and Business and Competitiveness) will oversee the process and will also review progress on delivery of the Government's other commitments regarding nanotechnologies.

Minimum Wage: Females

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of women who are likely to be affected by the increase in the national minimum wage in October 2008. [198426]

Mr. McFadden: Of the just under a million employees BERR estimates stand to benefit from the October 2008 uprating of the national minimum wage in the UK, around two thirds are women.

Nuclear Decommissioning Authority

Mr. Leigh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the effect on costs has been of applying practices from Nuclear Decommissioning Authority sites to the discharge of British Energy's liabilities. [198435]

Malcolm Wicks: British Energy (BE) have so far not initiated any decommissioning work as their power stations are not due to close for several years, following the announcement of life extensions to Dungeness B, Hunterston B and Hinkley Point B.

The Nuclear Decommissioning Authority's (NDA) oversight of BE's liabilities has therefore focused on their production of lifetime decommissioning plans and near term work plans. BE submitted one set of plans in 2006 and submitted their second edition on 31 March this year. The NDA has applied both the processes used in the development of Site Licence Companies' lifetime plans, and lessons learned from its review of these plans to the BE equivalents.

The NDA is also working to develop a UK-wide strategy for management of intermediate level waste and this involves both BE as well as other Site Licence Companies.

Rackspace

Mr. Hands: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value was of each contract awarded to Rackspace by *(a)* his Department and its predecessor and *(b)* its agencies in each of the last nine years. [197515]

Mr. Thomas: Central records indicate that no contracts have been awarded by the Department and its predecessor to Rackspace in any of the last nine years.

I have asked chief executives of the Executive Agencies to respond directly to the hon. Member.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many instances there were of equipment of the armed forces being lost in transit either *(a)* en route to and *(b)* in (i) Afghanistan and (ii) Iraq in each year since 2003. [190601]

Mr. Bob Ainsworth: Other than those attributed to theft, there are no reported instance of equipment of the armed forces being lost in transit between the UK and either Iraq or Afghanistan. In terms of theft, I have nothing to add to the answer I gave on 8 October 2007, *Official Report*, column 62W.

Ammunition

Harry Cohen: To ask the Secretary of State for Defence how many cluster munitions have been deployed in *(a)* Iraq and *(b)* Afghanistan; how many were deployed (i) during active hostilities and (ii) since such times; and what estimate he has made of the

number of people (1) killed and (2) seriously injured by cluster munitions in each such period and country, broken down by (A) UK, (B) other coalition and (C) insurgent forces; and how many civilian casualties there have been. [198157]

Des Browne: The UK employed 68 RBL755 and 2,100 M85 cluster munitions during the initial combat phase of operations in Iraq in 2003. The UK has not employed cluster munitions in Iraq since then, nor have we employed cluster munitions in Afghanistan.

One UK fatality in Iraq, which occurred in March 2003, can be attributed to non-UK cluster munitions. Further casualty and fatality information requested for other coalition forces, insurgents and civilians is not held by the MOD. We also do not hold the information for UK armed forces personnel casualties.

Armed Forces: Females

Mr. Jack: To ask the Secretary of State for Defence how many female members of the army who are considered combat effective use hormonal applications. [198204]

Mr. Bob Ainsworth: The information is not held in the format requested.

Armed Forces: Influenza

Dr. Murrison: To ask the Secretary of State for Defence (1) what proportion of the stockpile of A/H5N1 vaccine for use in the event of an influenza pandemic has been allocated for vaccination of *(a)* healthcare workers and *(b)* the armed forces; and if he will make a statement; [195255]

(2) for what reason his Department bid for a stockpile size of 54,000 courses of A/H5N1 vaccine, as referred to in paragraph 8 of the Defence Medical Services Department's policy letter of 20 January 2006, entitled "The use of influenza vaccines and anti-virals in the event of an influenza pandemic" by the Defence Medical Services, reference DMSD/13/1/4; and if he will make a statement. [195350]

Derek Twigg: The Department's stockpile was calculated on the need to have sufficient courses to vaccinate those personnel engaged on, or preparing for, deployed operations and other essential tasks, plus a specific allocation for Defence Medical Services (DMS) healthcare personnel. Around 10 per cent. has been allocated for vaccination of DMS personnel, and the remaining 90 per cent. for other members of the armed forces.

Dr. Murrison: To ask the Secretary of State for Defence pursuant to the answer of 7 January 2008, *Official Report*, column 24W, what quantity of anti-virals is held at Permanent Joint Headquarters; and if he will make a statement. [195260]

Derek Twigg: Around 17,500 courses of influenza anti-virals earmarked for future operational demands are held by the Defence Storage and Distribution Agency (DSDA) on behalf of the Defence Equipment and Support. PJHQ will authorise distribution of the appropriate quantities to operational theatres as required.

Dr. Murrison: To ask the Secretary of State for Defence what discussions his Department has had with NATO in the last 12 months on the creation of a joint stockpile of *(a)* pharmaceutical and *(b)* other clinical countermeasures to support the continuity of operations in Afghanistan in the event of an influenza pandemic; and if he will make a statement. [195311]

Derek Twigg: I refer the hon. Member to the answer I gave on 18 December 2007, *Official Report*, columns 1447-48W.

Dr. Murrison: To ask the Secretary of State for Defence how many treatment courses of anti-virals are held at *(a)* role 2 and *(b)* role 3 medical units, as stated in paragraph 14 of the Defence Medical Services Department's policy letter of 20 January 2006, entitled The use of influenza vaccines and anti-virals in the event of an influenza pandemic by the Defence Medical Services, reference DMSD/13/1/4; and if he will make a statement. [195348]

Derek Twigg: In accordance with Defence Medical Services guidance, 10 anti-viral courses are held in Role 2(Enhanced) field hospitals overseas; five courses in the unit at Basra in Iraq and five in the one at Camp Bastion in Afghanistan. The majority of MOD's anti-viral stocks are held by the Defence Equipment and Support in the UK, from whence they can be transported at short notice to any overseas location as required.

Dr. Murrison: To ask the Secretary of State for Defence how many courses of anti-virals are now pre-positioned in Permanent joint overseas bases, as stated in paragraph 14 of the Defence Medical Services Department's policy letter of 20 January 2006, entitled The use of influenza vaccines and anti-virals in the event of an influenza pandemic by the Defence Medical Services, reference DMSD/13/1/4; and if he will make a statement. [195351]

Derek Twigg: Around 15,850 Tamiflu anti-viral courses were distributed to MOD overseas bases by the end of January 2006. In addition, just over 1,900 paediatric Tamiflu courses were subsequently distributed to be given to younger children.

Armed Forces: Transexuality

Mr. Jack: To ask the Secretary of State for Defence how many transgender sergeants in the process of transition serving in the Army in Germany are *(a)* receiving medication for their condition in country and *(b)* have been deployed on exercise in Poland. [198202]

Mr. Bob Ainsworth: I am unable to provide this information as its release would breach the provisions of the Data Protection Act, specifically in regard to medical-in-confidence issues.

Mr. Jack: To ask the Secretary of State for Defence (1) whether the downgrading of a transgender officer

to P7, (combat ineffective), can be determined solely on grounds of hormonal reasons; [198205]

(2) whether it is a requirement of army regulations that when an officer is downgraded to P7 (combat ineffective) they should be personally interviewed before a downgrading decision is reached. [198206]

Mr. Bob Ainsworth: Downgrading decisions are made by medical boards on a case by case basis taking into account all documentary evidence provided by medical staffs. As part of this process, it is normal practice for the individual to appear before the medical board unless they are either unable or decline to attend.

Atomic Weapons Establishment: Manpower

Harry Cohen: To ask the Secretary of State for Defence how many staff were employed at Atomic Weapons Establishment Aldermaston in each of the last five years. [198109]

Mr. Bob Ainsworth: The Atomic Weapons Establishment (AWE) plc is split into two sites, Aldermaston and Burghfield. The number of full-time equivalent staff employed at both sites in each of the last five years is shown in the following table. The figures are taken as at the end March in each year and are rounded to the nearest 10. Approximately 92 per cent. of these work at the Aldermaston site.

	Manpower level
2004	3,510
2005	3,640
2006	4,040
2007	4,390
2008 (as at end February 2008)	4,620

In addition, some 2,000 staff are employed by contractors at the AWE sites.

Contingencies Fund

Dr. Murrison: To ask the Secretary of State for Defence pursuant to the Written Ministerial Statement of 12 March 2008, *Official Report*, column 18WS, on the Contingencies Fund, what the unforeseen pension pressures in 2007-08 are. [197102]

Mr. Bob Ainsworth *[holding answer 26 March 2007]:* The 2007-08 spring supplementary estimate for the armed forces pension scheme sought an increase in the net cash requirement of £150 million for the 2007-08 financial year due in the main to higher levels of terminal pension payments (lump sums and early departure) than had been anticipated at the time of production of the main estimate.

I also refer the hon. Member to the answer given in another place by my right hon. Friend, the Minister for Defence Equipment and Support on 31 March 2008, *Official Report, House of Lords*, column WA128.

Defence Equipment: Finance

Mr. Hancock: To ask the Secretary of State for Defence if he will put in place mechanisms by which Defence Equipment and Support will be required to report on its annual expenditure and activities to the House. [197723]

Mr. Bob Ainsworth: We will report on the activities, expenditure and performance of DE&S in the Ministry of Defence Annual Report and Accounts.

Departmental Conflict of Interests

Chris Huhne: To ask the Secretary of State for Defence how many *(a)* departmental officials and *(b)* officers of the armed services notified his Department that they intended to work for (i) British Aerospace, (ii) British Airways, (iii) BP, (iv) Shell, (v) Rolls Royce, (vi) HSBC, (vii) Standard Chartered, (viii) RBS, (ix) HBOS, (x) Barclays and (xi) another company on leaving their post in each of the last five years. [195560]

Derek Twigg: Applications to take up appointments with the named companies received in each of the years in question are set out in the table. Further information relating to other companies could be provided only at disproportionate cost. The figures provided relate specifically to those personnel who are required to notify the MOD of their intention to work for a specific company in accordance with departmental policy (The Business Appointment Rules).

	Category	*BAe*	*BA*	*BP*	*Shell*	*Rolls Royce*	*HSBC*	*Standard Chartered*	*RBS*	*HBOS*	*Barclays*
2003	Service	10	—	—	—	<5	—	—	—	—	—
2003	Civilian	<5	—	—	—	—	—	—	—	—	—
2004	Service	5	—	—	<5	<5	—	—	—	—	—
2004	Civilian	<5	—	—	—	<5	—	—	—	—	—
2005	Service	10	—	—	—	—	—	—	—	—	—
2005	Civilian	5	—	—	—	<5	—	—	—	—	—
2006	Service	15	—	—	—	<5	—	—	—	—	—
2006	Civilian	10	—	—	—	<5	—	—	—	—	—
2007	Service	15	—	—	<5	5	—	—	—	—	—
2007	Civilian	10	—	—	—	<5	—	—	—	—	—

In each of the last five years the Department received no formal notifications of intention to join any of the following companies; British Airways, BP, HSBC, Standard Chartered, RBS, HBOS or Barclays.

All figures have been rounded to the nearest five to prevent unintended disclosure of personal information.

Diego Garcia: Deployment

Mr. Davey: To ask the Secretary of State for Defence if he will list by rank those members of the armed forces serving in Diego Garcia. [198018]

Mr. Bob Ainsworth: There are 42 UK military personnel based on Diego Garcia, broken down by rank as follows:

Rank	Number of personnel
Commander Royal Navy	1
Major Royal Marines	1
Lieutenant Royal Navy	1
Warrant Officer (2) Royal Marines	1
Master at Arms	1
Chief Marine Engineering Mechanic	1
Regulating Petty Officers	3
Sergeant Royal Marines	1
Sergeants (Army)	2
Leading Regulators	2
Leading Seaman	1
Leading Logistician	1
Leading Marine Engineering Mechanic	1
Leading Engineering Technician (Mechanical)	1
Leading Medical Assistants	2
Leading Logistician Catering Services	2
Corporal Royal Marines	5
Corporal Royal Military Police	1
Corporal Royal Air Force Police	1
Lance Corporal Royal Marines	4
Marines	9

Drinking Water

Mr. Spellar: To ask the Secretary of State for Defence pursuant to the Answer of 28 February 2008, *Official Report*, column 2710W, on drinking water, how much his Department spent on provision of bottled water to his Department's main building in the latest year for which figures are available. [196779]

Derek Twigg: As part of our commitment to the Sustainable Development agenda, since 1 October 2007, the PFI Contract for Main Building no longer supplies bottle water to the predominance of meetings, however bottled water may still be purchased for large conferences and private functions.

The following table outlines the consumption and highlights a reduction of 90 per cent. in the consumption of bottled water since the change in policy.

	Number of bottles	£ (approx.)
1 March 2007 to 30 September 2007	7,479	11,000
1 October 2007 to 29 February 2008	514	1,000
Total	7,993	12,000

Iraq: Security

Dr. Fox: To ask the Secretary of State for Defence what recent assessment he has made of the security situation in al-Basra Province. [196609]

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of the development of the (*a*) security, (*b*) political and (*c*) economic situation in Basra province since December 2007; and if he will make a statement. [196917]

Des Browne: I refer the hon. Members to the update I provided to the House on the security situation in Basra in my Statement on 1 April 2008, *Official Report*, columns 628-43. We continue to keep the security situation in Basra under close review following the transfer of Basra to Provincial Iraqi Control in December 2007 and in the light of recent developments. We and our coalition partners continue to provide support to the Iraqis in our overwatch role in accordance with our rules of engagement.

There has been encouraging political progress in Basra since December. For example, the supporting the Law Council, which represents all of Basra's political leaders, signed an agreement in December 2007 committing them to support the rule of law and recognise the ISF as the sole guardians of security in Basra. This demonstrated a willingness on the part of all of Basra's political parties to work together in a spirit of compromise and reconciliation. This commitment has been tested during recent events, but it is striking that Muqtada al-Sadr, in his statement of 30 March 2008, reaffirmed the importance of cooperation with the Government and the need to respect the rule of law.

The UK is also working with coalition partners and the Government of Iraq to promote private sector-led economic growth in Basra. Since December we have helped to launch a Basra Development Commission, which is bringing together Iraqi, regional and international business leaders to provide advice and guidance to the Provincial Council and promoting Basra as an investment location through a recent major investment conference in Kuwait. We are leading on an initiative to help set up the Basra Development Fund, to provide finance to small and medium sized enterprises, and to make progress on key projects such as the redevelopment of Basra International Airport and Umm Qasr port.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence what the (*a*) target and (*b*) actual percentage serviceability rate is of each (i) helicopter and (ii) air transport aircraft in the Armed Forces. [196620]

Mr. Bob Ainsworth: The target and actual serviceability rates shown in the following table are the average for the month of February 2008:

Aircraft	Target percentage serviceability rate	Actual percentage serviceability rate
Hercules C130K	75	72
Hercules C130J	80	78
VC10	70	54
Tristar	75	77
C17	88	91
Apache	62	49
A109A	66	79
Gazelle (5 Regiment)	75	76
Gazelle (Other)	70	79
Chinook	70	67
Puma	70	63
Merlin Mk1	70	41
Merlin Mk3	70	50
Sea King Mk3	74	72
Sea King Mk4/6	65	45
Sea King Mk5/7	65	63
Lynx Mk3/8	66	60
Lynx Mk7/9	63	55

These figures do not include aircraft in the depth fleets or the eight RAF Chinook Mark 3 helicopters that are being converted to a battlefield support role. Two of the six ex-Danish Merlin helicopters have now entered squadron service and are included in the above figures.

The figures do not reflect the fact that unserviceable aircraft can often, if required, be made serviceable at very short notice to meet the operational need.

Royal Irish Regiment: Manpower

Mr. Donaldson: To ask the Secretary of State for Defence what the ratio of female to male soldiers was in the Home Service *(a)* part-time and *(b)* full-time Royal Irish Regiment on 1 July 2000. [198731]

Mr. Bob Ainsworth: A breakdown of the number of male and female soldiers in the Home Service element of the Royal Irish Regiment (HS R IRISH) is not available for 1 July 2000.

However, figures are held as at 1 January 2000 which show that the ratio of female to male within the part-time element of the HS R IRISH was approximately 1:9. The female to male ratio within the full-time element of the HS R IRISH was approximately 1:10.

Sea King Helicopters

Mr. Gale: To ask the Secretary of State for Defence (1) which marks of Sea King helicopters have been fitted with high intensity strobe lights; and when this equipment was installed; [196367]

(2) when high intensity strobe lighting was *(a)* removed and *(b)* refitted to the second Sea King marks trials aircraft; and under whose authority this action was taken; [196368]

(3) whether the retro fitting of his Department's Sea King helicopters with high intensity strobe lighting was approved at all stages of planning and installation by the helicopters' manufacturers. [196369]

Mr. Bob Ainsworth *[holding answer 26 March 2008]:* High Intensity Strobe Lighting (HISL) was progressively fitted to all Marks of the UK MOD Sea King fleet between 1983 and 2001:

Mark 3—Rear Light introduced in 1983; Forward Light introduced in 1985.

Mark 3a—1996 (fitted when the aircraft was introduced to service).

Mark 2—1997 (all Mark 2 aircraft have subsequently been converted to the Mark 7 standard).

Mark 4—2001

Mark 5—1998

Mark 6—1998

Mark 7—2000

The Mark 2 to Mark 7 conversion programme that was undertaken between 1999 and 2002 was conducted in two phases, giving rise to two different build-standards of trials aircraft. The trial installation of HISL was undertaken during the first phase before the equipment was transferred to the second phase trials aircraft and re-tested, prior to release to service. This approach was agreed jointly between the MOD and the helicopter Design Organisation (Westland Helicopters, now AgustaWestland).

The retro-fitting capability was introduced as a Service Modification—either a Service Engineering Modification (SEM) or Naval Service Modification (NSM)—where design, test and installation is undertaken by MOD personnel. In all cases, the Department is required to seek independent airworthiness advice before the modification is released to service. Additionally, MOD personnel are required to seek advice from the helicopter Design Organisation, as was the case for all Marks of HISL modification. For all Marks except Mark 5 and Mark 6 aircraft, the HISL modification has retrospectively been formally accepted onto the aircraft drawings by the helicopter manufacturer through a process called Cover Modification.

Uniforms

Mr. Hancock: To ask the Secretary of State for Defence what orders for bearskin caps for the Guards Regiments are *(a)* outstanding and *(b)* planned. [197731]

Mr. Bob Ainsworth: There are no outstanding orders for the procurement of bearskin caps. Future requirements are kept under review.

Mr. Hancock: To ask the Secretary of State for Defence what steps are being taken by his Department to identify an alternative material to bearskin for Guards Regiments caps. [197767]

Mr. Bob Ainsworth: The MOD has been actively seeking an acceptable alternative to real fur for some years and continues to invest in samples and treatments of imitation bearskin. Although successful in identifying fur alternatives for other aspects of ceremonial dress, replicating the complex structure of bear's fur has proven to be a significant challenge and no suitable fur alternative to the Guards bearskin cap has yet been identified. A number of trials have taken place but unfortunately proved unsuccessful. Further trials will take place once suitable products have been identified.

Wind Power

Mr. Keith Simpson: To ask the Secretary of State for Defence whether he plans to object for operational flying reasons to the proposed erection of six wind turbines at Guestwick in Norfolk. [198733]

Derek Twigg: The Ministry of Defence (MOD) raised objections to the planning application for the erection of wind turbines at Guestwick in January 2005, given the anticipated effect of the turbines on the operation of air traffic radars at RAF Coltishall and RAF Marham. Our concerns were considered in conjunction with the applicant and Broadland district council. It was agreed that our main concerns would be addressed if the development of the turbines was deferred until flying operations had ceased at RAF Coltishall.

In fact, the local planning authority refused planning consent in March 2005. Since then we have not been consulted further on this proposal. However, should the development referred to be brought forward we would need to review our position using current assessment process.

MOD fully supports the Government's policy on renewable energy. We operate a free planning consultation service for wind farm developers and consider every proposal on a case-by-case basis.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the UK has spent on the Afghan Drug Programme in each year since 2003; what drug programmes his Department has funded in Afghanistan since 2003; and if he will make a statement. [197784]

David Miliband: In 2004-05 the UK spent £6.1 million on a counter narcotics programme in Afghanistan. In 2005 the Afghan Drugs Inter-Departmental Unit was created to manage the UK's increased counter narcotics effort in Afghanistan. Since that time, the Government have developed a single, integrated counter narcotics programme for Afghanistan and spent the following sums:

	£ million
2005-06	46.8
2006-07	46.8
2007-08	43.8

UK spend has been directed towards supporting the Afghan National Drugs Control Strategy, which has eight pillars of activity: (1) raising public awareness, (2) promoting international and regional co-operation, (3) promoting alternative livelihoods, (4) reducing demand for drugs, (5) law enforcement, (6) establishing an effective criminal justice system, (7) targeted eradication of opium and (8) building effective Afghan government institutions.

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Government spent on programmes to reduce opium production in Afghanistan in each year since 2001. [198016]

David Miliband: Before 2004, the UK did not have a dedicated counter narcotics programme in Afghanistan. In 2004-05, the UK spent £6.1 million on counter narcotics work in Afghanistan.

In 2005 the Afghan Drugs Inter-Departmental Unit was created to manage the UK's increased counter narcotics effort. Since that time, the Government has directly spent the following on counter narcotics programmes in Afghanistan:

	£ million
2005-06	46.8
2006-07	46.8
2007-08	43.8

Afghanistan: Peacekeeping Operations

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to regulate the activities of UK private security firms operating in *(a)* Afghanistan and *(b)* elsewhere overseas; and if he will make a statement. [196221]

Dr. Howells: In late 2004, my right hon. Friend the then Foreign Secretary (Mr. Straw) requested a review by officials of the options for the regulation of the overseas operations of private military and security companies (PMSCs) registered in or operating from the UK. This applies to PMSCs operating both in Afghanistan and elsewhere overseas. This was to follow up on the Green Paper of 2002, 'Private Military Companies: Options for Regulation' and to respond to the increase in activities of PMSCs in areas of conflict overseas.

The review was completed in mid-2005 and suggested a number of options for ways in which the industry could be regulated. The review also highlighted complex issues, particularly around the definition of what activities should be regulated and how any regulations would be enforced. These issues, along with the options for regulation, continue to be the subject of Ministerial correspondence and official consultation. The Government have undertaken to keep Parliament fully informed of its proposals in this area. If it is agreed that regulation is appropriate, the Government will put the proposals to public consultation.

Ballistic Missile Defence

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what the legal status is of the US facilities at RAF Menwith Hill and RAF Fylingdales; and on what international treaties their status is based. [197911]

Des Browne: I have been asked to reply.

RAF Fylingdales is under the direct command of RAF Air Command. RAF Menwith Hill is made available to the United States Visiting Force (USVF) under the terms of the NATO Status of Forces

Agreement (SOFA) 1951, and other arrangements which are appropriate to the relationship that exists between the UK and the US for the purpose of our common defence. The Secretary of State for Defence retains legal possession and control over all Ministry of Defence sites, including those made available to the USVF. The bases operate with the full knowledge and consent of the Secretary of State and in full accordance with UK law.

Chevening Scholarships Programme

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment was made of the relative effectiveness of Commonwealth Scholarships and Chevening Scholarships for Commonwealth countries prior to the decision to terminate these scholarships. [196632]

Mr. Jim Murphy: The purpose of the Foreign and Commonwealth Office's (FCO) scholarship schemes is to build personal relationships with international leaders of the future. Following a recent review of all scholarship funding, in accordance with the FCO's global strategy and priorities, it was concluded that the Chevening scholarship scheme achieved this purpose more effectively than the Commonwealth Scholarship and Fellowship Plan.

Colombia: Military Aid

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on UK military assistance to the High Mountain Battalions of the Colombian Army from the recent delegation of Colombian trades unionists hosted by his Department; and if he will make a statement. [197297]

Dr. Howells: The issue of UK assistance to specific parts of the Colombian army did not arise during my meeting with the delegation of Colombian trades unionists, whose visit was co-organised by the Foreign and Commonwealth Office (FCO) and the Trades Union Congress (TUC), nor did it in their subsequent meetings with FCO officials.

The delegation welcomed the efforts of the international community including the UK to help generate lasting peace in Colombia. However, they also outlined their concerns on the difficult environment for their members, concerns that we share. This is why we will continue to discuss with the Colombian TUC and their UK counterparts how this Government can offer their practical support to Colombian trade unionists.

Colombia: Trade Unions

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Colombian government on the recent murders of trades unionists *(a)* Carlos Burbano and *(b)* Leonidas Gomez Rozo; and if he will make a statement. [197298]

Dr. Howells: We regard human rights defenders and trade unionists as a fundamental part of Colombian civil society. We have repeatedly urged the Colombian government to do their utmost to ensure that these brave people can take forward their essential work safely and with adequate protection. I did so when visiting Colombia in November 2007 and my right hon. Friend the Foreign Secretary did so with the Colombian Vice President in March. I also reiterated the Government's strong support to a delegation of Colombian trade unionists who visited the UK in early March, a visit co-organised by the Foreign and Commonwealth Office and the Trades Union Congress (TUC).

I have urged the Colombian government to continue with its programme of expanding protection to trade unions and other human rights defenders, including when I spoke to Vice President Santos and the new Colombian ambassador to London in March 2008. We will continue to discuss with the Colombian TUC, and their UK counterparts, how this Government can offer their practical support to Colombian trade unionists.

Officials from our embassy in Bogota visited the offices of the National Union of Bank Employees on 27 March to show the Government's support, following the murder of Leonidas Gomez Rozo and the attempted murder of Rafael Boada.

We make regular and numerous representations to the Colombian government on specific cases of abuse of trade unionists. Our embassy in Bogota has made representations to the Colombian government on the case of Leonidas Gomez Rozo and will do so on Carlos Burbano. I will write to the hon. Member with the outcome of those representations once the embassy receives a response. I will also arrange for copies of the letter to be placed in the Library of the House.

Commonwealth: Overseas Students

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs what consultations took place with *(a)* the Commonwealth Scholarships Commission and *(b)* other external interests before the announcement to end his Department's funding for new awards from 2009-10; and if he will publish the review associated with this decision. [196634]

Mr. Jim Murphy: The Foreign and Commonwealth Office (FCO) had no prior consultations with the Commonwealth Scholarship Commission on the specific issue of the ending of FCO funding for new Commonwealth scholars from 2009-10. Officials have regular, close contact with the Commonwealth Scholarship Commission. The 2006 review of FCO scholarships was based on broad consultations with a range of stakeholders. A copy of the 2006 review has been placed in the Library of the House.

Departmental Contacts

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196583]

Meg Munn: I refer the hon. Member to the reply I gave to my hon. Friend the Member for Newcastle Upon Tyne, Central (Jim Cousins) on 26 March 2008, *Official Report*, columns 150-52W.

I also refer the hon. Member to the reply I gave to the hon. Member for South-West Hertfordshire (Mr. Gauke) on 25 January 2008, *Official Report*, column 2308W.

I can confirm that no contracts have been awarded to McKinsey in the last 12 months.

Diplomatic Service: Resignations

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials of the diplomatic service notified his Department that they intended to work in any capacity for *(a)* British Aerospace, *(b)* British Airways, *(c)* BP, *(d)* Shell, *(e)* Rolls Royce, *(f)* HSBC, *(g)* Standard Chartered, *(h)* RBS, *(i)* HBOS, *(j)* Barclays and *(k)* another company on leaving the service in each of the last five years. [195559]

Meg Munn: Civil servants are required to comply with the Business Appointment Rules as set out in the civil service management code. The detailed information requested is not held centrally and could be provided only at disproportionate cost.

EC Countries: Eastern Europe

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to work closely with *(a)* Poland and *(b)* the Czech Republic on EU matters; and if he will make a statement. [197246]

Mr. Jim Murphy: It is our policy to work closely with all the EU member states. The Government have frequent discussions on a wide range of EU matters with Ministers and officials from both Poland and the Czech Republic. In 2007 there were several ministerial exchanges with the Czechs and Poles, including a guest of Government visit by President Klaus of the Czech Republic and a 'European Dialogue' which was launched between the UK and Poland.

EU Common Foreign and Security Policy

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the High Representative of the Union for Foreign Affairs and Security Policy will be able to represent the UK's interests when representing the EU. [195289]

Mr. Jim Murphy: The high representative for foreign affairs and security policy will be responsible for implementing the Common Foreign and Security Policy, as mandated by the member states in the Council. He or she will represent the EU on matters on which there is an agreed policy; the president of the European Council will represent the EU at his or her level. As is the case now, it will be for member states to decide by unanimity the matters to be addressed through the EU's Common Foreign and Security Policy. Where we do not agree, the UK will still act independently.

European Union: Public Relations

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will ensure that the criteria for the distribution of the UK's portion of the fund to be allocated to public communication under the provisions of the documents Communicating Europe (COM (07) 568) and Proposal for an Interinstitutional Agreement on Communicating European Partnership (COM (07) 569) will include making the monies available in equal proportions to those for and those against European integration. [198698]

Mr. Jim Murphy: The Government's position on Communicating Europe in Partnership was set out in our explanatory memorandum of 26 October 2007 and my subsequent letters to the European Scrutiny Committee of 6 December 2007 and 17 March 2008.

As these documents made clear, the purpose of Communicating Europe in Partnership is to improve the coherence, integration and effectiveness of the EU's communications efforts. EU funds will be disbursed in support of these objectives. The Government welcomes the concept of openness underlying the Commission's proposals on Communicating Europe in Partnership. We also welcome the Commission's confirmation that proposals under Communicating Europe in Partnership will be developed through existing Commission funding.

As set out in my letter of 17 March to the chairman of the European Scrutiny Committee, I can confirm that the European Commission's proposal for an Inter-Institutional Agreement under Communicating Europe in Partnership (Commission Document COM 569 2007) has been abandoned, following member state discussions at the Information Working Group in Brussels.

France: Industrial Disputes

Dr. Ladyman: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the French government on that government's duty under EU rules to *(a)* keep open French ports during industrial action in France and *(b)* to compensate UK businesses for the disruption caused during the current Sea France strike. [193325]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary raised this issue with Mr. Bernard Kouchner, the French Minister for Foreign Affairs, during a meeting at the UK-France summit on 27 March 2008.

During the industrial action taken by Sea France officers in February and March we maintained constant contact with the relevant French authorities through our embassy in Paris and consul-general in Lille. During this time, the French Government fulfilled their obligations to ensure that the industrial action did not lead to closure of ports and ports were closed only due to adverse weather conditions.

Any UK business which suffered financial loss as a result of the strikes could seek to bring legal action through the French courts. Any claim for compensation would depend on the facts of the individual case, on which independent legal advice should be sought.

Gaza: Borders

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions (*a*) he and (*b*) his officials have had with (i) the Government of Israel, (ii) the Government of Egypt and (iii) the European Commission on moves to open the Rafah border crossing to cargo; and if he will make a statement. [197037]

Mr. Jim Murphy: The UK wholly supports opening of the Rafah crossing and the restoration of the EU border assistance mission as soon as conditions allow. At the EU General Affairs and External Relations Council on 28 January, my right hon. Friend the Foreign Secretary (David Miliband) and his EU colleagues supported the Egyptian efforts to find a compromise between the parties in order to open the crossing and made clear that

"the EU is ready to consider resuming its monitoring mission at Rafah under the provisions of the relevant international agreements related to Access and Movement concluded in November 2005".

My right hon. Friend the Foreign Secretary has spoken to Israeli Foreign Minister Livni and Egyptian Foreign Minister Abu Gheit on this issue. Our embassies in Cairo and Tel Aviv are also in regular contact with their host governments.

International Cooperation: Bombs

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with (*a*) EU partners and (*b*) the wider international community on the eradication of cluster munitions; and if he will make a statement. [197249]

Mr. Jim Murphy: The UK has had regular discussions with EU partners and the wider international community on cluster munitions at a number of levels. We are working hard with these partners to ensure we secure legally binding instruments on the production, transfer and stockpiling of those cluster munitions that cause unacceptable harm to civilians.

In his speech on the publication of the Foreign and Commonwealth Office's 2007 Human Rights Report on 25 March my right hon. Friend the Foreign Secretary reiterated the Government's commitment to achieving a good result on cluster munitions.

Israel: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions (*a*) he, (*b*) Ministers and (*c*) officials in his Department have had with (i) Arab states and (ii) the Government of Israel on the reported storage of (A) rockets and (B) arms by Hamas in civilian areas in Gaza; what response was received from each; and if he will make a statement. [196142]

Dr. Howells: We regularly have discussions with Arab states on the issue of Israeli security. However, we have not discussed this particular matter with Arab states. Israel has made clear to us that it condemns the use of civilians as human shields. The UK condemns the storage of arms and rockets by Hamas in civilian areas. The UK urges all parties to adopt a peaceful, political resolution to the conflict.

Kosovo: Politics and Government

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions (*a*) he, (*b*) members of his Department and (*c*) UK representatives have had with (i) members and (ii) representatives of the Governments of (A) Russia and (B) Serbia on developments in Kosovo (1) since the referendum on 17 February 2007 and (2) with regard to the civil unrest in Mitrovica on 18 March 2008; and if he will make a statement. [197086]

Mr. Jim Murphy: Since Kosovo's declaration of independence on 17 February 2008, the UK has continued its engagement with the Governments of Russia and Serbia, including on the issue of Kosovo. The UK also continues to work with Russia in multilateral fora, discussing Kosovo in the UN Security Council on 17 and 18 February and on 11 March, and at the North Atlantic Treaty Organisation (NATO)-Russia Council on 27 February.

We strongly condemn the violent disturbances in Mitrovica on 17 March which saw sustained mob violence directed against UN and NATO personnel and which led to the death of a UN police officer.

Nigeria: Politics and Government

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to assist democratic reform in Nigeria. [198125]

Meg Munn *[holding answer of 2 April 2008]:* The UK regularly stresses the importance of transparency and democratic reform to the Nigerian Government. Following widespread concerns about the conduct of the Nigerian elections in April 2007, we have continued to pursue a range of programmes designed to promote democratisation.

Over the past three years, the Department for International Development (DFID) has committed up to £7 million to support Nigerian electoral processes, including support to non-governmental organisations involved in voter education and media and conflict monitoring. DFID also works to strengthen the capacity of the Nigerian National Assembly through technical assistance to key parliamentary committees. Its programme 'Coalitions for Change' supports groups from civil society, the private sector, the media and government to work together to change the formal and informal rules that have entrenched poor accountability and poor resource management in Nigeria.

The British Council has commissioned a report investigating the impact of demographics on electoral inclusion in Nigeria. It has helped develop a number of Youth Assemblies in Nigeria, which provide access to democratic processes to young people. It also supports a youth newspaper and radio broadcasts on governance related issues.

This year, our High Commission in Abuja initiated a Public Diplomacy programme on Supporting Democratic Development. Other programmes include those to support freedom of expression and association, which also contribute to democratic reform.

Palestinians: Economic Situation

Mrs. Dunwoody: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of (*a*) progress on implementation of the Palestinian Reform and Development Plan and (*b*) the effect of Hamas' control of Gaza on the overall development of the Palestinian economy. [196849]

Mr. Douglas Alexander: I have been asked to reply.

The Palestinian National Authority (PNA) is shortly due to finalise its budget for 2008 and the list of Palestinian Reform and Development Plan (PROP) projects and recurrent costs for donor support. Progress in implementing the PROP will be reported at the Ad Hoc Liaison Committee (AHLC) meeting in London on 2 May. The World Bank and European Commission have established funding mechanisms to co-ordinate donor financial support for the PROP.

The takeover of Gaza by Hamas in June 2007 led to severe Israeli restrictions on imports into Gaza and a near complete-ban on exports. This has had a profound impact on the Gazan economy. The Palestinian Trade Centre (PalTrade) states that 95 per cent. of industrial working establishments in Gaza closed between July 2007 and February 2008, with the construction, export agriculture, furniture and garment sectors hardest hit. PalTrade estimates that in the construction sector alone, 42,000 workers have been laid off since January 2007.

The impact of the Hamas takeover and closure of Gaza by Israel on the whole Palestinian economy is more difficult to assess. The Occupied Palestinian Territories' economy was stagnant in 2007 despite large donor inflows. It is likely that without the closure of Gaza, GDP would have grown slightly. According to the World Bank, real GDP per head in the OPTs is now 40 per cent. lower than in 1999.

Palestinians: Overseas Aid

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms are in place to ensure that UK funding to the Palestinian Authority is spent on frontline services to help the Palestinian people. [197621]

Mr. Douglas Alexander: I have been asked to reply.

UK aid to the Palestinian Authority (PA) is subject to the high levels of scrutiny to ensure it reaches those most in need. Funding is provided through the European Commission's PEGASE mechanism (the replacement for the Temporary International Mechanism) and the new World Bank fund. These mechanisms conduct rigorous checks against each payment, independent auditing, tracking and monitoring.

The UK is also working with the Palestinian Authority (PA) and the IMF to improve the PA's own financial management systems, which is essential if they are to deliver their frontline services effectively.

Poland: Treaty of Lisbon

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Polish Government on ratification of the Treaty of Lisbon; and if he will make a statement. [198729]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has regular contact with his EU counterparts on a variety of issues, including the Lisbon Treaty. It is up to all 27 member states to ratify the Lisbon Treaty in accordance with their respective constitutional requirements.

Both Houses of Parliament in Poland have approved the Lisbon Treaty. The final stage of ratification is the President's signature.

PricewaterhouseCoopers

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has awarded any contracts to PricewaterhouseCoopers since 2000. [181509]

Meg Munn: The Foreign and Commonwealth Office (FCO) has awarded the following contracts to PricewaterhouseCoopers since 2004-05:

provision of accounting services to FCO Resource Accounts Department; and

provision of auditing services to FCO Internal Audit Department.

I also refer the hon. Member to the reply I gave to my hon. Friend the Member for Newcastle upon Tyne, Central (Jim Cousins) on 26 March 2008, *Official Report*, columns 150-152W.

We only have access to this information dating back to 2004-05, following the introduction of Prism, our financial and management information system.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the recent meeting in Geneva between Abdul Wahid al-Nur of the Sudanese Liberation Movement and the five permanent members of the UN Security Council. [197250]

Meg Munn: On 18 March in Geneva, the African Union (AU) and UN envoys for the Darfur political process and the five permanent members of the UN Security Council agreed with Abdul Wahid al-Nur, president of the Sudan Liberation Movement, on the need to strengthen security in Darfur, notably through the deployment of the UN and AU mission and on the importance of normalising regional relations to build a sustainable political solution to the Darfur crisis.

The participants made clear to Abdul Wahid al-Nur that he needed to commit fully to the AU/UN-led process including agreeing to a cessation of hostilities and talks through the AU-UN with the Government of Sudan.

Terrorism

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the European Parliament on taking steps to combat and prevent terrorism. [196359]

Dr. Howells: We work closely with the Council and the Commission of the EU, including through working groups and the EU General Affairs and External Relations Council, to ensure that the EU plays a full and active role in countering the threat of international terrorism. We currently have no plans to make representations to the European Parliament regarding the combating and prevention of terrorism.

Tibet: Human Rights

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of China on the right of cultural expression in Tibet. [195571]

Meg Munn: We have expressed our concern to Chinese authorities both in Beijing and London about recent events in Tibet and the surrounding region. We have urged them to respect freedom of expression and religion in Tibet; to avoid the use of excessive force in dealing with riots; and to respect fully the human rights of those detained. My right hon. Friend the Prime Minister spoke to Chinese Premier Wen on 19 March 2008 urging the Chinese government to address the underlying issues by re-engaging in dialogue without preconditions with the Dalai Lama and his representatives. We discussed the rights of ethnic minorities with Chinese officials at the most recent round of the UK-China Human Rights Dialogue, held on 28 January 2008 in Beijing.

Treaty of Lisbon

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in ratifying the Lisbon treaty in other EU member states; and if he will make a statement. [196370]

Mr. Jim Murphy: All 27 member states must ratify the Lisbon treaty according to their respective constitutional requirements. As of 31 March, Hungary, Malta, Slovenia, Romania, France and Bulgaria have ratified the treaty through Parliament.

UN World Conference Against Racism

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his officials have had with counterparts in *(a)* the United States and *(b)* the United Nations on the decision of the United States Congress on Durban 2. [197332]

Meg Munn: We are aware of the Resolution of the House of Representatives on 23 January 2008. Foreign and Commonwealth Office officials have been in discussions with their US counterparts and colleagues from the UN on the Durban Review Conference, keeping them informed of our current position.

INTERNATIONAL DEVELOPMENT

Burma: Famine

John Bercow: To ask the Secretary of State for International Development what discussions he has had with *(a)* the World Food Programme and *(b)* other UN bodies on a potential famine in Chin state, western Burma. [198368]

Mr. Douglas Alexander: I refer the hon. Member to the answer given to the hon. Member for Sutton Coldfield (Mr. Mitchell) on 25 March 2008, *Official Report*, column 34W.

CDC

Mr. Moore: To ask the Secretary of State for International Development pursuant to his answer of 20 March 2008, *Official Report*, column 1273, on CDC, what the 79 CDC subsidiary companies are; in which countries they are registered; and with what regulatory authorities with which their accounts of each are filed. [197972]

Mr. Douglas Alexander: Contrary to the answer I gave on 20 March 2008, *Official Report* column 1272W we have now been advised by CDC that the list of subsidiary companies at 31 December 2007 now totals 78. CDC Haina (UK) Ltd has been dormant for some time and was dissolved in February 2007. This information has been registered at Companies House. CDC has confirmed that there is no requirement for the company to hold the information on the regulatory authorities with which their accounts are filed. However, they do require subsidiary companies themselves to comply with their respective local country requirements on regulatory norms for filing and submission of accounting information.

The list of CDC's subsidiary companies is as follows:

Country of incorporation and operation	*Subsidiary company*
Egypt	Middle East Food and Trade Company (S.A.E.) (held by North Africa Foods Limited)
Mauritius	CDC Agribusiness Management Limited
Mauritius	CDC Fennec Limited
Mauritius	CDC Financial Services (Mauritius) Limited
Mauritius	CDC Haina (Mauritius) Limited
Mauritius	CDC Investment Holdings Limited
Mauritius	CDC South Asia Limited
Mauritius	Globeleq Holdings (Songas) Limited (held by Globeleq Africa Holdings Limited)
Mauritius	Globeleq Holdings Kondapalli Limited (held by Globeleq Asia Holdings Limited)
Mauritius	North Africa Foods Limited (held by Pan Africa Holdings Limited)
Mauritius	Pan African Holdings Limited

Country of incorporation and operation	Subsidiary company
Mauritius	Afriforest Investments Limited
Mauritius	Equitoria Teak Holdings Limited(held by Afriforest Investments Limited)
Mauritius	Actis Afica Agrifinance Limited
Mauritius	CAC Holdings (Mauritius) Limited
Mauritius	CAC Holdings (Latin America) Limited (held by CAC Holdings (Mauritius) Limited
South Africa	Globeleq Services South Africa (Pty) Limited (held by Globeleq Africa Holdings Limited)
Sudan	Equatoria Teak Company Limited(held by Equitoria Teak Holdings Limited)
Sudan	African Forest Group Limited(held by Afriforest Investments Limited)
Tanzania	Forest Technical Services Limited (held by Pan African Holdings Limited)
Tanzania	Freshfields Investments Limited (held by Pan African Holdings Limited)
Tanzania	Globeleq Tanzania Services Limited (held by Globeleq Services Limited)
Tanzania	Songas Limited (held by Globeleq Tanzania Limited and Globeleq Somanga Limited)
Tanzania	Kilombero Valley Teak Company Limited
Tanzania	Tata Tea Limited (held by Fresh fields Limited)
Tanzania	Wakulima Tea Company Ltd (held by Tata Tea)
Tanzania	Kabana Tea Ltd (held by Tata Tea)
Tanzania	Chain Bora Ltd (held by Tata Tea)
Uganda	Development Finance Company of Uganda
Uganda	DFCO Bank Limited (held by Development Finance Company of Uganda)
Uganda	DFCO Leasing Company Limited (held by Development Finance Company of Uganda)
Uganda	Rwenzori Properties Limited (held by Development Finance Company of Uganda)
Uganda	Housing Finance Company of Uganda Limited (held by Development Finance Company of Uganda)
Uganda	Rwenzori Courts Limited
Uganda	Umeme Limited (held by Globeleq Holdings Concho Limited)
Uganda	Equatoria Teak Services Limited (held by Equatoria Teak Holdings Limited)
Zambia	Mpongwe Development Company Limited
Zambia	Mpongwe Milling Limited (held by Mpongwe Development Company Limited)
Zambia	Munkumpu Farms Limited (held by Mpongwe Development Company Limited)
Zambia	Nanga Farms Limited
Zimbabwe	Kohler Zimbabwe (Pvt) Ltd(held by Lenco Holdings Limited)
Barbados	CDC Airport Investment (Barbados) Limited (held by CDC Holdings (Barbados) Limited)
Barbados	CDC (Euro) Limited
Barbados	CDC Holdings (Barbados) Limited
Bermuda	CDC Globeleq Holdings Limited (held by CDC Financial Services (Mauritius) Limited)
Bermuda	Globeleq Africa Holdings Limited (held by Globeleq Africa Limited)
Bermuda	Globeleq Africa Limited (held by CDC Globeleq International Limited)
Bermuda	Globeleq Holdings Azito Limited (held by Globeleq Africa Holdings Limited)
Bermuda	Globeleq Holdings Concho Limited (held by Globeleq Africa Holdings Limited)
Bermuda	Globeleq Holdings Tsavo Limited (Globeleq Africa Holdings Limited)

Country of incorporation and operation	Subsidiary company
Bermuda	Globeleq Maghreb Limited (held by Globeleq Africa Holdings Limited)
Bermuda	Globeleq Tanzania Limited (held by Globeleq Holdings (Songas) Limited)
British Virgin Islands	Tradewinds Investments Holdings Corp
Cayman Islands	CDC Digicel Holdings Limited (held by CDC Holdings (Barbados) Limited)
Cuba	CDC Equipment Leasing Limited
Guyana	Guyana Housing and Development Company Limited
Guyana	Guyana Mortgage Finance Company Limited
Netherlands Antilles	CDC Capital Partners Netherlands Antilles NV
United States	Globeleq Inc (held by Globeleq Advisers Limited)
Indonesia	PT CDC Land
Malaysia	CDC Holdings Sdn Bhd
Malaysia	Kulai Oil Palm Estate Sdn Bhd
Singapore	CDC Veracruz Pte Limited
Singapore	CDC Guadalajara Pte Limited
Singapore	CDC Monterrey Pte Limited
Singapore	Pacific Rim Palm Oil PTE Limited
Mauritius and India	Nandi Investments Ltd (held by CDC Financial Services (Mauritius) Limited)
Jersey	Globeleq Somanga Limited (held by Globeleq Holdings (Songas) Limited)
United Kingdom	Globeleq Advisers Limited
United Kingdom	CDC Asset Management Limited
United Kingdom	CDC Capital Partners Limited
United Kingdom	CDC Capital for Development Limited
United Kingdom	CDC Emerging Markets Limited
United Kingdom	CDC Equity Partners Limited
United Kingdom	CDC Funds Management Limited
United Kingdom	CDC Limited
United Kingdom	CDC Overseas Holdings Limited
United Kingdom	CDC Venture Capital Limited

Departmental Coordination: Overseas Aid

John Bercow: To ask the Secretary of State for International Development what recent discussions he has had on the Delivery Agreement for Public Service Agreement 29 with *(a)* the Foreign and Commonwealth Office, *(b)* the Department for Environment, Food and Rural Affairs and *(c)* HM Treasury; and what his Department's specific respc·nsibility is for each of the eight indicators associated with this target. [197776]

Mr. Malik: The Delivery Board for the PSA on International Poverty Reduction (PSA 29) met for the first time in February. The Department for International Development's (DFID) permanent secretary chaired the meeting and the permanent secretaries from the Foreign and Commonwealth Office, Her Majesty's Treasury

and the Department for the Environment, Food and Rural Affairs attended, as did a representative from the Prime Minister's Delivery Unit (PMDU). The delivery board are scheduled to meet in April to finalise the performance framework.

Under the framework, DFID will lead on each of the eight indicators, including establishing the baseline position and targets, and the monitoring of progress against the targets set.

Departmental Public Expenditure

John Bercow: To ask the Secretary of State for International Development what the reasons were for his Department's £91 million use of end year flexibility. [197778]

Mr. Malik: The Department for International Development's (DFID) £91 million end of year flexibility (EYF) consists of £75.5 million resource and £15.1 million capital.

Of the £75.5 million resource, £63.5 million is near cash and £12 million non-cash. We keep a small non-cash EYF stock to manage fluctuations in International Finance Institutions' (IFI) capital charges.

The £63.5 million near cash resource EYF stock represents about 1.5 per cent. of DFID resource outturn in 2006-07 and represents a prudent end-year operating margin.

The £15.1 million capital EYF has been drawn down and utilised during 2007-08.

Departmental Standards

John Bercow: To ask the Secretary of State for International Development what recent assessment he has made of his Department's contribution to Public Service Agreements *(a)* 3, *(b)* 25, *(c)* 27 and *(d)* 30. [197773]

Mr. Malik: The 30 new public service agreements (PSA) set out the key priority outcomes the Government want to achieve in the 2008-11 spending period. The Department for International Development (DFID) is a formal delivery partner for the PSAs on climate change (PSA 27) and conflict prevention (PSA 30). In addition, through our work on poverty reduction, the Department will contribute to delivery of the PSAs on migration (PSA 3) and counter-terrorism (PSA 26).

PSA 27

In consultation with others, we are helping to design a suite of multi-donor climate investment funds to reduce poverty through action on climate change. These will be launched in 2008 and will be capitalised by funds from the £800 million in the international window of the UK's Environmental Transformation Fund. In addition, we are supporting the Global Environment Facility (GEF), multilateral development banks' Clean Energy Investment Framework and UN Special Adaptation Funds, and working to address the information and knowledge gaps relating to climate change impacts in Africa. We will also be looking to address climate change through our bilateral programmes, such as in China and Bangladesh.

PSA 30

Many of the countries and regions which are the focus of the new conflict prevention PSA are priorities for DFID. Reducing poverty in these fragile and conflict-affected states is essential to tackle the conditions in which conflict emerges and to achieve the MDGs. DFID is increasing levels of funding to fragile and conflict affected countries. In addition to these efforts, DFID is working with FCO and MOD to help prevent, manage and resolve conflict through the Conflict Prevention Pool (CPP) and the Stabilisation Aid Fund (SAF). The total value of these funds is set to rise from £139m (2007-08) to £229 million (2010-11). The PSA also focuses on building more effective international institutions. DFID has been working with FCO and MOD to strengthen the UN's capacity to prevent conflict and build peace, and has committed funds of more than £50 million over three years to the Peacebuilding Fund, the Peacebuilding Support Office and UNDP's Bureau for Crisis Prevention and Recovery.

PSA 3

DFID is contributing £35 million to a new cross-government Returns and Reintegration Fund led by the FCO. The Fund will be headed by a DFID staff member and DFID country teams will be contributing their expertise to make sure fund projects are as effective as they can be.

PSA 26

Within the parameters of the International Development Act, our programme will make a positive contribution to the Government's counter-radicalisation effort. In November, the Prime Minister publicly committed DFID, FCO and the British Council to spending

"around £400 million over the next three years...to tackle radicalisation and promote understanding overseas".

John Bercow: To ask the Secretary of State for International Development what estimate he has made of the likely date for the next update of progress on indicators *(a)* 1, *(b)* 2, *(c)* 3, *(d)* 4 and *(e)* 7 associated with Public Service Agreement 29. [197774]

Mr. Malik: The first planned reporting round relevant to the reporting of Public Service Agreement (PSA) 29 is the 2008 Autumn Performance Report, which is usually published in November or December.

John Bercow: To ask the Secretary of State for International Development what progress has been made towards his Department's April deadline for establishing the baseline data for the eight indicators associated with Public Service Agreement 29. [197775]

Mr. Malik: Official international data showing progress towards the millennium development goals (MDG) indicators, which are published by the United Nations, will be used to set the baseline position for the eight indicators associated with public service agreement 29. These data were last published in July 2007. We expect an update of the data in June or July.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for International Development if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195879]

Mr. Malik: There are no plans to set a target to increase the use of video-conferencing with the specific aim of reducing travel. The Department for International Development (DFID) does however have a target to reduce air miles flown by 5 per cent. per annum and video-conferencing is one tool helping to achieve this.

Meetings are arranged around the needs of the business but before any travel is authorised in DFID staff must confirm that they have considered using video-conference.

DFID currently use a total of 119 video-conference units, in the UK and overseas. In the last year DFID held 7,169 managed video conferences. A recent study showed that video-conferencing in DFID avoids more than two million miles of air travel a year.

Gaza: Politics and Government

Jo Swinson: To ask the Secretary of State for International Development what assessment he has made of the humanitarian situation in Gaza; and what estimate he has made of the number of people *(a)* at risk of starvation, *(b)* without access to basic medical treatment and *(c)* without access to safe drinking water; and if he will make a statement. [197974]

Mr. Douglas Alexander: The Department for International Development (DFID) is deeply concerned by the humanitarian situation in Gaza. Currently there is no danger of starvation but an estimated 1.1 million Gazans—80 per cent. of Gaza's population—is at least partly dependent on food aid. Food aid provided by the United Nations Relief and Works Agency (UNRWA) and the World Food Programme (WFP) covers 60 per cent. to 80 per cent. of calorific need of those that receive it, with people left to buy the remainder.

Palestinians currently have access to basic medical treatment and medicines continue to enter Gaza. However, the health care system is under strain as infrastructure and equipment deteriorates. The World Health Organization reports that 85 essential items are nearly or completely depleted, largely because of procurement problems.

The water and sanitation sector throughout Gaza is facing severe difficulties. Gaza has traditionally had problems with the purity of its drinking water but the current situation is exacerbated by power cuts affecting pumping stations; 90 per cent. of mains water is polluted and up to 60 million litres of raw or poorly treated sewage are being discharged into the Mediterranean sea each day. Figures are unavailable for the number of people affected by the polluted water.

This situation has not been caused by a lack of response or support from the international community, rather the continued restrictions on access to Gaza.

To help ease the situation the UK provided £15.45 million in March 2008 through the European Commission's PEGASE mechanism, supporting essential services and providing allowances to 77,000 key workers. To support the work of UNRWA DFID provided £15.6 million in 2007-08.

Overseas Aid

Stephen Hesford: To ask the Secretary of State for International Development how much was allocated by his Department to non-governmental organisations providing international relief or development aid in each year between 2005 and 2007. [197611]

Mr. Malik: Total UK Bilateral Official Development Assistance (ODA) channelled through non-governmental organisations (NGO's) between 2005 and 2007 is set out in the following table below:

UK Bilateral ODA channelled through NGO's between 2005 and 2007

	£ million
Calendar year	*Total*
2005	339.02
2006	343.00
2007	335.87

Pakistan: Asylum

Angus Robertson: To ask the Secretary of State for International Development what estimate his Department has made of the number of *(a)* refugees and *(b)* internally displaced people resident in (i) Pakistan and (ii) Tanzania in each year since 2000; and if he will make a statement. [197104]

Gillian Merron: The information requested is as follows:

Pakistan

Estimate of refugee numbers in Pakistan for each year since 2000 are as follows (figures collected by the United Nations High Commissioner for Refugees):

	Number of refugees (million)
2000	1.2
2001	2.2
2002	1.9
2003	1.1
2004	1
2005	1.08
2006	1.04
2007	2.03

There are no comprehensive figures on internally displaced people in Pakistan during this period.

However, two recent humanitarian disasters in Pakistan led to the creation of IDPs over a short-term period. Approximately 250,000 were internally displaced following floods in the provinces of Balochistan and Sindh in June 2007 and as a result of the October 2005 earthquake, the estimates of IDPs were: 350,000 (2005); 297,000 (2006); 38,000 (2007) and 4.933 (as at 1 February 2008).

Tanzania

Estimate of refugee numbers in camps in Tanzania for each year since 2000 are as follows (figures collected by the United Nations High Commissioner for Refugees):

	Number of refugees (thousand)
2000	510.9
2001	498.1
2002	519.4
2003	479.8
2004	403.9
2005	350.6
2006	287.1
2007	217.4
2008 (as at 29 February)	209.4

In addition to the numbers above, a further 218,000 Burundian refugees are also living outside camps in Tanzania.

Tanzania has no identified internally displaced people.

Rackspace

Mr. Hands: To ask the Secretary of State for International Development what the value was of each contract awarded to Rackspace by his Department in each of the last nine years. [197502]

Mr. Malik: The Department for International Development (DFID) has no record of current or previous contracts with Rackspace for the period requested.

CHILDREN, SCHOOLS AND FAMILIES

Children in Care

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to improve the lives of children in care. [198544]

Kevin Brennan: The Government published the "Care Matters" White Paper in June 2007 setting out reforms needed to transform the life chances of children and young people in care, to ensure good parenting from everyone in the system and the centrality of the voice of the child. It built on responses to the Green Paper "Care Matters: Transforming the Lives of Children and Young People in Care", and the conclusions of four working groups established to investigate best practice in supporting those in care.

Since 2000-01 local authority expenditure on these services has increased from £1.3 billion to just under £2.1 billion in 2005-06, an increase of 57 per cent. In addition, the White Paper announced around £300 million extra funding over four years to support the further improvements needed. A range of legislative changes to support the "Care Matters" reforms are also currently being debated in Parliament as part of the Children and Young Persons Bill.

On 26 March 2008 the Government, Association of Directors of Children's Services, and Local Government Association published an implementation plan "Care Matters: Time to deliver for children in care". It encourages systematic planning for service improvement and lists tools, resources and support available to assist local improvement. The implementation plan can be found at:

http://www.everychildmatters.gov.uk/socialcare/childrenincare

The process of improvement will be taken forward through a series of regional conferences for those involved in working with looked after looked after children over the spring and summer.

Curriculum

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the *(a)* average and *(b)* recommended number of hours per week spent on (i) mathematics, (ii) English, (iii) science, (iv) modern languages and (v) history and geography was for school children in each school year in each of the last 10 years. [196648]

Jim Knight: The statutory National Curriculum Programmes of Study set out what is to be taught in each subject, not how it is to be taught, nor for how many hours each week. The Department does not recommend, nor does it collect data on, the average number of hours spent each week teaching mathematics, English, science, modern foreign languages, history and geography.

However, through the Secondary Schools' Curriculum and Staffing Survey (SSCSS), we have data available for 1996 and for 2002 on the average number of standardised periods studied by pupils in year groups 7 to 11 in named subjects. The results are set out in the annex and are taken from the 'Statistical First Release 25/2003, Secondary Schools Curriculum and Staffing Survey: November 2002 (Provisional)'. The SSCSS is an occasional sample survey carried out every four to six years and it does not provide comprehensive time series data.

Departmental Correspondence

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* referrals and *(b)* letters of notification were received by the Department in each of the last five years from (i) state maintained and (ii) independent schools; [188765]

(2) how many *(a)* referrals and *(b)* letters of notification on child protection received by the Department in each of the last five years from (i) state maintained and (ii) independent schools were subsequently reported to the police with a copy sent to the Department; [189250]

(3) when he plans to answer question *(a)* 188765 tabled on 20 February and *(b)* 189250 tabled on 21 February, on child protection. [198551]

Kevin Brennan: Where employers (including independent schools) in the education sector have ceased to use the services of a person because they consider that person is unsuitable to work with children, or they would have ceased to use the person's services where the person has left their employment, they are required to refer information to the Department. In addition, the police refer to the Department cautions and convictions for those who have been working in educational establishments in accordance with Home Office Circular 6/2006 (The Notifiable Occupations Scheme). Identifying how many referrals and letters of notification were received from (i) state maintained and (ii) independent schools and how many were subsequently reported to the police with a copy sent to the Department would require detailed checks to be made of individual case records and this would incur disproportionate cost.

Departmental Public Bodies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list each of his Department's *(a)* agencies and *(b)* non-departmental public bodies, setting out in each case their (i) function, (ii) latest estimated annual running costs and (iii) number of staff; and if he will make a statement. [194842]

Kevin Brennan: The information is as follows.

(a) The Department is not responsible for any Executive agencies.

(b) The Department is responsible for eight Executive non-departmental public bodies (NDPBs) and three advisory NDPBs. The names of these NDPBs are listed on the Department's website at:

http://www.dfes.gov.uk/ndpb/.

(i) Details of the budget and function of each NDPB is published in the Department's Annual Report 2007 and in Public Bodies 2007, which are available on the Department's website at:

http://www.dcsf.gov.uk/aboutus/reports/pdfs/deptreport2007.pdf.

The following NDPBs are the responsibility of the Department for Children, Schools and Families and their (i) function, (ii) latest estimated annual running costs and (iii) number of staff are set out as follows:

British Educational Communications and Technology Agency (BECTA)

(i) Becta is the Government's lead partner in the strategic development and delivery of the e-strategy;

(ii) £10.460 million;

(iii) 201 staff.

Children and Family Court Advisory and Support Service (CAFCASS)

(i) CAFCASS is involved in family law proceedings under the Children Act 1989 and its role is to advice the courts on what is in the best interests of a child;

(ii) £104.818 million;

(iii) 1,701 staff.

Independent Advisory Group on Teenage Pregnancy

(i) The Advisory Group's function is to provide advice to the Government and monitor the overall success of the Teenage Pregnancy Strategy towards achieving the goals of reducing the rate of teenage conceptions and reaching a 60 per cent. target of teenage parent participation in education, training or employment, to reduce the risk of their long-term exclusion;

(ii) £0.04 million;

(iii) The body does not employ staff.

National College for School Leadership (NCSL)

(i) NCSL's function is to develop excellent school leadership to transform children's achievement and well-being; to develop leadership within and beyond the school; to identify and grow tomorrow's leaders; and create a fit-for-purpose, national college;

(ii) £8.928 million;

(iii) 265 staff.

Office of the Children's Commissioner, known as 11 MILLION

(i) The function of the Children's Commissioner is to promote awareness of the views and interests of children as set out in the Children Act 2004;

(ii) The Commissioner's Office, 11 MILLION, has a budget of £3 million;

(iii) 20 staff.

Partnerships for Schools (PfS)

(i) PfS supports the local delivery of the Government's Building Schools for the Future programme (including academies);

(ii) £12.5 million (of which the Department funds 50 per cent.);

(iii) 106 staff.

Qualifications and Curriculum Authority (QCA)

(i) QCA maintains and develops the national curriculum and associated assessments, tests and examinations, as well as accrediting qualifications in colleges and at work. QCA also regulates awarding bodies and exams to ensure they are fit for purpose;

(ii) £47.6 million;

(iii) 490 staff.

School Food Trust (SFT)

(i) SFT's function is to promote the education and health of children and young people by increasing the quality of food supplied and consumed in school;

(ii) £7.5 million;

(iii) 43 staff funded by grant-in-aid by the Department.

(The SFT also receives lottery funding to employ additional staff to take forward it Let's Get Cooking Programme).

School Teachers Review Body (STRB)

(i) The STRB's function is to consider matters referred to it by the Secretary of State for Children, Schools and Families in relation to the remuneration, professional duties or working time of school teachers; and to report to the Prime Minister and the Secretary of State;

(ii) The Office of Manpower Economics provide the secretariat for the STRB and recover the associated cost from their sponsoring Department—BERR;

(iii) The body does not employ staff.

Teachers' TV board of governors

(i) The Teachers' TV board of governors' function is to upholding the editorial independence of the Teachers' TV channel; to advise the Secretary of State on the performance of the supplier; and to ensure that Teachers' TV meets the needs of its audiences and fulfils its strategic aims;

(ii) £0.2 million;

(iii) The body does not employ staff.

Training and Development Agency for Schools (TDA)

(i) TDA's function is to secure the supply of the school work force through promotion of the teaching profession and quality assurance for initial teacher training (ITT); to support the development of the school work force through creation and promotion of professional and occupational standards, support of performance management arrangements and stimulation of a sufficient supply of high quality in-service training; to support the ongoing modernisation of the school work force, the wider education sector and children's and young people's services;

(ii) £25.103 million;

(iii) 303 staff.

Intimidation: Internet

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government has taken to tackle online bullying. [198543]

Kevin Brennan: The Government have taken a range of steps to tackle online bullying. We have enacted legislation giving school staff clear statutory power to confiscate mobile phones and discipline pupils for bad behaviour off school premises. We have made practical guidance on tackling cyberbullying available to all schools; and we will soon be making a curriculum resource pack dealing with cyberbullying available to teachers. We have also asked the Department's Cyberbullying Task Force, which brings together teacher unions and internet service providers, to consider what more can be done to prevent cyberbullying of school staff.

In addition, the Government have accepted the recommendations of the Byron Review of children and new technology. These include the establishment of a UK Council for Child Internet Safety, to provide strategic leadership for all work to protect children on the internet, as well as a major social marketing campaign and initiatives to support parents, schools and children services to help children manage online risks, including those from cyberbullying.

Teachers: Educational Broadcasting

Anne Main: To ask the Secretary of State for Children, Schools and Families what the cost to his Department of the Teachers TV channel was in each of the last five years. [196196]

Kevin Brennan: Teachers' TV was launched in February 2005 and aims to help raise standards in classrooms by sharing good practice, supporting continuing professional development, offering classroom resources, and providing education news and information. In the channel's first operating year the Department provided funding of £19.9 million, in the second £16 million and £16.7 million in its third year.

Truancy

Matthew Taylor: To ask the Secretary of State for Children, Schools and Families what the rate of unauthorised absence was in *(a)* Cornwall, *(b)* the South West and *(c)* England in each year since 1979. [191967]

Kevin Brennan: Information on absence rates for the latest available year, 2006/07, is shown in the table. Data on pupil absence were not collected prior to 1993/94; however comparable data for 1993/94 to 2005/06 are not readily available on a consistent basis at local and regional levels.

Primary, secondary and special schools[1, 2], pupil absence by type of school, 2006/07, for Cornwall local authority area and South West Government office region

		Maintained primary and secondary schools, all special schools, city technology colleges and academies					
				Percentage of half days missed[3]			
		Number of day pupils of compulsory school age[4]	*Number of enrolments[5]*	*Authorised absence*	*Unauthorised absence*	*Overall absence*	*Percentage of persistent absentees[6]*
	England	6,332,070	6,582,430	5.49	1.00	6.49	4.1
	South West	608,520	633,080	5.66	0.86	6.52	3.8
908	Cornwall	62,585	65,044	5.84	0.79	6.64	3.5

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools. Excludes general hospital schools.
[3] The number of sessions missed due to authorised/unauthorised/overall absence expressed as a percentage of the total number of possible sessions.
[4] Pupil numbers are as at January 2007. Includes pupils aged five to 15 with sole and dual (main) registration. Excludes boarders.
[5] Number of enrolments in schools between from start of the school year until 25 May 2007. Includes pupils on the school roll for at least one session who are aged between five and 15. Excludes boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school).
[6] Number of persistent absentees expressed as a percentage of the total number of enrolments.

Note:
National and regional totals have been rounded to the nearest 10.

Source:
School Census.

Young People: Disadvantaged

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to assist disadvantaged young people in the West Midlands since 1997. [194174]

Beverley Hughes: Effective help for disadvantaged young people depend on a partnership approach. Young People are generally facing more than one issue that usually involves the expertise of more than one agency. The Government's approach has been to encourage partnership working and sharing of information, while ensuring young people have a single point of contact. Since 1997 the creation of Youth Offending Teams, Drugs Action Teams, Connexions Partnerships, local Teenage Pregnancy Boards, and Children's Trusts have changed the way disadvantaged groups are supported.

This has been supported by the creation of a new profession of personal advisers (PAs) to act as lead professionals in helping young people sort out their problems and get back on the path to success. PAs have been recruited and trained by Connexions Partnerships and there are now approximately 1,000 operating in the West Midlands.

The introduction of the Youth Opportunities Fund and Youth Capital Fund (YOF/YCF) during the last year has given young people the opportunity to participate in a range of positive activities. It has actively encouraged participation and engagement of disadvantaged young people and those who are hard to reach. The funds are worth £6.5 million in the West Midlands, with young people as the applicants, decision makers and beneficiaries. YOF/YCF will continue for the next three years.

The West Midlands Healthy Care Programme and Healthy Care Grant is supporting vulnerable young people in the West Midlands. This is mainly through targeted support through individual local authorities and support through key networks, including Education Protects, West Midlands Leaving Care Managers Network and Healthy Care Network.

Extended schools are a key mechanism through which Government provide support to children and young people and their families. The Government's aim is that at least half of all primary schools and a third of all secondary schools should be providing access to the full core offer by the end of September 2008. In the West Midlands Coventry has already exceeded this figure, and is delivering the offer in over 70 per cent of schools in the area (compared to a national average of 45 per cent.).

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Publicity

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much his Department, its predecessor and its agencies spent on staff working on *(a)* marketing and *(b)* branding in the last 12 month period for which figures are available. [167303]

Mr. Lammy: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes on 28 June 2007. Since that date the Department has spent an estimated total of £9,000 on staff involved in branding and £191,788.04 on marketing staff.

The National Weights and Measures Laboratory in the last 12 months has spent an estimated £3,750 on marketing activities. Much of this, but not all, is devoted to marketing specific services to business such as type approval and certification.

There has not been any staff effort on branding.

In the 12 months to 29 February 2008 the UK-IPO spent no staff time on branding. While the office does not use staff to directly market its services it did spend £636,600 on raising awareness, education and informing groups about the IP system which touch on the services offered by the UK-IPO and other national and international bodies.

Kelvin Business School

Jo Swinson: To ask the Secretary of State for Innovation, Universities and Skills (1) prior to its removal from the Register of Education and Training Providers on 19 July 2007, on what dates official visits or checks were carried out on Kelvin Business School; [163992]

(2) on what date his Department first received representations on the legitimacy of Kelvin Business School as an education provider; [163993]

(3) on what dates Ministers attended meetings to discuss Kelvin Business School's removal from the Register of Education and Training Providers. [163994]

Bill Rammell: Border and Immigration Agency (BIA) officers were first tasked to carry out intelligence-led investigation of Kelvin Business School on 14 March 2007 and the inspection took place on 29 March 2007. The nature of the visit was to seek compliance with the immigration rules and all reasonable steps were taken to ensure the principal had an opportunity to demonstrate the college was bona-fide. Since the initial visit to the college the Home Office wrote to the principal seeking additional documentation on 6 June 2007 and subsequently on the 26 June 2007. The principal replied to the both Home Office letters within the 14 day deadline, but on both occasions submitting documentation which did not meet the criteria set out by the Home Office. After the second deadline for submission of documents had passed on the 10 July the Home Office wrote to the Department for Innovation, Universities and Skills on 12 July informing DIUS that Kelvin Business School was in breach of the Immigration Rules and should be removed from the Register. This was done on 19 July 2007.

The registration process is one of continual assessment. BIA staff will recommend the removal of colleges found to be in breach of registration criteria. The final decision to remove is one for DIUS to make. The decision to remove Kelvin Business School was clear cut and did not require ministerial discussion.

Nanotechnology: Public Participation and Regulation

Dr. Gibson: To ask the Secretary of State for Innovation, Universities and Skills (1) what plans he has to take forward public engagement on nanotechnologies; and how his plans for public engagement will feed into policy in 2008-09; [196966]

(2) when he will implement the recommendations of each Government-commissioned review on the regulatory framework for nanotechnology; [196967]

(3) if he will set out a *(a)* timescale and *(b)* process for evaluating progress on the Government's commitments regarding nanotechnologies. [196995]

Ian Pearson: The Government's aim is for the UK to derive maximum benefit from nanotechnologies and their products in a way that safeguards health, safety and the environment and addresses the aspirations and concerns of the public. The statement by the UK Government about nanotechnologies, announced in the written ministerial statement of 28 February 2008, *Official Report*, columns 86-7W, explains what the Government are doing to deliver these objectives.

The Government do not hold a list of products containing free nanoparticles although it has published a report on the manufacture and use of nanomaterials in the UK:

http://www.defra.gov.uk/environment/nanotech/research/reports/index.htm#manufacture

To promote a standardised approach to labelling and ensure that products containing manufactured nanoparticles can be correctly identified, the British Standards Institute has recently published a good practice guidance document PAS 130:2007 'Guidance on the labelling of manufactured nanoparticles and products containing manufactured nanoparticles'.

The Research Councils are undertaking public dialogue on nanotechnologies and the topic is likely to feature in work resulting from the recent programme of stakeholder engagement to identify the implications of new and emerging science and technology.

Government Departments and agencies are keeping under review the need for action to address regulatory gaps in the light of emerging evidence. The ministerial group on Nanotechnologies (which comprises the Ministers Science and Innovation; the Environment; Public Health; Health and Safety; and Business and Competitiveness) will oversee the process and will also review progress on delivery of the Government's other commitments regarding nanotechnologies.

Performing Right Society: Licences

Gordon Banks: To ask the Secretary of State for Innovation, Universities and Skills (1) how much the Performing Right Society collected from the issuing of music licences in each of the last five years for which data is available; [197564]

(2) how many Performing Right Society hairdresser and beauty salon licences were issued in each of the last five years for which data is available; [197565]

(3) how many Performing Right Society small premises licences were issued in each of the last five years for which data is available; [197566]

(4) how much was collected in higher royalty rate Performing Right Society licences in each of the last five years for which data is available; [197567]

(5) how much was collected by the Performing Right Society in licence fees from the hairdressing and beauty salons tariff in each of the last five years for which data is available; [197568]

(6) how much was collected by the Performing Right Society in small premises licence tariffs in each of the last five years for which data is available. [197569]

Ian Pearson: This is a matter for the Performing Rights Society and any inquiries should be directed to them.

COMMUNITIES AND LOCAL GOVERNMENT

Aggregates: South East

Mr. Hoban: To ask the Secretary of State for Communities and Local Government (1) how the amounts set out in the regional guidelines for land-won sand and gravel production for the South East set out in the National and Regional Guidelines for Aggregates Provision in England 2001 to 2016 are allocated between each local authority in the region; and if she will make a statement: [196456]

(2) what estimate she has made of the proportion of demand for aggregates in London which will be met from sources within London in the next *(a)* five, *(b)* 10 and *(c)* 20 years. [196457]

(3) pursuant to the answer of 18 February 2008, *Official Report*, columns 31-2W, on gravel, what steps she plans to take to increase the proportion of aggregates extracted from marine sources in the South East region. [196513]

Mr. Iain Wright: The regional guidelines for provision of land-won sand and gravel in south east England for 2001 to 2016 are set out in the National and Regional Guidelines for Aggregates Provision in England, published in 2003. The regional guidelines are apportioned to mineral planning authorities in the region by the Regional Planning Body, taking into account advice from the mineral planning authorities and the South East of England Regional Aggregates Working Party. The guidelines make provision for the very limited available sources in London to supply 19 million tonnes of land-won sand and gravel over the guidelines period, (8 per cent. of forecast demand).

Minerals Policy Statement 1 "Planning and Minerals" encourages the environmentally acceptable supply of marine-dredged sand and gravel. The proportion of the supply of aggregates in the south east region which comes from this source is largely determined by the market and the capacity of the marine aggregates dredging industry.

Allotments

Ben Chapman: To ask the Secretary of State for Communities and Local Government if she will *(a)* collate information on allotment provision held at a local level, *(b)* encourage local authorities to devote more resources to providing and maintaining allotments and *(c)* increase funding for allotment sites. [198682]

Mr. Iain Wright: Government recognise the significant benefits that allotments provide. The Government do not hold information on allotment provision in local authorities, although we do collate information on the disposal of allotments. To improve information available on green spaces, including allotments, we have commissioned the development of a green space database. This will be an interactive mapping tool which will bring together several datasets and provide the opportunity for local authorities, and other users, to access and input information on quality and provision of green space, including allotments. The newly revised good practice guide, Growing in the community, published by the Local Government Association in March 2008, includes information on how local authorities can better maintain allotment sites and provide extra resources to do so. Local authorities have the freedom to manage their own resources. It is up to them to determine their spending priorities within the resources available to them.

Audit Commission: Pensions

Danny Alexander: To ask the Secretary of State for Communities and Local Government what the rate of employer contributions is to the pension scheme of which employees at the Audit Commission for England and Wales are members. [198493]

John Healey: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member directly.

Letter from Steve Bundred, dated 3 April 2008:

Parliamentary Question on what the rate of employer contributions is to the pension scheme of which employees at the Audit Commission for England and Wales are members.

Your Parliamentary Question on what the rate of employer contributions is to the pension scheme of which employees at the Audit Commission for England and Wales are members has been passed to me to reply.

The Audit Commission Pension Scheme (ACPS) is a funded, self-administered defined benefit pension scheme which was established with the inception of the Audit Commission in 1983. The ACPS is subject to the requirements of Scheme Specific Funding as introduced in the Pensions Act 2004.

The current employers' contribution rate to the Audit Commission Pension Scheme is 17% whilst employees contribute 6% of their salary.

From 1 April 2005 the Wales Audit Office (WAO) took over responsibility for auditing and inspecting Welsh public services. Employees of the WAO are now members of the Principal Civil Service Pension Scheme.'

The text of this letter will be placed in Hansard.

Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what definition her Department uses of *(a)* zero-carbon and *(b)* carbon neutral. [198671]

Mr. Iain Wright: Zero carbon homes mean that over a year, the net carbon emissions from all energy use in the home are zero. This would include energy use from cooking, washing and electronic appliances as well as space heating, cooling, ventilation, lighting and hot water. This was set out in the policy statement 'Building A Greener Future' published in July 2007 which confirmed the Government's commitment to zero carbon homes from 2016.

The term "carbon neutral" can be used to describe organisations, events, goods or services which act to prevent as much carbon emissions as they produce.

Casinos: Planning Permission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 January 2008, *Official Report*, column 545W, on casinos: planning permission, if she will place in the Library a copy of the document held by

the Planning Inspectorate and provided as part of the appeal statement by the appellant in the case of Blue Chip Casino against the decision of Sandwell Metropolitan Borough Council, ref: APP/G4620/A/06/2007910. [194830]

Mr. Iain Wright: The appeal documents can be viewed on the local planning authority's website at:

www.sandwell.gov.uk

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many and what percentage of appeals by employees of *(a)* her Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192519]

Mr. Dhanda: The only appeal upheld by the Civil Service Appeal Board in each of the last 10 years for this Department occurred in 2006-07. In view of this, the Department considers it would be inappropriate to give further details which might allow the appellant to be identified.

Community Relations: Elderly

Stephen Hesford: To ask the Secretary of State for Communities and Local Government what *(a)* support and *(b)* guidance her Department gives to local projects to support the social interaction of elderly people living alone. [195621]

Mr. Iain Wright: Communities and Local Government contributes to local projects to support the social interaction of elderly people living alone in a variety of ways, including through housing and related support services. For example, the Supporting People Programme, created in 2003, which is a grant programme administered through top tier local authorities, helps over 840,000 older people through housing support services to live independently in their home and community. Together, local authorities spent over £300 million on housing support services for older people in 2006-07.

We recently published "Lifetime Homes, Lifetime Neighbourhoods—A National Strategy? for Housing in an Ageing Society" which promotes improved social inclusion and participation of older people through better housing in age friendly communities. This includes the promotion of Lifetime Homes and Neighbourhoods, better home repairs and adaptations services. Additional funding of £33 million between 2008-10 will go to support local agencies, such as Home Improvement Agencies, to help older people with minor repairs and adaptations. Good practice examples included in this strategy show how these and other agencies can provide a vital link to help people to access other support services to increase participation in the community.

Council Tax

Mr. Amess: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 18 March 2008, *Official Report*, columns 963-4W, on council tax, when the table will be deposited in the Library; what the reasons are for the time taken to do so; and if she will make a statement. [198772]

Mr. Dhanda: The table has now been deposited in the Library of the House.

Departmental Consultants

Dan Rogerson: To ask the Secretary of State for Communities and Local Government how many consultants were employed by her Department in each month since January 2007; and what the total cost of such employment was. [199120]

Mr. Dhanda: This information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what contracts were awarded by her Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196589]

Mr. Dhanda: Contracts awarded to the five named companies in the last 12 months are detailed as follows.

(a) KPMG

(i) Independent audit advice to the Supporting People Programme.

(ii) £67,000

(b) PricewaterhouseCoopers

(i) Consultancy support to Internal Audit Service

(ii) £600,000

(i) Economic support to Communities' Capability Review Commitments.

(ii) £28,630

(c) Ernst and Young

(i) No Contracts awarded

(ii) £0

(d) McKinsey

(i) Support for Communities' High Level Seminar.

(ii) £125,000

(e) Deloitte

(i) No Contracts awarded

(ii) £0

Costs exclude VAT. Details of contracts awarded to other consultancy firms could be provided only at disproportionate cost.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Communities and Local Government what audits her Department and its agencies have carried out in relation to personal data and IT equipment in each of the last 10 years. [176483]

Mr. Dhanda: Communities and Local Government's security team has a rolling programme of security checks and reviews that check that protectively marked material, including personal information, is handled and stored correctly, and that portable ICT equipment is adequately secured when not in use. They also verify that the department's Government offices and agencies meet the appropriate standards.

As part of the review of data handling carried out by the Cabinet Office in 2007, Communities and Local Government did go through an exercise of identifying major business systems which held personal data. This has confirmed that many areas of this Department already have appropriate processes and controls in place. Communities and Local Government will be implementing the recommendations of the report of this review. New systems involving the storage and processing of data have to be formally accredited by the departmental IT security officer regarding data safeguards, and regularly reaccredited thereafter.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Communities and Local Government what visits she made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events she attended at each. [197154]

Mr. Dhanda: Records are only held centrally back to June 2006. This list is therefore not comprehensive, as it would require a detailed audit of records held off site, which could be provided only at disproportionate cost.

Date	*Venue*	*Event*
19 June 2007	Harrogate International Conference Centre	Launch of the Cave Report
20 June 2006	Harrogate International Conference Centre	Chartered Institute of Housing Annual Conference
26 February 2007	Birmingham International Conference Centre	British Muslim Forum
19 September 2006	Birmingham International Conference Centre	Development Trust Association Conference
5 July 2006	Bournemouth International Conference Centre	Local Government Association Annual Conference
19 June 2006	QE2 Conference Centre	Communities and Local Government Staff Conference
22 November 2006	Excel Exhibition Centre, Docklands	Thames Gateway Forum
27 November 2006	QE2 Conference Centre	Commission for Racial Equality Race Convention
29 January 2007	QE2 Conference Centre	Speech on planning
16 May 2007	QE2 Conference Centre	Work Wise U.K. Conference
12 December 2007	QE2 Conference Centre	Local Government Association Conference

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 March 2008, *Official Report*, on departmental intranet, how many Wikipedia entries have been *(a)* created and *(b)* amended from departmental IP addresses. [195344]

Mr. Dhanda: Communities and Local Government does not hold this information centrally and it could be provided only at disproportionate cost. Wikipedia is not a website which we monitor the usage of specifically.

Departmental Marketing

Mr. Pope: To ask the Secretary of State for Communities and Local Government how much her Department spent on publicity and advertising in 2007-08. [199023]

Mr. Dhanda: The final evaluation of the public information campaigns carried out by the Department in 2007-08 is currently being prepared and will be published in the Department's annual report, which will be placed in the Library of the House.

Departmental Public Participation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what payments her Department has made to opinion research companies other than Ipsos MORI in the last 12 months; at what cost; and for what purposes. [199266]

Mr. Dhanda: I refer the hon. Member to my answer of 14 March 2008, *Official Report*, column 699W, given to the hon. Member for Bromley and Chislehurst (Robert Neill).

Development: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 February 2008, *Official Report*, column 644W, on regional planning and development: standards, which local authorities have had their proposed core strategy rejected or found unsound by *(a)* her Department, *(b)* independent examination and *(c)* the relevant government office for the region; and what the reason was for such a finding in each case. [198652]

Mr. Iain Wright: Development Plan Documents are examined by an Independent Planning Inspector appointed by the Secretary of State.

The Inspector will produce a report, the recommendations of which are binding on the local authority, and which the authority must publish. If there are serious problems with the plan the Inspector may find it to be unsound and require it to be redone and resubmitted. At present, eight local authorities have had their core strategies found unsound in this manner. These are:

Windsor and Maidenhead
Carrick
Teignbridge
Lichfield
Stafford
Ryedale
Chichester
Restormel

The reasons why a plan is unsound are set out in the published Inspector's report, details of which can be found on the web sites of the relevant local authorities.

Energy Performance Certificates

Angela Browning: To ask the Secretary of State for Communities and Local Government if she will make it her policy that input matrix information relating to an energy performance certificate be released to the householder commissioning the certificate. [193040]

Caroline Flint *[holding answer 10 March 2008]:* The input matrix information is not currently available to the householder commissioning the energy performance certificate. We have no plans to make this information available.

Angela Browning: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to those preparing energy performance certificates on the account to be taken of *(a)* window sizes and *(b)* multiple glazing in assessing energy performance. [193041]

Caroline Flint *[holding answer 10 March 2008]:* The competencies required of energy assessors when preparing energy performance certificates are set out in the National Occupational Standards (NOS) published by Asset Skills. They include requirements to make accurate observations and measurements and to carry out calculations using the Government's Standard Assessment Procedure for the Energy Rating of Dwellings, SAP 2005. SAP 2005 takes into account window area and the presence or otherwise of multiple glazing.

General guidance on the software used to prepare EPCs has been produced by the Department for the Environment, Food and Rural Affairs.

Energy: Conservation

Jim Cousins: To ask the Secretary of State for Communities and Local Government if she will estimate the energy efficiency ratings of council-owned housing in the City of Newcastle; and what improvements in that rating she has required in the next phase of the Decent Homes programme. [196112]

Mr. Iain Wright: Newcastle city council have been required to report against Best Value Performance Indicator 63 entitled 'Average Standards Assessment Procedure (SAP) rating for all HRA (local authority) dwellings' using SAP 2001 methodology. Their returns are shown as follows.

	SAP
2002-03	50.1
2003-04	Not known
2004-05	58.16
2005-06	59
2006-07	61

The Government have not taken any decisions about work following on from the Decent Homes programme. On December 12 the then Housing Minister my right hon. Friend the Member for Pontefract and Castleford announced a review of the financing of council housing. The purpose of the review of the Housing Revenue Account Subsidy System is to ensure that we have a sustainable, long term system for financing council housing. One of the work streams of the review is considering the issue of costs and standards for council housing. This work will help to inform any decision about a capital investment programme that will follow the decent homes programme.

Equality and Human Rights Commission: Public Appointments

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government if she will appoint a commissioner to the Equality and Human Rights Commission with responsibilities for the non-religious element of the religion or belief equality strand covering beliefs such as humanism. [195654]

Barbara Follett: I have been asked to reply.

The Equality and Human Rights Commission (EHRC) Board currently consists of 16 Commissioners (including three Transition' Commissioners) with a range of different perspectives and expertise in the field of equality and human rights.

All Commissioners are appointed on the basis of their experience or knowledge of discrimination and human rights and collectively represent the wide range of views present in our society.

There are currently no plans to appoint any further Commissioners to the Board.

Fire Services

John McDonnell: To ask the Secretary of State for Communities and Local Government how many incidents on or near water were attended by the Fire Service in each year since 1994; and how many people were rescued by the Fire Service on or near water in each year. [197957]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Dismore: To ask the Secretary of State for Communities and Local Government how many lift rescues were carried out by the fire and rescue service in each of the last 10 years for which figures are available. [198057]

Mr. Dhanda: The number of lift release incidents attended by fire and rescue services in England is set out as follows:

	Number of incidents
1994-95	23,005
1995-96	24,446
1996-97	23,070
1997-98	24,013
1998-99	23,689
1999-2000	24,124
2000-02	24,477
2001-02	25,709
2002-03	25,326
2003-04	26,001
2004-05	24,105
2005-06	24,473

Source:
Annual returns to CLG

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many *(a)* chemical and *(b)* fuel (i) spills and (ii) suspected spills the fire and rescue service in each fire authority area attended in each year since 1994. [198064]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Kate Hoey: To ask the Secretary of State for Communities and Local Government how many special service incidents were attended by the fire service in each fire authority area in each year since 1994. [198360]

Mr. Dhanda: Available information, for the period 1995 to 2006, has been placed in the Library

Fire Services: Buildings

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 February 2008, *Official Report*, column 1220W, on fire services: buildings, what method of calculation was used to determine the size of regional control centres. [198803]

Mr. Dhanda: I refer the hon. Member to the answers given on 25 February 2008, *Official Report*, column 1220W, 6 March 2008, *Official Report*, column 2776W and 7 March 2008, *Official Report*, column 2887W. All of these factors combine to determine the size of the Regional Control Centres.

Fire Services: Exhaust Emissions

Mr. Ruffley: To ask the Secretary of State for Communities and Local Government how many fire authorities have converted their fleets, in whole or in part, to run on *(a)* compressed natural gas, *(b)* liquid petroleum gas and *(c)* electricity. [198511]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Fires: Death

Kate Hoey: To ask the Secretary of State for Communities and Local Government how many deaths in accidental dwelling fires there were in each fire and rescue service area in each year since 1997. [198357]

Mr. Dhanda: The following table shows the number of fatal casualties from accidental dwelling fires, for each Fire and Rescue Service in England, in each year since 1997. Please note that the figures for 2006 are provisional and subject to change.

Table 1: Fatal casualties in accidental dwelling[1, 2] fires, by fire and rescue service, 1997-2006

[1] Including late call and heat and smoke damage incidents (except 1994)
[2] Excluding incidents not recorded during periods of industrial action in 2002 and 2003

Floods: Fire Services

John McDonnell: To ask the Secretary of State for Communities and Local Government how many incidents involving flooding the Fire and Rescue Service attended in each year since 2000; and how many people were rescued from flooding by the service in each year. [197955]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Government Office for London: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government which Government funding streams have been distributed through the Government Office for London since 1997; and how much has been distributed through each such stream in each year since 1997. [196287]

Mr. Dhanda: I refer the hon. Member to the answer given by my hon. Friend the Member for Basildon (Angela E. Smith) to the hon. Member for Hazel Grove (Andrew Stunell) on 27 June 2006, *Official Report*, column 296W.

I have placed in the Library a full breakdown of expenditure figures for 2005-06 and 2006-07 along with allocation details for 2007-08.

Home Information Packs: Standards

Angela Browning: To ask the Secretary of State for Communities and Local Government when standard

assessment procedures for home information pack accreditation schemes will be operational in England. [193039]

Caroline Flint *[holding answer 10 March 2008]:* Energy assessments for dwellings on construction are based on a single common methodology called the "Standard Assessment Procedure". Energy performance certificates for newly built homes are produced using this procedure, and will be required from 6 April under the regulations implementing the Energy Performance of Buildings Directive.

Homelessness: Leicestershire

Mr. Andy Reed: To ask the Secretary of State for Communities and Local Government how many people in *(a)* Charnwood and *(b)* Loughborough were (i) homeless, (ii) rough sleeping and (iii) in temporary accommodation in each of the last 10 years. [198085]

Mr. Iain Wright: Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level. This information includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

A table summarising homelessness figures for each local authority for the past 10 years, including the total number of households accepted as owed the main homelessness duty, the total number of households in temporary accommodation and the mid-year estimates of the number of rough sleepers, is available in the Library of the House.

The local authority of Charnwood includes the city of Loughborough. An extract from the table is provided as follows and provides data for Charnwood for the past 10 years.

Table A: Number of households accepted[1] as owed a main homelessness duty during the year, 1997-98 to 2006-07.

	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Charnwood	97	148	126	144	174	318	255	187	174	166

[1] Households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category, and consequently owed a main homelessness duty.

Table B: Number of households in temporary accommodation[1], March 1998 to March 2007

	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Charnwood	15	14	16	30	37	55	66	63	79	87

[1] Households who have been accepted as owed the main homelessness duty, those for which inquiries into whether they are owed the duty are pending, and those who were found to be intentionally homeless but are being accommodated for a reasonable period by the LA. It excludes households designated as 'homeless at home', that have remained in their existing accommodation and have the same rights to suitable accommodation as those in temporary accommodation arranged by the authority.

Table C: Number of rough sleepers (persons), 1998 to 2007, mid-year estimates[1]

	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Charnwood	0	0	6	6	0	0	0	0	0	0

[1] Estimates based on a combination of recent street counts in those areas where there is a known or suspected rough sleeping problem and of estimates made by local authorities, as reported on their HSSA returns to CLG in June of each year.

Data are published in our quarterly statistical release on Statutory Homelessness, which includes a supplementary table showing the breakdown of key data, including temporary accommodation for each local authority. The supplementary tables are published on our website and placed in the Library each quarter. The latest release was published on 10 March 2008 and contains data for the period October to December 2007 at:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/homelessnessstatistics/publicationshomelessness/

Since 1998, information has also been collected on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also published on our website, nationally and by local authority at:

http://www.communities.gov.uk/housing/homelessness/publicationsabouthomelessness/roughsleepingstatistics/

Housing: Local Government Finance

Mr. Jeremy Browne: To ask the Secretary of State for Communities and Local Government what value of subsidy was paid to each local authority from the Housing Revenue Account in the last year for which figures are available. [192793]

John Healey: A table showing housing revenue account subsidy entitlement for each local housing authority in 2006-07 has been deposited in the Library of the House.

Housing revenue account (HRA) subsidy is a deficit subsidy paid to those local housing authorities where their assumed need to spend on their housing stock is greater than their assumed income to enable them to run their local authority housing. Where assumed income is greater than assumed need to spend, for 2006-07, this was recycled inside the HRA subsidy regime to help pay for the national HRA subsidy bill.

Housing: Low Incomes

Lembit Öpik: To ask the Secretary of State for Communities and Local Government how many planning appeals for affordable housing schemes were determined in each of the last three years; in how many of these cases the lead developer was a registered social landlord; and how many appeals were *(a)* allowed and *(b)* dismissed. [198145]

Mr. Iain Wright: The following table shows the number of planning appeals determined in 2005, 2006 and 2007 in England that involved an element of affordable housing and how many appeals were *(a)* allowed and *(b)* dismissed. It is not possible to identify in how many of these cases the lead developer was a registered social landlord.

	Number of appeals determined	*(a) Number allowed*	*(b) Number dismissed*
2005	60	15	45
2006	97	37	60
2007	93	38	55

Local Authorities: Non-Profit Making Associations

Margaret Moran: To ask the Secretary of State for Communities and Local Government what guidance her Department has given to local authorities on their procurement of service delivery from social enterprises; what assessment she has made of local authorities' procurement practices; and if she will make a statement. [198800]

Mr. Dhanda: The "National Procurement Strategy for Local Government" (published by the then ODPM and Local Government Association in 2003) made clear that local authorities should embrace a positive approach to achieving a mixed economy of services, including through engagement with social enterprises and other suppliers. The Department will publish shortly a final report on progress with the strategy which will note that there is greater awareness of what the social enterprise sector can offer, for example by highlighting social enterprise in the Small Business Friendly Concordat.

The Department believes that local authorities should recognise and embrace diversity in the ways in which services are provided, with the focus on desired outcomes and not on whether the service is delivered by the public, private or third sectors. To this end, the Secretary of State announced at the Voice 08 Conference in Liverpool that Communities and Local Government is to set up a new Social Enterprise Unit whose remit will include working with social enterprises and local authorities on the provision of services.

Local Authorities: Pay

Ms Keeble: To ask the Secretary of State for Communities and Local Government what guidance her Department provides to local authorities on senior staff salary levels. [198656]

John Healey: Local authorities are responsible for pay and grading decisions, including those for senior officials.

The Joint Negotiating Committees for chief executives and chief officers produce guidance on national salary framework and conditions of service for local authority chief executives and chief officers. Details of how to obtain the relevant handbooks can be found on the Local Government Employers website.

Ms Keeble: To ask the Secretary of State for Communities and Local Government how many local authority chief executives received annual pay packages of *(a)* £100,000 to £109,999, *(b)* £110,000 to £119,999, *(c)* £120,000 to £129,999, *(d)* £130,000 to £139,999, (e) £140,000 to £149,999 and *(f)* £150,000 and over in the last year for which figures are available. [198657]

John Healey: Central Government do not collect this information. However, the Local Government Employers conducts an annual survey on chief executive and chief officer salaries and workforce numbers. The results of this survey are available on their website at:

http://www.lge.gov.uk/lge/core/page.do?pageId=119009

Local Government and Regeneration Division

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 6 March 2008, *Official Report*, column 2775W, on divisions, what *(a)* working groups and *(b)* committees there are within her Department's Local Government and Regeneration division. [194839]

Mr. Dhanda: The formal governance of the Department is set out in the departmental annual report which is available in the Library of the House and on the Department's website at:

http://www.communities.gov.uk/publications/corporate/annualreport07

The Local Government and Regeneration Group monitors progress and performance through three programme boards: the Local Government Reform Programme Board; the Sub-National Review Implementation and Regeneration Programme Board; and the Community Empowerment Programme Board. The group also co-ordinates a number of smaller boards, working groups and committees which look at specific areas of policy.

Local Government Finance: Housing

John Hemming: To ask the Secretary of State for Communities and Local Government what the housing revenue account subsidy entitlement for each local authority with housing was for *(a)* 2006-07 and *(b)* 2007-08 in (i) percentage and (ii) cash terms; and for local authorities with negative subsidy what that negative subsidy was per property in each such year. [187327]

John Healey: A table showing the Housing Revenue Account (HRA) subsidy entitlement, both positive and negative, for each English local housing authority for 2006-2007 has been deposited in the Library of the House. No audited data is available for 2007-2008. Where HRA subsidy entitlement is positive, the table shows the percentage share each local housing authority got of the total positive HRA subsidy. Where HRA subsidy is negative, the table shows what the negative HRA subsidy is per dwelling.

Maps: Energy

Miss McIntosh: To ask the Secretary of State for Communities and Local Government if she will make a statement on the operation of the Ordnance Survey's Mapping for Energy service; and what funding has been allocated to it. [197410]

Mr. Dhanda: Ordnance Survey has operated a Mapping for Emergencies Service since 1988 following the Lockerbie Bomb disaster. The service provides a 24 x 7 help-line through which designated authorities dealing with responses to a wide range of civil contingencies can request mapping and geographical information to support early response. The information is delivered free of charge to the requester either directly, or through members of Ordnance Survey's High Street network of specialist Mapping and Data Centres and Licensed Partner community. The information may be in digital or hard copy form. Some pre-processing, analysis or combination with other data may be undertaken to provide the Emergency Responders with information best suited to the needs of the situation they face.

Recent examples of service provision include mapping to support management of exclusion zones for animal disease control, police operations in connection with the Ipswich murder cases, civil contingency operations connected with the beaching of the container vessel MSC Napoli, and in response to the summer flooding in the south-west midlands.

From 1999, the costs of the service were funded through the National Interest Mapping Services Agreement (NIMSA). Since NIMSA ended in December 2006, Ordnance Survey has received no direct funding for the service, which has been supported from its general trading revenue.

Ordnance Survey: Cost Effectiveness

Mr. Prisk: To ask the Secretary of State for Communities and Local Government (1) what account was taken of the cost-benefit analysis commissioned from Cambridge University on trading funds when formulating Ordnance Survey's new public sector task; [197764]

(2) what account was taken of *(a)* advice and *(b)* guidance from (i) the Office of Public Sector Information and (ii) the Advisory Panel on Public Sector Information in formulating Ordnance Survey's new public sector task; [197803]

(3) what Government agencies and offices were consulted on the formulation of Ordnance Survey's public sector task. [197804]

Mr. Iain Wright: In April 2007, Ministers asked Ordnance Survey and the Shareholder Executive to work together to prepare a more precise articulation of Ordnance Survey's Public Task as set out in the Ordnance Survey Framework Document 2004. This work was undertaken between April and June 2007.

Ministers approved the revised Public Task document in July 2007 before the Cambridge University study was commissioned. The Shareholder Executive conducted discussions with senior officials in Ordnance Survey and the Department for Communities and Local Government before submitting the Public Task document to Ministers. Neither the Office of Public Sector Information nor the Advisory Panel on Public Sector Information were consulted.

Planning Inspectorate: Appeals

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how long the Planning Inspectorate takes to *(a)* register and *(b)* process a planning appeal; and if she will make a statement. [197477]

Mr. Iain Wright: The Planning Inspectorate receives about 2,000 appeals a month and aims to register these within three working days. As at 28 March 2008, some 1,530 new planning appeals had not been registered, the oldest of which were received on 29 February. The inspectorate is working hard to retrieve the situation and has introduced measures to allow it to direct more resources into eliminating the backlog. These have seen the number of appeals waiting to be registered fall from over 2000 in December 2007 to the present figure.

Target handling times set by Ministers vary according to the nature and complexity of the planning appeal and the method used to process it. For example, in February, the average time taken following registration to decide appeals proceeding by the written representations method was 18 weeks. For appeals proceeding by hearing or inquiry method, it was 39 weeks. Further details of performance in relation to planning appeals can be found on the inspectorate website:

http://www.planning-inspectorate.gov.uk/pins/appeals/planning_appeals/Planning_appeal_handling_times.htm

Planning Permission: Compensation

Lembit Öpik: To ask the Secretary of State for Communities and Local Government how much was awarded in compensation to planning applications that were rejected but subsequently allowed on appeal in each of the last three years; and how much of this amount was paid to registered social landlords. [198146]

Mr. Iain Wright: Compensation is not payable for winning an appeal against refusal of planning permission. Parties can apply for an award of costs in planning appeals and applications are determined in accordance with longstanding Government guidance

contained in DOE Circular 8/93. Awards are made only where one party is found to have acted unreasonably and as a result caused another to incur quantifiable unnecessary or wasted expense.

The actual amount to be paid is not determined by a costs award. That is for the parties to settle by negotiation initially. Accordingly, no records are available of costs paid following awards on appeal in each of the last three years, whether or not involving social landlords.

The following table shows by financial year, the number of local planning authorities being liable to pay costs following awards made against them by Inspectors and the Secretary of State:

Financial year	Number of local planning authorities liable	Approximate percentage of applications against authorities
2004-05	338	34
2005-06	304	39
2006-07	362	38

Planning Permission: Floods

Miss McIntosh: To ask the Secretary of State for Communities and Local Government (1) how many times she has called in a planning authority's decision to proceed with a development in a case where the Environment Agency objected to the development because of flood risk since April 2007; [197755]

(2) for what reasons she permitted developments to proceed in each of the cases referred to in the Environment Agency's Annual Report 2006-07 where the Agency objected to the developments on grounds of flood risk; [197757]

(3) for those cases where a development took place against an Environment Agency objection on grounds of flood risk between April 2006 and March 2007 if she will publish *(a)* the Environment Agency objection and *(b)* the final decision of the planning authority; and what further steps may be taken in such cases to encourage the planning authority to take greater account of the Agency's objection. [197756]

Mr. Iain Wright: The Secretary of State has called in four planning applications under the Town and Country Planning (Flooding) (England) Direction 2007, ("the Direction"). This requires local planning authorities to send details of all applications for major development they are minded to approve where the Environment Agency has an objection, to the Secretary of State to consider whether or not they should be called-in for decision. Since 2007, the Secretary of State has called-in a further four planning applications, not under the Direction, where flooding was a main issue.

The 13 cases referred to in the Environment Agency's HLT5 Report 2006-07, were granted planning permission by the respective local planning authorities before the Direction came into force. The Environment Agency's objections to those applications are tabled as follows.

The Direction requires that where a local planning authority wants to grant planning permission for a major development to which the Environment Agency objects, the authority and the Agency must discuss and agree a course of action which would allow the Agency's objection to be withdrawn. Such discussions are proving fruitful in resolving flood risk issues, and have allowed most of the planning applications referred to the Secretary of State, to be returned to the local planning authorities for decision.

Details of the high level target 5 (HLT5) 2006-07—13 major development proposals granted planning permission contrary to Environment Agency concerns

Local planning authority	Nature of development	Flood zone	Reason for Environment Agency objection
North Lincolnshire Council	Barton upon Humber. Proposed tipping of cement kiln dust and inert factory waste above existing approved levels.	3	The proposal involved significant land raising within the floodplain. Environment Agency objected as no Flood Risk Assessment (FRA) had been submitted, and was concerned about possible increased flood risk to third parties. Extensive consultation with the LPA, but LPA knowingly overruled Environment Agency advice on the grounds that the proposal would have other environmental improvements.
West Lindsey District Council	Gainsborough. Erection of 38 residential units.	3	The Environment Agency objected to the application on grounds that the site is within Flood Zone 3 "high risk" and no Flood Risk Assessment had been submitted with the application. A FRA was subsequently submitted; however the Environment Agency maintained its earlier objection on the grounds that the FRA had not considered the flood risk posed by a breach in the banks of the nearby River Trent. However, the Environment Agency did not object to the allocation of the site in the (now adopted) Local Plan, and the site benefits from an extant planning permission. The LPA considered it unreasonable to refuse the application, given the earlier approval and the Local Plan status.
East Lindsey District Council	Mablethorpe. Proposed development of 10 single storey dwellings (bungalows).	3	The Environment Agency objected on the basis that the site is located within Flood Zone 3 "high risk", and the LPA's own adopted catchment-wide flood risk assessment showed the site could flood to depths between 1-1.5 m in the event of a breach in the raised sea defences. The Environment Agency therefore considered the site inappropriate for single storey development. Site already has an extant planning permission for a similar proposal before the LPA's own flood risk assessment had been prepared. Despite the flood risk, the LPA considered it unreasonable to refuse the new application, given the earlier approval.

Details of the high level target 5 (HLT5) 2006-07: 13 major development proposals granted planning permission contrary to Environment Agency concerns

Local planning authority	*Nature of development*	*Flood zone*	*Reason for Environment Agency objection*
East Lindsey District Council	Chapel St. Leonards. Erection of 18 dwellings, estate roads and vehicular/pedestrian access.	3	The Environment Agency objected on that basis that the site is located within Flood Zone 3 'high risk', and the LPA's own adopted catchment-wide flood risk assessment showed that the site could flood to depths greater than 2 m in the event of a breach in the raised sea defences. The assessment identifies the site as being within the 'critical velocity zone'—the highest subdivision of risk as set out in the assessment. Given the predicted speed/depths of floodwater and the risk to life and property, the Environment Agency advised the LPA that residential development was generally not suitable in this area and objected. However, the site had an extant planning permission dating back to 1994, prior to the consideration of flood risk, and the LPA granted planning permission on the basis that this application represented a betterment in flood risk terms compared with that 1994 permission.
East Lindsey District Council	Chapel St. Leonards. Change of use of agricultural land to 71 pitch touring caravan site.	3	The Environment Agency objected on the basis that the site is located within Flood Zone 3 'high risk', and the LPA's own adopted catchment-wide flood risk assessment showed that the site could flood to depths of between 1 and 2 m in the event of a breach in the raised sea defences. The assessment identifies the site as being within the 'Rapid Inundation Zone'—where flood waters are greater than 0.5 m and/or have a velocity of greater than 1 m/second. Given the predicted speed/depths of floodwater and the risk to life and property, the Environment Agency advised the LPA that it could not support an application for a new caravan site in such flood depth zones, and objected. The LPA accepted the dangers, but overruled the objection on the grounds of overriding tourism and economic benefits.
Plymouth City Council	Plymouth. Temporary permission for the provision of motor cycle speedway track and ancillary accommodation and facilities.	3	The Environment Agency objected as the site lies within Flood Zone 3 'High Risk', and yet no Flood Risk Assessment was submitted with the planning application as required by Government guidance PPG25. The LPA approved the application without re-consulting the Environment Agency, as a proposal on the same site had been upheld at appeal in 1998, when an Inspector found that 'no demonstrable harm' would result from that development, although in that case the site was to have been raised (hence appropriately defended). This appeal decision predates Government policy on development and flood risk, and the need for FRAs. A permanent permission application has subsequently been submitted and approved. A FRA was submitted with this application allowing the Environment Agency to remove its objection.
Mid Suffolk District Council	Stowmarket. Construction of a new access road incorporating new junction arrangements and bridge with ancillary works.	3	The Environment Agency objected as development might lead to a loss of flood storage capacity, and the Flood Risk Assessment submitted was unsatisfactory as it was for a different site to the actual proposal. From the information submitted it was not clear whether the bridge proposal would impede flood flows by encroaching into FZ3. Although the Environment Agency responded late to this consultation, our response was in time to influence the decision. Delegated decision, so our concerns were not reported to committee.
Doncaster Metropolitan Borough Council	Doncaster. Factory/warehouse extension.	2/3	The application site fell partly within flood zones 2 and 3. Although the LPA received a Flood Risk Assessment from the developers to accompany the planning application, the Environment Agency never received this. The Environment Agency therefore objected on the grounds that no FRA had been prepared to accompany the application, in accordance with PPG25. Our objection was not reported upon in processing the planning application. As a result, the fact that the FRA had never been received was not picked up, and the Environment Agency's objection was never recorded.
Sandwell Metropolitan Borough Council	West Bromwich. Two new distribution/industrial units with associated service yards and car parking.	1	The objection relates only to surface water run off risk, not development in a high risk flood zone. Due to the size of this application (> 2 Ha), the Environment Agency objected on the ground that no Flood Risk Assessment had been submitted, and the surface water runoff could increase the flood risk to others. The LPA consulted the Environment Agency late, and our response was never reported to committee as the application was determined before it was received. A condition was attached to the planning permission requiring a FRA to be carried out retrospectively before the development commences.
Stafford Borough Council	Stafford. Development of an automotive complex.	1	The objection relates only to surface water run off risk, not development in a high risk flood zone. The application site lay within a longstanding employment site under development at the time of the application. Due to the size of this application (> 4 Ha), the Environment Agency objected on the ground that no Flood Risk Assessment had been submitted, as required under PPG25, and the surface water runoff could increase the flood risk to others. Environment Agency concerns were reported to committee, and the committee report acknowledges that the application should be decided in accordance with latest Government policy on flood risk and development. The committee however approved the application.

Details of the high level target 5 (HLT5) 2006-07: 13 major development proposals granted planning permission contrary to Environment Agency concerns

Local planning authority	Nature of development	Flood zone	Reason for Environment Agency objection
London Borough of Barnet	Barnet. Outline application for 23 houses and 78 flats.	1	The objection relates only to surface water run off, not development in a high risk flood zone. The Environment Agency objected on the ground that due to its size, the application might present a significant flood risk to others from the generation of surface water run-off, and therefore required a Flood Risk Assessment, as per Government guidance. The LPA approved the proposal without requesting a FRA from the developer, or re-consulting the Environment Agency. The LPA included a condition on the planning permission requiring the developer to retrospectively carry out a FRA before development commences.
Swindon Borough Council	Swindon. Redevelopment of former railway works for hotel, offices, retail, 211 apartments and ancillary uses.	1	Although this site lies within flood zone 1, due to the size of the site (3.4 Ha) and the nature of the development proposal, the Environment Agency was concerned that the application might present a significant flood risk to others from the generation of surface water run-off. The applicant was required therefore to provide a Flood Risk Assessment to accompany the application, as per Government guidance. Initially the Environment Agency requested further information about whether a FRA had been carried out, and requested an extension to the consultation period. There is no record of any extension being agreed, and the Environment Agency finally submitted a late response (June 2006) objecting to the proposal on the ground that no FRA had been submitted. The LPA did not approve the proposal until February 2007. Environment Agency concerns were not reported to committee.
West Berkshire District Council	Hungerford. Erection of 36 residential units with associated car parking.	1	An Outline Planning Permission was granted in 2005 for 16 dwellings, which the Environment Agency provided comments on in 2002. As the site lies within Flood Zone 1 the Environment Agency requested a surface water condition, which was applied to the extant permission. A subsequent planning application was submitted for 36 residential units in 2006. Although the applicant provided a Flood Risk Assessment in accordance with Government guidance, the Environment Agency objected as it was not satisfied with the surface water drainage strategy submitted as part of the FRA. The development could present a flood risk to others by generating surface water run-off. The Environment Agency's objection was reported to the Planning Committee in August 2006. The objection was not resolved before planning permission was granted. The Council applied a condition requiring full details of the surface water drainage system to be submitted before development commenced on the site. Despite ongoing negotiations the proposed surface water drainage system still does not meet Environment Agency requirements.

Rackspace

Mr. Hands: To ask the Secretary of State for Communities and Local Government what the value was of each contract awarded to Rackspace by *(a)* her Department and its predecessors and *(b)* its agencies in each of the last nine years. [197511]

Mr. Dhanda: No contracts have been awarded to Rackspace by the Department or its predecessor, the Office of the Deputy Prime Minister, which was formed in May 2002.

No contracts have been awarded to Rackspace by the Department's agencies.

Railways: Accidents

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many *(a)* railway and *(b)* aircraft accidents were attended by fire and rescue services in each fire authority area in each of the last 10 years for which figures are available. [198062]

Mr. Dhanda: The requested information has been deposited in the Library of the House.

Regional Government: Ministers

Mr. Hoban: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Taunton of 10 March 2008, *Official Report*, column 65W, on regional government: Ministers, what the *(a)* date and *(b)* purpose was of each visit listed. [197526]

Mr. Dhanda: I refer the hon. Member to the answer I gave to the right hon. Member for Maidenhead (Mrs. May) on 11 March 2008, *Official Report*, column 236W. Providing further details of meetings would incur disproportionate costs.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what criteria each regional Minister uses to decide whether to visit areas in their region. [196647]

Mr. Dhanda: In addition to the normal criteria applied to ministerial invitations, Regional Ministers also consider how each invitation relates to their role as outlined in the "Governance of Britain Green Paper" to be a visible presence in, and provide a clear strategic direction for, the region by:

representing their region's interests in the formulation of central Government policy relevant to economic growth and sustainable development in areas that have not been devolved to the RDAs;

facilitating a joined up approach across government to enable the effective delivery of the single regional strategy; and

championing the region via high profile projects and high level events.

Regional Planning and Development

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the process is for *(a)* the Secretary of State and *(b)* the relevant Government office for the region to approve each local development framework. [194262]

Mr. Iain Wright: The provisions for approving each development plan document in the framework are set out in the Planning and Compulsory Purchase Act (2004) and the accompanying Town and Country Planning (Local Development) (England) Regulations (2004). Each local authority is required to submit to the Secretary of State the development plan document they propose to adopt, which is then subject to an independent examination by a Planning Inspector, appointed by the Secretary of State. There will be a hearing into the 'soundness' of the plan, where any person who has requested to be heard may appear before the Inspector. The Inspector must consider all representations received on the plan, and will then issue a report, the recommendations of which are binding on the local authority. If the Inspector recommends the plan is sound, it must then be adopted by the local authority.

Roads: Accidents

John McDonnell: To ask the Secretary of State for Communities and Local Government how many road accidents the Fire and Rescue Service attended in each fire authority area in each year since 1994; and how many people were rescued by the Fire Service from their vehicles in each year. [197958]

Mr. Dhanda: Available information, for the period 1995 to 2006, has been deposited in the Library of the House.

This information includes the number of incidents where people were extricated from vehicles. Information on the number of people rescued from these incidences is not held centrally.

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many road accidents involving the rescue of a person or persons were carried out in each fire authority area in each of the last 10 years for which figures are available. [198063]

Mr. Dhanda: The requested information has been deposited in the Library of the House.

Slavery: Anniversaries

Harry Cohen: To ask the Secretary of State for Communities and Local Government with reference to the answer of 7 November 2006, *Official Report*, column 1007W, to the hon. Member for Liverpool, Riverside, on the slave trade, what funding was allocated to *(a)* local authorities and *(b)* local communities or organisations to provide for the commemoration of the abolition of the Slave Trade Act; and if she will make a statement. [198114]

Mr. Dhanda: Throughout 2007 the Government worked closely with stakeholders from local authorities, the media, faith groups and the voluntary and community sectors to galvanise activity to mark the 2007 Bicentenary of the Abolition of the Slave Trade Act. The Government's approach was not to direct, organise or control commemorations, but to encourage and empower grassroots organisations, local authorities, faith groups and national organisations to mark the bicentenary in a way that was appropriate to their communities.

Heritage Lottery Fund provided funding to support heritage and commemorative projects. In total Heritage Lottery Fund awarded over £15 million to more than 180 projects across the country related to the bicentenary and the slave trade. The funding was provided to a range of organisations including local authorities, community organisations, voluntary groups and cultural bodies. Many of the awards were to Black Voluntary and Community Sector groups. Information on the precise breakdown of the Heritage Lottery funding awarded to local authorities and community organisations is not held centrally and could be provided only at disproportionate cost.

The Department for Communities and Local Government also provided funding to support bicentenary-related projects under its Connecting Communities Plus Grants Programme. This funding was exclusively for community organisations—overall 41 organisations received a total of £364,825.92 for bicentenary-related projects.

The Government want to ensure that we continue to mark this important part of our history, therefore their announced on 13 December 2007 that they will, in future, adopt the 23 August—the UNESCO day for the International Remembrance of the Slave Trade and its Abolition—as the focal date for national commemorations. Community groups will be able to apply to the Heritage Lottery Fund for support for heritage projects linked to commemoration and will also be able to apply to the Big Lottery Fund and Arts Council England.

Supporting People Programme: Essex

Bob Spink: To ask the Secretary of State for Communities and Local Government how much has been paid to local authorities in Essex under her Department's Supporting People budget; and what proportion of this was spent on people with learning disabilities in each of the last four years. [197639]

Mr. Iain Wright: The Supporting People programme is administered at the local level by the relevant administering authority. It is for the authority to decide which services to fund, informed by the local needs and priorities identified in their five year Supporting People Strategies. The following table sets out the amount allocated to Essex county council and the proportion of each year's allocation that funded Supporting People services for people with a learning disability (as reported to the Department by the authority). It will not identify all funding spent on people with a learning disability who access Supporting People services: some

may have a different service classification (for example, people with a learning disability may access support from Supporting People services that help them move on from domestic violence or homelessness).

	Essex county council total supporting people allocation (£)	*Proportion of each year's allocation reported as spent on services for people with a learning disability (Percentage)*
2004-05	31,742,850	31.0
2005-06	30,144,101	32.9
2006-07	29,622,839	26.6

Information for 2007-08 is not yet available.

Supporting People Programme: Gloucestershire

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much has been paid to local authorities in Gloucestershire under her Department's Supporting People budget for each of the last three years. [198070]

Mr. Iain Wright: Supporting People funding is paid to upper-tier local authorities. In the county of Gloucestershire, this includes Gloucestershire county council and South Gloucestershire council. Authorities receive two separate funding streams related to Supporting People—the Supporting People Programme Grant and the Supporting People Administration Grant, which is paid towards an authority's costs in administering the programme. Details of the relevant allocations for the last three years are set out in the following tables.

Gloucestershire county council

£

	Supporting People—Programme Grant allocation	*Supporting People—Administration Grant allocation*
2005-06	25,769,741	353,014
2006-07	25,135,925	353,014
2007-08	24,633,207	353,014

South Gloucestershire council

£

	Supporting People—Programme Grant allocation	*Supporting People—Administration Grant allocation*
2005-06	4,764,505	150,177
2006-07	4,682,116	150,177
2007-08	4,674,886	150,177

Supporting People Programme: Leicestershire

Mr. Andy Reed: To ask the Secretary of State for Communities and Local Government how much funding her Department has allocated to Leicestershire County Council for the Supporting People programme in each of the last three financial years. [198084]

Mr. Iain Wright: Authorities receive two separate funding streams related to Supporting People—the Supporting People Programme Grant and the Supporting People Administration Grant, which is paid towards an authority's costs in administering the programme. Details of the allocations for the last three years are set out in the following table:

Leicestershire county council

£

	Supporting People Programme Grant allocation	*Supporting People Administration Grant allocation*
2005-06	6,807,853	351,726
2006-07	6,690,129	351,726
2007-08	7,012,300	351,726

Tenants' and Residents' Association of England: Conferences

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what funding her Department provided for the Tenants' and Residents' Association of England's conference in Liverpool on Saturday 15 March. [198086]

Mr. Iain Wright: TAROE received a grant of £25,000 from the Department's Tenant Empowerment programme for their second annual conference which was held in Liverpool on 15 March 2008.

Travelling People: Shipton-on-Stour

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what *(a)* representations her Department has received from and *(b)* discussions her Department has had with Stratford-on-Avon district council on the unauthorised development of a Traveller camp at Darlingscott, near Shipton-on-Stour in the last 12 months; and if she will make a statement. [198670]

Mr. Iain Wright: I cannot comment on the merits of any planning application or enforcement action that might be taken by the local authority given the quasi-judicial role of the Secretary of State. No formal representations have been received by the Department on the camp at Darlingscott. Officials from Stratford-on-Avon district council have provided a brief update to officials in my Department on the action the council has taken, but it is for local authorities to decide whether to enforce against breaches of development control.

Waste Management: Gloucestershire

Mr. Drew: To ask the Secretary of State for Communities and Local Government what discussions Gloucestershire County Council has had with her Department on its proposals for Javelin Park, off Junction 12 of the M5, to situate a major waste facility there. [198071]

Mr. Iain Wright: Gloucestershire county council has recently resolved to acquire land at Javelin park. The council is preparing its waste core strategy and officials

at Government office for the south west have discussed the strategy with council officers. However, these discussions did not specifically cover any proposals for Javelin park.

Wind Power: Planning Permission

John Mann: To ask the Secretary of State for Communities and Local Government which local authorities have made objections to new or expanded wind farms during the formal planning process in the last 12 months. [197470]

Mr. Iain Wright: Records for objections made by local authorities on applications made under the Town and Country Planning Act 1990 and determined by local planning authorities are not held centrally. No authorities in England have objected to applications which have been called-in or recovered by the Secretary of State. The Planning Inspectorate do not hold this information in the form requested in relation to appeals.

In respect of applications in England made under s36 of the Electricity Act 1989, the following authorities have objected to applications:

Tynedale district council objected to the Steadings wind farm on 23 May 2007 (and again on 17 October 2007 following revisions to the proposal).

Tynedale district council objected to the Ray wind farm on 21 March 2007.

Norfolk county council objected to the proposed Lincolnshire Offshore Wind Farm on 28 March 2007.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health what research has been *(a)* commissioned and *(b)* evaluated by his Department on the reasons for repeat abortions; and if he will make a statement. [197810]

Dawn Primarolo: No specific research has been commissioned or evaluated on the reasons for repeat abortions to date. The Department recently announced £26.8 million funding for 2008-09 to improve access to contraception, and some of this funding will be used to improve care pathways between abortion and contraceptive services to reduce repeat abortions.

Mr. Amess: To ask the Secretary of State for Health how many abortions have been performed in each licensed abortion clinic since each was licensed. [197868]

Dawn Primarolo: Data on the place of termination has been withheld in order to protect individuals' confidentiality. This is in line with the Office for National Statistics' guidance on the disclosure of abortion statistics, 2005.

Sandra Gidley: To ask the Secretary of State for Health what the abortion rates were among people aged under *(a)* 18 and *(b)* 16 years in each of the last five years, broken down by region. [198215]

Dawn Primarolo: The data are shown in the following tables.

Abortion rates[1] for women age under 16 and under 18 by region of residence, 2002-06

	2002		2003		2004	
	Rate per 1,000 women		Rate per 1,000 women		Rate per 1,000 women	
Region (strategic health authority (SHA) 2002-2005	Under 16	Under 18	Under 16	Under 18	Under 16	Under 18
East	3	15	3	15	3	14
East Midlands	3	15	3	16	4	17
London	5	28	6	29	5	27
North East	5	18	5	20	5	20
North West	4	17	4	18	4	18
South East	3	15	3	15	3	16
South West	3	15	3	15	3	15
West Midlands	4	18	4	19	4	18
Yorkshire and Humber	4	17	4	17	4	18
Wales	4	16	4	17	3	16
England and Wales	3.7	17.8	3.9	18.3	3.7	17.8

	2005		2006	
	Rates per 1,000 women		Rates per 1,000 women	
Region (SHA) 2006	Under 16	Under 18	Under 16	Under 18
East Midlands			3	16
East of England	3	15	3	15
London	3	16	5	24
North East	5	25	5	18
North West	4	18	4	19

Region (SHA) 2006	2005 Rates per 1,000 women Under 16	2005 Rates per 1,000 women Under 18	2006 Rates per 1,000 women Under 16	2006 Rates per 1,000 women Under 18
South Central	4	18	3	15
South East Coast	3	16	3	16
South West	3	15	3	15
West Midlands	4	19	4	20
Yorkshire and Humber	4	17	5	19
Wales	3	15	4	17
England and Wales	3.7	17.8	3.9	18.2

[1] Rates for ages under 16 and under 18 are based on populations 13-15 and 15-17 respectively.

Abortion: Gloucestershire

Mr. Drew: To ask the Secretary of State for Health how many abortions have been performed in Gloucestershire in each year since 1990. [198100]

Dawn Primarolo: Data for abortions performed in Gloucestershire are not available. Data for abortions for women resident in Gloucestershire are shown in the following tables.

Abortions to residents of Gloucestershire[1], 1990 to 2006

District health authorities (DHA) 1990 to 1991, Gloucester DHA

	Total
1990	823
1991	850

District health authorities (DHA) 1992 to 1998, Gloucestershire DHA

	Total
1992	1,413
1993	1,361
1994	1,326
1995	1,367
1996	1,497
1997	1,412
1998	1,505

Health Authority (HA) 1999 to 2001, Gloucestershire HA

	Total
1999	1,435
2000	1,372
2001	1,452

Primary care trust (PCT) 2002 to 2005

	Cheltenham and Tewkesbury	Cotswold and Vale	Gloucestershire	Total
2002	393	374	630	1,397
2003	446	380	648	1,474
2004	457	434	676	1,567
2005	419	343	699	1,461

Primary care trust (PCT), 2006

	Gloucestershire	Total
2006	1,534	1,534

[1] Boundaries for Gloucestershire changed in 2002, 1999, 2002 and 2006 and totals cannot be compared between groups.

Source:
Department of Health.

AIDS: Finance

Mike Penning: To ask the Secretary of State for Health what estimate he has made of the cost of treating an AIDS patient *(a)* in hospital and *(b)* as an out-patient. [197141]

Dawn Primarolo: The data are not held centrally in the format requested. Costs of treating people with HIV vary depending on the severity of symptoms and level of immune suppression. Estimated annual costs of HIV treatment, including the costs of combination antiretroviral therapies range between £12,000 to £19,000 per person. Treatment is lifelong. Total national health service expenditure on HIV treatment in 2006-07 was £497 million. This was the first year this data has been collected since HIV treatment and care budgets were placed into NHS baselines in 2002-03.

Alcoholic Drinks: Accident and Emergency Departments

James Brokenshire: To ask the Secretary of State for Health what recent assessment he has made of the demands on accident and emergency services of each NHS acute hospital trust arising from alcohol consumption; and if he will make a statement. [193438]

Dawn Primarolo: The Government recently assessed alcohol-related demands on accident and emergency (A and E) departments, as part of the evaluation of the impact of the Licensing Act 2003.

The evaluation showed that alcohol-related demands on A and E services appear to have been stable in aggregate, though some individual hospitals have seen increased demands, others a fall.

Information about alcohol-related visits to A and E services is not collected centrally.

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health if he will introduce screening of all patients in primary and secondary care for alcohol misuse. [194338]

Dawn Primarolo: Our policy is not to adopt a universal screening programme for alcohol misuse, as the evidence base indicates this would not be cost-effective. Instead, we are encouraging health care professionals and others to implement opportunistic alcohol case identification and to deliver brief advice about alcohol. This can take place at any opportunity when an individual is consulting with a health care professional or indeed any agency about a health issue, which may have a link to excessive alcohol consumption.

International research has shown that this approach works well in primary care. We believe these results would be replicated in some targeted clinics within secondary care, such as genito-urinary medicine, fracture clinics or facial injury clinics.

While there is good evidence confirming the value of this approach, there are some gaps in the research. This is why the Department has commissioned a programme of research into opportunistic alcohol case identification and delivering brief advice that is now under way in a selection of general practitioner (GP) practices, accident and emergency departments and probation departments. The purpose of this research is to define which identification tool works best in which setting, with which target groups, and what methods of providing advice are most effective.

We have put in place from April 2008, a new national health service indicator to measure the change in the rate of hospital admissions for alcohol-related harm—the first ever national commitment to monitor how the NHS is tackling alcohol health harms. This indicator is expected to encourage primary care trusts to invest in earlier identification of people who drink too much linked to advice and support from GPs or other health care staff. This has been shown to be the best way of reducing the kind of 'everyday' drinking which over time leads to liver disease and other problems.

Aortic Aneurysm

Mr. Spring: To ask the Secretary of State for Health (1) how many patients were treated for abdominal aortic aneurysms through *(a)* endovascular aneurysm repair using a stent graph and *(b)* open surgical repair in the NHS (i) in England and Wales and (ii) broken down by strategic health authority in each of the last five years; [188518]

(2) how many patients were treated for thoracic aortic aneurysms and dissections through *(a)* endovascular aneurysm repair using a stent graph and *(b)* open surgical repair in the NHS (i) in England and Wales and (ii) broken down by strategic health authority in each of the last five years. [188519]

Ann Keen: This information is not available in the format requested. Using clinical codes, it is not possible to identify endovascular aortic aneurysm repair using a stent graft. Furthermore, in order to adhere to patient confidentiality, incidences of treatment between one and five are suppressed, which is why to break these results down by strategic health authority (SHA) would be infeasible. Data on patients in Wales is not held centrally.

The following table shows the count of finished consultant episodes (FCEs) with a primary diagnosis of aortic aneurysm, broken down by abdominal and thoracic, and a main or secondary procedure of open surgical repair of aortic aneurysm from 2002-03 to 2006-07, which are the latest figures available, in national health service hospitals in England.

	Thoracic aortic aneurysms and dissections	*Abdominal aortic aneurysm*	*Aorta aneurysm that crosses both the thoracic and abdominal areas*
2006-07	408	4,516	65
2005-06	375	5,017	77
2004-05	375	4,858	65
2003-04	306	4,871	62
2002-03	300	4,718	68

Notes:

1. FCE:
A FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.

2. Data quality:
Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

3. Assessing growth through time:
HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS, there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

4. Diagnosis (primary diagnosis):
The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.

5. Ungrossed data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

6. Main operation:
The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g. time waited, but the figures for 'all operations count of episodes' give a more complete count of episodes with an operation.

7. Secondary procedure:
As well as the main operative procedure, there are up to 11 (three prior to 2002-03) secondary operation fields in HES that show secondary or additional procedures performed on the patient during the episode of care.

Source:
Hospital Episode Statistics (HES), The Information Centre for Health and Social Care.

Bone Diseases

Andrew George: To ask the Secretary of State for Health what estimate he has made of the number of new diagnoses of ankylosing spondylitis in England in each year. [198693]

Ann Keen: The National Institute for Health and Clinical Excellence have estimated that there are around 2,300 new cases of ankylosing spondylitis each year in England and Wales.

Bone Diseases: Research

Andrew George: To ask the Secretary of State for Health how much has been spent on research into treatment of ankylosing spondylitis in each year since 1997; and what percentage of his Department's budget for research and development activity this constituted in each year. [198694]

Dawn Primarolo: The information requested is not available.

Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects undertaken during that time are available on the archived national research register at:

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx

Implementation of the Department's research strategy 'Best Research for Best Health' has led to an expansion of our research programmes and in significant new funding opportunities for health research. A copy of the research strategy is available in the Library. Work relevant to musculoskeletal function will be undertaken in several of the National Institute for Health Research Biomedical Research Centres (BRC). For example, the Cambridge BRC has a musculoskeletal disorders research theme to which £2.2 million has been allocated over five years; and the Newcastle BRC has a musculoskeletal disorders research theme for which £0.3 million has been allocated over five years.

The Medical Research Council (MRC) is one of the main agencies through which the Government supports biomedical research. The MRC is an independent body funded by the Department for Innovation, Universities and Skills.

The MRC has funded and continues to fund research into understanding the pathophysiology of ankylosing spondylitis in search of possible new therapeutic approaches. MRC's spend in this area since 1997 is shown in the following table.

	£000
1997-98	26
1998-99	26
1999-2000	38
2000-01	157
2001-02	210
2002-03	234
2003-04	140
2004-05	261
2005-06	138
2006-07	166

In addition, the MRC funds a large portfolio of research on arthritis, rheumatism and mechanisms of inflammation which will have relevance to our understanding of ankylosing spondylitis and its possible treatment. Available MRC expenditure figures for research relevant to arthritis and rheumatism are shown in the following table.

	Expenditure (£ million)
1999-2000	4.8
2000-01	3.9
2001-02	4.2
2002-03	6.8
2003-04	6.8
2004-05	5.0
2005-06	5.5
2006-07	5.8

Brain Cancer: Medical Treatments

John Bercow: To ask the Secretary of State for Health if he will instruct the National Institute for Health and Clinical Excellence to investigate the comparative effectiveness of treatment for brain cancer in the UK and other EU member states. [197725]

Dawn Primarolo: We have no plans to instruct the National Institute for Health and Clinical Excellence to investigate this issue.

As the "Cancer Reform Strategy" is implemented across the national health service, the Department will track the progress of other countries on issues such as survival and mortality, awareness, early detection, access to different forms of treatment, clinical outcomes, patient experience and costs across all cancers.

Chlamydia: Screening

Anne Milton: To ask the Secretary of State for Health what proportion of screens for chlamydia undertaken in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06 and *(d)* 2006-07 were (i) offered to and (ii) accepted by (A) men and (B) women. [197822]

Dawn Primarolo: Data for the National Chlamydia Screening Programme (NCSP) records numbers of screens accepted not the numbers of screens offered. The data on proportion of screens accepted are shown in the following table:

Proportion of males and females screened for Chlamydia as part of the NCSP: 2003-07

	Proportion Male (percentage)	*Proportion Female (percentage)*	*Total[1]*
2003-04	7	93	17,391
2004-05	13	87	63,303
2005-06	18	82	112,714

Proportion of males and females screened for Chlamydia as part of the NCSP: 2003-07

	Proportion Male (percentage)	Proportion Female (percentage)	Total[1]
2006-07	21	79	162,961
Overall	18	82	356,369

[1] Total number screened excluding screens with sex marked as unknown and unspecified.

Notes:

1. The data from the NCSP are for screens outside of GUM clinics only and include screens from the Boots pathfinder project.
2. The data available from the NCSP are the number of screens undertaken and not the number of patients screened. The number of screens is assumed to be a close proxy of the number of people screened.
3. The data include those aged 13-24 years.
4. The NCSP began screening on 1 April 2003 and so data are only available from that date onwards.
5. The data is specific to the financial year 1 April-31 March: 2003-04, 2004-05, 2005-06. For 2006-07, data as of 27 February 2008.

The NSCP

Council for Healthcare Regulatory Excellence

David Taylor: To ask the Secretary of State for Health if he will make it his policy to consult patient and service user organisations on the skills, competences and experience required of future (*a*) lay and (*b*) professional members of the Council for Healthcare Regulatory Excellence. [196789]

Mr. Bradshaw: It is our intention that appointments made to the Council for Healthcare Regulatory Excellence (CHRE) by the Secretary of State will be devolved to the Appointments Commission who will work with CHRE on the precise process. We understand that CHRE intends to seek the views, as appropriate, of patient and service user organisations on the attributes for council members. They will also be able to draw on the recommendations made by Niall Dickson in his report 'Enhancing Confidence in Healthcare Professional Regulation', which we intend to publish soon. All the appointments to the new council for CHRE will be public members (it will not be possible for a health professional or ex-health professional to be appointed).

Dental Services: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Health whether the Peterborough Primary Care Trust has undertaken a needs assessment of children's orthodontics within its boundaries; and if he will make a statement. [197399]

Ann Keen: This requested information is not held centrally.

Primary care trusts (PCTs) are responsible for providing or commissioning primary dental care services, including orthodontic services, to reflect local needs. This is a local rather than centrally managed process. The Department has issued guidance to the local national health service on developing local dental commissioning plans. Additional support is available through the national primary care contracting team.

Increasing the number of patients seen within NHS dental service as a whole is now a formal priority in the NHS Operating Framework for 2008-09. The Department has supported this with a substantial 11 per cent. uplift in overall allocations to PCTs from 1 April 2008.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Health which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192225]

Mr. Bradshaw: The following table outlines cost of departmental public health awareness campaign advertising in each year since 1997.

£ million

Campaign	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07

Departmental Expenditure

Mr. Gerald Howarth: To ask the Secretary of State for Health if he will break down, by sub-head in *(a)* near cash and *(b)* non-cash terms his Department's (i) gross resource outturn, (ii) operating appropriations in aid outturn, (iii) gross capital outturn and (iv) non-operating appropriations in aid outturn for financial years 2001-02 to 2006-07. [191678]

Mr. Bradshaw: The figures for final and provisional outturns are published each year in Public Expenditure Outturn White Papers (PEOWP), which are available in the Library. The paper references are:

PEOWP	Reference
2001-02	CM5574
2002-03	CM5884
2003-04	CM6293
2004-05	CM6639
2005-06	CM6883
2006-07	CM7156

The differences between provisional and final outturns are published in Public Expenditure Statistical Analyses (PESA) papers, which are available in the Library. The paper references are:

PESA	Reference
2002	CM4602 to CM4621
2003	CM5901
2004	CM6201
2005	CM6521
2006	CM6811
2007	CM7091

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Health when his Department plans to publish its sustainable operations policy statement. [195870]

Mr. Ivan Lewis: The Department publishes its sustainable operations commitments as part of its Sustainable Development Action Plan. We also report annually to the Sustainable Development Commission on our progress against the Sustainable Operations on the Government Estate (SOGE) targets. The results of the latest SOGE exercise have recently been published, and we were in first place overall.

Disease Control

Mr. Oaten: To ask the Secretary of State for Health what guidance he has issued on the appointment of authorised persons to inspect *(a)* central sterile stores and *(b)* management of infection control. [197642]

Ann Keen: The Department has issued guidance on the management and environment for the decontamination of reusable medical devices in "Health Technical Memorandum (HTM) 01-01): Decontamination of reusable medical devices". Part A of HTM 01-01 identifies the

functional responsibilities including 'Authorised Persons (Decontamination)' to ensure equipment is operated safely and efficiently. A copy of HTM 01-01 Part A has been placed in the Library.

The role of the Director of Infection Prevention and Control (DIPC) was first set out in "Winning Ways—working together to reduce healthcare associated infection in England" a report by the Chief Medical Officer which was published in December 2003. A copy of this publication is available in the Library. Guidance on competences for DIPCs was issued in May 2004.

Drugs: Babies

Norman Lamb: To ask the Secretary of State for Health how many children were born with drug-dependency problems in each of the last five years, broken down by *(a)* region and *(b)* type of drug. [195451]

Dawn Primarolo: The following tables show the number of finished consultant episodes (FCEs) where the primary or secondary diagnosis was either neonatal withdrawal symptoms from maternal use of drugs addiction or withdrawal symptoms from therapeutic use of drugs in newborn. Information is provided for the years 2002-03 to 2006-07, which is the latest data available, broken down by strategic health authority (SHA) of residence. It is not possible to provide information for what type of drug a newborn baby is addicted to.

Count of cases (FCEs) with a primary or secondary diagnosis of neonatal withdrawal symptoms from maternal use of drugs by SHA of residence for the period 2006-07

Notes

1. *Coverage and data quality:*
The maternity tail data coverage is not as complete as the rest of HES data. There are a number of reasons for the coverage and data quality issues such as:
trusts submitting a significantly higher number of delivery episodes compared to birth episodes;
trusts failing to submit data on the number of birth episodes where they record a high number of delivery episodes;
trusts failing to submit delivery - the reason for this is that approximately 20 trusts have a stand alone maternity system which is not linked to the Patient Administration System;
trusts identifying a high number of maternity beds available, but not recording any information about deliveries or births;
trusts identifying that they have no maternity beds available, but recording a high number of birth and delivery episodes; and
Some trusts have space in their maternity system to record nine birth tails, whereas other systems have space for 18. As deliveries, miscarriages and abortions are all recorded in the birth tail, there are cases where nine tails is not enough to record all of the relevant data.

2. Between 2001-02 and 2005-06, coverage of hospital deliveries was 72.6 per cent., on average, whereas that of home deliveries was 13.6 per cent., on average. The incomplete coverage problem is significantly compounded by the data quality issues outlined.

3. *Assessing growth through time:*
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

4. *FCE:*
A FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.

5. *All Diagnoses count of episodes:*
These figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record.
International Classification of Diseases (ICD)-10 diagnosis codes used:
P96.1 Neonatal withdrawal symptoms form maternal use of drugs of addiction.
P96.2 Withdrawal symptoms form therapeutic use of drugs in newborn.

6. *Low Numbers:*
Due to reasons of confidentiality, figures between one and five have been suppressed and replaced with '*' (an asterisk).

7. *Ungrossed Data:*
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Count of deliveries by drug dependent mothers for the period 2002-03 to 2006-07 by diagnosis code and type of drug used

		Total finished consultant delivery episodes				
Diagnosis code	*Type of drug*	*2006-07*	*2005-06*	*2004-05*	*2003-04*	*2002-03*
F10.2	Alcohol	82	62	50	31	22
F11.2	Opioids	1,059	1,014	946	772	535
F12.2	Cannabinoids	100	93	81	52	19
F13.2	Sedatives or hypnotics	*	8	12	*	*
F14.2	Cocaine	32	47	32	33	25
F15.2	Other stimulants including Caffeine	27	10	9	11	*
F16.2	Hallucinogens	16	13	8	8	14
F17.2	Tobacco	641	748	606	564	440
F18.2	Volatile solvents	*	0	0	*	0
F19.2	Multiple drug use	61	32	41	27	18
	Total[1]	1,970	1,956	1,741	1,460	1,057

[1] For all years the total number of cases is higher when looking at the yearly total broken down by drug use compared to the yearly figure broken down by region. This is because there will be several cases where the mother has been diagnosed as using more than one type of drug and those drugs have been recognised. International Classification of Diseases-10 diagnosis code F19.2 Mental and behavioural disorders due to multiple drug use and use of other psychoactive substances is only used when patterns of psychoactive substance-taking are chaotic and indiscriminate or when the contributions of different psychoactive substances are inextricably mixed.

Coverage and data quality:

The maternity tail data coverage is not as complete as the rest of HES data. There are a number of reasons for the coverage and data quality issues such as:

trusts submitting a significantly higher number of delivery episodes compared to birth episodes;

trusts failing to submit data on the number of birth episodes where they record a high number of delivery episodes;

trusts failing to submit delivery—the reason for this is that approximately 20 trusts have a stand alone maternity system which is not linked to the Patient Administration System;

trusts identifying a high number of maternity beds available, but not recording any information about deliveries or births;

trusts identifying that they have no maternity beds available, but recording a high number of birth and delivery episodes; and

some trusts have space in their maternity system to record nine birth tails, whereas other systems have space for 18. As deliveries, miscarriages and abortions are all recorded in the birth tail, there are cases where nine tails is not enough to record all of the relevant data.

Between 2001-02 and 2005-06, coverage of hospital deliveries was 72.6 per cent. on average, whereas that of home deliveries was 13.6 per cent. on average. The incomplete coverage problem is significantly compounded by the data quality issues outlined above.

Assessing growth through time:

HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

Finished Consultant Episode (FCE):

A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.

Secondary Diagnoses:

As well as the primary diagnosis, there are up to 13 (6 prior to 2002-03) secondary diagnosis fields in Hospital Episode Statistics (HES) that show other diagnoses relevant to the episode of care.

ICD-10 code used:

Z37. Outcome of delivery (must always been found in the first secondary position)

All Diagnoses count of episodes:

These figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 secondary (seven prior to 2002-03) diagnosis fields in a HES record.

ICD-10 diagnosis codes used (and must be accompanied by secondary diagnosis code):

F10.2 Mental and behavioural disorders due to use of alcohol, dependence syndrome;

F11.2 Mental and behavioural disorders due to use of opioids, dependence syndrome;

F12.2 Mental and behavioural disorders due to use of cannabinoids, dependence syndrome;

F13.2 Mental and behavioural disorders due to use of sedatives or hypnotics, dependence syndrome;

F14.2 Mental and behavioural disorders due to use of cocaine, dependence syndrome;

F15.2 Mental and behavioural disorders due to use of other stimulants, including caffeine, dependence syndrome;
F16.2 Mental and behavioural disorders due to use of hallucinogens, dependence syndrome;
F17.2 Mental and behavioural disorders due to use of tobacco, dependence syndrome;
F18.2 Mental and behavioural disorders due to use of volatile solvents, dependence syndrome;
and
F19.2 Mental and behavioural disorders due to multiple drug use and use of other psychoactive substances, dependence syndrome.
The codes indicate addiction to all types of drugs. For example F11.2 Mental and behavioural disorders due to use of Opioids, would include addiction to Heroin and also Opioids found in prescription drugs.
Low Numbers:
Due to reasons of confidentiality, figures between one and five have been suppressed and replaced with '*' (an asterisk). Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional smallest number have been suppressed in order to protect patient confidentiality.
Ungrossed Data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The Information Centre for Health and social care.

Drugs: Rehabilitation

Mr. Spring: To ask the Secretary of State for Health how much PricewaterhouseCoopers was paid for its review of prison-based drug treatment funding; and what competitive tendering process was undertaken to choose a private sector provider for this report. [198339]

Dawn Primarolo: The tender for the review of prison-based drug treatment funding was let to PricewaterhouseCoopers at a cost of £317,510. Additional funding for a value of £9,000 was also provided due to a change in the requirements.

The tendering process took place under the Department's consultancy services framework, which allows limited competition between 43 registered suppliers, chosen following a rigorous procurement process. Pre-agreed terms and conditions with these suppliers offer the Department sound contractual safeguards.

Three companies tendered for the review. In total, there are 13 companies listed under the consultancy services framework's sub-category of health consultancy. These were all invited to tender.

Epilepsy: Death

Chris McCafferty: To ask the Secretary of State for Health (1) whether his Department has monitored progress on the commitments to improve the investigation of epilepsy-related death and the support to bereaved families made by the Department of Health's Action Plan 2003 in response to the National Institute for Health and Clinical Excellence clinical audit of epilepsy-related deaths in 2002; [198762]

(2) whether his Department has monitored epilepsy-related death since the National Institute for Health and Clinical Excellence national clinical audit of epilepsy-related death 2002. [198764]

Ann Keen: The Department has not monitored epilepsy-related deaths since the publication if the National Institute for Health and Clinical Excellence clinical audit.

The Department has not monitored progress on the commitments to improve the investigation of epilepsy-related death and the support provided to bereaved families made in the Department's Action Plan 2003.

In 2006, the National Confidential Enquiry into Patient Outcomes and Death (NCEPOD) reported on the conduct of coronial autopsy and made specific recommendations on deaths suspected to be related to epilepsy. They also published a self assessment checklist for trusts allowing them to check their progress in adopting NCEPOD's recommendations.

Eyesight: Testing

Norman Lamb: To ask the Secretary of State for Health what his Department's policy is on the desirable frequency of eye examinations for *(a)* children under 16 years old and *(b)* adults. [197966]

Ann Keen: The Department issued guidance on the frequency of general ophthalmic services sight tests in 2002. The guidance contains the following minimum intervals for sight tests:

Patient's age	*Minimum sight test interval*
Under 16 years, in the absence of any binocular vision anomaly	1 year
Under 7 years with binocular vision anomaly or corrected refractive error	6 months
7 years and over and under 16 with binocular vision anomaly or rapidly progressing myopia	6 months
16 years and over and under 70 years	2 years
70 years and over	1 year
40 years and over with family history of glaucoma or with ocular hypertension and not in a monitoring scheme	1 year
Diabetic patients	1 year

The General Ophthalmic Services Regulations require optometrists or ophthalmic medical practitioners (practitioners) to satisfy themselves that a sight test is clinically necessary. Therefore, the intervals given are not to be read as applying to all patients in a category.

A practitioner may carry out a sight test at a shorter interval than those listed, either at the practitioner's initiative for a clinical reason, or because the patient presents him/herself to the practitioner with symptoms or concerns which might be related to an eye condition.

Norman Lamb: To ask the Secretary of State for Health how many free eye examinations were carried out by the NHS for *(a)* children under 16 years old and *(b)* adults entitled to free eye examinations in each of the last five years. [197967]

Ann Keen: The latest numbers relating to General Ophthalmic Services (GOS) sight tests paid for by the national health service, by patient eligibility, are available in table 3 of the "General Ophthalmic Services: Activity Statistics for England and Wales: April 2007-September 2007" report. This information is for the first six months of 2007-08.

This report, published on 26 March 2007, has been placed in the Library and is also available at:

www.ic.nhs.uk/statistics-and-datacollections/primarycare/eyecare/generalophthalmicservices:-activity-statistics-for-england-and-wales:-april-2007--september-2007

The number of GOS sight tests paid for by the NHS, by patient eligibility, in England and in Wales, for the year ending 31 March 2007 are available in table B4 of "General Ophthalmic Services: Activity Statistics for England and Wales, Year Ending 31 March 2007" report.

This report, published 31 July 2007, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/gosactivity310307

The number of GOS sight tests paid for by the NHS, by patient eligibility, in England and in Wales, for the year ending 31 March 2006 are available in table A4 of the "General Ophthalmic Services: Activity Statistics for England and Wales, Year Ending 31 March 2006" report.

This report, published 27 July 2006, is available in the Library and is also available at:

www.ic.nhs.uk/pubs/genophtservsactivitystats

In the above reports, information is provided for children aged 0 to 15 and by various adult eligibility groups.

The number of GOS sight tests paid for by the NHS, by patient eligibility, in England, Wales, Scotland and Great Britain for the years ending 31 March 1996 to 2005 are available in table 3 of "General Ophthalmic Services: Consultation tables for England, Wales and Scotland, 2004-05". Information is available for children (aged 15 and under), students in full-time education (aged 16 to 18) and other eligible adults.

This report, published 30 November 2005, has been placed in the Library and is also available at:

www.ic.nhs.uk/pubs/genopth2005

All reports have been published by the Information Centre for health and social care.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health what information his Department holds on the average distance between a person's home and nearest GP surgery in different parts of the country. [198241]

Mr. Bradshaw: The Department does not hold information regarding the average distance between a person's home and nearest general practitioner surgery centrally.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of general practitioner practices there will be in England in 2010-11. [198260]

Mr. Bradshaw: The Department has made no projections of general practitioner practice data. Any estimate will depend on decisions made by primary care trusts on the local configuration of health services.

Mr. Lansley: To ask the Secretary of State for Health what percentage of primary care trusts have submitted plans to his Department for a GP-led health centre in their area. [198262]

Mr. Bradshaw: The Department has not asked to see individual plans or specifications from primary care trusts. Strategic health authorities will provide assurances that each primary care trusts' plans reflect the procurement principles and core criteria.

Mr. Lansley: To ask the Secretary of State for Health what he estimates will be the average annual cost of running one of the new 150 GP-led health centres. [198267]

Mr. Bradshaw: The cost of each new service will be dependant upon its clinical design based on local health need.

Mr. Lansley: To ask the Secretary of State for Health how many patients he estimates will be registered on average at each of the new 150 GP-led health centres. [198268]

Mr. Bradshaw: This will be determined locally by primary care trusts and is likely to vary depending on the needs and access of the local population.

Mr. Lansley: To ask the Secretary of State for Health what the timetable is for the establishment of the new 150 GP-led health centres. [198269]

Mr. Bradshaw: The Operating Framework set a national requirement for primary care trusts to undertake open and transparent procurements during 2008-09 for new general practitioner-led health centres. Exact service commencement will depend on a range of local circumstances, including the availability of premises.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the average number of general practitioners working in a general practitioner-led health centre. [198270]

Mr. Bradshaw: This information is not collected centrally. Decisions on service configurations is a local matter for primary care trusts.

Mr. Lansley: To ask the Secretary of State for Health what percentage of general practitioners he estimates will be based in one of the new 150 general practitioner-led health centres in 2010. [198271]

Mr. Bradshaw: This will be determined by primary care trusts and will depend on a range of local factors, including the clinical design of the services.

Mr. Lansley: To ask the Secretary of State for Health what services the new 150 general practitioner-led health centres will be expected to provide. [198272]

Mr. Bradshaw: The Department has established the following core criteria for each new health centre service:

easily accessible locations;

core general practitioner (GP) services;

open 8 am-8 pm, seven days per week;

bookable GP appointments and walk-in services;

registered and non-registered patients; and

maximising opportunities to integrate and co-locate with other community based services.

Beyond these, local commissioners will determine the precise range of services in ways that best meet local health needs.

Mr. Lansley: To ask the Secretary of State for Health how many general practitioner-led health centres his Department plans to introduce by 2010; and what estimate he has made of the impact of the introduction of these centres on the number of general practitioner practices. [198273]

Mr. Bradshaw: The configuration of health services is a local matter for primary care trusts. From 2008-09 the Department will support primary care trusts (PCTs) in commissioning 152 new general practitioner led health centres to add to existing provision.

PCTs are currently engaging with stakeholders, including local patients and national health service staff about how new health centre services are best provided to meet local needs and the effect they may have on existing provision.

Mr. Lansley: To ask the Secretary of State for Health when he expects the first of the new 150 GP-led health centres to open. [198274]

Mr. Bradshaw: Primary care trusts are currently developing their plans and specifications with their strategic health authorities. It is too early to say at this stage when and where we expect the first services to open.

Mr. Lansley: To ask the Secretary of State for Health what estimate his Department has made of the effect of establishing the new 150 GP-led health centres on the average distance from a person's home to the nearest GP surgery. [198275]

Mr. Bradshaw: Primary care trusts are responsible for assessing the impact of local health service configurations. They are currently engaging with their stakeholders, including local patients and national health service staff about how new general practitioner led health centre services are best provided to meet local needs and the effect they may have on existing provision.

Health Services: Regulation

David Taylor: To ask the Secretary of State for Health (1) what representations have been received by the NHS Appointments Commission in England on the communication skills to be required of professional applicants for membership of councils of professional health regulatory bodies; [196810]

(2) what representations have been received by the NHS Appointments Commission in England on the patient and public advocacy skills to be required of lay applicants for membership of councils of professional health regulatory bodies. [196811]

Mr. Bradshaw: This is a matter for discussion between the Appointments Commission and the relevant professional regulatory bodies. However, they will wish to take into account the recommendations in Niall Dickson's report 'Enhancing Confidence in Healthcare Professional Regulation, when it is published'.

David Taylor: To ask the Secretary of State for Health what assessment he has made of proposals requiring members of councils of professional health regulatory bodies regularly to consult national and local patient and consumer bodies. [196845]

Mr. Bradshaw: This matter has been raised during consultation on the Health Care and Associated Professions (Miscellaneous Amendments) Order. The Government are in the process of analysing all the responses and a report will be published shortly.

David Taylor: To ask the Secretary of State for Health what measures are in place to ensure that *(a)* professional and *(b)* lay members of councils of (i) professional healthcare regulatory bodies and (ii) the Council for Healthcare Regulatory Excellence reflect patient and service user concerns; and if he will make a statement. [196846]

Mr. Bradshaw: This is currently a matter for discussion between the Appointments Commission and the relevant regulatory bodies. However, in the future they will want to consider the recommendations of Niall Dickson's report 'Enhancing Confidence in Healthcare Professional Regulation', when it is published. We will also be asking the Council for Healthcare Regulatory Excellence for advice on this matter.

David Taylor: To ask the Secretary of State for Health what consideration has been given to introducing a requirement for lay applicants for membership of councils of professional health regulatory bodies to demonstrate an understanding of issues from *(a)* patient, *(b)* consumer and *(c)* public perspectives. [196848]

Mr. Bradshaw: In May 2007, the former Parliamentary Under Secretary of State, Lord Hunt asked Niall Dickson, chief executive of the Kings Fund, to chair one of the seven working groups to take forward key recommendations in the White Paper 'Trust, Assurance and Safety'. This group was asked to examine those aspects of the White Paper concerned with enhancing public confidence in the regulators of health care professionals. Among these were the criteria for recruitment of lay members for membership of councils of professional health regulatory bodies. The Department will discuss the recommendations of the report of the group with the Council for Healthcare Regulatory Excellence, the regulatory bodies and the Appointments Commission.

Health Trainers

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 4 March 2008, *Official Report*, column 2383W, on health trainers, how many health trainers there were in *(a)* each primary care trust and *(b)* the NHS in September 2006. [194738]

Dawn Primarolo: In September 2006, figures for health trainers were not collected. The programme for 2006-07 was been rolled out across spearhead primary care trusts (PCTs) with 2007-08 seeing the programme expanded to all PCTs.

We do, however, have an overall figure of health trainers recruited to the programme at that time, which stands at approximately 900. The vast majority of those were sited in spearhead PCTs.

Influenza: Vaccination

Mr. Kemp: To ask the Secretary of State for Health what estimate he has made of the take-up of influenza vaccinations by pensioners over 65 years old in *(a)* Houghton and Washington East constituency, *(b)* Tyne and Wear and *(c)* England in the last year for which figures are available. [197267]

Dawn Primarolo: Influenza vaccine uptake is reported to the Department by primary care trusts (PCT) and strategic health authorities (SHAs) and is based on the number of patients registered at reporting general practitioners practices who were vaccinated between 1 September 2007 and 31 January 2008. Data are not collected by constituency.

Influenza vaccine uptake for those 65 years and over was 77 per cent. for Sunderland Teaching PCT and 74 per cent. overall in England.

This information and influenza uptake information for all PCTs and SHAs has been placed in the Library and is also available at:

www.immunisation.nhs.uk/Vaccines/Flu/Vaccine

Kidney Patients: Lancashire

Mr. Evans: To ask the Secretary of State for Health how many kidney transplant operations were performed in Lancashire hospitals in each of the last five years. [198552]

Ann Keen: None. Kidney transplants are carried out in specialist centres. In the North West these are located at Manchester Royal Infirmary and the Royal Liverpool University Hospital.

Mr. Evans: To ask the Secretary of State for Health how many *(a)* inpatients and *(b)* outpatients treated in Lancashire hospitals were on dialysis following kidney failure in each of the last five years. [198553]

Ann Keen: The information requested is not collected centrally.

Information on acceptance rates onto renal replacement therapies, the percentage of patients on each modality of treatment, and the referral to treatment times for such patients is collected by the UK Renal Registry. The annual reports containing analysis of data from 1997 to 2006 can be found on the Renal Registry's website at:

www.renalreg.com

Mr. Evans: To ask the Secretary of State for Health how many people were diagnosed with chronic kidney disease in Lancashire hospitals in each of the last five years. [198554]

Ann Keen: The requested information is not collected centrally. Data on the number of admissions to hospital where the primary reason was chronic kidney disease is collected. However, this does not take account of the time or location of diagnosis.

Mr. Evans: To ask the Secretary of State for Health how many clinical trials were conducted in Lancashire hospitals as part of kidney disease research in each of the last five years. [198555]

Dawn Primarolo: The information requested is not collected centrally.

The Department has set up and is funding the National Institute for Health Research UK clinical research network to ensure patients and clinicians in all parts of the country can take part in and benefit from clinical research. The comprehensive clinical research network will provide support (through 25 local research networks) for studies in all areas of disease and clinical need, including renal medicine.

Mr. Evans: To ask the Secretary of State for Health how much was spent on kidney disease research in Lancashire hospitals in each of the last five years. [198556]

Dawn Primarolo: The information requested is not collected centrally.

Learning Disability: Adults

Mr. Harper: To ask the Secretary of State for Health (1) how much his Department spent on each category of services for adults with learning disabilities in each year since 2001-02; [197088]

(2) how much and what proportion of the *(a)* adult social care and *(b)* NHS budget was spent on people with a learning disability in each of the last four years. [197421]

Mr. Ivan Lewis: The information available is shown as follows.

Table 1 shows how much was spent by adult social services departments in England on each category of services for adults aged 18-64 with learning disabilities in each year since 2001-02 to 2006-07. Adults aged 65 or over with learning disabilities cannot be separately identified. This information would have been recorded in the older people client group.

Table 2 shows how much was spent on all adults (including older people) and the proportion of expenditure on adults with learning disabilities aged 18-64 through adult social services in England each year since 2003-04 to 2006-07. Adults aged 65 or over with learning disabilities

cannot be separately identified. This expenditure would have been recorded in the older people client group.

Table 3 shows the estimated expenditure on learning disabilities through national health service specialised learning disability services each year since 2003-04 to 2006-07. We do not hold a breakdown of this expenditure on each category of services for adults with learning disabilities within the NHS.

It is for individual local authorities and NHS trusts to determine the level of funding available from their general allocations for the needs of people with learning disabilities, taking into consideration locally identified needs and assessments of individuals.

Table 1: Gross current expenditure on adults aged 18-64 with learning disabilities, 2001-02 to 2006-07

£000

	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Assessment and care management	116,666	136,821	152,659	176,183	205,392	201,293
Nursing home placements	[1]35,358	69,362	63,167	74,216	77,098	72,506
Residential care home placements	[2]935,917	1,161,765	1,174,039	1,293,325	1,393,556	1,459,134
Supported and other accommodation	139,678	153,734	163,464	181,996	191,179	228,296
Direct Payments	4,877	8,303	14,368	27,530	42,181	60,799
Home care	127,663	138,671	175,347	216,098	288,125	349,107
Day care	474,416	516,568	558,586	572,359	620,478	638,879
Equipment and adaptations	1,483	1,020	808	727	799	937
Meals	573	789	1,488	734	1,306	950
Other services to adults with learning disabilities	67,360	66,449	66,616	97,990	93,502	109,199
Total (excluding Supporting People)	1,903,991	2,253,481	2,370,541	2,641,158	2,913,618	3,121,100
Supporting People[3]			238,899	209,066	196,708	171,182
Total (including Supporting People)			2,609,441	2,850,224	3,110,326	3,292,281

[1] From 2002-03 onwards data includes expenditure related to clients formerly in receipt of preserved rights.
[2] From 2002-03 onwards data includes expenditure related to clients formerly in receipt of preserved rights.
[3] Supporting People programme started in April 2003.

Table 2: Adult social services and learning disability gross current expenditure 2003-04 to 2006-07

	2003-04	2004-05	2005-06	2006-07
Adult social services expenditure (£000)	12,775,914	13,696,392	14,494,908	15,014,838
Learning Disability (aged 18-64) expenditure (£000)	2,609,441	2,850,224	3,110,326	3,292,281
Learning Disability as a proportion of total adult expenditure (percentage)	20.4	20.8	21.5	21.9

Source:
PSSEX1

Table 3: Net estimated aggregate expenditure on learning disability for primary care trusts in England from 2003-04 to 2006-07

Financial year	Net expenditure (£000)
2003-04	1,851,427
2004-05	2,067,667
2005-06	2,195,942
2006-07	2,334,321

Notes:
1. Data for 2006-07 may not be comparable with previous years due to changes in data definitions.
2. Learning disability is defined as 'patients where the primary issue is the problem of learning disability'.

Programme Budgeting Data, Department of Health

Mental Health Services: Training

John Battle: To ask the Secretary of State for Health what his timetable is for implementing the recommendation on a national training scheme for mental health workers contained in the Management of Violence project's report. [196226]

Mr. Ivan Lewis: The Department and National Institute for Mental Health in England (NIMHE) are committed to the accreditation of training and regulation of trainers in the prevention and management of aggression and violence and are currently working to ensure the introduction of an effective accreditation system as soon as is practicable.

The NIMHE issued the positive practice standards "Developing Positive Practice to Support the Safe and Therapeutic Management of Aggression and Violence in Mental Health In-patient Settings" in 2004. The National Institute for Health and Clinical Excellence published guidelines in 2005 entitled "Short-term Management of Violence and Disturbed Behaviour in Psychiatric In-patient Settings and Emergency Departments". These guidelines state that all service providers should have a policy for training in physical intervention that specifies the frequency and level of training required.

On 8 February, consultation ended on definitive guidance by NIMHE, reflecting feedback on the two previous publications, entitled "The National Minimum Standards for the Safe and Therapeutic Management of Aggression and Violence in Mental Health In-patient Settings". Responses to this consultation are being considered.

The NHS Security Management Service has developed training for all NHS staff in mental health and learning disabilities settings entitled "The Promoting Safer and

Therapeutic Services Training Programme!. This does not include training in physical intervention techniques.

NHS Questionnaires

Mrs. May: To ask the Secretary of State for Health pursuant to the Answer of 7 March 2008, *Official Report*, column 2860W, on NHS questionnaires, what the cost of the surveys conducted by Ipsos MORI on behalf of the Department was for each of the last 10 years. [196232]

Mr. Bradshaw: The total paid to Ipsos MORI (Market and Opinion Research International) for surveys by the Department from April 2001 to March 2008 is £26,071,628.76.

It would not be possible to discern the specific details of each survey without incurring disproportionate cost.

NHS: Finance

Norman Lamb: To ask the Secretary of State for Health what the NHS underspend was in each of the last three years for which figures are available, broken down by primary care trust. [197923]

Mr. Bradshaw: The net under/overspend reported by the national health service in audited accounts for the years 2004-05 to 2006-07 is provided in the following table. The 2006-07 audited final position for individual NHS organisations, is available in the Library under the title 'table showing audited figures for the NHS for the financial year 2006-07'. Tables showing the audited financial figures for individual NHS organisations for the years 2004-05 and 2005-06 have been placed in the Library.

Final accounts under/(overspend)

£000

	2004-05	2005-06	2006-07
Total NHS	221,358	547,256	514,621

Notes:
1. Final account figures for 2005-06 include unaudited figures for one NHS trust. 2. Foundation trusts not included.
Source:
Audited summarisation schedules

NHS: Recruitment

Mr. Frank Field: To ask the Secretary of State for Health what guidance he has issued to NHS trusts on use of open competition in recruitment of NHS IT personnel. [196391]

Ann Keen *[holding answer 25 March 2008]:* In line with good employment practice the Department expects that individual national health service organisations comply with the relevant legal requirements in the recruitment of staff.

NHS Employers, the body representing trusts in England on workforce issues, with the agreement of the Department, has recently issued revised guidance "NHS Employment Check Standards", which outlines the checks employers must carry out for the appointment and ongoing employment of all individuals in the NHS. This does not mandate how employers should undertake the recruitment process, however local NHS organisations are encouraged to assess their recruitment and selection policies to ensure the processes are not directly or indirectly discriminatory.

NHS: Redundancy Pay

Greg Clark: To ask the Secretary of State for Health how much was paid in severance payments to NHS staff in each of the last five years. [194535]

Ann Keen: The information requested is not collected centrally. The employment of staff, clinicians and managers within the national health service is a matter for individual NHS organisations.

Occupational Health

John Mann: To ask the Secretary of State for Health what assessment has he made of the use of *(a)* NHS and *(b)* privately practising occupational health specialists by employers. [197321]

Mr. Ivan Lewis: Many larger employers in the private sector provide their own occupational health (OH) services, while other employers buy OH provision from private providers. The national health service, on the other hand, provides the majority of its own occupational health provision with the remainder bought from the private sector. The NHS Plus project, funded by the Department, set up in 2006, has already begun to improve the provision of OH services to both the NHS and Small and medium enterprises in the private sector.

John Mann: To ask the Secretary of State for Health how many primary care trusts employ at least one occupational health specialist. [197330]

Mr. Ivan Lewis: This information is not held centrally. However, every primary care trust (PCT) is required to make arrangements for the provision of occupational health specialists support to its directly employed staff. PCTs use one of three models of provision:

directly employed occupational health specialists;

access to occupational health specialists through a contract with another national health service body which provides occupational health services; and

access to occupational health specialists through a contract with an independent provider of occupational health services.

Prescription Drugs: Addiction

Tim Farron: To ask the Secretary of State for Health how many people are receiving treatment for involuntary addiction to legal drugs; and what plans his Department has to tackle such addiction. [195580]

Dawn Primarolo *[holding answer 20 March 2008]:* This information is not held centrally.

Primary care trusts are responsible for providing local health services, including addiction services and together with their strategic health authorities are responsible for deciding which services to plan, commission and develop to meet the health needs of their local communities.

Prescriptions

John Mann: To ask the Secretary of State for Health what recent assessment he has made of the use of electronic repeat prescriptions in the NHS. [197337]

Mr. Bradshaw: Repeat electronic prescriptions will be available through the Electronic Prescription Service (EPS) once general practitioner and pharmacy information technology suppliers have implemented Release 2 of the EPS which is readily available.

Risks, Rights and Recovery

Lynne Jones: To ask the Secretary of State for Health when the Government will respond to the Mental Health Act Commission report, Risks, Rights and Recovery. [197869]

Mr. Ivan Lewis: We welcome the Mental Health Act Commission's report and commend it to those responsible for the care and treatment of patients under the Mental Health Act 1983. We have noted its recommendations. The Government have not, in recent years, published responses to the Commission's biennial reports and does not propose to do so in this case.

Sexually Transmitted Diseases: Yorkshire and Humberside

Mr. Graham Stuart: To ask the Secretary of State for Health how many sexually transmitted infections were diagnosed in each constituency in Yorkshire and the Humber in each year since 1997, broken down by *(a)* age group and *(b)* type of infection; and if he will make a statement. [197426]

Dawn Primarolo: Information on the number of sexually transmitted infections diagnosed in genito-urinary medicine clinics and the National Chlamydia Screening Programme in the Yorkshire and Humber Strategic Authority from 1997 to 2006 broken down by age group and type of infection has been placed in the Library.

X Rays: Maladministration

Dr. Kumar: To ask the Secretary of State for Health what estimate his Department has made of the number of people who have been mistakenly sent for x-rays or CT scans in each English region in each of the last five years. [195563]

Dawn Primarolo: The requested information for the period between 1 January 2003 and 31 October 2006 is shown in the following table.

Number of incidents notified under Ionising Radiation (Medical Exposure) Regulations (IRMER) 2000 to Secretary of States' Inspectors which were classified as patient identification (ID) and referral errors from 1 January 2003 to 31 October 2006

	Region															
	Eastern		London		North West		North Yorkshire		South East		South West		Trent		West Midlands	
	CT	X-ray	CT	X-ray	CT	X-ray	CT	X-ray	CT	X-ray	CT	X-ray	CT	X-ray	CT	X-ray
2003	1	0	3	0	4	4	2	5	2	8	1	1	1	3	4	0
2004	0	0	1	2	1	1	4	1	5	9	2	0	1	7	2	4
2005	0	1	1	0	2	0	1	4	4	6	1	5	1	3	1	1
2006	0	1	0	2	1	1	1	2	5	5	0	2	0	0	0	4

From 1 November 2006 the Healthcare Commission assumed responsibility for enforcement of the (IRMER) 2000 in the Amendment Regulations of 2006.

In March 2008 the Healthcare Commission published the first report on its activities in this area this included an analysis of the errors that led to patients being exposed unnecessarily to medical radiation.

From 1 November 2006 to 31 December 2007 there were 105 notifications of errors in the referral of patients for diagnostic x-ray, CT scan and other diagnostic radiology investigation.

The following table provides a breakdown by strategic health authority (SHA) area of notifications received from national health service trusts.

Breakdown by SHA area of diagnostic patient ID error

SHA	Diagnostic patient ID error
Independent Healthcare	1
East of England SHA	8
London SHA	12
North East SHA	4
North West SHA	8

Breakdown by SHA area of diagnostic patient ID error

SHA	Diagnostic patient ID error
South Central SHA	9
South East Coast SHA	11

HOME DEPARTMENT

Alcoholic Drinks: Prosecutions

David Davis: To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions there were for alcohol-related offences in each of the last five years, broken down by (i) region and (ii) offence. [193585]

Jacqui Smith: I refer the right hon. Member to the answer given on 20 March 2008, *Official Report*, columns 1274-78 W.

Alcoholic Drinks: Young People

David Davis: To ask the Secretary of State for the Home Department (1) what assessment she has made of the effectiveness of acceptable behaviour contracts in tackling underage drinking; [193575]

(2) how many acceptable behaviour contracts have been issued to teenagers for drinking alcohol underage. [193576]

Jacqui Smith: Data on acceptable behaviour contracts (ABCs) are not collected by the Home Office as they are voluntary agreements and therefore not suitable for central data collection. Surveys carried out by the Home Office of the Crime and Disorder Reduction Partnerships (CDRPs) indicated that over 25,000 ABCs have been made since October 2003.

A National Audit Office study in December 2006 found that such interventions were highly effective in combating antisocial behaviour. 65 per cent. of people stopped behaving antisocially after one intervention; 86 per cent. after two; and 93 per cent. after three.

Antisocial Behaviour: Fixed Penalties

David Davis: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued for drunk and disorderly behaviour in each of the last four years. [185292]

Jacqui Smith: The number of penalty notices for disorder (PNDs) for the offence of being guilty of disorderly behaviour in any public place while drunk, issued in England and Wales for the years 2004 to 2006, the latest year for which data are available, are set out in the following table.

A PND is a type of fixed penalty that can be issued by the police to persons committing a specified range of antisocial behaviour offences including being drunk and disorderly which attracts a penalty of £80. The PND scheme was rolled out to all 43 police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001.

Number of penalty notices for disorder issued for drunk and disorderly in England and Wales, 2004-06[1,2,3]

	Drunk and disorderly
2004	26,609
2005	37,038
2006	43,556

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] A PND is a form of fixed penalty that can be issued for certain offences including being "drunk and disorderly". The PND scheme was rolled out to all police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001. Under the scheme, the police are able to issue penalty notices of either £50 or £80 for a range of minor disorder offences. The offence of drunk and disorderly attracts a fine of £80 under the PND scheme.

[3] This is a recordable offence under statute: S 91, Criminal Justice Act 1967.

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department further to the answer of 11 March 2008, *Official Report*, columns 336-7W, on asylum, if she will give a break down by nationality of the other nationalities granted leave to remain under the 2003 family indefinite leave to remain exercise. [195358]

Mr. Byrne *[holding answer 18 March 2008]:* The requested information is contained in the following table.

Copies of asylum statistics publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

Grants of ILR issued under the Family ILR exercise as at 7 December 2007, excluding dependants, for specified nationalities[1,2,3,4]

Country of nationality	*Total*

Total Middle East other	440

[1] Provisional figures rounded to the nearest 5 (* = 1 or 2).
[2] Main asylum applicants.
[3] This information is based on internal management information.
[4] Nationality recorded as at 7 December 2007 is not necessarily the applicant's nationality at the time of grant of ILR.

Angus Robertson: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of *(a)* refugees and *(b)* internally displaced people resident in the UK in each year since 2000; and if she will make a statement. [197105]

Mr. Byrne: The requested information is not held and could only be obtained at disproportionate cost.

British Nationality: Ex-servicemen

Damian Green: To ask the Secretary of State for the Home Department if her Department will seek the views of Gurkha and other ex-servicemen's charities and organisations in its consultation on the Path to British Citizenship. [197018]

Mr. Byrne: The Green Paper 'The Path to Citizenship: Next Steps In Reforming The Immigration System' sets out proposals for a clearer framework for the journey to citizenship and for clarifying the routes to British citizenship or permanent residence through a new stage of probationary citizenship.

We welcome comments on the proposals in the Green Paper from all those who have views on the future shape of the immigration system. The document can be accessed on the BIA website at:

http://www.bia.homeoffice.gov.uk/sitecontent/documents/aboutus/consultations/pathtocitizenship/

We will finalise our proposals following the consultation period which ends on 14 May 2008.

Children: Protection

David Davis: To ask the Secretary of State for the Home Department what progress has been made in implementing Action 4 of the Review of Protection of Children from Sex Offenders, published in June 2007. [196960]

Jacqui Smith: The Government have identified four pilot police force areas: Cambridgeshire, Cleveland, Hampshire and Warwickshire. We are currently working with these forces to develop an appropriate system for operating the new disclosure model, and a process for evaluating the effectiveness of the pilots in terms of child protection. The pilots will be overseen by Project Board on which the Home Office, the Ministry of Justice, the Department for Children Schools and Families, ACPO, Barnardos, NCH and NSPCC are represented. The aim is for the pilots to commence this summer.

Control Orders

Mr. Vara: To ask the Secretary of State for the Home Department how many individuals are subject to control orders; and how many of those are claiming benefits, broken down by type of benefit. [194589]

Mr. McNulty: As of the last quarterly written ministerial statement updating Parliament on the operation of the Prevention of Terrorism Act 2005, issued on 13 March 2008, *Official Report*, columns 24-26WS, there were 11 control orders in force. The latest information the Home Office holds suggests that eight of the individuals currently subject to control orders are currently in receipt of benefits that are administered by the Department for Work and Pensions. Some individuals are in receipt of more than one form of DWP administered benefit. Of these individuals: four receive incapacity benefit, three receive jobseeker's allowance, one receives disability living allowance, three receive income support and two receive child tax credit.

In addition, five controlled individuals are currently living in Home Office provided housing.

The Home Office does not hold information where controlled persons are in receipt of benefits administered by Government Departments other than the Home Office or the Department for Work and Pensions.

Credit Cards: Fraud

Mr. Spellar: To ask the Secretary of State for the Home Department what steps her Department is taking in conjunction with the police to take action when card cloning is suspected. [197858]

Mr. Coaker: I refer the hon. Member to my letter dated 19 March 2008.

Departmental Consultants

Mr. Gauke: To ask the Secretary of State for the Home Department how much was spent by her Department on consultants in each financial year since 1997, broken down by consultancy. [180823]

Mr. Byrne: The Home Department engages consultancy firms to support and augment civil servants in the delivery of a specific range of work, including large IT development programmes and, where more cost effective, longer term service delivery programmes.

The Department's expenditure on these services is allocated across a wide range of firms, from small, specialist companies with niche expertise and few

employees, to global multinational organizations offering a broad spectrum and substantial depth of consultancy expertise.

The Department awards contracts in competition according to the EU Procurement Directives based on value for money. The Department uses OGC framework agreements where appropriate. The use of external consultants provides the Department with specialist knowledge, skill, capacity and technical expertise that would not otherwise be available. Some expenditure is on consultants to whom we have outsourced services, such as IT.

To provide information on the Department's consultancy spend broken down by consultancy since 1997 would incur disproportionate cost. The information held by the Home Department on the total value of spend on consultancy since 1997 is as follows:

£

Financial year	HO Headquarters	IPS	Total spend
1997-98	7,627,016	[1] —	7,627,016
1998-99	4,351,060	237,385	4,588,445
1999-00	9,822,145	480,527	10,302,672
2000-01	30,716,195	[2]457,073	31,173,268
2001-02	24,383,520	[2]1,938,219	26,321,739
2002-03	[3] —	[2]2,272,996	[3] —
2003-04	111,602,850	[2]3,836,770	115,439,620
2004-05	55,991,869	[2]4,486,183	60,478,052
2005-06	128,000,000	[2]10,912,741	138,912,741
2006-07	118,000,000	29,870,522	147,870,522

[1] Included in HO HQ.
[2] IPS recently revised figures.
[3] Not held.

Mr. Hoban: To ask the Secretary of State for the Home Department what contracts were awarded by her Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* any other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196563]

Mr. Byrne: The Home Department engages consultancy firms to support and augment civil servants in the delivery of a specific range of work, including large IT development programmes and, where more cost effective, longer term service delivery programmes.

The Department's expenditure on these services is allocated across a wide range of firms, from small, specialist companies with niche expertise and few employees, to global multinational organisations offering a broad spectrum and substantial depth of consultancy expertise.

The Department awards contracts in competition according to the EU procurement directives based on value for money. The Department uses OGC framework agreements where appropriate. The use of external consultants provides the Department with specialist knowledge, skill, capacity and technical expertise that would not otherwise be available. Some expenditure is on consultants to whom we have outsourced services, such as IT.

The Department does not hold a central record of individual contracts with external consultants. To provide information on what contracts were awarded by the Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, Ernst and Young, McKinsey, *(e)* Deloitte and *(f)* any other consultancy firms in each of the last 12 months would incur disproportionate cost.

The (i) purpose of the contracts is the provision of advice, guidance, training and operational development and support in a broad range of areas from business change to technical development.

The latest information held by the Home Department on the (ii) value of the total spend with the named companies relates to the FY 2006-07 and is as follows:

Home Office including agencies 2006-07	£
Deloitte and Touche	13,753,669
Ernst and Young	4,675,868
KPMG	1,873,314
McKinsey	1,600,000
PricewaterhouseCoopers	4,669,861

The latest information held on the Department's total consultancy spend inclusive of that with the named companies above for the FY 2006-07 is as follows:

£

Financial year	HO headquarters	IPS	Total spend
2006-07	118,000,000	29,870,522	147,870,522

Departmental Recruitment

Mr. Hoban: To ask the Secretary of State for the Home Department whether the policy of British jobs for British workers will affect her Department's recruitment policy. [179876]

Mr. Byrne: I refer the hon. Gentleman to the answer given to the House by the Parliamentary Secretary at the Cabinet Office (Mr. Watson) on 3 March 2008, *Official Report*, column 2206W.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for the Home Department when her Department plans to publish its sustainable operations policy statement. [195868]

Mr. Byrne: In order to meet the requirements of the sustainable operations in Government targets a new sustainable operations policy statement has been prepared and will be issued in the next few months following approval by the relevant Home Office Boards.

Detention Centres: Offenders

David Davis: To ask the Secretary of State for the Home Department how many time-served foreign national prisoners being held in immigration removal centres were convicted of *(a)* Class A drug trafficking, *(b)* terrorist offences and *(c)* violent offences. [196841]

Jacqui Smith: The information requested is not available and could only be provided at disproportionate cost.

Drug Seizures

David Davis: To ask the Secretary of State for the Home Department what estimate she has made of the proportion of drugs seized by the Serious and Organised Crime Agency in 2006-07 that were ultimately destined for the UK. [195706]

Jacqui Smith: SOCA's 2006-07 annual report detailed the total volume of Class A drugs seizures in which the agency was involved. No attempt was made to estimate what percentage of these seizures were ultimately destined for the UK, as such estimates would be subjective and likely to be inaccurate.

Drug Seizures: Cannabis

David Davis: To ask the Secretary of State for the Home Department how much cannabis was seized by the Serious and Organised Crime Agency in 2006-07. [195538]

Jacqui Smith: The amount of cannabis seized by the Serious Organised Crime Agency as a result of UK-based operations in 2006-07 was as follows:

	Kg
Resin	9,107
Herbal	616
Skunk	315
Total	10,038

Entry Clearances: Kenya

Charles Hendry: To ask the Secretary of State for the Home Department how many people seeking to enter the UK from *(a)* Kenya and *(b)* South Africa have been refused entry due to confirmed or suspected cases of tuberculosis in the last 12 months. [197735]

Mr. Byrne *[holding answer 31 March 2008]*: The Border and Immigration Agency does not collect statistics on the numbers of passengers who are refused leave to enter as a result of having tuberculosis.

Foreign Workers

Mr. Soames: To ask the Secretary of State for the Home Department under what arrangements unskilled or low-skilled migrants from outside the EU were allowed to migrate to the UK in 2007; what maximum stay in the UK was permitted under each arrangement; how many migrants entered the UK under each arrangement in 2007; and what will happen to these arrangements when the points-based migration system becomes fully operational. [196519]

Mr. Byrne *[holding answer 25 March 2008]*: In 2007, 60 per cent. of the Seasonal Agricultural Workers Scheme (SAWS) quota (16,250) could be filled through applications from outside the European Union, the remainder through applications from Romania or Bulgaria. The maximum stay permitted under SAWS is six months. From 2008, applications to SAWS are accepted only from Romania and Bulgaria. SAWS will be phased out by 2010.

Domestic workers in private households may accompany their employer to the UK. Leave may be granted for a period of 12 months initially, with the possibility to extend and apply for settlement once they have spent a continuous period of five years in the UK in this capacity. The latest published figure is that 12,500 entered in 2006.

There are no plans for a separate route for overseas domestic workers in private households, under the points-based system.

Low skilled schemes will be catered for under tier 3 of the points-based system. However, tier 3 is currently suspended and will remain so as long as labour market restrictions are in place for Romania and Bulgaria.

Frontiers: Security

Mr. Paterson: To ask the Secretary of State for the Home Department what *(a)* discussions there have been on and *(b)* consideration has been given to the merits of setting up an e-borders system around the Common Travel Area. [168411]

Mr. Byrne: We continue to work closely with the Government of the Republic of Ireland on operational, policy and legislative issues that affect the common travel area (CTA), including on the implementation of the e-Borders programme which is a key part of the Government's plans for securing our borders.

As set out in our 'Securing the UK Border' strategy, March 2007, the CTA presents immigration risks and we are reviewing the rules and operation of the CTA to explore how border security can be strengthened. Monitoring all major air and sea movements across CTA borders via e-Borders by 2011 is one of the measures we are taking to strengthen operation of the CTA. The results of the review will be announced in due course.

Genetics: Databases

Jenny Willott: To ask the Secretary of State for the Home Department how many DNA samples from the National DNA database have been used for each research project undertaken using data from the National DNA database to date; and if she will make a statement. [182636]

Meg Hillier: I refer the hon. Member to the reply I gave her on 7 January 2008, *Official Report*, column 281W.

Homicide: Greater London

David Davis: To ask the Secretary of State for the Home Department how many homicides were recorded by the Metropolitan police in (*a*) 2000-01 and (*b*) 2006-07. [196838]

Jacqui Smith: Available Home Office data are from the homicide index and relate to offences currently recorded as homicide. As at 12 November 2007, when recording closed down for the purpose of analysis, the Metropolitan police service had recorded 178 homicides in 2000-01 and 167 in 2006-07. These are not necessarily the years in which the incidents took place or the years in which any court decisions were made. Figures will change as subsequent court hearings take place or other information is received.

Human Trafficking

Mr. Sarwar: To ask the Secretary of State for the Home Department what steps have been taken to assist trafficked persons discovered during Pentameter 1. [198248]

Maria Eagle: I have been asked to reply.

Operation Pentameter 1 recovered 88 possible victims. Victims were assisted into support services or returned to their country of origin. During the campaign specific guidance was given to police officers on appropriate victim care and police forces were asked to scope local service provision to help develop local strategies and partnerships.

Identity Cards: Banks

David Davis: To ask the Secretary of State for the Home Department what discussions she and Ministers in her Department have had with representatives of high street banks on identity cards in the last 12 months; and what was the date of each such meeting. [187426]

Jacqui Smith: There have been no ministerial meetings on identity cards with representatives from the banking sector within the last 12 months.

Police Custody: Expenditure

Jenny Willott: To ask the Secretary of State for the Home Department for how much her Department has been invoiced for costs incurred under Operation Safeguard, since the start of 2008, broken down by police force; and if she will make a statement. [197311]

Mr. Straw: I have been asked to reply.

Police forces invoice in arrears for the cost of holding prisoners under Operation Safeguard.

The following table shows the amounts invoiced by police forces this year up to 27 March. Some of the costs relate to Safeguard use in 2007.

Police authority	*Total invoiced (£)*
North Wales	437,025.55
West Yorkshire	181,194.95
Leicestershire	30,766.69
Kent	288,436.77
South Yorkshire	55,076.00
Thames Valley	138,229.75
Metropolitan	1,114,133.18
Devon and Cornwall	105,281.00
Total invoiced	2,350,143.89

Police cells have been used to hold prisoners before. They were used to hold prisoners regularly from 1982 until 1993, and from 1994-95. They were also used from July to November 2002. Their use peaked in 1988, and peaked again in 1990-92, when more than 1,000 prisoners a night were being regularly held in police cells.

Police Stations

David Davis: To ask the Secretary of State for the Home Department pursuant to the answer of 5 February 2008, *Official Report*, columns 994-5W, on police stations, for what reasons changes in the use of police buildings have made it difficult to obtain comprehensive information as to the number of police stations in use. [186931]

Jacqui Smith: The use of police stations has changed in recent years to reflect more flexible modern policing. Many forces have now devised innovative ways of increasing their accessibility to members of the public by using other more modern methods of interaction, such as police shops in high streets, police kiosks and by use of mobile police stations—particularly in rural areas.

The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who are responsible for assessing local needs.

Police: Dismissal

Chris Huhne: To ask the Secretary of State for the Home Department how many and what proportion of police officers in each force were dismissed through the incapability procedure in each year since 1997. [197294]

Jacqui Smith: The information requested is not centrally collected as part of the police personnel statistics series.

Police: Pensions

Chris Huhne: To ask the Secretary of State for the Home Department what the contribution rates were for police officers to the contributory pension scheme in the latest year for which figures are available. [197295]

Jacqui Smith: There are two police pension schemes in England and Wales, the Police Pension Scheme (1987) (PPS) and the New Police Pension Scheme (2006) (NPPS) which was introduced for new entrants with effect from 6 April 2006.

The employee contribution rate for the PPS is 11 per cent. of pensionable pay (7.5 per cent. if an officer is ineligible for ill-health benefits).

The employee contribution rate for the NPPS is 9.5 per cent. of pensionable pay (6 per cent. if an officer is ineligible for ill-health benefits).

Police: Resignations

David Davis: To ask the Secretary of State for the Home Department how many police officers resigned from police forces in England and Wales in each of the last five years; and if she will make a statement. [185627]

Jacqui Smith *[holding answer 18 February 2008]:* The available data are given in the following table.

Officer resignations have remained stable in the last four years (2003-04 to 2006-07) and the figures represent 1.5 per cent. 1.4 per cent. 1.5 per cent. and 1.5 per cent. of total officer strength respectively in each year.

Police officer resignations[1] by police force area (FTE[2]) from 2002-03 to 2006-07[3,4]

	2002-03[5]	2003-04	2004-05	2005-06	2006-07

West Midlands	89	107	119	137	105
West Yorkshire	34	46	72	89	65
Wiltshire	18	18	24	26	16
Total	1,316	2,026	2,042	2,133	2,151

[1] Resignations also include those officers who have rejoined the force as part of the 30+ scheme and subsequently leave the force.
[2] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[3] Financial year runs 1 April to 31 March inclusive. Comparable data are not available prior to 2002-03.
[4] Data have not previously been previously published in this format therefore totals may not match totals found in the published data.
[5] Excludes quarter 1, data not available.

Police: Sick Leave

Chris Huhne: To ask the Secretary of State for the Home Department *(a)* how many working days were lost to sickness, *(b)* what the average number of working days per staff member lost to sickness was and *(c)* what percentage of days lost to sickness were attributed to stress-related conditions for (i) police officers, (ii) other police staff and (iii) other departmental staff in each of the last five years. [195015]

Jacqui Smith: The available data relating to police sickness absence have been centrally collected from 2002-03 and is set out in Table A. The data are available on the Home Office website, located at:

http://www.police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

The method of counting police officer sickness was changed in 2004-05. For and prior to 2003-04 it is counted on the basis of days lost per officer. From 2004-05 police sick absence data has been collected and published in hours per officer. The change was made to reflect the fact that the police officers and staff do not work a conventional day and are employed on differing shift patterns.

The Home Office does not hold data on the reasons for sick absence in the police service.

Information on sick absence for the Home Office and its agencies. Home Office staff data represents the number of working days lost to sickness, the number of days lost to sickness per member of staff and the percentage of sickness attributed to stress.

Table A Police service: Average number of hours lost per annum to sickness

	Police officers	Police staff
2002-03[1]	10.4 days	11.7 days
2003-04[1]	9.6 days	10.9 days
2004-05	70.9 hours	72.6 hours
2005-06	69.3 hours	77.4 hours
2006-07	69.7 hours	74.8 hours

[1] Data is incomplete for those years.

Table B

	2003	2004	2005	2006	2007
Home Office HQ					
Working days lost to sickness			23,564	30,082	24,393
Average number of working days lost to sickness per member of staff			5.12	5.99	6.9
Percentage of days lost to sickness attributed to stress			23	25	24
Border and Immigration Agency					
Working days lost to sickness			157,066	164,181	197,476
Average number of working days lost to sickness per member of staff			10.17	10.31	11.27
Percentage of days lost to sickness attributed to stress			11.39	11.80	14.22
Criminal Records Bureau					
Working days lost to sickness			3,700	3,100	4,300
Average number of working days lost to sickness per member of staff			9.2	8.2	10.5

Identity and Passport Service					
Working days lost to sickness	32,724	33,087	36,386	38,822	42,324
Average number of working days lost to sickness per member of staff	13.5	12.64	11.34	10.21	9.73
Percentage of days lost to sickness attributed to stress	27	23	24	24	24

[1] The data in the table has been extracted from the Home Office HQ and Border and Immigration Agency personnel system

[2] The Home Office HQ and Border and Immigration Agency's data for 2003 and 2004 is not available due to lack of central recording

[3] CRB do not centrally hold sick absences due to stress related conditions therefore this information is not available

[4] Information on sick absence for CRB was not collected and held centrally until 2005 therefore data are only available for the last three years.

[5] Not available

Prosecutions

David Davis: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted and *(b)* convicted as a result of National Crime Squad investigations in 2005-06. [195542]

Jacqui Smith: In 2005-06, 520 people were charged as a result of National Crime Squad operations and, during the same period, 404 people were convicted.

Rackspace

Mr. Hands: To ask the Secretary of State for the Home Department what the total value was of each contract awarded to Rackspace by *(a)* her Department and *(b)* its agencies in each of the last nine years. [197514]

Mr. Byrne: From best available records the *(a)* Home Department and *(b)* its executive agencies have not awarded contracts to Rackspace.

Security: ICT

David Davis: To ask the Secretary of State for the Home Department what assessment she has made of the threat posed by storm worm trojans to IT infrastructure in the UK. [197074]

Jacqui Smith: No assessment has been made of this particular type of trojan. However, the Government works closely with law enforcement and the private sector to understand the threats to the UK from the internet.

Serious Organised Crime Agency

David Davis: To ask the Secretary of State for the Home Department pursuant to the answer of 11 March 2008, *Official Report*, column 357W, on the Serious Organised Crime Agency, for which offences the 15 individuals were convicted. [195713]

Jacqui Smith: Three of the 15 individuals were convicted in Russia of 10 counts of extortion each. The remaining 12 were convicted in UK courts of at least one of the following offences:

Conspiracy to defraud

Money laundering

Possession of false instruments with intent

Indecency with a child

Hacking

Blackmail

Making indecent images of a child

Possessing indecent images of a child

Possession of controlled drugs with intent to supply

Supply of class B drugs

Deception

Sexual Offences: Disclosure of Information

David Davis: To ask the Secretary of State for the Home Department how she plans to evaluate the effectiveness of the pilot scheme on disclosure of child sex offenders' convictions to certain members of the public. [196959]

Jacqui Smith: The details of the pilot scheme, including the method of evaluating the pilots' effectiveness in term of child protection, are currently being developed. This—as well as all other aspects of the pilots—is overseen by Project Board, on which the Home Office, the Ministry of Justice, the Department for Children Schools and Families, ACPO, Barnardos, NCH and NSPCC are represented.

Stowaways

Mr. Evans: To ask the Secretary of State for the Home Department how much was raised from fines of drivers of vehicles carrying stowaways in each year since the inception of such fines. [163092]

Mr. Byrne *[holding answer 12 November 2007]:* The civil penalty regime was amended by the Nationality, Immigration and Asylum Act which came into effect on 8 December 2002. Flexible penalties were introduced enabling separately imposed penalties on companies and drivers as apposed to fixed penalties of £2000 per clandestine entrant.

The regime now ensures that if the owner or hirer of a vehicle is also the employer of the driver, they remain jointly and severally liable to the payment of the driver's penalty.

Since the inception of civil penalties within European Operations locally collated management information indicate the following amount of revenue raised from fines to drivers and hauliers.

These figures take into account the objection and appeals process by which penalties could be reduced or cancelled and include payment for penalties imposed in previous years. Information relating to the revenue raised from drivers' penalties alone is not available.

	Total penalties received (£)
2003	490,092
2004	749,076
2005	981,135
2006	1,033,240
2007	1,357,703

Terrorism: Convictions

Chris Huhne: To ask the Secretary of State for the Home Department how many convictions there have been for terrorist offences in each year since 1997. [196823]

Jacqui Smith *[Holding answer 26 March 2008]:* The number of individuals convicted since 1997 under the Prevention of Terrorism (Temporary Provisions) Acts 1974 and 1976 is available on the Home Office website in "Statistics on the Operation of the Prevention of Terrorism Legislation, Great Britain". This publication details detentions under this Act and outcomes including statistics on individuals found guilty. It is available quarterly through the 'archive' page back to 1979.

http://www.homeoffice.gov.uk/rds/hosbarchive.html

The Terrorism Act 2000 came into force on 19 February 2001. Statistics compiled from police records are available on the Home Office website from 11 September 2001 to 31 March 2007.

http://www.homeoffice.gov.uk/security/terrorism-and-the-law/?view=Standard

These detail arrests under this Act and under other legislation where the investigation is considered terrorist related and the outcomes to those arrests, including convictions.

For this period, there were 41 Terrorism Act convictions and 183 convictions under other legislation.

In addition to the above, statistics on the number of convictions in significant terrorist cases are collated for 2007 and 2008. In 2007, 37 individuals were convicted in 15 significant terrorist cases. 21 of those individuals pleaded guilty. So far in 2008, 21 people have been convicted in seven significant terrorist cases. Of these 21, 10 individuals pleaded guilty.

Figures are complied from police records and are subject to change as cases go through the system. The Home Office is currently working with the police to review how terrorism statistics are collated.

Terrorism: Internet

David Davis: To ask the Secretary of State for the Home Department how many websites have been shut down for terrorism-related reasons since 1997; and how many of these websites have subsequently reopened. [182216]

Jacqui Smith: The legislation that allows us to request that unlawfully terrorism related material is modified or removed from the internet is Section 3 of the Terrorism Act 2006. Section 3 allows a constable to serve a notice where he or she believes illegal terrorism related material is available on the internet, on the person(s) responsible for that material. The notice requires that the terrorism related material be removed or modified within two working days. The preferred route of the police (recommended in the guidelines on using Section 3 notices) is not to issue formal Section 3 notices in the first instance, but to use informal contact with communication service providers instead. To date this has proved effective, but statistics covering the number of sites removed through such informal contact are not available. The police have no record of any Section 3 notices being issued, and statistics on the use of Section 3 notices are not collected by the Home Office.

Terrorism: Prosecutions

David Davis: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted and *(b)* convicted of the offence of acts preparatory to terrorism under the Terrorism Act 2006. [164064]

Jacqui Smith *[holding answer 13 November 2007]:* The Terrorism Act 2006 came into force in April of that year. Statistics compiled from police records show that, to date, seven individuals have been prosecuted for acts preparatory to terrorism under this legislation and of these, five individuals have been convicted.

Work Permits

Mr. Lilley: To ask the Secretary of State for the Home Department how many employers applied for work permits in each of the last three years. [197765]

Mr. Byrne *[holding answer 31 March 2008]:* The information requested could only be obtained by the detailed examination of individual case records at disproportionate cost.

SOLICITOR-GENERAL

Shoplifting: Convictions

Miss McIntosh: To ask the Solicitor-General how many successful prosecutions have been brought for shoplifting in each of the last five years. [197400]

Maria Eagle: I have been asked to reply.

Data showing the number of defendants found guilty at all courts, cautioned and issued with Penalty Notices for Disorder for the offence of theft from a shop or stall in England and Wales for the respective years 2002 to 2006 are in the following table.

PNDs and conditional cautions, in addition to simple cautions, allow low level offending to be dealt with effectively outside court when it is not in the public interest to prosecute.

Under the Penalty Notice for Disorder Scheme rolled out to all forces in England and Wales in 2004, a fixed penalty of £80 can be issued for shoplifting of goods, normally up to a value of £100. The offence was added to the scheme in November 2004.

National roll-out of conditional cautions began in June 2006.

The figures given in the table on prosecutions relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings, cautions and Penalty Notice for Disorder data for 2007 will be available in the autumn of 2008.

Number of defendants found guilty, cautioned and issued with penalty notices for disorder for the offence of theft from a shop or stall, England & Wales, 2002 to 2006[1,2]

	Found guilty	*Cautioned*[3]	*Penalty notices for disorder*[4]
2002	80,166	34,190	n/a
2003	74,927	35,384	n/a
2004	69,541	41,165	2,072
2005	64,076	44,009	21,997
2006	58,536	45,054	38,772

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes conditional cautions.

[4] The Penalty Notice for Disorder Scheme was rolled out to all police forces in 2004. The police can issue a fixed penalty of £80 for shoplifting of goods up to the value of £200.

TREASURY

Car Allowances

Jo Swinson: To ask the Chancellor of the Exchequer (1) when he next plans to review the recommended level of free mileage rates for business journeys in employees' own vehicles; [198545]

(2) when the last review of the recommended level of free mileage rates for business journeys in employees' own vehicles took place; [198546]

(3) what recent representations he has received on the review of the recommended level of tax-free mileage rates for business journeys in employees' own vehicles; [198440]

(4) whether increases in fuel costs are taken into account when setting the level of tax-free mileage rates for business journeys in employees' own vehicles. [198441]

Angela Eagle: I refer the hon. Lady to the answer I gave the hon. Member for Mid-Dorset and North Poole (Annette Brooke) on 13 March 2008, *Official Report*, column 535W. I also refer the hon. Lady to the answer I gave the hon. Member for Stroud (Mr. Drew) on 7 January 2008, *Official Report*, column 306W. The Approved Mileage Allowance Payments (AMAPs) system was reformed in 2002. The Government keep AMAP rates and thresholds under review as part of the PBR and Budget process.

Departmental Training

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197030]

Angela Eagle: The National School of Government's records for the period 1 April 2007 to 31 March 2008 indicate the following attendances for HM Treasury and HM Revenue and Customs:

seven officials attended 'Influencing with integrity' (four from HMRC at a total cost of £2,904 and three from HM Treasury at a total cost of £2,178); and

two HMRC officials attended 'Emotional intelligence' (at a total cost of £2,990).

Departmental Working Hours

Mr. Hoban: To ask the Chancellor of the Exchequer how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195812]

Angela Eagle: Staff in HM Treasury can complete a flexi hours timesheet, but it is not mandatory to do so. Around 80 per cent. of staff complete the timesheet each month, this equates to an average of 37 hours per week per employee. This average will include part-time staff whose standard working week is less than 36 hours net.

Housing

Danny Alexander: To ask the Chancellor of the Exchequer what his estimate is of the number of owner-occupiers in each income decile, broken down by region. [196544]

Mr. Iain Wright: I have been asked to reply.

The available information, derived from the Department of Work and Pension's "Family Resources Survey" (FRS), is given in the following tables. Since the question does not specify whether the basis for income should be before or after housing costs have been deducted both sets of figures have been determined.

Table 1: Number of owner-occupied households by equivalised income decile and region/country, before housing costs (3-year average: 2003-04 to 2005-06)

million

Region/country	*Bottom decile*	*Second decile*	*Third decile*	*Fourth decile*	*Fifth decile*	*Sixth decile*	*Seventh decile*	*Eighth decile*	*Ninth decile*	*Top decile*	*All owner-occupied households*

UK	1.1	1.0	1.4	1.6	1.8	1.9	2.0	2.1	2.3	2.5	17.8

Notes:

1. Averages based on three survey years are given because the sample sizes for individual regions for single years are too small to produce robust annual estimates.
2. The income measures used to derive the estimates shown employ the same methodology as the DWP publication 'Households Below Average Income' (HBAI) series, which uses disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living.
3. The figures are based on OECD equivalisation factors.
4. The national median income of the survey year in question has been used (i.e. the contemporary median) instead of using a fixed median for a particular year. This is consistent with the preferred way of measuring poverty.
5. Owner-occupied households are defined as households that are either owned outright or are being bought with a mortgage.
6. Figures are given in millions rounded to the nearest 100,000 households. Some figures may not sum due to rounding.

Source:

Family Resources Survey 2003/04, 2004/05, 2005/06

Danny Alexander: To ask the Chancellor of the Exchequer what his estimate is of the number of owner-occupier households earning below 60 per cent. of median income *(a)* who are working and *(b)* who are unemployed in each region; and what his estimate is of the number of owner-occupiers earning below 40 per cent. of median income (i) who are working and (ii) who are unemployed in each region. [196545]

Mr. Iain Wright: I have been asked to reply.

The most common and internationally recognised threshold to measure poverty is income below 60 per cent. of median. The Department for Work and Pensions (DWP) does not present information covering 40 per cent. of median income in our Households Below Average Income series as it is not a sound measure of poverty. This is because households stating the lowest incomes to the Family Resources Survey may not actually have the lowest living standards.

Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994-95 to 2005-06", published by the DWP. This annual report, which is a National Statistics publication, includes the number and proportion of individuals, children, working age adults and pensioners with incomes below 50 per cent., 60 per cent. and 70 per cent. of median income, and the proportion in persistent poverty.

The available information, derived from the DWP's "Family Resources Survey" (FRS), is given in the following tables. However, it should be noted with regards to the information in the tables that robust estimates are not available for each individual region for owner-occupied households below 40 per cent. of contemporary median income because of small samples.

Although the question asks for the number of owner-occupied households who are unemployed, the tables show the number of workless households the reason for this is given in note 7.

The question does not specify whether the basis for income should be before or after housing costs have been deducted so both sets of figures have been given.

Table 1a Number of working and workless owner-occupied households with less than 60 per cent. of contemporary median household income before housing costs, by region or country, three year averages, 2003-04 to 2005-06

million

Million

Region/ country	*Working owner-occupied households*	*Workless owner-occupied households*	*All owner-occupied households*
UK	0.5	0.4	1.0

Notes

1. Averages based on three survey years are given, because the sample sizes for individual regions for single years are too small to produce robust annual estimates.
2. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication "Households Below Average Income" (HBAI) series, which uses disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.
3. Income includes housing benefit, where applicable. Housing costs include rents, where applicable. This definition is standard international best practice.
4. The figures are based on OECD equivalisation factors.
5. The national median income of the survey year in question has been used (i.e. the 2003-04 median income is the basis of the results for the 2003-04 survey year) instead of using a fixed median for a particular year. This is consistent with the preferred way of measuring poverty.
6. Owner-occupied households are defined as households that are either owned outright or are being bought with a mortgage.
7. A household is defined as workless if no one within the household is classified as working. So 'workless' embraces all the 'not working' categories: unemployed, retired, student, looking after family/home, permanently sick/disabled, temporarily sick/injured and other inactive. DWP prefer to answer this PQ in a manner consistent with their publications. In any case, if they had limited the analysis to just 'unemployed', the sample size would have been too small to produce anything robust or meaningful.
8. Within households, pensioners are excluded from the classifications if they are not working, and are included if they are working. For example, a household with a pensioner in work, but a working age person not in work, would be in the working households category. This is consistent with the definition of the economic status of the household used in the "Households Below Average Income" publication.
9. Figures are given in million, rounded to the nearest 100,000 households. Some figures may not sum due to rounding.
10. This response includes a lower income threshold of 40 per cent. of the contemporary median income. The data for families with an income lower than 50 per cent. of median is not considered to be accurate as an indicator of living standards. Many of these households while having very low incomes would not be considered poor, but who do genuinely have few sources of income in the short-run. These figures are not National Statistics and caution must be applied because those people stating the lowest incomes in the FRS may not actually have the lowest living standards.

Family Resources Survey 2003-04, 2004-05, 2005-06.

Housing: Prices

Danny Alexander: To ask the Chancellor of the Exchequer what the average *(a)* price and *(b)* rental costs of housing was in each year since 1990, broken down by (i) size, (ii) type and (iii) region. [196761]

Mr. Iain Wright: I have been asked to reply.

A range of tables showing recent trends in property prices and rents are set out as follows. Property price information is provided for the whole of the UK but rental information from the Survey of English Housing is available for England only.

Property price data goes back to 1990, as requested but rental information is only available for later years.

Table 1 Average property price by Government office region, England, 1990-2007

£

	North East	North West	Yorkshire and Humber	East Midlands	West Midlands	East	London	South East	South West
1990	41,374	50,361	47,231	52,620	54,694	71,671	83,821	81,638	65,378
1991	45,395	52,951	52,343	55,740	58,659	69,865	85,742	80,696	65,346
1992	47,485	56,488	52,291	54,551	57,881	65,198	78,049	76,528	61,654

Survey of English Housing
Derived from CLG Live Table No.734
http://www.communities.gov.uk/documents/housing/xls/141656

Income: Gold

Mr. Hoyle: To ask the Chancellor of the Exchequer how much revenue has been raised from sales of (*a*) gold and (*b*) mobile telephone licences in the last 10 years; and what such revenue was used for. [196808]

Angela Eagle: The information requested is as follows:

Gold

395 tonnes of gold were sold from the reserves between July 1999 and March 2002 and re-invested in interest-bearing foreign currency assets. The total proceeds were around $3.5 billion, equivalent to around £2.3 billion (using exchange rates at the time of the sales).

Mobile telephone licences

The auction of wireless telegraphy licences for 3G mobile telephony raised £22,477.4 million in May 2000. Ofcom has since held three further auctions of licences on a technology and application neutral basis in frequency bands suitable for mobile communications (in May 2006, October 2006 and May 2007) raising a total of £5.64 million.

The aim of the auctions was not to raise revenue but to secure optimal use of the radio spectrum. Receipts from spectrum awards are passed to the Consolidated Fund. The Consolidated Fund receives the proceeds of taxation and certain other Government receipts and finances the nation's general expenditure.

Landfill Tax: Tax Yields

Julia Goldsworthy: To ask the Chancellor of the Exchequer whether his Department makes estimates of the amount of landfill tax receipts it receives from each local authority. [198802]

Angela Eagle: It is not possible using landfill tax receipts data to determine how much revenue is received from local authorities. This is because registered landfill site operators pay the tax to HM Revenue and Customs and pass on the cost to their customers through the disposal charges they set. The origin of the landfilled waste is not recorded on the tax return.

National Savings and Investments: Marketing

Mr. Gauke: To ask the Chancellor of the Exchequer (1) what the advertising and sponsorship budget of National Savings and Investments was in each of the last five years; [198397]

(2) what discussions he has had with representatives of National Savings and Investments since September 2007 on its advertising budget. [198398]

Angela Eagle: Treasury Ministers and officials discuss a wide range of issues with National Savings and Investments.

The following table summarises spend for advertising and sponsorship in NS&I over the past five financial years.

	Spend (£ million)
2002-03	10.4
2003-04	6.1
2004-05	12.7
2005-06	17.7
2006-07	15.1

Northern Rock

Dr. Cable: To ask the Chancellor of the Exchequer what distinct payments have been made by the Bank of England to Northern Rock in each of the last five years; and on what date each amount was transferred between the parties. [166508]

Angela Eagle: This is a commercial matter between the Bank of England and Northern Rock.

Adam Price: To ask the Chancellor of the Exchequer what range of estimates of the potential level of support required by Northern Rock were provided to his Department by (*a*) Northern Rock, (*b*) the Financial Services Authority and (*c*) the Bank of England prior to the agreement to provide financial support. [183920]

Angela Eagle *[holding answer 1 February 2008]*: Information provided on Northern Rock's financial position by the company itself, the Financial Services Authority or the Bank of England remain commercially confidential, and in some cases would be covered by statutory restrictions on disclosure under the Financial Services and Markets Act 2000. The provision of liquidity support by the Bank of England as lender of last resort was addressed in HM Treasury's statement of 14 September 2007 and in subsequent statements. The provision of additional facilities by the

Bank of England, in respect of which HM Treasury provided an indemnity, was addressed in HM Treasury's statement of 11 October 2007 and in subsequent statements.

Northern Rock: Freedom of Information

Mr. Dai Davies: To ask the Chancellor of the Exchequer what the reasons were for providing that sections 4 and 6 of the Freedom of Information Act 2000 will not apply to Northern Rock under public ownership in the Banking (Special Provisions) Bill. [189564]

Angela Eagle: As the chief secretary to the Treasury explained to the House on 21 February 2008, *Official Report*, columns 634-37, Northern Rock is not performing a public function. The company is a purely commercial concern operating at arm's length from the Government in a competitive environment. Moreover, it has been taken into public ownership only on a temporary basis. On this basis, it would be inappropriate to make Northern Rock subject to the Freedom of Information Act 2000.

Northern Rock: Nationalisation

Mr. Hands: To ask the Chancellor of the Exchequer what recent discussions he has had with the European Competition Commissioner on the effects the nationalisation of Northern Rock has had on the competitive environment in banking in the European Union. [194568]

Angela Eagle *[holding answer 14 March 2008]*: Treasury Ministers and officials discuss a wide range of issues with the European Commission, including the temporary public ownership of Northern Rock.

Northern Rock: Public Appointments

Mr. Hoban: To ask the Chancellor of the Exchequer what Ann Godbehere's remuneration package is as chief financial officer of Northern Rock, including *(a)* annual salary, *(b)* pension contributions, *(c)* potential bonus payments and *(d)* non-financial benefits. [188871]

Angela Eagle: As HM Treasury announced on 17 February 2008, Ann Godbehere is being paid £75,000 per month. This is a flat rate.

Mr. Hoban: To ask the Chancellor of the Exchequer what Ron Sandler's remuneration package is as executive chair of Northern Rock, including *(a)* annual salary, *(b)* pension contributions, *(c)* potential bonus payments and *(d)* non-financial benefits. [188874]

Angela Eagle: As HM Treasury announced on 17 February 2008, Ron Sandler is being paid £90,000 per month. This is a flat rate.

Written Answers to Questions

Monday 21 April 2008

HOUSE OF COMMONS COMMISSION

Legal Costs

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was spent on legal advice and services in each year from 1997 to date; and how much in each such year was paid to Carter-Ruck and Partners. [195856]

Nick Harvey: The cost of legal advice and services has been as follows:

£

	Legal advice	*Other legal costs*	*Total costs*	*Carter-Ruck and Partners*
2003-04	108,921		108,921	
2004-05	96,737	96,154	192,891	
2005-06	196,283	79,159	275,442	
2006-07	134,515	596,586	731,101	
2007-08 to date	243,337	309,266	552,603	21,517

The other legal costs include fees paid in connection with the refurbishment of Norman Shaw South, and the construction of Portcullis House and the Visitor Reception Building. Details of similar costs prior to 2003 are not available.

Two previous answers on legal costs—4 June 2007, *Official Report*, column 23W, and 23 July 2007, *Official Report*, column 659W—included some costs that had been incorrectly allocated to particular years. The figures now provided, correct the earlier position.

Parking

Mr. Greg Knight: To ask the hon. Member for North Devon, representing the House of Commons Commission what air filtering, circulating or cleansing system services the hon. Members' underground car park; when this system was last operational; and if he will make a statement. [198737]

Nick Harvey: The underground car park ventilation system was installed around 1977 when the car park was built. It services all car park levels using a supply and extract air plant with filters and duct work.

The system is maintained and inspected on a monthly basis. This was last done on 17 March 2008. Deep cleaning of the ducts was last completed during 2007. The system was last fully operational around 2001 when the original automatic system controls needed to be replaced with an interim manual controls arrangement. Since then a reduced level of air changes has been provided. However, the rate of air change will be increased by 21 April 2008 to the original level. Major refurbishment of the system is planned currently for 2010-11.

SCOTLAND

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Scotland what visits he made to (*a*) Harrogate International Centre, (*b*) International Conference Centre, Birmingham, (*c*) Manchester Central, (*d*) Scottish Exhibitional and Conference Centre, Glasgow, (*e*) Edinburgh International Conference Centre, (*f*) Bournemouth International Conference Centre, (*g*) the Brighton Centre, Brighton, (*h*) the Riviera Centre, Torquay, (*i*) Queen Elizabeth Centre, London, (*j*) Excel Conference Centre, Docklands, London, and (*k*) Business Design Centre, Islington, London, in the period 1st January 2005 to 31st December 2007; and what events he attended at each. [197162]

Des Browne: I have not visited any of the listed venues in a ministerial capacity between 1 January 2005 and 31 December 2007.

Official Engagements

Dr. Fox: To ask the Secretary of State for Scotland what his official engagements were between 25 February and 1 April 2008. [199486]

Des Browne: Throughout the period 25 February and 1 April, I had various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office. In addition, on 26 February I had a video/telephone conference with the NATO Secretary-General, Jaap de Hoop Scheffer. On 28 February, I met the Australian high commissioner. On 29 February, I visited HMS Gannet and met with representatives of the Scottish Pensioners Forum in Edinburgh. On 3 March, I answered Defence questions in the House of Commons and, in the evening, attended the graduation reception of the Armed Forces Parliamentary Scheme. On 4 March I had separate meetings with the Dutch ambassador, with Dr. Paul Sender, the recently-returned head of the British Health Organisation in Afghanistan, and with a representative of the media. On 5 March, I answered Scottish questions in the House of Commons. On 6 March, had a meeting with Gerry Grimstone, the chairman of Standard Life. I also had meetings with the Albanian Defence Minister, with former Chiefs of the Defence Staff in the House of Lords, and with my hon. Friend the hon. Member for Grantham and Stamford (Mr. Davies) on the Armed Forces National Recognition Study. On 8 March, I attended a Veterans Badge presentation event in Edinburgh and the RBS six nations Scotland versus England rugby match at Murrayfield. On 19 March, I met representatives of the Scottish War Widows Association at 10 Downing Street. On 25 March, I met the bereaved mother of a serviceman. On 26 March, I gave an interview to a national newspaper and attended President Sarkozy's parliamentary address at the House of Commons. On 27 March, I attended the Anglo-French Summit, which included a bilateral meeting with the French Defence

Minister. On 31 March, I attended the launch for Stephen Walker's book, "Shot at Dawn". On 1 April, I attended the Media Launch of TA100, the 100th anniversary of the Territorial Army, at the Tower of London and the fly past for the RAF 90th anniversary at MOD Main Building.

Official Visits

Dr. Fox: To ask the Secretary of State for Scotland what visits he has made in his capacity as Secretary of State for Scotland since July 2007. [190822]

Des Browne: My Ministry of Defence and Scotland Office diaries and public engagements are closely co-ordinated, it is therefore appropriate to cover both portfolios in the response for completeness.

On 10 July, I visited Berlin for a meeting with the German Defence Minister. On 12 and 13 July I was in Belgium to attend the Tyne Cot ceremony and for a meeting with Javier Solana. Between the 13 and 15 July, I visited Paris to attend Bastille Day celebrations. On 21 July, I was at the University of Strathclyde for the UK Youth Parliament annual sitting. On 1 August I visited Standard Life in Edinburgh, and on 2 August I visited Aegon and Selex Sensors in Edinburgh. On 3 August I went to visit Rolls Royce in East Kilbride, and on 4 August I had dinner with General Officer Commanding 2 Division, Edinburgh. The following day, I attended the National Youth Orchestra of Scotland performance in Glasgow. Between 6 and 10 August I was in Afghanistan. On 11 August, I attended the FEBA Highland Games event at Strathclyde country park, Motherwell, and then saw a performance of On Danfe at Edinburgh Playhouse. I visited WL Gore Co. Ltd. in Livingstone on 14 August, and on the 16 August I visited Seebyte in Edinburgh. The following day I visited Mahle Engine Systems in East Kilbride and watched the Simón Bolivar Youth Orchestra of Venezuela concert in Edinburgh. On Sunday 19 August I spoke at the Celebration of Indian Independence dinner in Glasgow. On Monday 20 August I visited Highland Spring. Later that day I visited the Diageo Bottling Plant in Glasgow and attended the Scottish Council for Development and Industry dinner in Glasgow. I was in Edinburgh on 22 August to visit a Waterfront regeneration project, and then travelled to Glasgow for an afternoon meeting with the STUC at their offices. On 23 August I visited REPower Aberdeen, and also visited a Scotch whisky distillery. Between 27 and 29 August I was in Greenland to meet the Danish Defence Minister.

On 12 September I hosted a Conflict Resolution Seminar at the University of Glasgow. On 13 September I visited 52 Brigade and a Medical Centre in Edinburgh. On 20 September I attended the opening of the new BBC building at Pacific Quay, Glasgow. On 25 September I paid a visit to the Royal Armoured Corps at Bovington. On 28 and 29 September I was in Lisbon for EU informal ministerial meetings. On 11 October I went to HMS Albion for a Project Compass dinner, and on 12 October I attended the armed forces memorial dedication ceremony in Staffordshire. On 13 October I was a guest at the Scotland versus Ukraine Euro 2008 qualifier at Hampden park. On 14 October I listened to the National Youth Orchestras of Scotland Futures performance in Glasgow. On 15 October I visited the UK Pinnacle Course at the Defence Academy, Shrivenham, and on 18 October, I was in Crawley for a debate on Trident. On 19 October I visited 12 Mechanised Brigade at Tidworth and Bulford. On 20 October I attended the Trafalgar night dinner on HMS Victory. On 24 and 25 October I was at the NATO informal defence ministerial meetings in the Netherlands, and on 26 October I attended the Glasgow Chamber of Commerce business breakfast and I was at the launch of Stagecoach's bio-diesel coaches in Kilmarnock.

From 29 October to 2 November I was in Iraq. On 9 November I visited Diageo, in Ochil, Stirling, before attending the Festival of Remembrance at the Royal Albert Hall on 10 November, and the Remembrance Sunday ceremony in Whitehall on 11 November. On 14 November I attended the SSAFA Corporate Friends reception at Chatham House. On 17 November I watched Scotland play Italy at Hampden park, Glasgow. On 19 November I visited Brussels for the General Affairs and External Relations Council meeting. On Friday 23 November, I addressed the State of the City Economy conference in Glasgow.

On 1 December, I visited Longannet Power Station, Alloa, and the Scottish Interfaith Week Come and Play the Diversity Game event in Edinburgh. On 5 December I attended the SSAFA carol service in London. Between 7 and 10 December I was in Afghanistan. On 13 and 14 December I attended the RC South meeting in Edinburgh. On 20 December I visited Bassingbourne for the Army Training Regiment Pass off Parade.

On 3 and 4 January I visited Brussels for meetings with the UK Representative to NATO, and on 5 January I visited headquarters in Northern Ireland. I watched the Cirque du Soleil with Canadian high commissioner at the Royal Albert Hall on 8 January. On 22 January I opened the 'Scots in Quebec' exhibition at Canada house, London, with Premier Charest of Quebec. On 25 January I visited 51 Brigade, Stirling, the Solve It project in Falkirk and the Glasgow Works project in Glasgow. On 31 January I visited Headley court and the Cavalry Barracks in Hounslow. I was in Geneva on 5 February for the Nuclear Disarmament conference and SERA new year reception, and then from 6 to 8 February I attended the NATO informal defence ministerial meetings in Lithuania. On 11 February I visited Babcocks at Rosyth Dockyard, and on 12 February I visited the Defence Academy at Shrivenham. On 15 February I visited Thales Optronics in Glasgow. On 21 and 22 February I was in Slovenia for EU informal defence ministerial meetings.

WALES

Brabners Chaffe Street LLP

Mr. Hancock: To ask the Secretary of State for Wales pursuant to the answer of 20 March 2008, *Official Report*, column 1298W, on Brabners, Chaffe and Street, how much has been paid to Brabners, Chaffe and Street; what the estimated figure is to be paid on completion for its work; for what reasons this work was outsourced; and if he will make a statement. [198346]

Mr. Paul Murphy: I am informed by the Environment Agency Wales that as at 31 March 2008, the Environment Agency had paid £29,080 net of VAT to Brabners Chaffe Street LLP in respect of their legal fees. This work was outsourced to Brabners Chaffe Street LLP to provide advice on matters relating to defamation and issues of reputation. It is a firm recognised for dealing with such issues.

Brofiscin Quarry

Mr. Hancock: To ask the Secretary of State for Wales pursuant to the answer of 20 March 2008, *Official Report*, column 1302W, on Pollution: Brofiscin Quarry, what factors the Environment Agency will take into account when deciding when it is practicable to place the information on the public register. [198794]

Mr. Paul Murphy: I have been informed by the Environment Agency Wales that the legislation and statutory guidance do not specify what factors the Environment Agency should consider in deciding when it is practicable to place the prescribed information on the public register. The Government view is simply that it should be added as soon as reasonably practicable, so for example, the prescribed details of a Remediation Notice should be added as soon as reasonably practicable after the service of that notice.

Clear Communication

Mr. Maude: To ask the Secretary of State for Wales what payments his Department has made to communications consultancy Clear in the last five years; and what the purpose of such payments was. [198160]

Mr. Paul Murphy: None.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Wales how much was spent on the most recent redesign and implementation of his departmental website. [200032]

Mr. Paul Murphy: The Wales Office spent £10,500 to redesign and implement the new website and we pay £6,936 per annum for website hosting.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Wales what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198325]

Mr. Paul Murphy: None.

Departmental Public Participation

Mrs. May: To ask the Secretary of State for Wales what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200015]

Mr. Paul Murphy: The Wales Office did not employ polling companies in the financial year 2007-08.

Douglas Gowan

Mr. Hancock: To ask the Secretary of State for Wales for what reasons Mr. Douglas Gowan's original *(a)* witness statements and *(b)* evidentiary materials submitted to the Environment Agency were destroyed; and if he will make a statement. [198793]

Mr. Paul Murphy: I am informed by the Environment Agency Wales that the Environment Agency has not destroyed any original documents or evidentiary materials belonging to Mr. Douglas Gowan. Where original documents and evidentiary materials had been received by the Environment Agency from Mr. Gowan, they have been returned to him.

On 2 November 2007, Mr. Gowan requested that all copies of those originals be 'shredded'. The Environment Agency has complied with that request.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Wales how much his Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199691]

Mr. Paul Murphy: Since the Wales Office was established in 1999, we have not made any payments to JP Morgan.

Karian and Box

Mr. Hands: To ask the Secretary of State for Wales what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199638]

Mr. Paul Murphy: Since the Wales Office was established in 1999, my Department has not awarded contracts to Karian and Box.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Wales how much his Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199594]

Mr. Paul Murphy: Since the Wales Office was established in 1999, we have not made any payments to Zurich Financial Services.

LEADER OF THE HOUSE

Departmental Internet

Mr. Stephen O'Brien: To ask the Leader of the House how much was spent on the most recent redesign and implementation of her Office's website. [200026]

Helen Goodman: The cost for the redesign and formatting of the Leader's website was £3,968 excluding VAT.

Members: Allowances

Bob Spink: To ask the Leader of the House what criteria were used to establish the 10,000 mile threshold below which hon. Members' car travel is reimbursed at 40p per mile. [199385]

Helen Goodman: Since 1 April 2005, hon. Members have been entitled to claim mileage allowances in line with Inland Revenue rates (now HM Revenue and Customs rates), which are 40p per mile for the first 10,000 business miles travelled in a year and 25p per mile thereafter. This was decided by Resolution of the House on 3 November 2004. The Resolution was in line with a recommendation by the Senior Salaries Review Body of October 2004, Cm 6354-1, paragraphs 4.50-52, which gave the following rationale:

"The approved IR rate is calculated to represent the actual cost of motoring, including fuel costs, wear and tear (including servicing and depreciation), road fund licence, and insurance. We received no evidence to justify why MPs should be entitled to a more advantageous rate."

Salisbury Convention

Mr. Drew: To ask the Leader of the House whether she has had discussions with the authorities in the House of Lords on the interpretation of the Salisbury Convention in relation to the European Union (Amendment) Bill. [198722]

Helen Goodman: My right hon. Friend the Leader of the House has had no such discussions.

Welsh Grand Committee

Mr. Hood: To ask the Leader of the House how many times the Welsh Grand Committee has met in each Parliament since 1997; and what the *(a)* dates of, *(b)* venues of, *(c)* subjects debated at and *(d)* Ministers attending each meeting were. [199585]

Helen Goodman: The information is as follows:

Date	*Venue*	*Subject*	*Ministers attending (excluding whips) (Wales Office unless indicated)*
30 June 1997	Mold	Government's programme for Wales	Ron Davies: Secretary of State Peter Hain, Win Griffiths: Parliamentary Under-Secretaries
18 November 1997	Westminster	North Wales and Government proposal for Welsh Assembly	Ron Davies: Secretary of State Peter Hain, Win Griffiths: Parliamentary Under-Secretaries
16 December 1997	Westminster	Government expenditure in Wales	Ron Davies: Secretary of State Peter Hain, Win Griffiths: Parliamentary Under-Secretaries
5 May 1998	Carmarthen	Rural economy in Wales and questions	Ron Davies: Secretary of State Peter Hain, Win Griffiths: Parliamentary Under-Secretaries
13 July 1998	Merthyr Tydfil	New economic agenda in Wales	Ron Davies: Secretary of State Peter Hain, Win Griffiths: Parliamentary Under-Secretaries
16 December 1998	Westminster	Government expenditure in Wales, 1999-2000 to 2001-02	Alun Michael: Secretary of State Peter Hain, Jon Owen Jones: Parliamentary Under-Secretaries
22 February 1999	Aberavon	Transport policy in Wales	Alun Michael: Secretary of State Peter Hain, Jon Owen Jones: Parliamentary Under-Secretaries
14 December 1999	Westminster	Government's legislative programme and the Chancellor's pre-Budget report	Paul Murphy: Secretary of State David Hanson: Parliamentary Under-Secretary
4 April 2000	Westminster	The Budget statement and its implications for Wales	Paul Murphy: Secretary of State David Hanson: Parliamentary Under-Secretary
16 May 2000	Westminster	Welsh economy	Paul Murphy: Secretary of State David Hanson: Parliamentary Under-Secretary
20 June 2000	Westminster	Social exclusion in Wales	Paul Murphy: Secretary of State

Date	Venue	Subject	Ministers attending (excluding whips) (Wales Office unless indicated)
			David Hanson: Parliamentary Under-Secretary
			Alistair Darling: Secretary of State for Social Security

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Pollution: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason Peterborough City Council was not selected for the air quality grant programme in each of the last three years; and if he will make a statement. [199896]

Jonathan Shaw: Local authorities are required to work towards meeting the air quality objectives in the Air Quality Regulations 2000 by designating air quality management areas where concentrations of any of the seven pollutants in the regulations exceed, or are likely to exceed, the stated objectives. To help local authorities do this, DEFRA operates an air quality grant scheme, a capital grant for which local authorities bid. The total amount of this grant, which is divided between successful authorities, is approximately £2.3 million per year. While Peterborough city council was aware of the air quality grant, the council has not applied for the past three years.

Animal Welfare: Supermarkets

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with major supermarket chains on animal welfare standards. [198105]

Jonathan Shaw: DEFRA has frequent communications with supermarkets on a wide range of issues, including animal welfare.

Animals: Disease Control

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what recent review he has undertaken of his Department's contingency plans, including for *(a)* the mobilisation of veterinary staff and *(b)* tackling future animal disease outbreaks. [197993]

Jonathan Shaw: DEFRA'S latest revised generic Contingency Plan for Exotic Animal Diseases for England, which includes arrangements for the mobilisation of

veterinary staff, was laid before Parliament on 10 December 2007. The plan is amended annually (as required under the Animal Health Act 2002) and covers arrangements for dealing with a range of exotic animal diseases.

The aim is to ensure that the Government and others have contingency plans in place to deal with disease outbreaks. The effective and speedy deployment of veterinary staff and expertise has long been a prime consideration.

Dr. Iain Anderson conducted an independent review into the lessons learned from the response to the 2007 outbreak of foot and mouth disease, and the Government are considering the recommendations made. The review is published on the DEFRA website.

Animals: Imports

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of *(a)* reptiles and *(b)* birds being imported from (i) within and (ii) outside the European Union were recorded on the Trade Control and Export System in each year since 2000. [199531]

Joan Ruddock: The TRACES system is run by the European Commission; using the system became compulsory from the start of 2005. Records exist for 2004 though, as TRACES was not then compulsory, these are not comparable with later years.

Number of consignments recorded on TRACES for each year

	Within the EU	*Outside the EU*
2004		
Reptiles	2	89
Birds[1]	107	37
2005		
Reptiles	18	233
Birds[1]	962	90
2006		
Reptiles	12	248
Birds[1]	787	8
2007		
Reptiles	13	289
Birds[1]	964	14

[1] Non-poultry but includes game

Beef

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what impact assessment he has made in relation to Annex III, Section V, Chapter III, point 2 (B) of Regulation (EC) number 853/2004 and beef production in the UK. [198217]

Dawn Primarolo: I have been asked to reply.

A regulatory impact assessment (RIA) was completed as part of the Food Standards Agency's (FSA) consultation on the European Commission proposals to consolidate and simplify European Union (EU) hygiene legislation in 2004 that came into force on 1 January 2006. This covered all the proposals in the legislation, and a copy of the RIA has been placed in the Library and is also available from the FSA's website at:

www.food.gov.uk/multimedia/pdfs/EURegulationsRIA.pdf

In October 2007, as part of the FSA's proposals to adapt the EU legislation to allow the continuation of the English tradition of ageing meat that is used to produce minced meat, an impact assessment was completed. This document has been placed in the Library and also is available on the FSA's website at:

www.food.gov.uk/multimedia/pdfs/hyg08engia09.pdf

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the proposals for the regulation of mince in Annex III, Section V, Chapter III, point 2 (B) to Regulation (EC) number 853/2004. [198219]

Dawn Primarolo: I have been asked to reply.

Regulation (EC) 853/2004 of 29 April 2004 laid down specific hygiene rules for food of animal origin and is one of three sets of food hygiene legislation that came into force on 1 January 2006. The requirements, in that legislation, regarding the production of minced meat (Annex III, Section V, Chapter III, paragraph 2(b)) are the same as those that were in force for trade between member states prior to 1 January 2006. Between March 2004 and June 2004 industry and other stakeholders were consulted on the European Commission proposals to consolidate and simplify European Union food hygiene legislation; there were 71 responses to the consultation from a range of stakeholders on all aspects of the simplification of the legislation.

Bluetongue Disease: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of livestock owners he estimates would take-up blue tongue vaccinations if such a programme were to be introduced. [198104]

Jonathan Shaw: Although we have made no formal estimate of likely take-up of vaccine, the advice of industry stakeholders is that take-up will be high in a voluntary scheme, especially with an active approach to promoting vaccination. As individual keepers will be responsible for the costs of vaccination, our aim, in close collaboration with a core group of industry stakeholders, has been to develop a vaccination programme which will reduce the cost of vaccination to a minimum by using existing delivery chains and reducing regulatory burdens in order to encourage maximum participation.

Carbon Emissions: Nuclear Power Stations

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs whether the carbon dioxide output of uranium fuel for nuclear power stations will be taken into account in estimating the UK's carbon footprint. [199900]

Mr. Woolas: Carbon dioxide emissions from the production and reprocessing of nuclear fuel in the UK are taken into account in the UK Greenhouse Gas

Inventory. Carbon dioxide emissions associated with energy use in the mining or extraction of uranium are reported in the emissions inventories of the country where the activities occur.

Catchment Sensitive Farming Project

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* projects and *(b)* locations are part of his Department's catchment sensitive farming project. [198107]

Jonathan Shaw: The England catchment sensitive farming delivery initiative has been in place since April 2006 and is being delivered jointly by Natural England and the Environment Agency on behalf of DEFRA. It is currently based in priority catchments covering a little over a third of the agricultural area of England and its purpose is to encourage farmers to take voluntary action to tackle diffuse water pollution, mainly from nitrates, phosphorus, sediment, pesticides and livestock faeces.

The main elements of the initiative are: 40 priority catchments served by a network of 42 catchment sensitive farming officers working locally; a programme of farmer workshops, farm demonstrations and farm visits; partnership with the pesticides voluntary initiative; local catchment steering groups bringing together farmers, water companies and other stakeholders; a capital grant scheme. In its first two years the initiative also supported 20 projects, with similar aims and objectives, in other catchments.

In February 2008 DEFRA launched Future Water, the Government's new water strategy for England. This stated that DEFRA will continue to support farmers on catchment sensitive farming for a further three years. DEFRA has since confirmed that the England catchment sensitive farming delivery initiative will receive funding of £12.9 million in 2008-09. Most of the initial programme is being rolled forward for a period of six months, with a new programme planned from October.

Centre for Climate Change Economics and Policy

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has worked on research with the Centre for Climate Change Economics and Policy based jointly at the London School of Economics and the University of Leeds. [199697]

Mr. Woolas: DEFRA has not carried out any research with the Centre for Climate Change Economics and Policy. The Centre will be set up in October 2008.

Climate Change

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what his highest projection is of the average annual temperature for the UK in 2050. [199418]

Mr. Woolas: The Intergovernmental Panel on Climate Change's Fourth Assessment Report includes 'high-end' projections for global temperature rise from an ensemble of climate models. These are based on close to business-as-usual Special Report on Emissions Scenarios (SRES) (for example, A2 and A1B).

Using these projections, our current best estimate for a high-end UK-wide average annual temperature increase by 2050 (relative to 1990) is approximately 1.75° C.

In general terms, there is relatively little differentiation in temperature projections at 2050, no matter what emissions scenario is chosen. However, later this century, the gap between high-end and low-end scenarios will widen.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197160]

Jonathan Shaw: It would be possible to provide the information requested only at disproportionate cost.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196738]

Jonathan Shaw: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195881]

Jonathan Shaw: DEFRA is working hard to identify where we can reduce the need to travel, through the use of video conferencing and other alternatives, and when travel is necessary, to encourage staff to make the most sustainable choices.

We are working with our IT strategic supplier IBM and Tandberg to install the infrastructure necessary to make available the next breed of video conferencing services based around IP rather than ISDN telecommunication protocols and fixed v/conf studios.

This will improve the availability, quality and mobility of the v/conf service and make it a more attractive alternative option for staff to choose when travelling to meetings would normally be required.

But we recognise it is not a panacea for all meetings. Initial contacts and team building often require physical, face-to-face meetings to ensure good team relationships are built before moving to electronic meeting spaces. We also recognise that there are other technologies that can impact on the need for meetings—e.g. a quick teleconference session can often be appropriate and sufficient if there is a single issue to resolve among a small number of people.

We will also be setting up SharePoint team spaces to provide a repository of shared resources, discussion threads and wikis etc. that should reduce the need for meetings in the first place and support the move of the core department to a more project-orientated structure.

DEFRA is looking to these new technologies to assist in meeting its new travel targets to:

reduce carbon dioxide emissions from vehicles by 15 per cent. by 2011-12 (from a 2005-06 baseline)

achieve a new fleet emissions average of 130g/k by 2010

reduce carbon dioxide emissions from air travel by 5 per cent. by 2008-09 (from a 2006-07 baseline)

achieve an overall reduction in the amount of travel undertaken across the core-department

More specifically we will look to see an increase in take-up and use of the new v/conf services following implementation of the new IP infrastructure, though a target has yet to be set.

You may also wish to know that DEFRA worked with IBM to produce a White Paper on methods and techniques for assessing and reducing the carbon footprint of office IT services entitled "Environmentally aware governance of the distributed IT infrastructure". This has now received two awards—a Gold Award from BCS link:

http://www.bcs.org/server.php?show=conWebDoc.16275

and the European Green IT Summit Infrastructure Project of the Year award, see link:

http://www.lansdown.com/green/awards.php

at the same event IBM also won the award for European Green IT Supplier of the Year. So we are at the forefront of work taking forward the Green IT agenda.

Departmental Waste Disposal

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how much waste his Department sent to landfill in each year since 1997. [198805]

Joan Ruddock *[holding answer 3 April 2008]*: DEFRA was created in 2001, and we are unable to provide data on waste sent to landfill from the date as requested. However, the figures for the last five years are as follows.

	Waste sent to landfill (tonnes)
2006-07	1,560
2005-06	1,619
2004-05	1,890
2003-04	2,129
2002-03	1,180

Data are gathered from waste monitoring returns which are collated by each site, this data feeds into the Sustainable Development in Government (SDiG) reporting.

Environment Protection: Carbon Emissions

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the expected changes in average annual temperature in the UK by 2050 using a Kyoto commitment as its benchmark *(a)* if carbon emissions increase by 20 per cent., *(b)* if carbon emissions remain the same, *(c)* if carbon emissions decrease by 20 per cent., *(d)* if carbon emissions decrease by 40 per cent., *(e)* if carbon emissions decrease by 60 per cent. and *(f)* if carbon emissions decrease by 80 per cent. [198233]

Mr. Woolas: Estimates by the Met Office Hadley Centre suggest that the anticipated increased average annual temperature in the UK by 2050, relative to the 1990 temperature level, will be approximately *(a)* 1.5°C if greenhouse gas (GHG) emissions increase by 20 per cent., *(b)* 1.3°C if GHG emissions remain the same, *(c)* 1.1°C if GHG emissions decrease by 20 per cent., *(d)* 1.0°C if GHG emissions decrease by 40 per cent., *(e)* 0.8°C if GHG emissions decrease by 60 per cent. and *(f)* 0.6°C if GHG emissions decrease by 80 per cent.

Actual increases in temperature will, however, depend on when emission reductions begin, with later start dates for reductions resulting in a correspondingly larger temperature rises. The above estimates for temperature increases are based on a set of emission reduction pathways beginning during the 2010 to 2030 period.

Ferries: Lymington

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the reasons are for plans for larger ferries between Lymington and Yarmouth and associated shore works not being subject to an environmental impact assessment; and if he will make a statement; [199174]

(2) what progress has been made in conducting an appropriate assessment of plans to increase the size of ferries between Yarmouth and Lymington together with associated shore works; and if he will make a statement. [199175]

Joan Ruddock: It is for the relevant consenting authorities, in this case the Marine and Fisheries Agency and the planning authorities, to decide whether or not an environmental impact assessment is needed. In this case I understand that in view of the nature, scale and location of the proposed works the relevant authorities agreed that there are not likely to be any significant environmental effects and therefore the proposals do not trigger the requirement to undertake such an assessment.

The criteria for undertaking an appropriate assessment under the Habitats Regulations provide that the consenting authorities must ascertain, before granting approval to

the works, that the proposals will not have an adverse effect on the integrity of a European protected site. In this case the authorities agreed that an assessment should be undertaken which would also take account of the possible effects of operating the new ferries on the Solent and Southampton Water protected site. The developers engaged consultants who produced a report on 28 March to underpin that assessment. This is currently being considered by Natural England and the Marine and Fisheries Agency. In determining their respective consents the regulating authorities must make an assessment of the potential effects of the proposals on the site and on any mitigation necessary to protect the site from damage.

Fisheries: Subsidies

Mr. Goodwill: To ask the Secretary of State for Environment, Food and Rural Affairs what information he has received from the European Commission on fuel subsidies to other member states' fishing fleets in the last 12 months. [200204]

Jonathan Shaw: The European Commission does not routinely publish information on fuel subsidies in member states and I have received no information from the Commission in the last 12 months.

Flood Control

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs if he will ensure that those local authorities which are in the lead of flood preventative planning committees have the (*a*) resources and (*b*) powers to carry out the recommendations of those committees. [199025]

Mr. Woolas: My Department is not aware of any local authority bodies named as flood preventative planning committees.

In terms of resources committed to the effective management of flood and coastal erosion risk more generally, spend across central and local government will increase from £600 million in 2007-08 to £650 million this year, £700 million in 2009-10 and £800 million in 2010-11.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to establish a single, comprehensive source of accurate flood risk data in the UK. [199350]

Mr. Woolas: As this is devolved issue; the Environment Agency has responsibility for England only.

As part of their role in taking a strategic overview of flood risk, the Environment Agency is determining what data needs to be collected in relation to the different sources of flood risk.

Decisions on the form and accessibility of the database will be taken in the light of this.

Flood Control: Coastal Areas

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the scope for using recycled materials to provide low cost material for coastal defence. [200042]

Mr. Woolas: The Environment Agency employs a comprehensive Environmental Impact Assessment process to ensure its construction activities deliver the best for the environment. This is complemented by a procurement Sustainability Construction Risk Assessment which aims to ensure that sustainability issues are considered at the outset, in the project plan, the design and the specification. This ensures that where possible the materials used are recycled and/or locally sourced.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the compatibility of Natural England and the Environment Agency's policies on Managed Retreat. [200053]

Mr. Woolas: The Government's policy, as set out in their response to "Making Space for Water", is to adopt a more sustainable approach to flood risk management, moving to a wider portfolio of responses including greater use of rural land-use solutions. In that context, the recent inquiry into the 2007 flooding, chaired by Sir Michael Pitt, has concluded that DEFRA, the Environment Agency and Natural England should work with partners to establish a programme and framework to achieve greater working with natural processes.

Flood Control: West Sussex

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he had with the Environment Agency about the warning received on 7 March about an imminent collapse of the sea defences in Selsey. [200157]

Mr. Woolas: On 7 March, the Medmerry shingle bank was in a good condition and there was no concern of an imminent collapse of any sea defence in Selsey.

Storm conditions, combined with high spring tides and a coastal surge on 10 March caused the overtopping of the shingle bank during the lunchtime high tide. This resulted in the subsequent failure of a section of the defence. The Environment Agency has kept DEFRA updated on the general situation regarding the coastal surge and wave conditions.

Foot and Mouth Disease: Disease Control

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to prevent a recurrence of the circumstances that led to the foot and mouth outbreak at Pirbright. [197994]

Jonathan Shaw: As soon as we became aware that Pirbright was a potential source of the foot and mouth disease (FMD) outbreak we put in place a number of additional safeguards at the site. We immediately asked the Health and Safety Executive (HSE) and Professor Spratt to carry out reviews of biosecurity, and subsequently accepted all of the recommendations in their reports. Since then, stringent new biosecurity conditions have been applied to work on the Pirbright site, providing several independent layers of safety and ensuring that the process is contained. For example, a

comprehensive programme of preventive maintenance of the contained drainage system has been implemented and sections have been re-lined. These measures will ensure the highest level of biosecurity at Pirbright.

In addition, a Safety Alert was issued last September to all similar laboratories, which has been followed up by a joint programme of inspections by HSE and DEFRA inspectors to these labs. The inspections of containment level (CL) 4 laboratories revealed no breaches of the legislation and no formal enforcement action was taken. This process has provided both the regulatory bodies and the operators of the laboratories with the assurance that their facilities are well managed. HSE will continue this series of Safety Alert inspections to consider CL3 facilities based on risk.

The Government accepted all of the recommendations in Sir Bill Callaghan's independent review of the regulatory framework for the handling of animal pathogens, published in December 2007. These included that responsibility for the regulation of animal pathogens should transfer to the Health and Safety Executive (HSE). DEFRA is working closely with the HSE and other departments, to implement all three phases of the work recommended by Sir Bill Callaghan. The formal legal transfer of the Specified Animal Pathogens Order enforcement and inspection responsibilities is well under way and is nearing completion.

We have worked closely with the HSE and are satisfied that all necessary measures are in place to provide assurance that the risk of accidental release is as close to zero as possible.

Genetically Modified Organisms: Crops

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the French government on its decision to extend its ban on Monsanto's MON810 maize. [198716]

Mr. Woolas: We have not discussed this issue with the French Government. In line with European Union (EU) rules, the French decision to suspend the marketing of MON810 maize seed is now being considered by the European Food Safety Authority (EFSA). Based on its advice, the European Commission should then make a proposal for an EU decision to either require France to rescind its action, or to approve and extend it across the EU. We will take a position on this in due course, taking account of the EFSA opinion and the view of our own independent Advisory Committee on Releases to the Environment.

Greenhouse Gas Emissions

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to respond to the National Audit Office review UK Greenhouse Gas Emissions: Measurements and Reporting, published on 15 March. [199705]

Mr. Woolas: The review "UK greenhouse gas emissions: measurement and reporting" produced by the National Audit Office was a briefing note prepared for the Environmental Audit Committee. Therefore, although DEFRA is carefully considering all the points that were raised during the review, we will not be formally responding to the review.

Heating: EC Law

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs when officials from his Department next plan to meet European Commission officials to discuss the proposed labelling of heating systems in the Energy-using Products Directive; and what the timetable is for implementation of the Directive in the UK. [198828]

Joan Ruddock: My officials have no meetings currently planned, but a request has been made to the European Commission for a teleconference about this in the next couple of weeks. At that time, the European Commission will be asked whether they intend to stick to their original timetable for this implementing measure, which is for a vote at a regulatory committee in early 2009.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Energy Using Products Board will meet the UK controls industry following the Government's submission of a paper to the Commission on Lot 1 of the Energy-using Products Directive. [198829]

Joan Ruddock: Officials have met the controls industry several times while developing a position on Energy-Using Products Directive Lot 1 and would be happy to do so again if the industry needed to discuss this further at this stage. However, we have received no recent indication that the industry would like to meet.

Home Energy Efficiency Scheme

Mr. Caton: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department has spent on (*a*) Warm Front and (*b*) Warm Deal since 2000. [199554]

Mr. Woolas: Warm Front is a devolved issue. In Scotland it is known as Warm Deal and is the responsibility of the Scottish Executive. For information on Warm Front spending I refer the hon. Member to the reply given on 1 April 2008, *Official Report*, column 731W, to my hon. Friend the Member for North Durham (Mr. Jones).

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the Warm Front scheme in respect of (*a*) affordability, (*b*) properties already benefiting from prior insulation grants and (*c*) regional procurement; and if he will make a statement. [199861]

Mr. Woolas: We have received representations on the Warm Front Scheme in the form of letters and e-mails from hon. Members and the general public as well as parliamentary questions. These have been on a variety of issues, including affordability, prior insulation grants and regional procurement.

Home Energy Efficiency Scheme: Eaga

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how many firms involved in the Warm Front scheme are wholly or partly owned by Eaga. [195740]

Mr. Woolas: A total of seven companies involved in the delivery of Warm Front are wholly or partly owned by the Eaga Group. These are listed in the following table:

Company	Role	Percentage ownership
Eaga plc	Scheme Management	100
ATEC Ltd	Client Contact Centre and Surveys	100
Iguana Ltd	Heating installations	100
Eaga Social Housing	Heating installations	100
Millfold Group Ltd	Insulation installations	100
WarmSure Ltd	Aftercare services	50
Eaga Insurance Services Ltd	Insurance cover provision	100

Incinerators: Pollution

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether incinerators are assessed for their effects on public health; what a safe level of dioxins is considered to be; and whether his Department has records of incinerators that exceeded this level in the latest period for which figures are available; [197834]

(2) what regulations govern emissions from the incineration of waste in (*a*) hospital, (*b*) crematoria and (*c*) waste incinerators. [197849]

Joan Ruddock: Waste incineration plants, including those in hospitals, are subject to the Pollution Prevention and Control Regulations (the "PPC Regulations") which were superseded from 6 April 2008 by the Environmental Permitting Regulations 2007. These regulations require each incinerator to have a permit to operate which is issued by the regulator only after detailed consideration of the environmental and health impacts of the operation. Each permit contains operating conditions which incorporate the requirements of the waste incineration directive (the WID), among which is a maximum emission limit to air for dioxins of 0.1 ng/m^3 expressed as International Toxic Equivalents (ITEQ). This limit is considered to provide adequate protection to the human health and environment.

Waste incinerators are responsible for a small proportion only of emissions of a range of pollutants. An independent, peer reviewed, study published in 2004, 'Review of the Environmental and Health Effects of Waste Management', concluded that based on the evidence from studies so far:

"risks to human health from incineration are small in comparison with other known risks".

Of the 65 incinerators regulated by the Environment Agency, five were reported to have breached the 0.1 ng/m^3 emission limit during 2007. In four of these cases a formal warning was issued by the Environment Agency. In the last case the Environment Agency is considering what enforcement action is required.

Crematoria are not waste incineration plants and so are not regulated in that way, although they are subject to controls upon emissions to air under other parts of the EPR regulations.

Livestock: Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to engage with small livestock keepers, including hobby farmers, on disease control strategies. [198103]

Jonathan Shaw: Livestock keepers are encouraged to take responsibility for developing their own contingency plans should they be affected by a disease outbreak. Guidance for livestock keepers, as well as our disease control strategies are publicly available on our website and information is available via the DEFRA Helpline.

Small holders and hobby farmers are a target audience in DEFRA's 'Give Disease the Boot' marketing campaign, which is designed to increase awareness of animal diseases and the actions that livestock keepers need to take to help reduce the incidence and spread of disease. In addition, through active engagement with partners in industry we disseminate messages to the members they represent.

Milk: Quotas

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in his Department's discussions with the European Commission on the abolition of milk quotas. [198115]

Jonathan Shaw: Milk quotas will be abolished in 2015. Discussions with the European Commission about how best to ensure the "soft-landing" for the dairy sector ahead of the abolition of milk quotas are ongoing. We expect the Commission to publish their draft proposals at the end of May.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to encourage greater milk production in the UK in order to fulfil new quota allocations. [198116]

Jonathan Shaw: Milk quotas are a limit on production; a ceiling not a target. The Government have been pressing for their removal for some time as they encourage producers to produce to a quota rather than to meet market demand. In addition, they are an unnecessary cost and regulatory burden. We look forward to their abolition in 2015. Consequently, we have no plans to encourage greater milk production to fulfil the new quota ceilings we believe producers should produce for the market.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of milk consumed in England was produced in England in the last 12 months; and whether he plans to increase levels of self-sufficiency. [198117]

Jonathan Shaw: The UK is largely self-sufficient in milk. Over 95 per cent. of the milk consumed in the UK is produced in the UK. Organic milk has occasionally been imported when demand outstripped supply and it made economic sense for companies to do so. In addition, a small amount of UHT milk is imported from abroad. We have no plans to increase levels of self-sufficiency.

Nature Conservation: Wildlife

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many priority species have been *(a)* added and *(b)* removed from the UK Biodiversity Action Plan list in each year since the list was first issued; [198263]

(2) what criteria were used in determining priority species to be added to the UK Biodiversity Action Plan list; [198264]

(3) how often the UK Biodiversity Action Plan list of priority species is reviewed. [198265]

Joan Ruddock: In 1995, the original UK Biodiversity Action Plan (UK BAP) included a total of 427 priority species. In 1997-98, 20 of these species were removed and a further 169 were added, giving a total of 576. This was increased to 577 in 2005, due to recognition of two distinct sub-species of pipistrelle bat. On 28 August 2007, I announced a new UK list of priority species and habitats which contained 1,149 species. Of the former UK BAP species, 123 were removed while 695 species were added, partially because of new declines but primarily because our knowledge and understanding had increased. This was the first full review of the UK BAP list. The review criteria were:

1. International threat.
2. International importance of the UK population.
3. Marked decline in the UK.
4. Other important factor(s) such as very restricted geographic range or extreme threat.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been allocated to UK Biodiversity Action Plan priority species in each year since the action plan list was first issued. [198266]

Joan Ruddock: This information is not available and could be provided only at disproportionate cost. However, in 2007 consultants estimated a total UK Biodiversity Action Plan related expenditure of £388 million, of which £318 million related to Habitat Action Plans and £70 million to Species Action Plans. Many widespread species require the delivery of habitat management at the landscape scale, so in practice much of the spend on Habitat Action Plans also benefits species.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what actions accompany the designation of a priority species under the UK Biodiversity Action Plan. [198277]

Joan Ruddock: The UK list of priority species provides a focus for conservation action over the next decade and will be used to inform statutory lists under legislation in each of the countries of the UK. The list has been published with an indication of the most important types of action necessary for the conservation of each species. The UK Biodiversity Partnership is adopting the ecosystem approach and, in addition to legal protection and management for single species and sites, these actions include habitat expansion and restoration, wider action on cross-cutting issues such as climate change, and research. Biodiversity conservation is a devolved matter, and implementation is being taken forward under biodiversity and environment strategies in each of the four countries of the UK.

Nature Reserves: West Sussex

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the effect of the Environment Agency's Managed Realignment proposals on the recently acquired RSPB Nature Reserve behind the Medmerry frontage. [200022]

Joan Ruddock: The Environment Agency is currently developing the Pagham to East Head Coastal Defence Strategy.

A strategic environmental assessment of the options is currently being completed and will be published with the draft and made available for public consultation. This will assess the impacts of many options, including managed realignment on the RSPB Nature Reserve and neighbouring land.

The Environment Agency will continue to discuss these potential options with the RSPB and other landowners in developing the strategy.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the effect of the Managed Retreat losses under options *(a)* one and *(b)* two of the Environment Agency's proposals (i) in the Chichester Harbour area and (ii) at Selsey. [200023]

Joan Ruddock: The Environment Agency has not yet published any proposals as part of the Pagham to East Head Coastal Defence Strategy. The strategy is currently being drafted. It will make an assessment of the impacts of all options, including any losses as a result of managed realignment, in accordance with DEFRA guidance.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to relocate the lost grazing marsh in Medmerry. [200025]

Joan Ruddock: There are currently no plans to relocate any habitat as the Environment Agency has not yet concluded its investigations as part of the Pagham to East Head Coastal Defence Strategy.

The grazing marsh behind the Medmerry sea defences forms part of the Bracklesham Bay Site of Special Scientific Interest (SSSI). The Environment Agency is working closely with Natural England and others to develop a Regional Habitat Creation Programme which

will consider how best to offset potential habitat losses across the south east, such as that which could occur at Medmerry.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether Selsey's £1 billion asset value was taken into consideration when calculating the Cost Benefit Analysis on the frontage at Medmerry. [200057]

Mr. Woolas: The Environment Agency is currently drafting a Pagham to East Head Coastal Defence Strategy. The cost benefit analysis for the Medmerry frontage does take into account the full asset value for Selsey and has been calculated in accordance with DEFRA guidelines.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the area of grazing marsh that will be lost to the sea under options *(a)* 1 and *(b)* 2 of the Environment Agency's Managed Retreat proposals. [200159]

Mr. Woolas: The Environment Agency has not yet published any proposals as part of the Pagham to East Head Coastal Defence Strategy. Options one and two were indicative outlines highlighted within the initial consultation document, which was published in November 2006.

The draft strategy is currently being prepared and a number of different options are being investigated, including realignment. The potential impacts of these options on the coastal hinterland, including the area of grazing marsh, will be fully assessed in the strategy.

Oilseed Rape: Genetically Modified Organisms

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs on which sites genetically modified oil seed rape has been grown for trial purposes; which of these sites has subsequently been cultivated with conventional and organic oil seed rape crops; and in which years such conventional and organic crops were cultivated in each case. [199514]

Mr. Woolas: DEFRA's website gives information on the sites for which consent was given to undertake trials of GM oilseed rape as part of the 1999-2003 farm-scale evaluations of herbicide tolerant GM crops.

It has been a general rule that a site used for GM oilseed rape trials would not subsequently be used to grow non-GM rape for a period of at least two years. Beyond that we do not have details of the subsequent cropping history of former GM sites.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department is carrying out into genetically modified oil seed rape volunteer plants at sites previously used for trials. [199515]

Mr. Woolas: We have funded two research projects that are relevant to this issue. One is on the occurrence of GM oilseed rape volunteers at sites used for the Farm Scale Evaluation trials. The other is on the prediction, sampling and management of GM volunteer impurities in conventional oilseed rape crops, where the latter are grown on land previously sown with a GM variety. Both of these projects have been completed and reports on them will be published as soon as possible.

Organic Food

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what support is available from his Department for farmers who wish to switch to organic food production. [198719]

Jonathan Shaw: We want to encourage the expansion of organic food production and have just re-launched the Organic Conversion Information Service (OCIS), which provides free organic conversion advice to help farmers and land managers in England consider the practical implications of converting their businesses to organic production.

Financial support is available for organic farmers under the organic entry level stewardship (OELS) section of the environmental stewardship scheme. Aid under the OELS is worth £60 per hectare per year in recognition of the inherent environmental benefits delivered through farming organically. Top-up payments for the conversion of improved land and top fruit orchards are also available under OELS.

Both OCIS and OELS are managed by Natural England on behalf of DEFRA. There are equivalent arrangements in other UK territories.

More details are available on the DEFRA and the Natural England websites.

Pigs

Mr. Ancram: To ask the Secretary of State for Environment, Food and Rural Affairs how many pig farmers there are in England; and how many there were in May 2005. [198514]

Jonathan Shaw: Data on the number of pig farmers and registered holdings in England which specialise in pig production are collected via the annual June Agricultural Survey. The following figures relate to the position on these holdings at June in each year.

Figures shown are for holdings where pigs are the predominant activity.

Number

	2005	*2007*
Total farmers, partners, directors including spouses if working on the holding	3,349	3,418
Total labour force (including the above)	5,296	5,286
Total holdings where pigs are the predominant activity	2,409	2,453

Source:
June Agricultural Survey

Plastic Bags

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the *(a)* Office of Fair Trading and *(b)* Competition Commission on co-operation between supermarkets to reduce consumption of single-use plastic bags. [197637]

Joan Ruddock: My right hon. Friend has had no such discussions.

Refrigerators: Waste Disposal

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the release of greenhouse gases from the disposal of fridges through fragmentisers in the latest period for which figures are available. [194892]

Joan Ruddock *[holding answer 17 March 2008]:* Fridges form a relatively small proportion of the material handled by fragmentisers and the associated emissions of green house gases are not routinely measured or recorded. However, the Waste Electrical and Electronic Equipment (WEEE) Directive requires that all greenhouse gases with a global warming potential above 15 must be extracted before items are sent through a fragmentiser.

Any fragmentiser handling separately collected waste electrical and electronic equipment—including fridges—must be an approved authorised treatment facility and deal with WEEE in accordance with the guidance published by the environment agencies on best available treatment, recovery and recycling techniques.

Renewable Energy: Transport

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs what advice he has received from his Departmental chief scientific adviser on the review of the Renewable Transport Fuels Obligation. [199704]

Mr. Woolas: DEFRA's chief scientific adviser provides advice to Ministers on all aspects of biofuels policy and wider climate change strategy.

The Review of the Indirect Impacts of Biofuels was commissioned by the Department for Transport, and will be led by the Renewable Fuels Agency, under Professor Ed Gallagher. The Gallagher Review is critical to assessing the social and environmental sustainability of biofuels, and DEFRA's chief scientific adviser, along with other Government chief scientific advisers, will peer review the findings of the review prior to its publication.

Seas and Oceans: Environment Protection

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 March 2007, *Official Report*, column 1278W, on seas and oceans: environmental protection, if he will list those sites not mentioned in the answer, but included in the figure of 180 sites reported in the Government's response to the Science and Technology Committee's report, Investigating the Oceans 2006-07, HC470; and what the reasons are for each site's protection. [199123]

Jonathan Shaw: As mentioned in the answer I gave to the hon. Member on 27 March 2008, *Official Report*, column 354W, the information provided to the Science and Technology Committee, of around 180 marine protected areas in UK inshore waters (within 12 nautical miles), differs from the current figure of 151 marine protected areas as a result of ambiguity in the definition of what constitutes a 'marine' site.

Work was completed by the Joint Nature Conservation Council (JNCC) in October 2007 to refine inter-agency definitions of 'special areas of conservation with marine components' and 'special protection areas with marine components' in agreement with the Marine Natura Project Group. Lists of these sites and their associated interest features were then produced.

The JNCC website provides the names of the sites, and describes the qualifying species and marine habitats present.

Smallholdings

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Local Government Association on the future of local authority small holdings following the recent decision of Staffordshire county council to retain its stock. [198118]

Jonathan Shaw: The Government have not recently had any specific discussions with the Local Government Association about the future of county farms, although they have regular discussions with interested stakeholders on this subject. We would always urge local authorities to think carefully when making decisions about the future of their smallholding estates. Therefore I am very pleased that as a result of its consultation exercise, Staffordshire county council has decided to retain a smallholding estate.

Sustainable Development: Thames Gateway

Dr. Stoate: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to promote the development of sustainable drainage systems within new and existing developments in the Thames Gateway growth area; and if he will make a statement. [198989]

Mr. Woolas: Planning Policy Statement 25 on Development and Flood Risk (PPS25) advocates that regional planning bodies and local authorities incorporate policies for furthering the use of sustainable drainage systems (SUDS) in their regional spatial strategies and development plan documents. They should also ensure that their policies and decisions on applications complement building regulations on sustainable rainwater drainage. This gives priority to the use of infiltration drainage systems over watercourses and then sewers. PPS25 also encourages local authorities to promote the use of SUDs by developers when they design their developments.

However, the principal obstacle to the increased take-up of SUDS is the lack of clarity over where responsibility for the ownership and long-term maintenance and renewal of SUDS infrastructure should lie. These issues are currently being addressed through a specific DEFRA work stream and have been the subject of informal consultation with the National SUDS Working Group. DEFRA is consulting on options for the responsibility for ownership and maintenance of SUDS as part of the current consultation on Improving Surface Water Drainage.

This consultation was launched alongside the Government's Water Strategy in February 2007 and will close on 30 April 2008.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the answer of 30 October 2007, *Official Report*, columns 1180-1W, on waste management: fees and charges, what powers local authorities have to require payment for the provision of bin bags; and what steps local authorities may take in instances of non-payment; [199505]

(2) whether residents may utilise bin bags from other sources without incurring the local authority charge in areas where local authorities charge for the provision of bin bags as waste receptacles. [199506]

Joan Ruddock: As I stated in my reply of 30 October 2007, the Environmental Protection Act 1990, section 46, allows waste collection authorities to require occupiers to place waste for collection in receptacles of a kind and number specified. Bin bags are considered a 'receptacle' under the Act. Waste collection authorities may:

(i) provide the receptacles free of charge;

(ii) provide the receptacles and ask the occupier to pay for them;

(iii) require the occupier to provide the receptacles himself if he does not agree to pay for them within a specified period; or

(iv) require the occupier to provide the receptacles himself from the outset.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 30 October 2007, *Official Report*, columns 1180-1W, on Waste Management: Fees and Charges, what obligation there is upon the relevant waste collection authority to collect domestic waste put out in receptacles other than those provided by the local authority in those areas where local authorities make a charge for the provision of waste receptacles. [199507]

Joan Ruddock: Under section 45 of the Environmental Protection Act 1990, local authorities (LAs) have a general duty to collect household waste. Section 46 of that Act gives LAs powers to determine arrangements for collection, such as the size, number and placing of receptacles for collection. As DEFRA advised in a letter of August 2005 to LAs, where an authority uses its section 46 powers to prescribe such arrangements and a resident does not comply with those requirements, an LA has no further duty to collect their waste, other than the duty to keep relevant land clear of litter and refuse.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have *(a)* held discussions with and *(b)* expressed an interest to his Department on levying new charges for the collection of household waste. [199584]

Joan Ruddock: My Department is currently considering the appropriate process for waste collection authorities to express an interest in running a pilot waste incentive scheme. Timings for this process will be subject to parliamentary progress on the Climate Change Bill. In the meantime, we continue to encourage and welcome authorities making inquiries on the implications of the legislation.

As is to be expected with any policy development, my officials and I have had a range of meetings with a variety of stakeholders on the powers provided in the Climate Change Bill for up to five local authorities to pilot waste incentive schemes.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs whether joint waste authorities will have powers to impose new charges for the collection of household rubbish. [199656]

Joan Ruddock: Powers provided in the Climate Change Bill allow up to five local authorities to pilot incentives to encourage household waste minimisation and recycling.

A joint waste authority (JWA) would be able to put forward a proposal to pilot a waste incentive scheme in its area if it had responsibility for waste collection. A JWA would only be set up following a unanimous request from member local authorities and a local public consultation. A consultation on draft regulations and draft guidance regarding proposals for JWAs was published on 17 March 2008.

Waste Management: Domestic Wastes

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which waste collection authorities have introduced alternate weekly collections and subsequently reinstated weekly collections of residual household rubbish. [199583]

Joan Ruddock: The following table represents our best understanding of which waste collection authorities, having introduced alternate weekly collections, have subsequently reinstated weekly collections of residual household rubbish. However, due to the often rapid changes in this area, it is unlikely to be completely up to date.

Local authorities that have reverted back to weekly collections

Region	*Local authority*	*Comment*
North-west	Blackburn with Darwen	
North-west	Bolton MBC	From August 2007
North-west	Bury MBC	Rolled out to 14,000 households
Eastern	Chelmsford	
Eastern	East Cambridgeshire	Trial withdrawn autumn 2007
Yorkshire and Humber	Leeds city	Trial in 1994 on two collection rounds. Withdrawn after six months
London	London borough of Sutton	
West midlands	Nuneaton and Bedworth	Scheme pulled after 1 month due to delay in awarding dry recycling contract
South-west	Plymouth	
South-east	Southampton city	Service rolled out to 26,000 households (2 collection rounds) - reverted back in 2004

Waste Management: Prisons

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what requirements there are on waste collection authorities to provide free waste collection services to prisons. [199568]

Joan Ruddock: There is no requirement on waste collection authorities to provide free waste collection services to prisons.

Waste from all penal institutions falls under paragraph 16 of schedule 2 of the Controlled Waste Regulations 1992, and it is therefore classified as a type of household waste for which a charge for collection may be made.

Water Companies: Fines

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs how the receipts from fines issued to water companies by Ofwat are distributed. [200074]

Mr. Woolas: Ofwat has powers to impose financial penalties on water and sewerage companies. These are set out in the Water Industry Act 1991, as amended by the Water Act 2003. The statutory provisions Ofwat operates under when considering financial penalties state that the money received from the company's fine must be paid to the Consolidated Fund operated by HM Treasury. This money is then spent on public services.

World War II: Medals

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to enable the Women's Land Army Award to be given posthumously. [199901]

Jonathan Shaw: The Women's Land Army and Timber Corps Veterans Badge will be awarded to those members who were alive on the date the announcement was made (6 December 2007). They may also be awarded to the spouses and descendants of those who died on or after that date.

Mr. Burns: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the length of time taken to provide Land Army badges to people who have applied for them through hon. Members. [198558]

Jonathan Shaw: There has been a high volume of interest in the Women's Land Army badge and all applications will be processed as quickly as possible.

WOMEN AND EQUALITY

Departmental Pensions

David Simpson: To ask the Minister for Women and Equality how many and what percentage of staff in the Government Equalities Office have been making additional voluntary contributions to their pension since the Office's inception. [193587]

Barbara Follett: Since the formal establishment of the Government Equalities Office on 12 October 2007 one member of its staff (1.6 per cent. of the total employed by the Department) has made additional voluntary pension contributions.

Ipsos MORI

Mr. Pickles: To ask the Minister for Women and Equality what payments her Department has made to Ipsos MORI since its establishment; and for what purposes. [194326]

Barbara Follett: No payments have been made to Ipsos MORI by my Department, the Government Equalities Office.

Rackspace

Mr. Hands: To ask the Minister for Women and Equality what the value was of each contract awarded to Rackspace by the Government Equalities Office since its establishment. [197523]

Barbara Follett: Since its establishment, the Government Equalities Office has not awarded any contracts to Rackspace for hosting its IT server functions and applications.

SOLICITOR-GENERAL

China: Tibet

David Howarth: To ask the Solicitor-General what assessment the Law Officers have made of whether the actions taken by the People's Republic of China in relation to the self-determination movement in Tibet comply with international law. [199399]

The Solicitor-General: In accordance with the long-standing convention adhered to by successive governments neither the fact that the law officers have been consulted nor the substance of any advice given is normally disclosed outside of Government.

Crown Prosecution Service: Manpower

David Howarth: To ask the Solicitor-General what the average length of service of chief inspectors of the Crown Prosecution Service has been since the inception of the post. [199391]

The Solicitor-General: There has been only one Chief Inspector of the Crown Prosecution Service since the Crown Prosecution Service Inspectorate Act came into force on 1 October 2000.

David Howarth: To ask the Solicitor-General how many times the contract of the Chief Inspector of the Crown Prosecution Service has been extended without a competitive process since the inception of the post. [199392]

The Solicitor-General: The Chief Inspector of the Crown Prosecution Service was originally appointed on 1 October 2000 and his appointment expired on 21 March 2004. There then followed a series of short extensions of his appointment during a period when the Government's policy on criminal justice system inspection was under review and there was the prospect of (i) a merger between HMCPS Inspectorate and the new Inspectorate for the Unified Court Administration; and then (ii) a merger of all five criminal justice system Inspectorates. In the event, the then Police and Criminal Justice Bill was amended so the planned merger of all five Inspectorates did not proceed. In April 2007, the Chief Inspector's appointment was extended by one year. This appointment has recently been extended again by a further two years.

Crown Prosecution Service: Standards

Richard Ottaway: To ask the Solicitor-General how many *(a)* categories and *(b)* aspects of the South London Crown Prosecution Service's performance (i) improved and (ii) deteriorated between 2005 and 2007. [199339]

The Solicitor-General: The HM CPS Inspectorate's Overall Performance Assessment (OPA) reports are based on 13 aspects of performance. There is no assessment based on categories.

Of the 13 aspects assessed by HM CPS Inspectorate in 2007 for CPS London, South Sector, one aspect had improved since 2005, and four aspects declined. The remaining eight aspects remained stable, although the 'direction of travel' in one of these ('Delivering Change') was one of significant improvement.

Richard Ottaway: To ask the Solicitor-General how many *(a)* categories and *(b)* aspects of the South London Crown Prosecution Service's performance were assessed as good in (i) 2005 and (ii) 2007. [199340]

The Solicitor-General: The HM CPS Inspectorate's overall performance assessment (OPA) reports are based on 13 aspects of performance. There is no assessment based on categories.

Of the 13 aspects assessed by HM CPS Inspectorate in 2005 for CPS London, South Sector, three aspects were rated as good. In 2007, there were no aspects rated as good.

Richard Ottaway: To ask the Solicitor-General what the *(a)* Crown Prosecution Service (CPS) and *(b)* South London CPS's rate of discharged committals was in (i) 2005 and (ii) 2007; and if she will make a statement. [199341]

The Solicitor-General: A discharge is recorded in magistrates courts where a case is listed for committal to the Crown court for trial but the committal does not go ahead, and the defendant is discharged under section 6(1) of the Magistrates' Courts Act 1980.

The number of discharged committals recorded in each of the last three years is shown in the table for the CPS nationally and for CPS London, South Sector. In addition to the total number, the rate of discharged committals is also shown as a percentage against all other outcome types. For example, during 2006-07, 2,325 defendant cases nationally resulted in a discharge, which represented 0.2 per cent. of completed cases.

	CPS Overall Discharged Committals	*Percentage*	*CPS London South Sector Discharged Committals*	*Percentage*
2004-05	3,444	0.3	412	0.6
2005-06	2,420	0.2	344	0.5
2006-07	2,325	0.2	293	0.5

OLYMPICS

Departmental Data Protection

Mrs. Villiers: To ask the Minister for the Olympics whether personal data for which her Office is responsible is *(a)* stored and *(b)* processed overseas; and if she will make a statement. [176008]

Tessa Jowell: I refer the hon. Member to the answer given to her by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Watson) on 31 March 2008, *Official Report*, column 522W.

Olympic Delivery Authority: Disclosure of Information

Mr. Don Foster: To ask the Minister for the Olympics what guidance she has provided to the Olympic Delivery Authority (ODA) on providing access for the public to its *(a)* register of interests and *(b)* register of gifts and hospitality; how she monitors the ODA's procedures for complying with (i) that guidance and (ii) the Freedom of Information Act 2000 in publishing such information; and if she will make a statement. [198823]

Tessa Jowell: The Olympic Delivery Authority (ODA) is subject to a Management Statement and Financial Memorandum ("The Management Statement"), approved by myself and the Chief Secretary to the Treasury, which sets out the rules and guidelines relevant to the exercise of the ODA's functions, duties and powers.

The Management Statement provides that the Chairman must ensure that a Code of Practice for Members of the ODA is in place based on the Cabinet Office's model "Guidance on Codes of Practice for Board Members of Public Bodies." The Code commits the Chairman and other Board Members to "The Seven Principles of Public Life" and includes a requirement for a comprehensive and publicly available register of Board Members' interests.

The Management Statement also provides that ODA must operate at all times with the highest ethical standards and practices in accordance with the requirements set out in the ODA's Employee Handbook, and its Code of Conduct and Business Ethics. The Code provides guidance on a wide range of issues including gifts and hospitality.

Compliance monitoring is primarily a matter for ODA's internal audit. However, the Department remains involved in this process, through its attendance at ODA Audit Committee meetings.

In accordance with its Management Statement and its commitment to comply with its obligations under the Freedom of Information Act 2000, the ODA has

made its gifts and hospitality register and register of Board Members' interests publicly available. The ODA has now increased accessibility by making these available on its website. Copies are also available from the House Library.

Olympic Games 2012

Mr. Don Foster: To ask the Minister for the Olympics with reference to the answer given to Lord Holme of Cheltenham in the House of Lords on 14 March 2007, *Official Report* [Lords], columns 135-36WA, on Olympic Games 2012: construction, what progress has been made in ensuring there is a social and economic legacy as well as a physical legacy for local people following the 2012 Olympics. [197425]

Tessa Jowell: Specific initiatives, such as the London Employment and Skills Taskforce (LEST) Action Plan and London Business Network, have been developed to ensure local people and businesses are able to benefit from the opportunities being presented by the Olympics. For example, 77 local businesses have already been awarded contracts to supply the Olympic Delivery Authority. As legacy planning develops, we will continue to work with private and public sector delivery agencies to ensure that other opportunities are identified to deliver our commitment to transform the heart of East London.

In addition, the development of the Legacy Masterplan Framework (LMF) will set the context for the transformation of the Olympic Park to its post-Games uses, providing world-class sporting facilities set within a new 110 hectare park, along with the creation of a new urban district, linked with its surroundings, which will provide over 9,000 new homes, 12,000 jobs and other social facilities for local people. The London Development Agency and the newly appointed masterplanning team have started the process to develop the LMF and will engage closely with local people and businesses to ensure the masterplan reflects their ideas.

Hugh Robertson: To ask the Minister for the Olympics whether there will be any ministerial involvement in the London Olympic Torch Relay. [199026]

Tessa Jowell: I greeted the Beijing Organising Committee on the evening of 5 April, when they brought the flame into the UK. In addition, both my right hon. Friend the Secretary of State for Culture, Media and Sport and I attended the relay on 6 April, at No. 10 with my right hon. Friend the Prime Minister, and then later at the Southbank Centre.

Olympic Games 2012: Broadcasting

Hugh Robertson: To ask the Minister for the Olympics what assessment she has made of the potential financial benefits to the London Development Agency of legacy use of the Olympics international broadcast centre/media and press centre. [199661]

Tessa Jowell: As the land owner and the Legacy Client for the Olympic Park, the London Development Agency is eligible for—but not guaranteed—an appropriate financial return, taking account of usual overage, for its land input to the International Broadcast Centre and Main Press Centre (IBC/MPC). The overage is subject to a number of conditions based on financial market conditions and rental/sales projections and will be linked to the profitability of the regeneration scheme. An independent overage valuation is being undertaken currently with findings of this valuation yet to be established. Overage returns, in accordance with the established MOU between the Government and the Mayor of London, will be directed to both the LDA and to the benefit of Lottery good causes.

The receipt of overage will give the LDA a financial interest in maximising the legacy value of the IBC/MPC, both in commercial and amenity terms, and will contribute to ensuring a vibrant and productive future for the venue both in its own right and in the context of the wider Park.

Olympic Games 2012: Training

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer to the hon. Member for Henley of 10 December 2007, *Official Report*, column 47W, on Olympic Games 2012: training, how many of the level one training places were for courses in construction; and how many of those qualifying from those courses have been offered jobs on projects involved with construction work for the Olympics. [195898]

Tessa Jowell: Pursuant to my answer of 10 December 2007, *Official Report*, column 47W to the hon. Member for Henley a further 666 skills training places have been offered by the London Development Agency, bringing the total for the period January to December 2007 to 1,835.

Improvements to the LDA's monitoring systems since April 2007 have allowed it to track the outcomes for individuals receiving this training from that date. For the period April to December 2007, 1,083 skills training courses were delivered to 956 individuals. Of these, all were unemployed at the time of training, 286 subsequently obtained employment, of which 80 have been offered jobs on the Olympic site.

Provisional figures indicate that approximately three quarters of the 1,083 courses have been construction related. 12 of these were level 2. The remaining courses have provided training for security and hospitality industries alongside site-based office roles.

NORTHERN IRELAND

Demonstrations

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether his Department has commissioned research through *(a)* focus groups and *(b)* other market research on the opinions of people in Northern Ireland on the resolution of the parades disputes. [196530]

Paul Goggins: The Department has not commissioned any such research.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Northern Ireland whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193433]

Mr. Woodward: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Northern Ireland how much was spent on the most recent redesign and implementation of his Department's website. [200027]

Mr. Woodward: The most recent redesign and implementation of the Northern Ireland Office website was carried out in March 2007 and cost £4,185.94.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Northern Ireland what criminal offences have been created by primary legislation sponsored by his Department since July 2007. [198283]

Paul Goggins: As there have been no Northern Ireland Acts of Parliament since July 2007, no criminal offences have been created.

Chris Huhne: To ask the Secretary of State for Northern Ireland what criminal offences have been abolished by primary legislation sponsored by his Department since May 1997. [198321]

Paul Goggins: Acts of Parliament sponsored by my Department since May 1997 have repealed the following offences.

Repealing Act	*Offence*	*Statutory reference of offence*
Terrorism (Northern Ireland) Act 2006	Wilfully obstructing HM Forces or constable exercising power under this section	Section 87 of Terrorism Act 2000
	Failure to stop when required under this section; refusing to answer question; failure to answer to best of knowledge and ability question under this section	Section 89 of Terrorism Act 2000
	Interfering with works executed re section 91 or 92; interfering with any apparatus etc. used under those powers	Section 93 of Terrorism Act 2000
	Interfering with road closure works etc.; executing certain bypass works; possessing etc. materials for executing bypass works; occupant knowingly permitting above on his land	Section 94 of Terrorism Act 2000
	Failure to stop vehicle when required under part VII	Section 95 of Terrorism Act 2000
	Failure to comply with regulations made by Secretary of State to preserve peace or maintain order	Section 96 of Terrorism Act 2000
	Collecting, recording, publishing, communicating or eliciting information about a person, which is likely to be of use to terrorists, possessing document or record with such information	Section 103 of Terrorism Act 2000
	Contravening restraint order	Paragraph 37, schedule 4 to Terrorism Act 2000
	Obstructing search under this paragraph	Paragraph 19, schedule 5 to Terrorism Act 2000
	Contravening order made under this paragraph	Paragraph 20, schedule 5 to Terrorism Act 2000
	Failure to comply with requirement under this schedule; wilfully obstructing search of premises hereunder	Paragraph 10, schedule 10 to Terrorism Act 2000
	Failure to stop when required under paragraph 6 of this schedule	Paragraph 11, schedule 10 to Terrorism Act 2000
	Obtaining (increased) compensation by deception; knowingly making false or misleading statement; making statement he does not believe to be true; knowingly failing to disclose material fact	Paragraph 12, schedule 12 to Terrorism Act 2000
	Providing or offering to provide security services for reward without licence	Paragraph 2, schedule 13 to Terrorism Act 2000
	Publishing or causing to be published an advertisement for the provision of security services by someone who does not hold a licence	Paragraph 3, schedule 13 to Terrorism Act 2000
	Paying money to someone re security services when they do not hold a licence	Paragraph 4, schedule 13 to Terrorism Act 2000
	Making false or misleading statement when applying for a security licence	Paragraph 6, schedule 13 to Terrorism Act 2000
	Failure to comply with paragraph 13 or 14 of this schedule	Paragraph 15, schedule 13 to Terrorism Act 2000
	Failure to comply with requirement to produce records about person employed as security guard	Paragraph 16, schedule 13 to Terrorism Act 2000
	Keeping record of person employed as security guard which is false or misleading	Paragraph 17, schedule 13 to Terrorism Act 2000
	Failure to surrender to custody while on bail for a scheduled offence	Paragraph 1, schedule 2 to Justice (NI) Act 2004
Justice (Northern Ireland) Act 2004	Failure of person on bail to present himself to court	Section 26(d) of Prison Act (NI) 1953
Northern Ireland Act 1998	Discrimination by public authority on grounds of religion or political opinion	Section 19 of Northern Ireland Constitution Act 1973
	Public authority requiring person to take oath / make declaration on appointment (etc.)	Section 21 of Northern Ireland Constitution Act 1973

Repealing Act	*Offence*	*Statutory reference of offence*
Northern Ireland (Emergency Provisions) Act 1998	Escaping or failing to return as required to detention under interim custody order or detention order; rescuing, assisting, harbouring such escapee etc.	Paragraph 13, schedule 3 to Northern Ireland (Emergency Provisions) Act 1996
Police (Northern Ireland) Act 1998	Unlawful possession of arms or ammunition; assuming dress or name of constable	Section 25 of Constabulary (Ireland) Act 1836
	Obtaining pension by fraud	Section 9 of Constabulary and Police (Ireland) Act 1883
	Pretending to be member of RUC	Section 20 of Criminal Justice Act (NI) 1953
	Assault on, or obstruction of, a constable	Section 7 of Criminal Justice (Misc. Provisions) Act (NI) 1968
	Disclosure of information contravening this article	Article 18 of Police (NI) Order 1987
	Disclosure of information contravening this paragraph	Paragraph 15, schedule 1 to Police (NI) Order 1987
	Disclosure of information contravening this article	Article 28 of Police (Amt)(NI) Order 1995
Public Processions (Northern Ireland) Act 1998	Organising a procession (etc.) where requirements not satisfied	Article 3 of Public Order (NI) Order 1987
	Knowingly taking part in public procession as member of unregistered (etc.) band	Article 6 of Public Order (NI) Order 1987
	Failure to comply with constable's requirement to surrender alcohol/state name and address	Article 6A of Public Order (NI) Order 1987
	Endeavouring to break up lawful public procession	Article 7(1) of Public Order (NI) Order 1987

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many day's sick leave were taken on average by staff in his Department in each of the last five years. [198957]

Mr. Woodward: The following table shows the number of days lost due to sick absence, per staff year in each of the last five years within the Northern Ireland Office. These figures have been taken from information published by the Northern Ireland Statistics and Research Agency.

	Number of days lost due to sick absence
2002-03	13.7
2003-04	14.0
2004-05	12.6
2005-06	11.2
2006-07	11.8

District Policing Partnerships

Mr. Dodds: To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of the district policing partnerships. [194760]

Paul Goggins: The Northern Ireland Policing Board has a statutory requirement to assess the effectiveness of district policing partnerships in performing their statutory duties. To fulfil this requirement the Board undertakes an annual performance assessment of each DPP against a performance management framework. The framework requires a number of key performance indicator targets to be met in relation to the DPP statutory duties.

The Policing Board also commissions the Central Survey Unit in the Northern Ireland Statistics and Research Agency (NISRA) to conduct the Policing Board module in its Omnibus Survey twice a year and the biennial District Policing Partnership (DPP) Public Consultation Survey. These surveys meet the Policing Board's statutory obligations under the Police (Northern Ireland) Act 2000 to "assess the level of public satisfaction with the performance of the police and district policing partnerships".

The Policing Board makes its annual assessment of the effectiveness of district policing partnerships (DPPs), using a range of performance indicators and targets.

Information reported to the Board on the performance of DPPs during 2006-07 confirms that overall DPPs are fulfilling their statutory responsibilities:

- The targets that assess the performance of DPPs in identifying local policing priorities for input to the local Policing Plan and NI Policing Plan were achieved by 23 of the 26 DPPs;
- The targets that assess the performance of DPPs in monitoring police performance were achieved by all but one DPP;
- The targets that assess the performance of DPPs in engaging with the community to gain the co-operation of the public with the police in preventing crime were achieved by 23 of the 26 DPPs;
- The targets measuring the performance of DPPs in acting as a forum for discussion on policing were achieved by 24 of the 26 DPPs.

The targets that assess the effectiveness of DPPs in consulting with the public were taken from the 2006 NISRA DPP Public Consultation Survey and the results were assessed against baseline results from the same survey carried out in 2004. Results were compared for 24 DPPs and the four Belfast sub-group areas. Dungannon and South Tyrone did not establish a DPP until December 2004 and no baseline was available for the 2006-07 assessment.

- 21 DPPs/Belfast sub-groups increased the survey respondents who had heard of the DPP;
- Six DPPs/Belfast sub-groups increased the percentage of survey respondents who think that the DPP does a good job;
- 15 DPPs/Belfast sub-groups achieved the target to increase the percentage of survey respondents who are confident that the DPP is addressing local policing problems;

one Belfast sub-group showed an increase in the percentage of NISRA survey respondents who had heard of DPPs and are prepared to contact their DPP.

It is the Policing Board's view that DPPs have made an important contribution to increased confidence in policing. Through working in partnership with the police to prevent crime DPPs have also contributed to a 15 per cent. reduction in recorded crime in the last five years.

Hillsborough Castle: Official Hospitality

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the total cost was of receptions held at Hillsborough Castle in each of the last five years, broken down by event. [194759]

Mr. Woodward: The costs of receptions held at Hillsborough Castle are only available for the last three financial years and are as follows:

	£
2005-06	126,073.39
2006-07	237,295.10
2007-08	211,436.95

These figures cover a large number of events and receptions in line with my wish, and that of my predecessors, to make Hillsborough Castle as accessible as possible to a cross section of the community. These include people from the emergency services, voluntary groups, charities and local community groups. The largest of these events is the annual garden party, attended by senior members of the royal family.

Homosexuality

Mr. Hollobone: To ask the Secretary of State for Northern Ireland how many prosecutions have been brought under homophobic hatred legislation in Northern Ireland. [196702]

Paul Goggins: The Criminal Justice (Northern Ireland) Order 2004 allows for enhanced sentencing where a crime is hate motivated.

The following table lists the number of cases considered by the Public Prosecution Service Northern Ireland to have been aggravated by hostility on the basis of sexual orientation.

	Number of defendants	
	2006	2007
Summary prosecution	42	24
Indictable prosecution	14	13
Total	56	37

Note
2007 data are provisional and may be subject to change at a later date.

Inquiries

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many documents have been passed by (*a*) Republican and (*b*) Loyalist paramilitary organisations to official inquiries into their respective operations in the last 28 years. [197275]

Paul Goggins: An exercise of this nature, involving a detailed search of records over a 28-year period, would require the allocation of significant and disproportionate resources.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many documents have been passed by the Police Service of Northern Ireland (PSNI) to official inquiries into the operations of (*a*) the Royal Ulster Constabulary and (*b*) the PSNI, since the inception of the PSNI. [197277]

Paul Goggins: The Chief Constable has provided the following answer:

"The following table sets out details of the number of documents provided to public inquiries by the Police Service of Northern Ireland. I am unable to provide information in relation to the Saville Inquiry as to do so would incur disproportionate costs. I am also unable to provide figures which differentiate between Royal Ulster Constabulary and PSNI documents as this could be done only at a disproportionate cost."

Public inquiry	Number of documents
Billy Wright	24,361
Rosemary Nelson	9,774
Robert Hamill	696

Insolvency

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals were insolvent in Northern Ireland in each of the last five years. [197274]

Paul Goggins: Following the restoration of devolution on 8 May 2007, responsibility for insolvency and bankruptcy in Northern Ireland has been a matter for the Department of Enterprise, Trade and Investment in Northern Ireland (DETI). The information is not maintained by DETI in the form requested, but statistics are available on the number of individuals adjudicated bankrupt and the number of individual voluntary arrangements (IVA) that have been made under the insolvency legislation. These are set out in the following table and cover those of the last five financial years that fell during direct rule.

Financial year	Individuals adjudicated bankrupt in Northern Ireland	Number of IVAs registered with DETI
2006-07	1,008	736
2005-06	892	668
2004-05	685	479
2003-04	582	360

JP Morgan

David T.C. Davies: To ask the Secretary of State for Northern Ireland how much his Department paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199659]

Mr. Woodward: My Department (excluding its agencies and Executive NDPBs) has not made any payments to JP Morgan in the period specified.

Karian and Box

Mr. Hands: To ask the Secretary of State for Northern Ireland what the value was of each contract awarded by his Department and its predecessors to Karian and Box since 1997. [199640]

Mr. Woodward: My Department (excluding its agencies and Executive NDPBs) has not awarded any contracts to Karian and Box in the period specified.

Police Service of Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the costs of training a police constable in the Police Service of Northern Ireland (PSNI); and what the starting salary is for a police constable in the PSNI. [197273]

Paul Goggins: I am advised that the estimated cost of training a police constable in the Police Service of Northern Ireland, taking account of the cost of the student officer's gross salary, is £33,564.

The starting salary of a Constable (Student Officer) in the Police Service of Northern Ireland is £21,534, rising to £24,039 on attestation.

Police Service of Northern Ireland: Vehicles

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when the Police Service of Northern Ireland last purchased police cars; how many were purchased; and how much the consignment cost. [197272]

Paul Goggins: The Police Service of Northern Ireland has advised that 17 cars were ordered on 21 March 2008 at a cost of £206,654.89.

Police vehicles are ordered over the course of the year as demand requires, so the number ordered and the value will vary on each occasion.

Rackspace

Mr. Hands: To ask the Secretary of State for Northern Ireland what the value was of each contract awarded to Rackspace by his Department in each of the last nine years. [197517]

Mr. Woodward: My Department (excluding its Agencies and Executive NDPBs) did not award any contracts to Rackspace in the last nine years.

Sheridan Group

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland (1) what steps his Department took to investigate allegations made in the House by the hon. Member for Belfast, East (Mr. Robinson) on 8 February 2006, *Official Report*, columns 957-58, of terrorist-related activity by the Sheridan Group; and if he will make a statement; [191378]

(2) when he expects to answer question 191378, on the Sheridan Group tabled on 27 February 2008. [200170]

Paul Goggins: I apologise for the delay in responding. All allegations of criminality drawn to the attention of my Department are referred to the PSNI. In this case the Chief Constable advised that the PSNI had no evidence to suggest that the Sheridan Group had been engaged in criminal activity.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Northern Ireland how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199596]

Mr. Woodward: My Department (excluding its agencies and Executive NDPBs) has not made any payments to Zurich Financial Services in the period specified.

PRIME MINISTER

Iraq Conflict: Inquiries

Adam Price: To ask the Prime Minister whether he plans to hold an inquiry on the Iraq war in the current Parliament. [200210]

The Prime Minister: I refer the hon. Member to the answer I gave the right hon. Member for Witney (Mr. Cameron) during my National Security statement on 19 March 2008, *Official Report*, column 932.

Railways

Norman Baker: To ask the Prime Minister when he next plans to travel by rail on official business. [199561]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 31 March 2008, *Official Report*, column 551W.

COMMUNITIES AND LOCAL GOVERNMENT

Antisocial Behaviour

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 14 March 2008, *Official Report*, column 697W, on anti-social behaviour, what assessment her Department has made of the proportion of local authorities that have processes in place to respond to local petitions from members of the public. [199151]

Mr. Dhanda: On 27 December 2007 the Government published a consultation on "Local Petitions and Calls for Action". Paragraph 19 of the consultation document proposes a duty on local authorities to respond to local petitions where the subject of the petition relates to the functions of the local authority, or other public services with shared delivery responsibilities with the local authority. The consultation closed on 20 March.

A number of local authorities have indicated in their response to the consultation that they have established

processes for handling petitions. As the consultation document stated, it is the Government's ambition for

"everyone, no matter where they live, to have the confidence of knowing that their concerns will be taken seriously"

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 14 March 2008, *Official Report*, column 697W, on anti-social behaviour, what plans she has to (*a*) issue guidance and (*b*) consult on the draft guidance, on councillor calls to action. [199152]

Mr. Dhanda: On 27 December 2007 the Government published the "Local Petitions and Calls for Action Consultation", which sought views on the implementation of the Councillor Call for Action. The consultation asked what matters ought to be excluded from the Councillor Call for Action process and in paragraph 41 invited input on what guidance should be provided.

The consultation closed on 20 March.

Arson: Death

Kate Hoey: To ask the Secretary of State for Communities and Local Government how many people were killed by (*a*) arson and (*b*) suspected arson in each year since 1997. [198359]

Mr. Dhanda: The Department does not collect information on arson. The following table shows the number of people killed, in England, as a result of deliberate fires. The figures include fires where deliberate ignition is merely suspected or where the fires has been recorded by the attending Fire and Rescue Service as "doubtful".

Fatalities in deliberate fires[1], England 1997 to 2006

	Total	*Deliberate*	*Doubtful*
1997	98	79	19
1998	84	75	9
1999	92	75	17
2000	91	73	18
2001	67	59	8
2002	90	81	9
2003	98	89	9
2004	78	73	5
2005	93	86	7
2006	97	93	4

[1] Excluding incidents not recorded during periods of industrial action in 2002 and 2003

Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the average Band D council tax fire precept is in 2008-09. [198877]

John Healey: The average Band D council tax precept for all fire authorities in England in 2008-09 is £59.80.

Council Tax: Parish Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what the estimated gross revenue from parish council precepts is in England in 2008-09; [198879]

(2) what the gross revenue from parish council precepts was in England in each year since 1997-98. [198880]

John Healey: The total value of local precepts issued for each financial year since 1997-98 are shown in the following table. The figures represent the value issued by local precepting authorities, or anticipated by the relevant billing authority.

Financial year	*Value (£ million)*
1997-98	144
1998-99	154
1999-2000	165
2000-01	181
2001-02	193
2002-03	210
2003-04	226
2004-05	242
2005-06	260
2006-07	282
2007-08	299
2008-09	323

The data are as reported on Budget Requirement forms submitted annually by all billing authorities in England to Communities and Local Government. The figure for 2008-09 was published in the Statistical Release 'Council Tax levels set by local authorities in England 2008-09' on 27 March 2008. A copy of the release is available on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/ctax/ctax0809.htm

Council Tax: Tax Rates and Bands

Jeff Ennis: To ask the Secretary of State for Communities and Local Government how many domestic properties in (*a*) Barnsley, (*b*) Doncaster, (*c*) South Yorkshire and (*d*) England there are in each council tax band. [199357]

John Healey: Details of the number of domestic properties in each council tax band in each local authority area in England, in each Government Office region and in England as a whole, are available on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/stats/dwelling.htm

The data are as at 30 March 2008 and are provided by the Valuation Office Agency.

Council Tax: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 February 2008, *Official Report*, column 613W, on council tax: valuation, if she will place in the Library copies of the Valuation Office Agency's Council Tax Revaluation Programme Board (England) minutes for its meetings between 1 January 2005 to 21 November 2005. [193960]

John Healey: I refer the hon. Member to the answer given by my predecessor to the hon. Member for Meriden (Mrs. Spelman) on 27 April 2006, *Official Report*, column 1285W. These minutes relate to internal discussion and advice to Ministers on the formulation and development of Government policy.

Council Tax: Yorkshire and Humberside

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to Table 6 of Local Government Finance statistics on council taxes 2008-09, if she will clarify the figures listed for (*a*) Ryedale's and (*b*) Hart's average Band D precepts on council tax, excluding parish precepts, in relation to the figures set by each council. [198875]

John Healey: The Band D council tax figures that appear in table 6 of the Statistics Release 'Council tax levels set by local authorities in England—2008-09' are derived from figures submitted to the Department by authorities on their Budget Requirement forms. A copy of the Budget Requirement form can be found on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/stats/lgfforms/forms/brlform0809.xls

The column in table 6 headed 'Average council tax for the authority excluding parish precepts (Band D)' includes special expenses (that is amounts charged to part, rather than the whole, of an authority's area):

http://www.local.communities.gov.uk/finance/ctax/data/ctax0816.xls

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Communities and Local Government at how many events held by her Department (*a*) wine and (*b*) Fairtrade wine were served in the last three years; and what assessment her Department has made of the merits of serving Fairtrade wine at future events. [196950]

Mr. Dhanda: Hospitality for departmental events is supplied through Communities' contracted facilities management service which includes provision of catering. Since April 2005 there have been 59 events where they have supplied wine, however Fairtrade wine has not been provided at any of these events.

Her Majesty's Government are committed to improving market access to producers in developing countries through increased participation in fair and sustainable supply chains.

Communities' hospitality menu is kept under regular review. As part of this, Fairtrade wine has recently been added as an option.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Communities and Local Government whether confidential or personal information has been compromised through the loss of property from her Department since 1997. [193435]

Mr. Dhanda: Except in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Film

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many films have been produced in video, DVD and other digital formats by her Department in the last 36 months. [198865]

Mr. Dhanda: In this period, the Communications Directorate produced eight films supporting the Department's policies, for purposes including display at conferences and exhibitions.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Communities and Local Government what criminal offences have been abolished by primary legislation sponsored by her Department and its predecessors since May 1997. [198289]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Overseas Visits

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the (*a*) destination and (*b*) purpose was of each overseas visit undertaken by staff in her Department in the last 12 months. [198892]

Mr. Dhanda: In the 12 months to 31 December 2007 there have been 388 overseas visits undertaken by Communities and Local Government staff. Of the 388 visits, 362 were to Europe; four to Africa, 12 to North America, one to Japan, four to New Zealand and five to Asia (including the Middle East).

The purpose of these journeys was to represent the Department and provide expert advice on policy/subject issues.

All travel by staff employed by Communities and Local Government is undertaken in accordance with the Civil Service Management Code.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what the hourly rates of pay of all non-permanent staff working for her Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196455]

Mr. Dhanda: There are a number of categories of workers which might be considered as non-permanent.

Some of staff our staff are employed on fixed term contracts and are considered as Departmental employees under the standard Office for National Statistics definitions. The following table shows the numbers of such staff for each month at the different rates of hourly pay.

Bands defined by hourly rates of pay

Civil Service Grade	Industrial grades	4 4	4O	EO	HEO	SEO	Grade 7	Grade 6	Other
Min (£)	6.55	5.65	6.00	7.88	10.65	13.00	17.54	17.54	25.70
Max (£)	10.26	9.07	10.80	13.79	17.57	21.65	26.80	32.22	71.96

Number employed each month : full-time equivalent basis

Civil Service Grade	Industrial grades	4 4	4O	EO	HEO	SEO	Grade 7	Grade 6	Other
29 February 2008	6	1	36	23	21.4	13	12	4	14.61
31 January 2008	7	1	37	19	21	11	13	5	14.2
31 December 2007	8	1	39	20	19.6	11	13	6	10.5
30 November 2007	9	1	40	18	19.6	11.6	13	6	14.2
31 October 2007	9	1	43	19	20.6	4.6	11	5	12
30 September 2007	8	1	44	19.83	17.6	3.6	11	5	11.8
31 August 2007	8	1	47	19.83	15.6	3.6	11	5	10.8
31 July 2007	8	1	47	22.11	16.6	2.6	12	5	11.8
30 June 2007	8	1	41	19.83	14.6	2	12	5	11.8
31 May 2007	8	1	40	17.83	15.6	2	14	5	12.8
30 April 2007	8	1	34	18.83	13	1	13	4	13.8
31 March 2007	7	1	28	16	15	4	14	4	13.8

These figures include Communities and Local Government staff who work in the Government Office network and the Department's executive agencies, apart from the Planning Inspectorate for whom figures were not available.

The Department also makes use of temporary staff from employment agencies. Such staff are not paid from the Departmental payroll and as such are not classified as Departmental employees under the standard Office for National Statistics definitions. As 29 February there was 237 such temporary staff employed by the Department and its executive agencies. This figure excludes the Government Office network and the Planning Inspectorate for whom the information was not available in the required format. The hourly rates of these staff cannot be provided except at disproportionate cost.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Communities and Local Government what guidance is issued to members of her Department on the authorship and publication on the internet of material relating to their official duties; and if she will make a statement. [196741]

Mr. Dhanda: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Library of the House. They are also available on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library an electronic copy of the most recent edition of her Department's staff handbook. [199142]

Mr. Dhanda: Our staff handbook has been developed as an interactive publication delivered through the Department's intranet. It is not held in a format which allows it to be easily exported and therefore could be provided only at a disproportionate cost.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many working days were lost by her Department due to stress-related illness in each of the last 24 months. [198944]

Mr. Dhanda: The numbers of days recorded as lost to stress-related illness in each month are presented in the following table. The information is available in the required format for the last 18 months only. The figures exclude our Executive Agencies and Communities staff working in the Government Office network for which information is not collected centrally. The figures refer to sickness absence where the primary cause is recorded as 'stress, tension'.

Month	Days lost
2006	
October	118
November	106
December	67
2007	
January	71
February	75
March	45
April	17
May	49
June	69
July	138
August	85
September	106
October	88
November	90
December	47
2008	
January	126
February	90
March	79

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many days sick leave were taken on average by staff in her Department in each of the last five years. [198955]

Mr. Dhanda: The following table shows the average working days lost (AWDL) per staff year for the Department and its predecessor the Office of the Deputy Prime Minister. The figures have been previously published by Cabinet Office in their series of reports Analysis of Sickness Absence in the Civil Service. During this period reporting shifted from a calendar year to a financial year basis, and most recently to a rolling 12 month basis whereby figures for the past 12 months are produced on a quarterly basis. The table makes clear the distinction.

	Basis	Department	AWDL per staff year
2007	Calendar year	Communities and Local Government	6.4
2006-07	Financial year	Communities and Local Government	6.2
2005-06	Financial year	Office of the Deputy Prime Minister	6.1
2005	Calendar year	Office of the Deputy Prime Minister	5.7
2004	Calendar year	Office of the Deputy Prime Minister	4.6
2003	Calendar year	Office of the Deputy Prime Minister	6.0

Calendar years run from January to December. Financial years run from April to March.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many of her Department's staff took more than (*a*) five, (*b*) 10, (*c*) 15, (*d*) 20, (*e*) 25, (*f*) 30, (*g*) 35 and (*h*) 40 days leave due to stress in each of the last five years, broken down by pay grade. [198964]

Mr. Dhanda: The following table provides the requested information in respect of the 12 months to 31 December 2007. Our records prior to this do not allow for disaggregation into the requested format. The figures exclude our executive agencies and Communities staff working in the Government office network for which information is not collected centrally. The figures refer to sickness absence where the primary cause is recorded as "stress, tension".

Band	AA	AO	EO	HEO	SEO	Grade 7	Total
(a) more than 5		1	2	3	2	1	9
(b) more than 10		2		2			4
(c) more than 15		3			1		4
(d) more than 20				2			2
(e) more than 25	1				1		2
(f) more than 30							0
(g) more than 35		1			1		2
(h) more than 40		1	0	1	1		6
Total	1	8	5	8	6	1	29

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what (*a*) 0800, (*b*) 0845 and (*c*) 0870 telephone numbers for the public are in use by (i) her Department and (ii) agencies which report to her Department. [200121]

Mr. Dhanda: Communities and Local Government and its agencies has one non-geographical telephone number to provide information to homeowners in relation to energy performance certificates (0845 365 2468). A third party manages this service on behalf of the Department. The Department does not derive any revenue from this service.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Communities and Local Government if she will set a target to increase the use of video-conferencing by her Department to reduce the need to travel to meetings. [195891]

Mr. Dhanda: Communities and Local Government's travel policy stipulates that business must be settled by telephone or video-conferencing before staff consider travelling. The Department's Sustainable Operations Policy also requires staff to consider the most sustainable option for conducting business, and to use the tele- or video-conferencing systems provided wherever practical instead of travelling. We will be concentrating on increasing the usage of the existing systems in the coming year as a key approach to meeting the Department's new air travel reduction target.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many hours (*a*) in total and (*b*) on average per employee were worked by civil servants in her Department in the last year for which records are available. [195823]

Mr. Dhanda: In the financial year 2006-07 we estimate that 3,670,000 hours were worked by civil servants in Communities and Local Government. This equates to 1,300 hours per employee. It should be noted that many staff will not have been in post for the duration of the year, or did not work on a full-time basis, or both.

The estimates are derived from the information on available staff years published by Cabinet Office in their report Analysis of Sickness Absence in the Civil Service.

Digital Mapping

Mr. Maude: To ask the Secretary of State for Communities and Local Government which Government Department is the lead body for the development of the Digital National Framework. [198197]

Mr. Dhanda: The activities of the Digital National Framework (www.dnf.org) are agreed by an Expert Group formed of officials representing local and central Government, non-Department Government bodies and the private sector. Their aim is to promote linkages across national and local datasets, which have a geographic component, to support the sharing of information about a common location. The majority of their resource comes from "in kind" contributions of individual members, supplemented by limited financial sponsorship to cover promotional activities and some technical documentation. Therefore there is no single body taking the lead of the Digital National Framework.

East of England Regional Assembly

Bob Spink: To ask the Secretary of State for Communities and Local Government if she will make it her policy to seek the abolition of the East of England Regional Assembly. [199931]

Mr. Dhanda: On 31 March 2008 the Government published 'Prosperous Places: Taking forward the Review of Sub National Economic Development and Regeneration'. This confirms that regional assemblies will not continue in their current form and seeks views on reforms that would streamline the regional tier.

Eco-Towns

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether carbon offsets will be included in calculations to determine whether an eco-town *(a)* is carbon neutral and *(b)* has zero-carbon status. [198712]

Caroline Flint: As we set out in the consultation document 'Eco-towns—Living a greener future', published on 3 April, eco-towns should use innovative design and a range of low and zero carbon energy sources to reduce the demands on energy in the home and other buildings.

At the scale of 5-20,000 homes, eco-towns have the critical mass necessary to trial and develop new or existing technologies to achieve zero carbon across the whole development. Zero carbon means that over a year, the net carbon emissions from all energy use within the buildings on the development are zero.

Eco-Towns: Planning Permission

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government if she will consider including heat grids and biomass-based tri-generation systems in evaluating the bids for eco-towns. [199700]

Caroline Flint: We are currently consulting on the potential locations for eco-towns and the broader objectives and benefits of these new settlements. The consultation document, 'Eco-towns—Living a greener future', was published on 3 April and sets out some innovative approaches that bidders are proposing for more sustainable living. We want to encourage these, and this might include heat grids and biomass-based tri-generation systems.

Eco-Towns: Transport

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government (1) whether her Department has estimated the percentage of residents in eco-towns who will be expected to travel to work by *(a)* rail, *(b)* bus, *(c)* bicycle, *(d)* car and *(e)* on foot; [199974]

(2) whether her Department has estimated how far residents of the new eco-towns will be expected to travel to work on average. [199975]

Caroline Flint: We are currently consulting on the potential locations for eco-towns and the broader objectives and benefits of these new settlements. The consultation document, 'Eco- towns—living a greener future', was published on 3 April and sets out what needs to be achieved in terms of sustainable transport. Each location will need its own approach, but will need to demonstrate how it will meet the criteria.

Energy: Conservation

Jim Cousins: To ask the Secretary of State for Communities and Local Government if she will estimate how many homes in each metropolitan authority in Tyne and Wear would be rated F or G for energy performance. [196110]

Caroline Flint: No research has been undertaken upon which an estimate could be made of how many homes in each metropolitan authority in Tyne and Wear would be rated F or G for energy performance.

Fire Alarms: Standards

Kate Hoey: To ask the Secretary of State for Communities and Local Government how many and what percentage of *(a)* battery-operated and *(b)* hard-wired smoke alarms were found to be defective in dwelling fires in each of the last 10 years for which figures are available. [198356]

Mr. Dhanda: Information on the number and percentage of fire alarms which failed to operate in dwelling fires, in England, as recorded by Fire and Rescue Services, is presented in the table:

Smoke alarm failures in dwelling fires[1] by type of alarm, England, 1997-2006

Year and Alarm type	*Total*	*Alarm operated*	*Alarm failed to activate*	*Percentage failed*
1997				
Total	15,844	12,192	3,652	23
Battery-powered	7,754	4,884	2,870	37
Mains-powered	7,994	7,263	731	9
Other and unspecified	96	45	51	53

Smoke alarm failures in dwelling fires[1] by type of alarm: England, 1997-2006

Year and Alarm type	Total	Alarm operated	Alarm failed to activate	Percentage failed
1998				
Total	17,531	13,091	4,440	25
Battery-powered	8,108	4,661	3,447	43
Mains-powered	9,325	8,372	953	10
Other and unspecified	98	58	40	41
1999				
Total	20,072	14,888	5,186	26

[1] Figures for 1997-2004 and for Q2-Q4 2006 are based on sampled, weighted data.
[2] Excluding incidents not recorded during periods of industrial action in 2002 and 2003

Fire Services

Mr. Dismore: To ask the Secretary of State for Communities and Local Government how many people were rescued alive by the fire and rescue service *(a)* from fires, *(b)* from fires in dwellings and *(c)* having been trapped or injured by industrial machinery in each of the last 10 years for which figures are available. [198056]

Mr. Dhanda: Information on the number of people rescued alive by the Fire and Rescue Service, in England, from fires in total and in dwellings from 1997 to 2006 has been deposited in the Library of the House. Please note that these data are based on a weighted sample and that figures for 2006 are provisional and subject to change.

Information on incidents involving personnel trapped or injured by industrial machinery attended by Fire and Rescue Services is not available.

Bob Spink: To ask the Secretary of State for Communities and Local Government what her policy is on the use of targeted response vehicles to replace fully staffed, fully equipped fire appliances in certain circumstances. [198896]

Mr. Dhanda: Targeted Response Vehicles (TRVs) are used as an extra resource by Fire and Rescue Authorities (FRAs) at specified times and locations to provide a more flexible and increased service in specific areas. Effective use of new midi fire appliances or TRVs crewed with three firefighters can, in certain circumstances, provide a better service for local communities. As well as tackling small fires, using TRVs in identified 'hot spots' can act as a deterrent to miscreants and free up staff for major incidents and community safety work.

FRAs are required by the Fire and Rescue Service National Framework to have in place and maintain an integrated risk management plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover for fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly.

It is not the role of Ministers to intervene in the operational proposals of an individual FRA's IRMP; that is rightly the decision for elected members of the authority concerned to determine following full consultation with the local community.

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how many *(a)* railway accidents were attended by the Fire Service and *(b)* people were rescued alive from railway accidents by the Fire Service in each year since 1994. [199036]

Mr. Dhanda: The available information covers the number of railway accidents attended by fire and rescue services. Details of any associated rescues are not held centrally.

Railway incidents attended by fire and rescue services in England

	Number

2004-05	75
2005-06	84

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how many persons were rescued alive from fires in dwellings by each fire service in each year since 1994. [199037]

Mr. Dhanda: Information on the number of people rescued from dwellings by Fire and Rescue Services, in England, is provided in the following table:

Table 1 Rescues from fires in dwellings by FRS personnel[1] by year, England, 1994 to 2006

FRS area	1994	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006

[1] Rescue figures are based on sampled, weighted data.

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how many road accidents the Fire and Rescue Service attended in each fire authority area in each year since 1994; and how many people were rescued from their vehicles in each year. [199038]

Mr. Dhanda: Available information, for the period 1995 to 2006, has been deposited in the Library of the House. This information includes the number of incidents where people were extricated from vehicles.

Information on the number of people rescued from these incidents is not centrally held.

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how many incidents involving flooding the Fire and Rescue Service attended in each year since 1994; and how many people were rescued from flooding in each year. [199039]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Fire Services: Crimes of Violence

Mr. Spring: To ask the Secretary of State for Communities and Local Government how many attacks there were on fire crews in *(a)* the East of England and *(b)* Suffolk in each of the last five years. [187115]

Mr. Dhanda: Communities and Local Government have only collated figures relating to attacks on firefighters since 2004, so data are not available for the last five years. The following figures are based on returns to the Department from Fire and Rescue Authorities.

	2004-05	2005-06	2006-07
Bedfordshire	1	4	4
Cambridgeshire	0	29	15
Essex	0	17	17
Hertfordshire	0	1	0
Norfolk	1	2	4
Suffolk	0	4	3
Total	2	57	43

Ms Dari Taylor: To ask the Secretary of State for Communities and Local Government how many attacks there were on fire crews in *(a)* Cleveland, *(b)* North East England and *(c)* Stockton South constituency in each of the last three years. [188968]

Mr. Dhanda: Figures are not collected for the Stockton, South constituency. The following figures are based on returns to the Department from Fire and Rescue Authorities.

	2004-05	2005-06	2006-07
Cleveland	62	96	91
Durham	0	28	48
Northumberland	0	10	7
Tyne and Wear	2	33	98
Total	64	167	244

Fire Services: Manpower

Mr. Harper: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of the reduction in fire control centre staff by 112 in the South West on performance standards in Fire and Rescue Services in the area in Gloucestershire. [200062]

Mr. Dhanda: The most recent strength figure (March 2007) for staff employed in the South West Fire and Rescue Authorities is 179.69. The number of staff employed by each Fire and Rescue Authority including those in the South West is a matter for them and consequently the total figure fluctuates around this mark. Likewise, the number of staff employed by the Regional Control Centre in Taunton is a matter for them.

The South West Regional Control Centre will ensure that the South West region, including Gloucestershire, has a fully resilient Regional Control Centre that is part of a fully networked national system. This network will provide a first class, resilient control service, whereby each Regional Control Centre will provide support to each other, in the event that one or more Regional Control Centres becomes unavailable.

The performance standards that each Regional Control Centre will meet are presently under discussion but will not be less than those currently achieved. In addition service delivery and firefighter safety will be enhanced through bringing all controls up to the standard of the highest currently in use.

Every Regional Control Centre will be able to mobilise any Fire and Rescue unit anywhere in England, which is currently not possible. This new network and the associated Firelink communications project will deliver a more efficient and resilient control service.

Decisions about exact staffing levels will be a matter for the South West Fire Control Service Ltd. to decide. The Fire and Rescue Authorities included in this company are: Avon, Cornwall, Devon and Somerset, Dorset, Gloucestershire, Isles of Scilly and Wiltshire.

Floods: Repairs and Maintenance

Miss McIntosh: To ask the Secretary of State for Communities and Local Government how many people have not yet returned to their homes due to flood damage from summer 2007; and what assessment she has made of the availability of the *(a)* plumbers, *(b)* electricians, *(c)* plasterers and *(d)* other essential workers necessary to complete repairs. [197946]

John Healey: The latest figures provided by local authorities indicate that between 6,400 and 6,700 households are still displaced.

We have not carried out such an assessment. Insurance companies have given assurances that there are sufficient resources available in the construction industry to deal with repairs to homes affected by the floods.

Housing: Castle Point

Bob Spink: To ask the Secretary of State for Communities and Local Government what target she has set for housebuilding in Castle Point constituency over the next planning period; and what the *(a)* process and *(b)* anticipated timing is for finding sites for these houses. [199369]

Mr. Dhanda: The Proposed Changes to the draft Regional Spatial Strategy for the East of England propose a target of 4,000 net additional homes in Castle Point between 2001 and 2021. Of these, 1,114 had been built by the end of March 2007, and planning permission existed for a further 463. General locations for the 2,423 homes still to be identified will be determined through the preparation of Castle Point's Core Strategy, which is due to be adopted next spring. More detailed guidance will be provided through site allocation documents for Canvey Island and for Benfleet, Hadleigh and Thundersley (both due to be adopted in 2010).

Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government when she plans to publish the Housing Strategy Statistical Appendix for 2007; and if she will make a statement. [199371]

Mr. Iain Wright: Information collected from local authorities in the 2007 Housing Strategy Statistical Appendix was published on the 18th March 2008 on the Communities and Local Government website at:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/localauthorityhousing/dataforms/357553/hssa200607/

Housing: Trade Unions

Jeremy Corbyn: To ask the Secretary of State for Communities and Local Government whether the *(a)* Housing and Communities Agency and *(b)* OfTenant will maintain voluntary recognition established by the Housing Corporation to (i) Unison and (ii) Unite for collective bargaining purposes; and if she will make a statement. [199987]

Caroline Flint: Staff will transfer from the Housing Corporation to the Homes and Communities Agency and the social housing regulator as though they were transferring under the Transfer of Undertakings (Protection of Employment) Regulations 2006, with their existing terms and conditions of service. The Housing Corporation's current voluntary recognition agreement with Unison and Unite will transfer to the Homes and Communities Agency and the social housing regulator and will apply to the staff transferred from the Housing Corporation. As the Homes and Communities Agency will inherit staff from a number of transferring bodies with a variety of different staff representation arrangements, it will develop a set of proposals after creation for a unified approach to staff representation. These will then be used to ballot staff on the issue on the basis of continuous and close involvement of the unions and the staff side.

As the social housing regulator will inherit staff only from the Housing Corporation, it will continue the current recognition arrangements of the Housing Corporation.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Communities and Local Government how much her Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199589]

Mr. Dhanda: The Department (as the Office of the Deputy Prime Minister) was formed in 2002 and no payments have been made to JP Morgan since then. Information prior to this date could be provided only at disproportionate cost.

Karian and Box

Mr. Hands: To ask the Secretary of State for Communities and Local Government what the value was of each contract awarded by her Department and its predecessors to Karian and Box since 1997. [199635]

Mr. Dhanda: The Department has formally awarded no contracts to Karian and Box since the formation of its predecessor department, the Office of the Deputy Prime Minister, in 2002. The Department co-branded the Karian and Box survey 'A comprehensive view of local government communications today: LG07 study 2007'.

Information prior to 2002 is not held centrally and could be provided only at disproportionate cost.

Lighting

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 20 March 2008, *Official Report*, column 1378W, on lighting, whether switching off street lighting at night is deemed to be a service cut, according to the methodology used by her Department. [199284]

Mr. Dhanda: It would depend on the circumstances. As with any action reported as an efficiency gain, a local authority must assess whether service quality has been maintained and provide evidence to that effect as part of their Annual Efficiency Statement.

Local Area Agreements

Margaret Moran: To ask the Secretary of State for Communities and Local Government what guidance her Department has provided to local authorities on hon. Members' involvement in the development of local area agreements. [198801]

John Healey: Each local authority responsible for preparing a local area agreement has a duty to consult "such...persons as appear to it to be appropriate" (Local Government and Public Involvement in Health Act 2007, Section 106(2)(a)(ii)).

Draft statutory guidance on how to fulfil this duty was issued for consultation on 20 November 2007. The relevant passages are at paragraphs 4.8 and 5.7 - 5.12 (Creating Strong, Safe and Prosperous Communities), which can be accessed on the Department's website at:

http://www.communities.gov.uk/publications/localgovernment/statutoryguidance

Local Authorities: Pay

Bob Spink: To ask the Secretary of State for Communities and Local Government what the *(a)* highest, *(b)* mode and *(c)* mean salary package is for a chief executive of a (i) borough council and (ii) county council, including bonus entitlements. [199386]

John Healey: Central Government do not collect the information requested. However, the Local Government Employers conducts an annual survey of chief executive and chief officer salaries and workforce numbers. The results of this survey are available on their website at:

http://www.lge.gov.uk/lge/core/page.do?pageId=119009

Local Government Finance: Children

Simon Hughes: To ask the Secretary of State for Communities and Local Government what representations she received from local authorities on the adequacy of the children's social services formula used in the 2008 to 2011 local government funding settlement in assessing the needs of children in urban areas; and what account she took of such representations. [199297]

John Healey: During consultation on the 2008-09 settlement, local authorities representing urban areas expressed a range of views about the children's social services formula that was phased in from 2006-07. Most local authorities that expressed a view favoured the full implementation of the new children's formula, which better reflects the current patterns of relative need than the formula it replaced.

The House approved the Local Government Finance Settlement for 2008-09, including full implementation of this formula, on 4 February 2008.

Local Government: Migration

Simon Hughes: To ask the Secretary of State for Communities and Local Government what steps she is taking to ensure that local authorities are able to meet costs arising in relation to *(a)* short-term and *(b)* long-term international migration. [199303]

Mr. Dhanda: In terms of Government funding, we have been able to provide a fair and affordable settlement for local government in a tight spending round, providing an average real terms increase in Government grant of 1.5 per cent. per year over the next three years.

In the longer term the Office for National Statistics are leading a programme of work to improve the population and migration statistics which will deliver improvements in time to incorporate the results in calculating the next three-year local government settlement.

Local Government: Pensions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what estimate has been made of the annual cost to local authority employers of the Local Government Pension Scheme as a result of the *(a)* recent and *(b)* planned changes. [198926]

John Healey: The new-look Local Government Pension Scheme, which came into effect on 1 April, was planned as the basis of a future service cost of 19.5 per cent. of payroll, formed of 6.3 per cent. of pay from employees, and 13.2 per cent. of payroll from employers. The actual costs for local authority employers are emerging from the results of the 2007 scheme valuation exercise. The information is not yet fully available centrally.

To maintain the stability of scheme costs, and achieve a fair and equitable balance between the provision of current and future benefits, and their cost for members, employers and taxpayers, new arrangements for sharing future cost-pressures and risks will be in place by 31 March 2009 to feed into the next, 2010, valuation exercise.

Minister for the East of England: Essex

Mr. Burns: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 31 March 2008, *Official Report*, column 715W, how many times the Minister for the East of England: Essex, has visited the area administered by Essex county council since her appointment; and for what reasons. [198841]

Mr. Dhanda: The Minister for the East of England has not yet visited the area administered by Essex county council. She will be visiting Chelmsford on July 7 for a meeting with Essex county council and other county partners.

Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what legislation governs the setting of yearly multipliers for non-domestic rates. [198915]

John Healey: Schedule 7 to the Local Government Finance Act 1988 prescribes the formulae by which non-domestic rating multipliers are set each year and sets out the process to be followed, including in relation to notifying authorities of the multipliers.

Non-Domestic Rates: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what use the Valuation Office Agency is making of Prior Agreements for the 2010 business rates valuation. [198922]

John Healey: The Valuation Office Agency (VOA) is keen to make the rating system more transparent. Prior agreement seeks to involve ratepayers and their representatives actively in the rating revaluation process by exchange of information, discussion and — where possible — agreement of a consistent approach to the valuation.

Prior agreement works best where the property type is of a discrete nature and where the number of different occupiers is limited. The VOA will look at the possibilities for prior agreement in these circumstances.

Planning: Hillingdon

John McDonnell: To ask the Secretary of State for Communities and Local Government what advice her Department has provided to the London borough of Hillingdon in the development of its local planning policies, framework and guidance, with particular regard to *(a)* the proposed development of the third runway and *(b)* a sixth terminal at Heathrow airport. [197789]

Mr. Dhanda: The London borough of Hillingdon has been advised that in order for the council to submit a sound core strategy (as part of the Local Development Framework), it must develop some strategic spatial development options for the borough and that it is not possible to do this without recognition of Heathrow as a key driver of economic development within the area.

However, it is recognised that the council would not wish to produce a Local Development Framework that sets out a strategy based only on expansion at Heathrow (beyond T5) and therefore advice on a possible approach has been given. The approach is for the council to consider appropriate strategic spatial options for development in the borough that take as a starting point a range of scenarios for the future development of the airport, including for example, additional capacity by addition of a third runway. This approach would allow the core strategy strategic spatial options to take account of the impact of these scenarios on future development patterns for housing and employment land within the borough.

The council has been advised that it is not appropriate for realistic strategic spatial options, that are not supported by the council, to be excluded from consideration, particularly in relation to the expansion of Heathrow (beyond T5) which is Government policy.

It is ultimately for the council to decide how to take forward the preparation of the core strategy.

Property: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency's Value Significant Code FC records a property as being *(a)* inside a conservation area and *(b)* outside but adjoining a conservation area. [198895]

John Healey: Value significant codes (VSC) allow the Valuation Office Agency to record electronically property features that may have a positive or negative effect on value. The value significant code FC is recorded for properties both within a conservation area and outside but adjoining or in close proximity to a conservation area. A VSC does not necessarily signal that a property's council tax band should be altered.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what types of amenity or positive facility are currently treated by the Valuation Office Agency as qualifying for a classification of Value Significant Code FO. [198923]

John Healey: Value significant codes (VSC) allow the Valuation Office Agency to record electronically property features that may have a positive or negative effect on its value. Examples of the use of the code FO might include properties whose value is enhanced due to their proximity to open fields, a village green or extensive landscaped grounds. Other VSCs may indicate that a property's value is affected negatively, for example with no mains drainage or located on an unadopted road. Presence of this, or any other, VSC does not necessarily signal that a property's council tax band should be altered.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many domestic properties in England are classified by the Valuation Office Agency with the Value Significant Code OS. [199141]

John Healey: The VOA has not undertaken a comprehensive exercise to gather value significant coding information on all domestic dwellings in England.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what account the Valuation Office Agency takes of the location of a property on a gated estate when revaluing it for the purposes of *(a)* non-domestic rates and *(b)* council tax. [199252]

John Healey: When assessing a rateable value for non-domestic rates or a banding for council tax, the focus is on the market value of a property, whether or not it is located on a gated estate.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the presence of a traveller encampment near to a property has a value significant code used by the Valuation Office Agency for the valuation of a domestic or composite hereditament. [198876]

John Healey: There is no such specific code.

Public Libraries: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many public libraries in *(a)* England and *(b)* Wales were on the Valuation Office Agency's 2005 Rating List in the last period for which figures are available. [199265]

John Healey: As at 31 December 2007 the number of Libraries recorded were:

England: 2,921

Wales: 255

Regeneration: Manton

John Mann: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 31 March, if she will break down the £400,000 of private funding attracted by Manton neighbourhood management pathfinder by *(a)* funder and *(b)* regeneration activity supported. [199122]

Mr. Dhanda: Listed are details of the additional, non neighbourhood Management funding, totalling £408,000 secured by the Manton Neighbourhood Management Pathfinder.

Funding Source and Amount	*£*	*Regeneration Activity Supported*
WREN	150,000	Development of Manton Park
Al Housing	100,000	Development of Manton Park
Bassetlaw District Council	25,000	Development of Manton Park
Bassetlaw PCT	10,000	Support for local participatory activity
Coalfield Regen Trust	48,000	Grant to support holistic work with Children
Notts Police	75,000	Crime reduction activity

Regional Empowerment Consortia

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what funding has been provided to the Regional Empowerment Consortia by her Department; and for what purpose. [198867]

Mr. Dhanda: For 2007-08, the Community Development Foundation received £1,175,749 from the Department for Communities and Local Government to support nine independent Regional Empowerment Consortia with their work in supporting improvement in the quality and effectiveness of community empowerment practices undertaken by local and regional partners.

Regional Planning and Development

Mr. Pickles: To ask the Secretary of State for Communities and Local Government when her response to the examination in the public report on the *(a)* South West and *(b)* East Midlands regional spatial strategies will be published. [198868]

Mr. Dhanda: The Secretary of State's Proposed Changes, which constitute the response to the Examination in Public Panel Report, for the South West and East Midlands are due to be published in spring 2008.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what progress has been made on development of each of the regional spatial strategies; what the timetable for implementation of each is; and if she will make a statement. [198869]

Mr. Dhanda: The progress and timetable for the implementation of the RSSs are as follows.

	Date of implementation
North East	
Proposed Changes Consultation	Spring 2008
Issue of final RSS	Summer 2008
North West	
Proposed Changes Consultation	Spring 2008
Issue of final RSS	Summer 2008
Yorkshire and Humber	
Issue of final RSS	Spring 2008
East Midlands	
Proposed Changes Published	Spring 2008
Proposed Changes Consultation	Summer 2008
Issue of final RSS Autumn	Summer 2008
West Midlands (Phase 2)	
Consultation on Draft RSS ends	Winter 2008
EiP	Spring 2009
Panel Report	Summer 2009
Proposed Changes Published	Summer 2009
Proposed Changes Consultation	Autumn 2009
Issue of final RSS	Winter 2009
East of England	
Issue of final RSS	Spring 2008
South East

Proposed Changes Consultation	Summer 2008
Issue of final RSS	Winter 2009
South West	
Proposed Changes Published	Spring 2008
Proposed Changes Consultation	Summer 2008
Issue of final RSS	Autumn 2008

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what powers her Department and the regional government offices have to intervene in local authority targets setting the context of local area agreements. [198871]

John Healey: I refer the hon. Member to the answer I gave on 17 December 2007, *Official Report*, columns 1157-1158W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what role she plays in approving or amending the final version of the regional spatial strategies of each government office region in England outside London. [198894]

Mr. Dhanda: The role the Secretary of State plays in approving and amending the final RSS is outlined in Planning Policy Statement 11 Regional Spatial Strategies.

The Secretary of State receives the Examination in Public Panel Report and produces Proposed Changes which are subject to an eight-week consultation period. Having considered representations made, the final RSS incorporating any further changes is published together with a statement of reasons for any changes made.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the names and addresses are of each Regional Improvement and Efficiency Partnership; and how much funding is allocated to each in 2008-09. [199140]

Mr. Dhanda: The information requested is tabled as follows:

Regional Improvement and Efficiency Partnership	*Allocation for 2008-09 £*
West Midlands Regional Improvement and Efficiency Partnership Regional Partnership Centre Albert House Quay Place Edward Street Birmingham B1 2RA	5,327,000
Capital Ambition London Councils 59½ Southwark Street London SE1 0AL	5,702,000
North West Improvement and Efficiency Partnership Waterside Drive Off Swan Meadow Road Wigan Lancashire WN3 5BA	5,952,000
Yorkshire and the Humber Regional Improvement and Efficiency Partnership 18 King Street Wakefield WF1 2SQ	4,753,000

North East Improvement and Efficiency Partnership c/o Association of North East Councils Guildhall Quayside Newcastle-upon-Tyne NE1 3AE	4,203,000

Regional Planning and Development: North West

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what changes to green belt designation the most recent version of the North West Regional Spatial Strategy proposes. [198873]

Mr. Dhanda: The most recent version of the North West Regional Spatial Strategy is the Secretary of State's Proposed Changes to the Draft RSS "The North West Plan". These proposed changes are the subject of a consultation exercise which runs from 20 March until 23 May 2008.

The proposed policy on green belts, RDF4, states that overall the general extent of the green belt will be maintained.

The policy allows local development frameworks to provide for detailed changes in green belt boundaries to accommodate the expansion of Manchester Airport and Liverpool John Lennon Airport; and to provide for an inter-modal freight terminal at Newton-le-Willows. The policy also requires that, subject to the agreement of the North West Regional Assembly, any other local detailed boundary changes should be examined through the local development framework process.

Unitary Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for each of the new unitary councils to become operational. [198890]

John Healey: The Structural Change Orders, which were recently approved by both Houses, provide for the establishment of unitary authorities for Bedford Borough, Central Bedfordshire, Cheshire East, Cheshire West and Chester, Cornwall, Durham, Northumberland, Shropshire and Wiltshire on 1 April 2009.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what funding from the public purse is being provided to each of the new unitary councils to assist their restructuring. [198891]

John Healey: I refer the hon. Member to the answer I gave the hon. Member for Beckenham (Mrs. Lait) on 3 September 2007, *Official Report*, column 1684W.

Valuation Office: Council Tax

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will place in the Library copies of the minutes of the Valuation Office Agency's Council Tax Revaluation Programme Board for the CTR2007 project. [183223]

John Healey: I refer the hon. Member to the answer given by my predecessor to the hon. Member for Meriden (Mrs. Spelman) on 27 April 2006, *Official Report*, column 1285W. These minutes relate to internal discussion and advice to Ministers on the formulation and development of Government policy.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Communities and Local Government how much her Department paid to Zurich Financial Services in each year since 1997; and what these payments were for. [199660]

Mr. Dhanda: Only one payment has been made to Zurich Risk Services (which is part of the Zurich Financial services Group) since the Department (as the Office of the Deputy Prime Minister) was formed in 2002. Information prior to this date could be provided only at disproportionate cost.

The amount paid was £3,612.40 excl. VAT in February 2008. This was the first payment made in respect of a contract for six monthly inspections of Fire and Rescue Service equipment to be used for mass decontamination of people and urban search and rescue.

INTERNATIONAL DEVELOPMENT

Africa: Health Education

Lyn Brown: To ask the Secretary of State for International Development what steps his Department is taking to encourage programmes promoting sex education and providing contraceptives in Africa. [197281]

Gillian Merron: The Department for International Development (DFID) works with partner governments to improve access to sexual and reproductive health services and commodities through DFID funded country programmes.

DFID is helping nine developing countries including South Africa, Uganda and Kenya to strengthening curricula for gender education, including sex education, by funding a £35 million programme called 'transitions to adulthood'. DFID also supports the United Nations Children's Fund (UNICEF) in encouraging the development of life skills programmes for school children and out of school youth, which cover issues relating to safe sex and responsible sexual behaviour.

DFID has recently announced £100 million over five years to the United Nations Fund for Population Activities (UNFPA) to improve access to family planning and reproductive health supplies. DFID is also one of the largest supporters of the Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM), providing £100 million in 2007. GFATM supports both sex education and condom distribution as part of its broader strategy to fight AIDS.

Africa: Overseas Aid

Bob Spink: To ask the Secretary of State for International Development which UK bilateral aid programmes are underway in (*a*) Mozambique, (*b*) Sudan, (*c*) Ethiopia and (*d*) Rwanda; and what the (i) duration and (ii) cost is of each. [198893]

Gillian Merron: The following tables show all the UK bilateral aid programmes with a value of £500,000 or more currently under way in Mozambique, Sudan, Ethiopia and Rwanda.

(a) Mozambique

Sector	Programme	Commitment £ million	Commitment From	Commitment To

Burma: Overseas Aid

John Bercow: To ask the Secretary of State for International Development what steps he has taken to investigate means of providing *(a)* in-country and *(b)* cross-border assistance to Chin state, western Burma. [198375]

Mr. Malik: The Department for International Development (DFID) is already providing a significant amount of support to Chin State from inside the country. This includes support to livelihoods and community development activities through the United Nations Development Programme in every Township in Chin State; and support through the Three Diseases Fund for work on HIV/AIDS, TB and Malaria. In addition we have regular discussions with Chin civil society groups about conditions in Chin State, and the prospects for provision of additional support.

Chad: Overseas Aid

Angus Robertson: To ask the Secretary of State for International Development what plans his Department has for the *(a)* delivery and *(b)* distribution of humanitarian assistance in Chad; what the minimum security requirements are for these plans to be put into effect; and if he will make a statement. [197122]

Gillian Merron: The Department for International Development (DFID) is planning to continue its humanitarian engagement with a further £5 million in 2008-09. DFID's support will focus in particular on internally displaced persons (IDP) and host populations. DFID will continue to support immediate relief interventions, to improve humanitarian co-ordination and look for ways to encourage early recovery. DFID is working with a range of implementers from the United Nations (UN) agencies, non-governmental organisations (NGOs) and the Red Cross to ensure that the final distribution of assistance is carried out in a transparent and appropriately targeted way, with particular attention taken to ensure that partners are acting with independence and impartiality.

The relief initiatives supported by DFID are ongoing in spite of a security environment that makes access to vulnerable populations difficult. DFID has chosen partners that have a proven track record of delivery even in the most insecure areas at the Chad/Sudan border. The European Union Force (EUFOR) is mandated to protect IDPs, host populations and aid workers, and to promote the conditions for IDP return; as EUFOR deploys, we expect that it will become easier to deliver aid. DFID is making provision to allow the expansion of relief and early recovery efforts if and when the security environment is improved.

Chad: Politics and Government

Angus Robertson: To ask the Secretary of State for International Development what discussions *(a)* he, *(b)* members of his Department and *(c)* UK representatives abroad have had on (i) the humanitarian situation in Chad, (ii) plans to alleviate the humanitarian situation in Chad and (iii) co-ordination of a post-conflict humanitarian response in Chad; with whom such discussions were held; and if he will make a statement. [197123]

Gillian Merron: The Secretary of State for International Development chairs regular ministerial meetings on Africa that cover a wide range of subjects, including Chad. The Department for International Development (DFID) is continuing to work with the Foreign and Commonwealth Office to refine the UK's wider approach to Chad and the region.

Externally, DFID officials continue to be involved in discussions about Chad on a number of fronts, both in the UK, in Europe and in N'Djamena. The UK leads an informal donor/United Nations (UN) contact group in Geneva, which includes all the major donors engaged in Chad, as well as the key UN agencies active in the humanitarian response. DFID is using this forum for building consensus among donors to improve humanitarian coordination and intervention.

Other discussions relate to the development of a comprehensive humanitarian protection approach, the relationship of humanitarian actors with European Union forces (EUFOR), and the targeting of aid in the border areas. Recently, discussions have focused on the development of a coherent post-conflict response. DFID is now working to stimulate the UN's planning in this area, and to ensure that the UK's own planning is complementary to the plans being put forward by European partners.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for International Development what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197159]

Mr. Douglas Alexander: I have visited one of the listed venues in a ministerial capacity since my appointment as Secretary of State for International Development. This was the Excel Conference Centre, Docklands, London, to deliver a speech at the 'Women Deliver' event.

My predecessor, the right hon. Member for Leeds, Central (Hilary Benn), visited the Queen Elizabeth Centre in London on three occasions. In March 2005 he attended an event on the Extractive Industries Transparency Initiative (EITI); in October 2005 he delivered a speech at the 'Tackling Health Inequalities' event; and in January 2007 he attended the 'Moving Young Minds' event. Hilary Benn also attended one event at the Excel Conference Centre, Docklands, London for the National Policy Forum in June 2006.

Departmental Public Participation

Stewart Hosie: To ask the Secretary of State for International Development how many public consultations were held by his Department in each of the last three years; and how many respondents took part in each consultation. [198640]

Mr. Malik: The Department for International Development (DFID) is committed to consulting effectively with the public and interested groups. DFID guidance on how to consult is based on the Cabinet Office's Code of Practice on Consultation. Public consultations are administered independently by the consulting policy or country team, using this departmental guidance. There is therefore no central record of the number held for the last three years, or of the number of respondents to each, and so it would be of disproportionate cost to provide these details.

Developing Countries: Diseases

John Bercow: To ask the Secretary of State for International Development what plans his Department has to fund research into *(a)* vaccines, *(b)* microbiocides, *(c)* drugs and *(d)* diagnostics for (i) guinea-worm disease, (ii) river blindness, (iii) lymphatic filariasis, (iv) schistosmiasis, (v) intestinal helminths, (vi) leishmaniasis and (vi) sleeping sickness; and what recent discussions he has had with the World Health Organisation on tackling these diseases. [197733]

Gillian Merron: The 2006 Department for International Development (DFID) White Paper referred to the need for a substantial increase in DFID funding for drug and vaccine development. More details about plans to fund research will be available when DFID's new research strategy is launched. New funding will be awarded following open competition, so it is not currently possible to identify exactly which areas will be supported.

DFID is in close and regular contact with the World Health Organisation (WHO). The International Health Partnership (IHP), which is being led by the WHO and the World Bank, aims to help develop and put in place country health plans that include tackling these diseases.

Developing Countries: Females

Tony Lloyd: To ask the Secretary of State for International Development what recent steps his Department has taken to improve women's *(a)* access to education, *(b)* political empowerment and *(c)* access to family planning resources in developing countries. [195744]

Gillian Merron: The UK Government will spend £8.5 billion on education in our partner countries over the period 2006-07 to 2015-16. We prioritise girls' education by supporting our partner governments in putting gender equality at the heart of their own education programmes and by supporting education skills and literacy programmes which target women and girls. DFID is also taking a lead on raising awareness of the importance of girls education with our international partners and is supporting the Global Campaign for Education in its efforts to promote education for girls.

Women's political participation is promoted by supporting civic and voter education projects and skills and leadership training for female candidates and women's groups. These activities have resulted in better representation of women within political parties and in local government and national parliaments.

Between 2004 and 2008, the UK Government have provided £80 million in core resources and announced an additional contribution of £100 million over five years to the United Nations Population Fund (UNFPA). This will allow the UNFPA to improve access and supplies of family planning commodities in the developing world. DFID also works with partner governments to ensure access to family planning is prioritised in their health plans.

Developing Countries: Health Education

Lyn Brown: To ask the Secretary of State for International Development what contribution the UK made to multilateral organisations working on sexual and reproductive health in developing countries in the latest period for which figures are available; and if he will make a statement. [197279]

Gillian Merron: The total UK contributions to key multilateral organisations working in the area of sexual and reproductive health for 2006-07 were as follows:

	£ million
United Nations Population Fund (UNFPA)	25.0
UNAIDS (Joint United Nations Programme on HIV/AIDS)	10.0
World Health Organisation (WHO)	59.0
United Nations Children's Fund (UNICEF)	24.7

These figures do not include funds channelled directly to the UN for specific country programmes.

Lyn Brown: To ask the Secretary of State for International Development what steps his Department has taken to encourage European counterparts to increase their contributions to multilateral organisations working on sexual and reproductive health in developing countries. [197280]

Gillian Merron: The UK Government regularly encourage European counterparts to increase their investment in multilateral organisations working on sexual and reproductive health.

DFID recently pledged £100 million over five years to UNFPA's Reproductive Health Commodity Supply Programme, to improve the availability of family planning supplies in developing countries. To encourage other development partners to increase their support for UNFPA we are sharing the analytical work on this programme and which shaped our decision to support UNFPA, together with the performance monitoring framework by which we will judge the success of the programme.

At the recent UNFPA informal donors meeting the UK Government also lobbied their development partners for increased investment in sexual and reproductive health.

The UK was the first government donor to support the Safe Abortion Action Fund in 2007, with funding of £4 million. The UK's initial pledge has resulted in several other donors also contributing a further £3 million.

HIV Infection: Overseas Aid

Chris McCafferty: To ask the Secretary of State for International Development if he will ensure greater involvement of HIV-positive people in the development of his Department's HIV/Aids policies and practices. [199694]

Gillian Merron: Following a public consultation the UK Government are currently updating "Taking Action—The UK's strategy for tackling HIV and AIDS in the developing world". The updated AIDS strategy will continue to involve people living with HIV in developing and taking forward our AIDS response.

Latin America: Children

Mr. Lancaster: To ask the Secretary of State for International Development what funding his Department has allocated to support the development of city-wide strategies for early intervention as a means of reducing the number of street children in cities in Latin America. [199544]

Mr. Malik: The Department for International Development (DFID) has not allocated specific funding for city-wide strategies to stem the flow of street children in Latin America. DFID support for street children is delivered largely through non-governmental organisations (NGOs).

Overseas Aid

Mr. Crabb: To ask the Secretary of State for International Development what proportion of total aid spending by his Department was received by the 30 recipients in receipt of the greatest value of aid in 2006-07. [199068]

Mr. Malik: The 30 recipients in receipt of the greatest value of aid received 73 per cent. in total of Department for International Development (DFID) bilateral aid in 2006-07.

Mr. Crabb: To ask the Secretary of State for International Development what proportion of aid from his Department to *(a)* India, *(b)* Tanzania, *(c)* Sudan, *(d)* Bangladesh, *(e)* Pakistan, *(f)* Afghanistan, *(g)* Ethiopia, *(h)* Nigeria, *(i)* Uganda, *(j)* Democratic Republic of Congo, *(k)* Ghana, *(l)* Kenya, *(m)* Malawi, *(n)* Zambia, *(o)* Indonesia, *(p)* Mozambique, *(q)* Vietnam, *(r)* Iraq, *(s)* Nepal and *(t)* China in 2006-07 was classified as direct budgetary support. [199069]

Mr. Malik: Poverty Reduction Budget Support (PRBS) is aid provided to a partner government to support poverty reduction programmes and spent using the Government's own financial management, procurement and accountability systems. PRBS includes General Budget Support which aims to help implement the Government's poverty reduction strategy; and Sector Budget Support which aims to achieve objectives within a particular sector or sectors.

The Department for International Development's (DFID) total bilateral programme in 2006-07 in the 20 countries listed was £1.65 billion. £448 million of this (27 per cent.) was delivered in the form of PRBS.

Details on the level of PRBS provided to each country and the proportion of DFID's total bilateral programme that PRBS represents in each country for 2006-07 are in the following table.

DFID Bilateral Programme, 2006-07

	Total DFID Bilateral Programme (£000)	Poverty Reduction Budget Support (PRBS) (£000)	Proportion of total Bilateral Programme delivered as PRBS (percentage)
India	233,857	16,000	6.8
Tanzania	112,220	90,000	80.2
Pakistan	101,118	52,500	51.9
Ethiopia	90,497	69,883	77.2
Uganda	77,981	40,000	51.3
Ghana	68,831	45,753	66.5
Malawi	63,309	33,335	52.7
Zambia	61,369	23,300	38.0
Mozambique	56,273	36,800	65.4
Vietnam	52,401	34,500	65.8
Nepal	42,833	5,446	12.7

DFID did not provide PRBS to Sudan, Bangladesh, Afghanistan, Nigeria, the Democratic Republic of the Congo, Kenya, Indonesia, Iraq or China in 2006-07.

Press

Mr. Laws: To ask the Secretary of State for International Development what the cost of the press offices of (*a*) his Department, (*b*) its agencies and (*c*) its non-departmental public bodies was in each year since1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189685]

Gillian Merron: The Department for International Development (DFID) does not have any agencies, and is responsible for two non-departmental public bodies—the Crown Agents Holding and Realisation Board and the Commonwealth Scholarship Commission, which do not have any press offices.

The figures up to 2003 do not cover all press office costs. Prior to 2003-04, press team staff costs can be identified but non-staff costs were not identifiable. Following changes to financial management systems, all press office costs can be identified from 2003.

The annual cost of the press office in DFID since 1996-97 is shown in the following tables.

	Annual cost for staff only (£)
1996-97	195,000
1997-98	243,000
1998-99	240,000
1999-2000	100,000
2000-01	150,000
2001-02	148,000
2002-03	191,000

	Total annual cost (£)
2003-04	404,000
2004-05	682,000
2005-06	563,000
2006-07	805,000

2007-08	Total quarterly cost (£)
1st quarter	236,000
2nd quarter	308,000
3rd quarter	315,000

Somalia: Armed Conflict

Mr. Drew: To ask the Secretary of State for International Development what estimate he has made of the number of people who have left (*a*) Mogadishu and (*b*) Somalia because of the conflict there. [199446]

Gillian Merron: The UN High Commission for Refugees (UNHCR) estimate that 64,000 Somalis have been forced to leave their homes in Mogadishu during 2008. This is in addition to the 700,000 people displaced from Mogadishu during 2007.

UNHCR also estimate that since 1 January 2008, approximately 15,000 Somalis have sought asylum in neighbouring countries. Provisional UNHCR estimates are that as of the end of 2006 there were 464,253 Somali refugees.

Somalia: Overseas Aid

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the level of the assistance provided by (*a*) French and (*b*) Danish military forces to facilitate the delivery of humanitarian aid to Somalia; and if he will make a statement. [199208]

Gillian Merron: A key element in the operational response to the humanitarian situation in Somalia is the logistical effort to deliver food and other relief supplies to Somalia by sea but the threat of piracy in 2007 made delivery hazardous. The introduction of military escorts has been useful, with no incidents of piracy affecting escorted vessels.

Since December 2007 the French and Danish military forces have escorted in total 70,000 metric tonnes of humanitarian aid to Somalia. Consignments included relief materials for UNICEF and UNHCR in addition to World Food Programme food aid. The Dutch military have recently taken over escort duties.

Somalia: Politics and Government

Angus Robertson: To ask the Secretary of State for International Development what discussions (*a*) he, (*b*) members of his Department and (*c*) UK representatives have had with (i) members and (ii) representatives of (A) the Transitional Federal Government of Somalia, (B) the Government of Ethiopia, (C) the European Commission, (D) the Governments of member states of the European Union and (E) the United States Administration, regarding (1) the provision of basic (aa) humanitarian and (bb) medical supplies and (2) the humanitarian situation in (v) Mudug region, (w) Galgadud region, (x) Nugaal region, (y) Bakool region and (z) Mogadishu; and if he will make a statement. [197173]

Gillian Merron: Officials at the Department for International Development, together with colleagues at the British high commission in Nairobi and the British embassy in Addis Ababa, are in regular contact with

the Transitional Federal Government of Somalia, including the President and Prime Minister, and with the Government of Ethiopia. The discussions are varied, and the humanitarian situation has been regularly discussed, specifically on allowing agencies and NGOs unhindered access to areas in need.

Officials based in Nairobi meet regularly through the Inter-Agency Standing Committee (IASC) to co-ordinate humanitarian assistance. The United States of America, European Commission and member states of the European Union are all represented at these meetings.

The UK Government maintain regular contact with all parties the hon. Member lists. The Minister for Africa at the Foreign and Commonwealth Office (FCO), my right hon. Friend Lord Malloch Brown, raised humanitarian issues when he met President Yusuf in January 2008 and with Prime Minister Hussein and the Government of Ethiopia at the African Union summit in February 2008. My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs (Hilary Benn)—former Secretary of State for DFID—met with President Yusuf last year and discussed the humanitarian situation.

Most of DFID's humanitarian assistance (which includes medical supplies) is not earmarked to regions within Somalia. This enables our implementing partners (e.g. the International Committee of the Red Cross and the World Food Programme) to remain flexible and to react to changing circumstances on the ground. However, some of the NGOs that we support work in specific areas, e.g. a nutrition programme with the International Medical Corps (IMC) in Bakool and a nutrition, water and sanitation programme through Action Contre le Faim (ACF) in Galgadud.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for International Development how much his Department paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199599]

Mr. Malik: The Department for International Development's central records do not show any payments being made to Zurich Financial Services since 1997.

TRANSPORT

Aircraft: Air Conditioning

Norman Baker: To ask the Secretary of State for Transport what reports she has received on *(a)* incidents involving the contamination of aircraft cabin air supply by fumes from engine lubricants and *(b)* the commercial aircraft types which have experienced a contamination of the cabin air supply from the fumes of engine lubricants. [199351]

Jim Fitzpatrick: The latest information is set out in the following table. It is taken from the Civil Aviation Authority's mandatory occurrence reporting scheme (MORS) database which contains reports of contaminated air events aggregated to include all UK operators. The nature of any potential contaminant is not recorded on the database, so the fumes could have come from sources other than engine lubricants e.g. chemical toilets or the galley. In 2007, there were 116 contaminated air events (reported to the CAA). These figures are out of 1.3 million airline flights—passenger and cargo operations—for the calendar year 2007.

Aircraft type	*Reportable occurrences involving contaminated air (2007)*
Boeing B757	47
Airbus A319	15
British Aerospace BAe146	12
Airbus A320	8
Boeing B777	6
Boeing B747	5
Various other aircraft types	23
Total	116

Norman Baker: To ask the Secretary of State for Transport what recent representations her Department has received on lubricant contamination of the air supply in aircraft cabins; what discussions she has had with British Aerospace and Civil Aviation Authority on this issue; and whether her Department plans to undertake research into the problem of contamination of cabin air on commercial aircraft. [199352]

Jim Fitzpatrick: The Government are leading research in this area. In 2007 we commissioned a world first research project to try to capture substances released during transient "fume events." The first stage of this work was to identify and test equipment capable of sampling potentially harmful substances in cabin air. The report into this (first stage work) was published by Cranfield University on 21 February after peer review. It is published on the Department's website. The next phase of work is to use the equipment identified to capture real-time fume events; this work is being developed.

We have regular contact with the CAA about this. The Department has had no discussions with BAe or other aircraft manufacturers, but they did give evidence to the Committee on Toxicity enquiry, and a note of the meeting is on the internet at http://www.advisory bodies.doh.gov.uk/pdfs/annex5tox0621note.pdf

Jeremy Wright: To ask the Secretary of State for Transport when she plans to publish the results of her Department's research into cabin air sampling. [199882]

Jim Fitzpatrick: The first stage of research, into the capability of equipment to capture fumes in cabin air, was published on 21 February 2008, after peer review. It is on the Department for Transport website at:

http://www.dft.gov.uk/pgr/aviation/hci/cabinairtest.pdf.

We are confident we now have equipment capable of real time cabin air sampling. The second stage of research, to use that equipment on participating airlines, is being developed. We do not expect to be in a position to be able to publish results until 2009.

Airports: Security

Norman Baker: To ask the Secretary of State for Transport which airports operate *(a)* a one-bag rule and *(b)* a two-bag rule; and what steps she is taking to standardise practice. [194543]

Jim Fitzpatrick: The Secretary of State announced that the one bag restriction imposed on UK airports would be lifted once individual airports had demonstrated sufficient screening capacity whilst also maintaining our security standards. Currently 31 airports are approved to allow each passenger to take more than one cabin bag through security at UK airports, but airports and airlines may retain cabin bag limits regardless of the restriction being lifted. We are actively encouraging the remaining airports to seek removal of the restriction and expect more airports to follow shortly.

The 31 airports where the restriction has been lifted fully are Aberdeen, Benbecula, Birmingham, Cambridge, Cardiff, Dundee, Edinburgh, Farnborough, Gatwick, George Best Belfast City, Glasgow, Gloucestershire, Guernsey, Heathrow, Humberside, Inverness, Islay, Isle of Man, Kirkwall, London City, Manchester, Newcastle, Norwich, Plymouth, Prestwick, Southampton, Southend, Stansted, Stornoway, Sumburgh and Wick.

Aviation

Justine Greening: To ask the Secretary of State for Transport how many flights there were *(a)* into and *(b)* out of UK airports in (i) 2006 and (ii) 2007; and what estimate she has made of the projected total number of flights (A) into and (B) out of UK airports in (1) 2008, (2) 2009, (3) 2010 and (4) 2011. [200055]

Jim Fitzpatrick: The number of flights into or out of UK airports in 2006 and 2007 is shown in the following table. The split of flights between arrivals and departures is almost exactly equal.

Outturn aircraft arrivals and departures at UK airports

	Thousand per annum *Flights into and out of UK airports*
2006	1,949
2007	1,992

Note:
Coverage of airports is as in CAA Airport Statistics table 5.1 and Transport Statistics Great Britain table 2.2

Source:
DfT analysis of Civil Aviation Authority data

The coverage of air transport movements (ATMs) in the DfT aviation forecasting model, along with the methodology and forecast results, is set out in 'UK Air Passenger Demand and CO_2 Forecasts' (2007), available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/.

This differs slightly from the coverage of the figures reported above, due to the forecasting model's base year data not including the smallest airports, domestic charter, and positional flights. The difference amounts to around an extra 67,000 flights per annum in 2007 in the CAA data.

The central forecast for flights into and out of UK airports from 2008 to 2011 is shown in the following table. Forecasts of aircraft flights split between arrivals and departures are not available. For the purposes of forecasting aviation CO_2 emissions, departures and arrivals are assumed to be split evenly, as per the outturn CAA data.

Forecast aircraft arrivals and departures at UK airports

	Thousand per annum *Flights into and out of UK airports*
2008	1,958
2009	2,035
2010	2,100
2011	2,166

Aviation: Costs

Norman Baker: To ask the Secretary of State for Transport what the real terms cost of travelling by air was in each year since 1997, taking 1997 as the baseline. [195927]

Jim Fitzpatrick: The following table shows the average UK one-way air fare, including taxes and charges, covering domestic and international flights.

Average UK one-way air fare, 1997 prices

	£ *Average air fare*
1997	203
1998	192
1999	163
2000	158
2001	143
2002	129
2003	112
2004	107
2005	101
2006	103

Notes:
1. 'Fare' includes all taxes and charges.
2. Covers domestic and international scheduled flights, but excludes transfer and charter passengers.
3. Domestic component based on a sample of routes where sufficient data available.

Source:
DfT analysis of CAA and IPS data.

Aviation: Exhaust Emissions

Justine Greening: To ask the Secretary of State for Transport what estimate she has made of the UK volume of carbon dioxide emissions from aviation in *(a)* 2006 and *(b)* 2007; and what estimate she has made of the projected volume of carbon dioxide emissions from aviation in (i) 2008, (ii) 2009, (iii) 2010 and (iv) 2011. [200056]

Jim Fitzpatrick: The Department for Transport published forecasts of UK aviation carbon dioxide emissions in November 2007 in 'UK Air Passenger Demand and CO_2 Forecasts'. This can be viewed at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/airpassdemandfullreport.pdf

Outturn UK aviation carbon dioxide emissions for 2006 were published in January this year by Defra and can be viewed at:

http://www.defra.gov.uk/environment/statistics/index.htm

These data show that UK aviation accounted for 37.9 $MtCO_2$ in 2006. Outturn emissions data for 2007 will not be available until early 2009.

Outturn emissions are calculated from aviation bunker fuel consumption data, which are closely related to fuel

used on departing flights. To ensure consistency with historic reported totals, and to avoid double-counting carbon dioxide emissions, DfT's forecasts reflect emissions from all domestic and international flights departing from UK airports. DfT forecasts for 2007-11 are shown in the following table:

UK Aviation emissions of carbon dioxide

	($MtCO_2$)
2007	39.0
2008	39.6
2009	41.0
2010	42.0
2011	43.0

Aviation: Fuels

Mr. Maude: To ask the Secretary of State for Transport (1) what estimate she has made of the effect on forecast unconstrained demand for airport capacity in 2030 as shown in the Future of Air Travel Progress Report of using the most recent cost of aviation fuel instead of the assumed figure of $42 per barrel; [198185]

(2) what estimate she has made of the effect on forecast unconstrained demand for airport capacity in 2030 as shown in the Future of Air Travel Progress Report of including the recent change in Air Passenger Duty. [198186]

Jim Fitzpatrick: The results of updating the forecasts of air passenger demand in 'The Future of Air Transport Progress Report' (2006) with the latest data, including the 2007 increase in Air Passenger Duty, were reported in 'UK Air Passenger Demand and CO_2 Forecasts' (November 2007), which is available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/

Table 2.9 (p. 37) shows the central forecast is for unconstrained air passenger demand to grow from 228 million passengers per annum (mppa) in 2005 to 495mppa in 2030.

Mr. Maude: To ask the Secretary of State for Transport what estimate she has made of the effect on forecast unconstrained demand for airport capacity in 2030 as shown in the Future of Air Travel Progress Report of assuming that the cost of aviation fuel will rise until 2030 at half the rate that it has risen in the last four years. [198188]

Jim Fitzpatrick: The latest forecasts of UK air passenger demand were reported in 'UK Air Passenger Demand and CO_2 Forecasts' (November 2007), which is available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/

Table 2.10 (p.41) reports the effect of a set of sensitivity tests, whereby key inputs are varied within reasonable bounds, on demand. This includes varying the oil price projection in line with the Department for Business, Enterprise and Regulatory Reform's oil price range.

The impact of assuming that the cost of aviation fuel continues to rise until 2030, but at half the rate that it has risen in the last four years, is not available.

Mr. Maude: To ask the Secretary of State for Transport what the most recent price of aviation fuel in (*a*) dollars per barrel and in (*b*) pence per litre was, ignoring any hedging arrangements. [198191]

Jim Fitzpatrick: Aviation fuel price data are not officially collected. However, information on aviation fuel prices is available from sources such as:

www.platts.com

Based on daily wholesale prices reported by Platts, the price of aviation jet fuel in March 2008 averaged $133 per barrel, or 42 pence per litre.

Mr. Maude: To ask the Secretary of State for Transport what estimate she has made of the average proportion of airline costs fuel represents, calculated on the same basis as the figure given in the Future of Air Transport White Paper. [198251]

Jim Fitzpatrick: Table 2.3 of CAA's 'Airline Financial Statistics 2006-07' reports a breakdown of operating revenues and expenses for major UK airlines. This is available at:

http://www.caa.co.uk/default.aspx?catid=80&pagetype=88&sghd=13&fld=2006_2007

The data show that aircraft fuel and oil accounted for £4.0 billion (26 per cent.) of the £15.6 billion total operating expenses incurred by major UK airlines in 2006.

Biofuels: Asthma

Mr. Pickles: To ask the Secretary of State for Transport what plans she has to commission research on the effects of biofuels on asthma. [199557]

Jim Fitzpatrick: The Government have commissioned and published various pieces of research into the effects of biofuels on air quality. These include an evaluation of the impacts of vegetable oil fuel on the emissions of two light duty diesel vehicles available at:

http://www.dft.gov.uk/pgr/roads/environment/research/cqvcf/dftbiofuelsevaluationofemiss3823

and an evaluation of the potential impact of bioethanol on emissions of a wide range of air pollutants available at:

http://www.dft.gov.uk/pgr/roads/environment/research/ethanolemissionstestingmainr3843

The Government have not commissioned any research specifically on the effects of biofuels on asthma, but a recent Department of Health call for research on the health effects of air pollution included a call for studies on the health effects of biofuels, as transport fuels or for domestic heating. In addition, the Department of Health provides programme funding to the social medicine and health services research unit at Imperial college which conducts epidemiological studies on asthma, including on air pollution.

Bridges: River Wear

Mr. Goodwill: To ask the Secretary of State for Transport what representations she has received from Sunderland council on proposals to build a new bridge over the River Wear between Claxheugh and Castletown. [199709]

Ms Rosie Winterton: I met with the hon. Member for Houghton and Washington, East (Mr. Kemp) along with a delegation from Sunderland city council on 23 October 2007 to discuss a number of issues including the proposed Sunderland Strategic Transport Corridor major local transport scheme. In addition, my officials met with officers at Sunderland city council on 4 April 2008 to discuss a number of issues relating to the business case for the proposed scheme.

Subject to officials receiving a response from the council on a number of outstanding matters, I hope to shortly be in a position to consider whether or not to grant initial programme entry for the scheme.

Bus Services: Halifax

Mrs. Riordan: To ask the Secretary of State for Transport how much her Department allocated to Halifax local authority for spending on bus services in each of the last five years. [198813]

Ms Rosie Winterton: Halifax is in the area covered by the West Yorkshire Passenger Transport Authority (WYPTA) and the Department's support for bus services is allocated to WYPTA rather than to individual local authorities in the area.

In the last five years a total of £4.9 million was allocated to WYPTA in rural bus subsidy grant. In the same period WYPTA also received £5 million in funding from the Department's urban and rural bus challenge and Kickstart schemes. Four of the projects, totalling £2.4 million, supported under these schemes involve services in Calderdale district which includes Halifax.

Bus companies operating in and around Halifax also receive bus service operators grant from the Department. This is a payment equivalent to about 80 per cent. of the fuel duty operators incur in providing local bus services. However, as BSOG is a payment direct to operators, statistics are not kept of payments by local authority or geographical area.

Local authorities may also use funding from the Government's unhypothecated revenue support grant (formula grant) to support local bus services.

Bus Services: Nationalisation

Mrs. Riordan: To ask the Secretary of State for Transport if she will bring forward proposals to bring local bus services back into public ownership. [198814]

Ms Rosie Winterton: The Government have looked at various times at the issue of bus regulation, starting with the 1998 White Paper which led to the Transport Act 2000. There was also last year's review which has led to the proposals in the Local Transport Bill giving, among other things, more scope for local authority involvement in bus services.

On each occasion in the past, we concluded that constructive partnership between a largely private sector industry and local authorities is a better way forward than wholesale re-regulation in delivering the services needed by passengers. Indeed, we feel that the private sector strengths in management, innovation and investment are central to the future of the industry.

Car Sharing

Norman Baker: To ask the Secretary of State for Transport which sites have been identified as potential high occupancy vehicle lanes. [197574]

Mr. Tom Harris: Following the completion of the advanced motorway signalling and traffic management feasibility study, the Highways Agency has been asked to consider measures to lock in the benefits of additional capacity in locations on the motorway network where it is to be provided, including HOV lanes. This work is expected to be complete by the end of the year.

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Transport how many days sick leave were taken on average by staff in her Department in each of the last five years. [198959]

Jim Fitzpatrick: The average number of days sick absence per staff year in the Department for Transport in each of the last five years is:

	Number
2007	11.0
2006	10.2
2005	10.4
2004	10.7
2003	10.2

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Transport pursuant to the answer of 27 March 2008, *Official Report*, column 373W, on departmental data protection, if she will include information assurance data on data loss incidents in previous years in her Department's next annual report. [199180]

Jim Fitzpatrick: The Department for Transport is currently preparing its 2007 annual report. This report will include information assurance as part of the statement of internal control. It will also include summary details of significant breaches for 2007 and the previous three years, where consistent information is available.

Mr. Redwood: To ask the Secretary of State for Transport what *(a)* cross checks and *(b)* linkages (i) exist and (ii) are planned between the data records of individuals stored on databases maintained by (A) her Department and (B) other departments. [200102]

Jim Fitzpatrick: Information on cross-checks and linkages, both existing and planned, is shown in the following table. This does not include cross-checks and linkages with public sector bodies other than Government Departments and agencies (eg police, local authorities, or TfL).

	(i) Existing	(ii) Planned
(a) Cross checks	DSA's practical driving test booking system (Driving Test Control System—DTCS) links with the DVLA database of drivers' records for test entitlement checks, eg holder of a valid licence for the test being undertaken	DSA's new Testing and Registration system (TARS) will link to DVLA's database of drivers' records for test entitlement checks. This is a migration from the existing system and is expected to go live in May 2008
	DSA's DTCS/TARS system checks with Systems Application and Products to maintain driving test examiners' skills records	DSA's Certificate of Professional Competence (CPC) database will link to DVLA's driver records to conduct the following CPC entitlement checks: 1. To confirm that a given driver licence number exists on the DVLA driver database 2. To confirm the driving entitlements of a given driver (for CPC purposes this is limited to considering bus and lorry vehicle categories) 3. To confirm whether the driver has CPC 'acquired rights' (this is based on the dates the driver obtained the above driving entitlements) When a driver achieves an initial (or renewed) CPC qualification, then the CPC database will transmit details of the new qualification to the DVLA driver database for the update of the relevant driver's records. This is expected to go live in September 2008
	DSA's theory test booking system checks the DVLA database of drivers' records for test entitlement checks	
	DVLA's Electronic Vehicle Licensing (EVL) system checks with the Department for Work and Pensions' database to check whether a customer is eligible for exemption from Vehicle Excise Duty (VED). EVL performs a similar check against Veterans' Agency data to verify customers' eligibility for exemption from VED	
	VOSA checks vehicle records against DVLA vehicles database on a case by case basis as required for targeted enforcement purposes	
	DVLA's Driver Validation Service provides registered Data Partners (such as HM Courts Service and HM Revenue and Customs) with online read-only access to the Drivers' database. Registered Data Partners make their enquiries via their desktop through a secure portal	
	DVLA's Drivers' Licensing system (D90) has a link to the Identity and Passport Service (IPS) which allows a DVLA clerk to check the name/address details on a customer's application form matches those on his/her passport. (This check is initiated manually by the clerk, and is only performed if a customer signified his/her consent on their application form).	
	DVLA record the holders of instructor licences so that DSA can contact instructors who fail to declare driving convictions	
(b) Linkages	DVLA's on-line Drivers' Licensing System (DRP) links to Identity and Passport Service (IPS) to check whether an applicant has an electronic passport. Where an electronic passport is found, DRP retrieves the customer's photograph and signature from the IPS database. The IPS photograph and signature may then be re-used for printing on the driver's licence. (This check is initiated automatically when a customer applies for a first provisional licence on the web)	
	DVLA's DRP system has links to the Government Gateway in order to verify a customer's Government Gateway ID. (This check is performed automatically as part of web applications for driver's licences)	

Departmental ICT

Mr. Redwood: To ask the Secretary of State for Transport how much her Department has spent on IT projects since 2005; and what estimate she has made of the total likely expenditure on IT projects between 2005 and 2010. [200071]

Jim Fitzpatrick: The requested information could be obtained only at disproportionate cost. However, the table below relates to the DFT's key IT projects that are monitored centrally which either start or finish between 2005 and 2010.

Department/agency	Project name	Start date	Expected completion date	Estimated costs (£ million)
DFT	Shared Services Programme	April 2005	April 2009	145
DVLA	Driver Licensing: Drivers Re-engineering Project (DRP) phase 2	August 2003	December 2008	103
DVLA	Smart Tachograph Project	July 2000	June 2005	15.1
DVLA	Vehicles System Software (VSS) Replatforming	January 2005	December 2007	13
DVLA	Driver Licence Upgrade (DLUP)	July 2004	November 2008	16

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Transport how much was spent on the most recent redesign and implementation of her departmental website. [200030]

Jim Fitzpatrick: The new Department for Transport (DFT) website was launched on 26 January 2007. A new content management system was implemented and the project costs were £1.5 million.

These costs covered accessibility and usability testing; design of a new information architecture based on user feedback and testing; development of a new visual design; the design and build of the system; migration of content; and the purchase of an enterprise software licence. The enterprise software licence allows the Department to migrate other DFT sites to the same content management system without incurring further licence costs. This will help to reduce hosting and maintenance costs across the Department.

Departmental Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Transport what (*a*) 0800, (*b*) 0845 and (*c*) 0870 telephone numbers for the public are in use by (i) her Department and (ii) agencies which report to her Department. [200131]

Jim Fitzpatrick: The following 0800, 0845 and 0870 telephone numbers for the public are currently in use by the Department for Transport and its agencies:

	Services provided	0800	0845	0870
DFT Central	Heathrow Consultation Line	0	1	0
DVLA	Information services, automated self services, technical helpdesks and reporting unlicensed vehicles	15	1	1
HA	HA Information Line (HAIL) and Central Switchboard for Traffic England phone service and publications	0	2	2
DSA	Related to practical and theory driving test bookings	0	0	4
MCA	MCA Infoline	0	0	1
VOSA	Public Hotline, Operator license credit card payment scheme and national number	0	1	2
VCA		0	0	0
GCDA		0	0	0

Will be terminated later in 2008 and replaced by 0300 numbers

Driver and Vehicle Licensing Authority: Telephone Services

Mr. Laurence Robertson: To ask the Secretary of State for Transport what discussions she has had with the Driver and Vehicle Licensing Authority (DVLA) on the average time taken for callers to speak to the DVLA department of their choice; and if she will make a statement. [199016]

Jim Fitzpatrick: The average time taken to answer a customer (in seconds) once they have made an appropriate choice from within the Agency's interactive voice response units (IVR's) over the last six months is:

	Average time (seconds)
March 2008	76
February 2008	45
January 2008	33
December 2007	10
November 2007	10
October 2007	21

Driving Licenses: Lost Property

Mr. Hoban: To ask the Secretary of State for Transport how many driving licences her Department and its agencies have (*a*) requested as proof of identity or for addition of points, (*b*) received and (*c*) had reported lost or stolen by (i) the Department or its agencies and (ii) the owner of the licence. [198996]

Jim Fitzpatrick: The information requested is as follows:

(a) The Driver and Vehicle Licensing Agency does not request Licences as proof of identity.

(b) The vast majority of points that are recorded on Licences are recorded by either the Courts or a Fixed Penalty Office (FPO). Normally the only instance when a Licence would be requested is if the driver is unable to produce the Licence to the Court or FPO.

(c)

(i) The Department for Transport does not keep these figures.

(ii) Drivers who report a Licence lost or stolen do so by applying for a duplicate Licence. Duplicates may be applied for for other reasons e.g. damage, and our records do not differentiate between the reason for the issue of duplicates.

Driving: Epilepsy

John Mann: To ask the Secretary of State for Transport how many driving licences were *(a)* surrendered and *(b)* withdrawn following driving accidents caused by epileptic fits in each of the last five years. [199401]

Jim Fitzpatrick: Data are not available in relation to instances when driving accidents have occurred. Data are only available on the overall number of licences surrendered to, or revoked by the Driver and Vehicle Licensing Agency (DVLA) on the grounds of epilepsy in calendar years 2004, 2005 and 2006. The data are broken down to ordinary (car/bike) and vocational (lorry/bus) driving entitlement. The data relate to cases where in the majority of instances, the driver themselves have notified their condition to DVLA.

	Ordinary entitlement		*Vocational entitlement*	
	Revocation	*Surrender*	*Revocation*	*Surrender*
2004	1,645	1,290	385	37
2005	1,834	1,421	396	42
2006	1,725	1,327	324	27

John Mann: To ask the Secretary of State for Transport when she last issued guidance on driving and epilepsy. [199402]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency (DVLA) issued guidance, including guidance on epilepsy and driving, in February 2008.

John Mann: To ask the Secretary of State for Transport how many road accidents caused by an epileptic fit on the part of a driver there were in 2007. [199403]

Jim Fitzpatrick: Information on the number of accidents caused by drivers with specific medical conditions is not collected. Figures relating to reported personal injury road accidents in 2007 will not be available until the end of June 2008.

Driving: Licensing

David Wright: To ask the Secretary of State for Transport how many people have had their driving licence withdrawn on medical grounds in each of the last five years. [199455]

Jim Fitzpatrick: Data are only available for calendar years 2004, 2005 and 2006. The data are broken down to ordinary (car/bike) and vocational lorry/bus) driving entitlement. The data relate to drivers who have either had their current licences revoked, or applications for a licence refused.

	2004	*2005*	*2006*
Ordinary	24,256	26,245	25,525
Vocational	5,972	6,100	5,166

David Wright: To ask the Secretary of State for Transport what assessment she has made of the effectiveness of the procedures used when someone has their driving licence returned following earlier withdrawal on health grounds; and whether she plans to review these procedures. [199456]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency has been considering the effectiveness of all aspects of the system in place in Great Britain for ensuring that drivers are medically fit to drive.

The Department for Transport is currently preparing a public consultation on possible changes. A date has not yet been set for its publication.

Galileo

Mr. Evans: To ask the Secretary of State for Transport how many jobs she estimates will be created in the UK as a direct result of the Galileo project. [200184]

Ms Rosie Winterton: UKspace—the UK industry association for space—currently assesses that about 400 highly skilled engineers and technicians are working directly on Galileo and as many as 1,600 posts are dependent on Galileo in the wider supply chain and employment in the UK.

Developing the downstream products and applications for Galileo is where it is expected that the major part of the benefits will occur, and where most jobs are expected to be generated. However it is difficult to be specific about the number of jobs that will become dependent upon the Galileo system in the UK, at this time, as future growth in this sector will depend on the outcome of forthcoming procurement competitions.

Mr. Evans: To ask the Secretary of State for Transport what was the most recent review of the *(a)* costs, *(b)* risks, *(c)* revenues and *(d)* timetable of the Galileo project. [200187]

Ms Rosie Winterton: The European Commission's most recent review of the Galileo programme's costs, risks, revenues and timetable was published in its Communication of 26 September 2007 entitled: "Progressing Galileo: Re-Profiling the European GNSS Programmes" and the accompanying staff working document.

Mr. Evans: To ask the Secretary of State for Transport what estimate she has made of the UK's financial commitments to the Galileo project beyond the development phase. [200188]

Ms Rosie Winterton: There has been no political discussion of potential funding commitments for the public sector beyond 2013.

Galileo: Repairs and Maintenance

Mr. Evans: To ask the Secretary of State for Transport what estimate he has made of the potential cost to the UK of repairs to the Galileo European satellite navigation system. [200185]

Ms Rosie Winterton: Funding for the replenishment of the satellite constellation is included within the €6 billion (roughly £4.3 billion) the Commission estimated in 2007 would be required for the programme over the period 2013-30.

Discussions on how these funds might be sourced and what elements might come from private and public sources will not take place until the programme has advanced to a later stage. We expect the Commission to bring forward proposals for financing future phases of the programme in 2010.

Great Western Trains: Standards

Mr. Streeter: To ask the Secretary of State for Transport what proportion of all recorded *(a)* delays, *(b)* cancellations and *(c)* diversions of passenger rail services under the Greater Western franchise in the last two years were attributable to (i) track and signalling infrastructure failures and (ii) engineering works for which Network Rail was responsible. [199318]

Mr. Tom Harris: Train performance data for the rail network are collected and processed by Network Rail. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Heathrow Airport

Norman Baker: To ask the Secretary of State for Transport how many and what percentage of passengers forecast to use *(a)* Heathrow and *(b)* Gatwick Airports in (i) 2010, (ii) 2020 and (iii) 2030 are forecast to be in transit between an international flight and (A) a domestic and (B) another international flight. [195975]

Jim Fitzpatrick *[holding answer 20 March 2008]* The latest DfT aviation forecasting methodology and results were reported in 'UK Air Passenger Demand and CO2 Forecasts' (2007), available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/.

The following table shows the forecasts for total and transfer passenger travel through Heathrow and Gatwick airports.

Forecast UK terminal passengers (million passengers per annum: mppa) and transfer shares of total

		Transfer passengers: mppa		Transfer passengers: percentage	
	Total passengers mppa	*Domestic to/from international*	*International to international*	*Domestic to/from international*	*International to international*
Heathrow					
2010	74	6	23	7	31
2020	94	4	25	4	27
2030	136	4	36	3	27
Gatwick					
2010	36	1	3	3	8
2020	38	1	3	2	8
2030	43	1	2	1	6

Note:
DfT forecasts of demand at each airport depend on capacity assumptions at all UK airports. These forecasts assume the central 'White Paper' case, including an extra runway and associated terminal capacity at both Stansted and Heathrow.

Mr. Randall: To ask the Secretary of State for Transport what meetings she or her Ministers have had with *(a)* local authority leaders and *(b)* residents' groups to discuss (i) Heathrow Airport expansion and (ii) the rehousing of potentially displaced people; and on what dates. [200200]

Jim Fitzpatrick: Ministers held several meetings with local authorities and residents' groups both in the run up to and during the "Adding Capacity at Heathrow Airport" consultation. I met with local authority leaders on 29 October 2007 and 16 January 2008 to discuss issues related to the potential expansion of Heathrow airport. This included the impacts of the proposals on those living near the airport but did not specifically address rehousing of displaced people.

My predecessor met with the Longford Residents' Association on 16 January 2006—with the hon. Member for Hayes and Harlington (John McDonnell)—and I have since met with residents' groups on the following occasions to discuss development at the airport:

21 November 2007: No Third Runway Action Group, Harmonsworth and Sipson Residents' Association and Stanwell Moor Residents' Association;

30 January 2008: Heathrow Airport Consultative Committee meeting (includes Ealing Aircraft Noise Action Group) and

21 February 2008: Battersea residents—with the hon. Member for Battersea (Martin Linton).

Mr. Randall: To ask the Secretary of State for Transport what estimate she has made of the *(a)* number of new homes required to house people displaced by a potential third runway at Heathrow Airport and *(b)* the likely costs of such homes. [200201]

Jim Fitzpatrick: The "Adding Capacity at Heathrow Airport" consultation closed on 27 February. This stated that a third runway at Heathrow would require additional land, with loss of around 700 properties. If, following this consultation, policy approval is given for a third runway, BAA as the airport operator would be responsible for obtaining the necessary planning approvals, purchasing the additional land and compensating home owners. BAA has estimated that this would cost around £2 billion.

Heathrow: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport what she estimates the annual emissions of carbon dioxide arising from the third runway at Heathrow will be. [188485]

Jim Fitzpatrick: The consultation document "Adding Capacity at Heathrow Airport" published in November 2007 by the Department for Transport includes information on the climate change impacts of the three options which involve an additional runway at Heathrow. The consultation closed on 27 February 2008.

The latest UK air passenger demand and CO_2 forecasts are reported in DFT's "UK Air Passenger Demand and CO_2 Forecasts", November 2007, available at:

http://www.dft.gov.uk/pgr/aviation/environmentalissues/ukairdemandandco2forecasts/airpassdemandfullreport.pdf.

In line with the Air Transport White Paper commitment, these forecasts assume that aviation meets its external climate change costs.

Table 17 on page 178 of the consultation document set out the carbon dioxide emissions under each option in total, on an annual basis, and the total climate change cost:

	Total CO_2 (million tonnes)	*Average CO_2 per year (million tonnes)*	*Total climate change costs (£ billion)*
Option 1—Heathrow third runway around 2020	180.8	2.6[1]	4.8
Option 2—Mixed mode at 480,000 ATMs around 2010, Heathrow third run way 2020	179.1	2.6	4.8
Option 3—MM at 480,000 ATMs around 2010, MM at 540,000 ATMs around 2015, Heathrow third runway around 2020	181.1	2.6	5.0

[1] For appraisal consistency this is expressed over 70 years, although the additional total emissions occur over 60 years. The equivalent figure over 60 years is 3.01 million.

The UK is continuing to press for the inclusion of aviation in the EU Emissions Trading Scheme (EU ETS). As the Heathrow consultation document states, under current proposals aviation emissions would effectively be capped at the average level over the period 2004 to 2006. This means that when the trading scheme is established, any additional aviation emissions above that level would lead to no increase in total emissions, since airlines would have to pay for the equivalent emissions reductions in other sectors.

JP Morgan

David T.C. Davies: To ask the Secretary of State for Transport how much her Department and its predecessors paid to JP Morgan in each year since 1997; and what the purpose of each payment was. [199612]

Jim Fitzpatrick: The Department was formed in May 2002. Since this date the Vehicle Certification Agency (VGA), an executive agency of the Department, has made payments totalling £1,587.31 to J. P. Morgan Chase & Co. These payments are in respect of bank charges on receipts and payments and some one-off set-up costs since 1 March 2005 for VGA's commercial banking services in the United States. The breakdown of annual spend in each year is as follows:

	Amount (£)
2005	735.24
2006	691.97
2007	70.10
2008 to date	90.00

Lighting

Mr. Pickles: To ask the Secretary of State for Transport what funding the Highways Agency has allocated to research on *(a)* luminaire maintenance factors and *(b)* street lighting (i) in the last 12 months and (ii) the next 12 months. [199558]

Mr. Tom Harris: The Highways Agency in partnership with other UK local highway authorities proposed a study in 2007-08 to investigate luminaire maintenance factors. This study is due to complete in 2008-09 for which the Agency has allocated a £13,000 contribution.

The Highways Agency allocated £393,000 in 2007-08 and £165,000 for 2008-09 to fund a range of road lighting assessment projects. These are part of the Agency's Efficiency Strategy for Road Lighting under the Sustainable Development Action Plan. This work will significantly reduce the Agency's carbon footprint, and capital and operational costs due to road lighting.

Lorries

Damian Green: To ask the Secretary of State for Transport what plans her Department has to improve training for drivers of left-hand drive lorries using UK motorways; and if she will make a statement. [199846]

Jim Fitzpatrick: There are no specific plans for the UK Government to train drivers of left-hand drive lorries. However, from September 2009 European directive 2003/59 EC requires all new lorry drivers across Europe to obtain an initial qualification—a Driver Certificate of Professional Competence—before being able to drive professionally. Additionally, all lorry drivers will need to undertake 35 hours periodic training every five years. So by 2014, all existing lorry drivers will also need to obtain the qualification.

M1: Road Works

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the roadworks between M1 *(a)* junction 1 and London Gateway services and *(b)* junctions 6 and 10 are taking place concurrently. [198736]

Mr. Tom Harris: Before scheduling the roadworks at Gateway services, the Highways Agency carefully considered the potential impact on road users. Based on the typical traffic flow over recent years on this part of the M1, and keeping the same capacity by ensuring all existing lanes are open during the day, any delay was assessed to be minimal.

It is normal practice to maintain a separation of at least 10 km between concurrent major roadworks on motorways, where possible. The Gateway services are more than 10 km from junction 6a.

Traffic flow at the Gateway services is half that at junction 6a, so many drivers will only experience one set of roadworks on the M1.

The Highways Agency concluded that the safety benefits from completing the roadworks between junctions 1 and the Gateway services justified putting them on at the same time as those between junction 6a and 10.

Both sets of roadworks are expected to be complete by the end of 2008.

M20: Noise

Damian Green: To ask the Secretary of State for Transport what recent assessment she has made of noise levels on the M20 between Maidstone and Ashford; what plans there are to resurface the road; and if she will make a statement. [199845]

Mr. Tom Harris: In 2002 the Transport Research Laboratory (TRL) carried out a noise assessment on this section of the M20 on behalf of the Highways Agency. This was part of the Government's programme for prioritising the surfacing of concrete roads under the Ten Year Plan. The results of TRL assessment indicated that the noise levels on the section of the M20 between Junction 8 (Maidstone) and Junction 9 (Ashford) were three dB(A) more than predicted and therefore it qualified as a high priority site for resurfacing. There have been no further noise assessments on this section since 2002.

As the road surface on the M20 between Junction 8 and Junction 9 is still in a structurally sound condition there are no plans at the present time to resurface for at least five years.

M5

Mr. Ian Austin: To ask the Secretary of State for Transport what *(a)* representations her Department has received and *(b)* assessment her Department has made of the safety of raised expansion joints on lane three of the M5, southbound between Junctions 1 and 2. [199862]

Mr. Tom Harris: The Highways Agency has not received any representations about raised expansion joints on this length of the M5.

The Agency makes regular safety inspections of the motorway network and these joints have not been identified as a particular problem.

Mr. Ian Austin: To ask the Secretary of State for Transport how much the Highways Agency has paid in compensation to motorists whose cars have been damaged by the surface of the road on the M5 in the last 12 months. [199863]

Mr. Tom Harris: The Highways Agency has not paid any compensation to motorists whose cars may have been damaged by the surface of the road on the M5 over the last 12 months.

Motor Vehicles: Exhaust Emissions

Justine Greening: To ask the Secretary of State for Transport what her Department's estimate is of carbon dioxide emissions from motor vehicles in *(a)* 2006 and *(b)* 2007; and what estimate she has made of the projected total carbon dioxide emissions from motor vehicles in (i) 2008, (ii) 2009, (iii) 2010 and (iv) 2011. [200059]

Jim Fitzpatrick: According to the emissions inventory published annually by the Department for Environment, Food and Rural Affairs, carbon dioxide (CO_2) emissions from road transport in 2006 were 120.3 million tonnes. Data for 2007 have yet to be published.

The Department for Transport forecasts road transport CO_2 emissions using the National Transport Model. This model produces forecast for 2010, 2015 and 2025, but not interim years. We, therefore, do not have a forecast of emissions for 2008, 2009 or 2011. Our 2010 forecast is for CO_2 to be 2 per cent. lower than it was in 2003 and so in the region of 116 million tonnes.

Motorcycles

Mr. Goodwill: To ask the Secretary of State for Transport what steps she has taken to mainstream motorcycling in line with the Government's motorcycling strategy announced in February 2005. [199462]

Jim Fitzpatrick: The Government's Motorcycling Strategy includes a wide range of actions which aim to improve motorcycle safety and mainstream motorcycling. We regularly keep these actions under review, working with motorcycling industry and user groups through the National Motorcycle Council and its four sub-groups. We intend to publish progress on these actions together with details of revised actions later this summer.

Some examples of progress to date are as follows:

New guidance to local authorities on Use of Bus Lanes by Motorcycles;

Guidance to highway authorities on motorcycle-friendly infrastructure; and

Use of motorcycle-friendly crash barriers on parts of the HA network.

Motorways: Accidents

Bob Russell: To ask the Secretary of State for Transport what estimate she has made of the annual number of *(a)* crashes and *(b)* fatalities on the motorway network (i) with and (ii) without hard shoulder running. [194941]

Mr. Tom Harris: The analysis carried out to support the Advanced Motorway Signalling and Traffic Management Feasibility Study published by the Department for Transport on 4 March considered that safety rates were the same for motorways with and without hard shoulder running. Thus, the analysis assumed that there would be a slightly larger increase in accidents with hard shoulder running compared with doing nothing, as a result of an expected small increase in traffic flows.

The criterion adopted for the M42 pilot was that there should be no overall deterioration in safety after the introduction of hard shoulder running.

The initial six month analysis suggests that this goal may have been achieved and possibly bettered. However, a longer run of data is needed for firm conclusions to be drawn.

Maintaining road user safety is and will remain a top priority and a safety case would be produced for each future hard shoulder running scheme, covering any additional hazards or risks. This analysis might require different methods of operation, implementation and equipment provision to ensure achievement of the required safety levels.

Night Flying

David Taylor: To ask the Secretary of State for Transport how many night flights there were from each regional airport in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in each of the last 10 years. [198766]

Jim Fitzpatrick: The Department of Transport does not hold information about the number of night flights at regional airports.

Information about night flight movements will be held locally by the airport operator and this will vary in scope and detail from airport to airport. The statistics for night flights at East Midlands airport (EMA) which were set out in my answer of 13 March 2008, *Official Report*, columns 531-2W to the hon. Member, were provided, on request, to the Department by the airport operator.

Parking Offences

Mr. Drew: To ask the Secretary of State for Transport what estimate she has made of the likely change in the number of successful prosecutions for illegal parking as a result of the recently announced changes to enforcement practices by local authorities. [198808]

Ms Rosie Winterton: Prosecutions are carried out by the police and the new parking regulations make no changes to their activities. 230 English local authorities have taken over from the police the enforcement of parking and that number increases each year. In those areas the number of penalty charge notices served by an individual local authority, and paid by motorists, will increase or decrease primarily according to local circumstances and local parking behaviour. The new regulations are aimed at improving parking behaviour, thereby improving traffic flows in the interests of other road users.

Public Transport: Carbon Emissions

Norman Baker: To ask the Secretary of State for Transport what her Department's strategy is for reducing the dependence of urban public transport on fossil fuels over the next 10 years. [188478]

Jim Fitzpatrick: Following publication of the Department for Transport's "Towards a Sustainable Transport System" in October 2007, we intend to look at the full range of options for putting transport on to a less carbon-intensive path.

More specifically, we have been considering with stakeholders whether changes to the existing arrangements for the subsidy of bus services, which are the main form of urban public transport, would increase the contribution of buses to delivery of our environmental and other objectives. A key consideration is whether particular subsidy changes would incentivise improvements to the fuel efficiency of the bus fleet and the use of environmentally friendly vehicles. We published on 13 March a consultation document, entitled "Local Bus Service Support—options for reform", which invites views on our proposals; and copies are available in the Libraries of the House.

The Renewable Transport Fuel Obligation which comes into effect in April 2008 will require the major oil companies and fuel suppliers that supply fossil fuels for road transport to ensure that a proportion of the road fuel supplied in the UK comprises renewable fuels such as biofuels. The level of the obligation will be 2.5 per cent. of total fuel supplied by the supplier in the first year (2008-09), rising to 3.75 per cent. in 2009-10 and 5 per cent. in 2010-11.

We are working with the rail industry to trial the use of biofuels which could, subject to satisfying concerns about carbon benefits and overall sustainability, reduce reliance on conventional fossil fuels. We will also keep under review the case for more strategic electrification of the rail network.

We also support the Commission's intention to legislate to improve the average g/km carbon dioxide emissions performance of passenger cars. This should reduce use of fossil fuels, both by encouraging use of other fuel sources and by encouraging more efficient use by those vehicles that continue to be powered by oil products. We have pressed the Commission to commit to a target of 100 g/km CO_2 average for 2020.

Rackspace

Mr. Hands: To ask the Secretary of State for Transport pursuant to the answer of 1 April 2008, *Official Report*, column 745W, on Rackspace, which of her Department's websites Rackspace was contracted to host between 2005 and 2008. [199862]

Jim Fitzpatrick: Rackspace were used by the Department during the development of a secure site to be used by the 38 safety camera partnerships operating within the National Safety Camera Programme for England and Wales. The work was, however, cancelled before completion following the Secretary of State's announcement on 15 December 2005 that the national programme was to cease on 31 March 2007.

Mr. Hands: To ask the Secretary of State for Transport pursuant to the answer of 1 April 2008, *Official Report*, column 745W, on Rackspace, what the value was of each contract awarded by her Department's predecessors and its agencies between 1999 and 2002. [199663]

Jim Fitzpatrick: Due to machinery of government changes that took place at the beginning of financial year 2002-03 the Department for Transport is unable to answer questions about contracts awarded by predecessor Departments without incurring disproportionate cost.

Railway Stations

Norman Baker: To ask the Secretary of State for Transport which *(a)* local authority areas and *(b)* constituencies do not have a railway station operating passenger services. [197524]

Mr. Tom Harris: The following council areas in England and Wales do not have a railway station on the national rail network operating passenger services:

Wansbeck
North Tyneside
South Tyneside
Derwentside
Teesdale
Richmondshire
Rossendale
Bury
North West Leicestershire
East Northamptonshire
Corby[1]
Gosport
East Dorset
West Somerset
Torridge
North Cornwall

[1] A new station is planned at Corby.

This information is not available on a constituency basis.

Railways

Mrs. Riordan: To ask the Secretary of State for Transport what steps she is taking to encourage rail operators to provide direct rail services to London from more towns in Great Britain. [199372]

Mr. Tom Harris: New franchise agreements specify a minimum service level that takes account of demand and network capacity. Bidders can propose more services, where this is operationally practicable. There are also provisions to deal with the need for extra trains during the life of a franchise.

Railways: Overcrowding

Helen Southworth: To ask the Secretary of State for Transport if she will hold discussions with East Midlands Trains on overcrowding at peak times on train services from Warrington station. [199460]

Mr. Tom Harris: I am aware that East Midlands Trains had problems at the start of the franchise with rolling stock availability for the Liverpool-Norwich route. It has put in place measures to ensure that as much rolling stock as possible is now available for use on the route.

East Midlands Trains is carrying out passenger counts to evaluate the overcrowding and to formulate plans to improve capacity. The refurbishment programme for Class 158 vehicles commences this summer and will provide a 13 per cent. increase in seating capacity.

Roads: Accidents

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the percentage of drivers *(a)* who had one or more accidents, *(b)* who had one or more accidents in their first year of driving and *(c)* aged 17 years who had one or more accidents in the last year for which figures are available. [199426]

Jim Fitzpatrick: The information requested is not available. However, the Department is shortly due to publish a research report on the experiences and attitudes of learner and new drivers, including their involvement in accidents. The research, in which "cohorts" of candidates taking the practical driving test completed a postal survey after their test, and if they passed, at 6, 12, 24 and 36 months subsequently, found that the highest accident rates occurred in the first six months after passing the practical test.

This rate was estimated to be equivalent to 0.44 accidents per year. The accident rate then dropped in the next six months to an equivalent of 0.24 accidents per year. The accident rates given include accidents involving low speed manoeuvring, for example in car parks and drives.

Roads: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Transport how many miles of road there are in *(a)* Barnsley and *(b)* Doncaster for which her Department is responsible. [199465]

Mr. Tom Harris: The Secretary of State for Transport is only responsible for roads maintained by the Highways Agency. The current length of these roads in *(a)* Barnsley metropolitan borough council is 23.9 miles; and *(b)* Doncaster metropolitan borough council is 40.2 miles.

Speed Limits

Mrs. Riordan: To ask the Secretary of State for Transport with reference to the answer of 23 October 2007 to the hon. Member for Cheadle, *Official Report*, columns 235-6W, on speed limits, if she will take steps

to establish how many (*a*) roads have a 20 miles per hour speed limit and (*b*) schools have 20 miles per hour zones outside them. [198818]

Jim Fitzpatrick: The Department for Transport has recently commissioned a new research project on local road safety policy and practice, and some information about the implementation of 20 mph zones will be collected from local authorities as part of this study.

Speed Limits: Radar

Mr. Ruffley: To ask the Secretary of State for Transport what plans she has to restrict (*a*) the sale and (*b*) the use of devices to detect road-side police enforcement radar sites. [198478]

Jim Fitzpatrick: The Road Safety Act 2006 gives the Secretary of State the power to prohibit by regulations a vehicle being fitted with, or a person using a vehicle carrying, speed assessment equipment detection devices. The Government have always made clear that they do not intend to prohibit the use of purely GPS based devices which identify the location of cameras through publicly available information. It does however wish to prevent the carriage and use of devices which detect or interfere with the operation of speed measuring equipment through other means. The actual devices to be covered by the ban will be the subject of full public consultation before the associated secondary legislation is laid before Parliament.

Transport: Fuels

Bob Spink: To ask the Secretary of State for Transport what (*a*) evidence she has evaluated and (*b*) research she has commissioned, on the whole life carbon emission consequences of the replacement of fossil fuels by biofuels for transportation purposes; and if she will make a statement. [199413]

Jim Fitzpatrick: In 2005 the Government undertook a detailed feasibility study into the practicality of introducing an obligation for renewable transport fuel. As part of this study, the Government took into account a wide range of scientific evidence on the costs and benefits of biofuels including Government-funded studies by Sheffield Hallam university and the Central Science Laboratory considering the lifecycle benefits and impacts of biofuels. Research published by the European Commission's Joint Research Centre in association with the European Council for Automotive Research and Development (EUCAR) and the Oil Companies' European Organisation for Environment, Health and Safety (CONCAWE) on biofuels and other potential future transport fuels was also taken into account.

In 2006, the Government commissioned the development of a carbon calculation methodology for biofuels to underpin the Renewable Transport Fuel Obligation (RTFO). This included proposed default carbon saving assumptions for a variety of biofuels, taking account of evidence from a wide range of scientific studies.

In 2007, Defra commissioned AEA Technology to undertake a review of work on the greenhouse gas emissions (GHG) and environmental sustainability of international biofuels production and use. Their report is due to be published shortly.

The Renewable Fuels Agency (RFA) is also currently leading a review of evidence of the wider environmental and economic effects of biofuels. Part of this review will include a study examining the evidence concerning the GHG emissions arising from land-change, cultivation of biofuels, agricultural practices and advanced biofuel technologies. An initial report from the RFA is expected by 27 June including recommendations for further work.

The Government will continue to take into account new scientific evidence on the impacts of biofuels as it becomes available, and will continue to tailor their biofuel policies accordingly.

West Coast Railway Line

Mr. Lancaster: To ask the Secretary of State for Transport at what times unused network capacity is available on the West Coast Main Line for non-stop services between Milton Keynes and Euston and between Euston and Milton Keynes during (*a*) morning and (*b*) evening peak periods. [199543]

Mr. Tom Harris: The December 2008 timetable optimises the use of network capacity on the west coast main line and uses all of this capacity at peak times between London and Milton Keynes on the fast lines.

Zurich Financial Services

David T.C. Davies: To ask the Secretary of State for Transport how much her Department and its predecessors paid to Zurich Financial Services in each year since 1997; and what the purpose of the payment was in each case. [199598]

Jim Fitzpatrick: The Department was formed in May 2002. Since this date the Department has made payments totalling £92,981 to Zurich Financial Services as follows:

	Amount (£)
2002	
Rent and service charges for a property in Carlisle	22,252
2003	
Rent and service charges for a property in Carlisle	29,669
2004	
Rent and service charges for a property in Carlisle	25,342
2005	
Rent and service charges for a property in Carlisle	15,718

HOME DEPARTMENT

Binge Drinking

14. **Ms Keeble:** To ask the Secretary of State for the Home Department what assessment she has made of the effects of the availability of alcohol on levels of binge drinking. [199735]

Mr. Coaker: The Home Office's review of the alcohol industry's social responsibility standards document and the Department of Health's review of the links between alcohol pricing, promotion and harm will report later in the year and will form the basis of further action to tackle binge drinking and alcohol-related harms.

In addition, as announced in the publication of the first review of the Licensing Act 2003 in March, we will undertake further comprehensive research into post-midnight drinking patterns and their impact on crime and order, and will not hesitate to take the necessary action through new legislation and enforcement measures to tackle this.

Policing: Stop and Search

15. **David T.C. Davies:** To ask the Secretary of State for the Home Department what steps she is taking to enable the police to carry out stop and searches more effectively. [199736]

Mr. McNulty: The Flanagan Review of Policing looked carefully at Stop and Search (and Stop and Account) effectiveness. In line with its views, the Review of the Police and Criminal Evidence Act 1984 (PACE) will propose that, where effective hand-held IT is in use, the lengthy written record at point of contact will no longer be required.

This has the potential to save around 285,000 hours of officers' time per annum, better support intelligence-led policing and speed the process for the public. We are firstly piloting this approach in Stop and Account, with a view to rolling it out nationally later this year. We are also reviewing the guidance on the use of the Stop and Search powers under section 44 of the Terrorism Act 2000.

To boost effectiveness, and responding to crime recording management recommendations in the Flanagan Review of Policing, we are looking to combine work on Stop and Account and crime recording to determine how best to consider and use the information collected, and assess its impact on community engagement and confidence. Records obtained from stops should be used to enhance local intelligence.

Crime: York

16. **Hugh Bayley:** To ask the Secretary of State for the Home Department what change there has been in the number of crimes committed in York over the last three years. [199738]

Mr. McNulty: In the last three years total recorded crime in the York Crime and Disorder Reduction Partnership area fell from 23,080 to 20,935 offences. This represents a decrease of 9 per cent.

Illegal Immigrants

17. **Mr. Evennett:** To ask the Secretary of State for the Home Department what recent estimate she has made of the number of illegal immigrants in the UK. [199740]

Mr. Byrne: Since the phasing out of embarkation controls in 1994, no government has ever been able to produce an accurate figure for the number of people who are in the country illegally.

By Christmas, our Border Information Systems will count in and out the majority of foreign nationals.

This, together with the fingerprinting of all visa applicants and the issuing of ID cards to foreign nationals creates a far more effective set of controls.

Policing: Information

18. **Rosie Cooper:** To ask the Secretary of State for the Home Department what plans she has to improve the availability of information on local policing resources and performance to local communities. [199741]

Mr. McNulty: Since 2006 police authorities have had a statutory responsibility to produce an annual Local Policing Summary.

In addition, the publication of the Police Performance Assessments for 2007-08, will include assessments of local priorities and resources and efficiency.

The Government are committed to making consistent, monthly local information on crime available which will include data on crime and community safety issues and what local agencies are doing to tackle priorities.

Furthermore, from April 2008 every household across the country now has a dedicated police team to solve local problems. As we move into the next phase of neighbourhood policing, we will be consulting on a new Policing Pledge. Introduced everywhere later this year, it will set out a national standard on what people can expect from the police, underpinned in each area by a set of local priorities, agreed by people in each neighbourhood.

Political Parties, Elections and Referendums Act 2000

19. **Anne Moffat:** To ask the Secretary of State for the Home Department what reports she has received on the progress of police investigations into alleged breaches of the Political Parties, Elections and Referendums Act 2000. [199742]

Mr. McNulty: We have received no reports from the police on the progress of investigations into alleged breaches of the 2000 Act. The regulation of electoral administration, party funding and campaign expenditure law are matters for the independent Electoral Commission working as appropriate with the police and others.

Police Bureaucracy

20. **Mr. Goodwill:** To ask the Secretary of State for the Home Department what plans she has to reduce police bureaucracy. [199743]

Mr. McNulty: In his recent Review of Policing, Her Majesty's Chief Inspector of Constabulary, Sir Ronnie Flanagan, examined the issue of police bureaucracy.

Sir Ronnie's wide ranging recommendations have been accepted and work continues apace to remove unnecessary bureaucratic burdens from police officers.

My right hon. Friend the Home Secretary's strong endorsement of Sir Ronnie's measures is clear evidence of our commitment to bear down on unnecessary bureaucracy in policing.

Crime: Rugby and Kenilworth

21. **Jeremy Wright:** To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Rugby and Kenilworth constituency in each of the last five years. [199871]

Mr. Coaker: The Home Office does not collect crime data specifically for constituencies. The Rugby and Kenilworth constituency comes within the combined Rugby and Warwick Crime and Disorder Reduction Partnership areas. The number of violence against the person offences recorded in these combined CDRPs was as follows:

	Number
2002-03	2,511
2003-04	2,828
2004-05	2,902
2005-06	2,884
2006-07	3,311

Police Funding: Airports

Andrew Selous: To ask the Secretary of State for the Home Department when she plans to bring forward legislation to reform the allocation of funding for policing at airports. [199729]

Mr. McNulty: The Home Office and Department for Transport are jointly taking forward work to strengthen airport security planning at airports and establish a transparent funding process for policing costs. This work builds on the recommendations of the Independent Review of Airport Policing carried out by Stephen Boys Smith.

We understand the importance of these measures and are actively seeking to place them on a legislative footing at the earliest opportunity to introduce a more robust system that ensures that individual airports look at all the threats and risks, that appropriate mitigation is in place and that the airport operator meets the costs of any agreed uniformed police presence.

Domestic Violence

Lyn Brown: To ask the Secretary of State for the Home Department what plans she has to reduce the incidence of domestic violence. [199733]

Jacqui Smith: We have developed a national delivery plan to address domestic violence.

The plan includes the development of 98 Specialist Domestic Violence Courts, and national coverage of Multi Agency Risk Assessment Conferences; these are now part of the Tackling Violence Action Plan 2008-11.

We are doubling the number of Specialist Domestic Violence Courts, rolling out Multi-Agency Risk Assessment Conferences by 2011 and ensuring that vulnerable victims of domestic violence will have access to specialist support services.

We will be continuing to fund Independent Domestic Violence Advisers to support the Specialist Domestic Violence Courts in 2008-09.

We are committed to ensuring perpetrators are held to account and we are developing proposals for extending existing arrangements for managing violent offenders in order to manage proactively those individuals who are identified as being at risk of committing serious violence.

Animal Experiments

Mr. David Anderson: To ask the Secretary of State for the Home Department what steps she plans to take to reduce the number of animals used in the testing of food additives. [199669]

Meg Hillier: The testing of food additives is carried out to satisfy the requirements of the Food Safety Act 1990, for which the Food Standards Agency (FSA) has responsibility, and is an example of specific legislative requirements under which procedures on animals are carried out. The number of animals used varies from year to year and depends on the requirements of industry and the regulators concerned. In the circumstances, it would not be appropriate to place a limit on such testing. However, the Animals (Scientific Procedures) Act 1986 requires that the procedures authorised must cause the minimum possible suffering to the smallest number of animals of the least sentience and we will continue to ensure that these requirements are met in all categories of animal use, including the testing of food additives.

Case Resolution Directorate

Jenny Willott: To ask the Secretary of State for the Home Department what the *(a)* running, *(b)* IT, *(c)* legal, *(d)* consultancy and *(e)* administrative costs for the Case Resolution Directorate have been; what they are expected to be in the next three financial years; and if she will make a statement. [196104]

Mr. Byrne: The costs associated with the Case Resolution Directorate from April 2007 to the end of February 2008 were as follows:

(a) running costs which encompass resource costs such as pay stood at £26.426 million;

(b) IT costs are managed centrally by Home Office IT and to isolate the Case Resolution element could be obtained only at disproportionate cost;

(c) Legal costs which are taken to mean legal fees, adverse costs and compensation stood at £0.211 million. Appeal costs are borne elsewhere in the Border and Immigration Agency.

(d) Consultancy costs stood at £0.771 million;

(e) Administrative costs (assuming to mean all non-pay costs, including training) stood at £1.451 million.

The total spend for the Case Resolution Directorate stood at £28.860 million.

The budget for the forthcoming three financial years have not yet been set.

Credit Cards: Theft

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will take steps to compel credit card companies to report the *(a)* theft and *(b)* misuse of credit cards to the police; and if she will make a statement. [198463]

Mr. Coaker: The financial industry, the police and the Home Office all recognised that the system for reporting and recording cheque, plastic card and internet banking fraud that applied prior to 1 April 2007 was both bureaucratic and did little to further the investigation and prosecution of offenders.

To combat this, the Home Office, with agreement from Association of Chief Police Officers and APACS (UK Payments Association), introduced a new system. From 1 April 2007, it became the responsibility of financial institutions to pass on directly to the police, via a single point of contact in each police force, those matters where an investigation could be pursued, to provide a greater chance of prosecuting offenders than before.

The changes to reporting and recording are intended to reduce the level of bureaucracy involved in fraud recording, and streamline the reporting and initial investigation of such frauds. A Home Office chaired group comprising representatives from the banks and law enforcement meets to keep these new arrangements under review and make changes where appropriate.

As part of work to implement the findings of the Fraud Review, new money has recently been allocated to establish a new National Fraud Reporting Centre which will equip law enforcement agencies with a powerful intelligence tool and help form the basis of better prevention advice and alerts to fraud threats for business and the public.

Crime: Victims

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many and what percentage of victims of *(a)* violent incidents, *(b)* burglaries and *(c)* vehicle-related thefts were (i) unemployed, (ii) employed, (iii) students (iv) looking after a family home, (v) long-term or temporarily sick, (vi) retired and (vii) other unclassified in each police force area in each year since 1997; [199570]

(2) in how many and what percentage of violent incidents the victim was classified in ACORN categories *(a)* wealthy achievers, *(b)* urban prosperity, *(c)* comfortably off, *(d)* moderate means and *(e)* hard pressed in each police force area in each year since 1997; [199571]

(3) in how many and what percentage of *(a)* incidents of violence against the person, *(b)* burglaries, *(c)* vehicle related thefts, *(d)* incidents of vandalism and *(e)* thefts from the person the victim had a yearly income of (i) less than £10,000, (ii) between £10,000 and £20,000, (iii) between £20,000 and £30,000, (iv) between £30,000 and £40,000, (v) between £40,000 and £50,000 and *(f)* £50,000 and above in each police force area, in each year since 1997; [199572]

(4) in how many and what percentage of *(a)* violent incidents, *(b)* burglaries, *(c)* vehicle related thefts, *(d)* vandalism and *(e)* thefts from the person the victim was (i) an owner occupier, (ii) a social renter and (iii) a private renter in each police force area, in each year since 1997; [199573]

(5) how many and what percentage of *(a)* victims of burglary and *(b)* others owned (i) a burglar alarm, (ii) a deadlock, (iii) an outdoor sensor, (iv) an indoor sensor, (v) window locks, (vi) window bars and (vii) a security chain on the door in each police force area in England and Wales, in each year since 1997; [199574]

(6) in how many and what percentage of *(a)* violent incidents, *(b)* burglaries, *(c)* vehicle related thefts, *(d)* cases of vandalism and *(e)* cases of theft from the person the victim lived in (i) a semi-detached house, (ii) a detached house, (iii) a terraced house, (iv) a flat/maisonette and (v) other accommodation in each police force area, in each year since 1997. [199580]

Mr. Coaker: The information requested is not available at police force area level.

The British Crime Survey is designed to examine variations in levels of victimisation by sub-groups of the population across England and Wales as a whole. Expanding the survey to provide similar estimates at police force area level could be achieved only at disproportionate cost.

Crimes of Violence: Drugs

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of offenders involved in violent incidents were under the influence of *(a)* drugs and *(b)* drink in (i) England and Wales and (ii) each police force area in each year since 1997. [199398]

Mr. Coaker: Information on the number and percentage of offenders involved in violent incidents that were under the influence of drugs or alcohol is not available.

However, the British Crime Survey (BCS) routinely collects information on the proportion of violent incidents in England and Wales, where the victim believed the offender(s) to be under the influence of alcohol or drugs.

According to the latest BCS (2006-07), the offender was thought to be under the influence of alcohol in 46 per cent. of violent incidents, and under the influence of drugs in 17 per cent. of violent incidents (see table 1 for figures for all available years since 1997). The sample size of the BCS is not sufficient to provide such estimates by police force area.

Table 1: Percentage of violent incidents where offender/s were thought to be under the influence of drink or drugs, England and Wales

	1997	1999	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Under influence of drink								
Yes	42	40	47	44	50	48	44	46
No	48	50	44	45	40	43	47	44

Table 1: Percentage of violent incidents where offender/s were thought to be under the influence of drink or drugs, England and Wales

	1997	1999	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Don't know	10	9	9	11	10	9	8	10
Unweighted base	946	1,052	1,340	1,455	1,465	1,529	1,567	1,658
Under influence of drugs								
Yes	18	18	21	20	19	18	23	17
No	53	55	56	52	50	52	53	56
Don't know	29	27	23	27	30	30	25	28
Unweighted base	946	1,052	1,340	1,455	1,465	1,529	1,567	1,658

Notes:
1. Percentages may not sum to 100 due to rounding.
2. BCS violence in 1997, 1999, 2001-02, 2002-03, 2003-04, 2004-05 and 2005/06 includes common assault, wounding, robbery and snatch theft.
3. BCS violence in 2006-07 excludes snatch theft.

Crimes of Violence: Yorkshire and the Humber

David Davis: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Haltemprice and Howden constituency in each of the last five years. [198645]

Jacqui Smith *[holding answer 3 April 2008]:* Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Woodhill Prison: Electronic Surveillance

David Davis: To ask the Secretary of State for the Home Department how many conversations between staff of the Independent Police Complaints Commission and Babar Ahmed, which took place at Woodhill Prison, were recorded; under what authorisation each such recording took place; and at what level such authorisation was given in each case. [197938]

Jacqui Smith *[holding answer 31 March 2008]:* I have asked the chair of the Independent Police Complaints Commission to write to the right hon. Gentleman.

Written Questions

David Davis: To ask the Secretary of State for the Home Department when she will answer Question 182367, tabled by the right hon. Member for Haltemprice and Howden on 22 January 2008, on identity cards; and what the reasons are for the time taken to reply. [193582]

Jacqui Smith: I refer the right hon. Gentleman to my reply of 2 April 2008, *Official Report*, column 610W.

Written Answers to Questions

Monday 21 April 2008

HOME DEPARTMENT

Alcoholic Drinks: Rehabilitation

Mr. Ruffley: To ask the Secretary of State for the Home Department how many detoxification centres have been established in each police force area in England and Wales for those detained by the police in a drunk and disorderly condition in the last four years. [199324]

Mr. Coaker: Four alcohol arrest referral pilots were established in October 2007 in Ealing, Cheshire, and the cities of Manchester and Liverpool. Under the pilots, those arrested for alcohol related offences, including drunk and disorderly behaviour in a public place, attend advice sessions about safer drinking with the aim of reducing offending and health harms. Those who are found to require treatment, including detoxification, may be referred to other locally available services.

The pilots will be extended to up to 10 new areas in 2008-09.

Antisocial Behaviour

Mr. Brazier: To ask the Secretary of State for the Home Department on how many occasions a respect squad has been used since Christmas 2007. [197367]

Mr. Coaker: The provision of expert advice and assistance in cases of antisocial behaviour is coordinated by the antisocial behaviour and crime prevention unit team at the Home office. It has had responsibility for the Respect Squad since the end of 2007 during which time no new cases have been allocated pending a decision about its future role. In the meantime the Home Office funds a website and phone line manned by experts providing advice to practitioners on difficult cases.

Anti-terrorism, Crime and Security Act 2001

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Anti-terrorism, Crime and Security Act 2001 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195997]

Mr. McNulty: The information requested is not available. Offences under this legislation are recorded in the following offence classifications as appropriate:

Wounding or other act endangering life;

Other offences against the State and Public Order; or

Disclosure, Obstruction, False and Misleading Statements

These offences cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Arrests

Jenny Willott: To ask the Secretary of State for the Home Department how many arrests were deemed to be unlawful in each year since 1995, broken down by police force area; and if she will make a statement. [197313]

Mr. Coaker: The information requested is not collected centrally.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of arrests were found to be wrongful in each year since 1995, broken down by police force area; and if she will make a statement. [197318]

Mr. Coaker: The information requested is not collected centrally.

Jenny Willott: To ask the Secretary of State for the Home Department what estimate she has made of the number and proportion of arrests which were later deemed to have been made following false allegations, in each year since 1995, broken down by police force area; and if she will make a statement. [197319]

Mr. Coaker: No estimates have been made centrally.

Baluchistan Liberation Army

John McDonnell: To ask the Secretary of State for the Home Department (1) if she will publish the evidence provided by the Pakistani authorities which was taken into account by the Government when deciding to proscribe the Baluchistan Liberation Army; [197786]

(2) what evidence formed the basis for the Government's decision to proscribe the Baluchistan Liberation Army; [197787]

(3) what criteria were applied in the decision-making process which led to the proscribing of the Baluchistan Liberation Army; [197788]

(4) what the reasons were for the timing of the decision to proscribe the Baluchistan Liberation Army in 2006. [197790]

Mr. McNulty: In practice there are two stages to the Secretary of State's decision making process in determining whether to proscribe an organisation. Firstly, the Secretary of State must consider whether she believes the organisation is concerned in terrorism within the meaning of section 3 of the Terrorism Act 2000. Section 3 provides that an organisation is concerned in terrorism if it:

(a) commits or participates in acts of terrorism;

(b) prepares for terrorism;

(c) promotes or encourages terrorism; or

(d) is otherwise concerned in terrorism.

If the outcome at the first stage of the decision making process is that the Secretary of State believes that the organisation is concerned in terrorism, she then has discretion as to whether or not to proscribe it. In exercising that discretion successive Secretaries of State have had regard to five factors in particular. They are:

(a) The nature and scale of an organisation's activities;

(b) The specific threat that it poses to the United Kingdom;

(c) The specific threat that it poses to British nationals overseas;

(d) The extent of the organisation's presence in the United Kingdom; and

(e) The need to support other members of the international community in the global fight against terrorism.

The Baluchistan Liberation Army was proscribed in 2006 because the Secretary of State believed the organisation to be concerned in terrorism and determined, as a matter of discretion, that it should be proscribed. More information about the Baluchistan Liberation Army's activities was listed in the explanatory memorandum accompanying the Terrorism Act 2000 (Proscribed Organisations) (Amendment) Order 2006 (SI2006/2016), which added it to the list of proscribed organisations. These included nine bombings of railway stations in 2005 and the murder of Chinese engineers in February 2006.

The Government do not comment on the nature and source of the evidence underpinning proscription decisions.

Burglary

Mr. Evennett: To ask the Secretary of State for the Home Department how many crimes involving bogus callers were committed in each London borough in each year since 1997. [184173]

Mr. Coaker: Available recorded crime statistics on the number of distraction burglary offences at Basic Command Unit level, for the London region, are given in the following table.

The offence of 'distraction burglary' was added to the series in April 2003. Prior to this, this type of offence would have been recorded under the 'burglary in a dwelling' classification and could not be separately identified.

Distraction burglary: Number of offences recorded in London region[1]

Police Force Area	*Basic Command Unit*	*2004-05*	*2005-06*	*2006-07*
Metropolitan Police	Barking and Dagenham	165	152	155
Metropolitan Police	Barnet	148	110	158
Metropolitan Police	Bexley	41	80	77
Metropolitan Police	Brent	149	140	149
Metropolitan Police	Bromley	63	118	150
Metropolitan Police	Camden	121	71	109
Metropolitan Police	City of Westminster	79	47	74
Metropolitan Police	Croydon	65	102	170
Metropolitan Police	Ealing	124	113	140
Metropolitan Police	Enfield	127	101	168
Metropolitan Police	Greenwich	121	137	173
Metropolitan Police	Hackney	147	98	107
Metropolitan Police	Hammersmith and Fulham	62	74	118
Metropolitan Police	Haringey	107	90	129
Metropolitan Police	Harrow	63	59	58
Metropolitan Police	Havering	109	101	169
Metropolitan Police	Heathrow	0	0	0

Cannabis

Mr. Brady: To ask the Secretary of State for the Home Department what plans she has to curtail the supply of cannabis seeds available to buy via the internet. [200034]

Mr. Coaker: Cannabis seeds are not illegal under the Misuse of Drugs Act 1971, although the unauthorised cultivation of cannabis seeds and any subsequent supply and possession of cannabis is unlawful. As I stated in the House on 3 April 2008, the availability of cannabis seeds on the internet is a concern. This matter is kept under regular review, as is any issue associated with the unlawful production of illegal drugs.

Cannabis: Cafes

Tim Loughton: To ask the Secretary of State for the Home Department if she will place in the Library a copy of her letter of March 27 2008 to the hon. Member for East Worthing and Shoreham on the cannabis cafe in Lancing. [198928]

Mr. Coaker: I have arranged for a copy to be placed in the House Library today.

Community Support Officers: Powers

Mr. Ruffley: To ask the Secretary of State for the Home Department what powers have been delegated to police community support officers in each police force area. [198612]

Mr. McNulty: The list of powers designated to police community support officers in each force area during 2006-07 is available at:

http://police.homeoffice.gov.uk/news-and-publications/publication/community-policing/PCSOs_Audit_Table_May_2007_1.pdf

Similar information for 2007-08 is currently being compiled. This will be published on the Home Office, Police Community Support Officers webpage in May 2008.

Crime: Cambridgeshire

Mr. Hoban: To ask the Secretary of State for the Home Department pursuant to the answer of 13 March 2008, *Official Report*, column 607W, on crime: Cambridgeshire, how many *(a)* police officers and *(b)* police officers per 1,000 of the population there were in each of the areas listed in each year since 1997; and what percentage of time was spent by police officers on (i) frontline policing and (ii) patrolling in each of the areas in each of those years. [196646]

Mr. McNulty: The information requested is as follows:

(a) The available data are given in Table 1.

(b) The available data are given in Table 2.

(i) The information requested has only been collected since 2003-04, and the available data are given in Table 3.

(ii) The information requested for the time spent by each force on patrol is not available as these data are collected by forces for internal management purposes only.

Table 1: Police Officer Strength[1] (FTE)[2] by Police Force 1997 to 2007, as at 31 March each year

Police Force	*1997[3]*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003[3]*	*2004[3]*	*2005[3]*	*2006[3]*	*2007[3]*
Cambridgeshire	1,302	1,291	1,274	1,237	1,296	1,362	1,384	1,400	1,402	1,430	1,381
Cumbria	1,144	1,164	1,126	1,084	1,048	1,100	1,140	1,222	1,232	1,230	1,244
Devon and Cornwall	2,865	2,962	2,887	2,841	2,934	3,053	3,202	3,283	3,369	3,493	3,476
Durham	1,461	1,515	1,568	1,558	1,595	1,614	1,651	1,685	1,718	1,699	1,683
Gloucestershire	1,133	1,104	1,104	1,114	1,173	1,183	1,227	1,284	1,291	1,289	1,303
Lincolnshire	1,196	1,191	1,140	1,115	1,202	1,198	1,221	1,228	1,221	1,213	1,221
Norfolk	1,432	1,430	1,381	1,381	1,420	1,468	1,499	1,510	1,544	1,557	1,565
North Yorkshire	1,338	1,367	1,337	1,283	1,305	1,417	1,444	1,529	1,543	1,636	1,654
West Mercia	2,040	2,010	2,025	1,887	1,951	2,018	2,256	2,355	2,367	2,351	2,400
Wiltshire	1,154	1,156	1,151	1,118	1,120	1,157	1,158	1,217	1,222	1,219	1,204
Dyfed-Powys	1,005	1,002	1,026	1,040	1,055	1,132	1,149	1,160	1,174	1,182	1,177
North Wales	1,369	1,396	1,391	1,403	1,444	1,506	1,539	1,603	1,652	1,617	1,591

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

[2] Full-time equivalent excludes those on career breaks or maternity/paternity leave

[3] Comparable strength (excludes those on career breaks, or maternity/paternity leave). The Police Numbers Task Force (2001) recommended that a clear presentation was made of the numbers of staff employed by police forces including those seconded into the force and those on any type of long or short term absence. These new calculations were first used in 2003, and are not comparable with data prior to March 2003. The data from 2003 onwards used here are termed comparable because they have been calculated on the old basis to allow comparison.

Table 2: Police Officers[1] (FTE)[2] per 100,000 of the population for by police force, as at 31 March 1997 to 31 March 2007

	1997[3]	*1998*	*1999*	*2000*	*2001*	*2002*	*2003[3]*	*2004[3]*	*2005[3]*	*2006[3]*	*2007[3]*
Cambridgeshire	188	184	179	172	179	187	196	197	196	196	187
Cumbria	233	237	229	220	213	224	237	254	256	256	255
Devon and Cornwall	186	192	186	182	187	192	204	208	219	219	216
Durham	240	249	258	256	263	266	281	288	288	288	285
Gloucestershire	205	198	197	200	209	209	219	229	228	228	229
Lincolnshire	196	193	184	179	191	189	191	189	183	183	183
Norfolk	185	184	176	175	178	183	189	190	193	193	191

Table 2: Police Officers[1] (FTE[2]) per 100,000 of the population for by police force, as at 31 March 1997 to 31 March 2007

	1997[3]	1998	1999	2000	2001	2002	2003[3]	2004[3]	2005[3]	2006[3]	2007[3]
North Yorkshire	183	186	181	173	175	188	193	203	216	216	217
West Mercia	183	180	180	166	171	176	196	202	202	202	205
Wiltshire	195	195	192	185	184	189	190	198	196	196	192
Dyfed-Powys	212	210	215	217	219	234	237	236	237	237	236
North Wales	208	213	212	213	220	228	234	243	242	242	238

[1] This table is based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[2] Figures up to 31 March 2002 exclude staff on career breaks or maternity/paternity leave. The figures for 31 March 2003 onwards figures include those on career breaks or maternity/paternity leave.

Table 3: Percentage of police officer time spent on frontline policing duties, from 2003-04 to 2006-07[1]

Police Force	2003-04	2004-05	2005-06	2006-07
Cambridgeshire	61.1	60.3	70.7	63.0
Cumbria	59.9	61.0	59.1	61.9
Devon and Cornwall	67.1	64.0	63.1	60.8
Durham	60.7	59.0	59.5	57.8
Gloucestershire	64.6	68.1	66.5	67.8
Lincolnshire	55.3	64.4	66.5	63.8
Norfolk	61.0	62.9	66.8	65.9
North Yorkshire	63.0	64.1	66.7	61.1
West Mercia	63.6	62.8	64.5	64.3
Wiltshire	62.3	63.3	63.8	66.7
Dyfed-Powys	65.1	64.1	63.3	62.2
North Wales	63.9	63.4	61.4	63.9

[1] Data are available from 2003-04 onwards only.

Crime: North Yorkshire

Hugh Bayley: To ask the Secretary of State for the Home Department what percentage of crime in North Yorkshire was cleared up in each year since 1987. [197127]

Mr. Coaker: The requested information is given in the following tables.

Offences which are 'cleared up' are referred to as detections.

Recorded crime statistics for North Yorkshire police force, 1987 to 2006-07

Table A: Detection rates for total crime in North Yorkshire police force—1987 to 1997

	Detection rate (%)
1987	34
1988	39
1989	35
1990	40
1991	36
1992	33
1993	30
1994	25
1995	23
1996	25
1997	26

Table B: Detection rates for total crime in North Yorkshire police force—1998-99 to 2001-02[1,2]

	Detection rate (%)
1997-98	26
1998-99	33
1999-2000	31
2000-01	30
2001-02	26

[1] The offence coverage was extended and counting rules revised from 1998-99. This will have had an effect on the number of detections recorded. Figures from that date are not comparable with those for 1997.
[2] The data in this table is prior to the introduction of the National Crime Recording Standard (NCRS). These rates are not directly comparable with those for later years.

Table C: Detection rates for total crime in North Yorkshire police force—2002-03 to 2006-07[1,2]

	Detection rate (%)
2002-03	26
2003-04	28
2004-05	35
2005-06	35
2006-07	33

[1] The data in this table takes account of the introduction of the National Crime Recording Standard (NCRS) in April 2002. These rates are not directly comparable with those for earlier years.
[2] It should be noted that non-sanction detections that contribute to the percentage change in detection rates have fallen in recent years reflecting a significant shift by many police forces away from recording detections of crime where no further action is taken. For this reason overall detections rates over time are not fully comparable. From 1 April 2007 the rules governing recording of non-sanction detections were revised to reduce the scope within which they can be claimed to a very limited set of circumstances.

Crime: Young People

Mr. Hoban: To ask the Secretary of State for the Home Department pursuant to the Answer of 20 November 2007, *Official Report*, column 677W, on crime: young people, (1) whether any *(a)* handouts and *(b)* powerpoint presentations were prepared for this meeting; [173140]

(2) what date has been fixed for the follow-up seminar; [173141]

(3) if she will list the invitees for the follow-up seminar; [173142]

(4) if she will place a copy in the Library of the recommendations; [173143]

(5) whether any *(a)* agenda or *(b)* minutes was produced at the seminar. [173144]

Mr. Coaker: The Youth Crime Seminar on 8 November 2007 was held as a series of events on youth crime, as part of the preparation on the youth

crime action plan for publication summer 2008. The action plan aims to deliver results across youth crime prevention, youth justice as well as cross cutting themes on youth victimisation and youth violence. There were no formal minutes produced—instead, officials who were present took note of the points raised so that they could be fed into discussion during the development of the Youth Crime Action Plan. The seminar was followed up by the key Departments contacting those who attended as part of the work to get views and inputs into the Youth Crime Action Plan. A future date and attendees list for any forthcoming seminar has not yet been confirmed.

Crimes of Violence

James Duddridge: To ask the Secretary of State for the Home Department (1) how many crimes of violence against the person were recorded in Rochford and Southend East constituency in each of the last five years; [199825]

(2) how many crimes of violence against the person were recorded in (*a*) Dudley South and (*b*) Plymouth Sutton constituency in each of the last five years. [199878]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Beckenham

Mrs. Lait: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in Beckenham constituency in each of the last five years. [198708]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Bournemouth

Mr. Ellwood: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Bournemouth East constituency in each of the last five years. [198620]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Buckinghamshire

John Bercow: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Buckingham constituency in each of the last five years. [198373]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Chesham and Amersham constituency in each of the last five years. [199310]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: East Sussex

Gregory Barker: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in *(a)* Hastings and Rye and *(b)* Bexhill and Battle constituency in each of the last five years. [198846]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Essex

Mr. Newmark: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Braintree constituency in each of the last five years. [199154]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department how many violent crimes against the person were committed in each constituency in Gloucestershire in each of the last five years for which figures are available; and if she will make a statement. [199013]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Havant

Mr. Willetts: To ask the Secretary of State for the Home Department how many crimes involving violence against a person were recorded in Havant constituency in each of the last five years. [198492]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Huntingdon

Mr. Djanogly: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Huntingdon constituency in each of the last five years. [198685]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Lincolnshire

Sir Peter Tapsell: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Lough and Horncastle constituency in each of the last five years. [198702]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Newark

Patrick Mercer: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Newark constituency in each of the last five years. [198442]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpoc.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: North East

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in *(a)* Beverley and Holderness, *(b)* Brigg and Goole and *(c)* Cleethorpes constituency in each of the last five years; and if she will make a statement. [199249]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: North Yorkshire

Mr. Curry: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Skipton and Ripon constituency in each of the last five years. [198704]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: St. Albans

Anne Main: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in St. Albans constituency in each of the last five years. [198705]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will

come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in West Suffolk constituency in each of the last five years. [198369]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Surrey

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many crimes involving violence against the person were recorded in Esher and Walton constituency in each of the last five years. [198703]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Crimes of Violence: Wales

Mr. David Jones: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in the (*a*) Vale of Clwyd, (*b*) Delyn, (*c*) Alyn and Deeside, (*d*) Wrexham, (*e*) Clwyd South, (*f*) Montgomeryshire, (*g*) Brecon and Radnorshire, (*h*) Ceredigion, (*i*) Carmarthen East and Dinefwr, (*j*) Carmarthen West and South Pembrokeshire, (*k*) Bridgend, (*l*) Aberavon, (*m*) Torfaen, (*n*) Vale of Glamorgan, (*o*) Cardiff North, (*p*) Llanelli, (*q*) Cardiff Central, (*r*) Swansea East, (*s*) Swansea West, (*t*) Cardiff South and Penarth, (*u*) Gower, (*v*) Neath, (*w*) Rhondda, (*x*) Islwyn, (*y*) Cynon Valley, (*z*) Cardiff West, (*aa*) Newport East, (*bb*) Newport West, (*cc*) Caerphilly, (*dd*) Ogmore, (*ee*) Blaenau Gwent, (*ff*) Pontypridd and (*gg*) Merthyr Tydfil and Rhymney constituency in each of the last five years. [198830]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mr. David Jones: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in (*a*) Clwyd West, (*b*) Ynys Mon, (*c*) Caernarfon, (*d*) Meirionydd Nant Conwy and (*e*) Conwy constituency in each of the last five years. [198848]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at Crime and Disorder Reduction Partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in each police authority area in Wales in each of the last five years. [199311]

Mr. Coaker: The number of offences of violence against the person for each of the last five years, for the four police force areas in Wales, broken down by Crime and Disorder Reduction Partnership (CDRP) is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Copies of the statistics table are available in the Library.

Crimes of Violence: Licensed Premises

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* incidents of violence against the person and *(b)* police emergency call-outs resulting from incidents occurring (i) on and (ii) in the vicinity of premises licensed to sell alcohol for consumption on the premises under the Licensing Act 1964 there were in each of the last five years in each police force area; and if she will make a statement. [198537]

Mr. Coaker: Information on incidents of violence against the person and police emergency call-outs resulting from incidents occurring on or near licensed premises is not held by the Ministry of Justice.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many violent offences were committed in connection with licensed premises in each police area in each year since 1997; and if she will make a statement. [198538]

Mr. Coaker: Information on the number of violent offences committed in connection with licensed premises is not held by the Ministry of Justice.

Criminal Records Bureau: Standards

Mr. Ruffley: To ask the Secretary of State for the Home Department what performance standards she has set for the operation by Capita of the Criminal Records Bureau's information systems; and what arrangements she has made to ensure that errors in records held on the Police National Computer and supplied to employers by the Criminal Records Agency can be corrected. [198505]

Meg Hillier: The disclosure service operates as a contract between the Criminal Records Bureau (CRB) and Capita Business Services based upon a public private partnership agreement. A contract schedule sets out the service levels for Capita to meet, which contains performance measures, including data quality. However, Capita are not responsible for the accuracy of information held on the Police National Computer (PNC). This is the responsibility of the police.

The CRB operates a process that enables an individual to challenge the information provided on a disclosure. In addressing such a dispute, the CRB will contact the relevant police force(s) to advise them of the issues raised by the applicant. Should the force confirm that the information originally held on PNC is incorrect, the CRB will issue an amended disclosure to the applicant and the employer/registered body free of charge.

Cycling: Road Traffic Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many fixed penalties were issued to cyclists for the offence of *(a)* carrying another person and *(b)* cycling on pavements, broken down by police force area in each of the last three years; and how many of the penalties were issued to cyclists aged over 14 years; [198466]

(2) how many on-the-spot fines for cycling on the pavement were issued by each police force in each year since the scheme was introduced. [198475]

Mr. Coaker: Information is not collected centrally on the number of fixed penalty notices issued for cycling offences.

Departmental Correspondence

Mr. Winnick: To ask the Secretary of State for the Home Department pursuant to the answer of 13 March 2008, *Official Report*, column 611W, on departmental correspondence, if she will make it her policy that Ministers in her Department sign all replies to letters from hon. Members addressed to a Minister. [195977]

Mr. McNulty *[holding answer 20 March 2008]*: There are no plans to do so.

Detention Centres: Children

Mrs. James: To ask the Secretary of State for the Home Department what recent discussions she has had with the Children's Commissioner for England on children held in immigration removal centres. [197674]

Mr. Byrne: I meet with the Children's Commissioner for England frequently, and I find his advice invaluable, especially around issues raised about the detention of children in immigration removal centres.

In addition, officials in the UK Border Agency also maintain a good working relationship with the Commissioner's office. At their regular meetings issues relating to the detention of children are often discussed.

Mrs. James: To ask the Secretary of State for the Home Department what medical care and education services are provided to children in immigration removal centres. [197675]

Mr. Byrne: All immigration removal centres provide detainees, children and adults, with free, on-site health care services that are broadly equivalent to those national health service (NHS) general practitioners provide in the community. Detainees also have ready access to NHS secondary and tertiary health services, including paediatric services.

Two full-time qualified teachers provide educational classes for school age children at Yarl's Wood immigration removal centre, which is the main centre for holding families with children. The education provision at Yarl's Wood is based on the national curriculum wherever possible and is delivered to three age-based groups. Children are assessed to determine literacy, numeracy and ESOL (English for speakers of other languages) skill levels. Tuition covers core areas of English, numeracy, IT, art and craft and PE.

Families with children may also be detained at Tinsley and Dungavel House immigration removal centres, where programmes of structured activities are provided for children. Families with children usually

remain at these centres for no longer than 72 hours. If detention continues beyond three days, they are normally transferred to Yarl's Wood.

Domestic Violence: Immigrants

Tim Farron: To ask the Secretary of State for the Home Department what estimate she has made of the number of women with insecure immigration status left destitute after leaving a violent relationship in the latest period for which figures are available. [199964]

Mr. Coaker: Figures for the number of women with insecure immigration status left destitute after leaving a violent relationship are not available; as these data are not routinely collected by the Home Office.

Tim Farron: To ask the Secretary of State for the Home Department what funding the Government has given to local authorities to support women with insecure immigration status trying to flee violence and access refuge in the latest period for which figures are available. [199965]

Mr. Coaker: The Government have not provided direct funding to local authorities to support women with insecure immigration status who are victims of domestic violence.

However, between 2003-04 and 2005-06 the Home Office provided a total of £145,000 to the Women's Aid Federation of England to bolster its Last Resort Fund to support victims of domestic violence with no recourse to public funds.

We will shortly be announcing details of a new scheme where victims of domestic violence with no recourse to public funds may be eligible to receive support for their housing and living costs. Under the new scheme victims of domestic violence whose applications for Indefinite Leave to Remain are successful may qualify for a contribution towards these costs.

Domestic Violence: Immigration

John Bercow: To ask the Secretary of State for the Home Department what financial support is available to spouses and their dependants who are seeking leave to remain on basis of the domestic violence rule. [198370]

Mr. Coaker: Victims of domestic violence who apply for Indefinite Leave to Remain (ILR) under the domestic violence rule may qualify for assistance under specific legislation and can also access housing related support services funded by the Supporting People Grant.

In February 2006 the Home Office wrote to all local authorities in England, outlining the position of women who have no recourse to public funds and how local authorities can help and support these women within existing legislation, for example, under the Children Act 1989, the NHS and Community Care Act 1990 and the Local Government Act 2000.

We will shortly be announcing details of a new scheme where victims of domestic violence with no recourse to public funds may be eligible to receive support for their housing and living costs. Under the new scheme victims of domestic violence whose applications for (ILR) are successful may qualify for a contribution towards these costs.

Domestic Violence: Victim Support Schemes

Sarah Teather: To ask the Secretary of State for the Home Department how much funding was provided to organisations providing support for victims of domestic violence in each year since 2001, broken down by organisation. [197862]

Mr. Coaker: The Government have funded a range of organisations which provide direct support to victims of domestic violence. The following table lists them:

Home Office Organisational Grant Funding for Domestic Violence

Organisation	*Amount (£)*
2007-08	
Broken Rainbow Helpline	60,000
Corporate Alliance Against Domestic Violence	15,000
IMKAAN	8,000
Mens Health Forum	37,300
Relate	47,900
Respect	240,000
Women's Aid	57,000
Women's Aid/Refuge	500,000
Total	965,200
2006-07	
Broken Rainbow Helpline	120,000
Corporate Alliance Against Domestic Violence	22,500
Men's Advice Line	57,200
Phones for Safety	30,000
Respect	180,000
Women's Aid/Refuge	250,000
Total	659,700
2005-06	
Broken Rainbow Helpline	120,000
Corporate Alliance Against Domestic Violence	4,000
Men's Advice Line	57,200
Phones for Safety	30,000
Respect	120,000
Women's Aid	142,000
Women's Aid—Last Resort	25,000
Women's Aid/Refuge	66,420
Total	564,620
2004-05	
Broken Rainbow Helpline	120,000
Various Violence Against Women Projects	6,000,000
Women's Aid/Refuge	60,000
Total	6,180,000
2000-03	
Various Violence Against Women Projects	8,055,000
Total	8,055,000

Sarah Teather: To ask the Secretary of State for the Home Department what telephone hotlines supported by her Department are available to support and advise

victims of domestic violence; how these hotlines are publicised; and what funding from the public purse each organisation has received since 2001. [197863]

Mr. Coaker: The Home Office provides funds to a matrix of national helplines including: the National 24 Hour Domestic Violence Helpline which was launched in December 2003; the Men's Advice Line and Enquiries (MALE); and Broken Rainbow, a service for victims of domestic violence within the lesbian, gay, bisexual and transgender community. Strategic funding for these helplines began in 2003-04 so figures prior to this are not available.

In relation to non-convicted perpetrators, the Home Office has also funded the RESPECT phoneline which offers advice to perpetrators.

The victim-focused helplines were publicised in the two recent ENOUGH Campaigns, undertaken in 2006 and 2007, which included print and radio media advertising within the specialist domestic violence court areas.

The funding provided to the helplines from 2003-04 is as follows.

National Domestic Violence Helpline

	Funding (£)
2007-08	500,000
2006-07	200,000
2005-06	66,420
2003-04 to 2005-06	[1]1.4 million
2003-04	60,000

[1] From the then Office of the Deputy Prime Minister

Men's Advice Line and Enquiries (MALE)

	Funding (£000)
2007-08	120
2006-07	57
2005-06	57.2

Broken Rainbow

	Funding (£000)
2007-08	60
2006-07	120
2005-06	120
2004-05	120
2003-04	120

RESPECT Phoneline

	Funding (£000)
2007-08	120
2006-07	120
2005-06	120
2004-05	50

Since 2005-06, the Home Office has also contributed to the running costs of the joint Foreign and Commonwealth Office/Home Office unit which provides the Forced Marriage Helpline.

Forced Marriage Unit

	Funding (£000)
2007-08	100
2006-07	100
2005-06	100

Sarah Teather: To ask the Secretary of State for the Home Department what funding was provided to *(a)* the National Domestic Helpline, *(b)* the Women's Aid and *(c)* the Victim Supportline in each year since 2001. [197864]

Mr. Coaker: Figures for funding for the National Domestic Violence Helpline from 2001-03 are not available as it was first established as a single service in December 2003. £1.4 million was provided by the then Office of the Deputy Prime Minister (ODPM) for the next three years. In 2005-06, responsibility for the helpline transferred to the Home Office as part of the National Delivery Plan for Domestic Violence and £60,000 was provided in addition to £100,000 which was transferred from ODPM. In 2006-07 the Home Office provided £250,000 and this has now increased to £500,000 in 2007-08.

Figures for the funding for Women's Aid prior to 2003 are not available, but since 2003 they have been given the following funding:

	£
2007-08	37,000
2006-07	37,000
2005-06	115,000
2004-05	115,000
2003-04	190,000

Since 2001, Victim Support has allocated £200,000 of its annual grant in aid from the Office for Criminal Justice Reform to the running of its Victim Supportline.

Driving Offences: Mobile Phones

Mr. Ruffley: To ask the Secretary of State for the Home Department how many drivers were *(a)* stopped by police, *(b)* charged, *(c)* convicted, *(d)* fined and *(e)* cautioned for driving while using a mobile phone in each police force area in each year since the ban came into force. [198477]

Mr. Coaker: Information held on the court proceedings database held by the Ministry of Justice from 2003 to 2005 (latest available) is provided in the table. As the majority of 'use of hand held mobile phone while driving' offences are dealt with by the issue of a fixed penalty notice these are also included. 2006 data will be available later this year.

- = Nil

[1] Covers tickets paid where there is no further action.

[2] May include cases where a fixed penalty notice was originally issued but not paid and subsequently referred to court.

[3] Offences under the Road Vehicles (Construction and Use) Regulations 1986, Regulations 110 (1), 110 (2) and 110 (3). Introduced 1 December 2003.

Notes:

1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.

2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Misuse

John Mann: To ask the Secretary of State for the Home Department how many people were arrested for bringing drugs into the UK from *(a)* Jamaica, *(b)* Trinidad and Tobago, *(c)* Nigeria, *(d)* Ghana and *(e)* elsewhere in the world in each of the last three years. [197459]

Mr. Coaker *[holding answer 31 March 2008]:* I understand that the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences) only, by age group, gender, ethnicity, and main offence group, i.e. robbery, burglary, drugs offences etc. From data reported centrally they are not able to identify specific offences from within the main offence groups nor the circumstances behind an arrest.

Entry Clearances: Deobandi Sect

Mr. Soames: To ask the Secretary of State for the Home Department if she will take steps to ban members of the Deobandi sect from entering the United Kingdom. [188630]

Mr. McNulty *[holding answer 25 February 2008]:* Deobandism is a denomination within Islam. Deobandi communities make up a significant minority of the Muslim population in the United Kingdom.

The Home Secretary has the power to exclude individuals from the UK where she judges, on a case-by-case basis, that it is right to do so. There are no plans to target these powers against any denominational group within Islam.

Firearms

Mr. Ruffley: To ask the Secretary of State for the Home Department how many replica firearms were confiscated in each police force area in each of the last 10 years. [198591]

Mr. Coaker: The requested statistics are not collected centrally.

Fixed Penalties

Mr. Ruffley: To ask the Secretary of State for the Home Department for which offences fixed penalty notices may be imposed; and what guidance has been issued by her Department on circumstances in which such notices may be imposed. [198521]

Mr. Coaker: Fixed penalties are currently available for over 200 different road traffic offences.

The Home Office issued revised Guidance on the Operation of the Fixed Penalty System for Offences in Respect of a Vehicle in April 2006.

This is available on the Home Office website at the following link:

http://police.homeoffice.gov.uk/news-and-publications/publication/operational-policing/HO_00395_GFinalVersion.pdf.

A detailed list of offences for which a fixed notice may be issued is included at Annex A of the guidance.

Forced Marriage: Victim Support Schemes

Margaret Moran: To ask the Secretary of State for the Home Department what resources her Department has allocated to the support of victims of forced marriage for 2008-09; and what plans she has for funding in the next two financial years. [198799]

Mr. Coaker: During 2008-09 the Home Office will provide £121,100 to support the operation and running of the joint Home Office and Foreign and Commonwealth Office Forced Marriage Unit (FMU). This is an increase of £71,100 on previous years' funding. In addition the Home Office will also provide funding for the series of regional events focused on so-called 'honour' based violence planned to take place between May and July.

Funding for the FMU will continue over next two financial years and funding will also be identified to support other initiatives under our national work programme to tackle honour based violence.

Foreign Workers: Domestic Service

Mr. Steen: To ask the Secretary of State for the Home Department how many of those who were granted visas as migrant domestic workers applied to change their employers after they arrived in the UK in each of the last three years. [197985]

Mr. Byrne *[holding answer 2 April 2008]:* In 2005 the UK Border Agency received 228 notifications of overseas domestic workers (ODWs) changing employer. In 2006 we received 126 notifications and in 2007 we received 289.

Forensic Science: Procurement

John McDonnell: To ask the Secretary of State for the Home Department what advice her Department has given to police forces and police authorities on the procurement of forensic science services. [198399]

Meg Hillier *[holding answer 2 April 2008]:* The procurement of forensic services is a matter for individual police forces. The National Policing Improvement Agency is, however, taking forward work to reform the procurement practices for forensic analysis services within the police service to assist forces.

Forensic Science: Registration

Mr. Ruffley: To ask the Secretary of State for the Home Department what her Department's policy is on the compulsory registration of forensic science practitioners; and if she will make a statement. [198532]

Meg Hillier: Mandatory registration with the Council for the Registration of Forensic Practitioners was recommended in the House of Commons Select Committee on Science and Technology Report "Forensic Science on Trial" (see recommendation 43 at paragraph 139), published 29 March 2005. The response of Her Majesty's Government to that recommendation was as follows:

"It would not be appropriate for the Government to mandate registration with a private organisation. The criminal justice system must have access to appropriate expert testimony to ensure it reaches the correct decision. The use of a mandatory registration scheme would prevent appropriate experts from giving testimony in a number of circumstances, for example where the required expert does not normally work within the forensic arena and is therefore not registered. Another example might be that the required expert may work within the forensic arena but, perhaps due to working in research and development, does not carry out sufficient casework to be registered. The required expert may not work within the UK, or expertise may be required in a subject which rarely comes before the court. It therefore seems more sensible to have a scheme whereby the registration is voluntary. Where someone seeks to appear as an expert witness in an area where registration is available but they are not registered, this will highlight to the judge the need to consider carefully whether their testimony should be admitted and, if so, on what basis."

My right hon. Friend, the Home Secretary, continues to endorse this view and has recently appointed Mr Andrew Rennison as the Forensic Science Regulator. The Regulator will provide advice on issues surrounding individual competence for forensic science practitioners—including registration. The Government will review the position in due course.

Genetics: Databases

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will make a statement on retention of DNA profiles collected by the police from individuals. [198502]

Meg Hillier: The taking and retention of DNA samples are subject to the provisions contained in Part V of the Police and Criminal Evidence Act (PACE) 1984. PACE provides that samples may be retained for persons who have been arrested and detained at the police station for a recordable offence; and that profiles taken from these samples and placed on the database may be subject to speculative search. We consider that is a proportionate and effective threshold to help eliminate the innocent during the course of an investigation as well contributing to the detection and conviction of the guilty.

Homicide: Mentally Ill

Keith Vaz: To ask the Secretary of State for the Home Department how many homicides were committed by patients with mental illness in each of the last 10 years. [199652]

Mr. Coaker: The requested information is not collected centrally by either the Home Office or Ministry of Justice.

Immigration: Children

Mrs. James: To ask the Secretary of State for the Home Department what consideration she gives to the UK's responsibilities under the UN Convention on the Rights of the Child in her determination of immigration policy. [197721]

Mr. Byrne: The Home Secretary takes the UK's responsibilities towards safeguarding the rights of all children very seriously. The Government have fully and actively supported the principles of the UN Convention on the Rights of the Child since the UK became a signatory in 1991. UK domestic law represents a well-developed framework based upon the importance of the welfare of the child. The Home Secretary announced on 14 January our intention to review the UK's immigration based reservation on the Convention, which is being carried out in the light of developments in child safeguarding policy and practice over recent years and the Government's intention to ratify Council of Europe Convention on Action Against Human Trafficking later this year.

Intelligence Services: Public Speaking

Mr. Harper: To ask the Secretary of State for the Home Department pursuant to the answer of 25 March 2008, *Official Report*, column 73W, on MI5, if she will instigate a practice of clearing the *(a)* timing and *(b)* content of speeches to be made by the Director General of the Security Service before delivery. [198395]

Mr. McNulty *[holding answer 2 April 2008]:* My right hon. Friend, the Home Secretary, sees no reason to make changes to the arrangements outlined in the earlier answer.

Internet: Crime

Bob Spink: To ask the Secretary of State for the Home Department what recent estimate she has made of the proportion of internet-related crime affecting the UK which originates in Nigeria. [199412]

Mr. Coaker: Due to the nature of the internet, it is impossible to give an accurate assessment of how much internet-related crime originates in a particular country. In the main, internet-related crime is facilitated by bogus websites and software and law enforcement experience is that most activity takes place in the United States and Eastern Europe.

Iraq: Peacekeeping Operations

Mr. Ruffley: To ask the Secretary of State for the Home Department how many British police officers are seconded to *(a)* Iraq and *(b)* Afghanistan; what their expected tour of duty is; and what arrangements have been made to cover their operational duties in the UK during their absence overseas. [198573]

Mr. McNulty: There are currently nine serving and six retired UK civilian police officers seconded to Iraq and nine serving and one retired UK civilian police officers seconded to Afghanistan, where they are working in advisory, mentoring and training capacities. The serving officers are from forces in England and Wales, the Police Service of Northern Ireland and the Ministry of Defence police. The length of their deployments varies from 12 to 18 months.

All the serving officers are volunteers who have gone to Iraq and Afghanistan with the consent of their chief constables, who will have been satisfied that their own operational requirements can be fully met during the officers' absence before agreeing to release them for overseas service.

Metropolitan Police

Dr. Starkey: To ask the Secretary of State for the Home Department (1) what guidance she has issued on Trusted Partners consulted by the Metropolitan Police Service National Community Tension Team; [190348]

(2) what checks are made by the relevant authorities on potential links between Trusted Partners and foreign governments; and what risk assessment is made in each case in relation to the sharing of confidential information; [190349]

(3) in relation to the Trusted Partner consulted in advance of the attempted arrest of General Almog in September 2005, what investigation has been conducted into the potential communication of information to Israeli diplomats by that Trusted Partner; [190350]

(4) whether *(a)* her Department and *(b)* the Metropolitan Police have obtained assurances from the Israeli authorities on the co-operation of armed Israeli air marshals with UK police officers in the lawful execution of their duty on aircraft on British soil; [193486]

(5) pursuant to the Answer of 4 March 2008, *Official Report*, column 2357W, on Israel, whether representations were made by *(a)* her Department and *(b)* the Metropolitan Police to the Israeli authorities following the attempted arrest of General Almog in September 2005 on the denial of police access to the El Al aeroplane at Heathrow Airport. [193489]

Mr. McNulty: The Home Office has not made any representations on the issues raised. The operational issues surrounding events in September 2005, including whether any consultation with members of the community or community representatives took place, are matters for the police.

Metropolitan Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department what the rate of Metropolitan Police officer abstractions was from each London borough for *(a)* counter-terrorism, *(b)* special operations and *(c)* public order event policing work in each of the last three years; and if she will make a statement. [198509]

Mr. McNulty: The Home Office does not hold any information centrally on the number of Metropolitan Police officer abstractions from *(a)* counter-terrorism, *(b)* special operations and *(c)* public order event policing work. Such data could be obtained only at disproportionate cost.

Metropolitan Police: Stop and Search

Mr. Ruffley: To ask the Secretary of State for the Home Department how many searches of *(a)* persons and *(b)* vehicles under section 60 of the Criminal Justice and Public Order Act 1994 were carried out by each Metropolitan Police division in each of the last five years; and how many arrests were made as a result in each division for (i) possession of offensive weapons and (ii) other offences. [198472]

Mr. Coaker: Data collected centrally, by the Ministry of Justice, under section 60 of the Criminal Justice and Public Order Act 1994 are available at police force area level only. Information is given in the following table.

Searches of persons and vehicles[1] separately under section 60 of the Criminal Justice and Public Order Act 1994 and resultant arrests, carried out by the Metropolitan police force, 2001-02 to 2005-06 (latest available)

		Persons only			*Vehicles only*[2]		
			Resultant arrests			*Resultant arrests*	
Period	*Total searches*	*Searched*	*For offensive weapons*	*For other reasons*	*Searched*	*For offensive weapons*	*For other reasons*
2001-02	6,065	6,000	89	144	65	—	—
2002-03	8,606	8,489	88	338	117	—	—

Searches of persons and vehicles[1] separately under section 60 of the Criminal Justice and Public Order Act 1994 and resultant arrests, carried out by the Metropolitan police force, 2003-04 to 2005-06 (latest available)

		Persons only			Vehicles only[1]		
			Resultant arrests			Resultant arrests	
Period	Total searches	Searched	For offensive weapons	For other reasons	Searched	For offensive weapons	For other reasons
2003-04	4,359	4,348	29	122	11	—	—
2004-05	3,607	3,606	23	111	1	—	—
2005-06	5,584	5,581	50	149	3	—	—

[1] Searches may be conducted on vehicles only, occupants only or both may be searched. Where a vehicle and driver occupier are searched simultaneously the search is recorded against the driver (occupant). Any other passengers searched are recorded as occupants. Data given in the table are where a 'vehicle only' has been searched.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Source:
Stops/Searches collection held by the Office for Criminal Justice Reform.

Mugging: Greater London

Mr. Hoban: To ask the Secretary of State for the Home Department how many *(a)* street robberies and *(b)* sanction detections for street robberies there were in each London borough in each of the last 10 years. [195847]

Mr. Coaker: The information requested is not available centrally. It is not possible to identify the location of offences of robbery from the recorded crime statistics collected by the Home Office.

National e-Crime Unit

David Taylor: To ask the Secretary of State for the Home Department when she expects the National e-Crime Unit to be launched. [197352]

Mr. Coaker *[holding answer 31 March 2008]:* The Government have received a business case from ACPO regarding the possible creation of a national electronic crime unit. The Government are considering the possible options for tackling this issue, and will be arranging a meeting with law enforcement agencies in the near future.

National e-Crime Unit: Finance

David Taylor: To ask the Secretary of State for the Home Department whether the National e-Crime Unit will be partly funded by the private sector; and if she will make a statement. [197351]

Mr. Coaker *[holding answer 31 March 2008]:* The Government have received a business case from ACPO regarding the possible creation of a national electronic crime unit. The proposal is based on funding from central Government, the private sector and the European Union. The Government are considering the possible options for tackling this issue, and will be arranging a meeting with a number of law enforcement agencies in the near future.

National Identity Register

Mr. Redwood: To ask the Secretary of State for the Home Department what *(a)* cross checks and *(b)* linkages there will be between individual information held on the National Identity Register database and other Government computer systems. [200069]

Meg Hillier: In order to maintain a necessarily high level of security, the National Identity Register will not be directly linked to any other Government computer system. In addition, the Identity Cards Act 2006 strictly limits the data that may be held on the register and the records will be created from information provided by the applicant not simply from existing Government data.

Cross checks will be performed on every application against various other information systems in order to establish an identity is genuine and belongs to the person claiming the identity, however no linkages will be created. Verification checks against the register will provide a secure and reliable means for proving identity and organisations will be able to verify identity information against the register following an accreditation process. However, no third party organisation will have direct access to the information on the National Identity Register and any request for the verification or provision of data will be made to the Identity and Passport Service in line with the provisions of the Identity Cards Act 2006 and the Data Protection Act 1998.

Mr. Redwood: To ask the Secretary of State for the Home Department how many pieces of personal information an individual will need to supply to complete a record on the National Identity Register database. [200110]

Meg Hillier: The only information that may be recorded in an individual's entry in the National Identity Register is that set out at section 3 and schedule 1 of the Identity Cards Act 2006. The precise detail of the information that will be needed in an application has yet to be decided but is likely to be very similar to the information required for a passport application and will require approval by Parliament of secondary legislation in the form of regulations under the Identity Cards Act before the scheme is implemented.

Offences Against the Person Act 1861

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Offences Against the Person Act 1861 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection.[1] [196023]

1. *[Official Report, 13 June 2008, Vol. 477, c. 6MC.]*

Mr. Coaker: The information is not available in the form requested.

Table 1 gives the number of offences recorded under the Offences Against the Person Act 1861 since 2002 that are separately identifiable within police recorded crime statistics. It also gives the number of offences detected by means of a sanction detection. Table 2 shows the numbers of defendants proceeded against and found guilty at all courts for the years 2002 to 2006, and is taken from the court proceedings database held by the Office for Criminal Justice Reform.

The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Recorded crime and court proceedings statistics are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and counts offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

Table 1: offences recorded under the Sexual Offences Act 2003 and detected by means of a sanction detection

		2004-05		2005-06		2006-07	
	Offence	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*
17A	Sexual assault on a male aged 13 and over	1,316	297	1,428	370	1,450	397
17B	Sexual assault on a male child under 13	1,227	291	1,394	456	1,237	441
19C	Rape of a female aged 16 and over	8,192	1,578	8,725	1,843	8,228	1,744
19D	Rape of a female child under 16	3,014	868	3,153	932	2,853	805
19E	Rape of a female child under 13	970	276	1,388	496	1,524	553
19F	Rape of a male aged 16 and over	444	46	438	70	413	58
19G	Rape of a male child under 16	322	99	292	116	261	83
19H	Rape of a male child under 13	297	94	364	129	458	148
20A	Sexual assault on a female aged 13 and over	15,087	2,967	17,158	4,413	16,887	4,355
20B	Sexual assault on a female child under 13	4,391	1,151	4,647	1,632	4,249	1,494
21	Sexual activity involving child under 13	1,510	405	1,950	629	1,937	636
22B	Sexual activity involving child under 16	2,546	696	3,283	1,124	3,210	1,058
22A	Causing sexual activity without consent[1]	239	57	744	596	224	58
23	Incest or familial sexual offences	713	178	966	330	1,344	406
70	Sexual activity etc. with a person with a mental disorder	104	11	139	29	163	43
71	Abuse of children through prostitution and pornography	99	28	124	84	101	51
72	Trafficking for sexual exploitation	21	8	33	23	43	22
73	Abuse of position of trust of a sexual nature	682	562	463	385	361	265
88A	Sexual grooming	186	49	237	101	322	125
88B	Other miscellaneous sexual offences	11,593	2,217	11,363	2,769	10,212	2,652

[1] The increase in 2005-06 was accounted for by a large number of offences that were dealt with by the Norfolk constabulary.

Table 2: number of defendants proceeded against at magistrates courts and found guilty at all courts for abandoning children and concealment of birth, England and Wales 2002-06[1,2]

	Offence	2002		2003		2004		2005		2006	
		Proceeded against	Found guilty	Proceeded against	Found guilty	Proceeded against	Found guilty	Proceeded against	Found guilty	Proceeded against	Found guilty
12	Abandoning children aged under two years	4	—	9	1	4	—	4	—	4	2
15	Concealment of birth	—	—	4	4	1	—	3	3	3	3

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Offensive Weapons: Yorkshire and Humberside

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many *(a)* warnings, *(b)* cautions and *(c)* charges were issued for possession of knives in each of the last 10 years, in each police authority area in Yorkshire and the Humber, broken down by age category; and if she will make a statement. [197435]

Mr. Coaker: The number of offenders issued with final warnings and cautions, and the number of defendants 'proceeded against' at magistrates courts, for offences involving the possession of knives in each police force area in the Yorkshire and the Humber area by age group for the years 1997 to 2006 is shown in tables 1 to 4. Court proceedings data for 2007 will not be available until the autumn of 2008. Charging data are not held centrally, so information on the number of individuals proceeded against has been provided in lieu of charging data.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Table 1: The number of offenders issued with final warnings and cautions, and the number of defendants proceeded against at magistrates courts for offences relating to possession of knives, by certain age groups, in Humberside police force area, 1997 to 2006[1,2,3,4]

	Final warning	Total cautioned[2]	Proceeded against
Age 10 to 17			
1997	Nil	6	9
1998	Nil	10	8
1999	Nil	9	13
2000	Nil	5	18
2001	4	7	18
2002	1	4	18
2003	Nil	2	13
2004	Nil	4	18
2005	3	22	23
2006	3	12	37
Age 18 to 20			
1997	Nil	2	9
1998	Nil	4	12

Table 1: The number of offenders issued with final warnings and cautions, and the number of defendants proceeded against at magistrates courts for offences relating to possession of knives, by certain age groups, in Humberside police force area, 1997 to 2006[1,2,3,4]

	Final warning	Total cautioned[2]	Proceeded against
1999	Nil	2	13
2000	Nil	1	17
2001	Nil	2	6
2002	Nil	3	18
2003	Nil	1	19
2004	Nil	1	22
2005	Nil	4	20
2006	Nil	13	18
Age 21 and over			
1997	Nil	2	42
1998	Nil	1	44
1999	Nil	6	54
2000	Nil	3	30
2001	Nil	1	37
2002	Nil	2	45
2003	Nil	Nil	47
2004	Nil	5	81
2005	Nil	18	80
2006	Nil	25	80

[1] These data are on the principal offence basis.
[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. The total figure of reprimands and final warnings makes up cautions.
[3] Data include the following statutes and corresponding offence descriptions:
Criminal Justice Act 1988 S.139(1) and (6): Have blade/article which was sharply pointed in public place
Criminal Justice Act 1988 S.139AU): Having an article with a blade or point on school premises
Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

2006	Nil	58	89

[1] These data are on the principal offence basis.
[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. The total figure of reprimands and final warnings makes up cautions.
[3] Data include the following statutes and corresponding offence descriptions:
Criminal Justice Act 1988 S.139(1) and (6): Have blade/article which was sharply pointed in public place.
Criminal Justice Act 1988 S.139A(1): Having an article with a blade or point on school premises.
Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Organised Crime

Mr. Spellar: To ask the Secretary of State for the Home Department what progress has been made on tackling serious and organised crime in the last 12 months. [197647]

Mr. Coaker: The Serious Crime Act 2007 introduced a number of provisions for tackling organised crime more effectively. These included the creation of Serious Crime Prevention Orders, a new offence of encouraging or assisting crime, measures to improve data sharing to prevent and detect fraud, improvements in the law relating to the proceeds of crime and the merger of the Assets Recovery Agency into the Serious Organised Crime Agency (SOCA).

£35 million of additional funding is being provided for improving protective services over the next three years specifically targeted at supporting collaborative work and strengthening police forces' ability to combat serious organised criminal networks. This funding will help continue work initiated by the Association of Chief Police Officers maintaining the 10 Regional Intelligence Units and enabling the East Midlands Special Operations Unit to continue its work to tackle serious and organised crime in its area.

SOCA will report on its achievements during 2007-08 in its annual report, due to be published in May, and the creation of the UK Border Agency from 1 April will improve the Government's response to organised crime by strengthening the UK's border controls.

Police

Mr. Ruffley: To ask the Secretary of State for the Home Department what her definition of a front line police officer is. [198614]

Mr. McNulty: Frontline police officers are those who are directly involved with the delivery of core operational policing. Examples of roles considered as front line include: Burglary, CID, Firearms, Community Safety, Dogs, Drugs, Foot/Car/Beat Patrol, Neighbourhood Policing, Hate Crime, Mounted Police, Special Branch, Marine, Air, Underwater, and Vice.

Police Cautions

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of cautions were found to be unlawful in each year since 1995, broken down by police force area; and if she will make a statement. [197317]

Mr. Coaker: The information requested is not collected centrally.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of cautions were found to be inappropriate in each year since 1995, broken down by police force area; and if she will make a statement. [197988]

Mr. Coaker: The information requested is not collected centrally.

Jenny Willott: To ask the Secretary of State for the Home Department how many reprimands given in each year since 1995 were found to have been *(a)* unlawful and *(b)* inappropriate, broken down by police force area; and if she will make a statement. [197991]

Mr. Coaker: The information requested is not collected centrally.

Police Custody: Young People

Susan Kramer: To ask the Secretary of State for the Home Department how many children aged *(a)* 10, *(b)* 11, *(c)* 12 and *(d)* 13 years were held in custody (i) on remand and (ii) after being convicted in connection with a breach of an anti-social behaviour order in (A) 2004, (B) 2005 and (C) 2006; and what the average length of detention was in each year. [198336]

Mr. Coaker: The data are not collected centrally. Home Office and Youth Justice Board Guidance states that custody for young people who breach their antisocial behaviour order should be used as a last resort.

Police: Complaints

Mr. Ruffley: To ask the Secretary of State for the Home Department what *(a)* successful and *(b)* unsuccessful cases have been brought by members of the public against police forces for (i) malicious prosecution, (ii) false imprisonment and (iii) assault in the last five years; and how much compensation was paid in each successful case. [198613]

Mr. McNulty: The information requested is not held centrally and could be obtained only at disproportionate cost.

Police: Finance

Mr. Ruffley: To ask the Secretary of State for the Home Department how population growth is taken into account when calculating the total resource allocation formula for police forces. [198534]

Mr. McNulty: I refer the hon. Member to the answer I gave to his question on 1 April 2008, *Official Report*, columns 764-65W.

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how much *(a)* in total and *(b)* per head of population was raised from police precepts in each police authority in England and Wales in each year since 1996-97; [198575]

(2) how much was raised from police precepts in each police authority in England and Wales in each year since 2006-07. [199397]

Mr. McNulty: Information is set out in the following tables.

	1996-97		1997-98		1998-99

Police: Football

Mr. Ruffley: To ask the Secretary of State for the Home Department what information she has on the amount spent by each football league club in England on policing of football grounds in each of the last five years for which figures are available, and what information she has on the average amount spent by each club per game for policing in each of those years. [199326]

Mr. Coaker: This information is not collated centrally.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many football supporters were arrested or detained by police at the ground of each *(a)* Premier League, *(b)* Championship and *(c)* Nationwide league club in each of the last three years. [199327]

Mr. Coaker: The Home Office gathers and publishes annually comprehensive statistics on football-related arrests and football banning orders. Tables detail the number of arrests by club supported, by competition and by the type of offence. Full details for the last three football seasons can be found on the Home Office website at the following page:

http://www.homeoffice.gov.uk/crime-victims/reducing-crime/football-disorder/.

Police: ICT

Mr. Ruffley: To ask the Secretary of State for the Home Department what progress has been made in the integration of police IT systems. [198572]

Mr. McNulty: The Police Service has established policy and standards which enable integration, notably the Management of Police Information, a statutory code of practice introduced in 2005 to ensure that all police operational information is managed in a consistent way. The Association of Chief Police Officers Information Systems Strategy for the Police Service, which was adopted in 2006, sets out the standards used to specify, acquire and operate nationally-compatible Police information systems.

Police Information Technology (IT) systems are integrated with Criminal Justice partners; the Criminal Justice System Exchange provides IT services to enable common case information to be shared. Additionally, common solutions integrate the data from police forces to provide national information resources. Last year saw the completion of the National Firearms Licensing Management System and ViSOR, a United Kingdom-wide system used to store and share information and intelligence on those individuals who have been identified as posing a risk of serious harm to the public.

The IMPACT Nominal Index, operational since 2005, allows police officers to establish whether any forces in England, Wales, Scotland and Northern Ireland hold information about a person of interest. The next phase of IMPACT, the Police National Database, is now in procurement and will provide a single access point for searching across all of the forces' main operational information systems.

Police forces are implementing information systems where master filing eliminates data redundancy in incident recording, investigations, case preparation and intelligence:

each item of data, such as a suspect's name, is recorded in the system only once. Collaborations on regional crime, such as East Midlands Special Operations Unit, are using the secure Police National Network (PNN3), to which all forces connect, to give officers access to intelligence sources in each of the participating forces.

In his Review of Policing, Sir Ronnie Flanagan identifies further areas for the development of common approaches to operational processes and procurement which will set new challenges for the management of information systems across the Police Service. At the time of publication of the Review, my right hon. Friend, the Home Secretary, commissioned the National Policing Improvement Agency to carry out a review of police IT and report to the National Policing Board (NPB) on 6 May. The report will form the basis for our future strategy for the more effective delivery of policing, supported by excellent IT systems.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department how many civilian staff have been employed in England and Wales, broken down by police force area in each year since 1997; and how many of these civilians have been employed in a post formerly occupied by a uniformed officer. [176057]

Mr. McNulty: Figures for number of police staff (formerly known as civilians) as at 31 March by police force area have been published each year since 1998 in the Home Office Statistical Bulletins "Police Service Strength, England and Wales". They are accessible online at:

www.homeoffice.gov.uk/rds/pubsstatistical.html

The following tables contain, for each bulletin from 1998 to 2007, references to the table and page numbers containing these data, together with the actual figures for 1997.

The Home Office does not collect figures on the number of police staff employed in posts formerly occupied by police officers.

Table A: Actual data, 1997, number of police staff in England and Wales by police force area, 1997 to 2007

	Police staff (FTE)[1]

Police: Olympic Games 2012

Kate Hoey: To ask the Secretary of State for the Home Department (1) whether police will be taken away from their normal duties to police the procession of the Olympic Torch through London on 6 April; [197369]

(2) what estimate she has made of the likely cost of policing the procession of the Olympic Torch through London on 6 April; [197370]

(3) what steps are being taken to allow peaceful protests during the procession of the Olympic Torch through London on 6 April. [197374]

Mr. McNulty: The role of the police in policing processions and demonstrations is to preserve the peace, to uphold the law, facilitate lawful protest and to prevent the commission of offences. Police tactics and decisions to achieve these objectives are a matter for the independent operational judgement of chief officers of police.

The Metropolitan Police Service had an appropriate operational plan in place to police the Olympic torch relay. The Metropolitan Police anticipated that some officers would be abstracted from their core roles. The costs of the operation will not be finalised until after the event. These costs will be reported to the Metropolitan Police Authority in line with any other large-scale policing operation.

Police: Parish Councils

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers are funded *(a)* in full and *(b)* in part by parish councils. [198576]

Mr. McNulty: Police officers are funded by a combination of Government grant and council tax. We do not collect data on how many police officer posts are funded by parish councils or any other local authority.

Police: Per Capita Costs

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average cost of employing a fully-trained *(a)* police constable and *(b)* police community support officer was in the most recent year for which figures are available. [198489]

Mr. McNulty: It has been estimated that the average pay and pay related cost of employing a full time police officer (of rank sergeant or below) in 2006-07 was approximately £45,830, and the average pay and pay related cost of employing a full time police community support officer in 2006-07 was approximately £26,426.

The cost of training and non-pay related costs such as premises, supplies and transport are not included in this estimate.

Police: Photography

Mr. Goodwill: To ask the Secretary of State for the Home Department what her Department's policy is on *(a)* members of the public and *(b)* press photographers taking photographs of police officers in public places. [197887]

Mr. McNulty *[holding answer 31 March 2008]:* There is no Home Office policy on members of the public or press photographers taking photographs of police officers in public places.

Police: Road Traffic Control

Mr. Ruffley: To ask the Secretary of State for the Home Department how many roadside checks of *(a)* speed, *(b)* use of seat belts and child restraints, *(c)* vehicle safety and roadworthiness and *(d)* influence of alcohol or drugs were carried out by each police force during each of the last 12 months. [198479]

Mr. Coaker: The information requested on roadside checks is not collected centrally. The conducting of roadside checks to deal with traffic offences is an operational matter for individual chief officers of police.

Police: Rural Areas

Mr. Ruffley: To ask the Secretary of State for the Home Department what her policy is on the use of mobile police units in policing rural areas; and if she will make a statement. [198593]

Mr. McNulty: The use of mobile police units is a matter for each police authority and the chief officer, who are responsible for assessing local needs.

Police: Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department how many days sickness after an assault were taken by police officers in each police force in England and Wales in each year since 1997; and what the *(a)* average number of days lost per police officer following an assault and *(b)* cost was to each force in each of those years. [195614]

Mr. McNulty: The data provided here are a supplementary series collected on behalf and released with the approval of Her Majesty's Inspectorate of Constabulary (HMIC). These data are normally used for inspection purposes only.

It is therefore important to note that these provisional data have not undergone the usual data quality assurance practices (including validation with individual police forces) and are therefore supplied for information purposes only.

The requested data have been collected since 2002-03 and are given in the following table.

(a); (b) The requested information are not collected centrally within the police personnel statistics series.

Number of police officer working days lost due to assaults[1] from 2002-03 to 2006-07

[1] Provisional data taken from a supplementary series collected on behalf of HMIC and used for inspection purposes only. Data has not undergone usual quality assurance practices (including validation with individual police forces) and are therefore supplied for information purposes only.
n/a - data not available. Force was not able to supply data at the time of collection.

Mr. Ruffley: To ask the Secretary of State for the Home Department what rates of sick leave were reported in each police force in each year since 1997. [198580]

Mr. McNulty: I refer the hon. Member to the reply I gave him on 1 April 2008, *Official Report*, column 773W.

Police: Vacancies

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officer vacancies of all ranks there were in *(a)* the Metropolitan police force and *(b)* all other constabularies in each year since 1997. [198581]

Mr. McNulty: I refer the hon. Member to the reply I gave him on 31 March 2008, *Official Report*, columns 615-16W.

Police: Vetting

Mr. Ruffley: To ask the Secretary of State for the Home Department what the average time taken by each police force was to respond to inquiries from the Criminal Records Bureau (CRB) as part of routine CRB checks in the last year for which figures are available. [198504]

Meg Hillier: I refer the hon. Member to my written answer of 30 January 2008, *Official Report*, column 386W.

Pornography: Internet

Mr. Ruffley: To ask the Secretary of State for the Home Department how many pornographic images of children were removed from the internet following investigations by *(a)* police and *(b)* her Department's agencies in each year since 2000. [198470]

Mr. Coaker: There are no figures held by the Home Office for either categories mentioned.

Websites containing child abuse images are usually removed from the internet by the Internet Watch Foundation (IWF).

The IWF, a self-regulatory organisation funded by the internet industry and the EU operates the UK's 'notice and take-down' service for child sexual abuse content on the internet. They do not count individual images that are removed, rather they focus their efforts on removing web pages or websites which contain or provide access to one, tens, hundreds or possibly thousands of individual child sexual abuse images. On the rare occasion content depicting child sexual abuse is traced to servers in the UK, a takedown request is issued by the IWF and the content is removed, usually within a matter of hours.

This partnership approach has proved very successful and UK hosted child sexual abuse content known to the IWF has been less than 1 per cent. since 2003, down from 18 per cent. in 1997. In addition, the IWF provides a list of newsgroups which feature, advertise or advocate child sexual abuse to all UK service providers who voluntarily block large numbers which, in turn, denies access to thousands of such images. Search providers are provided with a list of keywords so that they can manage the quality of their returns and remove potentially illegal websites known to the IWF.

This work is about removing content, complicating access, protecting internet users from inadvertent exposure and making the operations of those behind the websites more difficult. Details of each website confirmed to contain child sexual abuse is also passed to UK law enforcement for appropriate investigation. As over 99 per cent. of online child sexual abuse content is now hosted abroad, the IWF works in partnership with the relevant hotline and other authorities around the world, passing on intelligence relating to content in that country. It also provides a dynamic list of child sexual abuse URLs hosted abroad to the online industry to enable them to protect users by blocking inadvertent access to such content.

Racially Aggravated Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many racially-motivated crimes were committed in each police force area in each of the last five years. [198464]

Mr. Coaker: The information requested is given in the following table.

Total racially-aggravated offences[1] recorded by police force area in England and Wales, 2002-03 to 2006-07

Police force area	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Avon and Somerset	900	1,256	1,431	1,326	1,337
Bedfordshire	169	207	266	339	308
Cambridgeshire	410	384	398	322	351

Suffolk	246	297	244	240	329
Surrey	407	482	510	845	588
Sussex	443	552	575	710	991
Thames Valley	948	1,104	1,154	1,128	1,483
Warwickshire	159	187	222	293	375
West Mercia	527	674	609	527	499
West Midlands	2,422	2,479	2,413	3,071	3,338
West Yorkshire	707	1,874	2,140	2,898	2,691
Wiltshire	232	244	220	260	253
British Transport police	402	652	946	1,088	1,188
England and Wales total	31,436	35,674	38,114	42,547	43,730

[1] There are currently seven racially-aggravated offence classifications within the Recorded Crime series. They are as follows: less serious wounding, harassment, assault without injury, criminal damage to a dwelling, criminal damage to a building other that a dwelling, criminal damage to a vehicle, and other criminal damage.

Security: Licensing

Mr. Evennett: To ask the Secretary of State for the Home Department what steps the Security Industry Authority has taken to accelerate the licence application process. [196414]

Mr. Coaker: Steps taken by the SIA to speed up the licence application process include the following:

A number of improvements have been made to simplify and streamline the application process, including:

the introduction of a simplified application form and application system;

an online request system for application forms and distribution of forms to training providers and security companies;

facility for licence application to be made for more than one licensable sector on the same form;

reduced document requirements for some applicants renewing their licences;

improvements to the processing of applications; and

improvements to the online application tracker to provide applicants with more information on the progress of their applications.

Further steps planned:

online application facility;

Direct Debit payment facility for companies (who may apply on behalf of individual employees); and

online UK passport checks.

Steps have also been taken to deal with the immediate workload, including:

At the SIA's Managed Service Provider (MSP) facility:

deployment by the MSP of additional staff from other areas, together with additional specialist equipment;

employment of additional staff and management; and

overtime working at weekends and evenings, and double shifts;

SIA HQ staff have:

prioritised work on older licence applications which suffered delays due to changes to the SIA's processing system in November and December 2007; and

been deployed at the SIA's call centre for temporary periods.

Mr. Evennett: To ask the Secretary of State for the Home Department how many licence applications pending a decision by the Security Industry Authority are over nine weeks old. [196417]

Mr. Coaker: This information is not currently available. I will write to the hon. Member as soon as it is available.

Security: Litter Bins

Mr. Ruffley: To ask the Secretary of State for the Home Department what advice she has issued on the security implications of the provision of litter bins at *(a)* railway stations and *(b)* other public places. [198473]

Mr. McNulty: As part of their work, the Government's Centre for the Protection of National Infrastructure (CPNI) and the police National Counter Terrorism Security Office (NaCTSO) provide advice on appropriate protective security measures for crowded places. This includes advice on minimising the risk from devices placed in litter bins. CPNI's website:

www.cpni.gov.uk

provides advice on a range of basic good security measures, which includes giving consideration to the location, cleaning regime and removal of bins, as well as the use of clear plastic bags.

Further advice is available on the NaCTSO website: www.nactso.gov.uk

CPNI, in conjunction with the Home Office Scientific and Development Branch (HOSDB), has also developed a standard against which the explosion resistance of litter and recycling bins can be tested by manufacturers.

The railway industry is subject to requirements and guidance on the provision of litter bins at railway stations regulated by the Department for Transport. Bins installed are subject to specific security control measures, including their design, location and security management. The Department for Transport has also provided guidance to local authorities on how they can help with railway security when installing street furniture, such as litter bins, in the immediate vicinity of stations.

Sexual Offences

Mrs. Maria Miller: To ask the Secretary of State for the Home Department how many sexual offences prevention orders have been issued in respect of those convicted of sexual offences overseas in the last three years. [197427]

Mr. Coaker: Data on the number of Sexual Offence Prevention Orders issued to those convicted of sexual offences overseas are not collected centrally.

Mrs. Maria Miller: To ask the Secretary of State for the Home Department how many people convicted of a sexual offence overseas were included on the Sex Offenders Register at the latest date for which figures are available. [197430]

Mr. Coaker: Data on the number of offenders subject to the notification requirements who were convicted overseas are not collected centrally. Data on the number of notification orders granted by magistrates courts are collated by the Ministry of Justice from MAPPA annual reports. Notification orders are applied for by the police and granted by magistrates courts. They require sexual offenders convicted overseas of an offence equivalent to a relevant offence in the UK to become subject to the notification requirements of the Sexual Offences Act 2003. Notification orders were introduced by the Sexual Offences Act 2003, which came into force on 1 May 2004. Figures for the number of notification orders granted are provided in the following table.

	Number of notification orders granted
2004-05	22
2005-06	37
2006-07	62

Sexual Offences Act 2003

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Sexual Offences Act 2003 in each year since its entry into force, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196017]

Mr. Coaker: The information is not available in the form requested.

Table 1 gives the number of offences recorded for the offence classifications which came into force with the introduction of the Sexual Offences Act 2003. It also gives the number of offences detected by means of a sanction detection. Table 2 shows the numbers of defendants proceeded against and found guilty at all courts for the years 2004 to 2006, and is taken from the court proceedings database held by the Office for Criminal Justice Reform. Figures for crimes and sanction detections in 2004-05 and those proceeded against and found guilty in 2004 are not for complete 12 month periods, as the Sexual Offence Act 2003 was enacted in May 2004.

The figures given in Table 2 relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Recorded crime and court proceedings statistics are from two different databases and recorded in quite different ways. Recorded crime data are provided on a financial year basis and counts offences whereas court proceedings data are on a calendar year basis and count offenders. Therefore, these two separate data-sets are not directly comparable.

Table 1 Offences recorded under the Sexual Offences Act 2003 and detected by means of a sanction detection

	2004-05		*2005-06*		*2006-07*	
Offence	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*
Sexual assault on a male aged 13 and over	1,316	297	1,408	370	1,450	397
Sexual assault on a male child under 13	1,227	291	1,394	456	1,237	441
Rape of a female aged 16 and over	8,192	1,578	8,725	1,843	8,228	1,744
Rape of a female child under 16	3,014	868	3,153	932	2,853	805
Rape of a female child under 13	970	276	1,388	496	1,524	553
Rape of a male aged 16 and over	444	46	438	70	413	58

Table 1 Offences recorded under the Sexual Offences Act 2003 and detected by means of a sanction detection

	2004-05		2005-06		2006-07	
Offence	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*	*Number of offences*	*Number of sanction detections*
Rape of a male child under 16	322	99	292	116	261	83
Rape of a male child under 13	297	94	364	129	458	148
Sexual assault on a female aged 13 and over	15,087	2,967	17,158	4,413	16,887	4,355
Sexual assault on a female child under 13	4,391	1,151	4,647	1,632	4,249	1,494
Sexual activity involving child under 13	1,510	405	1,950	629	1,937	636
Sexual activity involving child under 16	2,546	696	3,283	1,124	3,210	1,058
Causing sexual activity without consent [1]	239	57	744	596	224	58
Incest or familial sexual offences	713	178	966	330	1,344	406
Sexual activity etc. with a person with a mental disorder	104	11	139	29	163	43
Abuse of children through prostitution and pornography	99	28	124	84	101	51
Trafficking for sexual exploitation	21	8	33	23	43	22
Abuse of position of trust of a sexual nature	682	562	463	385	361	265
Sexual grooming	186	49	237	101	322	125
Other miscellaneous sexual offences	11,593	2,217	11,363	2,769	10,212	2,652

[1] The increase in 2005-06 was accounted for by a large number of offences that were dealt with by the Norfolk Constabulary.

Table 2 Number of defendants proceeded against at magistrates' courts and found guilty at all courts for offences under the Sexual Offences Act 2003, England and Wales 2004-06[1] [2] [3]

	2004		2005		2006	
Offence	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*

Rape of a male aged 16 and over	56	12	54	16	61	20
Rape of a male child under 16	94	35	83	38	66	21
Rape of a male child under 13	23	2	56	14	68	34
Sexual assault on a female aged 13 and over	699	176	2,200	944	2,356	1,123
Sexual assault on a female child under 13	162	41	495	212	531	315
Sexual activity involving child under 13	97	30	304	123	293	181
Sexual activity involving child under 16	182	74	676	456	697	644
Causing sexual activity without consent	27	4	61	13	38	16
Incest or familial sexual offences	32	11	109	58	116	82
Sexual activity etc. with a person with a mental disorder	21	1	34	18	29	15
Abuse of children through prostitution and pornography	18	2	35	8	29	17
Trafficking for sexual exploitation	5	0	26	12	40	15
Abuse of position of trust of a sexual nature	472	401	152	132	71	66
Sexual grooming	9	3	28	25	43	36
Other miscellaneous sexual offences	774	433	1,078	656	1,108	725

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column can often exceed the number proceeded against when a conviction takes place in a different month to when the proceeding was originally bought, or for a different offence.

Speed Limits: Fines

Mr. Ruffley: To ask the Secretary of State for the Home Department what the revenue from speeding fines was in each of the last seven years, broken down by police area. [198476]

Mr. Coaker: Information on revenue from speeding fines is not collected centrally.

Stop and Search

Mr. Ruffley: To ask the Secretary of State for the Home Department what guidance her Department has given to police officers on selecting people to be stopped and searched under the Terrorism Act 2000. [195694]

Mr. McNulty: In 2002-03, the Central Police Training and Development Authority (later subsumed into the National Policing Improvement Agency (NPIA)), developed a training package for all police forces on stop-and-search powers in accordance with the Police and Criminal Evidence Act 1984 code of practice, itself updated in 2003. NPIA has continued to upgrade the programme and supporting materials in light of lessons learnt. Among the areas covered in the training package are the powers to stop and search under the Terrorism Act 2000.

In 2006, NPIA and the Association of Chief Police Officers produced "Practice Advice on Stop and Search", which incorporates advice on stop-and-search procedures, as well as a bespoke piece of guidance issued in September 2007 on section 44 anti-terrorism stops and searches.

Terrorism

Mr. Soames: To ask the Secretary of State for the Home Department how many of those charged with terrorist offences since September 2001 are known to have previously sought asylum. [197975]

Mr. Byrne *[holding answer 31 March 2008]:* BIA do not hold information in the format requested. Combined statistics on the numbers charged with terrorist offences who have previously claimed asylum are not routinely kept by either BIA or the Metropolitan police.

The information requested can be provided only at disproportionate cost by examining individual case records.

Terrorism: Detainees

Mr. Ancram: To ask the Secretary of State for the Home Department how many persons arrested on suspicion of terrorist offences since May 2005 have been held in pre-charge detention longer than *(a)* 14 days, *(b)* 21 days and *(c)* 26 days. [198548]

Mr. McNulty *[holding answer 3 April 2008]:* The maximum period of detention pre-charge was extended from 14 days to 28 days, with effect from 25 July 2006. To date, 11 individuals have been held for over 14 days pre-charge. The figures are broken down in the following table.

Pre-charge detention table

Period of detention	*Number of persons held*	*Charged*	*Released w/o charge*
14-15 days	1	1	
18-19 days	1	1	
19-20 days	3	3	
27-28 days	6	3	3

Notes:
1. The maximum period of detention pre-charge was extended to 14 days with effect from 20 January 2004.
2. 28 days came into force 25 July 2006. The table cover the figures to date.

Mr. Ancram: To ask the Secretary of State for the Home Department how many potential prosecutions of terrorist suspects have been unable to proceed because of the expiry of the 28 day limit on detaining suspects without charge since the entry into force of that limit. [198549]

Mr. McNulty *[holding answer 3 April 2008]:* There has been no case to date where we have been unable to prosecute a terrorist suspect because of the 28 day pre-charge detention limit.

Mr. Amess: To ask the Secretary of State for the Home Department what recent representations she has received on pre-charge detention; what discussions she has had with hon. Members on the matter in each of the last six months; and if she will make a statement. [198749]

Mr. McNulty: We undertook an extensive five month public consultation on the Counter-Terrorism Bill, including our proposal on pre-charge detention, during which we met representatives from the police, judiciary, civil liberties organisations and community groups and received a number of written representations. The results of the consultation were published on 6 December 2007 and copies are available in the Library. Since the end of the consultation, we have continued to discuss the Counter-Terrorism Bill with interested parties. The Department has also been sent briefing material from a number of organisations, including Liberty, Justice, the Equality and Human Rights Commission and the Law Society of Scotland.

A number of discussions have taken place with hon. Members on the Counter-Terrorism Bill, including with Members of the Opposition parties.

Violent and Sex Offender Register: Disclosure of Information

Mr. Hoban: To ask the Secretary of State for the Home Department pursuant to the Written Ministerial Statement of 18 February 2008, *Official Report*, columns 2-4WS, on tackling violence, how she will ensure that members of the public to whom child sex offenders' convictions are disclosed do not pass that information on to others; whether such people will be allowed to pass the information on to *(a)* other family members and *(b)* other categories of people; what (i) documentary and (ii) other evidence people will be required to provide to be entitled to receive information on convictions; when the scheme will come into effect; what restrictions there will be on disclosure of information; what guidance she will provide to police on disclosure of information; and what convictions will be disclosable. [196643]

Mr. Coaker: The Review of the Protection of Children from Sex Offenders, referred to in the ministerial statement, included two actions relating to the disclosure of information on child sex offenders' convictions to the public. Implementation of Action 3 of the review will introduce a legal duty on MAPPA responsible authorities to consider the disclosure of information about convicted child sex offenders to members of the public. Under Action 4 a separate process will be piloted whereby members of the public will be able to register their child protection interest in a named individual and receive information on any convictions for child sex offences that individual may have, where appropriate.

The Criminal Justice and Immigration Bill will amend the Criminal Justice Act 2003 to impose a duty on MAPPA responsible authorities to consider disclosure of a child sex offender's convictions to members of the public. The convictions that the MAPPA authorities must consider disclosing are set out at schedule 24 to the Bill. However, under their common law powers, the police are able to disclose details of other convictions in appropriate circumstances (see R *v.* Chief Constable of North Wales ex parte Thorpe (1998) 3 All ER 310). The extent of the information disclosed will be decided on a case by case basis.

The MAPPA authorities will decide who, if anyone, should be provided with the information, and will be able to impose conditions, in order to prevent further dissemination of the information. Under the Bill, the MAPPA authorities will have discretion as to the extent of the conditions that they impose. When imposing such conditions, the MAPPA authorities will need to be mindful of their obligations under the Human Rights Act 1998 and what is necessary and proportionate to prevent harm to the child or children concerned.

Existing statutory MAPPA guidance will be updated to take account of the new statutory duty to consider disclosure.

In deciding whether to disclose details of convictions for child sex offences to a member of the public under the pilot scheme, MAPPA meetings will consider the risk of the recipient disclosing this information to others. Before a disclosure is made, the intended recipient will be required to sign a declaration that they will not share this information with others.

Applicants for disclosure under the pilot scheme will be asked to provide documentary proof such as the child's birth certificate to demonstrate their relationship with the child with respect to whom they are declaring a child protection interest.

The Government will ensure that the police are issued with comprehensive guidance on all stages of the pilot process, and are currently working with the four force areas participating in the pilot to develop the disclosure process.

The extent of information disclosed under the pilot process will be considered on a case by cases basis by the MAPPA authorities.

It is intended that the statutory duty will come into force following Royal Assent being given to the Criminal Justice and Immigration Bill, by means of a Commencement Order. It is intended that the pilots will commence this summer.

Wildlife: Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department how many successful wildlife protection prosecutions were launched in the last year for which figures are available, broken down by police authority area. [198454]

Mr. Coaker: The number of defendants proceeded against at magistrates' courts and found guilty at all courts for offences under the Wildlife and Countryside Act 1981, Protection of Badgers Act 1992, Deer Act 1991, Control of Trade in Endangered Species (Enforcement) Regulation 1997, and the Conservation of Seals Act 1970, by Police Force Area, in England and Wales for the year 2006 can be viewed in the following table.

Court proceedings data for 2007 will be available in the autumn of 2008.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

The number of defendants proceeded against at magistrates' courts and found guilty at all courts for certain wildlife protection offences, by Police Force Area in England and Wales for the year 2006[1]

Written Questions: Government Reponses

Mr. Harper: To ask the Secretary of State for the Home Department when she expects to answer Question 174965 tabled on 12 December 2007. [196977]

Mr. McNulty: I replied to the hon. Member on 31 March 2008, *Official Report*, column 606W.

Mr. Harper: To ask the Secretary of State for the Home Department when she expects to answer Question *(a)* 162615, *(b)* 162124 and *(c)* 162271, tabled on 6 November 2007. [196978]

Mr. McNulty: I replied to the hon. Member *(a)* on 1 April 2008, *Official Report*, column 756W, and *(b)* and *(c)* on 25 March 2008, *Official Report*, column 73W.

Jenny Willott: To ask the Secretary of State for the Home Department when she will answer question 182636 on the national DNA database, tabled on 24 January 2008 by the hon. Member for Cardiff Central; and if she will make a statement. [192956]

Meg Hillier: The question was answered on 3 April 2008, *Official Report*, column 1318W.

Young Offenders

Mr. Ruffley: To ask the Secretary of State for the Home Department how many pupils permanently excluded from school committed a criminal offence in each police authority area in each of the last 10 years; and what the detection rate was for crimes committed by young offenders who *(a)* were and *(b)* were not permanently excluded from school in each such area in each of those years. [199331]

Mr. Coaker: The requested information is not collected centrally.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Joan Walley: To ask the Secretary of State for Children, Schools and Families what his policy is on the merits of academies for 11 to 16 year olds only. [198465]

Jim Knight: Our policy is to strongly encourage all academies to offer post-16 places because we recognise the positive impact of such provision on standards and aspirations for 11 to 16-year-olds. However, exceptionally, where the quantity and quality of local post-16 provision is very good we have agreed to the establishment of 11 to 16 academies.

Building Schools for the Future Programme: Energy Conservation

Mr. Dai Davies: To ask the Secretary of State for Children, Schools and Families what guidelines he has issued on the use of *(a)* insulation standards and *(b)* microgeneration technologies in (i) new and (ii) refurbished schools buildings under the new Schools Building Programme. [199258]

Jim Knight: All new and refurbished school buildings must comply with the insulation standards laid down in the Approved Document Part L2 in support of the building regulations. We have issued comprehensive guidance on how to apply low and zero carbon technologies, including microgeneration, to our school building programmes on our website:

www.teachernet.gov.uk/carbontargets

Building Schools for the Future Programme: West Sussex

Mr. Soames: To ask the Secretary of State for Children, Schools and Families when West Sussex will have access to the Building Schools for the Future funding stream. [198761]

Jim Knight *[holding answer 3 April 2008]*: Building Schools for the Future aims to renew all secondary school in England where there is need in 15 waves of investment which started in 2005-06. In early 2005, we announced the national programme for Building Schools for the Future, based on the expressions of interest for inclusion in the programme which authorities proposed. Expressions of interest include how authorities group their schools into geographically coherent projects. These projects were prioritised on the average social and educational need of the schools in them. Information on the national programme is available in the Parliamentary libraries. West Sussex proposed three projects, which are prioritised in waves 10 to 15. Later this year, when we have consulted on management of the later waves of the programme, we will invite authorities to revise their expressions of interest if they wish.

Children in Care: Missing Persons

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government plan to take to address trends in the number of children going missing while in care. [199410]

Beverley Hughes: In 2002 the Government published 'Children Missing from care and from home—a guide to good practice'. This guidance was issued along with Circular LAC (2002)17 under section 7 of the Local Authority Social Services Act 1970, requiring local authorities to comply with it. The guidance sets out how local authorities and their partner agencies are expected to respond when young people go missing from their care placements. It includes information about measures that local authorities should put in place to prevent children from going missing as well as on reporting incidents. One of its requirements is that each local authority must appoint a designated senior manager to be responsible for monitoring "missing from care" incidents and identify any trends and to instigate any action necessary to respond to children's needs ensuring that they are properly safeguarded.

On 26 March we published 'Care Matters: Time to deliver for children in care'. This sets out our intention to update and re-issue guidance to the Children Act 1989 and subsequent legislation. As part of this process we will be reviewing our 2002 guidance. This will provide us with the opportunity to consider whether in future we should include more information about how local authorities carry out their responsibilities to monitor any patterns and trends relating to children going missing from their care placements.

Children: Abuse

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many times reasonable chastisement has been used as a defence in court cases involving violence against children in each of the last 10 years. [186807]

Kevin Brennan: This information has not been collected centrally and is therefore not available for each of the last 10 years as requested. However, since July 2007 the Crown Prosecution Service area offices have been notifying the Crown Prosecution Service's Policy Directorate of any cases in which the reasonable punishment defence has been used. To date no such cases have been notified.

Children: Day Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number and proportion of managers of day care settings who were male in (*a*) Basingstoke, (*b*) Hampshire and (*c*) England in each year since 1997. [197431]

Beverley Hughes: Data are not available on the sex of managers of full day care.

The 2006 Childcare and Early Years Providers Survey estimated that the average proportion of male staff working in full day care settings in England was 2 per cent. In total, there were 2,500 male staff working in full day care settings in England.

The average proportion of male staff working in full day care settings in England for each year available is shown in the following table:

Male staff working in full day care settings in England

	Average proportion of male staff per setting (percentage)	Total number of male staff
2001	2	1,900
2003	2	2,000
2005	2	2,500
2006	2	2,500

Data are not available at local authority level.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average number of hours worked per week by (*a*) childcarers in maintained settings, (*b*) childcarers in private, voluntary and independent nurseries and (*c*) childminders in each year since 1997. [199873]

Beverley Hughes: The Childcare and Early Years Providers Survey estimated that staff working in full day care in children's centres worked an average (mean) of 34 hours a week in 2006, compared with an average of 17 hours a week for staff in sessional settings. Data for all childcare and early years providers for each year available are shown in the following table.

Average number of hours worked per week by staff in child care and early years provision in maintained schools

	2001	2005	2006
Full day care	35	32	33
Full day care in children's centres	n/a	n/a	34
Sessional	17	18	17
After school clubs	19	n/a	19
Holiday clubs	31.5	n/a	27
Nursery schools	32.5	n/a	32
Primary schools with nursery and reception classes	33	n/a	31
Primary schools with reception but no nursery classes	28	n/a	30

Notes:
1. Children's centres were included in the survey for the first time in 2006; therefore data is not available for previous years.
2. After school and holiday clubs were sampled differently in 2005 and comparable figures for this year are not available.
3. Early years settings in maintained schools were not included in the 2005 survey.

In 2006 full day care staff in privately owned settings worked an average of 35 hours a week, compared with 26 hours for full day care staff in settings under voluntary ownership. 2006 data for all child care providers available are shown in the following table.

Average number of hours worked per week by staff in child care providers, by ownership of setting, 2006

	Private	Voluntary	Local authority	School/college	Other
Full day care	35	26	32	33	35
Full day care in children's centres	35	34	34	34	35
Sessional	17	16	20	25	15
Out of school care	26	20	25	19	27

Note:
Data for other providers are not available by type of ownership.

The 2006 Childcare and Early Years Providers Survey estimated that childminders looked after children for an average of 16 hours a week in term time, and for 23 hours a week in school holidays. Data for each year available are shown in the following table.

Average number of home childminders looked after children

	Term time	School holidays
2005	47	25
2006	16	23

Note:
The wording in the childminders survey was changed in 2005, therefore comparable data for previous years is not available.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of (*a*) private, voluntary and independent nurseries and (*b*) childminders received funding from local authorities to deliver the free entitlement in each local authority area in each of the last five years. [199875]

Beverley Hughes: The available information is shown in the table.

The table provides information about the number of private, voluntary and independent providers delivering a free early education to three and four-year-olds in England. Data is provided for 2004 to 2007 only because data for 2003 is not available.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 19/2007 "Provision for children under five years of age in England: January 2007", available on my Department's website

www.dcsf.gov.uk/rsgateway/

Early Years Census

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what guidance his Department gives local authorities to promote the childcare sustainability grant to childcare providers. [199876]

Beverley Hughes: The Department's statutory guidance, "Securing Sufficient Childcare", which was distributed to local authorities in summer 2007, contains examples of circumstances in which they should consider providing financial support from the Sure Start, Early Years and Childcare Grant for childcare providers. While it is for local authorities to decide their own priorities for funding providers, and how they publicise the availability of funding, the guidance makes clear the need to demonstrate "transparency and fairness".

Local authorities are told that they

"shou'd ensure that appropriate criteria are in place for deciding which providers should receive support, and that funding systems treat providers in all sectors of the market equitably".

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families, how much his Department allocates to each local authority for the childcare sustainability grant; and what indicators are used to assess how much each local authority should receive in respect of the grant. [199897]

Beverley Hughes: In the 2006-08 period, funding for this activity was included as part of Sure Start, Early Years and Childcare Grant which covered not only child care sustainability but support for early years outcomes, quality and inclusion. A number of different factors were used to determine the allocations, including numbers of children, deprivation measures, Ofsted registered stock figures, and rurality measures. In addition, for the 2008-11 period, an inflationary uplift was added to this

wider allocation block above and the resulting funding was split equally between child care sufficiency and access and early years outcomes, quality and inclusion. These funding streams sit within the wider revenue block of the Sure Start, Early Years and Childcare Grant and the overall allocations were smoothed to ensure that each authority received a minimum increase of 5 per cent.

The 2008-09 allocations, by authority, are shown in the following table.

Sure Start, Early Years and Childcare Grant: Childcare Sufficiency and Access Funding, 2008-09

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what criteria providers must fulfil to gain access to funding from the local authority child care sustainability grant; and how much from the grant has been allocated to *(a)* maintained child care settings and *(b)* private, voluntary and independent child care providers in each local authority since its inception. [199898]

Beverley Hughes: The Memorandum of Grant which sets out the funding and payment arrangements for the Sure Start, early years and child care grant makes it clear to local authorities that a key objective of the grant is to support child care sufficiency and access, and contains brief guidance on activities that the funding is intended to help.

Local authorities have considerable discretion in choosing which child care providers to help in the light of local circumstances, and the "Securing Sufficient Childcare" statutory guidance contains some specific examples of situations in which they should consider making financial support available to providers.

The Department does not collect information on the allocations of funding from local authorities to individual child care providers within their areas.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what the average level of funding given by each local authority to *(a)* private, voluntary and independent nurseries, *(b)* maintained childcare settings and *(c)* childminders in order to provide 2.5 hours of childcare a day was in each of the last five years. [200067]

Beverley Hughes: Funding for nursery education provision is provided for local authorities through the Dedicated Schools Grant (DSG). Local authorities—in consultation with their School Forums—are responsible for determining the level of funding for early years providers in all sectors delivering the free early education entitlement.

The Department published local authorities' estimates of the average per pupil amount allocated by local authorities to maintained providers and to private, voluntary and independent sector providers for delivery of the free entitlement early years provision in August 2007. The Free Entitlement to Early Years Provision Table for 2007-08 can be found on the DCSF website at

http://www.dfes.gov.uk/localauthorities/section52/subPage.cfm?action=section52.default&ID=87

Children: Injuries

Frank Dobson: To ask the Secretary of State for Children, Schools and Families if he will take steps to establish inter-agency co-operation on a common system for child injury *(a)* surveillance and *(b)* data capture and storage; and if he will make a statement. [193921]

Kevin Brennan: The Department has worked across Government to co-ordinate the cross-Government Staying Safe Action Plan which was published on 5 February 2008. The report can be downloaded from www.ecm.gov.uk/stayingsafe and a copy is available in the House Library. Delivery of the action plan will be underpinned by the new Public Service Agreement to improve children and young people's safety, which includes an indicator measuring emergency hospital admissions caused by unintentional and deliberate injuries to children aged up to 18 years. The same indicator is included in the new National Indicator Set for Local Government, so data will also be collected at local level. This indicator will help us to assess the extent of accidental injuries to children and young people. In the Staying Safe: Action Plan, we set out new a commitment to carry out a priority review of local area accident prevention, which will make a number of recommendations about how accident prevention work might be improved. I will ensure that both other Departments and external stakeholders are involved in this review.

Children: Mental Health

Margaret Moran: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of implementation of section 120 of

the Adoption and Children Act 2002 on the care and supervision of children who have suffered impairment as a result of witnessing domestic violence. [188951]

Kevin Brennan: For private law child proceedings when parents come to court for an order to determine the child's primary residence or the frequency of contact with a non-resident parent, the Ministry of Justice (MoJ) introduced a new process in 2005. This means that when making an application for a child contact/residence order, allegations of domestic violence are expected to be raised at the point of the application. Courts are now required to consider whether any incidents of domestic violence—not just from direct violence but also witnessing violence—have had an adverse impact on the child, or might affect the child in the future.

An evaluation of this new system was commissioned by the MOJ. The report, 'Domestic Violence and the Supplemental Information Form C1A: evaluation of the use and effects of the introduction of the form into the Family Courts' was published on 11 December 2007 [MoJ 17/07]. It confirmed that the new arrangements are providing an improved mechanism that enables domestic violence and associated harm to parents and children to be recognised at an early point in proceedings.

In public law child proceedings where local authorities apply for care or supervision orders, domestic violence concerns are a feature of about 50 per cent. of cases, though there is usually a range of other concerns, such as child abuse and alcohol or substance misuse.

Children: Video Games

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government plan to take to protect children from unsuitable and offensive computer games. [198542]

Mr. Satcliffe *[holding answer 3 April 2008]:* I have been asked to reply

Children are already protected from unsuitable material in computer games by classification systems. Material which is grossly violent or sexual must be classified by the British Board of Film Classification, and it is an offence to supply it to someone who does not meet the age requirement.

Additionally, as part of her review on harmful internet content and games Dr. Tanya Byron has made some recommendations on measures that strengthen these arrangements. She proposes lowering the statutory requirement to classify video games to 12+, so that it is the same as film classification and easier for parents to understand; issuing clear and consistent guidance for industry on how games should be advertised and challenging industry to provide sustained and high profile efforts to increase parents' understanding of age ratings and improved parental controls.

Dr. Byron is clear that before any changes are implemented, there is a need for a consultation exercise on what exactly the changes should be. Government are committed to that public consultation, and there will be a chance for everyone to contribute once the consultation is under way.

Citizenship: Curriculum

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families what percentage of schools were judged by Ofsted to have adequate citizenship teaching in each year from 2003 to 2007. [197560]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector Christine Gilbert has written to the hon. Member, and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 2 April 2008:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Between 2002 and 2005 in secondary schools and between 2003 and 2005 in primary schools, inspectors made an overall judgement about the quality of teaching in citizenship. These judgements were made using a seven point scale: excellent, very good, good, satisfactory, unsatisfactory, poor and very poor. The information is presented in the table attached.

From September 2005, Ofsted stopped specific subject reporting in Section 5 school inspections. Since then, Ofsted has inspected citizenship in a sample of schools. In the lessons observed that were mainly focused on citizenship objectives, teaching was generally good. Often, however, this was because of the good generic skills of teachers and there were weaknesses in specialist aspects of teaching such as dealing with topical and controversial issues. In some schools, the benefits of specialist training were apparent in the quality of the teaching. In approaching one in five of the schools, teaching was unsatisfactory, with weak subject knowledge evident. Important aspects of teaching citizenship, such as discussion, were limited. Sometimes teachers made links from other subjects to citizenship that were insubstantial and failed to add up to a sensible curriculum overall. In some of the schools where teaching was weaker, this was because it was taught by large non-specialist teams; and in some of these schools a decision had been made to move to greater specialism.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Table 1: Quality of teaching of citizenship in primary and secondary schools, percentage of schools

Commonwealth Youth Ministerial Meeting

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what ministerial presence there will be at the Commonwealth Youth Ministerial meeting in Sri Lanka. [200193]

Beverley Hughes: No UK Minister is able to attend the Commonwealth Youth Ministers' Conference in Sri Lanka this month. The UK delegation will be headed by Gordon Blakely, Director, Youth, British Council.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families which of his Department's initiatives and those of its predecessor were advertised to the public in each of the last 10 years; and what the cost of each such campaign was in each year. [192232]

Kevin Brennan: Promotional campaigns, including those using advertising, are funded from the Department's central Advertising and Publicity Budget and from individual programme budgets held by policy directorates.

Government policies and programmes affect the lives of millions of people and in order for them to work they must be communicated effectively. But that also has to be done with cost efficiency in mind and there are strict rules to ensure value for money on Government advertising.

Spend on advertising on departmental initiatives since 2002/03 financial year is set out in the following tables. It is not possible to provide information prior to 2002 except at disproportionate cost.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how much was claimed in reimbursable expenses by Senior Civil Service staff in his Department and its agencies in the last 12-month period for which figures are available. [187533]

Kevin Brennan: Travel and subsistence (reimbursable expenses) are claimed and authorised online via the Department's Integrated Financial Information System and are recorded under the general heading of subsistence. To extract the financial data requested would involve disproportionate cost.

All expenditure is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Government Accounting". All travel undertaken by DCSF civil servants is undertaken in accordance with the requirements of the Civil Service Management Code. The Department does not have any Executive Agencies.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the hourly rates of pay of all non-permanent staff working for his Department were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196460]

Kevin Brennan: The Department was established on 28 June 2007. The average hourly rate paid by my Department to employment agencies for agency staff in the financial year 2007-08 is set out as follows.

£

Average hourly charge rate

Grade	*Adecco*	*Hays*	*Reed*
AA[1]	8.65		
AO[1]	10.64

Departmental Pensions

David Simpson: To ask the Secretary of State for Children, Schools and Families how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193551]

Kevin Brennan: In February 2007, there were 33 members of staff making additional voluntary pension contributions through deductions from their pay, representing 0.9 per cent. of the total number of staff employed by the Department.

In February 2008, the number of staff making additional voluntary pension contributions through deductions from their pay was reduced to 22 people, representing 0.8 per cent. of total number of staff employed by the Department.

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Children, Schools and Families whether his Department is working towards an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [198044]

Kevin Brennan: The Department is working towards an ISO 14001:2004 accredited environmental system for all its headquarters buildings.

Departmental Video-Conferencing

Norman Baker: To ask the Secretary of State for Children, Schools and Families if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195895]

Kevin Brennan: We have no target to increase the use of video-conferencing by this Department to reduce the need to travel to meetings, but actively encourage staff to use video links for meetings involving staff from different sites rather than travel to a central point.

Education: Devon

Mr. Swire: To ask the Secretary of State for Children, Schools and Families how much he has allocated to *(a)* expand facilities for 16 to 19 year-old learners and *(b)* deliver learning and skills for adults in East Devon to meet his targets in each case. [196398]

Bill Rammell: I have been asked to reply.

The 2008-09 Grant Letter to the Learning and Skills Council sets out a record level of investment for post-16 education and training over the next three years, with some £11.5 billion in 2008-09, rising to over £12 billion in 2009-10, and over £12.5 billion in 2010-11. This investment includes year-on-year increases in capital funding, and will ensure that we can continue to deliver a significant improvement in participation and attainment across all areas of the country, giving both young people and adults the skills and qualifications they need to succeed.

Decisions about allocations to specific areas are made by the LSC, based on overall learner numbers and strategic discussions with local partners about the range of provision that is needed. The allocations process for 2008/09 is currently under way, and Mark Haysom, the chief executive of the LSC, wrote to the hon. Member setting out the funding allocations for East Devon as soon as they were confirmed. A copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 9 April 2008:

I refer to your recent question to the Secretary of State for Children, Schools and Families to which I was asked to respond setting out the LSC funding allocations for 16-19 learning and to deliver learning and skills for adults in East Devon.

Please find below the allocations in respect of school sixth forms in the East Devon District Council area for the 2006-07, 2007-08 and 2008-09 academic years. The variations in particular allocations are mostly as a result of fluctuating pupil numbers.

LSC funding allocations in East Devon

£

East Devon schools	*2006-07*	*2007-08*	*2008-09*
16 to 18			
Clyst Vale	888,556.00	770,821.00	785,401.00

East Devon College	3,055,000.00	3,149,000.00	2,852,170.00
16 to 18 total	9,184,075.00	9,550,078.00	9,028,247.00
19+			
East Devon College	1,564,000.00	1,497,000.00	[1]
Train to Gain	190,131.00	325,560.00	[2]
19+ total	1,754,131.00	1,822,560.00	[2]
Grand total	10,938,206.00	11,372,638.00	[2]

[1] No allocation yet
[2] Not yet available

As you know, there are complex patterns of 16-18 learner participation in the East Devon Area with many students choosing to access courses at Richard Huish College in Taunton, Exeter College or elsewhere. The designated further education institute for the area is East Devon College in Tiverton and LSC funding information is provided for this College. The 2008-09 academic for funding is provisional at the moment but is a guaranteed minimum and, in reality, is unlikely to change. A proposal is being developed currently for North Devon and East Devon Colleges to merge on 1 August 2008.

The allocations of LSC funding for 19+ learners at East Devon College are also included for the 2006-07 and 2007-08 academic years. The allocation for 2008-09 is not yet finalised and I will write again to notify this during the coming weeks.

I have also included an indication of Train to Gain LSC investment in the East Devon area. A range of training providers operate in the area and respond to employers' needs for training. The figures I have quoted are notional amounts apportioned to the consortium of Exeter, East Devon and Bicton Colleges.

Bicton College, a specialist land based FE provider, is based in the East Devon District Council area. As it draws learners from throughout the South West Region and beyond, LSC financial allocations at this College do not relate easily to investment in learning and skills in the immediate vicinity.

However, I would be pleased to provide details of LSC investment at this College if this would help.

The LSC also invests significantly in the delivery of apprenticeships training but financial details related to specific home postcodes of apprentices are difficult and expensive to produce. However, if this is required for apprentices who live in East Devon District Council postcode areas, it could be produced.

I hope this information meets your requirements but please let me know if more is needed. I shall write again later in the year with details of 19+ funding allocations at East Devon College and for Train to Gain.

Education: Finance

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what discussions he has had with the F40 group on the issue of education funding for local authorities in the last 12 months; and if he will make a statement. [199251]

Jim Knight: No Ministers from this Department have met the F40 group in the last 12 months. Senior officials of the Department attended and spoke at the group's national conference in late March last year and will do so again in May this year, looking at the key issues for the current review of the distribution of school funding from 2011-12. I have had occasional discussions with the hon. Member for Stafford (Mr. Kidney), an office holder with F40, regarding school funding.

General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of schools had less than 30 per cent. of pupils obtaining five A* to C GCSEs including English and mathematics in 2007, broken down by index of multiple deprivation decile. [198658]

Jim Knight: The information requested is set out in the following table.

IMD Decile[1]	Total number of schools[2]	Number of schools with less than 30% 5+A*-C inc English and maths	Percentage of schools with less than 30% 5+A*-C inc English and maths
0-10% most deprived	259	144	55.6
10-20%	309	129	41.7
20-30%	301	99	32.9
30-40%	336	91	27.1
40-50%	351	74	21.1
50-60%	305	52	17.0
60-70%	330	43	13.0
70-80%	297	35	11.8
80-90%	322	32	9.9
90-100% least deprived	304	9	3.0

[1] Indices of Multiple Deprivation 2004

[2] Including only those maintained mainstream schools with results published in the School and College Achievement and Attainment tables

Source:
School and College Achievement and Attainment Tables 2007

Bob Spink: To ask the Secretary of State for Children, Schools and Families what proportion of (*a*) pupils eligible for free school meals and (*b*) all eligible pupils did not sit five GCSEs in 2007. [199415]

Jim Knight: A total of 32,819 pupils sat fewer than five GCSE or equivalent examinations in 2006/07. This was 5.5 per cent. of all pupils. 9,603 pupils eligible for free school meals sat fewer than five GCSE or equivalent examinations in 2006/07. This was 12.6 per cent. of pupils eligible for free schools meals.

The figures relate to pupils in maintained schools at the end of Key Stage 4.

General Certificate of Secondary Education: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils eligible for free school meals did not sit five GCSEs in 2007. [198669]

Jim Knight: A total of 9,603 pupils eligible for free school meals sat fewer than five GCSE or equivalent examinations in 2006/07. This was 12.6 per cent. of pupils eligible for free schools meals.

The figures relate to pupils in maintained schools at the end of key stage 4.

General Certificate of Secondary Education: Enfield

Joan Ryan: To ask the Secretary of State for Children, Schools and Families what percentage of children in Enfield North achieved more than eight A to C grades in GCSE examinations in (*a*) 1997 and (*b*) 2007. [178809]

Jim Knight: The percentage of pupils in Enfield North who achieved more than eight A*-C grades in GCSE examinations in 1996/97 was 15.8 per cent. The figure for 2006/07 was 31.7 per cent.

The figure for England in 1996/97 was 21.8 per cent. and the 2006/07 figure was 39.3 per cent.

These figures relate to 15-year-olds (age at the start of the academic year, i.e. 31 August) in maintained schools. The 2006/07 figures include a wider range of qualifications (on a basis equivalent to GCSEs).

General Certificate of Secondary Education: Sunderland

Mr. Kemp: To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to increase the number of young people in Sunderland achieving five A* to C grades at GCSE in the last three years. [198484]

Jim Knight: The following table shows the performance of Sunderland secondary schools, compared with figures for England since 1997 and in the last three years.

	1997		2005		2006		2007	
	Percentage 5 A*-C	Percentage 5 A*-C incl English and maths	Percentage 5 A*-C	Percentage 5 A*-C incl English and maths	Percentage 5 A*-C	Percentage 5 A*-C incl English and maths	Percentage 5 A*-C	Percentage 5 A*-C incl English and maths
England	45.1	35.6	56.3	44.3	59.5	45.3	60.8	46
Sunderland	34.4	26.1	51.5	35	55	33.9	59.4	38.5

The general rise in secondary standards nationally and in Sunderland since 1997 may be attributed to improvements in teaching and learning, better school leadership, targeted intervention to tackle school failure, better use of pupil performance data and the ambitious targets that schools and local authorities have set for their pupils. Challenge and support through the National Secondary Strategy has also helped to raise standards in the last three years.

As part of the Chancellor of the Exchequer's Budget for 2008, the Government have now committed a new £200 million package, over the next three years, for a National Challenge to raise standards in secondary schools, with particular focus on schools where fewer than 30 per cent. of pupils achieve five or more good GCSEs including English and mathematics. The National Challenge programme will provide intensive support for the most vulnerable secondary schools, and will empower many head teachers of strong schools to help turn around other schools that are unable to raise low attainment. The programme will help to create new trusts and federations based on successful schools, and, in areas of greatest need, drive forward a faster expansion of the academies programme.

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for Children, Schools and Families which of his Department's programme budgets were administered by the Government offices for the regions in each of the last five years. [195175]

Kevin Brennan *[holding answer 18 March 2008]*: The following grants have been made by this Department, via local government offices, over the last five years.

Grants paid via Regional Local Government Offices (2003-04 to 2007-08)

Connexions grant

Positive Activities for Young People

Millennium Volunteers

Transforming Youth Work Development Fund/ Transforming Youth Work Performance

Improvement Fund

Special Educational Needs and Disabilities Act (revenue)[1]

Special Educational Needs and Disabilities Act (capital)[1]

Youth Capital Fund

Children's Fund (including Partnership Networking Fund)

Teenage Pregnancy

ASPIRE[2]

Children's Trust Migration Pilots[2]

Children not in Education, Employment or Training Demonstrator Pilots[2]

Attainment at 19

Local Delivery

Community Champions

Government Office Network

Government Office Support

Young London Matters

Sustainable Schools

Quality Protects

Education Protects

Children Centres

[1] Budget funded improvements in Disabled Access to Youth Service premises

[2] Budgets only allocated to a limited number of Government Office's

Hearing-Impaired People

Mr. Andy Reed: To ask the Secretary of State for Children, Schools and Families what provision is made for deaf people to access services provided by his Department through call centres. [194951]

Kevin Brennan: The Department for Children, Schools and Families operates a telephone inquiry service that offers a textphone/minicom service for deaf people. We also accept inquiries by email, fax and letter. The DCSF periodically contracts with suppliers to provide telephone helpline services for the public, usually in support of information campaigns; in such instances our contract stipulates that a textphone service should be provided.

JPMorgan

David T.C. Davies: To ask the Secretary of State for Children, Schools and Families how much his Department and its predecessors paid to JPMorgan in each year since 1997; and what the purpose of the payment was in each case. [199590]

Ed Balls: I can confirm that the Department for Children, Schools and Families and its predecessor the Department for Education and Skills have no record of any payments to a supplier JPMorgan during the last nine years. The Department does not hold data prior to financial year 1999-2000.

Ministers: Correspondence

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 31 March 2008, *Official Report*, column 892W, on Ministers: Correspondence, if he will publish the regular emails sent to local authorities by his Department in each week since 18 December 2007, including the bespoke emails containing an item of significant importance; and if he will make a statement. [199521]

Jim Knight: Past versions of the weekly departmental email to local authority (LA) directors of children's services and chief executives (the 'LA email') and the 'bespoke' emails (the 'red LA email') can be viewed via the Department's LA website. These are stored in the 'News and Communications' section of the LA website at

www.dfes.gov.uk/localauthorities/index.cfm

Copies of all LA emails and LA red emails sent by the Department between 18 December 2007 and 3 April 2008 have been placed in the Libraries of the House. Annex A outlines ministerial letters included in LA emails over this period for ease of reference. The LA emails generally contain policy briefings and guidance to help local authorities deliver children's services in line with their statutory responsibilities. In response to our recent survey the local authority audience overwhelmingly confirmed its appreciation for this briefing channel.

Annex A

Ministerial letters included in LA Emails 18 Dec 2007 to 3 April 2008

10 January 2008

Lead Member letter on Care Proceedings Programme. The DGSL, Ministry of Justice and Welsh Assembly Ministers have written jointly to all Lead Members for Children's Services, drawing their attention to ongoing work to reduce delay in care proceedings (brought by LAs under the Children Act 1989).

17 January 2008

Jim Knight letter on school admissions code

Announcement of short breaks pathfinder areas: letter from Ministers, Andrew Adonis and Ivan Lewis.

31 January 2008

Rural School Closures: letter from Schools Minister, Jim Knight

Review of formula for distributing Dedicated Schools Grant: Jim Knight has launched the review of the formula for distributing the Dedicated Schools Grant from 2011-12 through a statement to Parliament.

Call for Evidence: Youth Sector Support Arrangements: Minister Beverley Hughes officially launched a "call for evidence" to gather information, advice and views on the current youth sector support arrangements.

14 February 2008

Raising Standards - Improving Outcomes: joint ministerial letter highlights the importance of local authorities, Jobcentre Plus, Primary Care Trusts and Strategic Health Authorities developing ever stronger and more effective local partnerships, to meet the individual needs of young children and their parents.

21 February 2008

Ministerial letter regarding biennial overview reports: Serious Case Reviews: Kevin Brennan MP has written to all Directors of Children's Services in England and to Chairs of Local Safeguarding Children Boards (LSCBs) to emphasise the importance of acting on the findings of two research reports published on 31 January 2008.

28 February 2008

Improving School Attendance - letter from Kevin Brennan

10 March 2008 (red LA email)

Compliance with the statutory school admissions framework: The letter from Jim Knight outlines issues that have arisen due to non-compliance with the statutory schools admissions framework.

20 March 2008

14-19 Diploma Gateway 2: Jim Knight, Minister for Schools and Learners, announced the outcome of the Diploma Gateway 2 on 19 March.

3 April 2008

Myplace - major new investment in places for young people to go: the letter from Beverley Hughes announces the launch of myplace.

Funding of entry training for educational psychologists: This letter from Lord Adonis to DCSs and chief executives.

Day One Provision for excluded pupils: letter from Kevin Brennan.

Expansion of positive activities for young people: Beverley Hughes, Minister for Children, Young People and Families is writing to Directors of Children's Services regarding how local authorities (LAs) can work towards meeting some of their key objectives by implementing the commitment in Aiming High for Young People, to expand the provision of targeted youth activity programmes.

National Foundation for Educational Research: Publications

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families what steps (*a*) Ofsted and (*b*) the Training and Development Agency for Schools have taken in response to the recommendations of the National Foundation for Educational Research report "Vision versus pragmatism". [197557]

Jim Knight: These are matters for Ofsted and the Training and Development Agency for Schools. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library. A response from the Training and Development Agency for Schools will be sent to the hon. Member and placed in the Library in due course.

Letter from Christine Gilbert, dated 31 March 2008

Your recent parliamentary question has been passed to me as Her Majesty's Chief Inspector, for a response.

You asked what steps Ofsted has taken in response to the recommendations of the National Foundation for Educational Research report 'Vision versus pragmatism'. The question has also been passed to the Training and Development Agency for Schools so that they may reply separately.

The NFER report 'Vision versus pragmatism' is the fifth annual report in a longitudinal research study. In summary, it recommends that Ofsted:

take a broader view of citizenship to include whole-school and the wider community;

ensure that schools are fully aware of the guidance on citizenship in section 5 inspections and ensure that statutory requirements are met;

draw more attention to the place of citizenship in school self-evaluation and Joint Area Reviews;

continue to consult with children and young people to strengthen the student voice;

give more focus to issues of continuity and progression in citizenship.

Ofsted already takes a broad view of citizenship. Inspectors evaluate the quality of personal development and well-being which includes school, local, and global dimensions. Additionally, schools now have a statutory duty to promote community cohesion, which came into effect on 1 September 2007. From 1 September 2008, Ofsted has a duty, under section 5 of the Education Act 2005, to report on the contribution made by schools to community cohesion. We are currently trialling our proposed approach to inspecting this aspect.

When evaluating how well learners contribute to the community, inspectors are specifically asked to consider the development of learners' understanding of citizenship ('Using the evaluation schedule: Guidance for inspectors of schools', September 2007). The self-evaluation form requires schools to assess their compliance with statutory requirements. During inspection, aspects of citizenship are evaluated when inspectors judge the quality of the curriculum. Any non-compliance with statutory requirements is brought to the school's attention, and may be a key issue for improvement.

Discussion with children and young people is an integral part of all inspections and their views are fully taken into account. The annual TellUs3 survey in 2008 asks children and young people for their views on their satisfaction with local services. It specifically asks them about outcomes relating to Every Child Matters, one aspect of which is their contribution to the community. The results of the survey are considered by inspectors undertaking Annual Performance Assessments and Joint Area Reviews. In 2007 over 100,000 children and young people responded to the TellUs2 survey. The Joint Annual Review programme comes to an end in 2008 and will be replaced by the Comprehensive Areas Assessment process from 2009.

Ofsted's subject survey programme provides for the inspection of citizenship in a sample of schools and inspectors seek evidence of standards and progress. This year the survey includes a small sample of primary schools to provide evidence of the extent to which schools are following the non-statutory guidance and the resulting standards.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Children, Schools and Families and will be placed in the library of both Houses.

Physical Education

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families (1) pursuant to the answer of 25 March 2008, *Official Report*, columns 109-10W, on Physical Education: Standards, if he will provide a breakdown of the average time spent by school children on sport by school year group; [198329]

(2) how many and what percentage of children in each school year group participated in at least two hours of high-quality physical education during (*a*) curriculum time and (*b*) curriculum time plus out of hours school sports in (i) mixed schools, (ii) all-boys schools and (iii) all-girls schools in each of the last 10 years; [198380]

(3) how many and what percentage of (*a*) primary schools and (*b*) secondary schools did not provide at least two hours of high-quality physical education during curriculum time in the most recent period for which figures are available. [198379]

Kevin Brennan: The annual PE and School Sport Survey asks questions about pupil participation in at least two hours of high quality PE and school sport and the total number of minutes spent by all pupils on curriculum PE each week. Data are not collected on time spent participating in sport. The 2006-07 survey found:

Total number of pupils per year group

	Mixed	*All boys*	*All girls*
Year 1	530,562	69	109
Year 2	540,746	96	115
Year 3	555,170	207	208
Year 4	561,356	247	264
Year 5	575,384	332	299
Year 6	565,081	363	298
Year 7	508,770	24,656	35,327
Year 8	519,929	25,570	36,156
Year 9	521,648	25,947	36,460
Year 10	539,966	26,362	36,692
Year 11	533,571	26,143	36,287
Total	5,952,183	129,992	182,215

	Mixed	*All boys*	*All girls*
Year 1	462,896	24	50
Year 2	480,341	47	57
Year 3	507,140	135	121
Year 4	518,596	178	171
Year 5	537,098	260	200
Year 6	529,290	285	195
Year 7	471,582	23,526	29,624
Year 8	474,525	23,923	28,222
Year 9	452,472	23,394	26,002
Year 10	366,704	20,513	18,691
Year 11	336,515	19,963	16,169
Total	5,137,159	112,248	119,502

	Mixed	*All boys*	*Percentage All girls*
Year 1	87	35	46
Year 2	89	49	50
Year 3	91	65	58
Year 4	92	72	65
Year 5	93	78	67
Year 6	94	79	65
Year 7	93	95	84
Year 8	91	94	78
Year 9	87	90	71
Year 10	68	78	51
Year 11	63	76	45
Total	86	86	66

Further analysis could be provided only at disproportionate cost.

Data relating to the 2006-07 PE and School Sport Survey found that 31.6 per cent. of primary (5,445) and 65.4 per cent. of secondary (2,174) schools do not provide at least two hours of curriculum time PE each week, for all pupils.

Primary Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many primary schools were found by Ofsted to be providing inaccurate Key Stage 1 results in the latest period for which figures are available; and if he will make a statement. [198350]

Jim Knight: The Qualifications and Curriculum Authority (QCA) rather than Ofsted has responsibility for matters relating to the accuracy of Key Stage 1 (KS1) results. The QCA ensures the accuracy of these results through a national moderation process, which is conducted by the National Assessment Agency (NAA). local authorities (LAs) have a statutory responsibility to moderate teacher assessment judgments to ensure the accuracy and consistency of those judgments.

which are informed by nationally benchmarked tests. The NAA monitors the moderation activity of LAs annually. Its audit of LA moderation has not found evidence of inaccurate KS1 results.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the accuracy of Key Stage 1 results; and if he will make a statement. [198351]

Jim Knight: The Qualifications and Curriculum Authority (QCA) is responsible for maintaining standards. The QCA assures the accuracy of key stage 1 (KS1) results through a national moderation process, which is conducted by the National Assessment Agency (NAA). Local authorities (LAs) have a statutory responsibility to moderate teacher assessment judgments to ensure the accuracy and consistency of those judgments, which are informed by nationally benchmarked tests. The NAA monitors the moderation activity of LAs annually.

Primary Education: Class Sizes

Mr. Allen: To ask the Secretary of State for Children, Schools and Families how many children at key stage 1 in Nottingham were taught in classes of 31 or more in (*a*) 1997 and (*b*) 2007. [190595]

Jim Knight: The information can be found in the following table. Owing to local government reorganisation, figures prior to 1999 for 'City of Nottingham' local authority are not available.

These figures can be found in the Statistical First Release 'Schools and Pupils in England: January 2007 (Final)', which is available on the Department's website here:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

	Number of KS1 pupils taught in classes of 31 or more	*Percentage of pupils taught in classes of 31 or more*
1997	678	8.3
2007	190	3.0

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many primary school classes of over (*a*) 25 and (*b*) 20 pupils there were in the most recent period for which figures are available. [198714]

Jim Knight: The requested information is shown in the following table.

Maintained primary schools' number of classes[1] January 2007, England

	Number of classes taught	
	By one teacher[2]	*By more than one teacher*
20 to 24 pupils	28,648	903
25 and over pupils	99,881	5,647
Total 20 and over pupils	128,529	6,550

[1] Includes middle deemed primary schools.
[2] Classes as taught during a single selected period in each school on the day of the Census in January.

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many primary school classes of (*a*) over 30, (*b*) over 25 and (*c*) over 20 pupils there were in 1996-97. [199384]

Jim Knight: The requested information is shown in the following table.

Maintained primary schools' number of classes[1] January each year 1997 and 2007, England

	Number of classes taught	
Size of class	*By one teacher*	*By more than one teacher*
1997		
Over 20 pupils	134,150	7,840
Over 25 pupils	104,950	6,740
Over 30 pupils	40,830	3,130
2007		
Over 20 pupils	124,800	6,440
Over 25 pupils	90,740	5,330
Over 30 pupils	16,400	1,740

[1] Includes middle deemed primary schools.
[2] Classes as taught during a single selected period in each school on the day of the Census in January.
Note:
Numbers have been rounded to the nearest 10.
Source:
School Census

Private Education: Per Capita Costs

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what projections he has made of the amount of funding per capita at independent day schools in each of the next 10 years for the purposes of providing equivalent funding per maintained pupil. [197372]

Jim Knight: The Department does not make projections of funding per capita at independent day schools. I refer the hon. Member to the answer given on 28 January 2008, *Official Report*, columns 170-72W, to the hon. Member for Beverley and Holderness (Mr. Stuart), showing independent day school average annual day fees for the five years to 2006-07.

Pupil Exclusions

Mr. Love: To ask the Secretary of State for Children, Schools and Families how many pupils received permanent exclusions for the category of one-off offences, broken down by offence, in (*a*) primary non-academy schools, (*b*) primary academy schools, (*c*) secondary non-academy schools and (*d*) secondary academy schools in the latest period for which figures are available. [198439]

Kevin Brennan: The numbers of permanent and fixed period exclusions by reason are published annually by the Department in the Statistical First Release 'DCSF: Permanent and Fixed Period Exclusions from Schools and Exclusion Appeals in England', the latest of available data cover the school academic year 2005/06 which can be accessed at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml

There are 12 categories describing the various reasons for exclusion and these are detailed in the following table. The reason for exclusion was not collected for primary schools in the academic year 2005/06. Analysis of academies by reason for exclusion has not been published and could only be produced at disproportionate cost.

Maintained secondary schools[1]: Number and percentage of permanent and fixed period exclusions by reason for exclusion: England, 2005/06

	Number of permanent exclusions[2]	Percentage of all permanent exclusions[2,3]	Number of fixed period exclusions	Percentage of all fixed period exclusions[3]
Physical assault against a pupil	1,260	16	62,670	18
Physical assault against an adult	740	9	8,240	2
Verbal abuse/ threatening behaviour against a pupil	330	4	12,730	4
Verbal abuse/ threatening behaviour against an adult	900	11	79,370	23
Bullying	80	1	5,270	2
Racist abuse	30	0	3,370	1
Sexual misconduct	110	1	2,620	1
Drug and alcohol related	450	6	8,360	2
Damage	170	2	9,390	3
Theft	220	3	7,770	2
Persistent disruptive behaviour	2,370	30	72,340	21
Other	1,340	17	71,720	21
Total[4]	7,990	100	343,840	100

[1] Includes middle schools as deemed.
[2] For the 2005/06 school year, information on the reason for exclusion was collected via the School Census for the first time for secondary schools only (the Termly Exclusions Survey has discontinued). For exclusions during 2006/07, information on the reason for exclusion will also be collected from primary and special schools. See Notes to Editors 2.
[3] Estimates based on incomplete pupil level data. See Notes to Editors 4.
[4] The number of exclusions by reason expressed as a percentage of the total number of exclusions.
[5] There were 2 permanent and 4 fixed period exclusions for which circumstance was not known - these were included in the 'total' column only.

Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

School Census.

Pupils: Absenteeism

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils took authorised absence in (*a*) 1997 and (*b*) 2007. [182748]

Kevin Brennan: The available information for the academic year 1996/97 is shown in the table.

The latest available information for 2007 covers autumn term 2006 and spring term 2007 and is shown in the table.

Maintained primary and secondary schools, and city technology colleges[1]: authorised absence by type of school, 1996/97, England

	Number of day pupils of compulsory school age	Authorised absence Percentage of half days missed[2]
Maintained primary schools	3,770,800	5.60
Maintained secondary schools	2,790,040	8.10
City technology colleges	12,308	6.10

[1] Includes middle schools as deemed.
[2] The number of sessions missed due to authorised absence expressed as a percentage of the total number of possible sessions.

Note:
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.

Source:
School Absence Survey.

Maintained primary and secondary schools, city technology colleges and academies[1]: authorised absence by type of school, autumn term 2006 and spring term 2007, England

	Number of day pupils of compulsory school age[2]	Number of pupil enrolments[3,4]	Authorised absence Percentage of half days missed[5]
Maintained primary schools	3,306,940	3,428,390	4.73
Secondary schools[6]	2,954,940	3,016,240	6.30

[1] Includes middle schools as deemed.
[2] Pupil numbers are as at January 2007. Includes pupils aged five to 15 with sole and dual (main) registration. Excludes boarders.
[3] Number of pupil enrolments in schools between 1 September 2006 and 9 April 2007. Includes pupils on the school roll for at least one session who are aged between five and 15, excluding boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school).
[4] There were some 32,498 cases from primary schools 17,238 cases from maintained secondary schools, CTCS and academies for whom absence data were missing. These cases have been excluded from the total number of pupil enrolments.
[5] The number of sessions missed due to authorised absence expressed as a percentage of the total number of possible sessions.
[6] Includes maintained secondary schools, city technology colleges and academies.

Note:
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.

Source:
School Census.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of persistent absentees from school obtained *(a)* five GCSEs A*-C and *(b)* five GCSEs A*-C including English and mathematics in the last period for which figures are available. [200099]

Jim Knight: The information can be provided only at disproportionate cost.

Pupils: Assessments

Mr. Lidington: To ask the Secretary of State for Children, Schools and Families if he will place in the Library details of the formula used to adjust the scores of school pupils over key stages 3 and 4 in order to measure contextual value added for a school. [188732]

Jim Knight: I am placing a copy of the relevant formulae in the Library. These include methodologies for both maintained mainstream and special schools.

Pupils: English Language

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* primary schools, *(b)* secondary schools and *(c)* sixth form colleges had teachers who worked overtime to teach children with English as an additional language in the latest period for which figures are available. [199355]

Jim Knight: The information requested is not collected centrally.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* secondary schools and *(b)* sixth form colleges are running the International English Language Testing System; what the estimated costs are of running the International English Language Testing System; and what financial support local authorities provide for schools and sixth form colleges running the International English Language Testing System. [199356]

Jim Knight: No secondary schools or sixth form colleges ran the International English Language Testing System (IELTS) last year. Information for 2007-08 is not yet available.

Until 2007-08, IELTS was funded as an exception to all other International English language qualifications. However, from September 2007 the newly accredited IELTS qualification, now called Cambridge ESOL certificate in English, is not eligible for LSC funding.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* primary and *(b)* secondary schools in (i) Basingstoke, (ii) Hampshire and (iii) England have (A) at least one specialist teaching assistant for pupils with English as an additional language, (B) at least one lead teacher for ethnic minority pupils, (C) at least one specialist teaching assistant for pupils with English as an additional language and one lead teacher for ethnic minority pupils and (D) more than one specialist teaching assistant for pupils with English as an additional language and a lead teacher for ethnic minority pupils. [199358]

Jim Knight: Information for the number of specialist teaching assistant, for additional language, is not collected centrally.

The following table shows the number of schools in Basingstoke constituency, Hampshire local authority and England that had at least one teacher recorded for ethnic minority pupils in January 2007.

Number of local authority maintained primary and secondary schools in Basingstoke constituency, Hampshire local authority and England which have at least one teacher recorded for ethnic mi notify pupils, January 2007

	Basingstoke	Hampshire	England
Primary			
Number of schools	1	5	1,218
Percentage of total	2.5	1.2	7.0
Secondary			
Number of schools	—	3	399
Percentage of total	—	42	11.9

Source:
School Census

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what support from local authorities is available to schools to provide resources to teach children who have English as an additional language; what assessment has been made of the adequacy of this support; and if he will make a statement. [199359]

Jim Knight: The number of pupils for whom English is an additional language (EAL) rose from 500,000 to 790,000 between 1997 and 2007. Let me put that in perspective. Such children now comprise 12 per cent. of all pupils as against 7.5 per cent. in 1997 and 9 per cent. in 2001. Funding for EAL children has fully kept pace with these increasing numbers through

an element within the dedicated schools grant (DSG) for primary schools which was some £256 million in 2004-05, rising to £299 million in 2007-08, with a further rise to over £330 million in 2010-11—an 11 per cent. real terms increase on the 2004-05 level;

a substantial provision for EAL through the ring fenced ethnic minority achievement grant (EMAG), which has risen from £162 million in 2004-05 to £179 million in 2007-08 and will rise to £206 million by 2010-11—a 9 per cent. increase on the 2004-05 level;

in addition an exceptional circumstances grant (ECG) has been introduced to reflect changes in local authorities' pupil numbers which occur after the three year indicative allocations of DSG have been announced.

These increases form part of the substantial overall increase in school funding. Over the past 10 years since 1997, overall per pupil revenue funding for schools has increased by 67 per cent. in real terms. We expect local authorities to be able to manage new pressures from within these increases, and to ensure that the resources reach the individual schools affected by new arrivals and EAL speakers.

The Government's policy is to encourage rapid English language acquisition as the key to successful integration into the UK education system and the wider community.

Newly arrived pupils are given additional help in learning English by specialist advisers and teachers of English as an additional language (EAL) and bilingual classroom assistants, who work in collaboration with classroom teachers to plan lessons and teaching materials. The evidence indicates that EAL pupils typically catch up with their peers in attainment terms within two years of first admission to a school a England.

The Government recently launched a new arrivals excellence programme intended to provide practical support for local authorities, schools and individual teachers. This programme is backed by other practical support including measures to improve the supply, training and qualifications of EAL specialist staff, and to deliver new web-based teaching and learning materials.

Pupils: Languages

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what are the 10 most common first languages spoken among pupils who have English as an additional language are in *(a)* primary schools, *(b)* secondary schools and *(c)* sixth form colleges in (i) Basingstoke, (ii) Hampshire and (iii) England. [199360]

Jim Knight: Where a pupil's first language is not English, schools may record the specific languages. Provision of this level of information is not compulsory. In January 2007, specific language data were provided for just over half the pupils in maintained primary and secondary schools. The Department does not hold complete data for the specific language categories.

The requested information is not collected from sixth-form colleges.

Pupils: Railways

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families if he will make it his policy to liaise with the Secretary of State for Transport and others to create a scheme whereby groups of schoolchildren may use the rail network at reduced rates in peak periods in order to travel to London to undertake activities with the Parliamentary Education Service. [197299]

Jim Knight: Learning outside the classroom is a key part of the new secondary curriculum. We are encouraging schools to plan their curriculums to meet the needs of all their pupils, including engaging and relevant learning to bring the curriculum to life.

It is schools which are best placed to decide which specific learning experiences outside of the classroom meet the curriculum and personal development needs of their pupils. That is why the Department for Children, Schools and Families launched the Learning Outside the Classroom Manifesto in November 2006, asking organisations that offer such experiences to pledge their support to schools wanting to provide them. Nearly 1,000 organisations have signed up to support the Manifesto vision so far.

Train operators already offer discounted travel for children under the age of 16 and group travel discounts, which are very popular with school parties and available to passengers of all ages.

Rackspace

Mr. Hands: To ask the Secretary of State for Children, Schools and Families what the value was of each contract awarded to Rackspace by his Department and its predecessors in each of the last nine years. [197512]

Kevin Brennan: Our financial records show that the Department and its predecessor has not made any payments to the company Rackspace in the last nine years.

School Leaving

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the likely cost to the public purse of raising the education and training leaving age in each of the first 10 years of its implementation. [200133]

Jim Knight: The Department has not estimated the costs of raising the participation age (RPA) to 18 in precisely the form requested.

However, as part of the impact assessment (IA) which was published alongside the Education and Skills Bill on 29 November 2007, the costs 'per cohort of young people' were set out alongside the benefits. The costs were estimated to be around £800 million per cohort once a steady state had been reached (in 2016-17), while the economic benefits were estimated to be around £2,400 million on the same basis.

The IA can be accessed at

http://www.dcsf.gov.uk/publications/educationandskills/

and I have placed a copy in the Library of the House.

Schools

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what percentage of children gained five A* to C grades in schools that had *(a)* up to 1,000, *(b)* between 1,000 and 1,999 and *(c)* over 2,000 pupils in 2006-07. [188579]

Jim Knight: I refer the hon. Member to the reply given on 20 February 2008, *Official Report*, columns 767-68W.

Schools: Admissions

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families how many pupils in each London borough did not have a school placement at the start of the 2007-08 academic year, broken down by age. [196412]

Jim Knight: This is the first year that local authorities have been required to supply data to the Secretary of State on secondary school offers. Data on offers made to parents on national offer day for the 2008-09 academic year were published on the DCSF research gateway (www.dcsf.gov.uk/rsgateway) on 11 March at local authority, regional and national levels. The Department does not require local authorities to provide the secondary school offers data by age or collect data relating to primary school offers.

Schools: Carbon Monoxide

Mr. Pickles: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of *(a)* primary and *(b)* secondary schools had audible carbon monoxide alarms fitted in each year since 1997; [200180]

(2) if he will place in the Library all guidance issued by his Department to schools on the use of carbon monoxide alarms. [200182]

Jim Knight: We do not know how many schools have been fitted with carbon monoxide detectors. Carbon monoxide detectors are not required under any statutory regulation, but a number of local authorities have installed CO detectors in some or all of their schools following risk assessments. They have been installed in locations such as boiler rooms, kitchens and other areas containing gas-fired appliances. They have been installed in primary and secondary schools and in both new and existing schools.

The DCSF, the Health and Safety Executive, the Health Protection Agency and the Confederation of Registered Gas Installers encourage the use of carbon monoxide detectors as part of a strategy for safe combustion in schools. However, regular maintenance, testing and inspection of gas and fossil fuel fired appliances are of paramount importance. The principles of gas safety, enforced by the gas safety regulations, rely on thorough testing at initial commissioning and regular maintenance by certified engineers thereafter. It is good practice to inspect and test all gas, oil and solid fuel fired appliances every year. As far as we know, no official guidance has been issued to schools on the use of carbon monoxide alarms.

Schools: Closures

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary schools closed in (i) Cambridgeshire, (ii) Cumbria, (iii) Devon and Cornwall, (iv) Durham, (v) Dyfed-Powys, (vi) Gloucestershire, (vii) Lincolnshire, (viii) Norfolk, (ix) North Yorkshire, (x) West Mercia and (xi) Wiltshire in each of the last nine years. [192456]
